The position chosen by the allied forces to give battle to the advancing invaders is declared to be most favorable, having near its center, a strongly entrenched camp at the Chalons-Surh-Marne.

The allies have conducted their operations so successfully that a portion of the German forces have been forced to retire. The Germans had reached a region around the Coulommiers and La Ferte-Gaucher, respectively between 30 and 40 miles from Paris when detachments covering the flanks of the main German army, encountered the advance detachments of the allies, who drove them back.

The wounded began coming into Paris this afternoon Lieutenant Colonel Rousset, military critic of La Liverte said the German armies had placed themselves in a position, to the east, and northeast of Paris, which might become hopeless in case they suffered a check.

A Havas agency dispatch from Zurich, Switzerland, says the newspapers there announce that Germany has rejected Austria's request for a loan, and that bankers there have taken similar action.

Bordeaux, Sept. 8 (via Paris)—A soldiers' newspaper issued by the government for the benefit of the army, contains an article by Rev. Emile Wetterle, a member of the Reichstag from Alsace-Lorraine, declaring the 1,500,000 people in Alsace-Lorraine are waiting for the French soldiers to rescue them "from under the heel of a pitiless despot."

Paris, Sept. 8 (via London).—It is officially announced that the Germans are retreating from the line of Nanteuil Le Hardouin to Verdun after vigorous action with French and British troops.

London, Sept. 7.—An Exchange Telegraph company's dispatch from Volona, Albania, says a complete Turkish government has been installed there today. Genad Adin Bey, former Turkish official, will replace the provisional government, which took charge of affairs when Prince William of Weid withdrew from his kingdom.

An Evening News dispatch says: "A telegram has been received from General Pau announcing a victory by allied forces under Field Marshall Sir John French commanding the British, and General D'Amade at Precy Sur Ois, about 25 miles north of Paris.

"The allies had drawn across the northern line with the center at Precy. The English troops were on the left, the French on the right. The former had in front of them the imperial guard under Crown Prince Frederick William.

The British official bureau has received no confirmation of this message.

Always the Favorite Light

Even in the big cities where the homes are lighted by gas or electricity, you will find the kerosene lamp the favorite reading light.

Because its soft mellow glow does not tire or strain the eyes—if you have a *good lamp*.

Three million middle western families read, sew, and study through the long winter evenings by the clear, steady rays of *Rayo Lamps*.

A *Rayo* on your center table will give everyone plenty of light. No need to sit right under it to see. No flicker, smoke or odor. *For best results use Perfection Oil.*

Rayo Lamps

TO TAKE ELABORATE CENSUS

Statistics of the Prevalence and Possible Spreading of Tuberculosis Will Be Ascertained.

A tuberculosis census of thousands of churches in various parts of the country will be taken in September, under the direction of the National Association for the Study and Prevention of Tuberculosis. The census will be part of the preparation for the fifth annual Tuberculosis day, to be observed during the week of November 29. The ministers of several thousand churches will be asked to report on the number of deaths from tuberculosis in the last year, the number of living cases in their parishes on September 1, the number of deaths from all causes, and the number of members or communicants. These figures will be made the basis of an educational campaign, which will culminate in the Tuberculosis day movement, for which occasion sermon and lecture outlines and other forms of tuberculosis literature will be distributed free to ministers.

Last year nearly 75,000 churches, schools and other bodies took part in the Tuberculosis day observance. The movement had the indorsement of leading church officials of every denomination. More than 1,200 anti-tuberculosis societies, scattered all over the country, will work this year to make Tuberculosis day a success.

An Optimist.

Ex-Police Commissioner Rhinelander Waldo, who established a policemen's public library that has been a great success, praised, at a luncheon in New York, New York's police system.

"It has especially been good since Mayor Gaynor's day," Mr. Waldo said, and then, in response to an objection:

"Oh, that's nothing. Be an optimist. Don't mind trifles. Look, like the henpecked husband, on the bright side of things.

"'By gosh,' a henpecked husband said, 'I hear some chaps kicking because their wives always have the last word. Now, for my part, to give my wife the last word never bothers me a bit.'

"'It don't!'

"'No, on the contrary, I always feel thankful when she gets to it.'"

Decidedly Unsuitable.

Parson Johnson—Why don't yo' come to church, Sam?

Sam Shinn—Nothin' suitable to wear, parson.

Parson—The Lord won't notice yo' clothes, Sam.

Sam—No, but Deacon Butts might recognize his shirt, and bre'r Simpson his umbrella.—Puck.

Out of a Job.

"I used to be well off before the war started."

"Poor man, is that so? And what was your business?"

"I was a lecturer for international peace."—Detroit Free Press.

FOOD FACTS
What An M. D. Learned.

A prominent Georgia physician went through a food experience which he makes public.

"It was my own experience that first led me to advocate Grape-Nuts food and I also know, from having prescribed it to convalescents and other weak patients, that the food is a wonderful rebuilder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and sick patients gain very rapidly, just as I did in strength and weight.

"I was in such a low state that I had to give up my work entirely, and went to the mountains of this state, but two months there did not improve me; in fact, I was not quite as well as when I left home.

"My food did not sustain me and it became plain that I must change. Then I began to use Grape-Nuts food and in two weeks I could walk a mile without fatigue, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life.

"As a physician who seeks to help all sufferers, I consider it a duty to make these facts public." Name given by Postum Co., Battle Creek, Mich.

Trial 10 days of Grape-Nuts, when regular food does not seem to sustain the body, works wonders. "There's a Reason."

Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

PSYCHOLOGY OF THE KISS

Learned English Authority Has Divided Osculation Into Two Distinct Classes.

In a learned disquisition on kisses Sir Ray Lankester divides them into two classes. "One class takes the form of nose-rubbing—each kiss giver rubbing his nose against that of the other. The second kind, which is that familiar to us, consists in pressing the lips against the lips, skin or hair of another individual and making a short, quick inspiration, resulting in a more or less audible sound. Both kinds are really of the nature of 'sniffling,' the active effort to smell or explore by the olfactory sense. The kissing of one another by grown-up men was abandoned in this country in the eighteenth century; but we have most of us witnessed it abroad, and perhaps been unexpectedly subjected to the process, as I once was by an affectionate scientific colleague. The Russians are the most profuse and indiscriminate of European peoples in their kissing. I have seen a Russian about to go on a journey devoured by the kisses of his relations and household retainers, male and female."

A bird in the hand may have been some time in cold storage. Then what?

W. L. DOUGLAS

Notice of Mortgage Foreclosure Sale.

Whereas default has been made in the conditions of a certain Mortgage containing a power of sale, duly executed and delivered by F. A. Ladwig and Clara Ladwid, his wife, Mortgagors, to Oscar A. Trytten, Mortgagee, bearing date the 28th day of April, 1913, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 16th day of May, 1913, at 2 o'clock P. M., in Book 69 of Mortgages, on page 369, such default consisting in the non-payment of the sum of Eighty one and 20-100 Dollars, ($81.20) interest on the principal of the note secured by said Mortgage, which interest became due and payable on the 28th day of April, 1914, according to the terms and conditions of said note and Mortgage; and, Whereas, the undersigned, the Mortgagee and present owner and holder of said mortgage, has elected to declare, and has declared, the whole amount, principal and interest of the note secured by said mortgage to be due and payable, and, Whereas, the undersigned has been compelled to pay the sum of $60.30 interest on a prior mortgage on the premises hereinafter described, such interest being in default; and, Whereas, the amount claimed to be due on said mortgage at this date, including said interest paid on the said prior mortgage, is the sum of Thirteen Hundred Forty and 26-100 Dollars ($1340.26), and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage or any part thereof, NOW, THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the power of sale contained in said Mortgage, and pursuant to the statue in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

The Northwest quarter of the Southeast quarter (NW 1-4 SW 1-4) and the Southwest quarter of the Northwest quarter (SW 1-4 NW 1-4) of Section Seventeen (17), and the East half of the Southeast quarter (E 1-2 SE 1-4) of Section Eighteen (18), all in Township One Hundred and Fifty-five (155) North, of Range Fortyfour (44) West, of the 5th Principal Meridian, in the County of Marshall and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall county at the front door of the Court House, in the city of Warren in said County and State, on the 20th day of October, 1914, at 10 o'clock in the forenoon of that day, at public vendue, to the highest bidder for cash, to pay said debt of Thirteen Hundred Forty and 29-100 Dollars ($1340.26), and interest and the taxes, if any, on said premises, and Seventy-five Dollars ($75.00) Statutory Attorney's fees, as stipulated in, and by said Mortgage in case of foreclosure, and the disbursements allowed by law, subject to redemption at any time within one year from the day of sale, as provided by law.

Dated August 27, 1914.

Oscar A. Trytten, Mortgagee.
H. O. Kjomme, Attorney for Mortgagee, Thief River Falls, Minnesota.

Commencing Sunday Aug. 30th. Sunday School will be held in the Free Mission Church at 10-30 o'clock every forenoon.

We have just received information that the Herrick Seed Co. of Rochester, N. Y. wants lady or gentlemen representatives in this section to sell all kinds of Roses, Shrubs, Trees and Seeds. They inform us that without previous experience it is possible to make good wages every week. Any one out of employment write them for terms and enclose this notice.116

Deposit Here
Check on Us

A bank account is both a necessity and a convenience to the farmer. With a check book in his pocket and his money in this bank, he can pay out in any amount he has occasion to use, make exact change and know that the proper party will receive his money.

During the busy season, he may send his checks by mail, often saving a long trip to town.

Likewise, such checks as he may receive can be mailed to us and his account credited. These sums are then subject to his order or check.

The one fact that his checks, when cancelled and returned to him, are receipts for each payment made, makes a check account with this bank an important factor in the proper management of the farmers' business.

We will be glad to have your account at this bank.

If you can't say something good about your fellow men—it's best to be quiet.

INVASION OF FRANCE IS BELIEVED BLOCKED

Germans Fall Back--Russians Defeat Austrians.

Claimed Germany Has Withdrawn Support From Her Ally in East to Strengthen Own Frontier and Help Defeat Soldiers in France.

Paris, Sept. 15.—"The allies have won a great general victory. The Germans have been routed everywhere."

May Mean Invasion Failed.

This official communique from the French war office at Bordeaux, which heretofore has been coldly conservative even to the point of advising that the public avoid becoming oversanquine, was accepted generally in Paris as the official announcement that the German invasion of France had failed.

Rout Is Confirmed.

This is the second week of the German retreat. Every official communication tends to confirm the utter rout of the invaders.

Reports from the front told of the evacuation by the Germans of Amiens in the department of Somme and their withdrawal from Pont-a-Mousson, 20 miles north of Nancy, which they had already quit.

Germans Abandon Plan.

This important center on the Moselle river in the department of Meurthe-et-Moselle, lies between Nancy and Metz. Its evacuation by the Germans indicates the possible abandonment of the reported German plan to maintain this line of communication for supplies with Metz and Thionville, of Diebenhofen as basis. Nomeny, ten miles east of Pont-a-Mousson, also was evacuated.

The troops evacuating Amiens have fallen back towards the east between Soissons and Rheims. The latter place has been reported abandoned by the Germans, but no official confirmation has been received. If it is true, as reported, that the allies have already occupied Rheims, inestimable damage will have resulted to the Germans.

What Loss Means.

The loss of this position will mean the cutting of their communications by which ammunition and supplies may be brought from East Belgium and Luxemburg. The garrison of Amiens is reported in one dispatch to have retired to the northward. In their retreat the invaders failed to defend the Marne to the southeast of Rheims.

The news of the great victory of the French troops was received by Paris with the same dignified calm as had greeted the adverse reports during the French retreat from Belgian frontier at the beginning of the operations.

Allies Take Artillery.

Already much of their heavy artillery and equipment has been taken and is in the hands of the allies, who are well fed, fresh, and are pursuing the enemy day and night, giving him no time to rest or sleep.

On the French left the allies have forced the already retreating Germans back to a line 62 miles to the rear of the position they occupied a week ago, when the German invasion reached its high water mark.

Prisoners captured in small squads and in larger sections, invariably betrayed utter exhaustion.

Apparent Aim of Kaiser.

Experts here believe the kaiser has rearranged his campaign settlement to a better series of furious attacks on the right wing at and below Verdun. This is the last chance Germany has of maintaining its broken armies in France. If the kaiser's plan is successful and the great fortress of Verdun is reduced, it will have the immediate result of lessening the pressure of the French right and will deflect the French center, which naturally will be called to its support.

German Support Withdrawn.

Petrograd, Sept. 15.—The Austrian army on the eastern frontier has been utterly demoralized by the overwhelming defeats administered by the Russians who have captured to date 120,000 Austrians, including 800 officers.

Germany has withdrawn her support from her ally because of her reverses in France. The Germans are again moving their troops from the east to the west.

With these successes already chronicled there now comes a report that two of the Austrian armies are surrounded and their surrender is imminent. Already from these armies 60,000 more prisoners have been taken, including 1,100 officers.

Many Captures Reported.

Of the captures included in the general total the first Austrian army under General Von Auffenberg constituted 300 officers, 28,000 soldiers and 400 guns, while the second Austrian army of 70,000 men and 600 officers were captured.

It is interesting to note that this flood of Russian successes comes during the festival in honor of the memory of Saint Alexander Nevsky, the Russian warrior who first conquered the Germans.

Invading Austrians Imperiled.

The Austrian army invading south Poland has been completely defeated by the Russians as a result of the fighting about Lemberg and its retreat is imperiled by the capture of Tomaszow by the Russians.

As soon as these operations are completed, it is reported, a huge Russian army will take up its march on Germany, according to General Sukhomlinoff, the Russian minister of war.

Fighting Still Rages.

Petrograd, Sept. 14.—German troops brought to east Prussia from the west have concentrated on the Alle. They have begun to advance and large columns have crossed the line of the Mazurian lakes. The Russian advance guard, while delaying the German advance has retired eastward.

In Poland General Dankl's army is still being forced back by the Russians beyond Kronik and this part of the Lublin district is almost free from Austrian troops. On the line from Tomazow and Rawa Ruska to the Dniester river fighting is still raging fiercely.

Reports Are Conflicting.

London, Sept. 14.—Matters are getting a little more interesting in East Prussia, where for a while Russia is said to have had things virtually her own way. The Germans are reported now to have moved some of their best troops into this section of the theater of the war and the Russians are said to have been compelled to withdraw.

Petrograd says its only retirements have been by its advance guards, who are keeping in touch with the German advance, but the Germans claim to have scored another victory over the Russians, who are said to have received a rather severe check between Aug. 25 and 27.

It is possible the Austrians have kept the Russians busy in Galicia just long enough to enable Germany to get her troops into East Prussia before the Russians were able to dispose of the Austrians and sweep down on Silesia, Posen and Prussia.

Cracow Has Fallen.

Petrograd, Sept. 12.—Cracow, the strongest Austrian post in Galicia, and one which obstructed the advance of the huge Russian center army upon Breslau, its next objective, is reported to have fallen before the furious attack of Russian cavalry and infantry under cover of the disastrous fire of the heavy siege guns.

The forts to the east and north of the city were shelled incessantly until finally the Austrian guns were silenced and the city was occupied by the Russian troops.

Only Obstacle to Breslau.

Cracow is the capital of Austrian Poland and lies on a broad plain on the left bank of the Vistula. It is only 30 miles from the German border and between it and Breslau little fortified resistance is offered.

With Przemyl and Jaroslav invested by the Russians and the way for the advance toward Breslau practically cleared, the investment of the latter city, which is only 190 miles from Berlin, is imminent.

Claim 40,000 French Taken.

Berlin, Sept. 10.—(By wireless via Sayville, L. I.)—Official announcement was made at army headquarters that the French fortress of Maubeuge on the Sambre river, has fallen.

The Germans took 40,000 prisoners, including four generals. Four hundred guns also were captured. The German military railway lines are now clear of troops.

Japs Favor Russian Alliance.

Petrograd, Sept. 14.—Japanese officials have declared, according to a Russian journalist, that the whole of Japan is in favor of an alliance with Russia. Travelers returning from Constantinople and Sofia bring the report that there is a famine in the Turkish capital. Reports reching here say that Berlin is trying to give little importance to the German retreat. Political circles in Vienna are much depressed because of the inability of the German army to give further assistance to Austria.

SCENE ON THE DOCKS OF ANTWERP

SERVIA OVERJOYED BY VICTORY

TAKE CITY OF SEMLIN FROM AUSTRIANS.

Capture Stronghold Across River From Belgrade—Had Long Been Planned—Serbs Hid in Hills.

Nish, Servia, Sept. 10, via London, Sept. 14.—The Servians occupied Semlin, across the river from Belgrade, Thursday morning after a bloody battle.

Details of Capture.

Rome, Sept. 14, via Paris.—The capture of Semlin by the Servians had long been planned and the operations were conducted with great ability, according to a dispatch received here by the Servian minister.

"Several Servian divisions," the dispatch says, "camped on the hills extending from Tophider to Resnick, occupying all the heights about Mount Avala. The Austrian garrison in Semlin did not suspect the presence of the Servians and continued the bombardment of Belgrade daily without causing great damage, until the Servians surprised them.

"The audacity of the Servian movement as, in order to reach Semlin the Servians were compelled to cross the Save and Danube rivers on pontoons built during the night. They also took heavy artillery with them."

Great Enthusiasm Follows.

London.—Reuter's Rome correspondent sends the following message received in Rome from Nish, Servia:

"The taking of Semlin has caused great enthusiasm throughout Servia. The people are proud that their army, after seven weeks of war, not only has prevented a powerful enemy capturing Belgrade, but has inflicted humiliation upon them by forcing them to evacuate their base of operations against Servia. The victory has had a most wonderful moral effect upon the army and the people."

American Hospital "Magnificent."

London, Sept. 14.—"The American hospital at Neuilly is a magnificent example of what can be done in a few weeks with the help of ample funds," says the Paris correspondent of the Daily Telegraph.

French Claim Muelhausen Again.

London, Sept. 14.—Dispatches from Basel, Switzerland, state that the French have recaptured Muelhausen, says a dispatch to the Exchange Telegraph company from Rome.

Cossacks Invade Hungary.

Bucharest, Sept. 11.—Roumania Sept. 10.—Roumanian frontier guards have notified the government that Russian troops have begun an invasion of Hungary by sending a large force of Cossacks and infantry through Borgo Pass.

Americans Ordered From Paris.

Paris, Sept. 10.—Ambassador Herrick, Wednesday, ordered all Americans, whether visitors or residents, to leave Paris.

Austria Can't Make Peace.

Copenhagen, Sept. 14 via London.—The Vossische Zeitung of Berlin declares that previous to the outbreak of the war Germany and Austria-Hungary agreed, as now have the parties to the triple entente, not to make peace separately.

8,210 on Latest Casualty List.

Copenhagen, Sept. 14.—The 21st German casualty list has been issued in Berlin. It contains the names of 8,210

DIPLOMATS OF U. S. SEEKING EXCHANGE OF PEACE TERMS

FACT KAISER'S REPLY TO AMERICAN SUGGESTION IS DELAYED RENEWS HOPE AT WASHINGTON.

WILSON AND BRYAN ALERT FOR SLIGHTEST OPENING

Pointed Out That Willingness of Germany to Arbitrate Might Influence the Allies, Though They Seek Decisive Victory, as Reported.

Washington, Sept. 15.—The knowledge that Emperor William has been considering for several days a message from the United States government inquiring, in effect, if Germany was desirous of discussing peace measures, has set official and diplomatic Washington on the alert for a possible exchange of peace terms between the belligerents.

Seek Kaiser's Attitude.

It had not been a matter of general knowledge that beginning with the dinner in New York a week ago, attended by Count von Bernstorff, the German ambassador, and Oscar Straus, American member of The Hague Peace Tribunal, an informal movement has been under way to learn Germany's attitude toward peace.

Diplomatists and officials discussed among themselves the details of the seven days of peace parleying and there was a noticeable absence of the indifference with which talk of peace was regarded several days ago. This was due, it was believed, largely to the apparent turn in the tide of battle in France and the feeling among diplomatists of the allied powers that the German troops soon would be forced back to the borders of France and Belgium.

Might Change Aspect.

Notwithstanding the vigorously phrased statements throughout the news channels last week that Great Britain, France and Russia would not make peace until they had decisively defeated Germany, it was admitted in many quarters here that a favorable answer from Emperor William to the American government's inquiry might change the entire aspect of the situation.

U. S. Officials on Alert.

One thing has become apparent to close observers of the situation—President Wilson and Secretary Bryan are keenly alert for the slightest opening in the diplomatic situation abroad which might encourage them to press the powers for an acceptance of mediation.

It is considered likely now that the president may not wait for the powers to take the initiative and that if an indication arises from an apparently authoritative quarter of a willingness on the part of the belligerents to discuss peace terms, the American government will be quick to take advantage of the opening.

Peace Must Be Permanent.

Both Great Britain and France have stated unequivocally to the American government that they were always willing to talk peace but must know definite terms declaring with emphasis their belief that the peace of Europe obtained through the present war must be permanent and not temporary truce.

The allied powers have informed the American government that owing to Germany's disregard for the treaty which guaranteed the neutrality of Belgium, they would be inclined to doubt the value of effectiveness of whatever treaty of peace might now be signed unless German militarism were totally crushed.

German Soldiers Slept Soundly.

Paris, Sept. 12.—During the third day's fighting in the battle on the Marne a detachment of the French, which had chased the enemy out of a village, was hailed by an old woman, who led them to a barn where there were still 30 Germans, telling them to make no noise as they were asleep. A man crept noiselessly into the barn and found the Germans sleeping so soundly that it took half an hour and a tremendous shaking to wake them. One explained that he had not slept for three days.

German Cruiser Sighted.

Mobile, Ala., Sept. 12.—Captain A. G. Dribbel of the torpedo boat Sommers, which arrived here, reported that en route two days out of Key West he saw the German cruiser Dresden being coaled by merchantmen off Pensacola and so advised the navy department.

Art Treasures in Armor.

Paris, by mail to New York, Sept. 12.—Unique among the protective and defensive measures which Paris has adopted are those by which the city hopes to save some of her most famous art treasures. The Louvre has been completely done over. Great steel plates have been fixed about the ceilings and walls of a room which now shelters the famous Venus de Milo, the "Winged Victory" and La Gioconda. The famous Grecian room, containing priceless statutes by Phidias, is filled with sacks of earth.

MORE DESPERATE ENCOUNTERS ARE YET TO FOLLOW

ALTHOUGH ALLIES' ARMY CLAIM GREAT GENERAL VICTORIES, ONLY PRELIMINARIES ARE OVER.

INVASION OF FRANCE IS BELIEVED TO HAVE FAILED

Kaiser Reported to Be Making Supreme Effort at Verdun to Defeat Enemy and Retain Advantages Gained—Many Cities Retaken by French and English.

London, Sept. 15.—The first stage of the battle of the Marne, which, from the number of fighting men engaged, the extent of the line of battle and the terrific slaughter, is perhaps correctly described as "the battle of the ages," appears to have been won by the French and British armies, but the main German army is still intact and the supreme clash is still to come.

The present week may see even more desperate encounters than any which have yet taken place.

May Mean Invasion Failed.

Paris, Sept. 15.—"The allies have won a great general victory. The Germans have been routed everywhere."

This official communique from the French war office at Bordeaux, which heretofore has been coldly conservative even to the point of advising that the public avoid becoming oversanquine, was accepted generally in Paris as the official announcement that the German invasion of France had failed.

Rout Is Confirmed.

This is the second week of the German retreat. Every official communication tends to confirm the utter rout of the invaders.

Reports from the front told of the evacuation by the Germans of Amiens in the department of Somme and their withdrawal from Pont-a-Mousson, 20 miles north of Nancy, which they had already quit.

Germans Abandon Plan.

This important center on the Moselle river in the department of Meurthe-et-Moselle, lies between Nancy and Metz. Its evacuation by the Germans indicates the possible abandonment of the reported German plan to maintain this line of communication for supplies with Metz and Thionville, of Diebenhofen as basis. Nomeny, ten miles east of Pont-a-Mousson, also was evacuated.

Fall Back Along Line.

Opposite the French center the German forces have evacuated Revigny-aux-Vaches, a little to the north of east, and 20 miles from Vitry-le-Francois, on the Marne, and Brabant-le-Roi, three miles north of Revigny. The abandonment of these positions evidently is the result of the vigorous forward movement of the French on this part of the line.

The troops evacuating Amiens have fallen back towards the east between Soissons and Rheims. The latter place has been reported abandoned by the Germans, but no official confirmation has been received. If it is true, as reported, that the allies have already occupied Rheims, inestimable damage will have resulted to the Germans.

What Loss Means.

The loss of this position will mean the cutting of their communications by which ammunition and supplies may be brought from East Belgium and Luxemburg. The garrison of Amiens is reported in one dispatch to have retired to the northward. In their retreat the invaders failed to defend the Marne to the southeast of Rheims.

The news of the great victory of the French troops was received by Paris with the same dignified calm as had greeted the adverse reports during the French retreat from Belgian frontier at the beginning of the operations.

All military experts are now freer in the expression of their views. They unanimously praise General Joffre for the magnificently prepared plan which has landed the German troops in the most unfavorable country, exhausted from their superhuman effort of the last six weeks.

Allies Take Artillery.

Already much of their heavy artillery and equipment has been taken and is in the hands of the allies, who are well fed, fresh, and are pursuing the enemy day and night, giving him no time to rest or sleep.

On the French left the allies have forced the already retreating Germans back to a line 62 miles to the rear of the position they occupied a week ago, when the German invasion reached its high water mark.

Prisoners captured in small squads and in larger sections, invariably betrayed utter exhaustion.

Experts here believe the kaiser has rearranged his campaign settlement to a better series of furious attacks on the right wing at and below Verdun. This is the last chance Germany has of maintaining its broken armies in France. If the kaiser's plan is successful and the great fortress of Verdun is reduced, it will have the immediate result of lessening the pressure of the French right and will deflect the French center, which naturally will be called to its support.

Work Weakens the Kidneys

Many occupations weaken the kidneys, causing aching backs, urinary disorders and a dull, drowsy, discouraged feeling. Work exposing one to chills, dampness or sudden changes; work in cramped positions; work amid the fumes of turpentine; constant riding on jolting vehicles, is especially hard on the kidneys.

Taken in time kidney trouble isn't hard to stop; neglected it is dangerous. As a kidney tonic, there is no other medicine so well recommended, so widely used and so universally successful as Doan's Kidney Pills.

A Montana Case.

"Every Picture Tells a Story"

A. Fowler, 615 W. Callander St., Livingston, Mont., says: "I suffered intensely from a lame back and I often found it hard to stoop. Heavy lifting had affected my kidneys and caused the trouble. Two boxes of Doan's Kidney Pills cured me and from that day to this I have never had a sign of kidney complaint. I consider it my duty to tell others about my satisfactory experience with Doan's Kidney Pills."

Correct.

"Practice makes perfect," quoted the sage.

"Well," replied the fool, "that's more than you can say for preaching."

After dreaming they were soul-mates an Ohio couple got maried. May they never wake up!

I Want Some U. S. Cartridges

U. S. Cartridges have won more Government tests than all other makes combined. World's Championship Rifle Teams habitually use U. S. Cartridges.

The U. S. Primer is different. Instead of being a mechanical mixture of fulminate of mercury and ground glass, the U. S. Primer is a strictly chemical mixture that combines uniformly and makes a uniform explosion—one cartridge acting just like the others—quick, regular and with an unvarying accuracy of bullet flight.

A non-mercuric primer means a hotter primer flame because it contains no heat-absorbing ground glass. A hotter primer flame means quicker powder ignition and more driving power. The U. S. Primer sends no glass to grind the rifling of your gun, and contains no mercury to make the cartridge cases brittle.

All Government-made cartridges are required to have this type of primer.

U. S. Cartridges will improve your marksmanship, at least to the extent of hitting where you aim.

COLORS' EFFECTS ON MOODS

Belief That Has Long Been Held Is Declared to Have Real Foundation in Scientific Fact.

People to whom certain colors represent sounds or emotions have long been laughed at, but scientific work on the sun's rays is proving them to have justification for their theories.

Red, it appears, is the most exciting and stimulating of all colors and has a special effect on the activity of the brain. Blue, which so many people in an age of great nervous strain and tension find soothing, is so in reality. Unless you are in a depressed and melancholy state sea blue curtains at your bedroom windows have a beneficial effect, especially if you face south and get the morning sun.

Color, indeed, especially in flowers, has an extraordinary effect on the mental condition. The sight of crimson, pink and amethyst rhododendrons growing in the open air has a curiously uplifting and joyous effect.

SKIN TROUBLE ON LIMBS

Moclips, Wash.—"My trouble first started on my arms and soon it extended to my body and legs. The first I noticed of it was red spots, itching spots some larger than a pin head. My clothing irritated them and I scratched. My sleep was disturbed by the clothes scratching. It had bothered me for about ten days and I began to use the Cuticura Soap and Ointment. I only purchased one cake of Cuticura Soap and one box of Cuticura Ointment and they effected a cure." (Signed) Sid Strawn, May 19, 1914.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Training a Cook.

An Irish servant is, of all people in the world, the most anxious to please, and she even desires to do exactly as she is told, even when the commands laid on her are unreasonable. In "The Lighter Side of Irish Life," Mr. G. A. Birmingham gives an amusing instance of this trait.

A young housekeeper once undertook to train a cook. One day, it happened that there were whiting for dinner. She exlained carefully the proper way of cooking whiting, and, with a view to achieving elegance in the serving of the dish, added that these particular fish are usually sent up to table with their tails in their mouths.

The fish appeared on the dinner table, not seductively curled after the pleasant habit of whiting, but lying rigidly straight on the dish. Each of them, however, had its tail cut off and neatly inserted into its mouth. The inexperienced cook had most conscientiously obeyed what must have struck her as a merely vexatious order.—Youth's Companion.

Supreme Test of Friendship.

An invitation to breakfast was, in Macaulay's opinion, one of the supreme tests of friendship. "You invite a man to dinner," he wrote to Mrs. Harriet Beecher Stowe, "because you must invite him, because you are acquainted with his grandfather, or because you wish to see him. You may be sure if you are invited to breakfast that there is something agreeable about you."

Unkind Suggestion.

"My youngest boy is always thinking of bright and clever things" said Mr. Bliggins.

"I've often heard you say so," replied Miss Cayenne as she moved wearily on. "You ought to get him to tell you a few of them some time."

LEARNING THINGS

We Are All in the Apprentice Class.

When a simple change of diet brings back health and happiness the story is briefly told. A lady of Springfield, Ill., says:

"After being afflicted for years with nervousness and heart trouble, I received a shock four years ago that left me in such a condition that my life was despaired of.

"I got no relief from doctors nor from the numberless heart and nerve remedies I tried, because I didn't know that coffee was daily putting me back more than the doctors could put me ahead.

"Finally at the suggestion of a friend I left off coffee and began the use of Postum, and against my expectations I gradually improved in health until for the past 6 or 8 months I have been entirely free from nervousness and those terrible sinking, weakening spells of heart trouble.

"My troubles all came from the use of coffee which I had drunk from childhood and yet they disappeared when I quit coffee and took up the use of Postum." Name given by Postum Co., Battle Creek, Mich.

Many people marvel at the effects of leaving off coffee and drinking Postum, but there is nothing marvelous about it—only common sense.

Coffee is a destroyer—Postum is a rebuilder. That's the reason.

Look in pkgs. for the famous little book, "The Road to Wellville."

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

—sold by Grocers.

W. E. LEE DEFINES CAMPAIGN ISSUES

PLEDGES A BUSINESS MAN'S ADMINISTRATION OF EFFICIENCY WITHOUT EXTRAVAGANCE.

TO URGE COUNTY OPTION BILL

Candidate Would Banish Brewery Control and Declares For Broad Policy of State Development.

Marshall, Minn., September 14th.—Wm. E. Lee, Republican candidate for Governor delivered his key-note speech in this city tonight. More than two thousand enthusiastic followers of the candidate packed the local auditorium to the last seat and hundreds remained standing that they might hear Mr. Lee discuss the issues of the campaign and define the principles upon which he stood.

The address was along constructive lines and every sentence a part of a story that told of a better governed, a more opulent and a more progressive Minnesota. Mr. Lee came out squarely and unequivocally for the passage of a county option bill and the end of brewery control in the state. In promising a business administration the candidate endorsed the work of the efficiency commission, declaring that parsimony was undesirable and that extravagance must end. Mr. Lee pledged himself to work for a lower tax rate; home rule of public utilities; conservation of the State's natural resources, good roads and small town development. He praised the State's school system, declared for free and open markets and the rigid enforcement of the State's law. Mr. Lee said:

In this, my opening speech in this campaign, I can say little that is new. The issues are clear and definite, and my position upon them is well known. The issues enunciated by me nearly three years ago are the issues today, and will be the issues upon which the result of this campaign must be determined.

There are numerous matters of importance which need attention, but which of themselves will make but small advance unless settled in conjunction with other and greater problems. Three momentous questions are demanding solution. They are:

(1) The reorganization of the administrative departments of the state government along modern business lines so as to secure efficiency without extravagance.

(2) Securing to the people their inherent right to determine the laws under which they prefer to live, and providing the machinery to enable them to do so.

(3) Protecting the people and the law making body from the demoralizing effect of the "brewery in politics," to the end that men and measures may be considered upon their merits.

Endorses Efficiency Commission.

My declaration in 1912 that Minnesota had a complicated and antiquated governmental organization and that there was imperative need of a complete overhauling and reorganization of the administrative machinery of the state government, at first discredited, was developed to a point where public opinion demanded some action; and as a result, a Commission was created which has taken up the whole question of reorganization. Its preliminary report shows beyond any question that my contention was right and the alarm was sounded none too soon.

The high personnel of this Commission commands respect for its work. They have been and are working diligently on the problem, and will prepare bills providing for a complete reorganization of the administrative departments of our state government, which bills will be among the most important measures to come before the next legislature. In its preliminary report the Commission recommends a consolidation and unification of the now unrelated boards and administrative offices under responsible departments that will be related to each other and can efficiently and economically carry on the business affairs of our state. The budget and an effective civil service system are also included. All this is in accord with what I have advocated for years, and I shall urge its adoption by the legislature.

Business Administration Needed.

What the condition of Minnesota needs and the people of the state demand, is reforms without frills and government without red tape—just a plain business organization such as you will find in any successful private undertaking. I will ask no man to work harder nor longer hours than I do myself, but I will guarantee there will be no one on the payroll who is not earning his salary.

One of the sources that has contributed to the pernicious system of legislative trading and log rolling is the multitude of lobbyists who swarm about the state capitol during every session of the legislature. It will be my purpose to put forth every effort to assist the legislature of ridding itself of this incumbrance.

Parsimony Undesirable.

Economy must come chiefly by careful consideration of appropriaton requests, and I shall urge the legislature that the general appropriation bills be reported out of the committee early in the session, so that they may stand on "general orders" long enough to enable the public, as well as every member of the legislature, to become familiar with all their provisions. Parsimony is undesirable, but extravagance must be stopped.

Standing appropriations are the cause of much extravagance. I believe in annual appropriations and fully concur in the recent action of the legislature in discontinuing many standing appropriations. I shall recommend that such elimination be extended. I need not repeat what I have often said about the unwarranted increase in state taxes; all are familiar with the fact. There must be no further increase, and a substantial reduction should be made.

Favors Public Improvement.

A heavy burden of taxation rests upon all our citizens because of the vast areas of unproductive lands within our borders. Present and potential wealth lies dormant. Millions of acres lie fallow. Willing tillers of the soil are denied a home among us. Consumers are deprived of a rich source of supply, and the state is deprived of revenue. Conditions make development by private enterprise impossible, and the state should therefore take the initiative in developing these lands. The last legislature submitted an amendment to the constitution, known as amendment No. 3, which provides a revolving fund out of the proceeds of the sale of state lands for the purpose of constructing roads, ditches, and fire brakes through and around unsold state school and swamp lands. This amendment should be adopted.

Conservation and Good Roads.

I believe in the conservation and development of all our natural resources; by continued public ownership and protection of all remaining timber and mineral lands and waterpower; by reforestration and reclamation; and by control and development of the waterways of the state.

Good roads are necessary to the development of any country. I favor a road policy that takes into consideration, first and foremost, the needs of the farmers and which will make more accessible the numerous local centers of the different communities of the state. Roads are primarily a local utility and I believe should therefore be under direct local control and supervision as far as compatible with a broad policy of state improvement.

Would Encourage Schools.

Minnesota holds a foremost place educationally in the sisterhood of states. Our normal schools are yielding a splendid product. We have a high school system which culminates in our great and growing University, second to none in the country. Our agricultural college is doing a great work, and should have the most generous treatment. We need more young men who can teach agriculture, and farm scientifically.

Our first concern, however, should be for the masses who will not in the ordinary course of things be instructed beyond the rudiments of the common school.

Money invested in the common schools brings the greatest dividends, but special state aid should be extended to stimulate local interest. I shall give my best self to further the education that is convertible into farms, factories, stores, and offices, into homes, and into the power of virtue, patriotism, and philanthropy.

Small Town Opportunities.

Closely allied to the subjects of farming, schools, and road improvements, is that of the development of the smaller towns and villages in the state. The continued prosperity and happiness of our large rural population can best be secured by making it possible for them to be in fairly close touch with a growing town or village. A town with good roads connecting the surrounding country, and good schools adds to the value of every farm lying tributary to it.

The people of the state are interested in free and open markets. All fair-minded persons will agree that no unnecessary burden or expense should attach to the product of the farm, the factory, or the shop, on its way from the producer to the consumer.

Would Better Labor Conditions.

I am in full accord with the world movement to better protect the lives, health and welfare of the people by prohibiting excessive hours of labor and improving conditions under which labor is performed, with rigid restrictions of hours and conditions of employment of women and children. The minimum wage and workmen's compensation laws are movements in the right direction and should be so developed that exact justice will be done. I know from experience what it is to earn by the sweat of my brow, and I can be depended upon to use my influence to better the condition of labor.

The enforcement of the law is of the first importance. The duty of the governor in this regard is clearly defined, and he is given no discretion; the laws of the land must be executed and upon him rests the responsibility of seeing that they are enforced, and I pledge to you that they will be enforced if I am governor of Minnesota.

Favors Home Rule.

The state should administer all laws that affect state-wide questions and should have the necessary authority to regulate all state-wide utilities, but the state cannot regulate nor interfere with, beyond furnishing needed information, any purely local governmental question. Our local public utilities and all other matters incident to the daily life, association and business relation of the people must be regarded and administered by them.

No more important question can be submitted to the people than that of changing the constitution of our state, and I urge upon every voter the importance of acquainting himself with the proposed amendments and of voting for or against everyone of them on election day. Amendment Number One, is in my judgment of the first importance, as it provides for the initiative and the referendum.

The Secretary of State has issued a circular giving a very full and clear explanation of each amendment which I trust every voter will procure and read before casting his ballot.

Another question which the people ought to have the privilege of determining is that of the elective franchise for women. No one should object to permitting the people to express their will upon this question. The legislature should submit the necessary constitutional amendment.

Believes in County Option.

I believe in county option and I believe that a majority of the people of Minnesota believe it to be the next logical step in dealing with the saloon question. This question has been before several legislatures and has been thoroughly discussed by the people of the state. It ought to be disposed of without further delay to enable the legislature to spend its time on other important questions, and I shall urge upon the legislature the importance of enacting a county option law at the earliest possible date of the session. I shall also call the attention of the legislature to the need of a law to prevent the sale of beer or liquor by breweries or wholesale liquor dealers to any but regularly licensed retailers, thus doing away with "blind pigs" and other illicit places whose existence depends upon the illegal sale of liquor. In connection I urge upon the people the necessity of electing to the legislature men who will stand firmly with me in carrying out this program.

Will Urge Law.

It is said that county option is purely a legislative question. In a sense it is—so are all these questions before the people. But a governor or even a candidate for governor has large influence which he can exercise affirmatively or negatively. Silence is negative. For years I have urged the passage of a county option measure and I shall continue to do so until it becomes a law.

Topping all other issues in importance and far reaching consequences is the question of "forcing the brewery out of politics." It is a question of whether this collosus shall longer be permitted to dictate the environment of your wives and mothers, your sons and daughters; dictate your candidates and officers, your legislation, your taxes, and even your right to life, liberty, and the pursuit of happiness. If I become governor I pledge you that the breweries will be out of politics so far as that part of the government I control is concerned, and I shall exert my utmost strength to kill its influence in every other department.

Would End Brewery Power.

No force has been more persistent than has been the brewery organization in its opposition to me. If a candidate ever earned the support of the friends of clean and efficient government because of the character of the enemies he has made, I am that candidate. The voter who is tired of brewery domination and brewery-made legislation and feels that his duty lies in casting his ballot against this enemy of good government will have no trouble in locating its candidates.

These then are the issues. They were developed out of my experience of years as a public official, and added years of examination and study of the problems of government, not only in Minnesota, but in many other states and countries.

The success of any program must of necessity depend upon the character, qualifications and affiliations of the men elected to carry that program into action.

Qualified for the Office.

The people of Minnesota are about to employ a general manager to look after their public business, and institute certain reforms. If I were applying to any private business establishment for the position of manager I would recite in detail the opportunities I had had to qualify myself for the position. I therefore think it proper that I should refer to the experience I have had in the management of pubic business and make you acquainted with my qualifications to fill the position I am asking you to give me.

I have lived in Minnesota fifty-seven years. Aside from carrying on my private business of merchandising, manufacturing, and banking, which has met with a fair measure of success, I have filled the following public positions: I was Register of Deeds of Todd County for four years. I have served three terms in the legislature, one term as Speaker of the House of Representatives, which enabled me to acquire some knowledge of legislative procedure. I served a term on the State Normal School Board, and through that service became somewhat acquainted with the educational system of the state. I served as Superintendent of the Minnesota State Reformatory, and became acquainted with the management of state institutions; I served six years on the State Fair Board, which enabled me to become better acquainted with the products and the possibilities of our state. I was called by Governor Van Sant to assist in the organization of the first Board of Control, and through that work became acquainted with the administrative department of the state. The system inaugurated by the Board at that time has proved so satisfactory that it has never been changed in any particular.

I invite the closest scrutiny of my qualifications and my record, and comparison with that of other candidates, and I now pledge to the people of Minnesota whatever of ability, experience, and equipment I may possess to the faithful discharge of the public duties incident to the office to which I am now asking them to elect me.

5 Women Avoid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

1. Hodgdon, Me.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—Mrs. Hayward Sowers, Hodgdon, Me.

2. Charlotte, N. C.—"I was in bad health for two years, with pains in both sides and was very nervous. I had a growth which the doctor said was a tumor, and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health."—Mrs. Rosa Sims, 10 Winona St., Charlotte, N. C.

3. Hanover, Pa.—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it."—Mrs. Ada Wilt, 196 Stock St., Hanover, Pa.

4. Decatur, Ill.—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—Mrs. Laura A. Griswold, 2300 Blk. East William Street, Decatur, Ill.

5. Cleveland, Ohio.—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. Griffith, 7305 Madison Av., Cleveland, O.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

LYDIA E. PINKHAM

The "Bauer" Is Austria's Backbone.

The most interesting of Austrian types and the backbone of the dual monarchy is the "bauer." In social rank he occupies somewhat the same position as the old English yeaman, farming his own land, and in many cases enjoying a far more substantial fortune than the nobility. The "bauer" has a strict social code of his own, mixing neither with the laborers on one hand nor the aristocracy on the other, is apparently quite content with his lot, and takes pride in his ability to provide almost all the necessaries of life from the productions of his own land, even, in many cases, growing the flax from which his womenfolk weave all the household clothing.—London Chronicle.

Filial Solicitude.

"When I was your age," said Mr. Dustin Stax, "I did not stay out and dance all night as you do."

"I know it," replied his sociable son. "And I'm mighty sorry about it. That's why I'm trying to get you to come along and make up for some of the chances you've missed."

DR. J. H. RINDLAUB (Specialist), Eye, Ear, Nose and Throat Fargo, N. D.

Encouraging.

"Did you catch any fish?" asked the woman who is always encouraging.

"Not one," replied her husband. "We got a couple of nibbles and then there was nothing doing all day."

"Well, even if you didn't catch any I'll bet you gave them an awful scare."

Holt, Marshall County Minn.

The Holt Weekly News
Successor to and Continuation of
The Northern Light
By The
Holt Publishing Company

Published every Friday at Holt, Marshall County, Minnesota.

Subscription Price: $1.00 per year, strictly in advance.

Entered as second-class matter Sept. 22, 1911, at the post office at Holt, Minnesota, under the act of March 3, 1879.

Mr. Parker returned home from T. R. Falls Friday.

Good board and rooms at the hotel by the day or week. ad

We will soon wonder what a life of carelessness and sin—amounts to.

Those who have tried it, claim the soil here is just right for alfalfa and clover.

Holt is making a splendid growth this season. May it continue to do so is our wish.

What has become of the new road dragging law that Minnesota used to brag so much about.

A couple of teams tried to get away from their drivers while in town Friday, but were stopped before any damage was done.

Try to put up with the clouds of disappointment of to-day— perhaps to-morrow the sun may be shining its very brightest, for you.

Cattle buyers were compelled to drive thirty-five head to Newfolden, Saturday, owing to the failure of the G. N. to get a car here in time.

A man was here from Fargo Saturday looking for a Mud Lake claim but there was none for him. Another proof that it pays to advertise.

Misses Olga and Nellie Saastad left the first of last week for Thief River Falls where the former will be employed for some time and Nellie will attend the high school there.

After waiting for a long time the Holt Mercantile Co. have succeeded in getting a lease of the G. N. for a warehouse which will be located just south of D. Payne cement warehouse.

We wonder just how well the road dragging law is being enforced. One thing is certain that a lot of the roads need working, and a vigorous use of the road drag is all that many of them require.

P. A. Riesberg, E. A. Wright, Nels Goodvangen and Ole Garthus have all hauled out lumber, from D. Payne's, for building granaries. This is only one incident that shows the country is improving and the farmers making money.

Cattle buyers were here last week and shipped out a car Saturday, from this station. It is a good thing to think twice before selling your cattle these days. Whether the war is prolonged or not, the ravages have been terrible, and Europe must look to us for food and that means higher prices for everybody, everywhere.

ESTRAY

Three light red heifer calves and one steer calf, the largest has a white stripe on its back and the two smallest have some white spots. The calves are about 6 and 8 months old and they left my place August 25th. Reward paid for information as to their where abouts. Please notify Mrs. John Rux, Holt Minn.

Golden Valey News.

G. Christoferson lost a valueable horse last week.

One hour between Golden Valley and Holt via the Ford.

Mr. Homgren has four flowing gas wells, but no sign of water.

Mr. Wright returned to his home near Middle River after harvesting his crop on his claim in Mud Lake.

Mr. and Mrs. J. J. Kelley expect to spend the winter on the Pacific slope, for the benefit of Mrs. Kelley's health.

Miss Olga Larson is teaching in the Tyson district. They are very fortunate for Miss Larson is a fine teacher. There is only one scholar from Mud Lake, so far.

Lars Backe came Friday on business.

Mr. Powell was here Saturday from Warren.

Fred Johnson was in T. R. Falls Thursday and Friday.

Sam Rierson was in Middle River between trains, Tuesday.

Henry Iverson of Middle River was a business visitor Friday.

A. H. Huseth has had carpenters at work siding his store building.

Ole Mattson's daughter from S. D. came Saturday to visit her people.

Albert Knutson is very sick with typhoid fever at the hospital in Crookston.

Carl Nelson and wife of Golden Valley were passengers for T. R. Falls Wednesday.

A. W. Holt unloaded an emigrant car here, the first of the week, and moved out near Golden Valley.

Mr. Wright, who had come from his claim at Mud Lake, went to his home in Middle River, Saturday.

Geo Anderson' father and brother came Friday from Turtle Lake to visit and hunt chickens for awhile.

S. S. Kolden recently sold C. H. Heinze a fine manure spreader. It is a low down machine and very easy loaded and is something that every farmer should have.

Notice of Mortgage Foreclosure Sale.

Whereas default has been made in the conditions of a certain mortgage containing a power of sale, duly executed and delivered by F. A. Ladwig and Clara Ladwid, his wife, mortgagors, to Oscar A. Trytten, mortgagee, bearing date the 28th day of April, 1913, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 16th day of May, 1913, at 2 o'clock P. M., in Book 69 of mortgages, on page 369, such default consisting in the non-payment of the sum of Eighty one and 20-100 Dollars, ($81.20) interest on the principal of the note secured by said mortgage, which interest became due and payable on the 28th day of April, 1914, according to the terms and conditions of said note and mortgage; and, Whereas, the undersigned, the Mortgagee and present owner and holder of said mortgage, has elected to declare, and has declared, the whole amount, principal and interest of the note secured by said mortgage to be due and payable; and, Whereas, the undersigned has been compelled to pay the sum of $60.40 interest on a prior mortgage on the premises hereinafter described, such interest being in default; and, Whereas, the amount claimed to be due on said mortgage at this date, including said interest paid on the said prior mortgage, is the sum of Thirteen Hundred Forty and 26-100 Dollars ($1340.26), and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage or any part thereof, NOW, THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the power of sale contained in said mortgage, and pursuant to the statue in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

The Northwest quarter of the Southwest quarter (NW 1-4 SW 1-4) and the Southwest quarter of the Northwest quarter (SW 1-4 NW 1-4) of Section Seventeen (17), and the East half of the Southeast quarter (E 1-2 SE 1-4) of Section Eighteen (18), all in Township One Hundred and Fifty-five (155) North, of Range Fortyfour (44) West, of the 5th Principal Meridian, in the County of Marshall and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall county at the front door of the Court House, in the city of Warren in said County and State, on the 20th day of October, 1914, at 10 o'clock in the forenoon of that day, at public vendue, to the highest bidder for cash, to pay said debt of Thirteen Hundred Forty and 26-100 Dollars ($1340.26), and interest and the taxes, if any, on said premises, and Seventy-five Dollars ($75.00) Statutory Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated August 27, 1914.

Oscar A. Trytten, Mortgagee.
H. O. Kjomme, Attorney for Mortgagee, Thief River Falls, Minnesota.

Commencing Sunday Aug. 30th. Sunday School will be held in the Free Mission Church at 10-30 o'clock every forenoon.

The Bank Of Consistent Assistance!

We are now favored with 65 per cent of the volume of banking business transacted, season of 1913 and our business is steadily growing. The time for serious reflection is at hand and we urge caution in the selection of your banking connection for the coming season. It is wise and proper that you place yourself in the path of opportunity by identifying yourself with this Bank while the moving is good. Safety guaranteed and highest interest paid depositors.

We Play No Favorites

We play no favorites among our patrons but we aim to be helpful to all. When you become a depositor of this bank you are assured of the same banking advantages as the richest man who is on our books, your interests watched with the same conscientious care. To assist you is our policy. In addition to offering you the best of banking facilities we make personal financial service a confidential feature of our work. If we know what you want to accomplish we are on the lookout for ways to help you and are ready and willing at all times to advise you on all financial matters.

For Sheriff.

I hereby announce myself a candidate for sheriff of Marshall Co. and earnesly solicit your vote and influence. I have lived in Marshall Co. since childhood, have experienced both ups and downs in life, within the County and now ask you to inquire of my neighbors and acquaintances as to my character and behavior. I have nothing to say about myself only that if you elect me to the office of Sheriff, I shall discharge the duties impartially and to my best ability.

I remain Respectfully Yours.

Mr. and Mrs. Albert Klungness are the proud parents of a baby girl, born to them Sept. 24th. Mother and child are doing well, and it is hoped that the father will recover.

Rev. A. Breadson of Thief River Falls held services Sunday at the Clarence Larson home at Golden Valley. He was accompanied by S. E. Moe, returning home the same day.

For Representative.

I was made one of the nominees for Representative for Marshall county at the June primaries, my vote being greater than that given to any of the other candidates for that office.

I came to Warren in 1883; have been editor of the Warren Register since 1894; was admitted to the bar in 1892; city recorder of Warren, 1900--1; clerk of taxes and tax laws committee of state senate, 1901; delegate to Republican National convention of 1912; secretary of board of education of Warren since 1909

I favor a square deal to everybody; am opposed to all legislation in behalf of special interests; favor county option and all other legislation that makes for temperance; favor all legislation tending to make our educational system more efficient; favor conservation and developement of state's natural resources; believe a representative owes it to his constituency to do more than merely answer to his name when the roll is called.

I respectfully solicit your support and votes on November 3, 1914, assuring you that, if elected, I shall serve you and your interests to the best of my ability.

Charles L. Stevens.

Thief River Falls

Song of Europe.

Sing a song of Europe,
Higly civilized,
Nearly all the nations
Wholly hypnotized.
When the battle opens
The bullets start to sing,
Isn't that a silly way
To act for any king?
The kings are in the background
Issuing commands.
The queens are in the parlor,
Per etiquette's demands.
The bankers in the counting house,
Are busy multiplying.
The common people at the front
Avoiding all the dying.

Benie A. Werner.

For Register of Deeds.

Having received the highest number of votes in the June primaries, for the nomination to the office of Register of Deeds for Marshall county, I wish to announce to my friends and the voters of the county that I am in the race to stay and will appreciate your support in the election Nov. 3rd next.

I have been a farmer, taxpayer and resident of the county since a young man, experienced the struggles of the early settler and according to means and ability have taken my share in the developments of the comunity. Based upon my record as a Public Official, especially that of the office of Register of Deeds which trust I held for four years and to which I now ask you to elect me, I deem myself amply qualified for the duties envolved and if elected I promise to devote my time and energies in the discharge of such duties and the substance of my platform is, A SQUARE DEAL FOR EVERYBODY.

Respectfully

Louis M. Olson.

For County Attorney

To the voters of Marshall County.

Having been favored as a candidate for re-election for the office of County Attorney, I wish to thank you for the liberal support which you gave me in the recent Primary Election, and I hope that I may again have your vote and support at the General Election to be held November 3rd 1914.

If re-elected, I shall continue to perform the duties of the office to the best of my ability. My aim has always been to give the people an economical and efficient administration and in this I feel that I have been successful. I am willing to stand on my record.

Your influence and support will be greatly appreciated.

Respectfully yours,

A. N. Eckstrom

To neglect paying a visit to the Carlson's Basement, is simply cheating one's self of a great opportunity to view the many, many articles now on sale dirt cheap. The large basement is something of which a merchant may well be proud. It not only affords more ample room for a display of goods, but also increases the efficiency of the firm.

For Register of Deeds.

Having received the nomination for the office of Register of Deeds of Marshall County Minnesota, at the Primary Election on June 16th, I hereby announce to the voters of Marshall County, that I am a candidate for the office, and will appreciate your support and vote at the General Election on November 3rd.

My past record of eight years as Deputy in the office I now seek suffices me to state that I am well qualified for the duties involved, and if elected, I promise to faithfully discharge the duties of the office, in as competent a manner as they have been during the past eight years of my connection with the office.

Respectfully soliciting your kind support and vote, I am

Yours truly,

CHAS. E. GRINDER.

Notice of Mortgage Foreclosure Sale.

Whereas default has been made in the conditions of a certain mortgage containing a power of sale, duly executed and delivered by F. A. Ladwig and Clara Ladwig, his wife, mortgagors, to Oscar A. Trytten, mortgagee, bearing date the 28th day of April, 1913, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 16th day of May, 1913, at 2 o'clock P. M., in Book 69 of Mortgages, on page 869, such default consisting in the non-payment of the sum of Eighty one and 20-100 Dollars, ($81.20) interest on the principal of the note secured by said mortgage, which interest became due and payable on the 28th day of April, 1914, according to the terms and conditions of said note and mortgage; and, Whereas, the undersigned, the Mortgagee and present owner and holder of said mortgage, has elected to declare, and has declared, the whole amount, principal and interest of the note secured by said mortgage to be due and payable; and, Whereas, the undersigned has been compelled to pay the sum of $60.40 interest on a prior mortgage on the premises hereinafter described, such interest being in default; and, Whereas, the amount claimed to be due on said mortgage at this date, including said interest paid on the said prior mortgage, is the sum of Thirteen Hundred Forty and 26-100 Dollars ($1340.26), and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage or any part thereof, NOW, THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the power of sale contained in said mortgage, and pursuant to the statue in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

The Northwest quarter of the Southwest quarter (NW 1-4 SW 1-4) and the Southwest quarter of the Northwest quarter (SW 1-4 NW 1-4) of Section Seventeen (17), and the East half of the Southeast quarter (E 1-2 SE 1-4) of Section Eighteen (18), all in Township One Hundred and Fifty-five (155) North, of Range Fortyfour (44) West, of the 5th Principal Meridian, in the County of Marshall and State of Minnesota, with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall county at the front door of the Court House, in the city of Warren in said County and State, on the 20th day of October, 1914, at 10 o'clock in the forenoon of that day, at public vendue, to the highest bidder for cash, to pay said debt of Thirteen Hundred Forty and 26-100 Dollars ($1340.26), and interest and the taxes, if any, on said premises, and Seventy-five Dollars ($75.00) Statutory Attorney's fees, as stipulated in and by said Mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated August 27, 1914.

Oscar A. Trytten, Mortgagee.
H. O. Kjomme, Attorney for Mortgagee, Thief River Falls, Minnesota.

For Sheriff

At the June primaries I was Nominated for re-election to the office of Sheriff. During my incumbency of the office, I have performed my duties faithfully and impartially and to the best of my ability, as I shall continue to do it re-elected.

My official record is open to the closest scrutiny and it is on that record that I ask the support of the voters of Marshall Co. on Nov. 3.'14.

Respectfully,

William Forsberg.

For County Commissioner.

To the Voters of the fifth Commissioner District of Marshall Co. Minn.

Having received the nomination for the Office of Co. Commissioner, at the Primary Election on June 16th., I hereby announce to the voters that I am a Candidate for the office and will appreciate your vote and support at the General Election Nov. 3rd.

MEXICAN FACTIONS WILL LIKELY PICK CALDERON AS HEAD

CARRANZA-VILLA PEACE MEETING IS TO BE HELD AT AGUAS CALIENTES OCT. 10.

CONFERENCE MUST DECIDE IF PEACE IS TO BE RESTORED

No Importance Attached to Fact Resignation of Carranza Was Refused Saturday—Attack on Naco, Sonora, Continues—American Town Suffers.

Mexico City, Oct. 6.—Representatives of Venustiano Carranza and Francisco Villa will meet in a general peace conference at Aguas Calientes Oct. 10. This decision was reached by unanimous vote at a session of the chamber of deputies.

Washington Sees Agreement.

Washington.—The conference at Aguas Calientes between representatives of Carranza and Villa must decide whether or not peace is to be restored in Mexico, is the opinion of officials here. Administration officials believe that an agreement will be reached providing for the selection of Fernando Iglesias Calderon as provisional president and setting at rest other perplexing questions.

In the absence of official reports from Mexico, information as to developments in Mexico City was lacking. Neither administration officials nor Constitutionalist representatives, however, attached much significance to the action of the conference of southern chiefs in Mexico City Saturday in refusing to accept the resignation of General Carranza as first chief.

Couldn't Accept Resignation.

It was pointed out that had the resignation been accepted, it would have left the government without any official head and seriously complicated the situation.

That Fernando Iglesias Calderon, despite his refusal to accept the "provisional government in the manner in which the divisions of the north offered it to him," would assume that office was firmly believed.

Will Reconsider Resignation.

It was predicted that the peace convention, scheduled to convene Oct. 10, would in all probability reconsider Carranza's resignation and select Calderon as provisional president.

The latter has agreed to accept the post if offered by representatives of both factions and observers here believe he is the only man whose name has been considered so far whose standing with the supporters of both Villa and Carranza is such as to insure their co-operation in preparing the distracted republic for a general election.

American City Suffers.

Naco, Sonora, Mexico.—Scattered, ineffective fire from both sides, constituted the day's program in Governor Maytorena's attack on Naco, where Benjamin Hill has been entrenched for a week, awaiting the assault. Hill's casualties were one killed and three wounded, but by his own fire.

Naco, Arizona, adjoining the besieged town across the American border, is almost as much of a sufferer as this place. Bad marksmanship has made the American streets hazardous, and sightseers have been stopped a mile outside the town. The Ninth United States cavalry border patrol is keeping back the wounded Mexicans, who constantly seek to cross the line and also striving to prevent American curiosity from being fatal to its possessors.

A trooper of the border patrol was wounded by a stray bullet.

Posse Finds Child Asleep in Woods.

St. Cloud, Minn., Oct. 5.—After 18 hours' search, in which hundreds of men took part, the two-year-old son of Frank Ellers, Clear Lake, was discovered asleep in the woods near his home. The sheriff from Mankato arrived with bloodhounds and the dogs found the child.

Bulgaria Calls Officers Home.

Rome, via Paris, Oct. 3.—M. Rizoff, the Bulgarian minister to Italy, has been instructed by his government to order all Bulgarian officers in Italy and Switzerland to return home immediately and also to privide them with money for the journey.

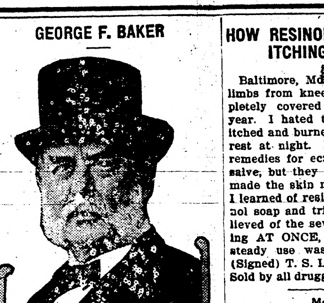
Cholera Reported in Germany.

London, Oct. 5.—The North German Gazette admits the apperance of cholera in Germany as well as in Austria, says a Rome dispatch.

People Flee Into Antwerp.

Amsterdam, Oct. 5, via London.—A dispatch to the Telegraaf from Antwerp says: "The population of all the villages between the first and second rings of forts surrounding the city are fleeing into Antwerp, but there is no panic here. The inhabitants feel certain that help will come. Fifty thousand refugees have arrived from Ghent, 5,000 from Bruges, 3,000 from Coutrai and 2,000 from Ostend. Behind and in the enemy's lines Belgian volunteers have been very active."

GEORGE F. BAKER



INTERNATIONAL NEWS SERVICE

George F. Baker, the noted banker of New York, who returned recently from Europe, declares emphatically that "we need have no fear for America and her future" because of the great war.

TO PROBE LABOR CONDITIONS

WORLD-WIDE INVESTIGATION OF INDUSTRIAL AFFAIRS.

Former Minister of Labor in Canada Named to Direct Work—Declared Most Urgent of Modern Times.

New York, Oct. 2.—The Rockefeller foundation announces that it has decided to make a far-reaching investigation of industrial conditions in this country and that it has retained the services of W. L. Mackenzie King, former minister of labor in Canada, as director of the investigation.

The announcement was made in a statement issued here by Jerome D. Green, secretary of the Rockefeller foundation.

"In facing the problem of industrial relations the Rockefeller foundation is deliberately attempting to grapple with what it beleives to be the most complicated and at the same time the most urgent question of modern times, and it is precisely for this reason that the investigation has been instituted.

"In no sense will the investigation be local or restricted or carried on with particular reference to any existing situation or, for that matter, with reference to conditions in any one country. The experience of the several countries of the world will be drawn upon.

"In going to another country and selecting as the person to have the direction of tihs most important work one whose public services have gained for him an outstanding position as a leading authority on industrial problems, the trustees have shown their desire to free the foundation from any suspicion of interest or prejudice in the investigation of the most controversial of all problems."

Battle Is Reported.

Amsterdam, Oct. 2.—A Budapest dispatch to The Newspaper Korrespondenz states that the Austrian government is sending fresh troops into northwestern Hungary to stem the Russian advance which has already penetrated the Carpathians.

It is unofficially reported in the Hungarian capital that a battle was fought between Austrian and Russian soldiers near Malomszeg Tuesday.

Jubilation Among Staff.

Paris, Oct. 2.—Supreme confidence prevails at military headquarters. The battle of the Aisne is already claimed as a sweeping French victory.

There is on disguising the jubilation among the members of General Gallieni's staff. But there is still no deviation in the official communique, which bruskly declares "there is no change."

Hold 2,000 Russian Officers.

Berlin, Oct. 3.—(By wireless to Sayville, L. I.)—A statement given out in Berlin says that there are about 2,000 Russian officers, including 18 generals, at present being held as prisoners of war in the various detention camps in Germany.

Says Reinforcements Saved Von Kluck

Bordeaux, Oct. 5.—Minister of War Alexandre Millerand declared that only the steady arrival of heavy reinforcements had averted complete disaster for the army of General von Kluck and the entire right wing of the German army.

Snow Falls in Alberta.

Winnipeg, Oct. 5.—Considerable snow fell Saturday in Alberta. The country appears to be in for wintry weather. The temperature is falling.

Ireland Furnishing Troops.

Dublin, Oct. 5.—Via London.—The number of new recruits for the British army obtained in Ireland amounts to about 26,000. More than 8,000 of these are from the Dublin district, 4,000 from Cork district and the remainder from Belfast. Not all the Belfast recruits are Unionists, nor are all the southern recruits Nationalists. The Belfast Nationalists claim to have furnished 5,000 of the Belfast recruits which number, relative to their total population, is larger than the proportion supplied by the Unionists.

HOW RESINOL CURED ITCHING SKIN TORMENT

Baltimore, Md., May 23, 1914: "My limbs from knee to ankle were completely covered with eczema for a year. I hated to go in company, it itched and burned so badly. I had no rest at night. I tried a good many remedies for eczema, both liquid and salve, but they did me no good, only made the skin more rough and scaly. I learned of resinol ointment and resinol soap and tried them, and was relieved of the severe itching and burning AT ONCE, and after a month's steady use was completely cured." (Signed) T. S. Lewis, 1821 Summit St. Sold by all druggists.—Adv.

More of It.

"Juno was an ox-eyed beauty."

"I guess if she lived in these days she would be a peroxide one, too."

A CLERGYMAN'S TESTIMONY.

The Rev. Edmund Heslop of Wigton, Pa., suffered from Dropsy for a year. His limbs and feet were swollen and puffed. He had heart fluttering, was dizzy and exhausted at the least exertion. Hands and feet were cold and he had such a dragging sensation across the loins that it was difficult to move. After using 5 boxes of Dodds Kidney Pills the swelling disappeared and he felt himself again. He says he has been benefited and blessed by the use of Dodds Kidney Pills. Several months later he wrote: I have not changed my faith in your remedy since the above statement was authorized. Correspond with Rev. E. Heslop about this wonderful remedy.

Rev. E. Heslop.

Dodds Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

How Europeans Get Our Gold.

Do you know just how Europe recently got that $125,000,000 in American gold. Well, here is the way it was done: Europeans hold great amounts in American securities, which is to say they have bought bonds issued in this country. When the war crisis came they saw the need of actual money in place of these bonds. They cabled to their American brokers to sell at the market price. They took whatever they could get, but there was always something offered, so the sales were heavy.

The purchasers of these bonds gave their checks. These the brokers cashed at their banks and got currency. This currency of the United States is made good by the deposit of gold in the treasuries. For every gold certificate in existence there is the actual metal in the treasury. So the brokers, getting the currency from the banks, went to the sub-treasury in New York and asked for the actual gold. They received it and sent the gold to their customers abroad.

Good Reason.

It was a very youthful class in physiology.

"Why," asked the teacher, "is it best to eat soup first when one is very hungry?"

The pupils stared at her blankly. Then Jamie enlightened them from the depths of his own experience.

"You can get it down faster," he announced.

LIGHT BOOZE.
Do You Drink It?

A minister's wife had quite a tussle with coffee and her experience is interesting. She says:

"During the two years of my training as a nurse, while on nigl duty, I became addicted to coffee drinking. Between midnight and four in the morning, when the patients were asleep, there was little to do except make the rounds, and it was quite natural that I should want a hot cup of coffee about that time. I could keep awake better.

"After three of four years of coffee drinking, I became a nervous wreck and thought that I simply could not live without my coffee. All this time I was subject to frequent bilious attacks, sometimes so severe as to keep me in bed for several days.

"After being married, Husband begged me to leave off coffee for he feared that it had already hurt me almost beyond repair, so I resolved to make an effort to release myself from the hurtful habit.

"I began taking Postum, and for a few days felt the languid, tired feeling from the lack of the coffee drug, but I liked the taste of Postum, and that answered for the breakfast beverage all right.

"Finally I began to feel clearer-headed and had steadier nerves. After a year's use of Postum I now feel like a new woman—have not had any bilious attacks since I left off coffee."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

—sold by Grocers.

VIOLENT OFFENSIVE ON GERMAN RIGHT ADMITTED IN PARIS

ASSERTED ALL EFFORTS OF TEUTONS ARE DIRECTED TO SAVE VON KLUCK'S DIVISION FROM DESTRUCTION.

DOUBT AS TO OUTCOME OF GREAT STRUGGLE IN FRANCE

Situation Along Most of Aisne Line Remains Same With French and British On Offensive at All Points Except Above Mentioned.

London, Oct. 6.—The German offensive against the allied left wing continues with increasing violence. This was the significant admission in the French war office statement.

Reinforcements Pour In.

That this should be so is not surprising. The Germans continue to drain their other fighting units to pour reinforcements into the lines of Generals von Boehm and von Kluck. They are fighting there to keep their offensive alive. When they are forced to retreat—and every British and French military official declares that they eventually must give way or be annihilated—they will have to retire entirely from France.

Offensive Declared Resumed.

London, Oct. 6.—Having repulsed the German attacks, presumably in the vicinity of Roye, the French, according to the official communication at Paris, have resumed the offensive at several points, while other positions on their left have been appreciably maintained.

Offensive Move Believed.

The great effort of the allies, to envelope the German right, may, therefore, be said to be again in operation, and it is believed that the whole French column from Roye northward to Arras is moving eastward against the German positions.

It is the same operation that has been tried repeatedly for the last three weeks in an attempt to reach the German lines of communication and encircle the German army forming the right wing or force it to fall back to Belgium or Luxemberg. The Germans have had a long time in which to make their position secure, so there is a lot of hard fighting ahead for both the attacking forces and the defenses. The defensive role is now apparently being assumed by the Teutons.

Waiting in Center.

In the center, from the Oise to the Argonne, the two well intrenched armies are still watching each other, ready at a moment's notice to meet attacks or, on the advice of aerial observers, to move to some point where the line is threatened.

While there have been many of these movements, there is little, according to the French report, to recount. In other words, the situation remains virtually as it was.

Germans Reported Repulsed.

In the Argonne district, where the crown prince's army attempted an advance a few days ago, there has been additional fighting with the result that the Germans are said to have been pushed back northward. In Southern Woevre the French are "making progress, but very slowly" against the Germans, who crossed the Meuse at St. Mihiel, but later were forced back over that river.

In Lorraine on the Vosges there is no change in the positions of the armies.

German Trenches Claimed.

Paris, Oct. 6.—The official announcement issued by the French war office reports progress in the region of Soissons, where several of the German trenches have been taken.

The battle on the left wing is in full swing without any decisive result having been attained, the communication says.

Comparative Calm Reported.

On the Battle Front (via Paris), Oct. 6.—After the determined attacks and counter attacks of the past few days, here has been more or less calm along the western front since Saturday afternoon, except on the most extreme wing near Arras, where the fighting has continued incessantly.

Both armies, however, have kept up desultory firing at nearly all points, although they did not come into action.

The French soldiers were greatly surprised Sunday to see their British comrades, after the long spell in the trenches, retire to some distance in the rear and inflate several footballs and begin lively games.

Petition Italy to Act.

Rome, Oct. 6, via Paris.—Italians from Trent, in Austria, who reside in Italy, have petitioned the Italian parliament to complete the work of freeing Italy, begun by King Victor Emmanual and Garibaldi. They request that Italy unite to the kingdom the Austrian provinces inhabited by Italians. The petitioners are headed by Signor Battisti, a socialist deputy from Trent. Signor Battisti addressed a large and enthusiastic meeting in Milan and said that he was much touched by the imposing demonstration.

For Myself and Family
Peruna has Done Wonders.

Mrs. Emma Stolt, No. 697 Atlantic St., Appleton, Wis., writes: "Peruna has done me a great deal of good since I began taking it, and I am always glad to speak a good word for it.

"Three years ago I was in a wretched condition with backache, bearing down pains, and at times was so sore and lame that I could not move about. I had inflammation and irritation, and although I used different remedies they did me no good.

"A neighbor who had been using Peruna advised me to try it, and I am glad that I did."

IN STERLING LIVES A GIRL

Who Suffered As Many Girls Do—Tells How She Found Relief.

Sterling, Conn.—"I am a girl of 22 years and I used to faint away every month and was very weak. I was also bothered a lot with female weakness. I read your little book 'Wisdom for Women,' and I saw how others had been helped by Lydia E. Pinkham's Vegetable Compound, and decided to try it, and it has made me feel like a new girl and I am now relieved of all these troubles. I hope all young girls will get relief as I have. I never felt better in my life."—Miss BERTHA A. PELOQUIN, Box 116, Sterling, Conn.

Massena, N. Y.—"I have taken Lydia E. Pinkham's Vegetable Compound and I highly recommend it. If anyone wants to write to me I will gladly tell her about my case. I was certainly in a bad condition as my blood was all turning to water. I had pimples on my face and a bad color, and for five years I had been troubled with suppression. The doctors called it 'Anemia and Exhaustion,' and said I was all run down, but Lydia E. Pinkham's Vegetable Compound brought me out all right."—Miss LAVISA MYRES, Box 74, Massena, N.Y.

Young Girls, Heed This Advice.

Girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound.

A Sound Sleeper.

"My old nag has one advantage over an automobile. It does't require any intricate mechanism to start her."

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe. Adv.

How scornfully a woman who merely powders can look at one who paints!

The Human Automobile

The human body, like an automobile, changes fuel (food) into power. When the fuel is too rich, or the mixers and valves are out of order, waste products clog the machinery and reduce the power.

The kidneys, like exhaust valves, should carry off the waste (uric acid), but weak kidneys can't. Uric acid in excess causes headache, weak eyes, rheumatic pains, gravel, dropsy and fatal Bright's disease.

Doan's Kidney Pills help the kidneys fight off uric acid. It is the best-recommended special kidney remedy.

A Montana Case

"Every Picture Tells a Story."

Mrs. K. Janesen, Dillon, Mont., says: "I was almost doubled up with a nagging pain through the small of my back. My system was filled with uric poison and my joints were swollen and inflamed. Doan's Kidney Pills not only drove the uric acid out of my system, but regulated my kidneys and restored me to perfect health."

SMALL WARS MEAN BIG POEMS

Greatest Battle Hymns Have Not Been Inspired by Titanic Struggles Like the Present One.

The greatest poems have been written about little wars. The Iliad was written around a siege carried on by a handful of barbarian chieftains against a city of the second class. The battle of Chevy Chase was a border skirmish following upon a cattle-stealing expedition. And Kipling's imperial muse is at her best when she sings of petty wars with colored tribesmen. Britain's far-flung battle line was far flung against Dervishers and Afridis; it was seldom brought into collision with field intrenchments and siege artillery. Little war, or else big wars in anticipation of retrospect, these are the rich soil for the poet.

A great war in the actual, the fate of an empire truly at stake, may make poets out of the common crowd, but subdues the poet to the level of the common crowd. There is a solemn tone about Kipling's latest verse which has its effect. Only it is not exhortation we wanted, but exultation; not an appeal, but a clarion call. When an entire nation is aflame the poet is apt to find his mission rather perfunctory.

PICKED OUT THE RIGHT TIME

Schoolboy a Good Deal More Thoughtful Than Most Youngsters We Ever Heard Of.

A popular member of a certain school board tells a good story of a certain schoolboy who enjoys the unique distinction of having attended one school for 11 years without being once absent or late. In evidence of this, the youth is the proud owner of 11 medals. When the eleventh medal was conferred the boy's mother was asked whether her son ever had any illness.

"Oh, yes," she replied.

"Measles?"

"Yes."

"Whooping cough?"

"Yes."

"How is it, then, that he has been able to make so remarkable a record at school?"

"Well, he generally had 'em in his holidays," was the proud mother's interesting reply.

PIMPLES RUINED COMPLEXION

724 E. N. Ave., Olney, Ill.—"When my trouble first began I noticed little pimples coming on my face. They itched and burned so badly that I had to scratch them and that only made them worse. About a week later my face was so badly covered with pimples and blackheads that I was ashamed. My complexion was ruined. The pimples would sometimes bleed and fester.

"I bought a box of complexion cream and used it but without effect. One day I heard of Cuticura Soap and Ointment and I decided to give them a trial. So I got a cake of Cuticura Soap and a box of Cuticura Ointment, washed my face with the Soap and applied the Ointment and in two weeks I was completely well." (Signed) Chas. E. McGinn, May 5, 1914.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Approaching, But Not Close.

"When I left Havre on my way back to England," says Representative Gardner of Massachusetts, "600 French soldiers lined up on the dock and sang 'God Save the King' in English." By the nine gods of war! as our own General Bingham would say, this incident, taken in connection with the Belgians stepping to the front chanting, "It's a Long Way to Tipperary," seems to indicate the approach of the much-teuted brotherhood of man."

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

NEW FRENCH EXPLOSIVE KILLS EVERYTHING WITHIN 400 YARDS

London.—"One wonders what kind of shells the French must have been using to cause a regiment of German infantry to die in their trenches, standing bolt upright and still holding their rifles in firing attitude," remarked a London paper the other day, and another correspondent quotes an American member of the Crois Rouge as having seen "the German trenches as the French guns had left them, but with dead in such a posture as the world had never seen since the destroying angel passed over the Philistine camp in that avenging night of Scripture, a silent company of ghosts."

But there is no secrecy about what is now an open secret, "Turpinite," the latest French "hell-producer," is the invention of M. Turpin, the "parent" inventor of melinite and lyddite, which latter is merely so named because the first experiments were made by Lydd, in Kent, in presence of the French inventor. How far this turpinite has been or is being used by the French artillery is not known, and may not be exactly known till after the war, but one of the salient features of this novel terror is that it cannot be fired from an ordinary field gun, and for its use guns of particular and difficult construction are required. The handling of these guns is at present confined to specialists. Had the successful experiments carried out at Chalons-sur-Marne taken place earlier, the result of this war, in so far as its primary stages were concerned, might well have been different.

So lethal in its effect is the new shell on explosion that, should its use become widespread, whole armies, indeed, entire nations, would be completely exterminated in the course of a few weeks.

Offered to France.

M. Turpin is not only a remarkable man, he is also a man who for many years nursed a serious grievance, and who considered that he had been deeply wronged in connection with the discovery of his previous inventions, melinite and lyddite. He became resentful and suspicious, and determined to discover some new explosive that would completely throw into the shade his previous discoveries, which had been "improved" by official French technicians.

For years he worked in his quiet country home some twenty miles from Paris, and it is not long ago since the French government made him the "amende honorable." This mollified him considerably, and he offered his new discovery to his country, but France, at the imperious demand of her democrats, had for many years been cutting down her military expenditure, while Germany had been steadily increasing hers. In such circumstances there was little money to spend on experiments with explosives, and the outbreak of war found France not nearly so prepared with artillery, in munitions, in reserve forces, as was Germany.

M. Turpin, however, used as he was to war office procrastination, had had a special gun and shells made "on his own," and conducted experiments on the Atlantic coast before carefully selected and invited officers.

A man who witnessed one of these early demonstrations of the possibilities of "turpinite" sends to the Daily Express a description of its terrific effects:

"On a stretch of sand 500 yards from high water level a temporary sheepfold had been erected, about four hundred yards square, and railed off with wooden hurdles. In this space were some dozen sheep and a couple of aged and worn-out horses.

"One of the horses was contentedly munching away at some hay in a trough, the other was rubbing himself against one of the hurdles, while the sheep were huddled together in one corner.

As if Petrified.

"This was what I saw through my glasses when, from behind a ridge some twenty-five hundred yards away, there came a sharp, loud thud and the shrieking sound of a small shell, just as if somebody had taken a piece of silk and rapidly torn it in two. It was the same tearing sound, only louder.

"There was an explosion in the open space in the middle of the improvised sheep pen. The sheep were still all huddled in a corner some distance off, one of the old horses was apparently leaning up against the railing, while the other, the one that had been munching hay at the trough, lay on his side.

"When, ten minutes later, I reached the pen, the sheep looked for all the world as if they had been suddenly petrified. They were mostly standing up one against the other.

"Three or four were lying down, but all were dead, with their eyes open and lower lips hanging.

"It was absolutely ghastly. Yet of all the animals only the old horse that had been munching hay was hit by a fragment of the shell. The other old horse was half falling, half leaning up against the fence, his fore legs stretched out forward, his hind feet doubled up on the sand beneath him. Both had been killed instantly.

"There was a faint odor in the air which I can only describe as that given off by methylated spirits yet mixed with a pungent smell of menthol.

"There was no wind at the time, the air being practically still. I should like to have seen the gun, but this, as well as the shells, was surrounded by a canvas screen. That the experiment made a deep impression on those present was quite obvious, and I was not surprised therefore to hear that the experiments had been repeated on a much larger scale at the French permanent camps of Chalons and Mailly.

Behind Locked Doors.

"I am told that the experiments got to the ear of the German general staff, for it appears that various plausible people, self-styled journalists, business agents, and others, began to call upon M. Turpin. After the war broke out a special guard was placed outside M. Turpin's residence to warn off all unauthorized persons. Within the last few weeks, however, Mr. Turpin has taken up his quarters at a magneto factory in a populous Paris suburb, where a number of men have been engaged in preparing the component parts of the turpinite shells, which are finished off in a private laboratory by Mr. Turpin and two assistants, who work with the doors locked.

"For special reasons, which it would be unfair to divulge at the present moment, I am strongly of opinion that these shells have not been used to any extent by the French armies in the field. Probably an actual test under battle conditions has been made once or twice, but no more. A number of people, however, have got wind of the matter, and imagination has done the rest.

"That this terrific explosive will, however, be used in case of such an eventuality as, say, an attempt to take Paris by storm I have no doubt, but I am convinced that, despite the thousands of bombs now prepared and the special apparatuses that are being cast, this explosive, a single 56-pound shell of which is able to kill—so to speak—to 'petrify' every living thing in a space of 400 square yards, will not be used unless in very desperate circumstances, and only with the full consent of France's allies."

HALF WORKS WHILE OTHER HALF SLEEPS

London.—The secret of the tremendous German dash through Belgium and on the outskirts of Paris now appears to be explained, according to a British officer who has returned wounded to England. The German army was organized as are the workers in a factory or a coal mine. That is, they worked in two shifts. Throughout the advance from Liege half the army was sleeping while the other half was attacking or advancing, and by these tactics they kept the allies constantly awake and wore them out by sheer want of sleep.

The fall of Namur was almost entirely due to the two shift tactics of the German army. The bombardment of that town, it will be remembered, was coninuous for three days—from Thursday, August 20, until five o'clock on the following Sunday afternoon.

It is obvious that the German attackers must have worked two shifts to have carried on such a bombardment. Even if the gunners were beyond the range of Belgian fire and safe from attack, they could not have kept it up for 70 consecutive hours. In the garrison of Namur sleep would have been impossible under such a terrific cannonade, and want of sleep is a stronger engine of war than even the German 11-inch howitzers.

From Namur right down through the northwestern part of France the German advance was conducted on the "two shift" principle, which means that twice a day when the "shift' that has just slept, comes up to the front to relieve the "shift" whose time for sleep has come, the firing line is reenforced to the full strength of the army and vast attacks can be launched. These, it will be observed, have been the tactics employed for the great German dashes have not been continuous, although the general movement forward during that stage of the war was.

Only soldiers who have fought through arduous campaigns can realize that sleep is a thing to which the bravest soldiers must eventually succumb. It is a struggle to beat off the healthy approach of sleep only for 24 hours; 70 hours is longer than most human beings can resist it, and by that time it is so strong that it outweighs other consideraions.

CARRY GERMANS OFF FEET IN LONG FIGHT

Paris.—A fine story of heroism is told about a certain infantry regiment which was fighting near Soissons for three days. The regiment made incessant assaults on the enemy's positions, but time after time was compelled to retire under the heavy German fire.

Toward nightfall on the third day the regiment gained the position at the point of the bayonet and swung around a height which was an important position to the German force.

The French general in command obtained re-enforcements of fresh troops and ordered them to capture the hill while the regiment which had been fighting he told to take a much-needed rest.

This announcement caused much disappointment to the men of the fighting regiment, and they sent a petition to their colonel asking that they be allowed to complete their work. The request was granted and the regiment carried the hill.

Found He Was Mistaken.

A man from the country, in charity one will say from the country, although he may have been a Bostonese, entered a New York restaurant the other evening, and while waiting to be served, gave his attention to an electric fan revolving just above his head. It was a high pressure fan, noiseless, and almost, if not quite, invisible because of its rapid motion. The stranger gazed at it for some considerable time and was heard to mutter: "I don't believe there is anything there at all." With that he put up his hand to confirm his belief. Immediately there was a yell that almost threw the place into a panic. The man sprang into the air, rushed out of the door and, as he disappeared, was heard to say: "I monkeyed with the buzz-saw, all right."

The Distinction.

Stella—Is she a professional or an amateur?

Bella—Depends on whether she eats to dance or dances to eat.

Finally Captured Eagle.

After defying a score of traps and as many guns of farmers, who have sought vainly to impose summary sentence for the loss of hundreds of chickens over a period of six months, Old Baldy, a monster eagle, was caught by a man with a lasso. He lay waiting in the shadow of his chicken house for the chicken thief for more than eight hours. The bird swooped down shortly after daybreak The lasso was thrown around the eagle's neck. The man wanted to capture the bird alive, but it fought so desperately that he was forced to shoot it. The eagle measures eight feet seven inches from tip to tip, and weighs 73 pounds.

You think that other people are "funny." But that is just what they are thinking about you.

SPECIAL TO WOMEN
The most economical, cleansing and germicidal of all antiseptics is
Paxtine
A soluble Antiseptic Powder to be dissolved in water as needed.
As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail. The Paxton Toilet Co., Boston, Mass.

This ℞ is for You!
If You Suffer From Hot flashes or dizziness, fainting spells, hysteria, headache, bearing down pains, nervousness—all are symptoms of irregularity and female disturbances and are not beyond relief.

Dr. Pierce's Favorite Prescription
is directed to the real cause and promptly removes the disease, suppresses the pains and nervous symptoms and thereby brings comfort in the place of prolonged misery.
It has been sold by druggists for over 40 years, in fluid form, at $1.00 per bottle, giving general satisfaction. It can now be had in sugar coated tablet form, as modified by R. V. Pierce, M. D. Sold by all medicine dealers or trial box by mail on receipt of 50c in stamps.

Your Building Work!

Your Building Work will be satisfactoay-everything else being equal-if you specify our material-lime, cement, brick, fire brick, sewer and drain pipe hair, plaster and everything else we handle. We buy and sell large quantities (tho we fill small orders as well), and are in a position to quote very low prices. Quality and reliability are our key words. Phone connection. Prompt delivery.

D. Payne Lumber Co.
Holt, Marshall County Minn.

C. F. Bjerkland was a passenger for the south, Monday.

Henry Offerdahl of Middle River was an over Sunday visitor with Holt friends.

Mr. Fuller, of the Hanson & Barzen Milling Co., was here from T. R. Falls, Monday.

John Sorum hauled some large and small culverts to Gatzke, Wednesday. Chas. Martell assisted with his team.

M. T. Strom will preach at 2 o'clock Sunday afternoon at the home of Arnold Folden in the township of Newfolden.

J. P. Lein of Warren visited a few days at the home of his daughter Mrs. C. H. Gunheim, returning to his home Tuesday.

D. Payne has recently sold lumber for granaries to Ole Rierson and H. Fosholm. THE NEWS is pleased to see these evidences of prosperity on the part of the farmers.

Two Thousand Men.

Two Thousand Men with X's are wanted for Nov. 3rd. next, to attack the right wing of Marshall County's official ballot. If you believe in Peace, bury your X opposite the name of Lewis M. Olson for Register of Deeds. The pencil will be mightier than the sword that day-use your pencil right.

Yours for Marshall County Home and Children.

Lewis M. Olson.

For Sheriff.

I hereby announce myself a candidate for sheriff of Marshall Co. and earnesly solicit your vote and influence. I have lived in Marshall Co. since childhood, have experienced both ups and downs in life, within the County and now ask you to inquire of my neighbors and acquaintances as to my charącter and behavior. I have nothing to say about myself only that if you elect me to the office of Sheriff, I shall discharge the duties impartially and to my best ability.

I remain Respectfully Yours.
Hans C. Hanson
Viking., Minnesota.

For County Attorney

To the Voters of Marshall Co:-

Having been nominated at the June primaries as a candidate for the office of Co. Attorney, I wish to announce to the voters of Marshall Co. that I am seeking the election to that office at the General Election Nov. 3rd: 1914.

I respectfully ask your vote and influence, and if elected, it shall be my purpose to conduct that office with efficiency and fairness and with the least expense to the county.

Your vote and influence in my behalf will be highly appreciated.

Respectfully yours,
E. A. Brekke.

For Representative.

I was made one of the "nominees for Representative for Marshall county at the June primaries, my vote being greater than that given to any of the other candidates for that office.

I came to Warren in 1883; have been editor of the Warren Register since 1894; was admitted to the bar in 1892; city recorder of Warren, 1900--1; clerk of taxes and tax laws committee of state senate, 1901; delegate to Republican National convention of 1912; secretary of board of education of Warren since 1909

I favor a square deal to everybody; am opposed to all legislation in behalf of special interests; favor county option and all other legislation that makes for temperance; favor all legislation tending to make our educational system more efficient; favor conservation and developement of state's natural resources; believe a representative owes it to his constituency to do more than merely answer to his name when the roll is called.

I respectfully solicit your support and votes on November 3, 1914, assuring you that, if elected, I shall serve you and your interests to the best of my ability.

Charles L. Stevens.

We want the Ladies From Holt
to take advantage of our Free Rail Road Fare offer, This Week.

We just received another fine Shipment of Ladies, Suits, Coats, Skirts and Furs. Also the newest in Fall Silks, Dressgoods, and Linens.

We know once you see our beautiful new showing of those fine fall shades, you'll be Just as enthused over them as we are.

Make arrangements to come this week.

We shall expect you.

Loken's Dept. Store
Thief River Falls

Eighty five numbers were sold for the dance Saturday night. Good order was maintained and Mr. Silsbaugh assures us that he is going to keep good order at all of his dances.

For Register of Deeds.

Having received the highest number of votes in the June primaries, for the nomination to the office of Register of Deeds for Marshall county, I wish to announce to my friends and the voters of the county that I am in the race to stay and will appreciate your support in the election Nov. 3rd next.

I have been a farmer, taxpayer and resident of the county since a young man, experienced the struggles of the early settler and according to means and ability have taken my share in the developments of the comunity. Based upon my record as a Public Official, especially that of the office of Register of Deeds which trust I held for four years and to which I now ask you to elect me, I deem myself amply qualified for the duties involved and if elected I promise to devote my time and energies in the discharge of such duties and the substance of my platform is, A SQUARE DEAL FOR EVERYBODY.

Respectfully
Louis M. Olson.

For County Attorney

To the voters of Marshall County

Having been favored as a candidate for re-election for the office of County Attorney, I wish to thank you for the liberal support which you gave me in the recent Primary Election, and I hope that I may again have your vote and support at the General Election to be held November 3rd 1914.

If re-elected, I shall continue to perform the duties of the office to the best of my ability. My [illegible] has always been to give the [illegible] economical and effjcient administration and in this I feel that I have been successful. I am willing to stand on my record.

Your influence and support will be greatly appreciated.

Respectfully yours,
A. N. [illegible]

For Register of Deeds.

Having received the nomination for the office of Register of Deeds of Marshall County Minnesota, at the Primary Election on June [illegible], I hereby announce to the voters of Marshall County that I am a candidate for the office, and will appreciate your support and vote at the General Election on November 3rd.

My past record of eight years as Deputy in the office I now seek suffices me to state that I am well qualified for the duties involved and if elected, I promise to faithfully discharge the duties of the office in as competent a manner as they have been during the past eight years of my connection with the office.

Respectfully soliciting your kind support and vote, I am
Yours truly,
CHAS. [illegible]

Vote For

SUNDBERG

For Senator

What Leading Men of the State Say of B. E. Sundberg:

"It is my judgement that he has been on the side of the people and for the best interests of the state on every issue."-Ex-Gov. John Lind.

"On railroad and other transportation questions, economy in public expenses and low taxation his voice and votes has always been on the side of the farmers, the producers."-State Auditor S. G. Iverson.

"I understand that the liquor and brewery interests of the state have made a combination with other corporate interests in your district to defeat you for re-election this fall."-Hon. J. F. Jacobson.

"His efforts to a large degree brought about the reduction of freight and passenger rates in Minnesota, also reduction of the express rates. He fought hard for an open market for grain."-Senator T. E. Cashman.

BELGIUM AGAIN CENTER OF FIGHTING

Antwerp Is Occupied--See-saw Battle on French Border.

APPEARANCE OF FRANCO-BRITISH FORCE IN NICK OF TIME SAVES RETREATING BELGIANS.

By International News Service.

London, Oct. 13.—The Germans cheated of their chance of cutting off the retreating Belgian and British army of defense in its flight from Antwerp by the severe check administered in the surprise attack by Franco-British forces at Quatrecht, near Termonde, are now advancing rapidly on Ostend in the hope of capturing King Albert and the entire Belgian government.

Belgian Army at Ostend.

The Belgian field army, assisted valiantly by large detachments of British cavalry and infantry and the British naval brigade which eluded the German flanking movement near Selzeate, has made good its orderly retreat and the main body has succeeded in reaching Ostend safely and intact. It is now in a position to effect a consolidation with the allies. As soon as this junction is a fact the Belgians, the British and the French will form a new battle line to the south and east of Ostend.

Refugees Flock to Ostend.

Refugees from Bruges and Eecloo, including many women and children, are flocking into Ostend fearful of the coming of the Germans. They report large bodies of Uhlans scouting in the vicinity of these two cities and spreading terror as they advance.

Berlin dispatches report that the 200,000 troops who formed the besieging army before Antwerp, together with the heavy artillery used in the bombardment, will be immediately transported to France and that Antwerp will be made to serve as a base for a new campaign against England in which mines and submarines will play an important part.

Enormous Supplies at Antwerp.

"We took enormous quantities of supplies of all kinds," says the official German statement, "that the German military commander of Antwerp has warned the people against committing overt acts against the Germans, which will be punished according to the laws of war, and," he adds, "may lead to the demolition of your beautiful city."

Personal protection and immunity from property loss are promised those who abstain from hostile acts.

Enormous War Fine.

Germany has, it is reported, imposed a fine of £20,000,000 ($100,000,000) on Antwerp as war indemnity.

The losses sustained by the Germans in the battle near Termonde, where they were forced to cross the Scheldt under heavy fire, were enormous. This is probably the first instance since the beginning of the war in which a surprise attack has been carried to a successful conclusion. The presence of the French and British allies in great force in this vicinity has been successfully hidden, even from the scouting aviators.

May Threaten Holland.

It is reported here that Germany is preparing to force its war demands against Holland and that it will lay claim to the mouth of the Scheldt on the ground that it is necessary as an emergency war measure against Great Britain. The Scheldt, which makes Antwerp one of the greatest ports in the world, is a neutral waterway because of the fact that it flows through Holland to the North Sea.

Holland has an army of 250,000 men on the active list, with a reserve force of 100,000, which it can call upon to enforce its demand that its neutrality be respected. Utilization of the Scheldt for war purposes may draw Holland into the conflict.

The French Statement.

London Oct. 12.—A dispatch from France to the Daily Mail says that the Germans have been driven back ten miles and have lost 12,000 men in a fierce battle which has been raging at Arras since Friday.

The French communication deals only with the battle, or rather series of battles, which have been in progress for four weeks from east to west in France with an ever extending line which now reaches northward from the elbow of Noyon to and across the Belgian border at Armentieres.

Allies Reported Holding

The statement says that the allies have held their positions everywhere and that German cavalry, which was attempting to envelope the allies' left wing and had seized certain points of passage on the River Lys, to the east of Aire, was defeated and retired to the northeast into the Armentieres district.

At the same time, the Germans, it is claimed, delivered a vigorous attack on the right bank of the Ancre river, between Arras and the Oise, without making any progress.

Cavalry Range Large.

This indicates that the battle in Picardy, comprising the department of the Somme and part of Oise, Pas De Calais and Aisne, in which the cavalry is participating on a scale not seen in previous modern wars, extends over a very considerable area. Here are many miles of open country, where horse-

Another Verdun Attack Likely.

A Berlin report says that the heavy German siege guns have been sent to France. If this is so, probably the Verdun forts along the French frontier, which are hindering the German advance, are to be attacked with them. In this case, however, there is a big field army behind the forts, so that while the destruction of them would make progress easier for the Germans, it would not absolutely insure their advance.

Bombs Dropped on Paris.

Paris, Oct. 13.—A score of bombs, launched on different quarters of Paris by two German aviators Sunday, killed four civilians and injured 20 others. The damage done to property was small.

Altogether 20 bombs fell. The Germans flew at a very low altitude. After they apparently had exhausted their supply of missiles French aeroplanes ascended and pursued them toward the east.

Reported Russian Activities.

London, Oct. 12.—The Przemysl fortress in Galicia, it is reported here, is undergoing a somewhat similar experience as the fortress at Antwerp, for the siege there continues. The Russian ambassador at Rome, in a report, declares the whole town is on fire and that the capitulation of the stronghold is imminent.

The Russians claim to have sent an army of invasion into Hungary, while another army is waiting for an attack of the Austro-German forces in Southwest Poland. A third Russian force is advancing towards Posen and Thorn, East Prussia, and General Rennenkampf's forces, which have done a lot of fighting since the war began, are trying to get into East Prussia.

Austrians Make Claims.

From the East Prussian frontier the only news received was from a Russian source which reported that the Russians had reached Lyck.

The Austrians claim to have driven the Russians from Hungary with immense casualties and that the Russians have been cleared from the greater portion of the Carpathians.

The Austrians also say they have forced the enemy out of Bosnia and that they have had successes here and there on the Drina. A Rome report has it that the Austrians are preparing to remove their capital from Vienna to Innsbruck.

Troops Suffer With Cold

Rome, via Paris, Oct 12.—A dispatch received here from Cetinje, Montenegro, says the troops are suffering severely, especially at night, owing to the cold. Snow already covers the peaks of the mountains.

Several detachments of Austrians, the dispatch adds, have been compelled to retire, unable to resist the weather.

Russians Stopped on Border

London, Oct 10.—The big battle line between the combined Austro-German armies and the legions of Russia extends from the Galician frontier, near Tarnow, north to the East Prussian border. Another Russian force is besieging Przemysl in Galicia, and still another is invading Hungary.

On the East Prussian frontier, the fighting appears to have come to a standstill for the present. The Russians having driven the Germans back, after their advance to the Niemen river, found, on getting to the German border, that reinforcements had been brought from Koenigsberg and their farther progress was arrested.

The Germans, in fact, claim to have defeated the Russians near Suwalki and to have taken 2,700 prisoners and nine machine guns.

Fighting on a large scale soon will be resumed, and it will then be decided whether the Germans are to reinvade Russia in this region or the Russians are to overrun Prussia.

Berlin Brands Story Lie.

Washington, Oct. 10.—The German embassy received the following wireless from Berlin:

"Official headquarters says that the report of an advance of Russian forces across the Niemen river in the district of Suwalki, Russia, is a lie. The battle took place near Augustowo, where the Germans, on Oct. 1 and 2, completely defeated two Russian army corps, made 3,500 unwounded prisoners, and took 20 guns, of which one was a heavy battery gun, and a number of machine guns. (Here part of the message was lost in transmission.)

Tokio Report Received

New York, Oct. 9.—The East and West news bureau announced that it had received a cable message from Tokio, as follows.

Tokio.—The war department has issued the following official announcement.

"After examining the reports received from various sources it is inferred that among the enemy's war ships in the bay of Kiao Chow, in addition to the Kormoran, two other gunboats have been sunk, as nothing has been seen of them since October 3.

"On October 6 a Japanese regiment made an advance along the Shan Tung railway as far as Chinan. There about 30 locomotives and 700 passenger and freight cars fell into the hands of the Japanese soldiers."

Will Return Seat to Paris.

London.—The French government will return to Paris at once, according to the Paris correspondent of the Express, who makes this announcement on high authority. The visit of President Poincare to army headquarters is considered a good omen.

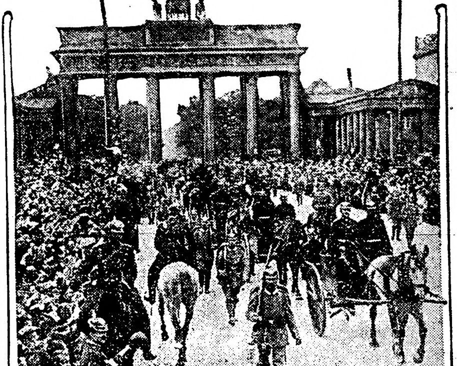
Torpedo Boats Sink.

London, Oct. 12.—A Reuter dispatch from Toulon says that the French torpedo boats, the 338 and the 347, collided off the isles of Porquerolles in the Mediterranean, and sank. The crews of both vessels were saved but salvage of the ships will be impossible.

German-Jewish Officers.

Rome, Oct. 12.—Heretofore, while there is no law prohibiting Jews from entering, no Hebrew officer enlisted in the Germany army. Since the war began, according to news received here, more than one hundred and fifty Jews have been promoted to officers' positions in the German army.

BERLIN SEES CAPTURED FRENCH GUNS



Captured French guns being brought into Berlin through the famous Brandenburg gate, to the delight of the populace.

Raid Zeppelin Hangars Again

London, Oct. 10.—According to a Central News dispatch from Amsterdam, another aerial raid has been made by the allies on Cologne and Dusseldorf, both important German Zeppelin airship bases. The telegram follows: "A dispatch from Cologne states that hostile aeroplanes threw bombs at the Zeppelin hangars at Cologne and Dusseldorf. The Cologne hangars were uninjured, but damage was inflicted at Dusseldorf."

Air Attack Strikes Terror.

Antwerp (via The Hague and London, Oct. 9.)—The condition of panic among the populace was increased by the appearance of German Zeppelins, which dropped bombs, destroying seven houses and killing a score of persons. On account of the Zeppelin's successful attack the large avenue leading to the railroad station quickly became black with a struggling mass of persons eager to escape from the city, seized with an unreasoning fear of bombardment.

Another of Kaiser's Sons Hurt.

London, Oct 9.—The second son of the German emperor, Prince Eitel Frederick, is reported to have been injured by a fall from his horse in a recent battle. Already two other sons of the emperor have suffered physical ailments as a result of their arduous campaign, Prince Joachim having received a bullet wound and Prince Oscar having been stricken with heart affection after an exhausting engagement.

MOTHERS AND DAME FASHION

Women Molds Her Daughter in Foundation of Style and Taste From Earliest Years.

Take the average girl, carefully note the manner in which she is dressed and then you have an advertisement—good or bad—for her mother.

In some subtle manner a mother molds her daughter from babyhood in the style of her clothing, and it is a very important molding, too. For if clothes do not make the man they do go a long way in giving a true impression of a woman.

Every new dress that a mother buys for her little girl is a small stone in the foundation of style and taste that will guide her daughter in future years.

I was taking tea with a well-known public woman recently, and she called my attention to two young business girls who were sitting at another table in the restaurant. From the hat of one hung a faded-looking rose, her low-necked blouse was not improved by her soiled coat collar, and above her cheap-looking patent shoes showed tawdry openwork stockings. The other wore a smart, perfectly plain hat, neat, well-fitting costume, and was tastefully booted.

"Different mothers!" said my companion briefly.—Rehoboth Sunday Herald.

Out of the Mouths of Babes.

Little Julia's mother had just returned from a visit to the hairdresser with her hair all fluffy.

"Oh, mamma," cried Julia, "who fricasseed your hair?"

"Listen, Elva," said the fond mother, "and I'll read to you about heaven and its beautiful golden streets."

"Never mind, mamma," replied the little miss, "I'd rather wait until I get there and be s'prised."

Clara, aged five, was hurrying to bed, being very weary after a long journey, when her mother reminded her that she had forgotten to say her prayer. Dropping on her knees by the side of her cot and folding her hands she said:

"Please, Lord, what I said last night goes tonight. Amen."

American Goods in Australia.

Australia has been making steady increases in her purchases of goods from the United States in the five year period following 1909. The total in 1912 was more than $52,000,000.

Ham, bacon or sausage, fried potatoes; doughnuts and coffee—prepared by overworked mothers.

Today's and Tomorrow's Breakfasts

run about like this:

Post Toasties

—with cream or fruit, a poached egg or two; crisp toast; and a cup of Postum—a royal starter for any day.

Quick, easy to serve, appetizing, and—

"Mother" has a chance!

—sold by Grocers.

CONGRESS WINDING UP WORK

HOPE TO GET AWAY BY SATURDAY NIGHT.

National Legislators Assured by the President Return Will Not Be Necessary Before Dec. 7.

Washington, Oct. 13.—Administration leaders in Congress are making every possible effort to wind up the long session by Saturday night with assurances from the president that it will be unnecessary to return until the first Monday in December, yet the prospect is that it will be Oct. 20 before Congress can adjourn.

"We will expedite the war revenue bill in the senate as rapidly as possible, said Senator Simmons, chairman of the finance committee. "Democrats are not disposed to change the measure as it came from the caucus."

Republican senators now are inclined not to prolong debate as many of them are anxious to get into the campaign. Several attacks on the measure already have been made and others will follow, the Republicans maintaining that there would have been no necessity for a revenue measure, but for the alteration of the tariff and appropriations.

Democratic leaders hope that the Alaska coal land leasing bill may be adjourned in conference in time for adjournment.

In the house the bill to pave the way for ultimate Philippine independence probably will be passed within a day or two. Following that the house will mark time awaiting senate action on the war revenue measure.

BOSTON WINS IN ELEVENTH.

Takes Third Game From Philadelphia—Need But One More.

Fenway Park, Boston, Oct. 13.—Before one of the greatest crowds that ever witnessed a world's series combat, the Braves beat the Athletics five to four in the eleventh inning the third game for championship of the world.

Victory for the Braves meant that they needed but one more game to dethrone the supposedly invulnerable Philadelphia team.

Bush pitched for Philadelphia and Tyler was on the mound for the Braves. Schang and Gowdy were behind the bat.

Cholera Spreads in Austria.

Venice, via Paris, Oct. 13.—Cholera is spreading rapidly to the remotest district of Austria. A case has been discovered at Feldtkirch, province of Vorarlberg, near the Swiss frontier. The Austrian troops in Galicia are being vaccinated against the disease. The cold weather has caught the Austrian soldiers in Galicia unprepared. Owing to the increase in the price of flour the Vienna Bakers' Association has announced that its members will make only big loaves of the so-called war bread and that they will sell only for cash.

Auto Wreck; Three Collegians Killed.

Minneapolis.—Reginald Field, university student, died at the city hospital, the third persons to succumb to injuries received in the automobile accident Saturday night. His death was due directly to concussion of the brain. The victim never regained consciousness from the time of the accident four hours previously. The other fatally injured were Katherine C. Bright and Evelyn Spafford, both society girls of Minneapolis and students. Hope is entertained for the recovery of the other victims.

U. S. to Mobilize Submarines

Washington, Oct. 13.—Tentative plans are being worked out for the assembly some time next winter in the Mexican gulf or West Indian waters of the largest fleet of American submarines ever brought together. The opening of the Panama canal will make it possible to bring into Atlantic waters submarines attached to the Pacific fleet and with vessels now nearing completion there will be probably 25 or 30 under water fighters mobilized.

I Want Some US CARTRIDGES

Test after test after test of ammunition has proved the value of the U. S. non-mercuric primer. No mercury in the primer means no harmful, corrosive fouling of the barrel, no destroying action on the brass cartridge case, no varying time of ignition. The U. S. primer is a strictly chemical compound that acts with perfect uniformity.

Where fulminate of mercury is used, ground glass is also used. Ground glass is difficult to mix with mercury and its effect is not only to wear down the rifling, but also to cool the primer flame by absorbing about 16% of the heat.

World's Championship Rifle Teams habitually use U. S. Cartridges.

ECZEMA BLOTCHES ON FACE

Newport, Ore.—"I was troubled with pimples all my life. They were the kind that came under the skin in big red blotches. I was kept awake night after night with the itching and burning. My face was pitted. Eczema also affected different parts of my body and I would scratch till the skin was all raw and sore.

"No external treatment did me any good till I tried Cuticura Soap and Ointment. The Ointment relieved the itching the moment it was applied. I used the Soap and Ointment steadily for three months and they healed me." (Signed) Mrs. B. A. Tozer, June 5, '14.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Success always gets applause, but it doesn't always respond to an encore.

Better one boil on the stove than two on the neck.

What a Cold Can Do

Many a fatal case of kidney disease starts from a simple cold or chill. Congestion clogs and weakens the kidneys. Uric poisons collect, damage the kidneys and cause backache, rheumatic pain, headaches and urinary disorders.

When doctoring a cold, think of the kidneys. Drink water freely to help flush out the poison. Take Doan's Kidney Pills to relieve congestion of the kidneys, give up a heavy meat diet and take plenty of rest. Nature will assist in the cure. Doan's Kidney Pills are used with success and are publicly recommended all over the civilized world.

A North Dakota Case

C. Orton, Langdon, N. D., says: "I had a dull ache just over my kidneys and if I lay in one position long the trouble was worse. I could hardly stoop or lift and I knew that my kidneys were disordered. The kidney secretions passed too frequently and were highly colored. When I heard about Doan's Kidney Pills, I used them and four boxes fixed me up all right. The cure has lasted."

For Register of Deeds.

Having received the highest number of votes in the June primaries, for the nomination to the office of Register of Deeds for Marshall county, I wish to announce to my friends and the voters of the county that I am in the race to stay and will appreciate your support in the election Nov. 3rd next.

I have been a farmer, taxpayer and resident of the county since a young man, experienced the struggles of the early settler and according to means and ability have taken my share in the developments of the comunity. Based upon my record as a Public Official, especially that of the office of Register of Deeds, which trust I held for four years and to which I now ask you to elect me, I deem myself amply qualified for the duties envolved and if elected I promise to devote my time and energies in the discharge of such duties and the substance of my platform is, A SQUARE DEAL FOR EVERYBODY.

Respectfully

Louis M. Olson.

For County Attorney

To the voters of Marshall County.

Having been favored as a candidate for re-election for the office of County Attorney, I wish to thank you for the liberal support which you gave me in the recent Primary Election, and I hope that I may again have your vote and support at the General Election to be held November 3rd 1914.

If re-elected, I shall continue to perform the duties of the office to the best of my ability. My aim has always been to give the people an economical and efficient administration and in this I feel that I have been successful. I am willing to stand on my record.

Your influence and support will be greatly appreciated.

Respectfully yours,

A. N. Eckstrom

Notice of Mortgage Foreclosure Sale.

Whereas default has been made in the conditions of a certain mortgage containing a power of sale duly executed and delivered by F. A. Ladwig and Clara Ladwig, his wife, mortgagors, to Oscar A. Trytten, mortgagee, bearing date the 28th day of April, 1913, duly recorded in the office of the Register of Deeds in and for the County of Marshall and State of Minnesota, on the 16th day of May, 1913, at 2 o'clock P. M., in Book 69 of mortgages, on page 369, such default consisting in the non-payment of the sum of Eighty one and 20-100 Dollars, ($81.20) interest on the principal of the note secured by said mortgage, which interest became due and payable on the 28th day of April, 1914, according to the terms and conditions of said note and mortgage; and, Whereas, the undersigned, the Mortgagee and present owner and holder of said mortgage, has elected to declare, and has declared, the whole amount, principal and interest of the note secured by said mortgage to be due and payable; and, Whereas, the undersigned has been compelled to pay the sum of $60.40 interest on a prior mortgage on the premises hereinafter described, such interest being in default; and, Whereas, the amount claimed to be due on said mortgage at this date, including said interest, paid on the said prior mortgage, is the sum of Thirteen Hundred Forty and 26-100 Dollars ($1340.26), and no action or proceeding having been instituted, at law or otherwise, to recover the debt secured by said mortgage or any part thereof, NOW, THEREFORE, NOTICE IS HEREBY GIVEN, That by virtue of the power of sale contained in said mortgage, and pursuant to the statue in such case made and provided, the said mortgage will be foreclosed by a sale of the premises described in and conveyed by said mortgage, viz:

The Northwest quarter of the Southwest quarter (NW 1-4 SW 1-4) and the Southwest quarter of the Northwest quarter (SW 1-4 NW 1-4) of Section Seventeen (17), and the East half of the Southeast quarter (E 1-2 SE 1-4) of Section Eighteen (18), all in Township One Hundred and Fifty-five (155) North, of Range Fortyfour (44) West, of the 5th Principal Meridian, in the County of Marshall and State of Minnesota with the hereditaments and appurtenances; which sale will be made by the Sheriff of said Marshall county at the front door of the Court House in the city of Warren in said County, and State, on the 20th day of October, 1914, at 10 o'clock in the forenoon of that day, at public vendue, to the highest bidder for cash, to pay said debt of Thirteen Hundred Forty and 26-100 Dollars ($1340.26) and interest and the taxes, if any, on said premises, and Seventy-five Dollars ($75.00) Statutory Attorney's fees, as stipulated in and by said mortgage in case of foreclosure, and the disbursements allowed by law; subject to redemption at any time within one year from the day of sale, as provided by law.

Dated August 27, 1914.

Oscar A. Trytten, mortgagee.

H. O. Kjomme, Attorney for mortgagee, Thief River Falls, Minnesota.

For Representative.

I was made one of the nominees for Representative for Marshall county at the June primaries, my vote being greater than that given to any of the other candidates for that office. [illegible] Warren in 1883; have been editor of the Warren Register since 1894; was admitted to the bar in 1892; city recorder of Warren, 1900--1; clerk of taxes and tax laws committee of state senate, 1901; delegate to Republican National convention of 1912; secretary of board of education of Warren since 1909

I favor a square deal to everybody; am opposed to all legislation in behalf of special interests; favor county option and all other legislation that makes for temperance; favor all legislation tending to make our educational system more efficient; favor conservation and developement of state's natural resources; believe a representative owes it to his constituency to do more than merely answer to his name when the roll is called.

I respectfully solicit your support and votes on November 3, 1914, assuring you that, if elected, I shall serve you and your interests to the best of my ability.

Charles L. Stevens.

The undersigned desire to extend heartfelt thanks for the many kindnesses rendered during the illness & death of our beloved father Fredrick Olm, especially to Arvid and Anton Carlston for the beautiful floral offering.

Mrs. L. Wegge, Brothers and sisters.

Dear Friends of Holt and Vicinity:

We all reached our destination in safety. Mr. Ordohl taking the straight road from St. Cloud to Sioux Falls S. D. where the Synod meeting will be held. Questions of importance to the Norwegian Church, as Church Union, will come up.

Greetings to you all from Mrs. Ordohl, Hildred and Valleary.

For Sheriff

At the June primaries I was Nominated for re-election to the office of Sheriff. During my incumbency of the office, I have performed my duties faithfully and impartially and to the best of my ability, as I shall continue to do if re-elected.

My official record is open to the closest scrutiny and it is on that record that I ask the support of the voters of Marshall Co. on Nov. 3 '14.

Respectfully,
William Forsberg.

Get your meals at the hotel. adv

Farmers! Get your meals at the hotel. T. T. Sollom, Prop.

English Sunday School will commence next Sunday. Every body come so we can start out right, and see how many supplies we will need. Remember the hour 10.30 and that teachers will be provided. Come and have a good time.

Dr. Turley, the Dentist will be at the hotel, in Holt, Monday Oct. 26.

Donald Robertson

Seeks election as Rrepresentative on the following PLATFORM.

I am in favor of:-

County Option and such other legislation as will promote temperance among the people.

Giving the women the right to vote the same the men.

Legislation with a view to suppress tuberculosis, and liberal appropriations to properly care for the unfortunates who are afflicted with this dreaded disease.

An economical and business-like administration of State affairs. Reganization of State Departments.

Initiative and Referendum.

Open markets. A thorough investigation of the conditions existing at our terminal markets, and a law providing for stricter regulations governing the sale of grain and other products of the farm at such terminals, with a view of securing to the producer the full value of his products.

Liberal State aid for Agricultural and Industrial Education in our Public Schools.

Conservation and State Development.

During my residence of over thirty one years in Marshall Co., I have always endeavored to act on the square, and contribute my share to the upbuilding of the County and the improvement of the conditions therein, and shall continue to do so in the future.

Sincerely yours,
Donald Robertson.

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—MRS. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN.—"I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pinkham's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—MRS. JENNIE AKERMAN, c/o Rev. K. AKERMAN, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass.

SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—MRS. JANE D. MURDOCH, 25 Gordon St., South Quincy, Mass.

LYDIA E PINKHAM

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

"I want some wire netting to keep mosquitoes out of the house," said the Jerseyite.

"How about this?" asked the clerk as he displayed a sample.

"The mesh is too coarse," said the customer. "I may also want to use it for chickens."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative. Adv.

And What Happened Then?

He—I would kiss you if I dared.

She—If I were a man I think I would dare anything.

YOUR OWN DRUGGIST WILL TELL YOU Try Murine Eye Remedy for Red, Weak, Watery Eyes and Granulated Eyelids; No Smarting—just Eye Comfort. Write for Book of the Eye by mail Free. Murine Eye Remedy Co., Chicago.

If it were not for your memory you would be unable to forget.

Wonders of Nature.

"Charley, dear," said young Mrs. Torkins, "you have no idea how instructive and interesting it is to go to market!"

"What's interesting you now?"

"The provisions that nature makes for our comfort. It occurred to me this morning that we should be so thankful that removing the shell from an egg is so much easier than removing the shell from an oyster."

M'ADOO CRITICISES PLAN FOR FEDERAL AID FOR PLANTERS

SECRETARY OF TREASURY DECLARES SCHEME TO BOLSTER COTTON CROP IS NOT FEASIBLE.

ASSERTS OTHER SUFFERING INDUSTRIES AS DESERVING

Democratic Policy of "Equal Rights to All, Special Privileges to None" Involved, Cabinet Official Holds in His Letter to Congressman Henry.

Washington, Oct. 12.—The plan for direct federal aid to cotton growers to the extent of $400,000,000 was the subject of sharp criticism in a letter to Representative Henry of Texas, made public by Secretary McAdoo. The letter is in reply to recent statements to the house by Mr. Henry.

Calls Scheme Impractical.

Mr. McAdoo announces that the proposal to sell $250,000,000 of Panama canal bonds to bolster the cotton crop is not practicable. He calls atention to the fact that those who deal in tobacco, naval stores, copper, silver and other commodities, have sought government aid.

"If we disregard every suffering interest except cotton," he said, "and make it the sole beneficiary of government favor, what becomes of the Democratic principles of 'equal rights for all, special privileges to none'?

Would Have to Aid All.

"If we enter upon the course you suggest you must help every distressed industry impartially."

Representative Henry introduced in the house a compromise loan proposition which would reduce the proposed loan to $250,000,000.

While Mr. McAdoo was writing his letter, the committee of St. Louis jobbers and bankers, headed by F. J. Wade, was in conference with a committee of the federal reserve board over the proposed $150,000,000 cotton loan fund to take care of the surplus cotton crop. No decision was reached.

Much Aid Already Extended.

Mr. McAdoo's letter to Mr. Henry went exhaustively into the aid so far extended by the treasury to national banks in the cotton states, showing that it has issued to them since the war begun $68,000,000 in currency; that its crop funds there amount to $11,337,000; that its regular deposits in the South total $16,065,000, and that there is available for southern banks in compliance with law, $151,000,000 more in additional national bank currency.

Inquiry Held Irretrievable.

"What is really wanted," said the letter, "is a restored market for cotton. The value of cotton has been injured this year by the European war. This injury cannot be retrieved nor the market restored by legislation any more than the injury to corn which was caused by drought last year in the great corn states of the West could have been repaired by legislation."

WILSON GETS GOOD REPORTS

Hears That Business Is Improving Generally—Democrats Will Use This as Campaign Argument.

Washington, Oct 12. Business conditions throughout the country are improving, according to reports reaching President Wilson and Democratic speakers are to be instructed to dwell on this fact during the fall campaigns in answer to the expected charges by Republicans and Progressives that the new tariff has brought financial disaster.

The president was informed many orders for American goods were being received from abroad and that the first bad effects of the European war on American industry had passed.

As a part of the Democratic campaign, the president probably will issue a statement when he signs the Clayton anti-trust bill, now before him, calling attention to the completion of the program of trust legislation started with the passage of the trade commission bill.

War Office and Press Bureau Clash.

London, Oct. 10.—The British official press bureau announces reports stating Canadian trooops had heached England were inaccurate. In this connection there are rumors of a clash between the press bureau and the war office. Earl Kitchener is said to have given the press bureau officials a jolt by informing them that they were telling too much about troop movements.

U. S. Assists 10,000 in London.

London, Oct 12.—During the past two weeks, the American relief committee has given financial assistance to 241 persons, making a total of 9,595 to date. During this period something like 6,000 Americans embarked from these islands for the United States, bringing the total of departures up to 10,000 since war was declared. "It is evident that the American tourists have pretty well returned home," said H. C. Hoover, chairman of the committee.

COUNT MACCHI DI CELLERE

© HARRIS & EWING

Count di Cellere is the new Italian ambassador to the United States. He arrived in Washington recently with the countess and their little son and daughter and has taken the beautiful Thomas Nelson Page home. The count, who comes of a very old and wealthy family, is a man of brilliant diplomatic attainments and in Italy is spoken of as a probable future minister of foreign affairs.

TO PROTECT AMERICAN BORDER

WARLIKE PREPARATIONS ARE MADE BY U. S.

Carranza and Villa Delegates to Conference Can't Agree on Purpose of Assembling at Aguas Calientas.

Naco, Ariz., Oct. 10.—Warlike preparations are being made in the camp on the American border to protect the neutrality of the boundary.

The siege of Naco, Sonora, where General Benjamin Hill is entrenched with his Carranza troops, and Governor Maytorena, the Villa partisan, has for six days amounted to a practical bombardment of the Mexican town. Colonel Guilfoyle, Ninth United States cavalry, states that at one time his troops evidently were mistaken for the enemy by both of the fighting factions.

Barricades have been thrown up by the American troops. A string of American flags now marks the international line.

Col. C. A. P. Hatfield, Thirteenth United States cavalry, from Douglas, Ariz., is in charge of the American troops, Colonel Guilfoyle commanding the Ninth and Colonel Brown the Tenth cavalry.

The troops comprise about 1,800 men with a machine gun platoon.

Further reinforcements are expected.

No Agreement Between Leaders.

El Paso, Tex.—While no definite reports came from the south regarding the pending conference at Aguas Calientas, it was apparent from the expressions of local officials of both factions that the Carranza and Villa delegates had not yet agreed upon the matters to be discussed or the actual status of the meeting.

The Villa faction held that the convention was to have been a meeting of all chiefs to decide on the matter of who should serve as provisional president until the holding of elections.

The Carranza agents insisted the five delegates sent north from Mexico City merely formed a permanent peace commission, which would treat with Villa only regarding his insubordination to the Constitutionalist commander-in-chief, that the Mexico City conference already had decided the matter of the provisional presidency by rejecting Carranza's resignation.

Senate Votes Mediators Medals.

Washington, Oct 12. A joint resolution extending the thanks of congress to the South American diplomats who acted as mediators between the United States and the Huerta government in Mexico, was passed by the senate. The resolution provides also for an appropriation of $3,000 for the purchase of gold medals to be presented to the three mediators, Ambassador da Gama, representing Brazil; Minister Naon of Argentina and Minister Suarez of Chile.

Talk Commission for M[illegible]

Washington, Oct 12. A commi[illegible] form of government for Mexico until order is restored and the resumption of full constitutional functions by the people is possible, has been suggested at the informal discussions at Aguas Calientes, preceding the formal meeting between representatives of Carranza and Villa. This was reported to the state department here and met with prompt recognition as a possible solution of the vexing problems of the southern republic.

American High Record B[illegible]

San Diego, Cal, Oct 10. Flying an American aeroplane driven by an American made motor, Captain H. LeR. Muller of the First Aeroplane corps, U. S. A. broke the American altitude record here, when he ascended to a height of 17,441 feet. Captain Arthur S. Cowan, in command of the corps, who is a representative of the Aero Club of America on the Pacific coast, read the barograph on Captain Muller's machine and announced that the army officer had broken the record of 15,137 feet.

Find a Fortune in Sewers.

The revenue last year from the Bradford corporation's grease factory amounted to over $250,000. This sum represents what other people have thrown away, for the grease is extracted from waste products of the wool industry in the English city.

When the crude wool is washed at Bradford some of its natural fat is washed into the sewers. By collecting the "sludge" and extracting the fatty substances, the city is able to dispose of about 120 tons of valuable grease per week.

HEAL YOUR ECZEMA QUICKLY WITH RESINOL

No matter how long you have been tortured and disfigured by eczema or other itching, burning, raw or scaly skin humor, just put a little of that wonderful resinol ointment on the sores and the suffering stops right there! Healing begins that very minute, and your skin gets well so quickly you feel ashamed of the money you threw away on tedious, useless treatments. Used by doctors for 19 years. Resinol ointment and resinol soap also clear away pimples, blackheads, and dandruff speedily and at little cost. Sold by all druggists.—Adv.

THE ELEVEN
Proposed Amendments
to the Constitution of the STATE OF MINNESOTA

Submitted by the Legislature at Its General Session, 1913, Together With a Statement of the

PURPOSES AND EFFECTS,

Prepared by Hon. Lyndon A. Smith,

Attorney General of Minnesota.

Addressed to

Julius A. Schmahl

Secretary of State.

OFFICE OF THE ATTORNEY GENERAL, ST. PAUL.

April 25, 1914.

Honorable Julius A. Schmahl,
Secretary of State,
Capitol.

SIR: As required by Section 46, General Statutes of the State of Minnesota for the year 1913, I have the honor to furnish you herewith a statement of the purposes and effects of the respective amendments proposed to the Constitution of the State of Minnesota by the Legislature of 1913, and which are to be submitted to the electors of said State at the general election in 1914.

FIRST PROPOSED AMENDMENT.

The first proposed amendment is contained in Chapter 584 of the Laws of Minnesota for the year 1913.

PURPOSE: By this amendment it is sought to enable the electors to submit by petition to the Legislature constitutional amendments and likewise to propose legislation, and in the event the Legislature fails to submit any such constitutional amendment or fails to enact any such proposed law, then such amendment or proposed law may be submitted directly to the voters; also to permit the electors to cause any law or laws enacted by the Legislature to be submitted to the electors and if a majority of the votes cast thereon be opposed to such law, the same shall be repealed.

This is an amendment to Section 1 of Article 4 of the Constitution, which law reads as follows:

"Section 1. The legislature shall consist of the Senate and House of Representatives, which shall meet biennially at the seat of government of the State, at such time as shall be prescribed by law, but no session shall exceed the term of ninety (90) legislative days; and no new bill shall be introduced in either branch, except on the written request of the governor, during the last twenty (20) days of such sessions, except the attention of the legislature shall be called to some important matter of general interest by a special message from the governor."

and substitutes therefor the following:

"Sec. 1. TWO HOUSES—SESSIONS.—The Legislature shall consist of the senate and house of representatives, which shall meet biennially at the seat of government of the state, at such time as shall be prescribed by law, but no session shall exceed the term of ninety (90) legislative days, and no bill shall be introduced in either branch, except on the written request of the governor, during the last twenty days of such session, except the attention of the legislature shall be called to some important matter of general interest by a special message from the governor; but the people reserve to themselves direct power, as follows:

"a. CONSTITUTIONAL INITIATIVE.—When at any time prior to the commencement of any session of the legislature, there shall have been filed with the secretary of state a petition proposing an amendment to the constitution signed by two per centum of the electors of the state, the secretary of state shall transmit the same to the legislature not later than ten days after the commencement of the session. If the amendment so proposed be not submitted to the electors by the legislature at such session, or if it be submitted in an amended form, then upon a further petition or petitions, each signed by eight per centum of the electors of the state, filed with the secretary of state within six months after the adjournment of the legislature, the amendment proposed in the first petition, or one or more amended forms thereof, shall be submitted to the electors for their approval or rejection at the next general or special state-wide election, occurring not less than ninety days after the filing of any such further petitions. Any amendment proposed by initiative petition and, in its original or in an amended form, submitted to the electors by the legislature or by a further petition, shall become a part of the constitution, if approved by a majority of the electors voting at said election, or by four-sevenths of the electors voting on the proposed amendment; provided not less than three-sevenths of the electors voting at said election voted for the proposed amendment. This section shall be construed as a means in addition to Section one, Article fourteen of the State Constitution for amending the same.

"b. STATUTORY INITIATIVE—When at any time prior to the commencement of any session of the legislature, there shall have been filed with the secretary of state a petition proposing a law, signed by two per centum of the electors of the state, the secretary of state shall transmit the same to the legislature not later than ten days after the commencement of the session. If the law so proposed be not passed by the legislature at such session, or if it be passed in an amended form, then upon a further petition or petitions, each signed by six per centum of the electors of the state, filed with the secretary of state within six months after the adjournment of the legislature, the law proposed in the first petition, or one or more amended forms thereof, shall be submitted to the electors at the next general or special state-wide election, occurring not less than ninety days after the filing of any such further petition or petitions, and if approved by a majority of the electors voting thereon, the same shall become law and go into effect thirty days after such election, and shall supersede any amended form of such law which may have been passed by the legislature. No law proposed by initiative petition and approved by the electors shall be subject to the veto of the governor. The authority of the people to enact laws, as provided in this subdivision, shall extend only to laws authorized by the provisions of the constitution.

"c. THE REFERENDUM.—If within ninety days after the final adjournment of any session of the legislature, a referendum petition, signed by six per centum of the electors of the state, shall be filed with the secretary of state against any law, or any part of a law, passed by the legislature at such session, such law, or such part of a law, shall be submitted to the electors at the next general or special state-wide election, occurring not less than ninety days after the filing of said petition. If a majority of the vote cast thereon be in the negative, such law, or such part of a law, shall thereby be repealed. Provided, that if a referendum petition is signed by fifteen per centum of the electors of the state, the law or part of a law, against which such petition is filed shall be suspended pending the referendum vote thereon.

"Any law providing for a tax levy or appropriating money for the current expenses of the state government or state institutions, any act of the legislature submitting a constitutional amendment or other question to the electors of the state, or any emergency law necessary for the immediate preservation of the public peace, health or safety shall go into effect immediately upon its passage and approval by the governor, and such laws, except emergency laws, shall not be subject to a referendum vote. All other laws shall go into effect ninety days after the adjournment of the legislature. A bill proposing an emergency law shall contain a preamble briefly setting forth the facts constituting the emergency. A separate vote shall be taken upon the preamble of such bill by a call of the yeas and nays, and if the preamble be adopted by a two-thirds vote of all the members of each house, it shall be an emergency law.

"d. GENERAL PROVISIONS.—All petitions provided for in this section shall contain a title indicating the subject and purpose of the proposed law or constitutional amendment, or the law, or part of a law, to be referred, and if a change is proposed in an existing constitutional provision or statute, in addition to referring to the same, it shall state the general effect of the proposed change, and also the full text of the proposed law or amendment to the constitution or of the law, or part of a law, to be referred. Any initiative or referendum petition may be signed in separate parts, but each part shall conform to the provisions herein contained. All petitions shall be signed and verified before a person authorized to administer an oath, and shall be in such form that a person signing a petition thereby states under oath, the date of his signature his residence, that he is a qualified elector, that he has not previously signed any part of such petition, and that he has signed the petition with knowledge of the contents thereof. To each part of such petition shall be attached the affidavit of the person before whom the same was signed, which affidavit shall contain a statement of the number of signers thereon, that each of the signatures attached to such part was made in the presence of the affiant, that to the best of his knowledge and belief each signature is the genuine signature of the person whose name it purports to be, that he believes the persons who have signed such petition to be electors, that they signed such petition with knowledge of the contents thereof, and that each person signed the same on the date stated opposite his name. The circulation of the petitions provided for herein, or the prohibition of the circulation thereof, may be regulated by law, and in case the circulation of any petition is prohibited by law, the percentage of signers required on any petition provided for in this section shall be one-half of the percentage specified in subdivisions A, B and C of this section.

"The percentage in any case shall be based upon the total number of votes cast for governor at the next preceding election. All petitions provided for in this section shall contain the signature of not less than one-half of the designated percentage of the electors in not less than one-fourth of the counties of the state. In initiating a law or constitutional amendment, electors who have signed the first shall be qualified to sign the second petition. The sufficiency of all petitions shall be decided by the secretary of state subject to review by the court. If the secretary of state decides that any petition is insufficient, he shall permit a reasonable time for making corrections or for filing additional signatures. In the event of legal proceedings in court to prevent giving effect to any such petition on account of insufficiency, or any other ground, the burden of proof shall be upon the person attacking the petition. No law or amendment to the constitution initiated and approved by the electors as herein provided, shall be held unconstitutional, or void on account of the insufficiency of any initiative petition, nor shall the repeal of any law submitted by referendum petition be held invalid for such insufficiency.

"All initiative laws and constitutional amendments shall be so submitted to the electors as to permit an affirmative or negative vote upon each measure submitted. If conflicting proposed laws or conflicting proposed amendments to the constitution be approved at the same election, the one receiving the highest number of affirmative votes shall prevail as to conflicting provisions.

"The style of all legislative measures and amendments to the constitution initiated by the people under this section shall be: 'Be it enacted by the people of the State of Minnesota.'

"The provisions of this section may be enforced by appropriate legislation, but until such legislation has been enacted, this section shall be self-executing."

EFFECT: The effect of this amendment, if adopted, will be to give to the electors the privilege of submitting directly to the voters constitutional amendments, proposed legislation and the right to suspend and annul laws enacted by the Legislature.

SECOND PROPOSED AMENDMENT.

The second proposed amendment is contained in Chapter 585 of the Laws of Minnesota for the year 1913.

PURPOSE: The purpose and object of this amendment is to add two Associate Justices to the Supreme Court; to require the concurrence of five Justices of the Supreme Court before any law shall be declared unconstitutional by such court, and make the office of Clerk of the Supreme Court appointive, and is an amendment of Section 2 of Article 6 of the Constitution, which law reads as follows:

"Sec. 2. The supreme court shall consist of one chief justice and two associate justices, but the number of the associate justices may be increased to a number not exceeding four, by the legislature, by a two-thirds vote, when it shall be deemed necessary. It shall have original jurisdiction in such remedial cases as may be prescribed by law, and appellate jurisdiction, in all cases, both in law and equity, but there shall be no trial by jury in said court. It shall hold one or more terms in each year, as the legislature may direct, at the seat of government, and the legislature may provide, by a two-thirds vote, that one term in each year shall be held in each or any judicial district. It shall be the duty of such court to appoint a reporter of its decisions. There shall be chosen, by the qualified electors of the State, one clerk of the supreme court, who shall hold his office for the term of four years, and until his successor is duly elected and qualified, and the judges of the supreme court, or a majority of them, shall have the power to fill any vacancy in the office of clerk of the supreme court until an election can be regularly had."

and substitutes therefor the following:

"Sec. 2. The supreme court shall consist of one chief justice and six associate justices. Five shall constitute a quorum, and the concurrence of at least four shall be necessary to a decision, but no statute shall be declared unconstitutional unless five members of the court shall concur in the decision. It shall have original jurisdiction in such remedial cases as may be prescribed by law, and appellate jurisdiction in all cases, both in law and equity, but there shall be no trial by jury in said court. It shall hold one or more terms in each year, as the legislature may direct, at the seat of government, and the legislature may provide, by a two-thirds vote, that one term in each year shall be held in each or any judicial district. It shall be the duty of such court to appoint a reporter of its decisions, and a clerk of the supreme court."

EFFECT: The present constitution provides that the number of Associate Justices of the Supreme Court shall not exceed four in number, while the amendment, if adopted, will increase the number to six. A majority of the Supreme Court may now declare a law unconstitutional, but if this amendment is adopted, it will require the concurrence of five members. The office of clerk of the Supreme Court is now elective, but if this amendment is adopted, the clerk of the Supreme Court will be appointed by the court.

THIRD PROPOSED AMENDMENT.

The third proposed amendment is contained in Chapter 586 of the Laws of Minnesota for the year 1913.

PURPOSE: By this amendment it is sought to authorize the State to construct roads, ditches, fire breaks through and around unsold state school and swamp lands, and a $250,000 revolving fund, realized and kept up from the sale of such lands, is to be set apart for such purpose. This is an amendment of Section 2 of Article 8 of the Constitution, which law reads as follows:

"Section 2. The proceeds of such lands as are or hereafter may be granted by the United States for the use of schools within each township of this State shall remain a perpetual school fund to the State; and not more than one-third (⅓) of said lands may be sold in two (2) years, one-third (⅓) in five years, and one-third (⅓) in ten (10) years; but the lands of the greatest valuation shall be sold first; provided, that no portion of said lands shall be sold otherwise than at public sale. The principal of all funds arising from sales or other disposition of lands or other property, granted or entrusted to this State in each township for educational purposes, shall forever be preserved inviolate and undiminished; and the income arising from the lease or sale of said school lands shall be distributed to the different townships throughout the State, in proportion to the number of scholars in each township, between the ages of five and twenty-one years and shall be faithfully applied to the specific objects of the original grants or appropriations.

"Investment of Funds.—Suitable laws shall be enacted by the legislature for the safe investment of the principal of all funds which have heretofore arisen or which may hereafter arise from the sale or other disposition of such lands, or the income from such lands accruing in any way before the sale or disposition thereof, in interest-bearing bonds of the United States, or of the State of Minnesota, issued after the year one thousand eight hundred and sixty (1860), or of such other state as the legislature may, by law, from time to time direct.

"Swamp Lands.—Division of proceeds. All swamp lands now held by the State, or that may hereafter accrue to the state, shall be appraised and sold in the same manner and by the same officers, and the minimum price shall be the same, less one-third (⅓), as is provided by law for the appraisement and sale of the school lands under the provisions of title one (1) of Chapter thirty-eight (38) of the General Statutes. The principal of all funds derived from sales of swamp lands, as aforesaid, shall forever be preserved inviolate and undiminished. One-half (½) of the proceeds of said principal shall be appropriated to the common school fund of the state. The remaining one-half (½) shall be appropriated to the educational and charitable institutions of the State in the relative ratio of cost to support said institutions."

and adds thereto the following:

"A revolving fund of not over Two Hundred Fifty Thousand Dollars ($250,000) may be set apart from the funds derived from the sale of school and swamp lands, to be used in constructing roads, ditches and fire breaks in, through and around unsold school and swamp lands, such fund to be replenished as long as needed from the enhanced value realized from the sale of such lands so benefited."

EFFECT: The effect of this amendment, if adopted, will be to permit the State to improve the school and swamp lands of the State out of moneys derived from the sale of such lands, and to bring the State into line with the conditions of the Swamp Land Grant as to drainage of such lands, by providing a revolving fund therefor, pending the ultimate application of the avails of such grant to the common school fund of the State and the educational and charitable institutions thereof.

FOURTH PROPOSED AMENDMENT.

The fourth proposed amendment is contained in Chapter 587 of the Laws of Minnesota for the year 1913.

PURPOSE: By this amendment it is proposed to repeal the provisions of Section 11 of Article 9 of the Constitution, which section now reads as follows:

"Section 11. There shall be published by the treasurer, in at least one newspaper printed at the seat of government, during the first week in January in each year, and in the next volume of the acts of legislature, detailed statements of all moneys drawn from the treasury during the preceding year, for what purpose and to whom paid, and by what law authorized; and also of all moneys received, and by what authority and from whom."

EFFECT: The Constitution requires the treasurer to publish yearly a detailed statement of the moneys drawn from the treasury during the preceding year, giving the names of the persons to whom paid and the purposes for which it was expended. It also requires a like statement of the names of the persons, and the sources, as to money received, and in both cases a statement of the law under which payments were made, or money paid into the treasury. The effect of this amendment, if the same be adopted, will be to repeal the section of the Constitution mentioned and insofar relieve the treasurer from such publication and the State from the expense thereof. This change in the Constitution, however, would not prevent the Legislature from directing by law that such, or a different publication, of the same or other information, should be made by the treasurer.

FIFTH PROPOSED AMENDMENT.

The fifth proposed amendment is contained in Chapter 588 of the Laws of Minnesota for the year 1913.

PURPOSE: The purpose of this amendment is to permit the permanent school, and university funds of this State to be invested in first mortgage loans upon improved and cultivated farm lands of the State. This amendment would change Section 6 of Article 8 of the Constitution, which now reads as follows:

Sec. 6. The permanent school and university fund of this state may be invested in the bonds of any county, school district, city, town or village of this state, but no such investment shall be made until approved by the board of commissioners designated by law to regulate the investment of the permanent school fund and the permanent university fund of this state; nor shall such loan or investment be made when the bonds to be issued or purchased would make the entire bonded indebtedness exceed fifteen (15) per cent of the assessed valuation of the taxable real property of the county, school district, city, town or village issuing such bonds; nor shall such loans or indebtedness be made at a lower rate of interest than three (3) per cent per annum, nor for a shorter period than five (5) years, nor for a longer period than twenty (20) years, and no change of the town, school district, city, village or of county lines shall relieve the real property in such town, school district, county, village or city in this state at the time of the issuing of such bonds from any liability for taxation to pay such bonds."

and substitute therefor the following:

Section 6. The permanent school and university fund of this state may be invested in the bonds of any county, school district, city, town or village of this state, and in first mortgage loans secured upon improved and cultivated farm lands of this state. But no such investment or loan shall be made until approved by the board of commissioners designated by law to regulate the investment of the permanent school fund and the permanent university fund of this state nor shall such loan or investment be made when the bonds to be issued or purchased would make the entire bonded indebtedness exceed 15 per cent of the assessed valuation of the taxable property of the county, school district, city, town or village issuing such bonds; nor shall any farm loan or investment be made when such investment or loan would exceed 30 per cent of the actual cash value of the farm land mortgaged to secure said investment; nor shall such investments or loans be made at a lower rate of interest than three per cent per annum, nor for a shorter period than five years, nor for a longer period than thirty years, and no change of the town, school district, city, village or county lines shall relieve the real property in such town, school district, county, village or city in this state at the time of issuing of such bonds from any liability for taxation to pay such bonds.

EFFECT: The present Constitution authorizes the investment of the permanent school and university funds of this State in the bonds of any county, school district, city, town or village of this State. This amendment, if adopted, will permit in addition to the foregoing investments, said school and university funds to be invested also in first mortgage loans secured upon improved and cultivated farm lands of this State. The present Constitution provides that no investment shall be made for a longer period than twenty years, while the proposed amendment extends the period to thirty years.

SIXTH PROPOSED AMENDMENT.

The sixth proposed amendment is contained in Chapter 589 of the Laws of Minnesota for the year 1913.

PURPOSE: The purpose of this amendment is to make the term of office of the Judge of Probate four years. This is an amendment of Section 7 of Article 6 of the Constitution, which now reads as follows:

"Section 7. There shall be established in each organized county in the State a probate court, which shall be a court of record, and be held at such time and places as may be prescribed by law. It shall be held by one judge, who shall be elected by the voters of the county for the term of two years. He shall be a resident of such county at the time of his election; and reside therein during his continuance in office; and his compensation shall be provided by law. He may appoint his own clerk where none has been elected; but the legislature may authorize the election, by the electors of any county, of one clerk or register of probate for such county, whose powers, duties, term of office and compensation shall be prescribed by law. A probate court shall have jurisdiction over the estates of deceased persons and persons under guardianship, but no other jurisdiction, except as prescribed by this Constitution."

and substitutes therefor the following:

"Section 7. Probate Court—Judges to be Elected—Jurisdiction. "There shall be established in each organized county in the state a probate court, which shall be a court of record, and be held at such time and places as may be prescribed by law. It shall be held by one judge, who shall be elected by the voters of the county for the term of four years. He shall be a resident of such county at the time of his election, and reside therein during his continuance in office; and his compensation shall be provided by law. He may appoint his own clerk where none has been elected; but the legislature may authorize the election by the electors of any county, of one clerk or register of probate for such county, whose powers, duties, term of office and compensation shall be prescribed by law. A probate court shall have jurisdiction over the estates of deceased persons and persons under guardianship, but no other jurisdiction except as prescribed by this Constitution."

EFFECT: The present Constitution provides that the office of Judge of Probate shall be two years and if this amendment is adopted the term of such office will be four years.

SEVENTH PROPOSED AMENDMENT.

The seventh proposed amendment is contained in Chapter 590 of the Laws of Minnesota for the year 1913.

PURPOSE: The purpose of said amendment is to fix and limit the number of State Senators.

Section 2 of Article 4 of the Constitution now reads as follows:

"Section 2. The number of members who compose the Senate and House of Representatives shall be prescribed by law, but the representatives in the Senate shall never exceed one member for every 5,000 inhabitants, and in the House of Representatives one member for every 2,000 inhabitants. The representation in both houses shall be apportioned equally throughout the different sections of the State, in proportion to the population thereof exclusive of Indians not taxable under the provisions of law."

It is proposed to substitute therefor the following:

"Section 1. That Section 2 of Article 4 of the Constitution of the State of Minnesota be amended so as to read as follows:

"Section 2. In the next and succeeding reapportionments of Senators and Representatives, the Senate shall be composed of sixty-three (63) members and the House of Representatives shall be composed of such number of members as may be prescribed by law. The representation in both Houses shall be apportioned as nearly as practicable, throughout the different sections of the states in proportion to the population thereof, exclusive of Indians not taxable under the provisions of law. Provided, however, that a County may be divided into several legislative districts, but no County or any of the parts thereof shall ever constitute or be a part of more than seven (7) Senatorial Districts and not more than seven (7) Senators shall ever be apportioned to any one County."

EFFECT: The object of this amendment is to limit the State Senate to sixty-three members and to prevent any one county having more than seven senators.

EIGHTH PROPOSED AMENDMENT.

The eighth proposed amendment is contained in Chapter 591 of the Laws of Minnesota for the year 1913.

PURPOSE: The purpose of this amendment is to encourage the planting, cultivation and protection of useful forest trees and it is proposed to add an entirely new section to Article 9 of the Constitution, to be known as Section 17A, and which shall read as follows:

"Section 1. The following amendment to Article Nine (9) of the Constitution of the State of Minnesota, is hereby proposed to the people of the State of Minnesota, for their approval or rejection, which amendment, when adopted, shall be known as Section 17a of said Article Nine (9), that is to say:

"'Section 17a. For the purpose of encouraging the planting, cultivation and protection of useful forest trees in this state, laws may be enacted providing for the payment by the State of an annual bounty of not more than Two Dollars and Fifty Cents ($2.50) per acre, for a term, in each case of not more than Ten (10) years, and not exceeding Ten (10) acres, to any one person who shall plant, cultivate and protect useful forest trees upon his own land'."

EFFECT: This amendment, if adopted, will permit the Legislature to enact laws providing for the payment by the State of a limited bounty for a limited term, to persons who shall plant, cultivate and protect useful forest trees upon their own land.

NINTH PROPOSED AMENDMENT.

The ninth proposed amendment is contained in Chapter 592 of the Laws of Minnesota for the year 1913.

PURPOSE: By this amendment it is proposed to add an entirely new section to Article 8 of the Constitution to be known as Section 7 and which shall read as follows:

"Section 1. The following amendment to Article eight (8) of the Constitution of the State of Minnesota is hereby proposed to the legal voters of said state for their approval or their rejection, which amendment when so approved shall be known as Section seven (7) of said Article eight (8) and shall read as follows:

"'Such of the school and other public lands of the state as are better adapted for the production of timber than for agriculture, may be set apart as state school forests, or other state forests as the legislature may provide, and the legislature may provide for the management of the same on forestry principles. The net revenue therefrom shall be used for the purpose for which the lands were granted to the state'."

EFFECT: The effect of this amendment, if adopted, will authorize the Legislature to set apart for state school forests or other state forests, state public lands which are better adapted for timber than for agriculture, and to manage the same upon forestry principles.

TENTH PROPOSED AMENDMENT.

The tenth proposed amendment is contained in Chapter 593 of the Laws of Minnesota for the year 1913.

By this amendment it is proposed to add to Article 7 of the Constitution an entirely new section, providing for a recall, which shall read as follows:

Section 1. That Article Seven (7) of the Constitution of the State of Minnesota shall be and the same is hereby amended by adding thereto, at the end of said Article, a new section, which shall be numbered Section 10 of said Article Seven (7) and which shall read as follows:

"Section 10. Every public official in Minnesota, elective or appointive, shall be subject to recall from office by the electors of his official or electoral district as herein provided. A petition demanding his recall setting forth the reasons therefor, signed by such number of electors in his district as shall be provided by law, which number shall not be less than twenty per centum or more than thirty per centum of the total number of votes cast for governor in such district at the last preceding election, shall be filed in the office where petitions for nomination to such office are filed, or in such other office as may be provided by law, and the officer in whose office such petition is filed, shall order a special election for such recall. If such official shall resign within five days after such petition is filed, the vacancy thereby created shall be filled as may be provided by law; but if he shall not so resign, such special election, to be held within twenty-five days after the filing of the petition, shall be called to determine whether such official shall be recalled. On the official ballot at such election shall be printed, in not more than two hundred words, the reasons for demanding the recall of such official as set forth in the petition, and in not more than two hundred words such official's justification of his course in office. Such official shall continue to perform the duties of his office until the result of such election shall be officially declared. No such petition shall be signed or filed against any official until he shall have held office six months; and no petition shall be signed or filed for the recall of any judicial official within sixty days of the decision, ruling or act complained of in the petition. Such additional legislation as may aid in the operation of this section and proceedings thereunder shall be provided by law. At such election no person shall be voted for, and the only proposition submitted shall be the recall of such official. Any person recalled, as provided in this section, shall be ineligible to fill the vacancy caused by his recall."

PURPOSE AND EFFECT: The purpose of this amendment is to enable a certain number of voters to petition and cause to be submitted to a vote the question of removing from office any elective or appointive public official.

ELEVENTH PROPOSED AMENDMENT

The eleventh proposed amendment is contained in Chapter 594 of the Laws of Minnesota for the year 1913.

By this amendment it is proposed to add an entirely new section to Article 9 of the Constitution, to be known as Section 18, which shall read as follows:

"Section 1. The following amendment to Article 9 of the Constitution of the State of Minnesota is hereby proposed to the people of the State for their approval or rejection, which amendment, if approved, shall be known as Section 18 of Article 9 of the Constitution and shall read as follows:

"'Section 18. Laws may be enacted providing for the taxation of dogs on a basis other than the value of the dog, and from the fund derived from such tax, authorizing payment of the damages sustained by the owners of other domestic animals by reason of injuries caused by dogs.'"

PURPOSE AND EFFECT: The present basis for taxing dogs is upon actual value. The proposed amendment, if adopted, will permit the Legislature to enact laws changing this basis. It is proposed to create a fund out of which owners of domestic animals may be reimbursed for loss sustained by reason of injuries caused by dogs.

Yours respectfully,
LYNDON A. SMITH,
Attorney General.

St. Paul, May 6, 1914.

Mr. Julius A. Schmahl,
Secretary of State.

Dear Sir: Referring to proposed Constitutional Amendment No. 4 would say: As state expert printer I have given the publications involved in this proposed amendment special thought, and am of opinion both these publications are entirely superfluous. The extensive annual publication "in a daily newspaper published at the capital city" attracts absolutely no attention. The annual report of the state treasurer is published in book form, and to an extent that makes it easy for every person specially concerned to secure a copy. To conform strictly with the law as it is at present, means the expenditure, under reasonably favorable printing contracts, of approximately $5,000, a sum which can be used to excellent advantage under conditions which ordinarily suggest the greatest care and economy upon the part of those under whose direction the printing fund is expended.

Yours respectfully,
J. T. MANNIX,
State Expert Printer.

The Bank Of Consistent Assistance!

We are now favored with 65 per cent of the volume of banking business transacted, season of 1913 and our business is steadily growing. The time for serious reflection is at hand and we urge caution in the selection of your banking connection for the coming season. It is wise and proper that you place yourself in the path of opportunity by identifying yourself with this Bank while the moving is good. Safety guaranteed and highest interest paid depositors.

We Play No Favorites

We play no favorites among our patrons but we aim to be helpful to all. When you become a depositor of this bank you are assured of the same banking advantages as the richest man who is on our books, your interests watched with the same conscientious care. To assist you is our policy. In addition to offering you the best of banking facilities we make personal financial service a confidential feature of our work. If we know what you want to accomplish we are on the lookout for ways to help you and are ready and willing at all times to advise you on all financial matters.

Obituary.

On the 12th of October at the home of his son Herman in Thief River Falls occured the death of Frederick C. Ohm. Frederick Ohm was born at Ravenstein, Germany, December 19, 1842. In 1867 he married Wilhelmina Steinberg and in 1881 he removed to America with his family. He settled at Paynesville, Minn., where he remained six years. In 1887 he came to the town of Spruce Valley where he took a homestead. Here, in 1909, occurred the death of his wife. He remained on his homestead until his death. He was buried beside his wife near the Immanuel church in the town of Spruce Valley. He leaves six daughters and four sons to mourn his death.—Con.

The Sunnyside.

Have you missed the Sunnyside, friends? Absence makes the heart grow fonder.

School opened in Dist. 59, October 5, with Misses Erickson and Tvede as teachers.

Mr. and Mrs. Carl Surmo spent Sunday at Mrs. F. Carlson's.

Miss Marie Erickson spent the week end at her home in Thief River Falls.

Hans Knutson's and Matt Lunke's went berry picking Sunday.

Mr. and Mrs. Horien and little son Edgar visited at L. Wegge's on Sunday afternoon.

Stina Brita had her picture taken Sunday. If the Sunnyside would like to see it she is willing to have it published.

Miss Clara Tvede autoed to Thief River Falls Friday, returning Saturday.

There will be a baskes social in the new school house in District 59, Saturday October 31st, the proceeds to be used for an organ for the school. Everybody welcome.

Hallowen social Saturday Oct. 31

Ole Backland autoed to Gatzke on business Monday.

P. O. Rierson and wife returned Monday from Goodridge.

Diedrick Nyberg did some black smithing in town Monday.

A. Arnevik was in Middle River between trains Saturday.

Herman Ohm and wife [illegible] to T. R. Falls Thursday.

E. M. Silabaugh has [illegible] a new chair for his barber shop.

Mr. and Mrs. E. F. Pechie [illegible] shopping in Thief River Falls Friday.

Mattson Bros. finished the season threshing Saturday and have stored the rig in the [illegible] by the creamery.

B. L. Backe closed a deal [illegible] Kolden on his Mud Lake [illegible] which he sold to Ole Ellingson, $2800.

Mrs. Anna [illegible] ille and Fred Ohm of Fargo N. D. were here last week to [illegible] their father's funeral.

Come and [illegible] Medal flour [illegible] just [illegible] and pay your twine bill [illegible] ther accounts before Oct [illegible] save the penalty. [illegible]

The teachers [illegible] Holt public school have [illegible] for a Hallowen box social [illegible] benefit of the school, Saturday [illegible] ing Oct. 31st. A cordial [illegible] is extended to the public.

Both [illegible] and [illegible] invited to attend [illegible] at 10:30. Classes [illegible] in both Norwegian and [illegible] bible [illegible] and [illegible] given [illegible] choice [illegible] the [illegible] Now [illegible]

Wedding Bells.

Miss Elsie Johnson, daughter of Mr. and Mrs. Erick Johnson, was married last week Wednesday in Warren, to Mr. Momberg, a young farmer of Alvarado. A wedding party was given them at the home of the bride's parents, Sunday.

Southeast of Holt.

Rev. Bredeson will hold services in the Free Church on Sunday Oct. 25th at 2.30 P. M.

Miss Ragna Larson who is attending high school in T. R. Falls, made an over Sunday visit with her parents Mr. and Mrs. Carl Larson.

The Ose Bros. has finished their threshing for this season. They pulled their rig home on Saturday.

Mr. Foss of T. R. Falls held services in the school house Dist. 112 on Sunday.

Mr. and Mrs Ole T. Ose are the proud parents of a baby boy born to them on Sunday Oct. 11th.

Olga Saastad assisted Mrs. C. Larson during Threshing.

Tyler Wold and John Ose visited at the S. G. Moe home on Sunday.

Inga Peterson is working for Mrs. Ole Ose now-days.

Albert Matteson has finished his threshing for the season and had his rig pulled into Holt on Saturday afternoon.

The Misses Jula and Tillie Ose left for Fargo N. D., on Saturday, where they will attend school at the Oak Grove Seminary.

Ole K. Ose is attending the Augsburg Seminary at Minneapolis.

Peter Sorter went to T. R. Falls Sunday.

Gerald Ryan was taken sick in school Monday and was taken home by Dr. Olson.

J. S. Chapman has finished his drainage work near here and soon leaves for his home in York State.

C. Martell has moved into town and expects to run a feed barn and feed mill, having bot the feed mill of Mattson Bros.

GREAT BATTLES NOW RAGING IN BELGIUM AND POLAND

TWO IMPORTANT SUCCESSES ARE CREDITED ALLIES

ASSERTED ARMENTIERES HAS BEEN RE-OCCUPIED AND ADVANCE ON DUNKIRK CHECKED.

GERMAN REINFORCEMENTS ARE BEING BROUGHT UP

May Be Used for Purpose of Resuming Offensive Action in Attempting to Capture Calais—Reports Concerning Russia's Movements Disagree Very Much.

London, Oct. 20.—Two important successes in the battle of Dunkirk and Calais, for the possession of which the Germans are striving, are credited to the allies in the official communication issued in Paris.

Two Reported Victories.

The French are said to have reoccupied Armentieres, an important railroad junction on the Belgian frontier northwest of Lille, and to have repulsed an attempt of the Germans to cross the River Yzer, which flows through that little corner of West Flanders, which is all of Belgium that remains in Belgian hands.

This would mean a check to the German attempt to reach Dunkirk by the coast route. The French are said to have pushed back still further the German army which is advancing along the Belgian Frontier to the coast. The battle, which culminated in Armentieres again coming under French influence, lasted for a week, during which the fighting was hard and continuous.

Importance of Town.

The town was seized by the Germans a week ago owing to its importance as a railway center, lines diverging from it in all directions. Besides, it is on the road to Lille, which the Germans still hold, despite reports to the contrary.

The battle opened with cavalry fighting, which gradually developed into a general battle, which indicates the French are advancing in force towrd Lille.

The allies also have made an advance north of the La Basse canal, between that line and Arras, and at certain points between Arras and the Oise. This latter is a rather long front, but the claims in the French official communication are taken here to mean that the German movement westward has been checked.

For German Reinforcements.

The Germans, however, are bringing up reinforcements, seemingly determined to resume the offensive either toward Calais or at some other point of the long front

In the center and in the Vosges the situation is stationary. This is not taken to mean that no fighting is taking place and it is considered likely that the battle on the Alsace frontier which has been going on for some days has yet to reach its end.

Russians Claim Repulses.

Again the Russians and the Austrians flatly contradict one another as to the progress of events in the east. The Austrians claim that the operations are progressing favorably for them, while an official report from Petrograd says that attempts by the Austrians to cross the river San failed and that in the fighting south of Przemysl, which took the form of bayonet charges, they captured 15 Austrian officers and 1,000 men.

It would appear from reports of correspondents at Petrograd that the Germans made repeated attempts to cross the Vistula at Josefow, but were driven back with heavy casualties. The correspondents say this fighting was part of the general attack on the Russian positions on the Vistula and that they proved a failure.

Teutons Plan Siege of Belfort

From the Battle Front, Oct. 20, via Paris.—What in previous wars would have been called great battles were fought on the eastern wing of the fighting line stretching from the Belgian coast to Switzerland. In this great battle of nations, however, these fights are regarded merely as incidents.

Sanit-die, on the Meurthe, 32 miles northeast of Epinal, was the center of the attac which resulted in a repulse for the Germans with heavy casualties.

The Germans have brought up 19 inch mortars, supposedly for an intended siege of Belfort.

Servians Defeat Austrians.

Paris, Oct. 20.—Austrians again have been defeated in Servian territory near the Drina, says a Havas agency dispatch from Nish. "They attacked the Servian right with infantry and artillery on Mount Goutchevo, but were met by a terrible fire and retired. They came back three times. Finally, the Austrian infantry was in part annihilated and the remainder put to rout.

Fire Proves Annihilating.

"A column of their infantry in the ravines of the Save river fell under a cross fire from the Servian artillery and perished. At the same time the Servians, taking the offensive to the north, threw the enemy back on the Drina. Many were drowned and 600 were taken prisoners."

Appearance Excites Commotion.

London, Oct. 19.—The entrance of the Germans into Ostend is described by the Daily Mail's correspondent who left that port at the moment of the German occupation.

"Their appearance excited a tremendous commotion among the hundreds of refugees who had been unable to get away and stood panic-stricken on the quays," says the correspondent. "There was an outburst of groans and hoots mingled with scream and cries."

Alarm at Bordeaux.

Bordeaux, Oct. 19.—The war situation on the northern frontier of France is understood to be viewed with increased apprehension in well informed circles. It is reported that the Germans are extending their control of the north coast toward Dunkirk and Calais.

With its battle line from the German frontier to the English channel thus shortened, the German front will gain in weight, and as the French army has been unequal to the task of turning the Germans' flang when thinly extended, it is now feared that the entire German line may eventually advance successfully on Paris

Pressure Not Relieved.

London, Oct. 19.—Fulfillment of the promise that pressure would be taken off France and Belgium when the big battle commenced in the East again has been delayed. The Germans are before Warsaw—in fact fighting has taken place only eight miles from that city.

Germans Retrieve Austrian Losses

While their advance to the Niemen was a failure, the forces of Emperor William apparently have retrieved some defeats of the Austrians in Galicia and advanced as far as Jarozlau, 17 miles northwest of Przemysl. The German plan seems to be to have two armies advancing along the left bank of the Vistula river while two other armies swing around on the right bank to take the defenders of Warsaw on their flank.

This, according to Russian accounts suits the Russian general staff, who are said purposely to have withdrawn to the Vistula so that they would have the railways at their back while the Austro-German forces would have to advance great distances on roads which at this time of the year are little more than quagmires.

Both Claim Advantage

Both sides claim to have gained advantages in the preliminary fighting, but these victories and defeats can have little effect on the general result of the battle in which it is estimated that nearly 5,000,000 men are engaged. The Russians, it is said, have 2,500,000 men and the Austro German force is declared to total nearly 2,000,000. The armies cover a front of nearly 300 miles.

Russia Explains Withdrawal

London, Oct. 15.—Advices received from Petrograd assert the withdrawal of the czar's troops into the Warsaw region was for strategical reasons to lure the Germans into positions favorable to the Russian army before giving battle. The German army is now said to be in possession of all of Poland with the exception of the territory immediately surrounding Warsaw.

Germans Occupying All Belgium

This final change followed quickly upon the German westward advance which was begun immediately after the fall of Antwerp. Success in taking the chief port of Belgium opened the way for a new plan of campaign which embraces the occupation of the whole of Belgium, including the coast town and, if possible, some of the northern French ports. In accordance with this plan, the German invaders have begun to sweep across northern Belgium

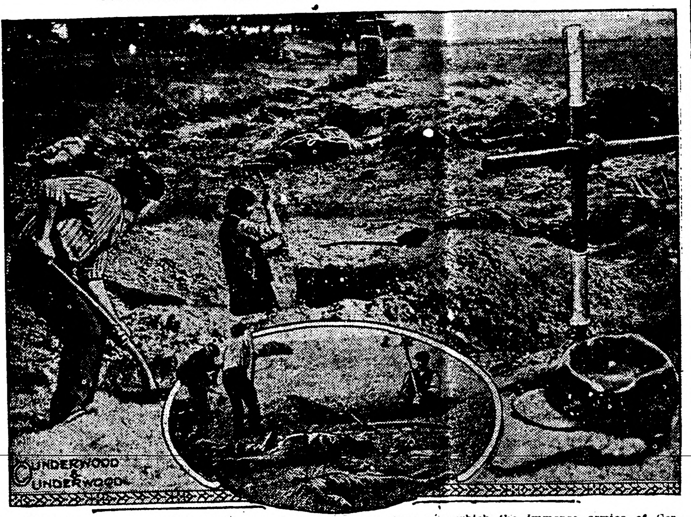
Great Aerial Exploit

By International News Service.

Paris, Oct. 16.—The most daring exploit of the French airmen since the beginning of the war was the complete rout of a division of German cavalry which they shelled from the air. The official communique says the aviators pursued the cavalrymen all day, ceaselessly pouring bombs upon them and inflicting heavy losses

reached here from the north show that the Germans had crossed the frontier and were advancing towards the Hazebouch region when they were met by a stronger French force. The preliminary skirmishes went in favor of the French, and the Germans, seeing the road absolutely barred, began an orderly retreat.

GATHERING THE HARVEST OF DEATH IN EUROPE



All along the valley of the Marne and the country round about over which the immense armies of Germany and the allies fought as the former advanced toward Paris and then fell back the French peasants have been busy with the grim task of burying the dead soldiers. Scenes like those in the illustration were repeated endlessly. At the right is seen the simple cross marking the grave of a French soldier, his cap and scarf at its foot.

IMPORTANT DEVELOPMENTS

The official Paris statement claims two important successes for the allies. It was reported the French had re-occupied Armentieres and the allied armies had repulsed the Germans attempting to cross the river Yser. These, together with further advancement along the Belgian frontier, claimed in the French communique, are declared to check the German coast advances toward Dunkirk and Calais.

* * *

Berlin reports that Belgian soldiers interned in Holland now number 30,000.

* * *

Field Marshal Sir John French, commander of the British expeditionary force, has sent two highly interesting reports to the war department relative to the battle on the Aisne and other matters connected with the operations of his troops in France. He describes the valiant work of his generals and incidentally tells of severe British losses. An idea of these can be obtained in the figures which he gives, showing that during the period between Sept. 12 and Oct. 8, 561 officers and 12,980 men were among the killed, wounded and missing.

* * *

The steamer Brindilla, flying the American flag, but a former German hull, has been seized by British ships and conducted into Halifax. It is claimed she carries contraband of war.

* * *

Throughout their sphere of operations, Servia reports says, the Servians are sweeping everything before them. It is not believed here, however, that very serious fighting has been taking place there recently, as the weather and condition of the roads must have been against it.

* * *

In the eastern theater of war the Germans are reported within eight miles of Warsaw, but late reports do not tell of any notable battles. It is claimed that the Russians have purposely fallen back to have the railroads at their backs, while the Austro-German troops must advance over veritable quagmires.

* * *

The death of the Marquis di San Guiliano, Italy's foreign minister, will not, it is announced at Rome, affect the government's foreign policy. The prime minister will administer the affairs of the late minister temporarily.

* * *

Commandants of the [illegible] north of Bloemfontein in [illegible] support in British movement to crush rebellion led by Colonel Maritz

* * *

A German force of cavalry advanced towards Hazel Rouck is forced to retire by a superior French force. The retreat was orderly until the French airmen took up the chase, pouring down bombs upon Teutons. The retirement became a rout, the airmen pursuing the Germans until nightfall, inflicting heavy losses.

BRITISH SHIP AND 400 LOST

GERMANS SCORE ANOTHER VICTORY IN NORTH SEA.

Hawke Struck Amidships By Torpedo Is Immediately Destroyed—Full Particulars Withheld.

London, Oct. 17.—Great Britain has lost another cruiser through the activity of the German submarine fleet. The cruiser Hawke, utilized for scouting purposes off the German naval base in the North sea, has been torpedoed and sunk with a loss of from four to five hundred officers and men.

The disaster took place at a point in the North sea whose location is withheld by the admiralty. The Hawke was steaming along when it was struck almost amidships by a torpedo sent by a submarine and almost torn to pieces.

The admiralty has given out the following announcement concerning the loss of the Hawke:

"His majesty's ship, Theseus, Captain Hugh Edwards, was attacked by a submarine in the northern waters of the North sea yesterday but was missed. His majesty's ship, Hawke, Captain H. P. E. T. Williams, was attacked about the same time and was sunk.

"The following officers with 49 men of the crew have been landed at Aberdeen from a trawler: Boatswain Sydney Austin, Gunner James Dennis and Acting Gunner Harry Evitt. The remaining officers and men are missing.

"Further particulars will be published as soon as available.

"The Hawke was a cruiser built in 1889."

PLEDGE SUPPORT TO BRITISH

FREE STATE COMMANDANTS WOULD CRUSH UPRISING

Boers Reported to Have [illegible] Maritz's Revolt as Blot on Honor of Country—Action Considered Significant

London, Oct. 19.—"At a [illegible] of commandants representing all the Free State north of Bloemfontein held at Kroonstad," a dispatch to the Reuter Telegram company from Pretoria says, "a resolution was unanimously adopted denouncing as a blot on the honor of the Free State the rebellion started in the northwest of the cape provinces by Colonel Maritz. The resolution pledged the fullest support of the commandants to the government and requested a mobilization of the burghers to crush the rebellion.

"General Jan Christian Smutz, minister of defense, thanked the commandants for their tender of support. He said, however, a mobilization was unnecessary as it would put more men in the field than needed

"The action taken by the Kroonstad meeting is considered significant, as heretofore the people of the Congo Free State were lukewarm concerning the campaign against the Germans."

Attack Germans in London

London, Oct. 19.—Anti-German rioting here seems to have been more general than was at first supposed. Seventy bakeries, butcher shops and saloons were wrecked. The police were called out and 20 arrests were made.

JAP STEAMER IS SUNK; 271 PERISH --OTHER DISASTERS

MINE IN KIAO-CHOW BAY RESPONSIBLE FOR WRECKING OF MIKADO'S VESSEL.

"UNDAUNTED" REPORTS ANOTHER SEA VICTORY

Cruiser Claims Capture of German Mine Layer in Disguise—Austrian Submarine Sunk—Berlin Side of Loss of Four Submarines.

Tokio, Oct. 20.—It is officially announced that the Japanese cruiser Takachiho was sunk by a mine in Kiao-chow bay on the night of Oct. 17.

271 Lose Lives.

The Takachiho was on patrol duty outside Tsing-tau when she fouled the mine. Japanese destroyers heard the explosion and saw the flames that resulted. They hurried to the assistance of the cruiser, which, however, disappeared quickly, and in the darkness it was possible to rescue only 12 men. Twenty-eight officers, 54 non-commissioned officers and 189 seamen perished.

The cruiser Takachiho was built in 1885 and refitted in 1900. It was a vessel of 3,700 tons and was 300 feet long and had 46 feet beam. Its main battery consisted of eight six-inch guns, and its speed was about 18 knots.

Mine Layer Reported Captured.

London.—The Central News has sent out a dispatch from Harwich in which the correspondent says he has learned upon good authority that the British cruiser, Undaunted, accompanied by two torpedo boat destroyers, has captured a German mine layer in the North Sea. The Undaunted is the cruiser which, with four destroyers, sent four German torpedo-boat destroyers tot he bottom of the North sea in Saturday's naval battle off the coast of Holland.

The mine layer, the dispatch says, was disguised as a hospital ship. The Undaunted is bringing her prize into Harwich.

Austrian Ship Is Sunk.

Cettinje, Montenegro, via London.—An Austrian submarine was sunk in the Adriatic by a French cruiser. Two submarine vessels went out from the Bay of Cattaro to attack the French fleet which was making its way along the Dalmatian coast. They were quickly sighted by the French lookouts and a well-directed shot sent the leader to the bottom. The other submarine escaped. The French fleet subsequently recommended the bombardment of the forts of Cattaro.

Berlin Account of Mishap.

Berlin, via Amsterdam, Oct. 20.—Preferring wreck and death to capture by the British, the commanders of the German torpedo destroyers, S-115, S-117, S-118 and S-119, drove their vessels upon the coast of the North seat on Saturday when cornered by the English cruiser Undaunted, according to a statement issued at the admiralty. The four destroyers were completely wrecked.

The crews of the vessels numbered 224 men and nearly all of them are believed to have been lost.

Meat Famine Threatens World

Chicago, Oct. 20.—A shortage of meat faces the world as a result of the European war, George I. McCarthy, of New York, secretary of the American Meat Packars' Association, asserted before the ninth annual convention of the association here. "Europe will soon exhaust its own food supply and then will drain the world to feed its huge armies and helpless populations," Mr. McCarthy said. "The results will be felt the world over. Inasmuch as this countrys is extremely short of food animals, the prospects for an abundant supply abroad are not encouraging."

Hunters Murder Wisconsin Farmer

Kenosha, Wis., Oct. 20.—John Luss, a wealthy farmer living a few miles north of here, was shot to death by a party of Italian hunters whom he had ordered off his place. Ten suspects were arrested by posses of farmers and deputy sheriffs. James Lucci of this city was identified by a housekeeper at the Luss farm as the man who fired the fatal shot.

Fire in Liner Kills One

Portland, Ore., Oct 20. The Grace line steamer Santa Catalina, en route here from New York via San Francisco, took fire in the Columbia river near St. Helena and was beached with the loss of one life, that of a fireman.

McReynolds Is Assigned Field.

Washington, Oct. 20.—Justice McReynolds, the new associate justice of the supreme court, has been assigned by Chief Justice White to the Seventh circuit, comprising Illinois, Indiana and Wisconsin.

Thaw Trial Dec. 7

Washington, Oct. 20.—The supreme court has advanced the Harry K. Thaw extradition case for early hearing out of its regular order. Argument on the case was set for Dec. 7 by the court.

A NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Euphemia, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blest with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemia, Ohio.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Overdrawn.

Robinson—I hear you fell out with the bank.

Jackson—Yes; I lost my balance.

THE ELEVEN Proposed Amendments to the Constitution of the STATE OF MINNESOTA

Submitted by the Legislature at Its General Session, 1913, Together With a Statement of the PURPOSES AND EFFECTS,

Prepared by Hon. Lyndon A. Smith, Attorney General of Minnesota.

Addressed to Julius A. Schmahl Secretary of State.

OFFICE OF THE ATTORNEY GENERAL, ST. PAUL.

April 25, 1914.

Honorable Julius A. Schmahl,
Secretary of State,
Capitol.

SIR: As required by Section 46, General Statutes of the State of Minnesota for the year 1913, I have the honor to furnish you herewith a statement of the purposes and effects of the respective amendments proposed to the Constitution of the State of Minnesota by the Legislature of 1913, and which are to be submitted to the electors of said State at the general election in 1914.

FIRST PROPOSED AMENDMENT.

The first proposed amendment is contained in Chapter 584 of the Laws of Minnesota for the year 1913.

PURPOSE: By this amendment it is sought to enable the electors to submit by petition to the Legislature constitutional amendments and likewise to propose legislation, and in the event the Legislature fails to submit any such constitutional amendment, or fails to enact any such proposed law, then such amendment or proposed law may be submitted directly to the voters; also, to permit the electors to cause any law or laws enacted by the Legislature to be submitted to the electors and if a majority of the votes cast thereon be opposed to such law, the same shall be repealed.

This is an amendment to Section 1 of Article 4 of the Constitution, which law reads as follows:

"Section 1. The legislature shall consist of the Senate and House of Representatives, which shall meet biennially at the seat of government of the State, at such time as shall be prescribed by law, but no session shall exceed the term of ninety (90) legislative days; and no new bill shall be introduced in either branch, except on the written request of the governor, during the last twenty (20) days of such sessions, except the attention of the legislature shall be called to some important matter of general interest by a special message from the governor."

and substitutes therefor the following:

"Sec. 1. TWO HOUSES—SESSIONS.—The Legislature shall consist of the senate and house of representatives, which shall meet biennially at the seat of government of the state, at such time as shall be prescribed by law, but no session shall exceed the term of ninety (90) legislative days, and no bill shall be introduced in either branch, except on the written request of the governor, during the last twenty days of such session, except the attention of the legislature shall be called to some important matter of general interest by a special message from the governor; but the people reserve to themselves direct power, as follows:

"a. CONSTITUTIONAL INITIATIVE.—When at any time prior to the commencement of any session of the legislature, there shall have been filed with the secretary of state a petition proposing an amendment to the constitution signed by two per centum of the electors of the state, the secretary of state shall transmit the same to the legislature not later than ten days after the commencement of the session. If the amendment so proposed be not submitted to the electors by the legislature at such session, or if it be submitted in an amended form, then upon a further petition or petitions, each signed by eight per centum of the electors of the state, filed with the secretary of state within six months after the adjournment of the legislature, the amendment proposed in the first petition, or one or more amended forms thereof, shall be submitted to the electors for their approval or rejection at the next general or special statewide election, occur ing not less than ninety days after the filing of any such further petitions. Any amendment proposed by initiative petition and, in its original or in an amended form, submitted to the electors by the legislature or by a further petition, shall become a part of the constitution, if approved by a majority of the electors voting at said election, or by four-sevenths of the electors voting on the proposed amendment; provided not less than three-sevenths of the electors voting at said election voted for the proposed amendment. This section shall be construed as a means in addition to Section one, Article fourteen of the State Constitution for amending the same.

"b. STATUTORY INITIATIVE—When at any time prior to the commencement of any session of the legislature, there shall have been filed with the secretary of state a petition proposing a law, signed by two per centum of the electors of the state, the secretary of state shall transmit the same to the legislature not later than ten days after the commencement of the session. If the law so proposed be not passed by the legislature at such session, or if it be passed in an amended form, then upon a further petition or petitions, each signed by six per centum of the electors of the state, filed with the secretary of state within six months after the adjournment of the legislature, the law proposed in the first petition, or one or more amended forms thereof, shall be submitted to the electors at the next general or special state-wide election, occurring not less than ninety days after the filing of any such further petition or petitions, and if approved by a majority of the electors voting thereon, the same shall become law and go into effect thirty days after such election, and shall supersede any amended form of such law which may have been passed by the legislature. No law proposed by initiative petition and approved by the electors shall be subject to the veto of the governor. The authority of the people to enact laws, as provided in this subdivision, shall extend only to laws authorized by the provisions of the constitution.

"c. THE REFERENDUM.—If within ninety days after the final adjournment of any session of the legislature, a referendum petition, signed by six per centum of the electors of the state, shall be filed with the secretary of state against any law, or any part of a law, passed by the legislature at such session, such law, or such part of a law, shall be submitted to the electors at the next general or special state-wide election, occurring not less than ninety days after the filing of said petition. If a majority of the vote cast thereon be in the negative, such law, or such part of a law, shall thereby be repealed. Provided, that if a referendum petition is signed by fifteen per centum of the electors of the state, the law or part of a law, against which such petition is filed shall be suspended pending the referendum vote thereon.

"Any law providing for a tax levy or appropriating money for the current expenses of the state government or state institutions, any act of the legislature submitting a constitutional amendment or other question to the electors of the state, or any emergency law necessary for the immediate preservation of the public peace, health or safety, shall go into effect immediately upon its passage and approval by the governor, and such laws, except emergency laws, shall not be subject to a referendum vote. All other laws shall go into effect ninety days after the adjournment of the legislature. A bill proposing an emergency law shall contain a preamble briefly setting forth the facts constituting the emergency. A separate vote shall be taken upon the preamble of such bill by a call of the yeas and nays, and if the preamble be adopted by a two-thirds vote of all the members of each house, it shall be an emergency law.

"d. GENERAL PROVISIONS.—All petitions provided for in this section shall contain a title indicating the subject and purpose of the proposed law or constitutional amendment, or the law, or part of a law, to be referred, and if a change is proposed in an existing constitutional provision or statute, in addition to referring to the same, it shall state the general effect of the proposed change, and also the full text of the proposed law or amendment to the constitution or of the law, or part of a law, to be referred. Any initiative or referendum petition may be signed in separate parts, but each part shall conform to the provisions herein contained. All petitions shall be signed and verified before a person authorized to administer an oath, and shall be in such form that a person signing a petition thereby states under oath, the date of his signature, his residence, that he is a qualified elector, that he has not previously signed any part of such petition, and that he has signed the petition with knowledge of the contents thereof. To each part of such petition shall be attached the affidavit of the person before whom the same was signed, which affidavit shall contain a statement of the number of signers thereon, that each of the signatures attached to such part was made in the presence of the affiant, that to the best of his knowledge and belief each signature is the genuine signature of the person whose name it purports to be, that he believes the persons who have signed such petition to be electors, that they signed such petition with knowledge of the contents thereof, and that each person signed the same on the date stated opposite his name. The circulation of the petitions provided for herein, or the prohibition of the circulation thereof, may be regulated by law, and in case the circulation of any petition is prohibited by law, the percentage of signers required on any petition provided for in this section shall be one-half of the percentage specified in subdivisions A, B and C of this section.

"The percentage in any case shall be based upon the total number of votes cast for governor at the next preceding election. All petitions provided for in this section shall contain the signature of not less than one-half of the designated percentage of the electors in not less than one-fourth of the counties of the state. In initiating a law or constitutional amendment, electors who have signed the first shall be qualified to sign the second petition. The sufficiency of all petitions shall be decided by the secretary of state subject to review by the court. If the secretary of state decides that any petition is insufficient, he shall permit a reasonable time for making corrections or for filing additional signatures. In the event of legal proceedings in court to prevent giving effect to any such petition on account of insufficiency, or any other ground, the burden of proof shall be upon the person attacking the petition. No law or amendment to the constitution initiated and approved by the electors as herein provided, shall be held unconstitutional, or void on account of the insufficiency of any initiative petition; nor shall the repeal of any law submitted by referendum petition be held invalid for such insufficiency.

"All initiative laws and constitutional amendments shall be so submitted to the electors as to permit an affirmative or negative vote upon each measure submitted. If conflicting proposed laws or conflicting proposed amendments to the constitution be approved at the same election, the one receiving the highest number of affirmative votes shall prevail as to conflicting provisions.

"The style of all legislative measures and amendments to the constitution initiated by the people under this section shall be: 'Be it enacted by the people of the State of Minnesota.'

"The provisions of this section may be enforced by appropriate legislation, but until such legislation has been enacted, this section shall be self-executing."

EFFECT: The effect of this amendment, if adopted, will be to give to the electors the privilege of submitting directly to the voters constitutional amendments, proposed legislation and the right to suspend and annul laws enacted by the Legislature.

SECOND PROPOSED AMENDMENT.

The second proposed amendment is contained in Chapter 585 of the Laws of Minnesota for the year 1913.

PURPOSE: The purpose and object of this amendment is to add two Associate Justices to the Supreme Court; to require the concurrence of five Justices of the Supreme Court before any law shall be declared unconstitutional by such court, and make the office of Clerk of the Supreme Court appointive, and is an amendment of Section 2 of Article 6 of the Constitution, which law reads as follows:

"Sec. 2. The supreme court shall consist of one chief justice and two associate justices, but the number of the associate justices may be increased to a number not exceeding four, by the legislature, by a two-thirds vote, when it shall be deemed necessary. It shall have original jurisdiction in such remedial cases as may be prescribed by law, and appellate jurisdiction in all cases, both in law and equity, but there shall be no trial by jury in said court. It shall hold one or more terms in each year, as the legislature may direct, at the seat of government, and the legislature may provide, by a two-thirds vote, that one term in each year shall be held in each or any judicial district. It shall be the duty of such court to appoint a reporter of its decisions. There shall be chosen, by the qualified electors of the State, one clerk of the supreme court, who shall hold his office for the term of four years, and until his successor is duly elected and qualified, and the judges of the supreme court, or a majority of them, shall have the power to fill any vacancy in the office of clerk of the supreme court until an election can be regularly had."

and substitutes therefor the following:

"Sec. 2. The supreme court shall consist of one chief justice and six associate justices. Five shall constitute a quorum, and the concurrence of at least four shall be necessary to a decision, but no statute shall be declared unconstitutional unless five members of the court shall concur in the decision. It shall have original jurisdiction in such remedial cases as may be prescribed by law, and appellate jurisdiction in all cases, both in law and equity, but there shall be no trial by jury in said court. It shall hold one or more terms in each year, as the legislature may direct, at the seat of government, and the legislature may provide, by a two-thirds vote, that one term in each year shall be held in each or any judicial district. It shall be the duty of such court to appoint a reporter of its decisions, and a clerk of the supreme court."

EFFECT: The present constitution provides that the number of Associate Justices of the Supreme Court shall not exceed four in number, while the amendment, if adopted, will increase the number to six. A majority of the Supreme Court may now declare a law unconstitutional, but if this amendment is adopted, it will require the concurrence of five members. The office of clerk of the Supreme Court is now elective, but if this amendment is adopted, the clerk of the Supreme Court will be appointed by the court.

THIRD PROPOSED AMENDMENT.

The third proposed amendment is contained in Chapter 586 of the Laws of Minnesota for the year 1913.

PURPOSE: By this amendment it is sought to authorize the State to construct roads, ditches, fire breaks through and around unsold state school and swamp lands, and a $250,000 revolving fund, realized and kept up from the sale of such lands, is to be set apart for such purpose. This is an amendment of Section 2 of Article 8 of the Constitution, which law reads as follows:

"Section 2. The proceeds of such lands as are or hereafter may be granted by the United [illegible] for the use of schools within [illegible] township of this State [illegible] a perpetual school fund to the [illegible] not more than [illegible] lands may be [illegible] one-third (⅓) [illegible] in ten [illegible] of the greatest valuation [illegible]; provided, that no portion of [illegible] lands shall be [illegible] otherwise than [illegible] public sale. The principal of all funds arising from sales or other disposition of lands or other property [illegible] or entrusted to this State in each township for educational purposes, shall forever be preserved inviolate and undiminished; and the income arising from the lease or sale of said school funds shall be distributed [illegible] townships throughout the State in proportion to the number of scholars in each township, between the ages of five and twenty-one years and shall be faithfully applied to the specific objects of

SUNDBERG

For Senator

What Leading Men of the State Say of B. E. Sundberg:

"It is my judgement that he has been on the side of the people and for the best interests of the state on every issue."-Ex-Gov. John Lind.

"On railroad and other transportation questions, economy in public expenses and low taxation his voice and vote has always been on the side of the farmers, the producers."-State Auditor S. G. Iverson.

"I understand that the liquor and brewery interests of the state have made a combination with other corporate interests in your district to defeat you for re-election this fall."-Hon. J. F. Jacobson.

"His efforts to a large degree brought about the reduction of freight and passenger rates in Minnesota, also reduction of the express rates. He fought hard for an open market for grain."-Senator T. E. Cashman.

For Sheriff

At the June primaries I was Nominated for re-election to the office of Sheriff. During my incumbency of the office, I have performed my duties faithfully and impartially and to the best of my ability, as I shall continue to do if re-elected.

My official record is open to the closest scrutiny and it is on that record that I ask the support of the voters of Marshall Co. on Nov. 3 '14.

Respectfully,
William Forsberg.

Cedar Rapids, Iowa

For Representative.

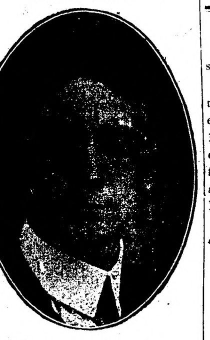
I was made one of the nominees for Representative for Marshall county at the June primaries, my vote being greater than that given to any of the other candidates for that office.

I came to Warren in 1883; have been editor of the Warren Register since 1894; was admitted to the bar in 1892; city recorder of Warren, 1900--1; clerk of taxes and tax laws committee of state senate, 1901; delegate to Republican National convention of 1912; secretary of board of education of Warren since 1909.

I favor a square deal to everybody; am opposed to all legislation in behalf of special interests; favor county option and all other legislation that makes for temperance; favor all legislation tending to make our educational system more efficient; favor conservation and developement of state's natural resources; believe a representative owes it to his constituency to do more than merely answer to his name when the roll is called.

I respectfully solicit your support and votes on November 3, 1914, assuring you that, if elected, I shall serve you and your interests to the best of my ability.

Charles L. Stevens.



For Register of Deeds:

Having received the nomination for the office of Register of Deeds of Marshall County Minnesota, at the Primary Election on June 16th, I hereby announce to the voters of Marshall County, that I am a candidate for the office, and will appreciate your support and vote at the General Election on November 3rd.

My past record of eight years as Deputy in the office I now seek suffices me to state that I am well qualified for the duties involved, and if elected, I promise to faithfully discharge the duties of the office, in as competent a manner as they have been during the past eight years of my connection with the office.

Respectfully soliciting your kind support and vote, I am

Yours truly,
[illegible]INDER.

Vote For

N. S. HEGNES

For State Senator

Stands For:
County Option
Honest Representation
"A Square Deal"

"Endorsed By His Home People"

For County Commissioner.

To the Voters of the fifth Commissioner District of Marshall Co. Minn.

Having received the nomination for the Office of Co. Commissioner, at the Primary Election on June 16th., I hereby announce to the voters that I am a Candidate for the office and will appreciate your vote and support at the General Election Nov. 3rd.

Standing for a Square Deal for everybody I am Yours Truly,

Carl T. Olson.
Randen, Minn.

For County Attorney.

To the Voters of Marshall Co:-

Having been nominated at the June primaries as a candidate for the office of Co. Attorney, I wish to announce to the voters of Marshall Co. that I am seeking the election to that office at the General Election Nov. 3rd. 1914.

I respectfully ask your vote and influence, and if elected, it shall be my purpose to conduct that office with efficiency and fairness and with the least expense to the county.

Your vote and influence in my behalf will be highly appreciated.

Respectfully yours,
E. A. Brekke.

For Sheriff.

I hereby announce myself a candidate for sheriff of Marshall Co. and earnesly solicit your vote and influence. I have lived in Marshall Co. since childhood, have experienced both ups and downs in life, within the County and now ask you to inquire of my neighbors, and acquaintances as to my character and behavior. I have nothing to say about myself only that if you elect me to the office of Sheriff, I shall discharge the duties impartially and to my best ability.

I remain Respectfully Yours.

Hans C. Hanson
Viking Minnesota.

For County Attorney

To the voters of Marshall County,

Having been favored as a candidate for re-election for the office of County Attorney, I wish to thank you for the liberal support which you gave me in the recent Primary Election, and I hope that I may again have your vote and support at the General Election to be held November 3rd 1914.

If re-elected, I shall continue to perform the duties of the office to the best of my ability. My aim has always been to give the people an economical and efficient administration and in this I feel that I have been successful. I am willing to stand on my record.

Your influence and support will be greatly appreciated.

Respecfully yours,
A. N. Eckstrom

FINANCING OF BIG COTTON CROP NOW SEEMS ASSURED

$150,000,000 FUND APPARENTLY MADE CERTAIN BY PLAN PERFECTED BY PLANTERS AND NEW YORK BANKERS.

FEDERAL RESERVE BOARD IS TO DIRECT LOANING

Secretary McAdoo Said to Have Indorsed This Course—New York Financiers to Subscribe $50,000,000 Upon Condition That Country Take Remainder.

New York, Oct. 16.—The raising of a $150,000,000 fund by bankers and representatives of Southern cotton planters to finance the country's cotton crop is virtually assured, it is announced here, and the federal reserve board at Washington will be called upon to manage the fund and direct the loaning of it.

New York Raises $50,000,000.

New York bankers at a conference with cotton planters' representatives here during the day, agreed, it is stated, to furnish $50,000,000, if the rest of the county would supply $100,000,000 or more under conditions agreed to at the conference.

Festus J. Wade, president of the Mercantile National bank of St. Louis, and a member of the St. Louis Clearing House association, issued a statement announcing the plan. Mr. Wade said that "the task put upon the federal reserve board, while onerous, was readily accepted by Secretary McAdoo, who recognized the gravity of the situation."

Mr. Wade attended the conference and later went to Washington to discuss the plan with members of the federal reserve board. Several prominent St. Louis business men, who came to New York with Mr. Wade, accompanied him to Washington.

A Definite Conclusion.

Mr. Wade set forth that a definite conclusion was reached between the St. Louis committee and New York bankers.

"By the action of the New York bankers," the statement says, "it may be safely assumed that the fund undoubtedly will be raised within the next few days.

"The difficulty encountered was to determine how the syndicate could be managed and money loaned at the least possible expense to the borrower, and after many conferences and telephonic communications between Washington and New York it was finally concluded to turn over the entire fund to the federal reserve board at Washington, who would act as managers of the same and direct the loaning of the fund. The outline of the plan agreed upon is as follows:

The Plan in Brief.

"Organize $150,000,000 cotton fund throughout the United States, which fund shall be turned over to and managed by the federal reserve board at Washington and loaned to the national currency association or to the federal reserve banks. All loans to be made payable on or before one year at the option of the borrower, with the right to the federal board to extend any or all such loans made for two periods of six months each, interest on such loans to be at the rate of 6 per cent per annum.

"All loans to be made at not to exceed 6 cents per pound, middling basis, to be secured by approved warehouse receipts for cotton property insured.

Fund Called For As Needed

"The fund to be called for by the federal reserve board in such installments as may be necessary.

"New York financial institutions will subscribe $50,000,000 under above conditions toward such fund provided the balance of the country subscribes not less than $100,000,000

"The details are to be worked out by a committee to be appointed by the federal reserve board which will unquestionably have the support of every part of the country.

"It is recognized that the caring for the surplus cotton crop is a national problem, one which interests all manufacturing industries commercial establishments agricultural resource transportation companies and financial interests, and which undoubtedly will receive universal support throughout the nation."

Progressive Editor Slays Man

San Bernardino, Cal Oct. 16 H... ..d E. Davis, secretary of the Progressive county central committee and editor of the Evening Index, shot and killed Ben Emerson, a local sportsman Davis says Emerson attacked him.

Canal Blocked Over Week

Panama, Oct. 19 Colonel G... W. Goethals, governor of the Panama canal zone, said it would be ten days before the canal would be ready again for traffic, which has just been suspended as a result of the landslide on the east side of the waterway, north of Gold hill. Colonel Goethals said he would have the channel ready for 30-foot draft ships by Oct. 27, barring accidents. It is planned by then to have the channel 100 feet wide and 30 feet deep along the west bank, where channel was least affected.

WOUNDED BROUGHT TO U. S.

THOSE INJURED AT NACO TRANSFERRED ACROSS BORDER.

American Government Permits Removal After Carranza Makes Pledge—Feared Atrocities. Atrocities.

Naco, Ariz., Oct. 20.—Two hundred and fifty Mexicans, wounded during the attack on Naco, Sonora, were brought to this city through special permission from the Washington government. The Carranza government has promised they will be attended without expense to the Ameircan state or national government.

This action came as a result of an appeal made through Governor Hunt, in which it was asserted that if the Mexican town was taken by Governor Maytorena's Indians the wounded would be killed.

Only 47 patients were allowed to remain, the permission for their reception conveying only those seriously wounded. The examination by the American army surgeons caused the rejection of most of the cases. One of those received died later. His body was returned to Naco, Sonora, for burial.

Three of the patients are Yaqui Indians, whose execution was prevented by a Mexican nurse.

It was planned to send the wounded to Douglas, where there are better hospital facilities, but so far authority to do this has not been given.

Provost Marshal Captain Cowan has taken charge of the hospital in the Naco opera house.

Both sides during the prolonged battle have been threatening to execute the wounded.

WOMEN'S CLUBS ARE MERGED

Seventeen National Organizations United Memorial to Late Wife of President.

Pittsburg Pa, Oct 19 Delegates representing 17 national organizations of women decided on the permanent organization of a national central body to be known as the Council of National Organizations of Women.

The organization will be completed at Washington in November of next year. It will take the place of the National Council of Women of the United States and will include more organizations than the present council.

Mrs. Archibald Hopkins of Washington asked the delegates to have their organizations give financial support to the movement for a memorial in Washington to Mrs Woodrow Wilson, late wife of the president.

The memorial will take the form of a block of sanitary dwellings with an interior playground and model park

Aid for "Christmas Ship."

Washington Oct 19 American railroads may transport free of charge, if they decide to do so gifts made by the children of the United States for presentation on Christmas day to the children made orphans by the European war. This ruling was announced by the interstate commerce commission to aid the sending of a "Christmas ship, abroad.

Carman Murder Trial On.

Mineola N Y, Oct 19 Mrs. F... ..ce Conklin Carman, wife of Dr. Edward Carman of Freeport, was placed on trial in the supreme court here, charged with the murder on June 30 last of Mrs. Louise Bailey. Forty-three witnesses have been subpoenaed In her cell Mrs. Carman held a final conference with her attorneys and with her husband in whose office Mrs. Bailey was shot and killed. Mrs. Carman said she was anxious, awaiting the opportunity to tell her story.

WILSON PREDICTS PARTY WILL WIN FALL ELECTIONS

PRESIDENT WRITES LETTER TO MAJORITY LEADER UNDERWOOD IN LIEU OF CAMPAIGN SPEECHES.

PRAISES CONGRESS FOR MANY ACCOMPLISHMENTS

Change of Power Now, Says Executive, Would "Set Clock Back, Not Forward"—Avers Legislators Have "Served People as Never Before."

Washington, Oct. 20.—President Wilson made public a letter to Majority Leader Underwood of the house in which he reviewed the achievements of his administration, outlined the program for the next session of Congress, and declared "the Democratic party is now in fact the only instrument ready to the country's hand by which anything can be accomplished."

In Lieu of Speeches.

The president wrote the letter as an indorsement of all Democratic members of Congress in lieu of speeches he said he would like to make in every congressional district. He predicted victory for his party in the elections because "every thoughtful man sees that a change of parties just now would set the clock back, not forward," and because "a practical nation is not likely to reject such a team—full of the spirit of public service—and substitute, in the midst of great tasks, either a party upon which a deep demoralization has fallen, or a party which has not grown to a stature that would warrant its assuming the responsible burdens of state."

The Results Claimed.

The legislative program begun during the present Congress was declared by the president to have been begun "to destroy private control and set business free." He said that the people of the country had been served by this Congress as "they have never been served before."

Outlining the work already accomplished, Mr. Wilson mentioned the reform of the tariff, the passage of the new currency bill, the anti-trust bills, and the handling of foreign problems. He said he doubted if "there has ever been a finer exhibition of team work or of unhesitating devotion to the fulfillment of party pledges."

Points to Tariff Act.

Praising the new tariff bill, the president asserted that "private control had shown its sinister face on every hand in America, had shown it for a long time, and sometimes very brazenly, in the trusts, and in the virtual domination of credit by small groups of men." He said that high prices did not spring directly from the tariff, but out of the suppression of competition, which flourished more easily under the protection of a high tariff He declared that the panic which opponents of the new bill predicted had not come, and that despite the European war, there had been sufficient time to prove the success of the act

The trade commission bill and the Clayton anti trust bill were spoken of as designed "to make men in a small way of business as free to succeed as men in a big way, and to kill monopoly in the seed." He added that "monopolies are built up by unfair methods of competition," which would be eliminated by the new legislation "Monopoly is to be cut off at the roots," he declared

Justice Done Laborer

Justice has been done the laborer declared the president, and his labor is no longer to be treated as if it "were merely an inanimate object of commerce disconnected from the fortunes and happiness of a living human being, to be dealt with as an object of sale and barter

Of the currency bill Mr. Wilson said, "we have created a democracy of credit such as has never existed in this country before"

Demands of Future

Speaking of the program for the next session of Congress, the president mentioned legislation for building up the American merchant marine and the "completion of a great program for the conservation of our natural resources and the development of the water power of the country."

"Without a Congress in close sympathy with the administration," wrote the president, "a whole scheme of peace and honor and disinterested service to the world cannot be brought to its full realization"

R. W. Sears Left $17,000,000

Waukegan Ill Oct 17 The will of the late Richard W. Sears, founder of Sears, Roebuck & Co of Chicago, has been filed in the Lake county court, showing an estimated valuation of $17,000,000. His widow, Anna, is made executrix of the estate without bond and is also made the sole heir. The home of the Sears is shown to be Gray's Lake They have a fine summer home on Gage's Lake also. The will was filed for probate Oct. 9. The inheritance tax will be large.

Poor Little Orphan.

Alice Joyce, star in motion pictures, had an experience with a little negro girl a few days ago which brings a chuckle whenever it is repeated.

Miss Joyce was on her way home after an arduous day's work. A little colored girl crying against a telegraph pole aroused her sympathy. The charming star approached the girl and inquired the cause of the trouble. The child replied that her aunt had just driven her from the house.

"Where is your father?" asked Miss Joyce.

"Nevah had no pappy," was the reply.

"Well, where is your mother?"

"Daid," was the laconic answer."

Miss Joyce was touched. "Dead," she replied pityingly.

"Yaih! She done died befo' Ah was bo'n!"

Chinese Republic.

The population of the Chinese republic is 312,400,590; its area, 4,277,170 square miles. Its area exceeds that of the United States proper by 1,150,381 square miles.

Peruna Cured This Man Of Catarrh.

Mr. J. B. Reese, Habnab, Maryland, writes: "Two years ago I became a sufferer with catarrh, which continued to grow worse and made me miserable. I could scarcely smell at all, and my taste had almost left me. My head ached constantly, and at times had high fever and bleeding at the nose. I was a perfect wreck.

"I tried several doctors, but derived no relief. I read in one of your little booklets, called 'Ills of Life,' of Peruna being a remedy for catarrh, and procured a bottle at once. After the use of one bottle I felt some better, so I tried the second and the third, and now I am a well man."

Nervous Emotional Dizzy Depressed ?

Mrs. Addie Curtsinger of Cedar St., Cairo, Ill., writes Dr. R. V. Pierce as follows:

"I send 31 cents for your 'Common Sense Medical Adviser' for my daughter who has recently married and I know the book will be of much value to her. I have read and used for 25 years the valuable treatments contained in the 'Medical Adviser' and have taken many bottles of Dr. Pierce's Favorite Prescription, and have been restored to health each time I used it. It is a great remedy for women as a strength builder, fine for the nerves and general health."

WOMEN who are restless, with constant change of position, "fidgetiness," who are abnormally excitable or who experience fainting or dizzy spells, or nervous headache and wakefulness are usually sufferers from the weaknesses of their sex.

DR. PIERCE'S Favorite Prescription

is the soothing, cordial and womanly tonic that brings about an invigorating calm to the nervous system. Overcomes the weakness and the dragging pains which resemble the pains of rheumatism. Thousands of women in the past forty years can bear witness to its benefits.

Your dealer in medicines sells it in liquid or sugar-coated tablet form; or you can send 50 one-cent stamps for a trial box of Dr. Pierce's Favorite Prescription tablets. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets Regulate and Invigorate Stomach, Liver and Bowels, Sugar-Coated Tiny Granules.

Preferred His Grouch.

A landlord, returning home after an absence of several weeks saw one of his tenants sitting on a stone wall, whistling merrily. The moment that he greeted him, however, the man scowled and began abusing him.

"Why, what's the matter, Pat?" he asked.

"Matter is it?" was the answer. "Matter enough, when your stheward is afther evicting me, bad luck to him!"

"Evicted you? What for?"

"The old liar pretended me cabin wanted repairing, and as Oi wouldn't let him, shure he put me out."

"Never mind," said the landlord, "I hear the cottage you have always wanted is vacant, and I'll let you have that at the same rent."

"No, thanking your honor," said Pat. "I couldn't think of it."

"But why not? What is to hinder you?"

"No, your honor," was the reply, "Oi'd rather have me grievance."

South America.

"The people of South America are people of great and brilliant possibilities. The leading man, perhaps, in the last Hague conference was a Brazilian. Among the common people there are immense possibilities of undeveloped character and service," so declares a religious leader

"Where in the world will you find a more patriotic people?" he continues.

"Where in the world will you find a people who have been as willing as the South American people have been for 100 years to die for great ideas and for great causes and for great personal loyalties?

"They lie at our door today these forty million people, awaiting at our hand the help that is to make of them great and powerful nations, and to enable them to discharge their duty of service to the world"

FOUND OUT

A Trained Nurse Discovered Its Effect

No one is in better position to know the value of food and drink than a trained nurse

Speaking of coffee a nurse in Pa. writes: "I used to drink strong coffee myself, and suffered greatly from headaches and indigestion

"While on a visit to my brothers I had a good chance to try Postum, for they drank it altogether in place of coffee After using Postum two weeks I found I was much benefited and finally my headaches disappeared and also the indigestion

"Naturally I have since used Postum among my patients and have noticed a marked benefit where coffee has been left off and Postum used.

"I observe a curious fact about Postum when used by mothers It greatly helps the flow of milk in cases where coffee is inclined to dry it up, and where tea causes nervousness.

"I find trouble in getting servants to make Postum properly but when it is prepared according to directions on package and served hot with cream, it is certainly a delicious beverage"

Name given by Postum Co Battle Creek, Mich Read "The Road to Wellville," in pkgs.

Postum comes in two forms.

Regular Postum—must be well boiled. 15c and 20c packages

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, made a delicious beverage instantly. 30c and 50c tins

The cost per cup of both kinds is about the same

"There's a Reason" for Postum

—sold by Grocers

When a man says, "I'm built that way," it means that he is both self-willed and self-made.—Detroit News.

RASH DISFIGURED FACE

San Martin, Cal.—"I used Cuticura Soap and Ointment on my child's face for a bad rash, also on his scalp which was very scaly. The rash disfigured him for the time being. It itched and caused the child to scratch it. He also had an eruption on his scalp. When putting him to bed I would wash his face and scalp with Cuticura Soap and then use the Cuticura Ointment. He slept well after the treatment and there were no signs of the eruption after a few months." (Signed) Mrs. I. E. Clark, May 14, 1914.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Unfortunately all classical music doesn't have the accent on the class.

The Cause Laid Bare

Tea and coffee drinkers often notice backache, headache, rheumatic pain, dizziness, drowsy, tired feelings, disturbed urination and other signs of kidney weakness. The constant use of narcotic or alcoholic drinks is very apt to irritate the kidneys, and weak kidneys need prompt help to avert all danger of dropsy, gravel or fatal Bright's disease. Avoid the use of stimulants, drink more water, get more rest, fresh air and exercise. To tone and strengthen the tired kidneys, use Doan's Kidney Pills, the most successful and highly recommended kidney remedy

A North Dakota Case

Mrs. Frank Falter, Park River, N. D., says: "For many years my back ached almost constantly; I often had to go to bed for a couple of days. I got dizzy and had a great deal of trouble with the kidney secretions. My head ached, too. After trying remedies and doctors' prescriptions without benefit I used Doan's Kidney Pills. They soon relieved me and whenever I have taken any since I have had fine results."

For Sheriff

At the June primaries I was Nominated for re-election to the office of Sheriff. During my incumbency of the office, I have performed my duties faithfully and impartially and to the best of my ability, as I shall continue to do if re-elected.

My official record is open to the closest scrutiny and it is on that record that I ask the support of the voters of Marshall Co. on Nov. 3 '14.

Respectfully,
William Forsberg.

It will pay you to take a trip to Thief River Falls and visit this great store.

Loken's Dept. Store

Don,t forget to bring us your news items.

We have just received information that the Herrick Seed Co. of Rochester, N. Y. wants lady or gentlemen representatives in this section to sell all kinds of Roses, Shrubs, Trees and Seeds. They inform us that without previous experience it is possible to make good wages every week. Any one out of employment write them for terms and enclose this notice. 116

For Register of Deeds.

Having received the highest number of votes in the June primaries, for the nomination to the office of Register of Deeds for Marshall county, I wish to announce to my friends and the voters of the county that I am in the race to stay and will appreciate your support in the election Nov. 3rd next.

I have been a farmer, taxpayer and resident of the county since a young man, experienced the struggles of the early settler and according to means and ability have taken my share in the developments of the comunity. Based upon my record as a Public Official, especially that of the office of Register of Deeds which trust I held for four years and to which I now ask you to elect me, I deem myself amply qualified for the duties envolved and if elected I promise to devote my time and energies in the discharge of such duties and the substance of my platform is, A SQUARE DEAL FOR EVERYBODY.

Respectfully
Louis M. Olson.

NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at Crookston, Minnesota, Oct. 12, 1914.

Notice is hereby given that Clarence Knutson, Holt, Minnesota, who on Feb. 16th 1909, made Homestead Entry, No. 01511, for S 1-2 N W 1-4 and S 1-2 NE 1-4 Section 27 Twp. 156 N. Range 42 W, 5th P. M. has filed notice of intention to make Final Five Year Proof, to estalish claim to the land above described, before Knute Nelson, U. S. Commissioner for the Dist. of Minnesota, at Middle River, Minnesota, on the 16th day of Nov. 1914.

Claimant names as witnesses:

John H. Knutson, Carl Surmo, Ole M. Larson, Nels A. Fosen all of Holt, Minnesota.

Proof made according to law under which entry was made.

Miss Belle Sollom visited in Thief River Falls Tuesday.

Young People's meeting at Ole Riersons Saturday evening Oct. 24th

Arvid and "Tony" Carlson attended the Elk's meeting in T. R. Falls Friday night.

Three men were here Saturday from Loma, N. D., looking for Mud Lake bottom land, but they returned home greatly disappointed.

Guy Anderson autoed to Middle River Friday with his sister Mrs. N. N. Landro, who remained there visiting until the next day.

P. L. Anderson, Clarence Docken and the Misses Agnes Gunderson, Cora Hanson and Dagny Bakke autoed to Middle River, Thursday eve to attend a play.

For Dr. G. H Gambell, Phone 140. (ad-tf)

Farmers! Get your meals at the hotel. T. T. Sollom, Prop.

Young People's meeting Saturday evening at Ole Rierson's. Come.

For Sheriff.

I hereby announce myself a candidate for sheriff of Marshall Co. and earnesly solicit your vote and influence. I have lived in Marshall Co. since childhood, have experienced both ups and downs in life, within the County and now ask you to inquire of my neighbors and acquaintances as to my character and behavior. I have nothing to say about myself only that if you elect me to the office of Sheriff, I shall discharge the duties impartially and to my best ability.

I remain Respectfully Yours.
Hans C. Hanson
Viking, Minnesota.

For Representative.

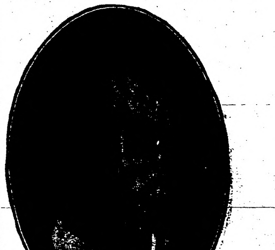
I was made one of the nominees for Representative for Marshall county at the June primaries, my vote being greater than that given to any of the other candidates for that office.

I came to Warren in 1883; have been editor of the Warren Register since 1894; was admitted to the bar in 1892; city recorder of Warren, 1900--1; clerk of taxes and tax laws committee of state senate, 1901; delegate to Republican National convention of 1912; secretary of board of education of Warren since 1909

I favor a square deal to everybody; am opposed to all legislation in behalf of special interests; favor county option and all other legislation that makes for temperance; favor all legislation tending to make our educational system more efficient; favor conservation and developement of state's natural resources; believe a representative owes it to his constituency to do more than merely answer to his name when the roll is called.

I respectfully solicit your support and vote on November 3, 1914, assuring you that, if elected, I shall serve you and your interests to the best of my ability.

Charles L. Stevens.



B. L. Backe, Adolph Solem and A. H. Huseth were Middle River visitors Thursday evening.

D. B. Bakke was here on business a few days last week, returning home Friday P. M. accompanied by his daughter, Miss Dagny and Miss Cora Hanson.

Andrew Nass, of Silverton, recently had his hand badly crushed while working around the blower of a threshing machine, but it is thought all of the fingers will be saved.

D. Payne has just sold a bill of lumber to Iver Borsheim for a barn 16x32 which he is building on his Mud Lake claim. Mr. Borsheim will also have a well drilled there and make some minor improvements.

Hagen Jensen, who has been visiting at the home of his brother-in-law R. Rierson, returned to Moose Jaw, Canada, last week Thursday. Mrs. R. Rierson accompanied him for a visit with her sister there.

Ole Mebust of Viking was here on business Tuesday.

Ed. Sorenson of the city of Viking was a Holt business visitor on Tuesday.

Mr. and Mrs. Martin Strom did a good job of cleaning the church on Tuesday.

Co. Atty. Eckstrom was interviewing the voters in these parts, Tuesday.

J. B. Alkenbrack is taking advantage of this nice weather and is giving his house a coat of paint.

Elmer Ellingson of Thief River Falls was a week end business visitor.

Miss Betty Johnson left Monday for Thief River Falls to take up her school duties.

Both elevators are shipping lots of grain and have to have extra help these fine days.

Guy Anderson accompanied by his mother and sister autoed to T. R. Falls Tuesday evening for a short visit with relatives.

Mr. and Mrs. T. T. Sollom, Ed. M. Silbaugh and son Ernest and P. L. Anderson were business visitors in T. R. Falls last Thursday P. M.

Chas. E. Grinder of Warren was looking over the political map of eastern Marshall Co., last Friday.

Dr. R. L. Olson and C. W. Latta drove to T. R. Falls Tuesday.

Henry J. Oien and Racine Olson drove to Thief River Falls Monday evening in the former's new Buick.

B. L. Backe, A. H. Huseth, Julius Olson and Christ Yttri drove to Warren on business Tuesday morn.

NOTICE FOR PUBLICATION.

The Bank Of Consistent Assistance!

We are now favored with 65 per cent of the volume of banking business transacted, season of 1913 and our business is steadily growing. The time for serious reflection is at hand and we urge caution in the selection of your banking connection for the coming season. It is wise and proper that you place yourself in the path of opportunity by identifying yourself with this Bank while the moving is good. Safety guaranteed and highest interest paid depositors.

We Play No Favorites

We play no favorites among our patrons but we aim to be helpful to all. When you become a depositor of this bank you are assured of the same banking advantages as the richest man who is on our books, your interests watched with the same conscientious care. To assist you is our policy. In addition to offering you the best of banking facilities we make personal financial service a confidential feature of our work. If we know what you want to accomplish we are on the lookout for ways to help you and are ready and willing at all times to advise you on all financial matters.

Has Leg Broken

Saturday noon while Fridjof Riesberg was feeding his father's mules, one of them became frightened and jumped, knocking the boy down and stepping on his leg breaking it below the knee. It is a slanting break, and one that is hard to set, but at this writing the boy is resting well and is as comfortable as can be expected.

New School House Started.

C. M. Wilson of Thief River Falls was $52.00 lower than any other bidders for the Holt public school building, and was awarded the contract for $6127.00, which does not include the heating plant. The excavating for the basement is done and the work will be pushed by a large force of workmen.

Mrs. Kolden visited over Monday night in T. R. Falls.

A. H. Huseth and C. Martell went to T. R. Falls Monday.

Miss Amanda Mickelson was home from Crookston college for an over Sunday visit.

B. L. Backe, A. R. Jones, C. Rustad and A. Sollom autoed to Mud Lake Sunday.

Don't forget the public school box social at the Star Hall to-morrow at 7:30 o'clock P. M.

E. A. Brekke of Argyle, candidate for county attorney, was interviewing the voters here Tuesday evening.

Miss Emma Olson and Martin Mattson were married at the home of the brides brother, in Crookston on Wednesday October 21st.

There is a place for you in the Sunday School and for your neighbor if you are less than ninty nine years old, seperate places will be made for those over that age.

There will be a basket social in the new school house in District 59, Saturday October 31st, the proceeds to be used for an organ for the school. Everybody welcome.

Rev. Roseland, Mr. and Mrs. Saythre and Mr. and Mrs. M. Evenson and daughters Ruth and Margaret and son David, Mr. and Mrs. Hamre were entertained at the Huseth home Sunday evening.

Word was sent here Friday morning that Wm. E. Lee would go through here on the train and he would give us a short speech. The crowd gathered, but alas, the big man of the G. N. was aboard and he said "nixy."

The teachers and pupils of the Holt public school have made plans for a Hallowen box social for the benefit of the school, Saturday evening Oct. 31st. A cordial invitation is extended to the public. Star Hall

We have just received information that the Herrick Seed Co. of Rochester, N. Y. wants lady or gentlemen representatives in this section to sell all kinds of Roses, Shrubs, Trees and Seeds. They inform us that without previous experience it is possible to make good wages every week. Any one out of employment write them for terms and enclose this notice. 116

For Sheriff

At the June primaries I was Nominated for re-election to the office of Sheriff. During my incumbency of the office, I have performed my duties faithfully and impartially and to the best of my ability, as I shall continue to do if re-elected.

My official record is open to the closest scrutiny and it is on that record that I ask the support of the voters of Marshall Co. on Nov. 3 '14.

Respectfully,
William Forsberg.

A Terrible Accident.

Wednesday P. M. as the way freight was going north at the rate of about twenty five miles per hour they struck an auto on the crossing between the elevator and depot. It was a closed auto and they were going west at a moderate speed and did not see the train and could'nt hear them as they did not whistle or ring the bell. The auto was driven by the owner J. B. Grobey and H. A. Hall and Arthur Olson were with him, all of them were residents of Middle River. The back part of the auto was struck and was thrown and turned completely around, wrecking the car and throwing the occupants from 30 to 60 feet from the engine. Mr. Grobey had a bad scalp wound and may have internal injuries. Mr. Hall was terribly bruised and his scull was almost crushed, there being very little hopes for his recovery. How Mr. Olson escaped injury is almost a miracle, but he appears to be alright after recovering from the shock.

Agent Jensen promply wired the company surgeons in Thief River Falls and they were soon on the scene and did all they could to relieve the sufferings of the injured men. Mr. Hall was carried to the hotel and his wife and children sent for. They have since taken him to the hospital at Warren, where he may receive skilled treatment.

Hallowen Box Social

Saturday evening Oct. 31.
Star Hall - Holt, Minn.
Benefit Public School

Everyone should attend and help along a good cause. Don't forget it

Leonard Houske of Hallstad, creamery imspector, came Tuesday and together with P. L. Anderson is organizing a cow testing association. All entries are free and efforts are being made to have premiums offered. Any farmer can get full information of P. L. Anderson. Contest opens Dec. 1st and all farmers should join.

Hallowen social Saturday Oct. 31.

For Dr. G. H Gambell, Phone 140. (ad-tf)

Miss Gunderson returned Saturday to her home in Crookston.

Farmers! Get your meals at the hotel. T. T. Sollom, Prop.

Our nice fall weather has taken a slight cold but is expected to soon recover.

Mrs. E. O. Ostby of Thief River Falls visited with friends the first of the week.

Miss Lydia Riesberg visited in T. R. Falls and Middle River Friday and Saturday.

Miss Josie Phillips of Middle River came Saturday to visit Mrs. N. N. Landro at the Anderson home.

Ernest Silsbaugh left Saturday for Thief River Falls where he will attend school during the winter months.

Post up before going to vote next Tuesday, and remember that— Men and Measures— count for more than mere party prejudices.

Carl Newton returned Saturday and is giving his blacksmith shop a general overhauling. Mr. Newton's family will not come until a little later.

P. L. Anderson, Alfred Olson, Leonard Jensen and Lester Silbaugh took advantage of the nice weather(?) to make a pleasure trip to Thief River Falls Sunday evening.

Uuited states Commissioner, Distric of Minnesota
Final Proofs and Homestead Entries carefully attended to.
Middle River, - - - Minnesota.

Election is now over and we hope everybody is satisfied.

Estray.

A white sheep came to my place about four weeks ago. Owner may have same by paying for this notice and expense of keeping.

Andrew Hanson.
Sec. 18 Holt Twp.

Swan Carlson has a young team of heavy geldings or a young team of mares for sale. See his ad.

Local Items

J. B. Grobey's sale Nov. 10th.

Of course it had to storm "lection day."

Farmers! Get in line for the cow contest.

Henry Wendt was a passenger for Crookston, Monday.

Drs. Heiber and Charest were in town last week on professional business.

The Ladies' Aid will have a big sale next Saturday evening. Come early and avoid the rush.

Messrs. Ed. Thoran and J. B. Turanwald and wives came up from Thief River Falls, Sunday, to hear Rev. Larson and to visit friends.

Henry Oien, Henry Wendt, Alfred Olson, Racine Olson, Clarence Kolden and Ludwig Monson autoed out to their claims in Mud Lake, on Sunday.

On account of the accident whereby he nearly lost his life, J. B. Grobey, has postponed his sale until the 10th of Nov. It is a big sale and it will pay to attend it.

There were three preaching services here Sunday forenoon, Revs. Ordahl and Larson preaching in the two churches and the German Lutherans holding theirs in the M. W. A. hall.

Mr. and Mrs. P. A. VonWald of T. R. Falls visited over Sunday at the home of her parents, J. B. Alkenbrack and family. Mr. VonWald recently returned from Dakota where he was threshing, and he reports much of the crop damaged by rust.

A. R. Jones went to Crookston on Tuesday afternoon for a short visit with his family and to attend a banquet of the Knights Templar lodge, one of the many branches of Masonry. Mr. Jones is well up in Masonic circles and always enjoys their meetings.

We have just received information that the Herrick Seed Co. of Rochester, N. Y. wants lady or gentlemen representatives in this section to sell all kinds of Roses, Shrubs, Trees and Seeds. They inform us that without previous experience it is possible to make good wages every week. Any one out of employment write them for terms and enclose this notice. 116

B. Docken was pleasantly surprised last Sunday when his brother O. Docken and O. I. Hensrud of Mekinock, N. D. and C. A. Heen of Grafton N. D. and H. A. Heen of Grand Forks N. D. autoed over to pay them a short visit. They returned to N. D. the same day, and expressed themselves as well pleased with this vicinity.

Mrs. C. O. Saastad and two smallest children Hermia and Herold left last Saturday for Alvarado where they will visit friends and relatives for some time.

Pete Anderson ran over a jack rabbit with his car Friday night and killed it.

About $3[illegible].00 was taken in at the public school social Saturday evening.

Mesdames Backe, Sollom, Hu[illegible]h and Silbaugh attended the Ladies Aid at Jno. Ndstrands last week Wednesday.

A Dance will be given in the Star Hall Thursday Evening, Nov. 12th by The Thief River Falls Orchestra. Come and dance to all the latest dance hits of the season. We guarantee You the Best of time. Popular price of $1.00 per couple. Come.

Albert Nelson and family loaded a car Tuesday and moved to southern Minnesota.

For Sale!

A Good Young team of heavy geldings and a young team of mares of medium weight. Buyer may have his choice of teams. Will take live stock for one half of the purchase price.

Swan Carlson
Sec. 23 East Valley

Take Notice

A public auction of 16 head of horses, 18 head of cattle, machinery and household goods will be sold on my farm in sec. 18 town of Rollis, known as the Whitcomb ranch, on Tuesday Nov. 10th, commencing at 10 o'clock in the forenoon. Free Lunch at the noon hour. Come.

J. B. Grobey. Prop.

Ain't you glad you did'nt run for office?

For Dr. G. H Gambell, Phone 140. (ad-tf)

D. Payne unloaded a car of coal Wednesday.

Charley Horien was in Thief River Falls, Monday,

Otto Kuehne went to Thief River Falls, Monday, on business.

Farmers! Get your meals at the hotel. T. T. Sollom, Prop.

Swan Carlson has a good young team for sale, which he is advertising.

Chris Skjveland looked after business in T. R. Falls last week Friday and Saturday

It is now time to square up your subscription or the editor will both starve and freeze.

Do your cows make money for you? Join the contest and find out. It is the biggest thing ever offered the farmer.

Found: A razor, between town and the school house. Owner may have same by proving property and paying for this notice.

Victor Rustad

If relatives or friends visit you, we will take it as a favor, if you tell us about it. Please remember that the editor is not a mind reader.

As an instance that the Holt merchants are selling goods at right figures, one of them recently sold 25 boxes of apples to a Grygla merchant at the regular retail price.

Carlson's took in nearly $1400.00, cash, and their sales totaled nearly $1600.00 on the opening day of their big sale, which still continues without interruption. This is only another proof that it pays to advertise.

The work on the school house has been delayed on account of the base of the foundation not being wide enough nor according to the specifications. Monday workmen tore up what had been done and have since did the work over again.

Mr. and Mrs. J. B. Grobey returned to their home in Middle River, Monday, Mr. Grobey is very slowly improving and was hardly in condition to be moved, but was anxious to be getting ready for his sale on Nov. 10th.

At last reports from the Warren hospital H. A. Hall was slowing gaining, the operation releiving the pressure on the brain and he being perfectfully rational again.

Our popular school marms Misses Cora Hanson and Dagny Bakke attended the Teacher's convention at Crookston on the 4th, 5th, and 6th. this week. Miss Hanson is on the program for a short speech on Friday afternoon.

A baby boy was born to Mr. and Mrs. Chas. W. Latta, last Friday night.

Mrs. Nels Berg and son Elrie came from T. R. Falls Saturday for a short visit at the Dr. R. I. Olson home.

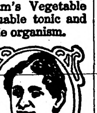
THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.



In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

CURED!

His School Report.

"What did they say to you?" asked little Harry's mother, after his first visit to the new Sunday school.

"The teacher said she was glad to see me there."

"Yes?"

"And she said she hoped I would come every Sunday."

"And was that all she said?"

"No, she asked me if our family belonged to that abomination."

Money for Christmas.

Selling guaranteed wear-proof hosiery to friends & neighbors. Big Xmas business. Wear-Proof Mills, 3200 Chestnut St., Philadelphia, Pa.—Adv.

Greedy.

"What kind of candy do you want my little man?" said the storekeeper patronizingly.

"Gimme somepin' real soft and sticky, soze sister won't want any of it."

Naturally.

"What does her husband do when she asks him to foot her bills?"

"Kicks about it."

The Cause.

"He wrote a lame apology."

"No wonder; he had sprined his wrist."

Talk is cheap, yet some people have a mania for trying to monopolize it.

A Home-Made Poison

Uric acid, unknown in the days of a simple, natural, out-of-door life, is a modern poison created inside the human body by a combination of meat-eating, overwork, worry, and lack of rest. Backache or irregular urination is the first protest of weak kidneys. When the kidneys fail behind in filtering out the excess uric acid, there is danger of gravel, dropsy or Bright's disease. Doan's Kidney Pills strengthen weak kidneys, but if the diet is reduced, excesses stopped, and fresh air, exercise and sleep increased, the medicine acts more quickly. Doan's Kidney Pills have a world-wide reputation as a reliable kidney tonic.

A Montana Case

"Every Picture Tells a Story"

O. Erickson, 518 E. Sixth St., Anaconda, Mont., says: "My back pained me for weeks and disordered kidneys caused it. One day while working a sharp catch seized me and when I tried to move I couldn't; I was just like a paralyzed man. I had read about Doan's Kidney Pills and heard many people recommend them, so I got a supply. The quick relief they gave me was surprising. I used two boxes in all and have never suffered since. Doan's Kidney Pills are fine."

ANTWERP GETTING BACK TO NORMAL AFTER WEEKS OF TERROR AND PANIC

Antwerp.—Antwerp gradually is returning to normal conditions. About 150,000 of the city's 350,000 inhabitants, most of whom fled when the Germans occupied it, have returned to their homes.

Some bakeries, meat shops and grocery stores are opening in the poorer section of the city, and a few old women with dog carts are offering apples and vegetables in the once busy markets. The German flag flies from the tower of the cathedral of Notre Dame, but Belgian priests are reading mass as usual.

The streets virtually are deserted except for the gray German automobiles which dash along at mad speed carrying officers clad in smoke gray uniforms.

No War Tax Levied.

No tribute has been levied on the city as yet, except that the Germans have demanded supplies for their army. General von Huehne is governor general of the military government. Maj. Gen. von Bodenhausen, commander of the fortress of Antwerp, will be installed shortly as civil governor.

General von Huehne has given assurance that Belgians will not be forced to dig intrenchments or do other work for the Germans if they return to the Belgian cities. Every consideration is being shown the Belgians by the invaders, but this kindness makes the Belgians suspicious, as they believe, they say, that a trap is being laid.

Thousands of Natives Return.

Over twelve thousand Belgians returned to Antwerp, and probably half that number from Holland. All of the Holland border towns are filled with frantic Belgians, who move about anxiously seeking relatives and are afraid to return to their native land. The country about Antwerp is desolate.

It is estimated that about three hundred buildings were destroyed in Antwerp by bombs, most of these structures being residences. The Hotel de l'Europe and the Taverne Royale on La Place Verte were among 25 large buildings destroyed by fire caused by bombs.

La Mier and other leading business streets are untouched, but all the large business houses are still closed, despite the efforts of the Germans to restore normal conditions.

Argentine Consul Killed.

About sixty persons were killed during the bombardment of the city.

Theophile Lemaire, Argentine consul at Antwerp, was the most prominent victim. He was killed in the cellar of his home by a bomb which came through the roof and floors and struck him.

Consul Diederich and the American vice-consul, Harry Sherman, both narrowly escaped death during the bombardment. They lived on the south side of the city, where the shelling occurred. The operators of a Zeppelin dirigible balloon dropped a bomb within 200 feet of Mr. Sherman's home, and the house adjoining Mr. Diederich's residence was completely wrecked by a bomb.

FOES' HIDDEN IN TRENCHES FIGHT DAY AND NIGHT

By KARL H. VON WIEGAND.

(United Press Staff Correspondent.)

St. Mihiel, France.—Fighting day and night from deep trenches whose wonderfully effective entanglements of barbed wire, steel sharp-pointed rods and sharp-pointed stakes almost touch, the thousands of men comprising the German left and the French opposing wing seldom see each other.

Probably never before has there been staged a battle so theatrically set as is the present. The line of battle runs wave-shaped for miles through dense forests, over and around high hills and across deep valleys traversed with fast-running streams of water.

The French stubbornly contest every attempt of the Germans to advance. Lines of trenches are extended a foot at a time. The thousands on each side dig themselves in like field moles. They cover their every movement. Even the guns are hidden and their location cannot be ascertained by the opposing forces, as their smokeless powder leaves no trace.

Visible to Aviators.

And in the open country the trenches are so constructed as to be invisible to an aviator unless he flies very low. When he does fly low he seldom returns to report. But there are always volunteers on both sides to attempt it. They go out and most of them are killed. A few are captured alive and they are treated with the consideration their daring demands.

The Germans have occupied St. Mihiel and are holding it and the territory adjoining, although they are still subjected to a heavy artillery fire. The children, however, play about the streets and the inhabitants go about their duties in an unconcerned way. They express no curiosity. Familiarity with danger has in this case bred a feeling of utter contempt for it.

Now Seek Verdun Forts.

The reports that the Germans were making an assault in force on Toul and Nancy are erroneous. For the present their chief objective is the smaller line of forts along the Meuse line from Toul to Verdun. These are Troyon, Genecourt, Les Paroches, Camp de Romains, Lionville, Gironville and Jury-sous-les-Cotes. The first to fall was St. Mihiel, and several of the others are reported in difficulties. In addition, the bombardment of Verdun continues, and some of the outer works have already been reduced.

Aviator Escapes Death.

While passing through Vervinay I witnessed a daring piece of work by a French aviator. Under cover of a fog he had swooped down on the German trenches and had located a number of them before he was discovered. Although the German artillery fairly rained shrapnel around his fleeing plane he mounted almost straight up and finally escaped to his own lines.

I was able to spend on entire day in the German trenches which have been constructed to prevent the French armies with headquarters at Toul and Nancy attempting a flanking attack. In one of the trenches the soldiers had organized a singing society. The whole scene was wonderfully picturesque. A thick fog hid the French trenches 800 yards away. The ghostlike figures of the greenish gray-clad figures in the trenches were strangely silhouetted in the mist. Occasionally the thunder of the guns would punctuate the choruses. The singing was remarkable, as many of the soldiers had trained voices. Some stood at attention. Others had their hands tightly clasped in the attitude of prayer. They sang, "It's the Day of the Lord" and "My Vaterland; Beloved Vaterland," chiefly.

FIELDS ARE CHOKED WITH BODIES OF SLAIN SOLDIERS

By LUCIEN ARTHUR JONES.

Dunkirk.—I am writing this dispatch to the sound of heavy rifle firing in the streets of this town. A German Taube just now was flying above us and receiving its customary salute of bullets. It finally disappeared in the direction of Ostend without doing or receiving any damage.

This is the second aerial call the Germans have paid Dunkirk today. About nine o'clock this morning a Taube hovered over the town for a considerable period. The aviator paid dearly for his temerity, for his machine was badly damaged by shot and he was forced to descend outside the town, only to find himself and the machine immediately captured.

The Taube has been led in triumph through the streets of the town.

Naval Guns Repulse Germans.

It now appears certain that the Germans have been shelled out of their positions at Ostend. Small parties, however, were reported to be in the town itself this morning.

The bombardment by the British and French naval guns of the German right wing resulted in clearing the coast from Nieuport to Ostend of the enemy for a distance of several miles.

In the interior the Germans are reported to be demoralized and the reply of their artillery for once is sadly ineffectual.

Splendid work has been done here by the British Red Cross detachment, which formerly was at Ghent in charge of Dr. Hector Munroe.

German Dead Cover Field.

A member of the staff has told me that the fields in the neighborhood of Furness and Dixmude were choked with German dead. So desperate has the fighting been that the Germans left in a hurry without a thought of burying their dead or assisting their wounded.

While he was in Dixmude a German shell struck the house in which were resting 27 Belgians and not one of them escaped death.

Wolf Packs Attack Soldiers.

Rome.—A dispatch from Cetinje says: "A close watch at night is necessary at the military camps, not only because of the fear of the enemy, but on account of the dread of wolves, which, when the first snow covered the mountain tops, began to descend and wander in rapacious bands attacking the living if they cannot find dead."

Read Only German Poets.

London.—The Berlin Vorwaerts announces that a boycott is to be placed on foreign poets. Among the first to be boycotted are D'Annunzio and Maeterlinck. It has been discovered that neither is a man of any particular genius.

"YOUR SKIN WORTH AS MUCH AS MINE," KING TELLS SOLDIER

London.—King Albert still is leading his troops in the small southwest corner of Belgium that is not in possession of the Germans. His bravery inspires his men to almost superhuman feats of daring. The king shows a fearlessness in battle that moves his staff to continuous, but unheeded, protest. A shell burst near King Albert while he was directing his troops and when he was urged to retire to a safer position, the king replied:

"My skin is of no more value to my country than is yours. My place is on the fighting line."

He stayed in the exposed positions and the Belgians, in a charge of unexampled spirit, drove the Germans from their trenches.

While the Servians may have captured Vlasenitza it is not likely to enter into general conversation.

Distinguished Political Career.

Elbridge Gerry Lapham, who represented New York in the United States senate in the early '80's, was born in the town of Farmingham, N. Y., 100 years ago. In early life he followed the profession of a civil engineer. Later he studied law and in 1844 was admitted to the bar. He was a member of the constitutional convention of New York in 1867; a representative in congress from 1875 until 1881, in which latter year he was elected to the United States senate to take the place of Roscoe Conkling, who had resigned. Senator Lapham was a Republican in politics. He died at Canandaigua Lake, N. Y., in 1890.

A GRATEFUL ACKNOWLEDGMENT.

Mr. F. C. Case of Welcome Lake, Pa., writes: "I suffered with Backache and Kidney Trouble. My head ached, my sleep was broken and unrefreshing. I felt heavy and sleepy after meals, was always nervous and tired, had a bitter taste in my mouth, was dizzy, had floating specks before my eyes, was always thirsty, had a dragging sensation across my loins, difficulty in collecting my thoughts and was troubled with shortness of breath. Dodds Kidney Pills have cured me of these complaints. Dodds Kidney Pills have done their work and done it well. You are at liberty to publish this letter for the benefit of any sufferer who doubts the merit of Dodds Kidney Pills."

Mr. F. C. Case.

Dodds Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, Dainty Recipes; also music of National Anthem. All 3 sent free. Adv.

Virginia Governor's Mansion.

The spirits of history, of sentiment and of beauty rise to form a triple alliance in protest against the proposal to remodel the first floor of the governor's mansion. To them it is almost an act of vandalism to break the splendid sweep of the central hall with a stairway, to obstruct the view from the entrance, to obliterate the effect of space given by the wide interior entrances to right and left, to instill a cramped feeling into all who enter, to make any changes in an interior the most distinctive historically and architecturally of all the state executive mansions. There are improvements to be made in the rooms of the upper floor, and probably in other parts of the house. Smaller and more bedrooms, for instance, are needed. But the first floor can only be ruined by the contemplated "improvements." Rich in history, beautiful in design and comfortable in arrangements, it should not be touched.

Mamma's Kiss.

This pretty child story is from the French:

A mother tells her little girl that because she has been naughty she will not kiss her for a week. Before two days have gone by the child's lips hunger so for her mother's kiss that she begs her not to punish her any more.

The mother says: "No, my dear. I told you that I should not kiss you, and I must keep my word."

"But, mamma, mamma," says the little girl, "would it be breaking your word if you should kiss me just once tonight when I'm asleep?"

PRESSED HARD.

Coffee's Weight on Old Age.

When people realize the injurious effects of coffee and the change in health that Postum can bring, they are usually glad to lend their testimony for the benefit of others.

"My mother, since her early childhood, was an inveterate coffee drinker, had been troubled with her heart for a number of years and complained of that 'weak all over' feeling and sick stomach.

"Some time ago I was making a visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat unusual flavour of the 'coffee' and asked him concerning it. He replied that it was Postum.

"I was so pleased with it that, after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family were so well pleased with it that we discontinued coffee and used Postum entirely.

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart, and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was well and hearty.

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Regular Postum — must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

—sold by Grocers.

WAR MAY INVOLVE ALL EUROPE, ASIA, INDIA AND EGYPT

AMBASSADORS OF TRIPLE ENTENTE QUIT CONSTANTINOPLE AND PEACE HOPES GO GLIMMERING.

ITALY STIRRED BY WAR SPIRIT; BALKANS ON VERGE

Greece Likely to Fly to Arms With Broadening of Scope of Conflict—Portugal Really Considered in Struggle at Present—Turks Invading Egypt.

By International News Service.

London, Nov. 3.—The ambassadors of Russia, Great Britain and France have received their passports and have quit Constantinople, and Italy is reported now to be aflame with the war fever, demonstrations in favor of entering the great conflict becoming so violent in a number of cities that troops had to be called out to surpress the riotous scenes.

Uneasiness in Balkans.

These, together with the growing uneasiness and speculation as to the probable action of the Balkan states—Bulgaria, Roumania and Greece—are the most startling developments of the newest phase of the international struggle which now threatens not only to involve practically all Europe but also to drag in Asia, Indian and Egypt.

Negatively there are two features of the situation which are important. These are the continued failure of any power officially to declare war as the next step after the official announcement that diplomatic relations have been ruptured between Russia and Turkey and the absence of a reply from Turkey in response to the demand for an explanation of her naval activity in the Black Sea, made by the Triple Entente powers.

Peace Still Possible.

These are significant in that they still hold out hope for peaceful solution of the Turko-Russian questions, thus avoiding further extension of hostilities.

Dispatches from Rome declare that the Italian people are almost unanimously with the war party and are clamoring for the immediate entry of Italy into the war to protect the nation's interests.

The resignation of the entire cabinet in a body after a stormy session, in which the ministers failed to agree upon a military program because of the strong representation of the peace party, has brought the situation to an acute stage.

Million Italians Mobilized.

The army is now mobilized to a strength of 1,000,000 men and the fleet is ready for action. It is only left for the war cabinet, which is considered certain to be appointed, to decide that Italy cannot longer remain neutral, in face of the situation in Albania. Italy would be seriously threatened if Austria or Turkey were to attempt to seize Albania, and if Italy were caught unprepared, the war advocates urge, the damage that would be inflicted before she could recover from the shock of the attack would be far more extensive than could be indemnified by the amount of the war appropriations sought.

Egypt Being Invaded.

Activity of Turkey on land is reported from Cairo. Large bodies of troops bent on invading Egypt for the purpose of re-establishing the control of the Ottoman Government are reported to be moving. Bedouins have crossed the Sinai frontier in great numbers from Akabah and Gaza to mobilize with several armp corps at Mosus and Damascus.

A dispatch from Rome to the Express says a report has reached there that 400,000 Turks are massed on the Caucasian border and that 300,000 are waiting at Beyreut, Jaffa and other ports for transhipment to the Sinai peninsula. The ports, it is said, are well guarded by the British and French fleets.

Giving Sultan Time.

Although Turkey's preparations are generally accepted as an act of war, Britain is willing to give the sultan time to reflect before beginning active hostilities herself.

Meanwhile, the British are fortified in impregnable positions along the Suez and if the Moslem hordes do attempt an invasion they will be met with effective resistance.

Russia and Britain Prepared.

London, Nov. 3.—Turkey has definitely thrown in her lot with Austria and Germany, and if Portugal is counted there now are 11 powers at war, with prospects of three more—Greece, Bulgaria and Roumania—being drawn in.

14 Russian Boats Reported Sunk.

Berlin, via Amsterdam and London, Nov. 3.—A dispatch to the Tageblatt from Constantinople says that the Turkish fleet, when it bombarded Novorossysk on the Black Sea, sank 14 Russian transports and destroyed several warehouses, oil reservoirs and a wireless station. The Russian artillery both at Novorossysk and at Odessa, it is declared, proved ineffective. At Odessa the Turkish shells set afire five oil tanks and damaged five transports.

Happy Bake Days

CALUMET BAKING POWDER

The cook is happy, the other members of the family are happy—appetites sharpen, things brighten up generally. And Calumet Baking Powder is responsible for it all.

For Calumet never fails. Its wonderful leavening qualities insure perfectly shortened, faultlessly raised bakings.

Cannot be compared with other baking powders, which promise without performing.

Even a beginner in cooking gets delightful results with this never-failing Calumet Baking Powder. Your grocer knows. Ask him.

RECEIVED HIGHEST AWARDS
World's Pure Food Exposition, Chicago, Ill.

CALUMET BAKING POWDER
NOT MADE BY THE TRUST
CALUMET
BAKING POWDER
CALUMET BAKING POWDER CO. CHICAGO

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

Just So.

"We all think well of a good loser."

"Yes; particularly if we get some of his money."

Appearances are often deceptive. Luxurious whiskers hide many an ugly mug.

Women in Church Council.

The high council of the Church of England, sitting under the joint presidency of the archbishops of Canterbury and York, voted to give women the suffrage in the election of church councils and also the right to sit on parochial councils. In view of the fact of its former conservatism, this is very significant in the ruling of the church. Women have always been the most loyal workers, but have hitherto had no voice in molding its policies.

RESINOL WILL SURELY STOP THAT ITCHING

What blessed relief! The moment resinol ointment touches itching skin, the itching stops and healing begins. That is why doctors have prescribed it successfully for nineteen years in even the severest, stubbornest cases of eczema, tetter, ringworm, rashes and other tormenting, unsightly skin-eruptions. With the help of warm baths with resinol soap, resinol ointment restores the skin or scalp to perfect health and comfort, quickly, easily and at little cost. At all druggists.—Adv.

Too Fine.

"I am addicted to piscatorial sports. What do you like, Mr. Jones?"

"I'd rather go fishing, ma'am."

REPORT GERMANY NOW NEGOTIATING U. S. CREDIT LOAN

GOVERNMENT HAS NO POWER TO OPPOSE SUCH ACTION ON PART OF AMERICAN BANKERS.

VAST SUPPLIES WILL BE BOUGHT HERE AS RESULT

Russia and Fatherland Alone May Purchase $100,000,000 Worth—Pointed Out Proposed Transactions Do Not Clash With Views of Wilson.

Washington, Nov. 2. — Viewing credit loans to belligerent countries as private transactions, the Washington administration will not attempt to interpose its influence against such transactions on the part of the American bankers.

Germany Seeking Loan.

This was learned on the highest authority after it became known that German financiers were contemplating the establishment of a credit loan in this country similar to the $10,000,000 credit fund negotiated by the National City bank of New York and other bankers for the French government.

The decision of the Washington administration may lead to the purchase in the United States of about $50,000,000 worth of supplies by Russia and an equal if not a greater amount by Germany. Details of the expected transactions are lacking here.

President's Views Considered.

High officials of the Washington administration insist that President Wilson has not changed his view announced at the outbreak of the war that the loaning of money to belligerents would be "inconsistent with the true spirit of American neutrality." A distinction was drawn by officials, however, between the loans referred to at that time—such as bond issues offered for public sale and credit transactions intended as a checking account against the purchase by belligerents of foodstuffs and supplies from American firms.

The president realizes that this government has no legal right to oppose loans of any character nor is there any obligation of international law forbidding them. During the Russo-Japanese war, loans were floated for Japan in the United States through public bond issues. The president is understood, however, to be opposed to that form of loan as liable to stir up ill-feeling and prejudice.

Position of Government Embarrassing

Officials have unanimously decided to refrain from discussing the subject of loans as the position of the government in the circumstances is an embarrassing one.

Under what is known as credit loans there is no intention, it is understood, to export gold from the United States. Large funds will be established by the belligerent countries with their financial agents here who will pay the bills of the European nations to American dealers in munitions of war and supplies. The bankers will be given short time notes by the belligerent governments with a much better rate of interest, it is said, than ordinarily could be obtained. In return for these considerations European governments will agree to spend large sums of money in the United States for supplies.

Chicago Bankers Interested.

Chicago.—Chicago bankers who are taking part in the negotiations of some of the belligerent nations of Europe for supplies in this country, said purchases for cash have reached a large volume and there is every reason to believe the demand will continue. Chicago alone is said to have come in for $7,000,000 or $8,000,000 of this business to date and more large orders are pending. Great Britain is taking large quantities of supplies here, but that country is not a buyer in a cash sense, payments being made through the workings of the trade balance exchange plan.

Arrange to Deport Chinese

Washington, Oct. 31.—Immigration officials at Honolulu were instructed to arrange with the Japanese consul for deporation of the Chinese included among the crew of the German schooner Aeolus, who were landed after the vessel was captured by the Japanese battleship Hizen.

Russian-Turk Sea Fight On.

London, Nov. 2.—A dispatch to the Exchange Telegraph from Rome says: "It is reported from Constantinople that a battle between Turkish and Russian fleets is in progress off Odessa."

Endorse Congressional Blacklist

Chicago, Nov. 2.—Two wrangling sessions of the Illinois Equal Suffrage Association, which for a time threatened to disrupt the organization, ended with the adoption of a resolution indorsing the work of the congressional committee of the National American Woman Suffrage Association, of which Mrs. Medill McCormick is chairman, in issuing a blacklist of Congressional candidates opposed to equal suffrage. Action was accepted by friends of Mrs. McCormick as a victory over the administration.

MISS JULIA CALHOUN

© HARRIS & EWING

Miss Julia Calhoun, daughter of Col. and Mrs. John C. Calhoun of New York and great granddaughter of the famous American statesman of that name, is soon to marry Baron de Nagell, attache of the Netherlands legation at Washington. The baron has been in the diplomatic service for five years and has been popular in society at the national capital.

FORMER HEAD U. S. ARMY DIES

GENERAL CHAFFEE SUCCUMBS AT CALIFORNIA HOME.

Veteran of Civil War, Indian Fighter and Hero of Spanish Conflict—Advanced From Private in 1863.

Los Angeles, Cal., Nov. 3.—Lieut. Gen. Adna R. Chaffee (retired), former chief of staff of the United States army, died at his home here. His body will be taken to Washington for interment in Arlington National cemetery.

General Chaffee had been suffering from typhoid pneumonia for a month.

Mrs. Chaffee and her daughter, Mrs. John Hastings Howard, wife of an army officer, were at the bedside when the end came. Two other children, Mrs. George French Hamilton, wife of an army captain, and Adna R. Chaffee, Jr., a lieutenant in the army, are in the Philippines.

General Chaffee rose from the rank of private. He was wounded three times.

Enlisted in First Days of Civil War.

Washington.—Lieut. Gen. Adna Romanza Chaffee was one of four officers of his rank ni the United States army, all of them being on the retired list. He enlisted as a private in Troop K, Sixth Cavalry, soon after the civil war began, and during a career of more than forty years of distinguished service attained the highest rank, finally serving as chief of the general staff.

He fought throughout the civil war, winning a commission as second lieutenant in 1863, and later being brevetted lieutenant and captain for gallant and meritorious service.

Fought Indians in Southwest.

After the war he saw fighting against the Indians in Arizona and Texas and had risen to the rank of lieutenant colonel when at the outbreak of the Spanish war he was sent to Cuba as a brigadier general of volunteers. Going back to the regular establishment after attaining distinction, particularly in the Santiago campaign, he was made colonel of the Eighth Cavalry and three years later was promoted to the rank of major general.

Head of Army When Retired.

In 1904 General Chaffee became a lieutenant general and he was serving as chief of staff when retired at his own request in 1906. He had lived at Los Angeles since that time.

General Chaffee was born at Orwell, Ohio, April 14, 1842. He was educated in the public schools of Ohio, and in 1875 married Miss Annie Frances Rockwell of Junction City, Kas.

Cholera Toll 100 Per Day

Venice, Nov. 2.—Reports received here from Austria say cholera is increasing to an alarming extent throughout Austrian-Hungary and that there is not a single crown land in Austria and scarcely any in Hungary where fresh cases are not reported daily. The epidemic is said to be worst in Galicia, where about 100 deaths are said to occur daily among the troops in the field.

Schools Closed; Teachers Fight.

London, Nov. 2.—A dispatch from Amsterdam says the usual course of instruction in the schools of Germany cannot be continued, as 40 000 teachers are at the front.

Jurors Out Nine Days.

Scranton, Pa., Nov. 2.—Although they have been out for over nine days, members of the Pegram murder jury are still hopelessly deadlocked. John P. Thomas, the foreman, has sent a letter to Judge Edwards, who was on the bench at the trial, asking that the jurors be discharged as there was no possibility of an agreement. William Pegram, the negro defendant, was tried on a charge of murdering Mary Quinn, a white woman, twelve years ago.

Menace.

The Akooned of Swat had 20,000 men. He marched them up a hill one day, and that done he marched them down again.

The great powers were not asleep. "If this isn't mobilization, what is it?" they demanded tensely.

The Akooned of Swat hastened to point out that when his men were up they were up, that when they were down they were down, and, finally, that when they were only halfway up they were neither up nor down.

"No temporizing!" thundered the great Powers and forthwith fell upon one another with the utmost ferocity.

For while the great Powers were Christian, Swat was a heathen nation, and so a constant menace to the peace of the world.—New York Evening Post.

Astronomy vs. Art.

Professor—Has anything ever been discoverd on Venus?

Student—No, sir, there has not, if the pictures are correct.—Judge.

Peruna Did Wonders For My Boy

Mrs. Nellie Courter, 86 Franklin Ave., Norwalk, Conn., writes: "Peruna has done wonders for my boy. I cannot praise it enough.

"I think it is the best medicine on earth. Let me tell you why I think so.

"My son has been afflicted with catarrh since he was a baby five months old, so that for years I had to watch him all night long, and keep his mouth open so he could breathe, as he could not breathe through his nose.

"He has always been very delicate.

"Since he commenced taking the Peruna I can go to bed and sleep all night."

Women Don't Progress.

"Pockets for women will be worn this fall."

"What of that?"

"The girls may wear pockets, but I'll bet they still carry their junk all jumbled up in a handbag."

ECZEMA SPREAD OVER BODY

1127 Market St., Chehalis, Wash.—"My little nephew was cross and cried and complained of itching. The eczema broke out with a rash, reddish looking. It spread until it was all over his body, and it came on his face and caused disfigurement. His hands had to be tied to keep him from scratching. His clothing aggravated the trouble and made the breaking out worse. He was so covered with eruptions he didn't look natural. There was such an itching and burning sensation he could not sleep and kept someone with him continually. Weeks and months passed by and we had almost given up in despair.

"One day I read about Cuticura Soap and Ointment being good for eczema and all skin troubles. I sent for a free sample and immediately we discovered a change for the better. Before the sample was used up there was such a remarkable change that I bought a box of Cuticura Soap and a box of Cuticura Ointment. The eruptions healed, the burning and itching ceased and by the time the Cuticura Soap and Ointment were used up he was a well boy." (Signed) Mrs. J. L. Steelman, Apr. 8, 1914.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Holt Public School Notes

There are now 18 pupils enrolled in the upper grades. The primary room have an enrollment of 30.

Those receiving the highest mark in spelling last month were:-

Inez Alkenbrack	A Class	100
Merrell Latta	B Class	90
Kenneth Latta	C Class	100

Our Motto for this week:

Attempt the end and never stand
To doubt,
Nothing's so hard but truth will
Find it out.

We have now two more scholars Frank Heinze and Llyod Knutson.

A spelling contest is given every Friday. The school is divided into two divisions, Mabel Haggland leader of one side and Stella Mickelson of the other. Great interest is shown as at some future time the loosing side will entertain the winners.

There was no school on Thursday and Friday as there was teacher's convention at Crookston.

The restaurant is about to change proprietors, Jacob Nelson of Crookston, has rented it and is expected here to day or to morrow. The Mickelson family will move into the Iverson residence when they give up the restaurant work.

Miss Inga Fostad went to St. Hilaire Friday.

A. R. Jones has recently sold a bill of lumber to C. Rustad for an addition to his barn and lumber for a barn 26x40 to Nils M. Ness, also he furnishes a part of the lumber for the new school house, his firm supplying the balance from Thief River Falls.

Mr. and Mrs. Adolph Sollom entertained a little company at a Halloween supper Saturday evening.

C. M. Wilson's bid for the new school house was $732.00 lower than his nearest compcitor, A. T. Larson of Calledonia, N. D. The difference of $52.00 we mentioned last week was on bids for plastering instead of steel ceiling which was later decided on.

The Local Market.

(Grain prices furnished by the Red Lake Falls Mill'g Co. at close of business every Thursday.)

Sunday School at 10:30 and you are invited.

The Ladies Aid of the Free Mission church will have an auction sale in the church on Saturday evening Nov. 7th at 8 o'clock. Everybody cordially invited.

McIntosh, Minn. Oct. 28.

Mr. Editor: We wish to thank one and all who so kindly contributed for the benefit of our son Norman. May God bless you all for the good you may do. Yours sincerely,

Mr. and Mrs. Carl Newton.

Notice!

Notice is hereby given that a special election will be held in the school house of District No. 35 of Marshall Co., Minnesota, at the school house on the 13th day of Nov. 1914 from 6:30 o'clock P. M. to 8:30 o'clock P. M. for the purpose of voting on the proposition of issuing to the State of Minnesota the bonds of said municipality in the aggregate sum of $3000.00 bearing interest at the rate of (4) four per centum per annum, the proceeds thereof to be used for the following purposes: $3000.00 for completeing the new school house and for plumbing and heating the new school house, to be numbered and to mature as set forth in the resolution now on file in the office of the Clerk,

Dated October 31st, 1914.

D. Payne, Clerk.

District No. 35, Marshall Co. Minn.

Don't miss the time of your life at he big dance Thursday Nov. 12th.

Three auto loads from Holt attended the Ladies Aid Society at S. Borsheim Wednesday afternoon.

Several of those who have claims on the Mud Lake bottoms, went out there and to East Valley Tuesday to vote.

Get your meals at the hotel. adv

Notice To The Farmers!

Do you realize you have in your herd of "Cows" what we call Boarders? A Cow that does'nt pay for the feed she consumes. Possibly some make a very small profit but not enough to pay for the work. Others may be paying you a good profit over feed, care, etc. To find out which ones are boarders, join the Testing Association. Contest begins Dec. 1 and if you join with the many who will keep a "Daily Record" of their cows to Dec. 1, 1915, you will be in a position to know which one to sell, when a buyer comes and offers you big prices for a cow he happens to want and trys to make you believe she is not a good milker. Don't believe it. No man can tell a good profit making cow without weighing and testing her milk. Find out your best cows and keep them. Sell the boarders. Remember the dairyman is a winner every time—wars and hard times affect him less than other people.

These are some of my patrons who will begin keeping a daily record on Dec. 1. 1914: P. T. Olson, Chris Sheveland, O. A. Thompson, T. B. Folden, Chas. Heinze, T. O. Dovre, Elvin Arickson, Erick Johnson, G P. Sorter, John Engstrom and Louis Wegge. Let us all join

P. L. Anderson.

Notice For Publication.

Department of the Interior, U. S. Land Office at Crookston, Minnesota Nov. 3, 1914.

Notice is hereby given that Ole M. Larson of Holt, Minn. who on Nov. 22nd 1910 made Homestead Entry No. 05754 for N 1-2SW 1-4 Sec. 27 Twp. 156 N Range 42 W 5th P. M. has filed notice of intention to make Final Three Year Proof to establish claim to the land above described, before Knute Nelson, U. S. Commissioner for the District of Minnesota at Middle River, Minn. on the 7th day of December. 1914.

Claimant names as witnesses: Olaus Rodahl, Clarence Knutson, Albert C. Jahr and Geo. C. Anderson all of Holt, Minnesota.

Guest Who Didn't Care for Salmon Was in Fair Way to Have Hot Breakfast.

In some parts of the Canadian back country the recurrence of boiled salmon, broiled salmon, salmon cutlets, and salmon steak at every meal becomes, after a few weeks, a trifle monotonous. To the native palate, brought up on it, this constant reappearance of the selfsame dish is a matter of course; but to the newly arrived tourist it grows at last into a feeble joke.

"Is there nothing else for breakfast?" said one such victim of colonial hospitality, as a whole fish and a pot of mustard were laid before him on the table."

"Nothing else!" replied the host, in surprise. "Why, there's salmon enough there for six, aint' there?"

"Yes," responded the guest, mildly; "but I don't care for salmon."

"Well, then, fire into the mustard," was the rejoinder.

Mighty Handy.

Some negroes are insatiable "jiners," and their favorite organizations are those which assure an ostentatious funeral.

A mistress was remonstrating with her servant about belonging to one of them.

"Donnibel, don't you think it is mighty foolish to pay the 'Friends and True Mourners society' twenty-five cents every month?"

"Naw'm, Miss Ma'y, I don't. You see, dee ain't like some of de s'cities; dee acts liberal, and don't skimp on nothin'. Dee gives you de finest kind of coffin, en makes a way for ev'rybody to git to your burial. En den, 'sides dat, dee gives you thirty dollars at the grave, en you know thirty dollars comes in mighty handy."

Its Kind.

"This man threw a lamp at his wife."

"Then indict for him for light assault."

Generally.

"Where was that big sea fight of which you were speaking?"

"On the front page, I think, my dear."

JAPS URGED TO AID WEST ARMIES —TAKE TSING-TAU

BATTLE IN SAND DUNES GOES ON —MUSCOVITES ASSERT FORCES HAVE EASTERN SITUATION IN HAND.

FRENCH AND BRITISH HAVE DECLARED WAR ON TURKEY

Muscovites Say Kaiser's Men Have Fallen Back Across Frontier Into Their Own Domain—Berlin Reports Plan to Crush Army of Czar With 3,000,000 Men.

BY GEORGE A. DORSEY.
By International News Service.

Pekin, Nov. 10.—Enticing offers have been made to Japan by agents of the allies in China to induce the Mikado to throw 200,000 of his seasoned troops into the Eureopena Theater of war.

Allies Exert Pressure.

Following the fall of Tsing-Tau, which releases Japanese troops and warships, and removes German menace to Japan's prestige in the Orient, the allies are exerting every effort to bring Japan into the western conflict.

A guarantee of a freer hand in the affairs of China is the price offered for the Mikado's troops. The younger statesmen are said to have welcomed the proffer with enthusiasm, but the more conservative are dubious.

Effect on Tsing-Tau.

The effect of such a move on the status of Tsing-Tau is problematical. Japan has insisted that her only intention is to restore the territory to China, but this, it is learned, will be done only under a rigid agreement that China shall cede no more territory to any European power.

Failing this undertaking from China, Japan will proclaim her title to Tsing-Tau in perpetuity. Japan's announcement following the fall of Tsing-Tau made no admission of British influence in the future of the province.

A Herculean Task.

To carry 200,000 troops to the Russian battle front by way of the trans-Siberian railroad, Japan would have to perform the Herculean task of transporting them nearly 800 miles across the Sea of Japan to Vladivostock and then 5,500 miles over a single track railroad. This movement will have to be made in the dead of the Siberian winter and would require at least until the late spring to accomplish.

To reach France the Japanese would have to use the Panama canal, to which she has a right for transporting soldiers or warships under the treaty.

Claim Russians Advance.

London, Nov. 9.—The German and Austrian armies are on the defensive both in the East and West. They have at least for the present given up their efforts to break through the allied lines around Ypres, in Belgium, where the British and French have taken the offensive and, according to the reports from French headquarters have commenced to advance, and in the East they have fallen back to and over their own frontiers in East Prussia, and in Poland have crossed the border, while the Russian cavalry has penetrated Silesia, to the north of Kalisz, and cut the German railway

The Russians are following up their advantage in Galicia and, it is said, have succeeded in cutting the retreating Austrians off from Cracow, and the German army is retiring through Poland. In fact, at only one point on the two battle fronts do the Germans claim success. That is to the west of the Argonne region, where the German emperor's forces have succeeded in taking from the French an important height near Vienne-Le-Chateaux.

Elsewhere the French troops have made progress and retaken the positions which they had lost during the course of the week. This is notably so in the Aisne valley around Soissons, where they have regained the ground which the Germans, by fierce assaults, had taken from them.

Belgians Claim Progress.

The Belgians, who are holding the line reaching to the coast, also have made progress and it would thus seem the Germans are waiting for additional reinforcements before renewing their attempt to smash through to the French seaports.

While the reports of the allies' offensive in the West have given hope in London that the Germans will fall back to a line further removed from the sea, all uneasiness has not passed, for they have shown wonderful recuperative powers. The presence of the Russians in East Prussia and Silesia, however, although the latter are only cavalry, it is believed here, will prevent the Germans from sending any more troops to the West, for it does not then compel them to withdraw some of their troops from that front.

Greece Near War.

Nothing of first class moment has occurred up to the present in the near east, but Turkey is being attacked in isolated spots by the Russians and British, and the Turks apparently are coming very close to war with Greece, that situation having been aggravated by the sinking of a Greek steamer by the Turks and the threatening of Greeks in Asia Minor.

Neither Bulgaria nor Roumania has made any move as yet.

The Union defense force continues to round up the rebels in South Africa.

Would Destroy Russian Army.

London, Nov. 9.—"It is asserted in Berlin that Germany and Austria-Hungary now have concentrated about 3,000,000 soldiers on the line from Thorn to Cracow and this is considered sufficient to crush the Russian forces," says a dispatch from Copenhagen to the Times.

London, via Paris, Nov. 7.—The French government has followed Britain's initiative by declaring that a "state of war exists between France and Turkey," according to the Bordeaux correspondent to the Havas agency. He says that the foreign office issued the following note:

Action Is Explained.

"The hostile acts of the Turkish fleet against a French steamer, causing the death of two Frenchmen and serious damage to the ship, not having been followed by the dismissal of the German naval military missions, the measure whereby Turkey could disclaim responsibility, the government of this republic is obliged to state that as a result of the action of the Ottoman government a state of war exists between France and Turkey."

No Decision in Flanders.

No decision has been reached in the battle in the sand dunes of west Flanders, and the opposing armies now stand virtually as they have stood for many days. While the Germans keep hammering away at the allies around Ypres, which route they chose for their march to the coast after they had found the road along the sea barred to them, and the allies are making an effort to move northward to Ostend, neither side has gone very far.

The Belgians and those supporting them have found that the floods which they created to stop the German advance are a hindrance to their own movements, although they have been able to occupy some villages, including Bixschoete, which had been in the possession of the Germans.

Allies Say Germans Fail.

Around Ypres the German offensive, according to the accounts of the allies has met with no success. In fact, it seems that along the line there has been merely a repetition of artillery duel and of infantry attacks and counter attacks, which sometimes succeed, but more often do not.

On the frontier in the East more wide sweeping movements are being made by the opposing armies.

The Russians, from all reports, have driven back the German center to the River Warthe in Russian Poland, have held back a German offensive movement from East Prussia, and now are straightening out their line for a more vigorous offensive against the Austrians, who have been trying to beat their left wing in Galicia.

British Look to East.

It is to the battles in these regions that the British military men are looking, for they declare that if the Russians can keep up their successful fighting against the Austrians and Germans relief will come to the allied armies in the West, because of the necessity for a withdrawal of German army corps from France and Belgium to protect Silesia and East Prussia.

Berlin Blames Floods.

London, Nov. 5.—That the German army has abandoned its attempt to push its way along the Belgian coast to Calais is agreed by all the official reports. A combination of inundated country, the remnant of the Belgian army under King Albert and the activity of the British warships seemingly all contributed toward ending the costly struggle.

A Berlin official report states that failure of the German movement is due entirely to the flooded state of the country where the water in places is over a man's head, but it declares that the army of Emperor William withdrew in good order and without losses. After nearly three weeks of desperate fighting the brunt of the attack now has shifted to the Ypres region.

In the Ypres district the British army of Field Marshal Sir John French reinforced by Indians and territorials apparently must meet another onslaught. To the scene of this contemplated battle, according to reports, Emperor William has gone to give encouragement to his men by his presence.

British Smash Turk Base.

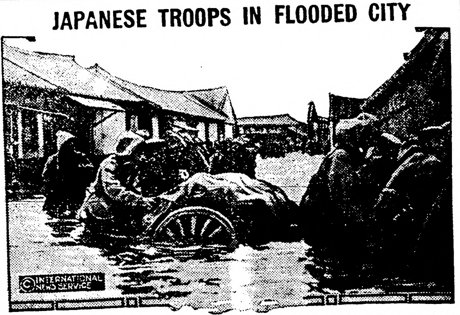
The British cruiser Minerva has smashed the Turkish base of operations against Egypt at the head of the Gulf of Akabah. The Turkish ambassador in London has as yet made no arrangements to leave and the embassy still maintains a conciliatory attitude.

The closing of the North Sea to all shipping except that which places itself under the protection of the British fleet, is recognized as the first stroke of Admiral Baron Fisher, the new first sea lord of the admiralty, and as one of the most important events of the war.

All cargoes destined for German or Austrian consumption must now run the gauntlet of British inspection in the English channel, the Straits of Gibraltar or the Suez Canal.

The making of the North Sea a military area already has brought adverse comments from Germany. The Cologne Gazette claims that Great Britain virtually has proclaimed a blockade of the North Sea which its fleets will be unable to enforce.

JAPANESE TROOPS IN FLOODED CITY



Just before the arrival of the Japanese troops in the leased territory of Kiauchau there were heavy rains that inundated the country. The picture shows Japanese soldiers pulling a light field gun through the flooded streets of a Chinese town.

U. S. INTERNS GERMAN SHIP

Cruiser and Supply Ship Stay at Honolulu to Escape Japanese Craft Waiting at Sea.

Washington, Nov. 9.—The little German cruiser Geier, which has been undergoing repairs at Honolulu while a Japanese squadron waited outside the harbor for her to reappear on the high seas has been interned for the war at Honolulu as the time set by the American government for her to intern or leave port had expired.

A small supply ship which accompanied the Geier also was interned. The case of the Geier, a craft of 1,600 tons, aroused much interest. Soon after she dropped anchor in the harbor of Honolulu, about three weeks ago, after a voyage from the Far East, a big and powerful Japanese cruiser, the Hizen, appeared off the Hawaiian coast and anchored outside the three-mile limit. Later another Japanese cruiser joined the Hizen and they seemed determined to wait as long as necessary for the enemy.

Kaiser Decorates Seamen.

London, Nov. 9.—A wireless dispatch here by the Marconi Wireless Telegraph Company from Berlin says: "Admiral Craddock's fleet has been annihilated in the Pacific by the Germans. The losses on our side amounted to only a few wounded and the material damage to our ships was insignificant. On the recommendation of the commander of the cruiser Karlsruhe, Emperor William has conferred the Order of the Iron Cross upon the commanders and all officers, warrant officers and 50 non-commissioned officers and members of the crew of that cruiser."

No Proof of Second Battle.

Valparaiso, Chile, Nov. 9.—No confirmation has been received here of the reports that have been prevalent for the last few days that naval battles have taken place off the coast of Peru and off Coquimbo, Chile. Both reports are considered baseless.

Turkish Fleet Is Active.

Berlin, via Amsterdam, Nov. 7.—An official dispatch from Constantinople states that the Turkish fleet has bombarded the Russian port of Batoum on the Black Sea and caused damage. Batoum is the chief Russian port of Trans-Caucasia. It was ceded by Turkey to Russia in 1878. Turkish naval authorities have seized in the harbor of Constantinople thirty-six French vessels, eight Russian vessels and one Belgian steamer.

Idaho Generous; Aids Belgians.

New York, Nov. 7.—Officials of the Rockefeller foundation say that they will in a few days announce a plan for receiving contributions of food supplies for relief of Belgian war victims. The decision of the foundation to accept contributions followed the receipt of the following telegram from the Idaho Falls, Idaho, Club of Commerce: "Would you receive 3 to 10 carloads of noted Idaho potatoes gratis for Belgian relief? Upper Snake valley towns would gladly load them."

British Submarine Sunk.

London, Nov. 5.—The British submarine D5 was sunk in the North Sea by a mine which was thrown out by a German cruiser retreating before the British cruisers. Two officers and two men of the submarine were saved.

Persia Announces Neutrality.

London, Nov. 7.—An official statement here says that Persia has presented to all the powers a note announcing her strict neutrality.

DEFENDS POPULAR REMEDIES

Speakers Says Newspaper Should Investigate Merits of Medicines Before Barring Advertisements.

That an organized attempt has been made to blacken the reputation of the popular family remedies of this country, and to mislead the newspaper publishers into rejecting the advertising of such medicines, was the charge made by Carl J. Balliett, of Buffalo, N. Y., at the convention of the Advertising Affiliation at Detroit.

Mr. Balliett is a director of the Proprietary Association of America, which includes in its membership two hundred firms which make the popular prepared medicines of America.

Mr. Balliett pointed out that it is the duty of the newspaper publisher to refuse the advertising of any fake or fraudulent medicine, just as it is his duty to refuse any fake or fraudulent advertising, but it is not right to shut down on all medical advertising because there have been some fakers, any more than it would be right to refuse to publish all department store advertising because certain stores have made a practice of lying about bargain sales.

Disease and death are mysteries. People who are perfectly well are skeptical. They laugh at the time-worn patent medicine joke, just as they laugh again and again over the many variations of the operation joke —"The operation was a success but the patient died." This so-called humor has perhaps hurt the medicine business with well people, but when the hitherto healthy man feels a severe pain or illness, he immediately wants medicine, and will bless the cure whether it be at the hands of a regular doctor, a homeopath, an osteopath, a Christian Scientist or patent medicine. There is nothing more deadly than disease; nothing more honorable than to cure it.

Mr. Balliett refuted the idea sought to be spread about that patent medicines are unpopular by showing that from 1900 to 1912 the amount of prepared medicines consumed in America increased from $100,000,000 to $160,000,000 annually. He showed that, although the American Medical Association is trying as an organization to exterminate so-called patent medicines, the family doctor, individually, is not fighting them but prescribing them. He estimated that 40% of the prescriptions written by doctors today include proprietary medicines.

The writings of Dr. Harvey W. Wiley, he said, have also aimed to destroy confidence in proprietary medicines; but that Dr. Wiley's ideas are not infallible is shown by cases where his analyses were entirely wrong. Mr. Balliett mentioned a case where, with all the power of the Government, he fought a preparation as being dangerous to health, and was ingloriously walloped.

There has been spread the idea that a clever faker can mix a few useless ingredients and, by smart advertising, sell tons of it and win sudden wealth; whereas, as a matter of fact, the medicine business is notoriously difficult, and, where there has been one success at it, there have been a hundred failures. Any medicine which has no merit cannot live, because persons who are duped into buying it once will not buy it again, and the profit from advertising a medicine can only come from repeat sales to the same, satisfied people. Therefore, any medicine which has been on the market for a number of years, and is still advertised, must have merit behind it to account for its success.

In conclusion Mr. Balliett declared that no newspaper is doing justice to its readers in the matter of medical or other advertising, unless it investigates, not only the wording of the advertisement offered for publication, but the merits of the article advertised. He pointed out that the few newspapers who have been deluded into the policy of barring out medical advertising have adopted this general policy, rather than to form an investigation bureau of this kind which could, in a constructive and useful effort, investigate and decide what is a good product and what is a fraud, in not only the medicine business, but in every other business which advertises its wares to the public.

The audience seemed to agree with Mr. Balliett's ideas on the subject and the chairman decided the question at issue in his favor.

How You Will Enjoy Reading by the Rayo Lamp

For Best Results Use Perfection Oil

No tired eyes or eye strain from its soft yet brilliant, steady glow, which floods the center table so that all the family has a *good light* by which to read, sew or study.

Experts everywhere agree that the light given by a kerosene lamp is best for the eyes.

3,000,000 middle western homes say there is no lamp like the RAYO—that it gives the most satisfactory light in either city or country homes. Ask your dealer for demonstration. Illustrated booklet on request. (245)

STANDARD OIL COMPANY (AN INDIANA CORPORATION) Chicago, Illinois

WAITING FOR YOU

160 ACRE FARMS IN WESTERN CANADA FREE

Yes, waiting for every farmer or farmer's son — any industrious American who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is higher but her farm land just as cheap and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads are Actually Free to Settlers and Other Land at From $15 to $20 per Acre

The people of European countries as well as the American continent must be fed—thus an even greater demand for Canadian Wheat will keep up the price. Any farmer who can buy land at $15.00 to $30.00 per acre —get a dollar for wheat and raise 20 to 45 bushels to the acre is bound to make money—that's what you can expect in Western Canada. Wonderful yields also of Oats, Barley and Flax. Mixed Farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada but there is an unusual demand for farm labor to replace the many young men who have volunteered for service in the war. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada; or to

I Want Some U. S. Cartridges

U. S. Cartridges have won more Government tests than all other makes combined. World's Championship Rifle Teams habitually use U. S. Cartridges.

The U. S. Primer is different. Instead of being a mechanical mixture of fulminate of mercury and ground glass, the U. S. Primer is a strictly chemical mixture that combines uniformly and makes a uniform explosion—one cartridge acting just like the others—quick, regular and with an unvarying accuracy of bullet flight.

A non-mercuric primer means a hotter primer flame because it contains no heat-absorbing ground glass. A hotter primer flame means quicker powder ignition and more driving power. The U. S. Primer sends no glass to grind the rifling of your gun, and contains no mercury to make the cartridge cases brittle.

All Government-made cartridges are required to have this type of primer.

U. S. Cartridges will improve your marksmanship, at least to the extent of hitting where you aim.

Leper Asylum.

The Kwnanju asylum, Korea, has grown from an old tile-kiln where the first leper patient was housed five years ago. She had been found on the roadside, almost dead, with worn and bleeding feet, and was taken into the warm tile-kiln and fed and taught. Then followed a little wooden building of three rooms which the missionaries paid for from their own pockets. This has been displaced now by a suitable asylum, the gift of the Mission to Lepers. It will care for 100 patients. Doctor Wilson writes: "I am taking them out of the snow every day now, and we shall soon reach the 100 limit."

EASY WAY TO CLEAR BAD COMPLEXIONS

Pimples and blackheads disappear, red, rough, blotchy complexions become clean, clear and velvety, and hair health and beauty are aided by the regular use of Resinol Soap and a little Resinol Ointment. They do their work easily, quickly and at little cost, even when other methods fail.

Resinol Ointment and Resinol Soap stop itching instantly and speedily heal skin humors, sores, wounds and chafings. Sold by all druggists.—Adv.

ALLIES INVADING FATHERLAND AT 3 DIFFERENT POINTS

ASSERTED GERMANS HAVE FAILED TO BREAK DEFENSE LINE IN FRANCE AND BELGIUM UP TO PRESENT TIME.

RUSSIANS REPORT ADVANCES AND RETREAT OF TEUTONS

Muscovites Say Kaiser's Men Have Fallen Back Across Frontier Into Their Own Domain—Berlin Reports Plan to Crush Army of Czar With 3,000,000 Men.

London, Nov. 10.—At three points in the area of hostilities—in Silesia, in East Prussia and in Alsace—forces of the allies are now reported on German soil, and for the first time since the outbreak of hostilities conditions seem to presage, in the opinion of British military observers, a reversal of the roles of the contending armies.

200 Miles of Berlin.

Up to the present time, Germany has been fighting, generally speaking, in the territory of its enemies, but now it would appear to be more or less seriously menaced from the east by the victorious armies of Grand Duke Nicholas, the advance guards of which are less than 200 miles from Berlin.

The Russian advance, unless checked, may have an important bearing upon the fighting in the west, possibly compelling Germany to withdraw troops from France and Belgium.

Claim Russians Advance.

London, Nov. 10.—The German and Austrian armies are on the defensive both in the East and West. They have at least for the present given up their efforts to break through the allied lines around Ypres, in Belgium, where the British and French have taken the offensive and, according to the reports from French headquarters have commenced to advance, and in the East they have fallen back to and over their own frontiers in East Prussia, and in Poland have crossed the border, while the Russian cavalry has penetrated Silesia, to the north of Kalisz, and cut the German railway.

The Russians are following up their advantage in Galicia and, it is said, have succeeded in cutting the retreating Austrians off from Cracow, and the German army is retiring through Poland. In fact, at only one point on the two battle fronts do the Germans claim success. That is to the west of the Argonne region, where the German emperor's forces have succeeded in taking from the French an important height near Vienne-Le-Chateaux.

Elsewhere the French troops have made progress and retaken the positions which they had lost during the course of the week. This is notably so in the Aisne valley around Soissons, where they have regained the ground which the Germans, by fierce assaults, had taken from them

Belgians Claim Progress.

The Belgians who are holding the line reaching to the coast also have made progress and it would thus seem the Germans are waiting for additional reinforcements before renewing their attempt to smash through to the French seaports

The fighting Sunday was carried on in a fog, which interfered with the work of the airmen and likewise the artillery

While the reports of the allies offensive in the West have given hope in London that the Germans will fall back to a line further removed from the sea, all uneasiness has not passed, for they have shown wonderful recuperative powers The presence of the Russians in East Prussia and Silesia, however, although the latter are only cavalry, it is believed here, will prevent the Germans from sending any more troops to the West, for it does not then compel them to withdraw some of their troops from that front

The Austrians apparently have sent a stronger force against Servia and have driven the Serbs out of Slavonia. Of what is going on in Bosnia, which the Servians and Montenegrins invaded almost to the capital, Sarajevo, nothing has been disclosed for weeks, but the operations against their northern border must have had an effect on the Servian plans in Bosnia.

Greece Near War.

Nothing of first class moment has occurred up to the present in the near east, but Turkey is being attacked in isolated spots by the Russians and British, and the Turks apparently are coming very close to war with Greece, that situation having been aggravated by the sinking of a Greek steamer by the Turks and the threatening of Greeks in Asia Minor.

Neither Bulgaria nor Roumania has made any move as yet

The Union defense force continues to round up the rebels in South Africa

Would Destroy Russian Army

London, Nov 10 "It is asserted in Berlin that Germany and Austria-Hungary now have concentrated about 3,000,000 soldiers on the line from Thorn to Cracow and this is considered sufficient to crush the Russian forces," says a dispatch from Copenhagen to the Times

GENERAL SHIFTING OF WORKING ORDER IN LOWER HOUSE

MANY CHANGES IN ORGANIZATION AS CONSEQUENCE OF REDUCED MAJORITY WILL BE FORCED ON DEMOCRATS.

SHIFT OF 12 VOTES WOULD GIVE MINORITY CONTROL

Republicans Likely to Gain Larger Representation on Committees and Progressives Lose What They Had, Due to Election Changes —"Uncle Joe" to Be Back.

Washington, Nov. 7.—Many changes in the organization of the house of representatives will be made when Champ Clark and "Uncle Joe" Cannon once more face each other across the center aisle at the beginning of the next congress. The dwindling of the Democratic majority, which will drop after the close of the December session from 40 to 24 will necessitate a general shifting of the working order in the house.

Perfect Organization Necessary.

With their slender majority, the Democrats, while able to re-elect Speaker Clark and retain control of the committees will be forced to maintain an almost perfect organization. With a full attendance in the house a shift of 12 votes would thrown the control to the minority side.

Practically complete returns give the Democrats 229, Republicans 196, Progressives 7, Socialists 1, Independents 1, and doubtful 1. This would give the Democrats a plurality of 33 over the Republicans and of 24 over the combined opposition.

This narrow margin will probably result in a rearrangement of committee representation, the Democrats now holding overwhelming majorities in all of the standing committees. The falling off of the Progressives from 19 in the present house to 7, probably will cut their committee representation materially, and even may lose them the few important places they hold in the present house.

Kitchin Probable Leader.

Democratic leadership in the House will undergo great changes. Representative Underwood was elected to the Senate and will leave the House at the close of the December session. Representative Kitchin of North Carolina, the ranking Democrat on the ways and means committee, will claim the Democratic leadership by right of seniority and is expected to have the support of southern Democrats generally.

Representative Mann of Illinois undoubtedly will retain the Republican leadership, facing the Democrats with formidable support. His ranks will include, besides former Speaker Cannon, numerous other Republicans who have recaptured the places they lost in the 1912 campaign.

Five Tariff Framers Out.

The election will vacate five of the fourteen Democratic places on the ways and means committee, which framed the Underwood tariff law. Representative Underwood goes to the Senate Representative Hammond was elected governor of Minnesota Representative Mitchell of Massachusetts, who succeeded Representative Peters on the committee when the latter became assistant secretary of the treasury, was defeated at the polls.

Representative Palmer of Pennsylvania surrendered his seat to run for the Senate and was defeated and Representative Stanley of Kentucky sought the senatorial nomination in Kentucky and lost his place. Representative Murdock of Kansas, the Progressive leader and member of the committee, lost his seat in an effort to go to the Senate

Other Committee Changes

Two Democratic members of the rules committee will not return. The labor committee lost two Democrats Four Democratic members of the banking and currency committee failed to be re-elected The Democrats also lost five members who were on the military affairs committee, the Republicans one and the Progressives one. The judiciary committee will be practically unchanged

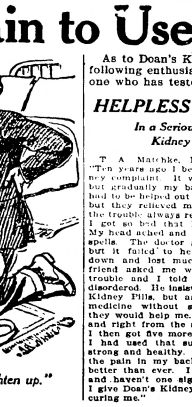
In the Senate the indicated increase in the Democratic majority was welcomed by administration leaders, who have been hampered during the present Congress by the narrow margin of their control.

U. S. Acts For Turkey

Washington, Nov 6 The United States embassy has taken charge over Turkish affairs in London

Kansas City Pens Destroyed

Kansas City, Nov 9 Twenty acres of cattle pens, one third of the local stock yards, were destroyed with a loss estimated at three quarters of a million dollars by a fire that was still burning today Three men were injured by burns and falling timbers While it was impossible then to determine the full extent of the damage it was apparent that the local yards would be seriously crippled in handling the unusually heavy shipments of stock expected here as the result of the quarantine of the Chicago yards



Put That Pain to Use

The network of nerves in your body, like the network of wires in a burglar alarm system, gives quick warning when anything is going wrong inside. Looking at it in this way a pain is a useful alarm. Now, kidney weakness is a dangerous thing—a condition not to be neglected—and it is wise to know and pay attention to the early alarm signals of sick kidneys.

Backache is a common warning of congestion or inflammation in the kidneys. It may be dull, nagging pain, or a sharp twinge when stooping or lifting. There are likely to be disorders of urination, dizziness, headaches, and drowsy, despondent, tired feelings.

It is very hard to strengthen weak kidneys at first, but neglect invites rheumatic or neuralgic attacks, gravel, dropsy, and fatal Bright's disease.

As a special medicine for weak kidneys Doan's Kidney Pills have been used for years all over the civilized world, and surely are considered reliable. The patient can always help the medicine immensely, however, by dieting lightly, using little or no liquor, tea or coffee, keeping regular hours and drinking lots of pure water.

"Every Picture Tells a Story"

"I can hardly straighten up."

As to Doan's Kidney Pills, read the following enthusiastic endorsement by one who has tested them.

HELPLESS WITH PAIN

In a Serious Plight from Kidney Disorders

T. A. Matchke, Hillsboro, N. D., says: "Ten years ago I began to suffer from kidney complaint. It wasn't very bad at first, but gradually my back got so lame that I had to be helped out of bed. I wore plasters, but they relieved me only temporarily and the trouble always returned worse than ever. I got so bad that I couldn't do anything. My head ached and I had dizzy and nervous spells. The doctor gave me some medicine but it failed to help me. I was all run down and lost much weight. One day a friend asked me what seemed to be the trouble and I told him my kidneys were disordered. He insisted on my taking Doan's Kidney Pills, but as I had tried so much medicine without success, I didn't think they would help me. I got a box, however, and right from the start they benefited me. I then got five more boxes and by the time I had used that supply my kidneys were strong and healthy. The headaches left me, the pain in my back was cured and I felt better than ever. I now weigh 181 pounds and haven't one sign of kidney complaint. I give Doan's Kidney Pills all the credit for curing me."

SOME TERRIBLE WAR BILLS

That of the United States Government Heads the List in Point of Size.

The wars of Napoleon in 13 years cost France $1,000,000,000 writes Wendell Phillips Dodge in Leslie's. Our Civil war expenditures of the Civil government amounted to $3,400,000,000, or nearly thirteen times as much a year as Napoleon's. The Franco-German war cost France $1,580,000,000, besides an added war indemnity of $1,000,000,000. This same great war, which lasted only 190 days, cost Germany $450,000,000 for an average fighting force of 1,250,000 men. The other big European war of the past half century, the Russo-Turkish war, cost Russia $786,140,000, but she had two years' fighting for her money. The war in the far East cost Japan $650,000,000 and Russia $723,000,000, not counting lost ships. Only toward the end had either side anything like a million men in the field. Italy's little war with Turkey cost $400,000 a day, allowing for a mere 60,000 fighting men; and the Boer war, in which England's army averaged 200,000, cost $1,055,000,000 in two and a half years.

Cub's Faux Pas.

This may be a base libel on an honored profession, but it is told by the man who perpetrated the faux pas. He was a reported for a Baltimore paper—or had been one for about an hour, this being his first experience in newspaper work—when the city editor send him out to see Cardinal Gibbons. The "cub" rushed down to the modest white house where the venerable prelate lives, says the Philadelphia Evening Ledger, and rang the bell. A man servant opened the door.

"Is the cardinal at home?" asked the reporter.

"No, sir."

"Oh, Mrs. Gibbons will do," ejaculated the "cub."

Have Best War Hospital

The Red Cross hospital of 200 beds near Torquay, established by American women, is said to be the best arranged war hospital in England, according to Sir Frederick Treves, the distinguished surgeon The organization, which has at its head wealthy Americans like Mrs John Astor, Lady Paget and others, has appropriated $25,000 for motor ambulances Funds are ample to maintain the hospital for another year it is said

A REBELLION
Food Demanded

The human body will stand [illegible] abuse, but sometime it will surely rebel and demand proper food in place of the pasty, starchy, greasy stuffs on which it has been made sick

Then is the time to try Grape-Nuts the most scientific and perfect food in the world

A lady of Washington says: "Three years ago I was very ill with catarrh of the stomach and was given up to die by one doctor I laid in bed four months and my stomach was so weak that I could not keep down medicine or hardly any kind of food and was so weak and emaciated after four months of this starvation that my daughter could easily lift me from bed and put me in my chair.

"But weak as my stomach was, it accepted, relished and digested Grape-Nuts without any difficulty the first time that wonderful food was tried.

"I am now strong and in better health than for a great many years and am gradually growing still stronger. I rely on Grape-Nuts for much of the nourishment that I get The results have certainly been wonderful in my case and prove that no stomach is so weak it will not digest Grape-Nuts

"My baby got fat from feeding on Grape-Nuts. I was afraid I would have to stop giving the food to him, but I guess it is a healthy fat for his health is just perfect." Name given by Postum Co Battle Creek, Mich

Look in pkgs. for the famous little book, "The Road to Wellville" "There's a Reason"

Many a man grows gray waiting for a chance that some other fellow has gone out and grabbed.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail. The Paxton Toilet Co., Boston, Mass.

CANCER

Tumors, Lupus, successfully treated without knife or pain. All work guaranteed. *Come, or write for Free Book.* Dr. Williams, Specialist on Cancer 2900 University Av. S. E. Minneapolis.

W. N. U., FARGO, NO. 46-1914.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

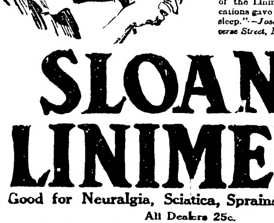
Dr. Pierce's Golden Medical Discovery

which contains no dangerous narcotics or alcohol.

It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anæmic, thin-blooded people, the "Discovery" is refreshing and vitalizing.

In liquid or tablet form at most drug stores or send 50 one-cent stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Read Chapter VII on Circulatory Organs in the "Medical Adviser"—A French cloth-bound book of 1008 pages sent on receipt of 31 one-cent stamps, address as above.



Rheumatism Muscle Colds

"It is easy to use and quick to respond. No work. Just apply. It penetrates without rubbing."

Read What Others Say:

"I have used your Liniment very successfully in a [illegible] always have a bottle on hand in case of a cold or sore throat. I wish to say I think it one of the best of household remedies. I would not have used it only it was recommended to me by a friend of mine who, I wish to say, is one of the best boosters for your Liniment I ever saw."—*J. W. Fuller, Denver, Col.*

"Just a line in praise of Sloan's Liniment. I have been ill nearly fourteen weeks with rheumatism, have been treated by doctors who did their best. I had not slept for the terrible pain for several nights, when my wife got me a small bottle of the Liniment and three applications gave me relief so that I could sleep."—*Joseph Tamolyn, 616 Converse Street, McKeesport, Pa.*

Edgewood school, dist. 28, have a basket social to-night, Nov. 20th.

Dr. Turley, the dentist, will be at the hotel, again, Monday Dec. 7th.

Try the New Lunch Room next time you are in Holt.
C. W. Latta Prop.

We are informed the Synod church people have given up the auction, previously planned for Thanksgiving Day

A partition has been put in the M. W. A. hall so as to make it easier to heat the room for the primary pupils.

There will be a dance in the Star Hall Wednesday evening Nov. 25th. Good music will be furnished and all are invited. 20

Misses Emma Dahlman and Annie Lindstrom of Alvarado visited a few days, the past week, at the Chris Saastad home.

The noise of the new feed mill is good music to both town and country people and is another industry added to our town.

B. L. Backe and Jno. Alkenbrack went to Warren Friday after a Buick auto which Mr. Backe sold to Mr. Alkenbrack.

The contract for furnishing the steam heating plant for the new school house has been let to [illegible] Johnson of Warren for $2867.00.

Don't forget to attend the basket social in Dist. No. 112, on Saturday evening November 21, Miss Saastad, Teacher. Everybody welcome.

Be careful and do not eat too much turkey next Thursday, and be thankful for the blessings that God in his wonderful love and mercy has given you.

Jacob Nelson and family moved here Monday from Crookton and took charge of the restaurant at once. The Mickelson family have moved into the Iverson house for the winter months.

A number of young folks gave a surprise party at the pleasant home of Fred Ewald, last Saturday evening. Everyone enjoyed themselves until the wee hours of the morning, and then returned home with drowsy eyes, but "we should worry."

Messrs C. H. Gunheim, [illegible] Johnson and E. R. L. Rodman and their families were Sunday guests of the Gunder Sorter family. An enjoyable time was had by all present not departing for their respective home until night.

Among the many things you can be thankful for is one that you live under a government for the people, of the people and by the people and that no crowned head can declare war and cause you to fight, whenever he takes a fancy or has a quarrel.

There will be a basket social and entertainment in the East Valley School, District No. 148, Saturday, Nov. 28. The proceeds to be used for the benefit of the school. Everybody welcome.

Teacher, Agnes [illegible]

Mr. and Mrs B Docken entertained a little company of friends at a turkey supper Tuesday evening in honor of their little son [illegible]'s first birthday. A very enjoyable evening was spent and the guests departing at almost midnight voted Mr and Mrs Docken as hospitable entertainers.

Southeast of Holt.

Winter is here again with its cold sharp weather.

The Ladies Aid of the Free Church will have their sale on Thanksgiving day Nov. 26th at the home of S. G. Moe. Parcels will also be sold and lunch served. Sale commences at 1.30 P. M. All are welcome.

Mr. G. Michaelson made a business trip to Middle River on Thursday.

Harry Moe made a trip to T. R. Falls last Thursday to have some dental work done.

Mr. Hoff of Middle River who broke one hundred acres of land on the Gobler farm in town of Agdar, had his rig pulled home on Thursday of last week.

There will be a basket party in N. Sordahl school house Dist. 112 on Saturday evening Nov. 21 Everybody is cordially invited.

Mr. Paul Quindlog called at the home of G. Mickaelson last Tuesday.

Gunda Moe returned to her home on Monday after a two weeks visit with her sister Mrs. Clarence Larson of Golden Galley.

Gilbert Michaelson and family are busy moving into the Ole Nelson's house where they will reside during the winter.

Thanksgiving Ball in the Star Hall, Wednesday evening Nov. the 25th. Come one, come all and enjoy the ball.

Fur coats are in evidence these frosty morns.

Ole Ellingson has completed his new house and moved his family into it the first of the week.

Mrs. Adolph Sollom was an over Sunday guest of her sister, Miss Myrtle Thomas at T. R. Falls.

Only eighteen votes were cast at the school election Friday evening but they were all for the bond issue.

The man or woman who is always busy, does not have time to watch for the faults of their neighbor's.

The frame work for the second story of the school house has been raised and inclosed and the work is being pushed as rapidly as possible.

The tail end of a snow storm and a cold wave seems to have struck this country and we have received warning that winter will soon be here.

More cattle [illegible] shipped out from here of late but we hope none will be shipped in until the terrible foot and mouth disease which has been raging in several states, has been wiped out.

Roy Von D[illegible] has been employed here on the section for a short time moved his family here from T. R. Falls the middle of the week. They will occupy the smaller of the section houses.

We noticed a dealer advertising coal all summer. Some are now advertising corn binders. If business men would advertise seasonable merchandise and change their ads frequently they would have no kicks coming.

RUSSIANS AGAIN HOLD CENTER OF STAGE

TREMENDOUS BATTLE DEVELOPING THERE AS RUSSIANS ARE PUSHING GREAT ENVELOPING MOVEMENT.

Entente Hope Teuton Reinforcements Will Be Dispatched from West to Eastern Germany—Vienna Admits Evacuating Eastern Galicia Before Czar's Army.

London, Nov. 17.—After four weeks of most desperate fighting there is a lull in the battle in Flanders. With this lull, however, has come little relief for the men in the trenches, as the artillery and rifle fire, to which they have been subjected with hardly any intermission, has been replaced by one of those severe storms which so often accompany November in this latitude.

Proportions of Blizzard.

In some parts of England the storm has reached the proportions of a blizzard; on the sea a heavy gale rages and the battlefields are getting their full share of wind and rain. For the most part the opposing armies have been content to shell each other at long range, but the Germans have made several attacks around Ypres which, according to the French general staff, have been repulsed with heavy losses.

Despite these losses it is not believed the Germans have any intention of giving up their attempt to reach the French coast, and the allies are making elaborate preparations to block any further advance in force.

Defense Works Pushed.

Extensive defense works have been erected along the Yser canal, and the French armies are holding that line from the Belgian border south to the River Oise and pushing forward approach works which place them in a better position for either defense or offense.

The Germans report they have taken a few hundred British and French prisoners, but that the unfavorable weather has impeded their progress.

Concerning the fighting around Dixmude, the public must rely on unofficial reports. Here, it is said, the Germans are finding the destroyed village a death trap. They have been unable to debouch from this point in the daytime as all the approaches are commanded by the allies' guns and night attacks have met with disaster.

Neither Side Can Advance.

The fact is apparent that neither side has been able to make any sensible advance, both being so well entrenched that neither artillery nor infantry can move them.

The Germans are turning Belgium into a fortress, which means that if they do not succeed in advancing they intend to be prepared for a winter in Belgium. The whole coast from Ostend to the Dutch border has been placed in a state of defense, and civilians are rigorously excluded from that area.

Fighting in East.

Fighting continues in east Prussia and other regions in the eastern area between the Russians and the Germans and Austrians, but without any decisive result, acording to the Berlin official statement.

A battle of some proportions is going on between the Russians and the Turks at Koprukeui, in the Caucasus, the result of which may have a marked effect on the war in that part of the world. Elsewhere in the near east there has been no engagement of importance.

Bulgaria also has set at rest the report that she had an agreement wth Turkey, and has issued a statement that no such agreement exists.

Great Battle Developing.

London, Nov. 16.—While the battle in west Flanders continues to hold public attention because of the desperate character of the fighting, the numbers of men engaged and the territory at stake, military men now look upon east Prussia as the center of gravity of the war.

In the latter field of operations a tremendous battle is developing. The Russians are pushing vigorously a great enveloping movement. They are engaged with the Germans along a wide curve of 150 miles from Stalluponen, in the northeast, through Goldap and Kruglanken, which is well within the tangle of lakes, down to Soldau in the southwest.

Military observers say the Germans apparently have checked their retreat in Poland and by counter attacks are endeavoring to create diversion. They say, however, that the Russians are not to be turned from their plan, which is believed to be an attack on Danzig. They argue that the Germans either must allow east Prussia to be overrun a second time or bring up reinforcements and that they can hardly weaken their army along the Polish frontier, for that would leave Posen and Silesia open to invasion.

Allies Hope for Sacrifice.

The allies naturally are hoping an effort will be made to relieve east Prussia at a sacrifice to the German armies in Belgium and France.

In any fighting in their own country the Germans will have the advantage over the Russians as they have a network of strategic railways to move their troops quickly and they use motors to a larger extent than their opponents. Military men are watching operations in this region with deepest interest.

Vienna admits the Austrians have evacuated eastern Galicia, but as an offset to this says the Servian resistance has been broken and the Austrians have crossed the Danube, driving the Servians back into their own country.

Vienna also reports that the Austrians have turned their attention to the Montenegrins and are endeavoring to force them back. According to a Montenegrin report they have failed. Accounts from this part of the world are so contradictory, however, that the only thing clear is that the Austrians, by sending up reinforcements virtually have cleared their country of the enemy.

War Costly for Britain.

Great Britain is beginning to learn the cost of the European war. A White Paper, just issued, shows that the government intends to ask parliament for $1,125,000,000, which, with the $500,000,000 voted at the last session, is expected to be Great Britain's bill for the fiscal year ending March 31. Of this sum, however, a small part has been lent to Belgium and Servia, and some will be used to assist the dominions and the allies to make their financial arrangements.

May Be Turn of War.

Paris, Nov. 14.—The high tide of battle on Belgian field has passed, according to information from French official sources. German might has failed as yet to win the way to the English channel. The statement from the Bordeaux war office announces that the fighting from the French border to the North sea has become less violent, a circumstance which previously marked the passing of each of the successive battles.

Particular interest was attached to the French announcement for the reason that the battle in Belgium was considered by both sides as probably marking a definite turn in the general course of the war.

The French statement asserted that all attempts of the Germans to cross the Yser canal were checked. These attempted advances were made at the western outlet from Dixmude.

Russians Still Winning.

The Germans, according to Petrograd dispatches, have suffered a more serious defeat in East Prussia than the official statements have disclosed. Advices from the Russian capital said that in the recent fighting there the Russians captured more than 20,000 prisoners, together with quantities of guns and munitions.

The Russian army, under General Rennenkampff, is fighting its way into east Prussia and has taken Johannisburg, which is on the railway from Lyck to Soldan, both of which towns are in Russian hands. This gives to Russia the control of an important railway line, which skirts the frontier in German territory and several branch railways running into the interior.

The central army, which drove the Germans back from the Vistula, has had only unimportant engagements, but it is known to be pushing forward to the borders of Posen and Silesia, which the Germans are crossing.

The Russian left wing has followed the Kielce railway to the Austrian frontier, and is within a few miles of Cracow, the siege of which is imminent.

The southern army, under General Ruzsky, is at Rzeszow, between Przemysl and Cracow, and its crossing of the San river is being opposed by the Austrians. Another detachment continues the siege of Przemysl, while another is operating against the Austrians who are holding the passes of the Carpathians.

The army of Armenia, whose base is on Kars, Transcaucasia, is approaching the Turkish fortress of Erzerum.

The manner in which Grand Duke Nicholas, the Russian commander-in-chief, is wielding these armies and the mobility they are showing is the subject of admiration on the part of military men here.

Austrians Divisions Annihilated.

A message from Bucharest, according to an Exchange Telegraph company dispatch from Rome, says two Austrian divisions have been annihilated along the river Pruth.

Conclusion of Military Men.

As a matter of fact, military men here believe the Germans, as soon as they saw it was impossible to carry out their design of capturing Warsaw, dispatched troops from that region to the west, not imagining that the Russian pursuit could be carried out with the rapidity with which it has been.

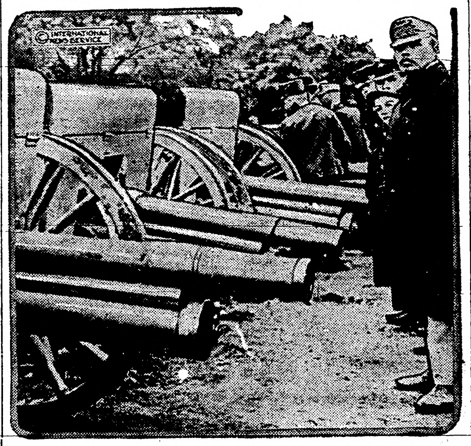
Marks Invasion of England?

London, Nov. 13.—The official press bureau announces that H. M. S. Niger has just been torpedoed by a German submarine in the Downs and foundered. All her officers and crew were saved. Four men were injured.

The sinking of the Niger is declared to mark the opening of the threatened attack on the English coast by German submarines. The Downs is a section of the Kentish coast just south of the headlands that guard the entrance of the river Thames. It is a protected harbor, made so by the Goodwin Sands and is the nearest point on the British coast line to the French port of Calais.

The Niger was a comparatively unimportant unit in the British fleet. Classified as a torpedo gunboat she was used with her sister ships Circe, Hebe, Jason, Leda, Speedy and Antelope in mine sweeping fisheries protection. She was of 810 tons register, 230 feet long and drew only 12½ feet. She carried two 4.7 inch guns and four 3 pounders and was fitted with three 18-inch torpedo tubes.

CAPTURED RUSSIAN GUNS IN VIENNA



CRUISER AUDACIOUS SUNK

Third Largest and One of Newest Ships of English Fleet Hits Mine Off Coast of Ireland.

New York, Nov. 17.—Reports of disaster to the British super-dreadnought Audacious, which have persisted ever since the White Star liner Olympic, diverted from its course, arrived at Lough Swilly on Oct. 29, are confirmed in mail advices received by the Associated Press from a point in Ireland.

Less Than Two Years Old.

After a career of less than two years the Audacious, costing $10,000,000, of the King George V class, third in tonnage and armament of his majesty's warships, lies at the bottom of the ocean off the north coast of Ireland. It was hit by a torpedo, or more probably disabled by a mine, just before 9 a. m., Oct. 27.

With the possible exception of one or two men, the crew of 800 officers and men was rescued by small boats from the Olympic.

Knit Socks at Theater.

Washington, Nov. 12.—Mrs. Thomas F. Walsh, widow of the Colorado mining millionaire, and Mrs. Garrison, wife of the secretary of war, are acclaimed as leaders of a new fad for society. Last night they sat in a box at a local theater and armed with knitting needles, spent the intermissions making the needles click in knitting socks and mufflers for Belgian war refugees. The other women of the relief corps here are urging women to so use their spare time.

Yale Mourns Campus Policeman.

New Haven, Conn., Nov. 13.—Impressive funeral services for James E. Donnelly, Yale's popular campus policeman for 20 years, were held in Battel Chapel. Rev. Anson Phelps Stokes, secretary of Yale Corporation, conducted the services. Every seat in the chapel was filled, the undergraduates attending in a body. Former President William H. Taft, former President Timothy Dwight of Yale, President Arthur T. Hadley and faculty members also were in attendance.

Reserve Bank Rates Fixed.

Washington, Nov. 16.—After a long consideration the Federal Reserve Board decided that the rates to be charged by the Federal Reserve banks for the rediscounting of commercial paper should be not greater than 6 per cent. They can be changed by the board later if they prove unsatisfactory. The rates will not be uniform in the twelve districts. It is understood that the rate will be lower in districts where money is easy, possibly in New York, Boston and Chicago.

Competitors the Only Ones That Complain About the Use of White of Egg in Baking Powder.

A number of unscrupulous Baking Powder Manufacturers vigorously complain about the use of albumen—white of egg—in the production of Calumet Baking Powder, veiling the **real** reason for their malicious attack beneath a contention that the dried white of fresh hens' eggs is an adulterant.

This assault against the white of egg, a product which everyone knows is pure and wholesome, is so absurd and unjust it has not only been roundly ridiculed, but severely criticised by many eminent editors.

White of egg is not only one of the most desirable, but one of the **most expensive** ingredients employed in the making of Baking Powder.

So naturally the Baking Powder Trust, with all of a trust's greedy desire for excessive profits, feebly attempts to protect its own selfish interests by refusing to **use** albumen and discrediting its use in Calumet.

The cost of white of egg prohibits its use in Cheap Big Can Powders and prompts the manufacturers of these inferior powders to issue intimidating warnings in an effort to even prevent **a trial** of Calumet.

It's a foul fight, an **unfair** fight, against the manufacturers of a product of proven purity and efficiency, and equally unfair to the housewife who allows her judgment to be swayed by false claims. For it deprives her of an absolutely dependable leavener of unexcelled quality—and denies her family the deliciously tender and perfectly wholesome bakings that can be produced with Calumet Baking Powder.

There can be no doubt as to the purity and desirability of white of egg as a Baking Powder ingredient.

Calumet is sold at a remarkably reasonable price—for less than is asked for Trust Brands—and only a few pennies more than Cheap Big Can Powders. And it is sold under a positive guarantee of money back, every cent of it, if not thoroughly satisfied after a bake-day trial—a guarantee that no other maker of Baking Powder **dares** offer.

Proven Pure. Proven Sure. Economical to buy. Economical to use. Your dealer can supply you—today.

In buying a can of Calumet send the slip found in the one-pound can to the Calumet Baking Powder Co., Advertising Department, Chicago, Ill., and **you** will receive one of their handsome 72-page Cook Books, illustrations in colors, and a book that will be a guide to economy in the kitchen.—Adv.

At the Squag House.

Simeon Ford, hotel man and humorist, said in New York the other day:

"New York's hotels are the best in the world. They put even the hotels of London, Paris and Riviera to blush.

"In fact, after a New York hotel, other hotels seem like the Squag house, where a guest rang in the middle of the night and said:

"'Landlord, the roof's leaking. I'm drenched.'

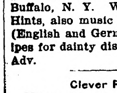
"'Very good, sir.'

"The landlord retired and in a moment was back again with a large washtub.

"'Here you are, sir,' he said. We'll just put this on your chest. When she's full, ring again or yell, and I'll have an empty one ready.'"

SUFFERED FOR FOUR YEARS.

Mr. J. M. Sinclair of Olivehill, Tenn., writes: "I strained my back, which weakened my kidneys and caused an awful bad backache and inflammation of the bladder. Later I became so much worse that I consulted a doctor, who said that I had Diabetes and that my heart was affected. I suffered for four years and was in a nervous state and very much depressed. The doctor's medicine didn't help me, so I decided to try Dodds Kidney Pills, and I cannot say enough to express my relief and thankfulness, as they cured me. Diamond Dinner Pills cured me of Constipation."



Mr. J. M. Sinclair.

Dodds Kidney Pills, 50c. per box at your dealer or **Dodds** Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

Clever Precaution.

Mike, Begorra, an' I had to go through the woods the other night where Casey was murthered last year, an' that they say is haunted, an', bedad, I walked backward the whole way.

Pat—An' what for wuz ye after doin' that?

Mike—Faith, man, so that I could see if anything wuz comin' up behind me.—London Tit-Bits.

3 MORE BRITISH CRUISERS CLAIMED DISABLED; 1 LOST

HOUSE OF COMMONS HEARS RUMORS OF DISASTER TO BATTLESHIP CANOPUS, A HIGH POWERED VESSEL.

ADMIRALTY SCOUTS REPORT, BELIEVING SHIP IS SAFE

Berlin Declares Falcon, Brilliant and Rinaldo Have Been Put Out of Commission Temporarily By German Guns On Coast of Belgium.

By International News Service.

London, Nov. 17.—Reports that the British battleship Canopus had met with disaster were scouted by Winston Spencer Churchill, First Lord of the Admiralty, in replying to questions put to him in the House of Commons. Mr. Churchill declared that he believed the Canopus to be safe.

Inquiries As to Canopus.

At the time of the recent British defeat off the Chilean coast many inquiries were made as to why the Canopus had ont been with the Good Hope and Monmouth.

The Canopus has a displacement of 12,950 tons, a draught of 26 feet, 13,500 horsepower; her keel was laid in 1897 and it was completed in 1900 at a cost of $3,466,064. Her admament consisted of four 12-inch guns, twelve 6-inch guns, twelve 12-pounders and eight 3-pounders. She also carried four torpedo tubes, was capable of 18 knots and hour and had a complement of 700 men.

British Cruisers Disabled.

Berlin, Nov. 17.—A dispatch from Geneva reports that the British cruisers Falcon, Brilliant and Rinaldo have been disabled by German guns on the Belgian coast.

Russia Bars All Liquor.

Petrograd, Nov. 17.—Prohibition, not only of vodka, but of light wines and beer, has become absolute in Russia. Grand Duke Nicholas, the Russian commander-in-chief, has overridden the decision of the council of ministers favoring the sale of beer and light wines and has now ordered that wherever martial law prevails, the sale of alcoholic drinks of any kind shall be forbidden. This decision was taken because drinking among officers quartered at remote places had not ceased.

Holy War Plea Stirs Moslems.

Berlin, Nov. 17.—Press dispatches received in Berlin describe the proclamation at Constantinople of a holy war as arousing great enthusiasm in the Turkish capital. Huge processions are reported to have paraded the streets, the people making sympathetic demonstrations before the German and Austrian embassies. The news dispatches say it is expected in Constantinople that he Moslems in all countries will make common cause with Turkey in the war.

Russians Almost Upon Cracow.

Petrograd, Nov. 17.—Cracow is momentarily expecting the arrival of the Russian troops, and the Austrian emperor has dispatched an appeal to the Germans to send reinforcements at all costs. Non-combatants have been removed from the fortified area and the inhabitants generally are fleeing from the country. The Russians are now within one march of Cracow from the east.

All Moslems Called to Arms.

Constantinople, Nov. 17.—The sultan has issued a proclamation to the army and navy in which he accuses Great Britain, France and Russia of having instigated the war upon Turkey. He adds: "Not only the fate of our country, but the future existence of 300,000,000 Moslems, depend on your victory." The statement ends with a call to all Moslems to take up arms.

Berlin Claims Argonne Victories.

Berlin, Nov. 17.—(By wireless to London)—An official announcement given out in Berlin says that the German attacks in Flanders are progressing slowly, but that in the Argonne the Germans have obtained further important successes.

War Costly For Britain.

London, Nov. 17.—Addressing the house of commons in moving for an additional vote of credit, Premier Asquith declared that up to Saturday the war had cost between $4,500,000 and $5,000,000 a day over normal expenditures.

Khedive to Lead Egypt Invasion.

Berlin, Nov. 17 (via wireless to London).—According to reports reaching here from Constantinople, the khedive of Egypt will leave the Turkish capital shortly to assume command of the Turkish operations against Egypt. He will be accompanied by a suite of 50 persons. Abbas Hilmi, khedive of Egypt, has been in Constantinople since the outbreak of hostilities. He owes spiritual allegiance to the sultan as the head of the Mohammedan faith. It is said the British government had ordered him not to return to Egypt.

Pelvic Catarrh

I Would Not Do Without Peruna.

Miss Emelie A. Haberkorn, 2251 Gravois Ave., St. Louis, Mo., writes: "For over two years I was troubled with catarrh of the pelvic organs. I heard of Dr. Hartman's book, 'The Ills of Life.' I read it and wrote to the doctor, who answered my letter promptly. I began taking treatment as soon as possible. Tongue cannot express how I suffered. I feel grateful for what the doctor has done for me, and would not do without Peruna. I now enjoy as good health as ever. I find it has improved my health so much that I will recommend it to any one cheerfully."

CAR GOES 28.7 MILES ON GALLON OF GASOLINE

Red Crown Shows Remarkable Test.

Judged by C. A. C. Committee.

Surprising results were obtained Tuesday in Chicago, when, in a distance test on the boulevards, a 1915 big six went 28.7 miles on a gallon of Red Crown gasoline. The test was made to demonstrate the fuel economy of high test gasoline, by the technical committee of the Chicago Automobile Club.

Red Crown gasoline, 58 test, was decided upon by the judges and drivers as the best gasoline to be used. All through the trip the clutch was not slipped, except when traffic congestion made it necessary. The dash adjustment on the carburetor was disconnected, and in order that the test be a fair one, the fan was in operation throughout the run.

Next came the acceleration test. With the carburetor adjustment the same as during the economy run, the car was driven from standing start to thirty miles an hour in 12 4-5 seconds. The flexibility test saw the car run at four miles an hour, then speeded up to forty-four.

The test proves that the six is not an excessive fuel consumer, where the best gasoline is used.

Lots of people are criticized because they don't love their neighbors as the neighbors love them.

DOCTOR KNEW

Had Tried It Himself.

The doctor who has tried Postum knows that it is an easy, certain, and pleasant way out of the coffee habit and all of the ails following and he prescribes it for his patients as did a physician of Prospertown, N. J.

One of his patients says:

"During the summer just past I suffered terribly with a heavy feeling at the pit of my stomach and dizzy feelings in my head and then a blindness would come over my eyes so I would have to sit down. I would get so nervous I could hardly control my feelings.

"Finally I spoke to our family physician about it and he asked if I drank much coffee and mother told him that I did. He told me to immediately stop drinking coffee and drink Postum in its place, as he and his family had used Postum and found it a powerful rebuilder and delicious food-drink.

"I hesitated for a time, disliking the idea of having to give up my coffee, but finally I got a package and found it to be all tho doctor said.

"Since drinking Postum in place of coffee my dizziness, blindness and nervousness are all gone, my bowels are regular and I am well and strong. That is a short statement of what Postum has done for me."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

Marching Orders.

An old Irishman, long desirous of official dignity, was finally appointed marshal in a parade on Memorial day. Veterans, bandmen and school children were lined along the streets of the town patiently waiting the signal to start.

Suddenly Mike, on a prancing charger, dashed up the street. After inspecting the dignified procession he gave his horse a quick clip. Then, standing up in his saddle, he yelled with a voice filled with pride and authority:

"Ready, now! Every one of yez, kape shtep with the horse!"—Everybody's Magazine.

CARRANZA HAS COMPROMISE

WILLING TO QUIT MEXICO IF VILLA WILL LEAVE ALSO.

Agents of Latter Protest Announced Intention of U. S. to Evacuate Vera Cruz.

Mexico City, Nov. 17.—General Obregon received a dispatch from Cordoba saying that General Carranza had made an offer to General Eulalio Gutierres to turn over the military forces to General Gonzales and leave for Havana, to arrive there not later than Nov. 25, if General Francisco Villa would turn over his command to General Gutierrez and be in Havana the same date. The Aguas Calientes convention must meetin Mexico City the day Generals Villa and Carranza arrive in Havana, according to General Carranza's offer.

Villa Protests Evacuation.

Vera Cruz.—General Francisco Villa's agents continued to send messages to their northern chief and to influential members of their faction in protest against the early evacuation of Vera Cruz by the United States forces, alleging that such a step would be manifest support by the United States of General Venustiano Carranza.

The hotels here are filled with refugees. Women and children of the better class are becoming a common sight in their corridors. Many families, once wealthy, but ruined by the warfare, are compelled to remain in Vera Cruz as they are without money to pay their passage abroad.

Just beyond the American lines General Candido Aguilar has only a few men on his outpost positions. Scrupulous care appears to be taken to prevent any friction with the Americans, to speed whose departure Aguilar is said to have begged General Eulalio Gutierrez to join him in an agreement not to begin hosilities until they had departed.

General Higenio and Benjamin Argumendo have not succeeded in capturing Puebla, but have interrupted traffic to that place.

General Carranza's strength at Tampico appears to have been increased by the arrival there of the gunboat Zaragoza and the declaration of Captain Malpica, commanding the vessel, that he was for Carranza. The gunboat was detained by the Constitutionalists at the entrance to the river and her commander compelled to declare for which side he would fight.

All Assurances Given.

Washington, Nov. 16.—Monday, Nov. 23 has been fixed as the date for the evacuation of Vera Cruz by the American forces. Secretary Bryan issued this announcement:

"Both General Carranza and the convention at Aguas Calientes having given the assurances and guarantees we requested, it is the purpose of the administration to withdraw the troops of the United States from Vera Cruz on Monday, Nov. 23.

"All the persons there for whose personal safety this government has made itself responsible have left the city. The priests and nuns who had taken refuge there and for whose safety fears were entertained are now on their way to this country."

PACIFIC BATTLE IMMINENT

German Fleet in Waters off Chile Signifies Engagement Is Near.

Valparaiso, Nov. 16. The "Japanese fleet" reported to have been seen off the Chilean coast appears now to have been a German squadron which is cruising near Valparaiso. The report that Japanese warships had been seen near Punta Carranza was denied officially.

German naval officers deny absolutely that another action besides the battle which occurred between German and British warships on Nov. 1 has taken place off Chile. It is expected here, however, that the British and German fleets may meet again at any moment.

The taking on of provisions by the German cruisers Leipzig and Dresden, which steamed into Valparaiso, was delayed for a short time because of a protest made by British officials to the Chilean authorities. The German minister made satisfactory arrangements with the government and the warships continued to replenish their supplies.

Lorimer Asks Immediate Trial

Chicago, Nov. 14.—Former Senator William Lorimer, under indictment for participation in the wrecking of the La Salle street bank, of which he was part owner, appeared before Judge Kersten and demanded an immediate trial.

Much South American Grain

Washington, Nov. 16.—Argentina, one of the world's principal sources of grain supply, will have a bountiful crop to export the coming year, according to the Argentine ambassador here from Buenos Aires.

Bomb in Tombs Court Room

New York, Nov. 16.—A bomb, somewhat similar in construction to the one that wrecked the entrance to the Bronx county court house last Wednesday night, was found in the Tombs court room, just under the district attorney's offices occupied by Governor-elect Whitman. The bomb contained gunpowder, slugs and bullets. Its fuse was partly burned. George L. O'Connor, policeman, saw smoke from the burning fuse of the bomb, ran to the spot, picked up the missile, and tore off the fuse.

GENERAL HUGH SCOTT

© HARRIS & EWING

GEN. SCOTT HEADS U. S. ARMY

BECOMES CHIEF OF STAFF TO SUCCEED WOTHERSPOON.

Latter's Place to Be Filled by Funston, Now Commanding at Vera Cruz —General Bliss Also Advanced.

Washington, Nov. 16.—Brigadier General Hugh Scott has been selected by President Wilson to be chief of staff of the United States army upon the retirement today of Major General Wotherspoon.

The vacancy of major general created by General Wotherspoon's retirement will be filled by the nomination of Brigadier General Frederick F. Funston, now in command at Vera Cruz.

Brigadier General Tasker H. Bliss will become chief of the mobile army division and upon the retirement of Major General Murray on April 20, 1915, General Scott will be appointed a major general.

General Scott, who became assistant chief of staff when General Wotherspoon succeeded General Wood as chief, graduated from the Military academy in 1875. He has spent all of his military life in the cavalry branch, with the exception of periods when he was engaged in staff or special service.

More closely than any officer of his rank in the army he has been identified with the Indians and semi-civilized wards of the government and a remarkable measure of success has attended his administration.

General Scott spent 17 years in the grade of first lieutenant at lonely western army posts, during the stagnation in promotion which attended the old practice of regimental promotion. This trying experience proved of great benefit to him because through his association with the Indian tribes he became an adept in their various tongues, especially in the Indian sign language.

This special qualification brought him much delicate and difficult service to the great credit of his record. Only about two years ago he earned the great gratitude of the administration by going single-handed into a swarm of angry Indians in Arizona intent on the war path and bringing them to ways of peace.

Most Unique Political Record.

Carrolton, Mo., Nov. 14.—Hundreds of visitors were here yesterday to witness the unveiling of the monument of the state of Missouri to General James Shields in the court house square here. General Shields was the first territorial governor of Oregon, he served a full term as United States senator from Illinois, he was one of the first two senators from Minnesota and he served out an unexpired term as senator from Missouri.

American Nearly Albanian King

Boston, Mass., Nov. 16.—If George Fred Williams, late minister to Greece, had posted $25,000 he would have been king of Albania today. In fact, Mr. Williams asserts that the people begged him to become their ruler. Mr. Williams arrived in Boston Saturday. He wants it understood that he resigned from his office of his own free will and was not in any way asked to quit his job by the United States authorities.

Want More Canadian Troops.

Winnipeg, Nov. 16.—Great Britain has sent another call to Canada for troops. Word received here announces that 6,000 additional men will be sent with the second contingent, which sails in January, bringing the strength up to 21,000, sintead of 15,000 as originally intended. There are 10,000 soldiers drilling here at present.

Millionaire Brewer Killed; Nurse Held

San Antonio, Texas, Nov. 14.—Miss Emma Burgemeister, a trained nurse, at whose home Otto Koehler, millionaire president of the San Antonio Brewing Association, was shot and killed, and who is under arrest, is believed to be in no danger from the wound in her wrist which she is said to have inflicted after the death of Koehler. She is said to have made a statement that the shooting of Koehler was to protect herself and Emma Daschiel, another trained nurse who lived with her.

ACTUAL OPERATION OF NEW CURRENCY SYSTEM IS BEGUN

RESERVE BANKS NOW OPEN FOR BUSINESS AFTER YEAR OF PLANNING BY ADMINISTRATION.

TOTAL CASH RESERVE IS $243,000,000 TO START

Main Aim Is to Give Great Elasticity to Money Market of Country in Order That Panics Such as That of 1907 May Be Impossible.

Washington, Nov. 17.—With the opening of the twelve federal reserve banks, the nation has begun actual operation of its new currency system designed to provide an elastic circulation medium, based upon modern ideas of finance and economics.

Year for Details.

It has taken the reserve banks organization committee and the federal reserve board almost twelve months to work out details of organization to the point where an opening date was chosen. Notwithstanding the careful deliberations which preceded every preliminary step, the twelve banks will not for many weeks take up and exercise all the functions bestowed upon them by congress.

Such evolution as will result from an old national banking system of necessity will in most respects be slow. The reserve board, the guiding spirit of the new system, is itself feeling its way over strange ground and the men in charge of the twelve banks probably will feel the same desire to work slowly and with sureness rather than be venturesome.

Really a Compromise.

The new system is generally conceded to be a compromise between a central bank and the present system with its thousands of units, scattered reserves and fixed limits of currency. Its chief attraction and value, those who interpret it find in the elasticity it will give to recognized paper currency.

Under the present law national bank currency is almost a fixed quantity, based upon national bank capital, issued upon United States bonds and unresponsive to the chill of hard times or the exultation of boom days. Its use led, the experts say, to unrestricted loans and speculation in the days when money was easy and to a hoarding of resources and a tightening of the purse strings of credit when they were hard. It is said to have bred the panic of 1907 when solvent banks with large credits in reserve, and central reserve cities, were helpless and could get back to their own counters none of the millions they had placed with their larger and stronger correspondents.

The New System.

Under the new system the federal reserve notes, which, in time, probably will entirely replace the national bank notes, now so familiar, will be issued upon commercial paper, arising out of actual business transactions. It seems plain that they will rise and fall in amount as the tides of business rise and fall, and that there will be no plethora of money to lie idle. They will be obligations of the United States government, which national bank notes are not and will have back of them a large reserve of gold in the regional banks. Through them the reserve banks are expected to come to the aid of any needy member bank which has plenty of good paper, but needs cash. To further insure the flow of money reserve banks themselves may be required to rediscount the discounted paper of other reserve banks.

More than $250,000,000 of the new notes have been ordered by the comptroller of the currency for the twelve banks. They are in $5, $10, $20, $50 and $100 denominations, and are to be accepted by all member banks and for all customs taxes or other dues. The federal reserve agent of every bank in the system, who is the government's representative there, has these notes in custody ready for the application of member banks.

Reserve of $243,000,000

As it stands, the twelve banks start out with a total cash reserve of about $243,000,000.

The reserve banks are not to do a banking business, except with member banks. They are empowered however, to engage in open market transactions in the buying or selling of cable transfers and bankers' bills of acceptance and bills of exchange.

In the future the clearings of the banks of the country are expected to be made through these regional banks.

Ostriches Stampede; Cause Panic

Phoenix, Ariz., Nov. 14.—Three hundred ostriches stampeded from an ostrich ranch near here and swarmed over a carriage driven by Mrs. L. D. Rosseal, instantly killing the woman and both of the horses she was driving. The huge birds became frightened at something in their stockade. A panic followed on the ranches in the neighborhood and families of ranchmen fled in terror. An alarm was sent out and all the cowboys in the vicinity on fast horses are trying to lassoo and round up the birds.

WESTERN CANADA'S STRONG POSITION

"THE WHEAT GRANARY OF THE WORLD," A WELL APPLIED TERM.

Western Canada occupies a stronger position today than it ever has occupied. Taking one year with another, the efficiency of its lands to produce has been well proved. It has not been said of it that year in and year out there were bumper and bounteous crops. If such a condition existed it would be phenomenal in the history of any country. With an extensive territory producing grain, hogs, cattle and sheep, of some 800 miles wide and 1,000 miles long, it is easy to conceive of a wide variation in temperature and climate; there is variation in rainfall and snowfall; every section is not the best in the district—some are better than others and some worse, but as a general thing, the great percentage is "better." This past year has shown that some portions are not altogether immune from periods of drought. The same may be said of adjoining states to the south. But this year has also shown that in the greater portion of Western Canada drought does not appear, but even in the drought-stricken area of this year, past years have shown that the soil produces wonderfully well and even this year, with modern methods, known as "dry-farming," good crops were harvested. The large number of Americans who during the past sixteen years have been attracted to Canada have not gone simply because of the advertising of that country, but because their friends and their old-time neighbors have done well there, and with careful and judicious farming almost everyone has done well.

As a result of the great influx of immigration the open or prairie homesteading area is being rapidly taken up. The fact that this is so is evidence that Western Canada lands are productive, and on these open plains today are to be seen the homes of successful farmers from almost every state in the Union. They have earned their patents, and now own outright their 160 acres of land, together probably with an adjoining 160 acres, which they have purchased or preempted, all of which is worth from $25 to $30 per acre. They originally started by growing grains altogether, but they found that they could secure a better price for much of their grain by feeding it to hogs and cattle, and the most successful ones are those who have followed this course.

But to meet the wants of the newcomer a new homestead area has been opened up, known as the "park country." In this park country are to be found beautiful groves of poplar and willow, small lakes and streams, with sufficient open area to enable one to go into immediate cultivation of crop, and in due time when they wish more land to be put under cultivation, they may at small cost cut down some of the groves, which in the meantime have been valuable in providing fuel and in giving shelter to cattle.

Notwithstanding the high character of the open prairie lands and the fact that farmers there have realized in a splendid way, there is the opinion backed up by a lot of experience that this parklike country contains soil even better than that of the open area referred to.

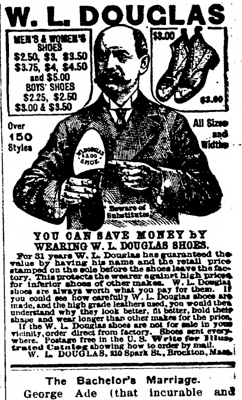
The opportunities therefore, for money making are as great today as they ever were. The opportunities for carrying on farming successfully are fully as great as they ever were. Of this park area we have an immense quantity of land yet to be settled. It is true that the railroads have not yet penetrated these districts to the extent that they have the open area, but this will come and as settlements advance, so will railroads build. For the present there is a temporary lull in railroad building, but it is always the case that where there is a demand there will come a supply, and it will not be long before the park country will be penetrated by railroads that will give sufficient accommodation for all needs, but to those who prefer it there are lots of opportunities for purchasing land nearer towns and villages and at low prices and on easy terms.

Whether one cares to purchase or homestead it can better be done by paying a visit to the country and it will repay you to spend some little time visiting the different districts.—Advertisement.

It is quite possible for a man to simply spread himself without really having any broadening influence.

Most of a college man's education is acquired after he graduates.

W. L. DOUGLAS



YOU CAN SAVE MONEY BY WEARING W. L. DOUGLAS SHOES.
For 31 years W. L. Douglas has guaranteed the value by having his name and the retail price stamped on the sole before the shoes leave the factory. This protects the wearer against high prices for inferior shoes of other makes. W. L. Douglas shoes are always worth what you pay for them. If you could see how carefully W. L. Douglas shoes are made, and the high grade leathers used, you would then understand why they look better, fit better, hold their shape and wear longer than other makes for the price. If the W. L. Douglas shoes are not for sale in your vicinity, order direct from factory. Shoes sent everywhere. Postage free in the U. S. Write for Illustrated Catalog showing how to order by mail.

The Bachelor's Marriage.

George Ade (that incurable and brilliant bachelor) said at a dinner in Chicago:

"I met a friend of mine the other day—a bachelor friend who had recently got married. Giving him a vigorous thump on the back, I cried jovially:

"'Well, old man, no more sock darning now, eh?'

"'No, indeed,' he answered. I've learned, like Jerry Simpson, that straw is just as good as socks any day. You see, since my marriage I've been too busy supporting a wife to dream of touching a darning needle.'"

RESINOL HEALS RAW, ITCHING, SCALY SKINS

No matter how long you have been tortured and disfigured by itching, burning, raw or scaly skin humors, just put a little of this soothing, antiseptic Resinol Ointment on the sores and the suffering stops right there! Healing begins that very minute, and in almost every case your skin gets well so quickly you feel ashamed of the money you threw away on tedious, useless treatments.

Resinol Ointment and Resinol Soap clear away pimples, blackheads, and dandruff. Prescribed by doctors for 19 years and sold by all druggists.—Adv.

That Weak Back
accompanied by pain here or there—extreme nervousness—sleeplessness—may be faint spells—or spasms—all are signals of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering from that change into middle life which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nervine prescribed for just such cases by a physician of vast experience in the diseases of women.

DR. PIERCE'S Favorite Prescription
It has successfully treated more cases in past forty years than any other known remedy. It can now be had in sugar-coated, tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps.
Miss Elizabeth Lordahl of Berkeley, Cal., in a recent letter to Dr. Pierce said: "I was completely broken down in health. I was aching and had pains all over my body and was so nervous that I could scream if anyone talked to me, but I had the good fortune to meet a nurse who had been cured by Dr. Pierce's Prescription. I have never had an occasion to consult a physician since—am in excellent health."
Dr. Pierce's Pleasant Pellets regulate stomach, liver and bowels—sugar-coated, tiny granules

Sec. 18 Holt Twp.

Holt Public School Notes

Harry Heinze commenced school Monday morning.

Selma Saastad has returned to school after a few days illness.

The snow seems to be keeping some of the pupils at home.

It being to cold to play outside, games are played inside conducted by different pupils, new games are taught each day.

Rosie Heinze, Ida Hagglund and Gladys Hagen have a half-holiday for attending school every day last month.

Our motto for this week:

"It is not just as we take it
This wonderful world of ours
Life's field will yield as we make it
A harvest of thorns or
of flowers.

Jacob Gabrielson was a T. R. Falls business caller the first of the week.

Swan Carlson has a young team ~~of heavy geldings or a young team of~~ mares for sale.

Running a business without advertising is like trying to keep warm without a fire.

The cold and snow has somewhat delayed the work on the new buildings being erected.

Do your cows make money for you? Join the contest and find out. It is the biggest thing ever offered the farmer.

Remember the poor newspaper man has to eat and have a fire these cold days, but we are afraid he will have a mighty poor Thanksgiving, unless some of you fellows pay up.

Why is it that we announce from week to week the numerous basket socials that are being held? Because teachers and pupils realize the value of advertising, which some of the business men of Holt, do not.

All but one man has been laid off on both sections and they are compelled to look elsewhere for work, and that too with winter coming on. The railroads company seems to have a faculty of laying off men or keeping them just as they choose and yet some people wonder at the spead of socialism.

The Local Market.

How dear to our heart is the
steady subscriber.
Who pays in advance at
the birth of each year,
Who lays down the money
And does it quite gladly,
And cast round the office,
A halo of cheer.

He never says " Stop it, I
cannot afford it,
I'm gitting more papers now
then I can read,
But always says " Send it, our
people like it
In fact, we all think it a
help and a need."

How welcome his check when
It reaches our sanctum.
How it makes our heart throb,
How it makes our heart dance.
We outwardly thank him,
We inwardly bless him
The steady subscriber who
Pays in advance

They inform us that without previous experience it is possible to make good wages every week. Any one out of employment write them for terms and enclose this notice.116

Notice To The Farmers!

Do you realize you have in your herd of "Cows" what we call Boarders? A Cow that does'nt pay for the feed she consumes. Possibly some make a very small profit but not enough to pay for the work. Others may be paying you a good profit over feed, care, etc. To find out which ones are boarders, join the Testing Association. Contest begins Dec. 1 and if you join with the many who will keep a "Daily Record" of their cows to Dec. 1, 1915, you will be in a position to know which one to sell, when a buyer comes and offers you big prices for a cow he happens to want and trys to make you believe she is not a good milker. Don't believe it. No man can tell a good profit making cow without weighing and testing her milk. Find out your best cows and keep them. Sell the boarders. Remember the dairyman is a winner every time— wars and hard times affect him less than other people.

These are some of my patrons who will begin keeping a daily record on Dec. 1. 1914: P. T. Olson, Chris Sheveland, O. A. Thompson, T. B. Folden, Chas. Heinze, T. O. Dovre, Elvin Arickson, Erick Johnson, G. P. Sorter, John Engstrom and Louis Wegge Let us all join

"You can't edge into my family on that theory, young man. I'm willing to keep on supporting my daughter, but you'll have to pay board."

HOW TO HEAL SKIN AND SCALP TROUBLES

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ringworm, rashes, and similar itching skin and scalp troubles.

At any reliable druggist's get a jar of resinol ointment and a cake of resinol soap. With the resinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage. This should be done twice a day. Usually the distressing itching and burning stops with the first treatment, and the skin soon becomes clear and healthy again.—Adv.

Sprains, Bruises Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof

Charles Johnson, P. O. Box 105, Lawton's Station, N. Y., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your Liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your Liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

All Dealers, 25c.

Send four cents in stamps for a TRIAL BOTTLE

SLOAN'S LINIMENT Kills Pain

FIRING BY TURKS ON LAUNCH OF U. S. HELD NOT HOSTILE

CAPTAINS OF TENNESSEE AND NORTH CAROLINA IN WESTERN MEDITERRANEAN WIRE ASSURANCES.

WARSHIPS WILL NOT BE WITHDRAWN FROM REGION

Vessels to Remain in Vicinity, Ready to Protect Americans in Turkish Cities—No Steps to Be Taken Without Instructions From U. S.

Washington, Nov. 23.—The firing of a shot across the bow of the launch of the United States cruiser Tennessee while it was attempting to enter the harbor of Smyrna, Asiatic Turkey, was not a hostile act in the opinion of the captain of the cruiser. This was made plain in a statement issued by Secretary to the President Tumulty.

Despite the statements of Captain Decker, the entire matter is to be fully investigated and the Turkish government has been asked for its version.

No Additional Information.

Washington Nov. 23.—Secretary Daniels received messages from Captain Decker of the cruiser Tennessee and Captain Omar of the cruiser North Carolina, according receipt of his order that no action be taken by either ship in Turkish waters without specific instructions from Washington.

Neither commander supplied additional information concerning the shots that were fired at the Tennessee's launch at Smyrna several days ago and the state department also still was without advices from Ambassador Morgenthau.

Secretary Daniels said he thought Captain Decker had sent as much information about the incident as was available to him and probably now was waiting to get into communication with Ambassador Morgenthau before sending a complete report. Close examination of Captain Decker's first message reveals that when the launch was fired upon from shore it immediately turned back to the ship, which was several miles away, near Vourlah. From that point it is now supposed Captain Decker reported to Mr. Morganthau what had occurred and took the Tennessee to Grecian waters, 50 or 60 miles distant at the request of the ambassador while the latter endeavored to get in communication with the consul-general at Smyrna to learn the exact cause of the firing.

Whereabouts of Cruisers.

For the present the Tennessee is being held at Chios, while the North Carolina is at Beirut, Asia Minor. The captain of the latter ship, however, sent his message to the Navy Department from Alexandria, Egypt. Both commanders had been asked to acknowledge receipts of Secretary Daniels' orders as officials here were particularly anxious that the naval commanders take no action of their own initiative, the naval regulations giving officers wide discretion ordinarily under such circumstances.

The Tennesse and North Carolina will not be withdrawn from the Western Mediterranean, it was stated at he Navy Department, no matter where the responsibility for the firing lay. The vessels will be kept within easy reach of Turkish ports to afford every possible assistance to Americans.

CALLS AMERICANS GENEROUS

Belgian Attache Just Arriving Declares Big-Heartedness Will Never Be Forgotten.

New York, Nov. 23.—Charles Maskens, recently appointed secretary of the Belgian legation at Washington, arrived aboard the steamship Philadelphia from Liverpool. Mr. Maskens said that when he left Belgium early in November the outlook for the people in his country was anything but favorable for the winter.

"While I am not officially authorized to speak on the subject," he said, "informally I was requested by my government to extend its thanks to the people of America for the prompt and generous response to the cry of a starving people. America's big heartedness never will be forgotten, and the food that is arriving will save many a life."

Mrs. Stonewall Jackson Ill

Charlotte, N. C., Nov. 23.—Mrs. Stonewall Jackson, widow of the famous Confederate general, is critically ill at her home in this city. Se is in her eighty-fourth year.

Explorers Go to Egypt

Philadelphia, Nov. 23.—The University of Pennsylvania has dispatched an exploring expedition to Egypt under the leadership of Dr. Clarence S Fisher, curator of the Egyptian section of the institution. Fear had been felt that, because of the European war, it would not be well to start the expedition at this time, but advices from Egypt were to the effect that there would be neither difficulty nor danger in prosecuting the work. The work of digging probably will start early in January.

EIGHT PERISH IN SUPERIOR

BARGE ANNIE M. PETERSON GOES DOWN.

Fate of Two Other Ships Unknown and Fear Is Expressed—Eight Bodies Washed Ashore.

Grand Marais, Mich., Nov. 23.—Eight persons are known to have perished in the wintry gale which has been sweeping over Lake Superior for the last few days and grave fears are felt that there may have been greater loss of life.

The lumber barge Annie M. Peterson has been wrecked and the steamer C. F. Curtis and the barge S. K. Marvin have not been heard from since the three vessels left Baraga early Wednesday morning for Tonawanda, N. Y. Eight bodies, those of six men and two women, were found on the shore, eight miles from the life-saving station here. As the Peterson carried a crew of anly seven it is believed her consorts also may have met disaster. Storm warnings were displayed and a heavy northwest gale was blowing when the Curtis, towing two barges, left Baraga. That was the last heard of the boats until wreckage from the Peterson came ashore last Thursday night.

Life saving crews in power boats immediately started out to search for more wreckage, but none has been found. There is no indication of other damage to shipping as far east as White Fish point.

The bodies were found about two miles nearer Grand Marais than where the wreckage washed ashore. They will be brought here.

GIRL'S SLAYERS FREE NOW

Last of Trio Who Outraged Then Murdered Paterson Mill Hand Given Liberty.

Trenton, N. J., Nov. 23.—Walter C. McAlister, who, with Andrew Campbell, George Kerr and Walter A. Death, was convicted of drugging and murdering Jennie Bosecheiter in Paterson in 1901, has just been liberated from the New Jersey state prison by the board of prison inspectors. McAlister is the last of the quartet to leave the prison.

Kerr turned state's evidence and received 15 years in prison and he served his full time, taking out the time for good behavior. The other three men were sentenced to 30 years each, but were paroled.

The crime for which the men were convicted was a most brutal one and aroused national interest. Miss Bosscheiter was a mill hand in Paterson. After meeting the men in a saloon in that city it was brought out at the trial that the girl had been drugged and outraged.

DIES SAVING HER PUPILS

Teacher Fatally Burned While Running to Rescue Children in Wyoming Forest Fire.

Cheyenne, Wyo., Nov. 23.—Bertha Rheinhart, a school teacher, is dead from burns received in rescuing her pupils from a prairie fire which menaced the school near Horse Creek.

Realizing that the blaze, driven by a high wind, was rushing straight for the school, the teacher sent the children to a hill near by and fought the flames by burning off a strip of prarie in front of the main fire. She diverted the blaze, but several of the children went out into the path of the fire and Miss Rheinhart, running to save them, received burns which caused her death. The fire then swerved from its course and the children escaped.

To Aid Latin-American Trade

Memphis, Nov. 23.—As a preliminary step in a campaign to promote trade between the United States and Central and South America, the first International Trade Conference of the Mississippi Valley and Central West yesterday authorized organization of a banking corporation to further exchange of credits and a co-operative trading company for the exchange of commodities. The proposed banking corporation would be financed by merchants and manufacturers of seventeen Southern and Central Western states.

Christmas Ship About Due

London, Nov. 21.—The sending of a shipload of Christmas gifts by children of America to the young inhabitants of countries suffering from the ravages of war, has aroused much interest here. The United States navy collier Jason, which is bringing the gifts, is expected at Falmouth in a few days. The Belgian minister has requested the American Relief commission to take charge of the presents.

England Stops Tea Exportation

London, Nov. 21.—Great Britain has prohibited the exportation of tea to all continental ports, except those of the countries of the allies and of Spain and Portugal

Votes Decide 12 Must Hang

Phoenix Ariz., Nov. 23.—Complete official returns from the recent election shows that Arizona defeated the initiative measure abolishing the death penalty. Twelve men under sentence of death who were reprieved by Governor Hunt, so that the people might decide their fate, must, therefore, hang. The vote on the measure was: Yes, 18,183; no, 19,529, causing its defeat by 1,146 votes. Governor Hunt, it is understood, will reprieve the convicted men until after Christmas and then scatter the dates.

THE WHEAT LANDS OF WESTERN CANADA AN ATTRACTION

THE EUROPEAN WAR MAKES THE GROWING OF WHEAT EXCEPTIONALLY REMUNERATIVE.

One result of the European War has been to reduce the volume of business done by many of the manufacturing institutions of the United States, commercial enterprises have been affected, business of many kinds have been hampered, and a financial stringency has been forced on almost every community. It is not only because it has brought these things about, and created a lot of hardship, but there is the outstanding fact of the terrible loss of life, the great destruction of property, and the disruption of everything near and dear to those whose countries are involved in the war that makes the whole affair highly regrettable. The heart of the entire world goes out in sympathy to those within the area of the trouble. Arrangements have been made to relieve the distress by money and other means. But there is one great thing—wheat and flour—that the European countries will need. The wheat-producing countries are no longer producing, and there is the gravest reason to fear that they will not be for some years. In this case, it would be fully as beneficial and charitable to make provision to meet the loss of Europe's grain crop by encouraging a greatly increased growth on this continent.

The wheat-growing sections of the United States have about reached their limit of production, and this source cannot be depended upon to meet a great deal of the demand that there will be for some years. The only country that is in a position to meet it is—Canada—that portion known as Western Canada. Here there are millions of acres of land, capable of producing from 20 to 40 bushels per acre. All this land is excellent for wheat, and very much is still in the hands of the Dominion Government, and 160 acres of it can be had by the payment of a ten dollar entry fee.

Another vast area is that held by railway and reliable land companies, held at from $10 to $25 per acre. Improved farms are slightly higher in price. Information regarding these lands may be had of any Canadian Government Agent.

The fact that Canada offers such a splendid opportunity should be accepted with a wide-spread appreciation, and not met with attempts on the part of some to spread misleading statements. The Dominion Government has not taken steps to deny many of the false statements circulated by those who evidently are more interested in injuring Canada than benefiting those who would be benefited by taking up farms in Canada, but in order to correct a highly erroneous impression that conscription is carried on in Canada, that compulsory military service is employed and that there is restraint as to the movement of those not Canadians, the necessity is felt of giving as much publicity as possible to a denial of these statements.

An item to which special exception is taken is one which says:

"They are sending them away as rapidly as possible; but the young men are not permitted to leave Canada. All the citizens and those who have taken up homesteads are subject to military duty."

In direct refutation of this, we beg to quote from a recent editorial in the Rochester, N. Y., Herald:

"There is no legal process by which Great Britain can command a single Canadian soldier to enter the field in her aid or even in her most needful defense. Great Britain cannot legally take a dollar of Canada's money for this or any other war without Canada's consent. All must be given voluntarily, if it be given at all. Yet men and dollars are given to the limit of Canada's power to give, just as if Great Britain had both physical and legal power to exact them. Indeed, it is possible that they are given more freely in this way, for what a man gives because he wants to give is likely to be greater than what he gives under force.

"All in all it is a noble picture of devotion to her motherland which Canada offers to the gaze of her admiring and unenvious neighbors."

Canada's invitation for immigration extends to all who are willing to go on to the farms.

Mrs. Frank B. Willis is the wife of the Republican governor-elect of Ohio, and his admirers profess to believe that she will some day find herself the mistress of the White House.

OFFICIALS GIVEN POWER TO ACT

U. S. COMMANDERS IN MEDITERRANEAN GET NEW ORDERS.

May Use Discretionary Power in Protecting Americans and Interests in Turkey.

Washington, Nov. 24.—Secretary Daniels has cabled Captain Decker of the cruiser Tennessee and Captain Oman of the cruiser North Carolina in the Eastern Mediterranean giving them discretionary authority to deal with emergencies that may arise in protecting American citizens and their interests in Turkey.

The secretary rescinded the order he sent last week directing both commanders to take no action whatever, pending an investigation of the firing on a launch from the Tennessee at Smyrna.

Although an official explanation from the Turkish foreign office has not been received, assurances from the Ottoman ministers of the interior and war to Ambassador Morganthau that the shots were fired as a friendly warning to inform the launch, as was customary, that the harbor of Smyrna was mined and closed, have been accepted as the forerunner of a formal statement by the grand vizer to the same effect.

Secretary Daniels thought it advisable to place the American naval commanders again under the navy regulations which had been temporarily suspended, but cautioned them in the use of their discretionary authority. The regulations particularly gave the naval commanders in isolated parts of the globe the authority to take any measures deemed necessary to prevent loss of life to Americans. They might even bombard a town in an extreme case.

Mr. Daniels cabled Captains Decker and Oman that they should keep in close touch with the navy department and the American embassy at Constantinople, making comparative reports on conditions as they found them.

Secretary Daniels' orders to the two officers indicate that notwithstanding the explanation from the Turkish government of the firing on the Tennessee's launch, the United States has no intention of withdrawing its vessels, and will continue to keep them within easy reach of Americans in coast towns of Turkey.

No further word has come from Ambassador Morgenthau concerning the Smyrna incident. Just where the responsibility for the incident lies will not be known until more complete reports are received, but high officials of the administration here think some arrangement should have been made for the entry of the Tennessee's launch.

200 Workmen Escape Death

Gary, Ind., Nov. 24.—Warned by a leak in an oil tank that an explosion might be expected, 200 workmen employed at the Aetna powder mill, four miles from here, fled from the plant a few minutes before a quantity of nitroglycerin blew up, doing heavy damage to the plant and breaking hundreds of window panes in Gary.

50,000 Poles Flee Cracow

Petrograd, Nov. 24.—The military governor of the Austrian fortress of Cracow has published a decree warning civilians that if they do not quit the city they will be court-martialed and shot. The decree says: "As the active population of Cracow is not obeying with sufficient punctuality the order for the evacuation of the city, the government warns those who are slow in obeying that they will suffer the death penalty." As a result approximately 50,000 Poles took flight.

HAVE YOU A CHILD?

BALANCE KEPT BY NATURE

Increase of the Human Race Seems to Be Regulated by Wars and Other Devastations.

Every year, according to scientists who attempt to keep the general records, at least 80,000,000 human beings are born on this earth nad 60,000,000 or 70,000,000 die. This indicates a dail birth rate of about 220,000 and a death rate of 180,000. The daily increase in population therefore is about 40,000. The total population of the globe is estimated at 1,800,000,000.

The ravages of war do little to impede the increase. Far more effective have been the upheavals of nature. The Franco-Prussian war killed about 130,000 in seven months. The death roll of the Russo-Japanese reached about 200,000. A single earthquake (1737, in India) has been estimated to have caused 300,000 deaths. The fatalities of the Messina earthquake in 1908 cannot have been far short of 100,000. A tidal wave in 1896 drowned 27,000 persons in Japan, causing a greater loss of life than the whole war with China in 1894. The earthquake in Japan in 1703 is said to have killed 200,000 people. The Lisbon earthquake in 1755 destroyed 50,000 human lives, while 40,000 were lost in the same year in earthquakes in Persia.

Antagonizes Them.

"Has Bella many friends?"

"Oh, yes, but she is the sort of girl who is bound to make a few enemies among the members of her own sex."

"Why so?"

"She has such a good natural complexion."

It takes a woman to point out the faults of other women.

Let Them Speak For Themselves

Canada is Calling You to her Rich Wheat Lands

160 ACRE FARMS IN WESTERN CANADA FREE

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around $1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or to

FOUND TIME FOR AMENITIES

How British and Boers Exchanged Compliments During the Long Siege of Kimberley.

During the Boer war Mr. Rhodes was shut up in Kimberley, and the Boers constantly shelled the town with long-range artillery. They were not very successful, for with 300 big shells they only killed 12 people.

Meantime, Mr. Rhodes accomplished the extraordinary feat of getting a cannon built at his works inside the town. It was a regular modern rifled gun, and fired shells—also homemade—on each of which was stamped, "With compliments of C. J. Rhodes."

The Boers themselves were not without a sense of humor. During Christmas, 1899, they were besieging Ladysmith, and on Christmas eve they fired ten plugged shells into the town each with a piece of plum pudding inside, and each bearing the words, "With the season's compliments."

Two of the shells were found by the garrison, and it was discovered that, like Mr. Rhodes', they were homemade, having been cast in a foundry at Johannesburg.

Just Mother's Way.

Robbie (from the depths of a bedtime cuddle)—Mother, you 'member you told me today that no one could possibly love dirty, noisy little boys?

Mother—Yes, dear. What about it?

Robbie—Then what for are you huggin' me so tight?—Judge.

Isn't it funny that the things we like to do most are the things we are told we shouldn't do?

When poverty comes in at the door, love doesn't wait for the burglar alarm to go off.

STARS AND STRIPES HAULED DOWN; VERA CRUZ IS EVACUATED

AMERICAN ARMY QUITS MEXICAN PORT SEIZED IN RETALIATION SEVEN MONTHS AGO.

IS PROOF U. S. SEEKS NO TERRITORIAL EXPANSION

Five American Battleships on East Coast and Pacific Fleet to Remain, However—Neither Faction Recognized in Withdrawal of Force.

Washington, Nov. 24.—Brigadier General Funston's infantry and marines, numbering about 3,000 men, today hauled down the Stars and Stripes which have been flying over Vera Cruz since last April and are evacuating the Mexican port in accordance with instructions from President Wilson.

Warships to Remain.

The five battleships at Vera Crus and Tampico and the string of vessels on the west coast will remain indefinitely. No orders have been issued by Secretary Daniels to the fleet. They will continue to afford protection to Americans.

It was just seven months ago that the bluejackets and marines, under Rear Admiral Fletcher, seized Vera Cruz by orders of the Washington government as an act of reprisal in retaliation for affronts to the American flag at Tampico, where a boatload of American bluejackets were arrested. General Huerta, who controlled the forces at Tampico, had refused to comply with the demand of Admiral Mayo for a salute of twenty-one guns.

Will Be Example.

President Wilson is hopeful that the evacuation of Vera Cruz will be an enduring demonstration to Central and South American countries of the policy of the United States, enunciated in his Mobile speech a year ago, to seek no territorial aggrandizement south of the Rio Grande. The original purpose of the occupation of the port—to gain satisfaction for an affront to the flag—having been accomplished, he believes continued presence of American troops on Mexican soil would be misinterpreted by Latin-America.

In withdrawing from Mexican soil the United States government has taken pains that no faction shall be recognized. All elements united in requesting the American forces to evacuate, pledging the guarantees requested by the Washington government. General Funston has no specific orders to give the possession of Vera Cruz to General Aguilar or any other chief. He has no instructions whatsoever from the State Department, being given blanket authority by the War Department simply to pack his possessions and withdraw his men, bringing away any Mexicans who feared to remain, as well as all the customs money collected during the American occupation and copies of the port and municipal records.

Customs Money Held

The $1,000,000 or more in customs duties will be held until a government is formally recognized by the United States.

A view that many of the officials take and which is shared to some extent by Carranza adherents is that Carranza ordered the evacuation of Mexico City in order that he might concentrate his forces at Orizaba and continue the parleys for a compromise provisional president. He is understood to be hopeful that when the convention reassembles in Mexico City some one other than General Gutierrez may be chosen provisional president.

Another view of the situation held in Mexican quarters is that while the Mexican capital has been evacuated there are large forces to the north and east which will continue to threaten the Villa columns.

Villagers Are Very Liberal

Washington, Nov. 21.—The town of Dublin, N. H., has taken the lead for per capita contributions to the Red Cross European war relief. With a population of 600 persons, Dublin has subscribed $1,800, $3 for each inhabitant. In addition Dublin has given $1,000 to the Belgian relief committee and much clothing and supplies.

Million More Troops Voted

London, Nov. 21.—The house of commons formally passed the vote for the supplementary army estimate, which provides for an additional army of 1,000,0000 men.

Excess Baggage Rates Upheld

Washington, Nov. 20.—Existing excess baggage rates were held by the Interstate Commerce Commission to be not unreasonable. Charges, however, for baggage of excess value were held to be excessive and a rate was established by the commission at 10 cents for each $100 or fraction thereof above the agreed upon maximum value. The minimum charge for increased valuation will be 10 cents. The case was brought to the commission originally by commercial travelers.

JAPAN IS READY TO SEND LARGE ARMY TO EUROPE

READY AND WILLING TO ADD HALF MILLION MEN TO ALLIED FORCES IN TWO MONTHS' TIME.

KING ALBERT OF BELGIUM SHOOTS HIS CHAUFFEUR

Latter Was Attempting to Deliver Ruler Into Hands of Germans—American Relief Supplies Reach Rotterdam on Way to Belgium.

London, Nov. 23.—Arthur Diosy, founder of the Japan society and an authority on Anglo-Japanese affairs, says Japan is ready to furnish a large army if found necessary to increase the Allied forces in Europe. "The Japanese army is in a state of readiness," says Mr. Diosy, " and if necessary to increase the Allied forces in Europe Japan is willing and ready to supply immediately a large, admirably equipped and highly efficient army. The Trans-Siberian railway and an ample supply of Japanese steamships would make transportation of half a million men in two months easy."

King Kills Chauffeur.

New York, Nov. 23.—Etienne Gouraud, who has arrived on the Cameronia from Glasgow, said he was with King Albert of Belgium when the latter shot his chauffeur for an attempt to deliver him to the German army.

Gouraud, who lived in Ironton, Mich., was a Belgian reservist who became one of the king's bodyguard.

"We were going in one of the royal automobiles from one point in the Belgian lines to another," he said, "when the king realized we were on the wrong road, nine miles from the lines.

"The king stood up in the car, and pointing his revolver at the chauffeur, ordered him to stop. Then we searched the chauffeur and found in his pocket a check for 50,000 marks drawn on the Reichbank in Berlin.

"The chauffeur admitted the check had been given to him to get the king within the German lines, and that payment had been promised on it when he accomplished his treachery. King Albert then shot him dead and we sped back to safety."

Demonstration in Palestine.

Berlin, Nov. 23., (Via The Hague)—A dispatch from Jaffa, Palestine, says great war demonstrations were held in that town November 19. Prayers were offered at the Omar mosque for the success of Turkey, Austria and Germany and their rulers. Later there were manifastations in the barracks, says the message and there were demonstrations of sympathy at the Austrian and German consulates.

Heavy Fight in Poland.

Petrograd, Nov. 23.—The German column between the Warta and Vistula rivers, according to today's official reports from Russian Poland, comprises six army corps and presents a front 56 miles in extent. The two rivers prevent flanking by either side hence the fighting consists of straight frontal attacks in which the losses to both armies are heavy, but neither side has been able to gain a market advantage

The Germans, military observers contend, cannot advance farther in this region since the Russian concentration, which was delayed by bad roads and lack of railroads is now now complete. Dispatches received in Petrograd from Tiflis, Trans-Caucasia, explain that the halt in the Russian advance toward Kopry[illegible]io was due to the discovery of the fact that the entire Turkish army was massed at Erzerum, the Russians contenting themselves, it is said, with holding their positions while awaiting reinforcements

London, Nov. 23.—Artillery activity by Germans marked the day in the Flanders, France, fighting while in the eastern theatre the Russians and Germans continue to hurl tremendous forces at each other between the Warta and Vistula rivers in a vain endeavor to pierce each other's line.

Capture Turkish Vessel

An Athens dispatch says that British destroyers captured a Turkish sailing vessel on which two German officers were disguised, proceeding to Smyrna. It adds that the Anglo-French squadron fired on some Turkish torpedo boats in the Dardanelles, but the latter disappeared.

Ypres Bombarded.

Paris, Nov. 23.—The following official communication was issued tonight: "Today there was a violent bombardment of Ypres, during which the market place and the town hall were destroyed. In the region of Soissons and Vailly there was rather strong cannonading.

London, Nov. 23.—The Relief Foundation food ship Massapequa, which left New York November 3 with provisions for the starving Belgians, arrived at Rotterdam late today. The Rotterdam representative of the American Relief Commission took charge of the vessel and began the discharge of her cargo, which will be on its way to the Belgians in canal boats tomorrow.

The report of the activities of the commission to date shows it delivered in Rotterdam during the first four weeks of its existence 23,000 tons of foodstuffs.

MADE THE VICTORY CERTAIN

Gunner's Announcement Naturally Brought Joy to the Heart of Artillery Captain.

With a ringing cheer the enemy advanced to attack the intrenchments.

"Fire!" hoarsely shouted the artillery captain, and the roar of the guns responded, but without checking the steady advance of the enemy.

One piece remained undischarged.

"Why don't you fire?" demanded the captain.

"I—I don't know if it's loaded," responded the gunner.

A gleam of joy lit up the stern features of the commander.

"Then victory is ours!" he shouted. "Fire it and let's find out!"

The discharge mowed down the advancing column and the assault was repelled.

'Twas ever thus.

The golden calf used to get a lot of worship that is now devoted to the silken calf.

WHY CATCH COLD

One-half of the Deaths and Two-thirds of the Sickness is the Direct Result of Catching Cold.

Nothing could be of greater vital interest to the family than to know how to avoid catching cold.

COLDS THAT KILL

If it be true, as one famous doctor says, that catching cold can be avoided, think what it means. Two-thirds of the sickness that now oppresses the people would be avoided. Serious interference with business. The anguish of anxious parents. The blasting of many brilliant dreams. All these things would be largely done away with if people knew how to avoid catching cold. Catching cold is a very common experience in numerous households. People have come to believe that there is no way to avoid it.

CAN BE AVOIDED.

People are taught in the "Ills of Life" how to avoid the ceaseless drain that catching cold makes upon the vital organs. Get it and read it and judge for yourselves of its value and practicability. It is issued by the Peruna Co., of Columbus, Ohio.

Druggists and harness shops. Distributors—ALL WHOLESALE DRUGGISTS.

SPOHN MEDICAL CO.,
Chemists and Bacteriologists, Goshen, Ind., U. S. A.

Gasoline at the Poles.

The Amundsen and Scott expeditions were greatly hindered through losing much of their gasoline, a loss that, in fact, had much to do with the disaster that befell Captain Scott. Mr. B. T. Brooks of the Mellon Institute of Industrial Research thinks he knows what caused the loss. At low temperatures, he says, ordinary tin tends to pulverize. At 54 degrees below zero it pulverizes quickly and may pulverize, although more slowly, at a higher temperature. Now hard solder usually contains a large percentage of tin, and so, of course, disintegrates in the same way. Consequently the gasoline cans are likely to leak at the soldered seams. Mr. Brooks suggests that polar explorers carry their supplies of gasoline in containers made of glass or of some metal unaffected by extreme cold.—Youth's Companion.

The Tip

"[illegible] a child's character," [illegible] in Washington. "Note his proclivities. Then choose a trade or a profession for him accordingly.

"I sent a little boy out the other day with a quarter to make a small purchase for me. On his return he told me the article I desired was out of stock, and handed back my quarter in the form of two dimes and a nickel."

An orator is a lad who will say, "Needless to say," and then takes a half hour saying it.

Your Liver Is Clogged Up

That's Why You're Tired—Out of Sorts—Have No Appetite.

CARTER'S LITTLE LIVER PILLS will put you right in a few days.

They do their duty. Cure Constipation, Biliousness, Indigestion and Sick Headache

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

Brent Good

BLACK LEG LOSSES SURELY PREVENTED by Cutter's Blackleg Pills. Low-priced, fresh, reliable; preferred by Western stockmen, because they protect where other vaccines fail. Write for booklet and testimonials. 10-dose pkge. Blackleg Pills $1.00 50-dose pkge. Blackleg Pills 4.00 Use any injector, but Cutter's best. The superiority of Cutter products is due to over 15 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct. The Cutter Laboratory, Berkeley, Cal., or Chicago, Ill.

CANCER

Tumors, Lupus, successfully treated without knife or pain. All work guaranteed. *Come, or write for Free Book.* Dr. Williams, Specialist on Cancer 2900 University Av. S. E. Minneapolis.

W. N. U., FARGO, NO. 48-1914.

Men Fight On Their Stomachs Napoleon so said. A man with a weak stomach is pretty sure to be a poor fighter. It is difficult—almost impossible—for anyone, man or woman, if digestion is poor, to succeed in business or socially—or to enjoy life. In tablet or liquid form

Dr. Pierce's Golden Medical Discovery

helps weak stomachs to strong, healthy action—helps them to digest the food that makes the good, rich, red blood which nourishes the entire body.

This vegetable remedy, to a great extent, puts the liver into activity—oils the machinery of the human system so that those who spend their working hours at the desk, behind the counter, or in the home are rejuvenated into vigorous health.

Has brought relief to many thousands every year for over forty years. It can relieve you and doubtless restore to you your former health and strength. At least you owe it to yourself to give it a trial. Sold by Medicine Dealers or send 50c for trial box of Tablets—Dr. Pierce's Invalids' Hotel & Surgical Institute, Buffalo, N.Y.

You can have Dr. Pierce's Common Sense Medical Adviser of 1008 Pages for 31c.

Holt Public School Notes

Victor Rustad was absent Monday and Tuesday.

There will be no school Thursday and Friday,

But let the good old crops adorn
The hills our fathers trod,
Still let us for this golden corn
Send up our thanks to God.

A Literary Society has been organized in the higher grades

The officers were elected:

President Inez Alkenbrack.
Vice President Mable Haggland.
Secretary Stella Mickelson.
Sergeant-at-Arms. Merrill Latta.

Programs will be given every two weeks. A program is planned for Wednesday afternoon.

C. E. Russel called on A. H. Huseth last Friday.

Jno. Alkenbrack and E. M. Silbaugh autoed to T. R. Falls, Tuesday.

R. Rierson was in Warren Tuesday, on business.

Henry Oien and Leonard Jensen autoed to Middle River Tuesday.

Mrs. Bergum went to Warren on business, Tuesday.

Over 47,000,000 of the population of the United States live under the prohibition laws of several states.

Russia would like to have Turkey for a great Thanksgiving dinner.

Ten steel bridges were unloaded here Saturday by a Minneapolis firm. They will span the ditches of the country to the east of Holt and will be a great improvement to the roads.

Mrs. Olaf Dahl returned home on Tuesday from a couple of weeks visit with friends in Iowa.

Ole Mockstad of Mud Lake was in one day last week and bought a bill of lumber for a house, of D. Payne.

The Farmer's Telephone Co. held a business meeting, Monday.

M. T. Strom returned home Tuesday from a couple of weeks preaching tour.

The town board met Tuesday and appointed Dr. Malbey health officer for Holt township.

Miss Clara Furr has returned home from a visit with friends in Thief River Falls.

Peter Kolden who has been attending school at Ada Minnesota returned home Wednesday to spend thanksgiving with home folks.

Miss Stella Mickelson who has been attending school at Crookston came Wednesday to spend Thanksgiving at home.

Swan Carlson has a good young team for sale, which he is advertising.

Somebody's Lonesome

Way down deep within their hearts
Everybody's lonesome.
Deep within their secret parts
Everybody's lonesome.
Makes no difference how they smile,
How they live or what their style;
Once in every little while,
Everybody's lonesome.
People first in big affairs—
Even they are lonesomer.
Maybe like to put on airs:
Just the same, they're lonesome,
Men for whom existence blends
Every good, who gain all ends,
Still reach out their hand for friends;
Everybody's lonesome.
Woman, silk-clad, jeweled fine,
Yes they too, are lonesome.
When their gems the brightest shine,
They are just as lonesome.
Some must serve and some command;
All still seek, with groping hand,
Love, and friends who understand,
Everybody's lonesome.
Though your gift of friendship's small
Everybody's lonesome;
It may answer someone's call,
Someone who is lonesome.
Give, and give with might and main;
Give your hands, and join the chain;
And your gift will be your gain,
Sometime when your're lonesome.

New Dray Line!
All kinds of light and heavy hauling and team work, done Promptly and at Reasonable Rates.

Free Mission Church.

Sunday School at 10:30 and you are invited.

The Young Peoples' Society will have an auction sale in the church on Saturday evening Dec. 12th Everybody invited.

Man's First Wings.

The first effort to equip man with wings that he might fly through the air, says the American Boy, seems to have been made by Watson E. Quinby, a Delaware inventor, who patented a flying machine many years ago. The inventor used the bat as the model in designing the wings. Previous flying machines had been constructed, on the balloon principle, but Quinby's apparatus consisted of wings 12 feet in diameter and semi-circular in form. The wings were attached to the limbs of the person flying, and the motions used were very similar to those used in swimming. The wings refused to work, however, and no one ever succeeded in flying with their aid.

How a Vampire Works.

The vampires of New Guinea are fairly large bats, and alight on any projecting part of the body, in preference the toes, into which they bite a small hole, from which they proceed to suck the blood. They fan the wound with their wings—to deaden the pain, the natives say—and the victim seldom awakens before much harm is done. These horrible creatures suck as much blood as they can, fly away and disgorge it, and then return for more. I have several times, says a writer in the Wide Awake Magazine, seen men in their hammocks covered with blood, and so weak that they could not get up for days.

THE PATRIOTIC DOLLAR

CONGRESS DECREES DOLLARS INDULGING IN LUXURIES MUST FIRST SALUTE THE FLAG.

War Revenue Tax of $105,000,000 Levied—Beer Bears Brunt of Burden.

Congress has levied a war tax of $105,000,000 to offset a similar amount of loss on import revenue due to the European disturbances and of this amount beer is the heaviest contributor, having been assessed approximately $50,000,000; a stamp tax on negotiable instruments, it is estimated, will yield $31,000,000; a tax on the capital stock of banks of $4,300,000 and a tax on tobacco, perfumes, theater tickets, etc., makes the remainder.

Congress has decreed that the brewer, the banker and the investor must shoulder the musket and march to the front; that milady who would add to her beauty must first tip Uncle Sam, and a dollar that seeks pleasure must first salute the flag; that Pleasure and Profit—the twin heroes of many wars—shall fight the nation's battles and by an ingeniously arranged schedule of taxation congress has shifted the war budget from the shoulders of Necessity to those of Choice and Gain, touching in its various ramifications almost every line of business.

All hail the dollar that bleeds for its country; that bares its breast to the fortunes of war and risks its life to preserve the stability and integrity of the nation's credit.

The market place has always been a favorite stand for war revenue collectors. The trader is a great financial patriot. His dollar is the first to rally around the star-spangled banner and the last to hear the coo of the dove of peace. He is called upon to buy cannon; to feed and clothe the boys in blue and each month cheer their hearts with the coin of the realm. Men can neither be free nor brave without food and ammunition, and money is as important a factor in war as blood. Many monuments have been erected in honor of heroes slain in battles, poems have been written eulogizing their noble deeds and the nation honors its soldiers while they live and places a monument upon their graves when they die, but very little has been said of the dollar that bears the burdens of war.

Honor to the Dollar that Bears the Burdens of War.

All honor to the dollar that answers the call to arms and, when the battle is over, bandages the wounds of stricken soldiers, lays a wreath upon the graves of fallen heroes and cares for the widows and orphans.

All honor to the industries that bend their backs under the burdens of war; lift the weight from the shoulders of the poor and build a bulwark around the nation's credit.

All honor to those who contribute to the necessities and administer to the comforts of the boys who are marching; cool the fever of afflicted soldiers and kneel with the cross beside dying heroes.

A dollar may fight its competitor in business, industries may struggle for supremacy in trade and occupations may view each other with envy or suspicion, but when the bugle calls they bury strife and rally around the flag, companions and friends, messmates and chums, all fighting for one flag, one cause and one country.

The luxuries in life have always been the great burden-bearers in government. We will mention a few of them giving the annual contributions to the nation's treasury: Liquor, $250,000,000; tobacco, $103,000,000; sugar, $54,000,000; silks, $15,500,000; diamonds, $3,837,000; millinery, $2,479,000; furs, $2,024,000 and automobiles, $870,000. We collect $665,000,000 of internal and custom revenue annually and $450,000,000 of this amount classifies as luxuries, and to this amount we should add the $100,000,000 war tax now levied.

The war tax is immediately effective. Tramp! Tramp! Tramp! the industries are marching $100,000,000 strong and beneath the starry flag they will fill the treasury again while they shout, "Hurrah for Uncle Sam!"

In every field of human activity the demand for more competent men and women is growing every day. Especially so in agriculture.

Home pride is a mighty valuable asset, and the farmer who has none is carrying a heavy handicap on the road to success.

Work is the salve that heals the wounded heart.

Correct Vibrations of Health.

The Indian in his natural state has no diseases as we know them. He lives in the open air and hunts and fishes enough to make his blood circulate fast; his lungs exercise enough to keep his blood pure. Human beings sit in the house and do not exercise their lungs, and in due time they run down a vibration sufficiently low to enable the disease germs to take hold on the tissue cells of the body and poison or destroy them.—Elizabeth Towne in Nautilus.

Notice For Publication

Department of the Interior, U. S. Land Office at Crookston, Minn. Nov. 4, 1914. Notice is hereby given that Ludvig Rudrud of Newfolden, Minn, who on Jan. 28th 1908 made Homestead Entry No. 24659 Serial No. 02184 for SE1-4 NW1-4 Sec. 7, Twp. 156 N. Range 44 W. 5th P. M. has filed notice of intention to make Final Five Year Proof to establish claim to the land above described, before Wilhelm Michelet, U. S. Commissioner for the Dist. of Minn. at Thief River Falls, on the 15th day of Dec. 1914.

Claimant names as witnesses:

Carl Soreson, Ole Niflot, Gust Ekmand and Andrew Ekmand all of Newfolden, Minn.

Peter M. Ringdal, Register

Notice For Publication.

Department of the Interior, U. S. Land Office at Crookston, Minnesota Nov. 3, 1914.

Notice is hereby given that Ole M. Larson of Holt, Minn. who, on Nov. 22nd 1910 made Homestead Entry No. 05754 for N 1-2SW 1-4 Sec. 27 Twp. 156 N Range 42 W 5th P. M. has filed notice of intention to make Final Three Year Proof to establish claim to the land above described, before Knute Nelson, U. S. Commissioner for the District of Minnesota at Middle River, Minn. on the 7th day of December 1914.

Claimant names as witnesses:

Olaus Rodahl, Clarence Knutson, Albert C. Jahr and Geo. C. Anderson all of Holt, Minnesota.

Peter M. Ringdal, Register

Notice To The Farmers!

Do you realize you have in your herd of "Cows" what we call Boarders? A Cow that does'nt pay for the feed she consumes. Possibly some make a very small profit but not enough to pay for the work. Others may be paying you a good profit over feed, care, etc. To find out which ones are boarders, join the Testing Association. Contest begins Dec. 1. and if you join with the many who will keep a "Daily Record" of their cows to Dec. 1, 1915, you will be in a position to know which one to sell, when a buyer comes and offers you big prices for a cow he happens to want and trys to make you believe she is not a good milker. Don't believe it. No man can sell a good profit making cow without weighing and testing her milk. Find out your best cows and keep them. Sell the boarders. Remember the dairyman is a winner every time— wars and hard times affect him less than other people.

These are some of my patrons who will begin keeping a daily record on Dec. 1. 1914: P. T. Olson, Chris Sheveland, O. A. Thompson, T. B. Folden, Chas. Heinze, T. O. Dovre, Elvin Arickson, Erick Johnson, G. P. Sorter, John Engstrom and Louis Wegge. Let us all join.

P. L. Anderson.

We have just received information that the Herrick Seed Co. of Rochester, N. Y. wants lady or gentlemen representatives in this section to sell all kinds of Roses, Shrubs, Trees and Seeds. They inform us that without previous experience it is possible to make good wages every week. Any one out of employment write them for terms and enclose this notice. 116

Local Items

For Dr. G. H. Gambell, Phone 140. (ad-tf)

The Sunday School is planning for a Christmas tree.

Rev. Wilson of Warren held services here Sunday afternoon and evening.

Mr. and Mrs. C. H. Gunheim entertained friends at supper Sunday evening.

Fridjof and Wolmer Riesberg visited their sister in T. R. Falls from Friday to Monday.

Jno. Lein has been a guest at the home of his sister Mrs. C. H. Gunheim for a few days.

Mr. and Mrs. Ludwig Monson are moving into the house on the old Nils Engerbretson farm.

Ernest Silbaugh returned to T. R. Falls Saturday to resume school work after a short holiday vacation.

Rev. A. L. Larson will preach in the Free Mission Church at 11:30 next Sunday morning Dec. 6th.

Some new ads this week and are expecting some more next week. It's only three weeks to Christmas.

Nels Gudvangen has rented his farm and will sell his personal property at public auction, Sat. Dec. 5.

Don't forget that good coffee you used to drink at Huseth's. We are serving the same kind now. Try a cup. A. H. Huseth.

Eighty-one counties in Kansas out of 105 have no insane. 54 counties have no feeble minded and ninety-six have no inebriates.

The Ladies' Aid of the Free Mission Church will meet in the basement of the church Thursday afternoon Dec. 17th. Mrs. P. A. Riesberg entertains.

T. B. Folden accompanied his uncle, Leonard Nelson, to T. R. Falls Monday and from there the latter went to Michigan to visit his brothers,

Messers Swenke Swenkeson and Hans Stenstrud returned Wednesday from a hunting expedition. The trophies brought home were two fine moose.

The basket social Saturday evening in the East Valley school house was well attended. The net sum of thirty-eight dollars and ninety cents was collected.

Farmers will be required to weigh milk and save samples for testing, only three days in each month, and all should take hold of the work and be progressive.

The young people of Holt and vicinity who are attending school in other places, spent Thanksgiving at home, returning to their studies on Monday or before,

Carl Johnson is very sick with typhoid fever and his uncle has not fully recovered from the same disease. A trained nurse came Tuesday to help care for the young man.

Mr. and Mrs. B. L. Backe and A. R. Jones entertained a little company of friends at a turkey supper Sunday evening, at the pleasant home of the former named.

The new Federal Reserve banks are now in full operation and have already begun the issuency of their new currency. Ben Docken, cashier of the Holt State Bank, received the other day from St. Paul Bank a few of the new bank notes.

Dr. Turley, the Dentist will be at the hotel, in Holt, Monday Dec. 7

Nils Engebretsen Reappointed P. M.

Having successfully passed the examination taken in July, Nils Engebretsen received notice this week of his appointment as postmaster at Holt, to succeed himself. Mr. Engebretsen is an efficient and capable man for this position and his appointment meets with the general approval of the people of this community. He has been our postmaster for the past 14 years and first received his appointment through the recommendation and kindness of D. B. Bakke, president of the Holt State Bank, and the first intimation he had of his reappointment came through Mr. Bakke, which was rather a pleasing coincidence to him.

Notice! Notice!

Ed. M. Silbaugh has opened up a barber shop in his new building (the Star Hall) and would be glad to have you call on him.

Notice the sanitary conditions of his shop—room 24x50 and a clean towel and hot water with every shave. Come and See!

Free Mission Church.

Sunday School at 10:30 and you are invited.

A. L. Larson preaches at 11:30 next Sunday morning. All invited.

Children and all are requested to be early at Sunday School so as to get through the lesson before time for the sermon.

The Young Peoples' Society will have an auction sale in the church on Saturday evening Dec. 12th Everybody invited.

About $60.00 in cash and pledges was raised for the building fund of the Free Mission Church at their Thanksgiving services. Many were in attendance from a distance among whom the following were noticed: Rev. Wilson of Warren who gave the people a strong sermon, Mr. and Mrs. Ole Nyhus, Mr. and Mrs. Moland, Mr. and Mrs. Rindal, Mr. and Mrs. Ed. Kroon, Gim Tarmal, Miss Brudde, Mrs. Lofkin, Ole and Hans Sande all of Thief River Falls, Mrs. Tunheim and children, Mr. and Mrs. Rasmusen, Lars Bjareness and Pit Martrud of Newfolden, Ole Moen of Middle River, Emil Simson and Otto Larson both from the state of New York.

E. T. Eide has moved to Spooner where he will run a feed store this winter.

Alfred and Julius Olson returned from Strathcona, Saturday, where they bagged some big game.

J. P. Lein of Warren visited a few days with Mr. and Mrs C. H. Gunheim, returning home Monday.

Henry Johnson of Henning N. D visited his cousins Mesdames A Sollom and B. L. Backe, Friday.

Miss Mabel Haggland from Dugdale visited her grandparents, Mr. and Mrs. Jacob Nelson, last week.

Ole [illegible] came Wednesday from the pineries to visit his folks. He brought with him a fine [illegible] which he killed while hunting.

Carl [illegible] shoe repair [illegible] of S. [illegible] Kolden [illegible] glad to have you call and try his work.

[illegible] Monday. Mr. Huseth [illegible] to Fertile to [illegible] children.

Martin [illegible] of Minneapolis visited his parents last week. He saw many changes in the country in the four or five years he's been away.

POLAND BATTLE MAY LAST MANY DAYS

MUSCOVITE WAR OFFICIALS GIVE OUT LITTLE NEWS OF BIG VICTORY IN POLAND.

MANY OF KAISER'S TROOPS REPORTED TAKEN PRISONERS

Little Fighting in Progress Between Allies and Germans in France and Belgium—Lord Kitchener Makes a Report.

London, Dec. 1.—While deprecating the exaggerated reports of Russian successes in the battle in Northern Poland, where the German Emperor has joined Field Marshall von Hindenburg to offer his advice and to encourage his troops, the latest available reports from Russian headquarters state that the advantage in the fighting still lies with the Russian army.

Losses Are Enormous.

It is also said enormous losses have been inflicted on the Germans, but no mention is made of the way certain German divisions have been separated from the main army as claimed by the Petrograd correspondents of London and Paris papers. To offset this is the German official report which says the Russian attacks have been repulsed and the German counter attacks have been successful.

Trying to Break Through.

Some days must elapse before this battle, which promises to prove the most decisive of the war, is concluded. All that is definitely known is that the German advance has been brought to a standstill. Some of the German troops have been partly or wholly surrounded but they are still fighting stubbornly to break their way through the Rusian lines, apparently to the northward, where they hope to join re-enforcements sent from Thorn.

Russians Take 30,000 Prisoners

In the battle before Cracow the Russians claim decisive success. During the last week they took 30,000 Austrian and German prisoners in this region. This victory is taken in Petrograd to mean Cracow will not bar the Russian advance in Silesia from the south, but that with the Austrian army beaten, it will be necessary only to mask the fortress.

Announce Success in Austria.

The Russians likewise announce success on the Austrian side of the Carpathians and against the Turks in the Caucasus, although in both regions the worst of weather has prevailed.

In the western arena the Germans, although making an occasional infantry attack, seem at present content to bombard the Allied positions, but with somewhat lighter guns than they have been using. This may mean either that they are sending troops and artillery to the east to use against the Russians, or that they are preparing a new attack against the Allies.

That the enterprise that failed in Flanders will not be repeated for the present seems probable, as the Allies have been allowed to capture some points of vantage around Ypres, which were previously considered necessary to the German plans. There has been a minor attack near Arras, but not in strong enough force to suggest the Germans have decided to try to get to the coast by direct route from the east.

Try to Outflank Germans.

An interesting report from Field Marshal Sir John French, covering the period of the battle in Flanders and the days immediately preceding it, shows this battle was brought about first by the Allies' attempts to outflank the Germans, who countered, and then by their plans to move to the northeast to Ghent and Bruges, which also failed. After this, the German offensive began with the French coast ports as the objective, but this movement, like those of the Allies, met with failure.

Field Marshal French, doubtless in response to the demands of the British public, tells what the various units of the expeditionary force have been doing—those that failed and were cut off, and those who, against superior numbers, held the trenches for a month. He gives it as his opinion that the German losses have been thrice as great as those of the Allies, and speaks optimistically of the future.

Tribute to Belgians.

London, Nov. 28.—"The Russians have defeated the Germans with the heaviest losses yet suffered; the Germans have made no advance since I last addressed the house," and "The British are in touch with Turkish forces thirty miles east of the Suez Canal," were salient points of a speech made by Field Marshal Earl Kitchener in the House of Lords, summarizing the military operations.

Earl Kitchener paid a tribute to the gallantry of the Belgian army and to the King of the Belgians who, he declared, had no intention of quitting Belgian territory. He said the losses of the allies were great, but at the same time were slight compared with those of the enemy, and that the allied troops were in excellent spirits and confident of success.

Regarding recruiting, Earl Kitchener said he still had room for men and he was confident that the men would answer the country's call and see that the war was brought to a successful conclusion. He said that about 30,000 recruits were enlisting weekly.

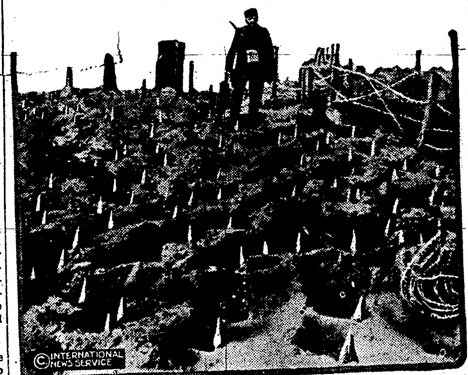
"The time will come when we shall require many more and I will then make it thoroughly well known," the field marshal said, and added that in the meantime all the gaps in the British forces on the Continent had been filled.

Expect 10,000 Men Ready Soon.

London, Nov. 27.—Portugal has taken the final plunge into the European war. The Portuguese Congress decided the country should co-operate with the allies when it considers the step necessary. The minister of war will issue a decree for partial mobilization.

A dispatch has been received from Lisbon to that effect. It did not state when the Portuguese troops would be available for field duty at the front, but it was believed in official circles here that it would be but a short time when 10,000 men would be sent forward to the allies' battle line in France and Belgium.

SPIKED PITS AND BARBED WIRE



This piece of ground, dotted with pits with spikes in them and crossed with barbed wire entanglements, prepared by the Belgians to impede the advance of the Germans, gives some idea of the fields over which the troops in the war zone are expected to charge.

SEES END OF YPRES TO ARMENTIERES FIGHTING

London, Nov. 30.—Field Marshal Sir John French, commander in chief of the British forces in the field, speaks in an optimistic vein concerning the position of the Allies in a report issued by the official press bureau. The report covers in a general way the activities of the British troops from Oct. 11 to Nov. 20.

Last Stages of Battle.

Summing up the situation in his report, Field Marshal French says: "As I close this dispatch signs are in evidence that we are possibly in the last stages of the battle from Ypres to Armentieres. For several days past the artillery fire of the enemy has slackened considerably and his infantry attacks have practically ceased.

Fighting Embraces Large Area.

"In remarking upon the general military situation of the Allies, as it appears to me at the present moment," General French continues, "it does not seem to be clearly understood that the operations in which we have been engaged embrace nearly all of the central part of the continent of Europe from the east to the west. The combined French, Belgian and British armies in the west, and the Russian army in the east, are opposed to the united forces of Germany and Austria, acting as combined armies between us.

Germans Throw Weight in West.

"Our enemies elected at the beginning of the war to throw the weight of their forces against our armies in the west and to detach only a comparatively weak force composed of very few of the first line troops and several corps of second and third line troops to stem the Russian advance until the western forces could be completely defeated and overwhelmed. Their strength enabled them from the outset to throw greatly superior forces against us in the west. This precludes the possibility of our taking vigorous offensive action except when miscalculations and mistakes are made by their commanders, opening up special opportunities for successful attacks and pursuits.

BRITISH WARSHIP DESTROYED

SINKS 20 MILES FROM OUTSKIRTS OF LONDON.

Vessel Goes Down Almost Instantly, Giving Men No Fighting Chance —Band Playing at Time.

By International News Service.

London, Nov. 28.—The British battleship Bulwark was blown up and sunk in the estuary of the Medway river. Between 700 and 800 men were lost, including Captain Guy Belater, her commander, and all her officers.

But 12 of Crew Saved.

Only twelve of her crew were saved. It is announced officially that the explosion was internal and originated in the ship's magazine.

The disaster is the most appalling the British navy has suffered in the war. It is even more of a shock than the loss of the Aboukir, Cressy and Hogue at the hands of a single submarine on the North Sea, for the Bulwark was destroyed from within, destroyed utterly and instantly. The men aboard her had not a fighting chance for their lives.

Band Playing at Time.

The band was playing aboard the Bulwark. Near her were anchored several other ships. The morning was calm and but for the presence of the battleship swinging at her anchor chains there was nothing to suggest anything but peace. Alongside the Bulwark was a lighter. From it were being loaded over the side of the 15,000-ton battleship fresh ammunition stores for her 12-inch and 6-inch guns. The Bulwark sank in three minutes from the time of the explosion.

A vice admiral and a rear admiral of the Royal navy, who were at Sheerness, investigated immediately and reported that it was their conviction that it was an internal magazine explosion that rent the ship asunder.

The explosion was so violent that debris from the battleship was scattered over the coal fields in Essex county, littering the towns and countryside. At Southend-on-Sea, on the Essex coast, the concussion of the explosion was plainly felt and likened by the inhabitants to a severe earthquake. Buildings in the vicinity of Sheerness were shaken to their foundations.

Although twelve years old and no longer in the first fighting line of the navy, the Bulwark still was a useful unit.

Considering the size of her navy, Great Britain has been singularly free from disasters of this character. Nevertheless when the French warship Jena was destroyed by an internal explosion in 1907, all cordite ammunition was taken from all the British ships and carefully examined. Refrigerators were installed in the ships to keep the powder cool.

The Bulwark cost $5,000,000.

Cossacks Capture Aeroplane.

Petrograd, via London, Nov. 27.—A German aeroplane with two aviators has been captured by Cossacks 24 miles north from Plock, Russian Poland. The airmen had dropped several bombs in Plock.

Victoria Crosses for British.

London, Nov. 27.—Eight Victoria crosses have been awarded for conspicuous services in battles in France. Five of these were given to privates and three to officers.

Sinking of Ship Arouses Italy.

Bari, Italy, Nov. 30.—Another mine, which had floated from its moorings, exploded near here, destroying a fishing boat and killing four men. The explosion of this mine, which is said to have been one of those planted in the Adriatic by Austria, has aroused another storm of indignation among the Italian people along the Adriatic coast. The Italian government recently protested to Austria concerning drifting mines which were endangering shipping.

Medal for Madame Poincare.

Bordeaux, via Paris, Nov. 27.—The Bar Association has presented Madame Poincare, wife of the president of France, a specially designed medal as a mark of admiration at the example she set by working as a nurse in a hospital organized by the association. Madame Poincare, who early in the war qualified for duty in the Red Cross by completing a course in nursing volunteered her service as soon as she arrived at Bordeaux when the seat of government was moved here.

Greatest Loan in Britain's History.

The greatest loan in Great Britain's history—£350,000,000 ($1,750,000,000)—has been floated successfully by the Bank of England, both large and small buyers being among the investors. The country awaits the announcement by the chancellor of the exchequer as to the amount of the subscriptions with the belief that they will exceed considerably the amount of the loan and that the colossal transaction will have an impressive effect upon Great Britain's enemies.

WESTERN CANADA'S OFFER IS AMERICA'S OPPORTUNITY

GROW GRAINS IN WESTERN CANADA, ENJOY AN EXCELLENT CLIMATE AND MAKE MONEY.

With the European wheat fields desolated, and the farming population more than decimated, there will be for a number of years a demand for food products that has not been experienced in the memory of the present generation. Everyone regrets the horrible war that has brought this about. Its effects are felt not only in Europe, but in every part of the American continent. Many lines of business have been hurt, but only temporarily it is hoped. Financial stringency is being talked of. There is a way of overcoming these things; and Western Canada offers the solution in its immense agricultural area, when the possibility of retrieving losses, making assured gains, and at the same time becoming a factor in providing the world with the one great requisite—wheat—is so pronounced that it cannot be overlooked.

There are several ways in which excellent farming lands can be secured in the provinces of Manitoba, Saskatchewan or Alberta, and also British Columbia.

In the first place the offer of the Dominion Government of 160 acres of land free to the settler is something not given by any other country. Conditions of settlement are easy. Live upon the land six months in each year, for a period of three years, cultivate about thirty acres, and erect a habitable house. Instead of cultivation, the keeping of a certain number of head of cattle will carry with it the same value. Many of these homesteads may be had in the open prairie area, where every acre can be put under cultivation, but to the man with limited means, in the park area, lying north of the central portion of three of the provinces named, there is afforded the best chance. In this park country are beautiful groves of poplar and willow, small lakes and streams, and sufficient open area to enable one to go into immediate cultivation for crops of wheat, oats, barley and flax, any one of which does wonderfully well, giving prolific yields. In due time when more land is required for cultivation, these groves may be cut down at small cost. In the meantime, however, they have been valuable in providing fuel and shelter for cattle, which thrive wonderfully on the wild grasses that grow in abundance.

Another plan is to purchase from some of the railway companies who hold large tracts, or from some responsible land company. The prices asked are exceedingly low and the terms easy. Whether one may decide to locate in the open prairie area or in the park country the land will be found to be of the same general texture, a rich black or chocolate colored loam or a clay subsoil.

Again attention is drawn to the fact of the great opportunities for farming that are offered in Western Canada. Already a number of holders of tracts of land there, who are residents of the United States—business men, merchants, lawyers, bankers—men of foresight and keen knowledge of business, have decided to cultivate the lands they have been holding for speculation and wait no longer for a buyer to turn up. They are acting wisely.

Canadian laws are as fair and just as can be found in the civilized world. Military service is not compulsory, nor is there one ounce of coercion used. Anything that is given to Great Britain whether in money or men is entirely voluntary. There is no draft-ing nor conscription of any kind. Already over sixty thousand of the young men of Canada have volunteered for service, and thirty-five thousand have gone forward, many of these having left their farms in their love for Great Britain and a desire to fight for their country. As a consequence, many farms may be left untilled. Therefore Canada invites others to come in and take their places. This then is the opportunity for the American who wishes to better his own condition.—Advertisement.

When the Curfew Tolls.

Curfew memories are revived by these new official orders for "lights out" in London. There are places where the new decree will seem less drastic, because the old law of early Norman times is still observed, so far, at least, as the ringing of the curfew bell. The little Surrey village of Chertsey, for instance, still re-echoes to the ringing of curfew at sundown from September 29 to March 25. Londoners, though few of them seem to know it, may hear curfew tolled every night at nine o'clock in Lincoln's inn. And Canterbury bells still ring out the curfew as they did centuries ago.—London Chronicle.

TO SETTLE MINE TROUBLES

WILSON NAMES BODY TO HANDLE COLORADO STRIKES.

Operators' Failure to Aid Mediation Disappoints President—Grievance Committee Is Favored.

Washington, Dec. 1.—President Wilson has announced the appointment of Seth Low of New York, Charles W. Mills of Philadelphia, and Patrick Gilday of Clearfield, Pa., as a commission through which future differences between operators and miners involved in the present Colorado coal strike may be settled.

The commission, officials explained, was not appointed to deal with the existing differences which have caused rioting and bloodshed in Colorado. Hywell Davies and W. R. Fairly, the conciliators who have been attempting to settle the strike for several months, will continue in their efforts to have the operators and miners agree on a settlement of the present strike.

In a statement announcing the appointment of the commission, the President expressed "the very earnest and sincere hope that the parties may see in it not merely their own good, but a duty which they owe to the communities they serve and to the nation itself, to make use of this instrumentality of peace and render strikes of the kind which has threatened the order and prosperity of the great State of Colorado a thing of the past."

The appointment of such a commission was contemplated in the plan for temporary settlement of the strike which the President proposed several months ago and which was accepted by the miners, but rejected by the operators. One of the chief objections of the operators to the plan was the naming of the commission.

The President announced in his statement that the commission will place themselves "at the service alike of the miners and the operators of the mines of Colorado in case controversy between them should in the future develop circumstances which would render mediation the obvious fay of peace and just settlement.

U. S. REJECTS DECLARATION

Refuses to Accept Piecemeal Adoption of London Restrictions During European War.

Washington, Nov. 27.—The decided stand taken by the United States government in refusing to accept piecemeal adoption of the principles of the Declaration of London as a guide to commercial restrictions to be imposed during the European war, was made clear at the State Department when the text of a cablegram sent to Ambassador Gerard at Berlin, Oct. 24 last, was made public.

The ambassador had cabled a preliminary notice that Germany intended to protest to this government against violation of the declaration by Great Britain and France. The German ambassador, Count Bernstoff, called at the State Department to lodge the formal complaint.

The text of the reply cabled to Mr. Gerard, copies of which went to all American diplomatic representatives abroad, was then made public. It follows:

"Please inform the German Government that the department's suggestion made to the belligerent countries for the adoption for the sake of uniformity of the Declaration of London as a temporary code of naval warfare for use in the present war, has been withdrawn because of the unwillingness of some of the belligerents to adopt the Declaration of London without modification. The United States government, therefore, will insist that its rights and duties and those of its citizens in the present war, be defined by the existing rules of international law and the treaties of the United States with the belligerents, independently of the provisions of the Declaration, and this government will reserve the right to enter a demand or protest in every case in which the rights and duties mentioned above and defined by existing rules of international law are violated or their free exercise hindered by the authorities of the belligerent governments."

The message was signed by Counsellor Lansing, then acting secretary of state.

AMERICAN SHIP FIRED UPON

Captain Reports Vessel Apparently Failed to Heave-to Quickly Enough to Suit Britisher.

Panama, Nov. 30.—The American steamship St. Helens, Captain Odland, which sailed from New York Oct. 17 for San Francisco, arrived at Colon and reported that she had been fired upon by the British cruiser Berwick.

Captain Odland said that his ship was hailed, but apparently failed to heave-to as quickly as was expected, with the result that the British cruiser fired two shots across the stern of the vessel. The incident occurred Thursday at a point 90 miles northwest of Colon.

Aged Woman Made Rich.

Michigan City, Ind., Nov. 30.—Mrs. Amelia Humbel, 85 years old, was doing her washing when a telegram came announcing the favorable decision of a will contest case in New York city awarding her Manhattan real estate worth $50,000. The estate involved was that of Mrs. Magdalena Herman, sister of Mrs. Humbel's first husband. By the terms of the original will her nephews, George and Edward Herman of this city, sons of Mrs. Humbel, were given the bulk of the estate.

GOT THE PHRASES MIXED

Small Boy's Idea of Occasion Would Have Been a Surprise to His Teacher.

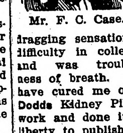
He was a Muncie boy of six years who was "serving" his first term in school. The honor was thrust on him to ride in a gayly decorated float in the Disease Prevention day parade, given under the auspices of the Muncie city officials.

As he was hurrying away from home after his noon meal, anxious to be early on the school grounds in order that he might not miss anything, a playmate shouted at him: "Hi, Willie—what's your hurry?"

Willie, his chest inflated, strutted up to the other with all possible dignity and replied: "W'y, don't you know the teacher 'pointed me t' be in the health prevention parade?"—Indianapolis News.

A GRATEFUL ACKNOWLEDGMENT.

Mr. F. C. Case of Welcome Lake, Pa., writes: "I suffered with Backache and Kidney Trouble. My head ached, my sleep was broken and unrefreshing. I felt heavy and sleepy after meals, was always nervous and tired, had a bitter taste in my mouth, was dizzy, had floating specks before my eyes, was always thirsty, had a dragging sensation across my loins, difficulty in collecting my thoughts and was troubled with shortness of breath. Dodds Kidney Pills have cured me of these complaints. Dodds Kidney Pills have done their work and done it well. You are at liberty to publish this letter for the benefit of any sufferer who doubts the merit of Dodds Kidney Pills."



Mr. F. C. Case.

How Sun Repels Comets' Tails.

A new theory to explain the tails of comets is advanced by the French physicist, M. Houllevigue, in the Revue Scientifique. It is natural to suppose, he says, that the incandescent nucleus of a comet is throwing out electrons into the extremely rarefied atmosphere that surrounds it. The observations of George Ellery Hale, the American astronomer, prove that the sun behaves like a negatively electrified body. Therefore he repels electrons, which are negatively electrified bodies. These particles so repelled would be driven to that side of the comet which is farthest from the sun, and by contact with the molecules of the gaseous and rarefied atmosphere would produce just the luminous appearance that we call a comet's tail.

Every comet's tail always extends away from the sun. Arrhenius, the Swedish astronomer, believed that the particles of the tail were repelled by the light of the sun.

HOW RESINOL CURED ITCHING SKIN TORMENT

Baltimore, Md., May 23, 1914: "My limbs from knee to ankle were completely covered with eczema for a year. It commenced with several small water pimples, which burst when I scratched them, until they developed into sores, and oozed a yellowish fluid. I hated to go in company, it itched and burned so badly. I had no rest at night. I tried a good many remedies for eczema, both liquid and salve, but they did me no good, only made the skin more rough and scaly. I learned of resinol ointment and resinol soap and tried them, and was relieved of the severe itching and burning AT ONCE, and after a month's steady use was completely cured." (Signed) T. S. Lewis, 1821 Summit St. Resinol soap and resinol ointment are sold by all druggists.—Adv.

PLAN TO EXCLUDE BATTLESHIPS FROM AMERICAN WATERS

SOUTH AMERICAN COUNTRIES START MOVEMENT TO BAR BELLIGERENT NATIONS.

SEEK CO-OPERATION OF U. S.; POWERS ARE BEING SOUNDED

Safeguarding of Pan-American Trade Is Aim and Diplomatic Conferences Have Already Commenced—Great Britain Is Reported Agreeable.

Washington, Nov. 28.—The United States government has been asked by the principal nations of South America to co-operate with them in negotiations with the belligerent powers of Europe to bringing about the exclusion of all belligerent warships from the waters of the two Americas and safeguard the the trade of Pan-American countries with each other.

Several Already Have Acted.

Argentina, Chile, Peru and Uruguay have laid their suggestions before the Washington government, while the Brazilian government is considering the advisability of taking a similar step. Practically all the Central and South American countries have been circularized by some of the principal nations, resulting in a series of diplomatic conferences in Washington and the capitals of South America, which now are in progress.

While the proposals are different in character and scope, they all seek the same end—the restoration of trade between North and South America, paralyzed by the European war. The movement also has for its object the removal of possible causes of serious friction between the countries of this hemisphere and the European belligerents on questions of neutrality.

Trouble Appears Already.

Already Chile, Ecuador and Colombia have had serious difficulties with the belligerents over the use of the wireless and the coaling of foreign warships, whose presence in the Atlantic and Pacific is growing obnoxious to South American countries.

None of the nations which have made suggestions is committed to any particular plan, but all seek the co-operation of the United States. The impetus that will make any plan effective, it is recognized by the diplomats of South America, rests with President Wilson.

Various Plans Outlined.

The various plans thus far formally communicated to the United States are as follows:

(1) The establishment of neutral zones on the Atlantic and Pacific coasts of North and South America, within which the belligerents shall be asked to agree not to engage in hostilities or interference with commercial vessels. A meridian would be designated as the limit in each case.

(2) The convocation of a general conference of diplomatic representatives and commercial delegates of all the countries of this hemisphere with powers to vote on steps which can be taken to protect and restore Pan-American trade.

(3) The appointment by the Pan-American Union of a commission to recommend steps that would remove dangers to Pan-American trade.

(4) Prohibition by all nations of the two Americas of the privilege heretofore exercised by belligerents of coaling in neutral ports or the issuance of only a sufficient quantity of coal to enable a belligerent vessel to reach the nearest port of another country.

Powers Are Sounded.

Already some of the powers of Europe have been sounded on these propositions and it is understood that Great Britain is ready to deny her warships entry into Central and South American ports to coal if the United States approves the proposal and other belligerents agree.

While many diplomats who have carefully investigated the effects of restriction of coaling privileges, believe such a prohibition alone would not be effective in keeping belligerent warships from American waters, the fact that Great Britain, with her sea power, looked with favor on measures that would assist the South American countries in preserving their neutrality and restoring their trade has been a source of much encouragement to the diplomatists here.

The entire movement is in a formative state and depends for its progress very largely on the attitude of the United States.

30 Hurt in Missouri Wreck.

Mexico, Mo., Nov. 30.—Thirty persons were injured, one of them probably fatally, when Burlington Alton passenger train No 22, east-bound from Kansas City to St. Louis, left the rails three miles east of Clarks. Steve Preston, negro porter, injured internally, probably will die. The others, several of them seriously hurt, suffered bruises and internal injuries. Some of the injured men were rushed to near-by towns in motor cars, but the majority were brought to this city on a special

CONVENTION FORCES CONTROL

PART OF VILLA'S ARMY ENTERS MEXICO CITY.

Another Mexican Governor Declares Allegiance to Gutierrez—Rail and Wire Connections Resumed.

El Paso, Tex., Nov. 30.—A part of General Villa's forces have entered Mexico City, but Villa remains at Tula. A train, the first in many weeks, left Mexico City for Juarez. This was learned when rail and wire communications were opened between the national capital and the border.

An official Villa report said that General Caballero, the Carranza leader, whose troops hold Tampico, had recognized the Convention party.

Villa Joins Zapata.

Washington.—While no definite advices have been received as to the situation in Mexico City, administration officials credit reports that General Villa's troops had joined the Zapata forces there.

The last dispatch to the state department reported the Zapata men and agents of General Villa as in control of the city. All official dispatches say order is being maintained in the capital, the only looting mentioned being that of a ranch owned by an American named Hill in the outskirts of the city.

In the same section, the Spanish ambassador told Mr. Bryan, several Spaniards have been reported killed. The Spanish envoy's advices were from Madrid, and while Mr. Bryan immediately telegraphed an inquiry to the Brazilian minister in Mexico City and American Consul Silliman, he thought the facts would have been reported by the department's representatives if the report were true.

In view of the arrival of General Carranza at Vera Cruz, Secretary Bryan wired Mr. Silliman to remain in Mexico City. He said he had originally ordered Mr. Silliman to join Carranza when the latter was at Orizaba, where the department had no representative.

American Consul Canada, at Vera Cruz, will handle negotiations of the American government with Carranza.

Vera Cruz.—General Lucio Blanco, the last of the Constitutionalist leaders to evacuate the capital, is reported to have been arrested by his own officers and to be on the way to Vera Cruz.

TRANSPORTS CARRYING FUNSTON'S ARMY DOCK.

Galveston, Tex., Nov. 28.—Five army transports bringing Major General Frederick Funston and more than 4,000 soldiers of the United States expeditionary force from Vera Cruz have docked, greeted by saluting guns and cheering. The chartered steamer Antilla brought 330 American and Mexican refugees.

With the flagship Cristobel, flying the two-starred banner of the major general, were the transports Kilpatrick, McClellan, Kansas and Sumner.

Among the refugees were many customs house employes from Vera Cruz. A clerical party was headed by Bishop Vincent Castellanes of the Roman Catholic diocese of Campache, with eighteen priests and twenty-one nuns. Owing to the flooded condition at the army camp site, nearly 4,000 soldiers will remain on the transports for several days. On the flagship Cristobel, guarded by a detail of men, is $1,000,000 gold, representing customs money collected at the port of Vera Cruz by the army.

STARVING POPULATION GROWS

American Commissioner Finds Thousands More Than Expected Must Be Fed.

London, Nov. 30.—"The population of Belgium which must be fed during the winter, probably will be many thousands more than seemed likely a very short time ago."

This is the conclusion reached by a special commissioner delegated by the American commission for the relief of Belgium to make an investigation. The commissioner sent a telegraphic report from Rotterdam to Herbert C. Hoover, chairman of the American commission.

Speaking of the Belgian refugees in the south of Holland the commissioner said large numbers, most of whom belonged to the agricultural element, had returned to Belgium or were going to return, with the result that there would be an enormous addition to the starving populace, as it was impossible to get work.

At Bergen-On-Soom there are 3,000 refugees living in tents. Most of the tents shelter two families. With the ground like a quagmire and the cold almost unbearable, the refugees sit huddled around a small fire by day and sleep on straw at night.

Kaiser Goes to Poland.

Berlin, Nov. 30, (Via Amsterdam and London.)—It was announced at military headquarters that Emperor William was with the German army in the east.

Argentina Dreadnaught Sets Sail

Boston, Nov 28—The Argentine dreadnaught, Rivadai, has taken leave of Massachusetts bay, on the shores of which she was built and sailed for New York on her way to the South American republic. She was manned by Argentina sailors, in command of Captain Joseph Moneta. At the Brooklyn navy yard arrangements have been made for her to go into dry dock, where her hull will be cleaned before she leaves for Buenos Aires, the middle of next month.

GERMANY ADMITS RUSSIAN ADVANCE IN EAST PRUSSIA

BERLIN STATEMENT DECLARES TEUTONS REPULSED SURPRISE ATTACK ON FORTIFICATIONS.

KAISER IS IN POLAND; NO DECISIVE RESULTS

Muscovites Begin Siege of Cracow, While Suburb of City Is Fired By Shells—Allies, Not Germans, Are On Offensive in Belgium, Says Dispatch.

London, Dec. 1.—Germany acknowledges that the Russian northern army has penetrated into East Prussia to a distance of 15 miles southwest of Gumbinnen, which is about 20 miles west of the German border. In Belgium, says the French official statement, it is the allies and not the Germans who are on the offensive. These two points stand out in news from the battlefields of Europe.

The German official statement says that strong Russian forces attempted a surprise attack on the fortifications of Darkehmen, in East Prussia, and that they were repulsed. Semi-official information from Petrograd is that operations along the East Prussian front are turning to the advantage of the Russians and that the Germans are retiring in disorder.

Poland Battle Continues.

Meanwhile the great battle in Russian Poland, between the Vistula and Warthe rivers, continues without definite result. The German war office states that the Russians were defeated in a battle south of the Vistula and that 4,500 men were captured. Farther south, in Galicia, the Russians are said to have reached Cracow and to have begun the siege of the city.

According to the French official statement the German forces in Belgium are on the defensive and the allies have made progress "at certain points." Fighting continues in the Argonne, where, the French statement asserts, German attacks were repulsed.

German Invasion Checked.

References to the Russian success in north Poland have become somewhat chastened since the cautionary report issued by Grand Duke Nicholas, commander of the Russian forces in the field, was made public. Nevertheless, the military critics in the capitals of the allies, according to dispatches reaching London, remain convinced that the German invasion of Russian Poland has suffered a check which only the most strenuous efforts of the German commanders can save from degenerating into disaster.

Strategy Without Precedent.

A news report from Petrograd sets forth that the Germans, apparently ignorant of the extent of the Russian opposition along the Vistula, or holding this opposition in contempt, threw heavy force against the Russian center, leaving only thin lines of communication between their wings. This created a situation said to be without precedent in military strategy. In the meantime the resumption of the Russion offensive resulted in a wedge, dominated by Lodz, being thrust into the German center.

If the Germans can hold their lines of communication with their wings intact, the invaders may be able to withdraw, in the view of the British observers, without suffering disaster.

Russians Besiege Cracow

Milan, Dec. 1. The siege of Cracow has begun according to a correspondent of the newspaper, Corriere Della Sera, who is with the Muscovite army. He wires that the Russians are bombarding the forts with their heavy siege guns, and that one of the suburbs of the city is reported to be in flames.

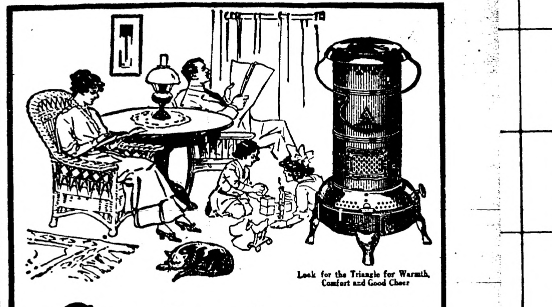
In the battle before Cracow the Russians claim decisive success. During the last week they took 30,000 Austrian and German prisoners in this region.

May Be Stranded in Vera Cruz

Vera Cruz, Dec 1. To check as far as possible the stranding of Americans at Vera Cruz, Consul Canada has decided to ask the state department at Washington to make public the fact that there is no reliable communication with Mexico City and that there is not likely to be any for some weeks. Some of the Americans who are arriving on every ship are not well supplied with funds and the consul fears they are likely to become charges

Wilson Declines to Speak.

Washington, Dec 1. President Wilson has declined to address the annual meeting of the National Rivers and Harbors Congress which will convene in Washington on Dec 9 for the purpose of urging the passage of a tremendous river and harbor appropriation bill at the short session of Congress. The President is considering the advisability of designating some cabinet officer to attend the meeting, to make known the administration's policy on waterways



Look for the Triangle for Warmth, Comfort and Good Cheer

Contentment

If you have ever shivered in chilly rooms because it was too early to start the regular fire, or frozen through some severe cold spell that was too much for furnace or stoves, go today to your nearest dealer and look at the NEW PERFECTION HEATER—the insurance against cold weather discomfort.

Strike a match and you have a clean, convenient, economical fire that you can carry around with you. Fire to dress by in the morning, in the bath room and in rooms that are hard to heat all the season through.

Makes the family happy the first chilly evenings. Watch them smile when they gather 'round the NEW PERFECTION.

Burns 10 hours on one gallon of oil—can't smoke. No trouble to re-wick. In the New Perfection wick and carrier are combined. Fresh wicks are ready to put in, trimmed, smooth and ready to light. For best results use Perfection Oil.

PERFECTION SMOKELESS OIL HEATER

Your dealer has the NEW PERFECTION Oil Heater on exhibition. He will be glad to show you the different models. Send us your name on a postal and we will foward you the NEW PERFECTION Book.

STANDARD OIL COMPANY (AN INDIANA CORPORATION) **Chicago, Ill.**

MEN WHO WIN LIFE'S BATTLES

They Almost Invariably Have Been Endowed With Great Physical Strength.

It has been said that great men—those capable of mental work beyond the average—are almost invariably men of great physical strength also, remarks London Answers. Whether this be true or not, we find innumerable instances in which the theory is borne out in actual fact, and here are a few actual and indisputable examples:

Napoleon was capable of sitting on a horse sixteen hours at a stretch and was able to work for days without rest.

Gladstone was always muscular. At eighty years he chopped down an oak four feet thick.

Bismarck was a giant. He fought twenty-eight duels, receiving only once a scar, caused by the breaking of his adversary's blade. He stook six feet two inches.

Cromwell was a football player, fond of boisterous sport. He stood nearly six feet in height and had a strong, compact body and well-knit frame.

Robert Burns was a strong man, with a firm grip, gained at the plow and flail.

FOR SKIN-TORTURED BABIES.

A hot bath with Cuticura Soap followed by a light application of Cuticura Ointment, gently rubbed on the surface, afford immediate relief and point to speedy healment of sleep-destroying eczemas, rashes, itchings, burnings, scalings and crustings of the skin and scalp of infants and children, bringing rest to worn out, anxious mothers and peace to distracted households. For free sample each with 32 p. Skin Book, address postcard Cuticura, Dept X, Boston. Sold everywhere.—Adv.

Fair Proposition.

She—Papa preaches on 'Love One Another' this evening. Shall we go and hear him?

Her Beau—No, let's stay at home and practice what he's preaching.—Philadelphia Ledger.

Judicial Tribulations.

A defendant in Whitechapel county court called witness a liar, and Judge Cluer ordered him out of court.

When he apologized, Judge Cluer said:

"If people in this court, when they hear an untruth, call out 'It is a lie,' there will be such a noise that we shall not hear the trains go by."

His predecessor at the court was once told by a woman that she would fall down if she heard an untruth.

"Madam," Judge Bacon replied, "if it affected me in that way I should always be lying on the floor of this court."—London Tit-Bits.

Man who makes his wife support seven on 75 cents a week has wonderful control over his wife.

Backache Spells Danger

Do you know that your bad back may be merely a hint of some hidden, deep-seated kidney disorder? Census records show that deaths from kidney disorders have increased 72% in 20 years. People can't seem to realize that the first pain in the back, the first disorder of the urine, demands instant attention—that it may be a signal of coming rheumatism, gravel, dropsy or fatal Bright's disease. The best prevention of serious kidney disorders is prompt treatment—the best medicine is Doan's Kidney Pills.

A North Dakota Case

"Every Picture Tells a Story"

Mrs. H. Dalbec, Thompson St., Bottineau, N. D., says: "Kidney trouble came on with a sharp pain in my kidneys, followed by a dull, grinding ache through my back. I got weak and languid and the kidney secretions were in bad shape. Nothing helped me until I used Doan's Kidney Pills. They soon relieved the backache and removed the other ailments. I have not been bothered to amount to anything since."

Get Doan's at Any Store, 50c a Box
DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., BUFFALO, N. Y.

PARKER'S HAIR BALSAM
A toilet preparation of merit. Helps to eradicate dandruff. For Restoring Color and Beauty to Gray or Faded Hair. 50c. and $1.00 at Druggists.

From Girlhood to Womanhood

THE change may be critical and cause untold suffering in after-life. The modern young woman is often a "bundle of nerves"—"high strung"—fainting spells—emotional—frequently blue and dissatisfied with life. Such girls should be helped over this distressing stage in life—by a woman's tonic and nervine—that has proven successful for over 40 years.

Dr. Pierce's Favorite Prescription

is a keen enemy to the physical weaknesses of woman. A medicine prepared by a regular graduated physician of unusual experience in treating woman's diseases—carefully adapted to work in harmony with the most delicate feminine constitution.

It is now obtainable in liquid or sugar-coated tablet form at the drug store—or send 50 one-cent stamps for a trial box, to Buffalo.

Every woman may write fully and confidentially to Dr. Pierce and his staff of physicians and Specialists at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and may be sure that her case will receive careful, conscientious, confidential consideration, and that experienced medical advice will be given to her free.

DR. PIERCE'S PLEASANT PELLETS regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules easy to take as candy.

The Wretchedness of Constipation
Can quickly be overcome by
CARTER'S LITTLE LIVER PILLS.
Purely vegetable—act surely and gently on the liver. Cure Biliousness, Head-ache, Dizziness, and Indigestion. They do their duty.
SMALL PILL, SMALL DOSE, SMALL PRICE.
Genuine must bear Signature
Brent Good
CARTER'S LITTLE LIVER PILLS.

SPECIAL TO WOMEN
The most economical, cleansing and germicidal of all antiseptics is
Paxtine
A soluble Antiseptic Powder to be dissolved in water as needed.
As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been cured say it is "worth its weight in gold." At druggists. 50c. large box, or by mail. The Paxton Toilet Co., Boston, Mass.

Notice To The Farmers!

Do you realize you have in your herd of "Cows" what we call Boarders? A Cow that does'nt pay for the feed she consumes. Possibly some make a very small profit but not enough to pay for the work. Others may be paying you a good profit over feed, care, etc. To find out which ones are boarders, join the Testing Association. Contest begins Dec. 1 and if you join with the many who will keep a "Daily Record" of their cows to Dec. 1, 1915, you will be in a position to know which one to sell, when a buyer comes and offers you big prices for a cow he happens to want and trys to make you believe she is not a good milker. Don't believe it. No man can tell a good profit making cow without weighing and testing her milk. Find out your best cows and keep them. Sell the boarders. Remember the dairyman is a winner every time— wars and hard times affect him less than other people.

These are some of my patrons who will begin keeping a daily record on Dec. 15. 1914: P. T. Olson, Chris Sheveland, O. A. Thompson, T. B. Folden, Chas. [illegible], T. O. Dovre, Elvin Arickson. Erick Johnson, G. P. Sorier. John Engstrom and Louis Wegge. Let us all join.

P. L. Anderson.

KAISER'S TROOPS REPULSED IN WEST

ONSLAUGHT AGAINST BRITISH HOLDING LINE EAST OF YPRES IS MOST PRONOUNCED.

FRENCH CLAIM SIGNAL SUCCESS OVER GERMANS

Notable Success Over the Teutons in the Forest of LePretre Is Told in Official Statements Issued From War Office—Heavy Losses Are Inflicted.

Paris, Dec. 15.—The Germans have been checked in two violent attacks on the extreme ends of the battle front. Most pronounced was the onslaught against the British forces holding the line extending eastward from Ypres. The other was directed against the railway station of Aspach, west of Muelhausen, which the French captured on Friday.

The desperate efforts of the Germans to retake this advantageous position like their attempt to break through the British lines in the north, resulted in failure, the allies maintaining themselves sturdily in their trenches while inflicting heavy losses upon the attacking forces.

French Are Successful.

Reports received from the front and made public in the official statements issued from the war office during the day, told of a notable success of the French arms over the kaiser's forces in the forest of LaPretre. The battle has been raging in that section of eastern France for several days, with the French steadily advancing in spite of the determined resistance of the Germans.

The French threw the full force of their columns against the Germans, driving them to the north, and compelling them to evacuate positions of great strategical values.

The aggressive campaign of the French on the forest of LaPretre forms a vital portion of the general plan of two closely related purposes—one the isolation of the German army corps at St. Mihiel and the other the gain of vantage points for the continuation of the march toward Metz.

Take Offensive in Alsace.

Supplementing the official statement is a report received in a dispatch from Geneva and published in Le Echo of Paris concerning the fighting in Alsace. The dispatch says:

"The French have taken the offensive in Alsace and are marching on Altkirch. They have seized the villages of Bisel, Largitzen, Hartsebec and Carspach, while near Pfettenhaven they have captured a number of German trenches. In these operations the losses suffered by the French were only four killed and twelve wounded."

Intermittent cannonading was the only evidence of activity on the part of the Germans, with the exception of that division of their forces which is facing Ypres. Here three desperate infantry assaults were attempted, supported by a heavy fire from their field artillery, but each of them was met and repulsed by the British defenders. The losses sustained by the attacking force were considerable.

The Vosges region, particularly in the vicinity of Senones, where the French have established themselves in great force, was again the scene of attacks, first by one side, then the other. The sum of this fighting has been the retention by each of their respective fortified positions.

Germans Are Repulsed.

Several attacks have been directed by Germans against the post of La [illegible] Henri, northwest of Senones, [illegible] the kaiser's troops particular[illegible] [illegible] because of its excellent command of the French supporting positions, but each time the venture has been made the Germans have been driven back. In the latest attacks it appeared that their energy had been greatly spent.

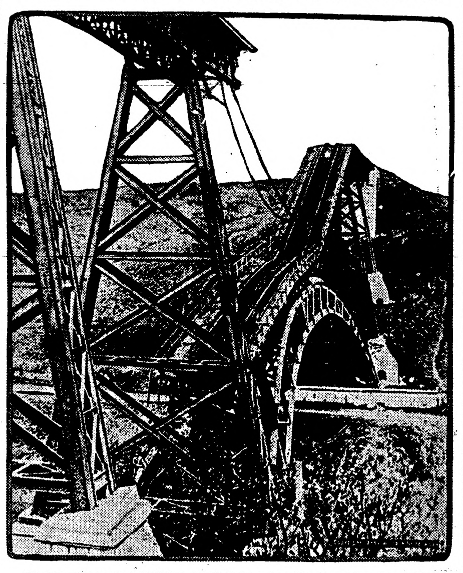
With the return to Paris of President Poincare and the greater number of the government officials, and with the revival of commerce, which is gaining momentum daily, the capital is rapidly resuming its normal aspect. Except for the arrival of wounded soldiers from the fighting front and the aeroplane patrols in the skies above the city, there are no outward signs in Paris that the nation is engaged in a great struggle for its existence.

Make Attack in Rainstorm.

London, Dec. 12.—Half a dozen German submarines made an attempt to enter the admiralty harbor, according to a Dover dispatch to the Exchange Telegraph company, and for half an hour the batteries kept up a furious fusillade, firing at least 200 shots. It is reported that two or three of the submarines were sunk, but no confirmation of this can be obtained. The attempt was made under cover of early morning darkness and during a heavy rainstorm. The first alarm, says the dispatch, was given by the firing of a naval gun, and soon all the batteries were in action.

The admiralty, to whom this dispatch was submitted, said it had not received confirmation of the reported attack.

GREAT BRIDGE DESTROYED BY AUSTRIANS



During the recent fighting in Galicia, when the Russians were driving the Austrians before them, the Austrians destroyed this magnificent bridge to retard the progress of the enemy.

LATE WAR DEVELOPMENTS

Two desperate German attacks at the extreme ends of the battle line through France and Belgium were repulsed by the allies, and according to the official French statement, the French made considerable progress in the forest of La Pretre.

* * *

A dispatch from Geneva Switzerland, states that the French are now marching on Altkirch in Alsace after capturing several towns and gaining numerous advantages over the German troops in that part of the western theater of war.

* * *

The battles in Poland and the eastern arena are still progressing, it is reported from all sources, without indication of a decisive result as yet.

* * *

The condition of Emperor William is reported from Berlin to be much improved although in Switzerland it is said he will have to undergo an operation as soon as sufficiently strengthened.

* * *

The fate of the German cruiser Dresden is now declared to be a matter of conjecture as a late report says she has arrived in the Straits of Magellen after having been reported aground off Puerto Galleros Saturday.

Few British Casualties.

London, Dec. 11.—A British squadron under command of Vice Admiral Sir Frederick Sturdee, chief of the war staff, engaged a German squadron under Admiral Count von Spee off the Falkland Islands in the South Atlantic and won a victory which is being acclaimed throughout England.

The armed cruisers Scharnhorst and Gneisenau and the protected cruiser Leipzig, three of the German warships which had been menacing British shipping and part of the squadrons which sank the British cruisers Good Hope and Monmouth in the Pacific on Nov. 1, were destroyed, while the German cruiser Dresden and Nurnberg made off during the fight and are being pursued. Two colliers were captured.

Boer War Hero Dies.

Capetown, Union of South Africa, Dec. 14, (via London).—The death was announced yesterday of Major General Sir Edward Yewd Brabant, who gained fame as the commander of a division of colonials, known as Brabant's horse, in the oBer war. He was born in 1839.

Noted French Physician Dies.

Paris, Dec. 14.—Charles Perier, president of the French Academy of Medicine, is dead. He was born in 1836.

NO LET-UP IN POLAND BATTLE

BOTH RUSSIANS AND GERMANS ANNOUNCE SUCCESSES.

Austrians Preparing to Leave Belgrade, Says Report—Servians' Recovery Marvelous.

London, Dec. 15.—The battles in Poland continue almost without intermission, and while both Russians and Germans announce successes and the capture of prisoners and guns, apparently no decisive result has been reached in any series of contests. The Germans are still delivering heavy blows at the Russian center, where they assert they took 11,000 prisoners and 40 machine guns, while to the south of Cracow, where the Russians are on the offensive, Grand Duke Nicholas records the capture of 4,000 prisoners, four guns and seven machine guns.

Another Russian force is holding the passes of the Carpathians, and is thus preventing the Austrians from sending relief to their army in Galicia. There is no news of the German troops who are advancing south of Mlawa with the object of attempting to turn the Russian right, since Petrograd reported a partial success over them.

Wonder at Servian Recovery.

The marvelous recovery of the Servians and their defeat of four Austrian army corps which had penetrated half way across Servia remains the wonder of military men. The crown prince, in his address to his troops, told them they had beaten and pursued with a rapidity unheard of in military history.

The shattered Austrian right wing crossed the Drina into Bosnia, where it was attacked by the Montenegrins near Vishegrad, and had to leave another toll of prisoners, killed and wounded and war material. The pursuing Servians also picked up another 5,000 prisoners and some guns and munitions.

Austrians May Leave Belgrade.

The Austrian army from Belgrade has again essayed attacks against the Servian right wing, but, meeting with no success, retired. It is officially reported the Austrians are preparing to leave Belgrade.

That the former German cruiser Goeben, now owned by Turkey, was not so seriously damaged in her brush with Russian cruisers as has been reported, is shown by the fact she took part in the recent attack on Batum, the Russian seaport, which, according to the Turks, resulted in a serious fire, but which the Russians say caused little damage.

Bulgaria, according to a Paris report, has expressed to the powers of the triple entente her desire to remain neutral. This means Roumania, if she so wished, would be able to join the allies without fear of being attacked by Bulgaria.

Blames Germany and Austria.

Amsterdam, via London, Dec. 12.—Dr. Karl Liebknecht, the Socialist member of the Reichstag, who was the only one to vote against the war credit at the recent session of the Reichstag, explains his action in an article just published in Berlin. He says: "This war was not desired by any of the peoples affected, nor was it kindled to promote the welfare of the Germans or any other people. It was created by the common action of the German and Austrian war parties."

Declare Scandinavian Ships Prizes.

London, Dec. 14.—A German prize court at Swiftemunde has declared as prizes two Danish and 24 Norwegian steamers. The newspapers throughout Denmark, Norway and Sweden express the greatest indignation at these seizures, the correspondent adds. The National Committee of Norwegian Ship Owners met at Bergen and passed a resolution urging the foreign office to act promptly to obtain a change in the sentence of the prize court.

Cut River-Harbors Appropriation.

Washington, Dec. 9.—The reduction from $35,000,000 to $20,000,000 of the rivers and harbors appropriation by last summer's session of Congress was the vital topic of interest when delegates from every state in the Union gathered to attend the eleventh annual convention of the National Rivers and Harbors Congress.

The members of the Rivers and Harbors Congress look upon the measure as about the most important one which Congress is called to act.

William A. Friedman, New York City.
Sister Esther, St. Clair's College, Cinsinawa, Wis.

Faribault, Minn., Dec. 15.—One person was killed and twenty others more or less seriously injured in the wreck of north-bound Rock Island passenger train No. 63, eight miles north of here, while speeding at the rate of thirty miles an hour.

A broken rail is believed to have caused the accident.

Miss Edith Wheeler of Farbault, who taught school in Northfield, was instantly killed.

Coaches Are Derailed.

The train of five coaches left the track after tearing up the track for 500 feet. The engine stayed on the rails and the mail coach was derailed, but remained upright. The baggage car was thrown at right angles to the roadbed, but remained attached to the mail coach.

The smoker, on which a number of people were riding, lay across the roadbed on its side. The day coach was swung around at right angles to the track and two other coaches were overturned before the train could be brought to a stop.

Thrown Almost Through Window.

It was in one of these that Miss Wheeler was killed. She was thrown across the car and partly through one of the windows just as the car turned over on its side. A relief crew from here broke a hole through the top of the coach, but it was found necessary to dig away the ground before the body could be removed, which was brought here in an ambulance.

Train No. 59, due here at 1:47, did not arrive until an hour and a half after No. 63 had left. It was planned to send it out as a relief train, but in the meantime the engine of the wrecked train had made the run to Northfield and secured coaches in which the injured were rushed to the Northfield hospital.

It was impossible to ascertain how seriously the survivors were injured, but it is believed all will recover. The injured were cared for by physicians from Northfield and Faribault, who were rushed to the scene of the accident on the relief train and in automobiles.

Soldiers Receive Victoria Cross.

London, Dec. 14.—The granting of ten Victoria crosses within the last few weeks brings the total number of those awards during the present war up to twenty-one. The cross is the highest reward given to the British army "for some signal act of valor or devotion performed in the presence of the enemy." The medal is in the form of a maltese cross of bronze, bearing in the center the royal crown, surmounted by the lion, and below on a scroll, the words "For Valor."

New York Editor Very Ill.

Atlanta, Ga., Dec. 14.—Arthur Brisbane, editor of the New York Evening Journal, became seriously ill at a local hotel.

Bars Navy Tonnage Figures.

Washington, Dec. 11.—In order that the United States may observe strict neutrality in the European war the Navy Department will not issue this month the usual comparative statement of the warship tonnage of the principal naval powers of the world, hitherto issued in December and July of each year. Instead of attempting to put out a statement corrected to date, the Intelligence Office of the Department reissued the statement of last July when all of the nations now at war were at peace.

WOULD DEVELOP TIMBER SECTIONS TO YIELD RETURNS

SECRETARY OF AGRICULTURE RECOMMENDS CHANGE IN METHODS OF ADMINISTERING FORESTS.

DAIRYING HAS BECOME AN IMPORTANT BRANCH

Progress of Agriculture Reveals Itself More Particularly in Diversification, in the Rise of Minor Crops, Than in Increased Production of Staples.

Washington, Dec. 11. — David F. Houston, secretary of agriculture, in his report for the fiscal year ended June 30, 1914, recommends a change in the methods of administering the national forests in undeveloped sections, so that they will yield at once revenue that can be applied to local development which will further assist communities and aid in the settlement of the territory. Under this plan the department instead of waiting until timber is actually sold before the unsettled counties gain any revenue from this form of public domain, will, if congress grants the necessary authority, underwrite its proportion of expenditure for local improvement, especially for road construction, and charge this against the counties' shares of timber sales when the timber is opened for commercial cutting. The theory underlying the department's proposal in this matter is that the forests in these sections constitute a large part of the lands and prospective public income of the territory, and that the forests, therefore, should bear their share of the pioneering expense.

In the present report the secretary of agriculture has confined his discussion almost exclusively to the pressing problems of increasing the food supply of the nation and of bettering rural life.

Crop Production.

Dealing with the general crop production of the country, the report finds:

"The progress of agriculture reveals itself more particularly in its diversification, in the rise of minor crops to large proportions, than in the increased production of stable products. For example, dairying in the last generation has become an exceptionally important branch of the agricultural economy, the annual production including more than one and a half billion pounds of butter, a half billion pounds of condensed milk, and a billion pounds of cheese, having a value of approximately $600,000,000. The production of orchard fruits exceeds 216,000,000 bushels a year, with a value of more than $140,000,000. The value of the annual production of vegetables is in excess of $400,000,000. The production of hay and forage approximates 100,000,000 tons, with a value in excess of $800,000,000; the poultry products of the nation have reached a point where their annual value is about one-half that of the cotton crop at normal valuations, and marked increases are noted in the quantity and value of the cereals."

Products Show Marked Increase.

The secretary's report includes a table giving the census figures for 1899 and 1909, showing that in all products except corn and meat animals there has been a marked increase in production during the ten-year period. Continuing, the report says:

"We know that the wheat crop of 1914 of approximately 892,000,000 bushels is the greatest ever produced in our history, and that the crops of oats, barley, rye, potatoes, tobacco, and hay are unusually large. The cotton crop, forecast in October at 15,340,000 bales, is the second largest. The apple crop, estimated at 259,000,000 bushels, is the greatest ever harvested. The total production of six leading cereals is estimated to have been nearly 5,000,000 bushels, or about 428,000,000 bushels in excess of the crop of 1913. For the country as a whole the crop yield per acre was 2.3 per cent better than the average for the last ten years. The average yield per acre of all staple crops was 9.4 per cent greater than 1913, and except for corn, oats, and flaxseed, greater than the ten-year average."

British Advance in France.

London, Dec. 12.—Reuter's Boulogne correspondent, who has just returned to Boulogne from Armentieres, says that Tuesday the Germans were driven out of Armentieres by the British and hurled back beyond artillery range.

Of Little Faith.

The children were "playing church" and Johnny, mounted on an upturned pail, was "parson." "Youse people," he declaimed, "you ain't got no faith. Here's me been prayin' for rain for the last six weeks, and youse people ain't even bought a single rain coat."

FIND TIME FOR KINDNESSES

Two Stories of Courteous Conductors Who Looked After Their Passengers.

"Once I was down in Louisiana," a traveler began, "on a little railroad that runs from Franklin to Week's Island. It took five hours to go 20 miles. The most amazing thing to me was that the conductors stopped the train anywhere he was asked to, and if there were no one to meet a woman passenger with innumerable bags and the inevitable baby, he helped her across a plowed field or sent a brakeman to carry her traps to her own gate and the train waited until he came back."

"Nothing surprising about that," returned a born New Yorker. "The Madison avenue cars stop every day for reasons quite remote from a regular schedule. I was on a car this afternoon and a little boy dropped his mother's umbrella out of the window. The conductor stopped the car and ran back a block and a half, got the umbrella, delivered it to the woman and incidentally advised her not to let her son have it again.

"Besides, I've known of more than one eye being punched out of a careless baby with such a plaything."—New York Times.

Like Bread on Water.

He—I gave a poor man a dollar yesterday and told him to come around and let me know how he was getting on.

She—That was good of you; like casting your bread upon the waters.

He—Yes, something like that. Anyway, he came back this morning "soaked."—Boston Transcript.

A Doubtful Frame of Mind.

"Do you believe in unpreparedness for war as a powerful influence for peace?"

"I'm not sure about that," replied Senator Sorghum. "I can't see any evidence to the effect that no monarchy would have the heart to shoot up an unarmed nation."

It isn't always love that makes a man attentive to his wife. Maybe he is afraid of her.

MESMERIZED

A Poisonous Drug Still Freely Used.

Many people are brought up to believe that coffee is a necessity of life, and the strong hold that the drug, caffeine, in coffee has on the system makes it hard to loosen its grip even when one realizes its injurious effects.

A lady writes: "I had used coffee for years; it seemed one of the necessities of life. A few months ago my health, which had been slowly failing, became more impaired, and I knew that unless relief came from some source I would soon be a physical wreck.

"I was weak and nervous, had sick headaches, no ambition, and felt tired of life. My husband was also losing his health. He was troubled so much with indigestion that at times he could eat only a few mouthfuls.

"Finally we saw Postum advertised and bought a package. I followed directions for making carefully, and added cream, which turned it to the loveliest rich-looking and tasting drink I ever saw served at any table, and we have used Postum ever since.

"I gained five pounds in weight in as many weeks, and now feel well and strong in every respect. My headaches have gone, and I am a new woman. My husband's indigestion has left him, and he can now eat anything."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

—sold by Grocers.

Are Your Kidneys Weak?

Do you know that deaths from kidney troubles are 100,000 a year in the U.S. alone? That deaths from kidney diseases have increased 72% in 20 years? If you are run down, losing weight, nervous, "blue" and rheumatic, if you have backache, sharp pains when stooping, dizzy spells and urinary disorders, act quickly, if you would avoid the serious kidney troubles. Use Doan's Kidney Pills. There's no other medicine so widely used, so successful or so highly recommended.

A North Dakota Case

"Every Picture Tells a Story"

N. M. Danrot, carpenter, 511 Seventh St., Bismarck, N. D., says: "For five years I suffered terribly from sharp, shooting pains through the small of my back. The kidney secretions passed too frequently and I often had to get up at night on this account. There was sediment in the secretions and they looked unnatural. After I used several remedies without benefit I got Doan's Kidney Pills. They helped me right away and before long made a complete and lasting cure."

A toilet preparation of merit. Helps to eradicate dandruff. For Restoring Color and Beauty to Gray or Faded Hair. 50c. and $1.00 at Druggists.

Biggest Talker in the British House.

Mr. Lloyd-George, the chancellor of the exchequer, is the greatest talker in the British parliament.

The chancellor spoke 170 columns of "Hansard," while the prime minister comes sixth down the list with 108 columns. The member who asked the most questions was Mr. Fred Hall of Dulwich, who put 359.

In one sort of contest Mr. Will Hall is easily beaten by Mr. Will Thorne, the socialist. The ordinary rate of speaking is 100 to 150 words a minute. Mr Will Thorne puts his questions to the government at the rate of about six hundred words a minute. Mr. Hall cannot do better than a mere 450 words a minute.

For Itching, Burning Skins.

Bathe freely the affected surface with Cuticura Soap and hot water. Dry without irritation and apply Cuticura Ointment with finger or hand. This treatment affords immediate relief, permits rest and sleep and points to speedy healment in most cases of eczemas, rashes, itchings and irritations of the skin and scalp of infants, children and adults. Free sample each with 32-p. Skin Book if you wish. Address post-card: Cuticura, Dept. X, Boston. Sold everywhere.—Adv.

Cure for Thirst.

"What do you want the ten cents for?" asked the minister.

"Booze," replied the bleary beggar, shamelessly. "I need it awful bad—it's jest about killin' me."

"Isn't there any way you can get rid of that terrible appetite for drink?"

"Yep—I kin do it in a holy minute if you'll lemme have that dime."—Toledo Blade.

Sure Not.

He—I'll never give you up.

She—Then there's no reason for me to hurry about accepting you.

THE CHRISTMAS STAR

By JEAN DOUGLAS.

THE twilight of Christmas eve crept slowly over the city, disguising the harsh outlines of the housetops with a soft gray blanket.

The spirit of Yuletide filled the air, and since you could not help breathing it, the joyous song of "Peace and good-will" flooded the inner being as well.

In the dormer window of an attic chamber overlooking the city stood a little child. She was thin and pale, but even these ravagers of beauty could not rob her features of their loveliness. Great blue eyes and golden curls enhanced the fairy-like delicacy of her face, and though ill clad she possessed the bearing of a princess. Now and again she left her post at the window and, opening the door, listened as if expecting to hear familiar footsteps ascending the stairs.

When it was almost dark and lights began to appear here and there over the housetops, like will-o'-the-wisps in a marshy bog, she drew a chair beneath the hook driven in the closet door from which an exceedingly shabby coat and weather-beaten hat were suspended. By this means she was able to reach the garments and was soon attired for the street. Running back to the window she scanned the city and the heavens. Just above the horizon gleamed a single star of wondrous brilliancy, and the child, enraptured by its beauty, forgot that she intended to go out and remained motionless watching the resplendent glory of heaven's jewel. The room was flooded with a soft shimmering light, and the child gave a sob of joy as she suddenly realized that the star moved. As far as she could see the same silvery radiance flooded the sky. The great soul within that tiny body sang with happiness and she softly whispered: "It is the star of Bethlehem. I must follow it, like the three wise men!"

She hastened from the room and down the flights of steps to the street. The star moved on and on, unfalteringly, and the tiny figure trembled in every limb as it followed the wondrous light.

Beyond the boundary of the city, over frozen roads and frost-whitened fields, the tireless little feet, ill protected by their worn shoes, hastened after the star.

At last she came to a tiny house nestled among a group of fir trees. From the windows came paths of yellow light, whose warmth and cheeriness drew her on to the door.

She did not pause to knock, but lifted the latch and entered. The room was scantily furnished, but a glowing log fire bathed the homely surroundings with a glorified beauty.

Seated in front of the fireplace was a woman who bent lovingly over an infant. Grouped about her were three children, while the father of this happy family stood somewhat back of the mother hanging a branch of evergreen above the mantel.

As the little stranger entered and hesitated, the children rushed forward to greet her.

"Come in, child," said the mother.

The tired little girl moved eagerly forward. "Have I found the king?" she asked.

"The king?" questioned the proud mother. "Yes, we think baby is a king." And she placed the soft, pink face of the infant close to that of the child, who reverently kissed its cheek.

"I have brought him a gift," she whispered, shyly, offering a little bead purse. The mother stooped and imprinted a warm kiss on the lips of the tiny gift bearer.

"He will love it, and would thank you if he could. See, he reaches for it now." The chubby fingers, attracted by the brightly colored beads, tried their best to grasp the purse.

"You have given him his first Christmas gift," said the father. "Draw near the fire—you are cold—while I get a bowl of bread and milk."

The child removed her hat and coat, seated herself on the hearth stool and was soon enjoying the simple fare.

"How did you find us?" the woman asked.

"I followed the star," she replied.

Chance for Burbank.

"Here's something for Burbank to try his hand on," said a man to his neighbor.

"What's that?"

"Training a Christmas tree to sprout its own presents."

Giving of Presents.

It was the custom among Romans to exchange gifts at their winter festival, and this custom may have descended to us from antiquity. But Christians like to feel that it was because the wise men brought gifts to the infant Jesus, and because of the gift of God to the world. Gifts to the poor seem from the earliest Bible times to have been an expression of a thankful heart.

The Day of the Child

By WILBUR D. NESBIT

THE tree shines with the candle glow,
The trinkets glitter jewel-wise,
And we would that our souls might know
The joy told in the children's eyes.
Such sheer delight as this of theirs—
A wondrous happiness it is!
And every word the message bears:
This is the children's day—and His!

LET us come, as the Wise Men came
Those nineteen centuries agone,
Led by the Star's eternal flame
That bade them rise and hasten on.
They brought rare frankincense and myrrh,
They brought rich gems and graven gold,
They knelt, adoring, near to Her,
And all their marvelings they told.

AYE, as those Men of long ago,
Today we too, may see the Star,
May see its mystic heavenly glow
Flash out o'er Childland fair and far;
And from our hands now fall the gifts
And we know why the Wise Men smiled
With gratefulness; and each heart lifts
Its chant of worship of the Child.

MANITOBA'S AGRICULTURAL INDUSTRY

REMARKABLE DEVELOPMENT IN THAT PROVINCE DURING THE PAST FEW YEARS.

The past year has shown that the Province of Manitoba, the Premier Province of Western Canada, stands out prominently in point of wealth in her agricultural productions. Manitoba had an excellent yield of wheat in 1914, the oat crop was not so good, and with the high price received, every farmer was placed in a good financial position.

For some years, as is probably the case in all new countries, Manitoba went largely into the growing of grain, and while this paid well for a time, it was found that having to purchase his meat, his milk and a number of other daily requisites, the farm did not pay as it should. Now, there is another side to it. Fodder crops are grown, cattle are being raised, cheese factories and creameries are established, and the result is that the financial position of the farmers of Manitoba is as strong as that of those in any other portion of the continent. Scarcely a farmer today but has realized that the growing of grains alone has a precarious side, and that positive security can only be assured by diversified farming, and securing the latest modern and most economic methods. Therefore timothy, clover, alfalfa, rye grass and fodder corn are universally grown. Most wonderful success meets the efforts of the farmers in the cultivation of these grasses, and the yields compare favorably with those of many older countries, while in many cases they exceed them.

It is worth while recording the acreage of these crops this season as compared with last, because the figures reflect the remarkable progress that is being made in dairying and in the beef and pork industry. In 1913 brome grass was sown on 24,912 acres, rye grass on 21,917 acres, timothy on 118,712 acres, clover on 5,328 acres, alfalfa on 4,709 acres and fodder corn on 20,223 acres. In 1914 the respective acreage under those crops were 25,444 acres, 27,100 acres, 165,990 acres, 7,212 acres and 10,250 acres and 30,430 acres. Alfalfa particularly is coming into its own, the acreage having been more than doubled last year.

It is simply the natural process of evolution from the purely grain farming which Manitoba knew as the only method twenty years ago to the more diversified forms of agriculture that is responsible for the development along these other lines in this Province. Alberta is coming to it at an earlier stage than did Manitoba. Saskatchewan, too, is following rapidly in the same direction.

Then, as her fodder crop and root crop acreage indicate, there have been increases in the holdings of all kinds of live stock during the past twelve months, according to the correspondent for the Toronto Globe. Beef cattle number 42,000 head this year, as against 37,000 last year; milch cows are 160,474 head, as against 157,963 head; pigs number 325,000, as against 248,000; sheep number 75,000, as against 52,000; and there are 325,000 horses, as compared with 300,000 at this time last year. These are the latest Provincial figures, and they show that despite the great efflux of live stock to the United States since the opening of that market to Canada, the capital amount of live animals has increased instead of having decreased through the extra demand.

Dairying the Principal Industry.

Dairying is the industry, however, which is making dollars for the Manitoba farmer. It is developing at a rapid rate in this Province for that particular reason. The output of creamery butter last year was 4,000,000 pounds, at an average price of 27.5 cents per pound, which was an increase over the previous year of a million pounds. The output of dairy butter was recorded last year at 4,288,276 pounds. The Government department says that again this year a substantial increase in the dairy output will be shown from this Province. From this same source of information one finds that through the splendid growth in winter dairying, Winnipeg now, for the first time in years, is able to obtain a sufficient supply of milk and sweet cream from its city dairies to satisfy its demand throughout the year without having to import large quantities of these products from the United States as was done not longer than two years ago.—Advertisement.

Coinage.

In the fifteenth century a skilled coiner, of whom there were but few, might be able to turn out by hand fifty or sixty coins a day, a result totally inadequate to cope with the vast quantity of treasure, chiefly silver, that shortly began to arrive from America. To multiply coiners was to multiply forgers, and thus the coining machine bcame a necessity of state. A laminating mill and screw coining press was invented in Italy, 1547; Spain, 1548; France, 1553; England, 1561, reign of Elizabeth. After several trials and abandonments the mill and press were established permanently under Charles II, whose golden guineas, struck in 1662, were the first regular issues of machine coins made north of the channel.

No News.

"Did you ask little Jimmy Wombat about the fight over at his house the other night?"

"Yes."

"And what did you get out of him?"

"Not very much. His mother is evidently an exceedingly strict censor."—Judge.

Self-Satisfaction Explained.

WATCH SHOULDERS OF CHILD

If Allowed to Become Round in Early Life the Condition Is Hard to Remedy Later.

The general appearance of one afflicted with round shoulders and flat chest is quite familiar to the observer. The head projects forward, the shoulders droop and the chest is narrow and flat. The shoulder blades stick out prominently and the abdomen protrudes. Children with round shoulders are as a rule below the average in muscular development and lack vigor, are clumsy in their movements, and walk heavily.

There are three kinds of round shoulders, the ordinary round back, the round hollow back and the round back due to forward displacement of the shoulders. During the years of growth, posture will usually take care of itself, if constant changes are allowed. Change is instinctive and automatic in the child and the varied activities are sufficient to lead it along normal lines. If, from inherent weakness or the confinement of school life without the relief of games and play, this normal development be hindered, the result will soon show in the spine.

The causes of round shoulders are those general conditions which produce muscular or constitutional weakness, like rapid growth, overwork, bad air in schools or the home, acute illness, unhygienic surroundings, or general lack of exercise. It is probable that a weakness of the will is a more important cause than weakness of the muscles.

Round shoulders are not likely to be outgrown, as the victims usually become permanently and structurally set in the faulty position, with flattened chest walls and distorted figure. —Dr. William J. Cromie, in Woman's World.

NOT THE SAME SWEET ALICE

Probably Ben Bolt Would Find It Hard to Recognize His Sweetheart in Modern Maid.

Oh, don't you remember sweet Alice, Ben Bolt, when her hair was a beautiful brown? You never in the world would know her as she looks today with a cane and a trouserette gown. Her Paris-made curls are the new purple tint; when I called I could scarce trust my eyes, for she wore a little nightcap, the lastest Paris hint, with rosebuds and pink ribbon ties.

Sweet Alice is now on the stage, Ben Bolt; she began at the end of the row. She smiled with delight at the public each night, and now she's the hit of the show. She dances a tango that sets them a-whirl, with a dip and a kick and a glide. You'd never believe 'twas the same little girl that the song wrongly stated had died.

She's a cigarette case on the end of a chain, where the old fashioned one wore a fan; has a flat and a maid and Pomeranian pup; her motor is olive and tan. And down at the theater place where she plays, her pictures are hung by the score, and they've fitted a slab with about a thousand electric lights and sweet Alice's name up over the door.—Kate Masterson, in Life.

Monastery at Disentis.

The Alpine monastery of Disentis was founded by an Irishman. But British mountaineers know it chiefly as the home of Father Placidus a Speacha, an eighteenth century pioneer at climbing, whose great ambition was to ascend the highest local peak, the Todi (11,887 feet). His brother monks suspected him as an atheist because of his scientific tastes, as a French spy because of his climbs and maps. When the invading French demanded 100,000 francs from them and Placidus secured a reduction of 20,000 they held his Jacobinism proved. The French burned the monastery, and his MSS. perished. The Austrians imprisoned him. Finally, aged seventy-two and no longer able to climb so high himself, he wistfully watched the chamois hunters conquer the Todi for him.

Scotch Not to Blame.

The harp was the Highlander's instrument before the bagpipe. That point was insisted upon by a Scotchman of fifty years ago, the lord advocate of the time, who was anxious to disclaim his country's responsibility for the bagpipes, and to show that they were "English, essentially English." He appealed to Shakespeare, who often mentions the pipes, but not once in "Macbeth," his only Scottish drama; it is in Lincolnshire and Yorkshire that he localizes the instrument. James IV's accounts contain an item for "Inglis pyparis," while our Edward I had his court pipers, and from his time on to Elizabeth's mention of such officials constantly recurs. Most Englishmen are thankful to have given the pipes safe conduct across the border.—London Chronicle.

Excelsior.

An old colored man was relating to a crony his experiences during a drive down the mountain after dark. He had seen two wild-cats fighting.

"Dey fought and dey fought," he said, "an' all de time dey wuz a-climbin' up in de air, till by'm by dey wuz clean ovah de treetops."

"What wuz dey a-holdin' on tu all de time dey wuz a-climbin', Rastus?" asked the skeptical listener.

"Holdin' on tu!" exclaimed Rastus scornfully. "Wy, de top one wuz a-holdin' on to de bottom one, an' de bottom one wuz a-holdin' on to de top one, of course!"

A HOME BANK
MINNESOTA
UNDER STATE SUPERVISION

Christmas Greetings!

May the Day bring forth its share of the Good Things of Life and Happiness and real Content. Above all, may it be a day spent among those you Love the Best and who Love you. May that which was unprofitable and unpleasant during the Nineteen Hundred Fourteen disappear with the old year, and may Good Health, Good Fortune and Happiness be your companions for 1915.

For 1915!!

RESOLVE,— you and I— to do better in 1915 than we did in 1914,—better for ourselves, for our families, for our friends,— for all humanity. So that when another January first rolls 'round we can truly say, "I have just closed the best year of my life." Here's hoping we can all say just that.

Farmers' State Bank of Holt

Merry Christmas
Happy New Year
To all of Our Friends and Customers

May you have a bright and joyous Christmas and a happy New Year, and may you be richly blessed with Health, Wealth, Happiness and Prosperity.

Our business for 1914, far exceeded our fondest expectations, and we shall endeavor to merit a continuance of the same.

Thanking one and all for the liberal patronage given us,
We remain, Respectfully Yours

Sollom Bros. - Holt, Minn.

We heartily Wish You all a Very MERRY CHRISTMAS and a Happy and Prosperous NEW YEAR!

With the expiration of another year we wish to thank you one and all for the liberal patronage given this Store, and our hope is that we have made all, both Old and New Customers Satisfied.

Satisfied Customers not only makes business a pleasure, but is one of the best advertisements a Store can have, this has been our Motive in the past and will be in the future.

REPORT BRITISH DREADNAUGHT IS SUNK BY MINES

EIGHT MEN WITNESS SINKING OF WARSHIP IN THE NORTH SEA, ACCORDING TO CHICAGOAN.

CREW HURRIES TO SCENE TO RESCUE SURVIVORS

Thirty-five Men Taken From Steamship by British Authorities at Plymouth and Detained for Eight Days Pending Investigation as to Their Being Spies.

New York, Dec. 22.—A report that the British dreadnaught Thunderer was sunk in the North Sea on Nov. 7 by coming into contact with a mine or being hit by a torpedo was brought here by George Rottweiler of Chicago, a passenger on the steamship St. Louis from Liverpool.

According to Mr. Rottweiler, the sinking of the dreadnaught was witnessed by eight men, members of the crew of a small Swedish sailing ship called the Soefjord, that put into Liverpool with survivors from the dreadnaught on board.

Said Thunderer Blew Up.

"These men were taken in charge by British officers and were kept under surveillance at an out-of-the-way sailors' mission," said Mr. Rottweiler. "I heard of the report in a roundabout way and through a friend I managed to talk with one of the crew. He told me the Thunderer blew up and sank in full view of himself and his mates on the Soefjord. The crew hastened to the scene and a dozen or so of men were picked up from the water."

Mr. Rottweiler said he is the European representative of the Western Metals Products company of Chicago. He was a passenger on the steamship Noordam, leaving New York for Rotterdam the early part of September.

He and thirty-five others were taken from the ship by British authorities at Plymouth and detained for eight days, pending investigation as to their being Germans, but they were released on proof of identity. He spent ten days in Germany and since that time has been in England with indorsements, indicating that he visited many of the prominent cities of England and on the continent.

The Soefjord is not listed in the maritime register, but, this may be due to her being a small boat, as indicated by the small number of the crew.

F. W. Pethick Lawrence, husband of the widely known suffragette leader, also was on the St. Louis. He said he came to New York to meet his wife.

"I fully support the views of Mrs. Lawrence," he said. "I intend to talk, however, on the subject of peace and what I believe will be the outcome of the war. I predict a closer union of the nations of the world, an universal language, and eventually disarmament."

Rottweiler Not Known in Chicago.

Chicago, Dec. 21.—George Rottweiler, who told a story in New York of the sinking of the dreadnaught Thunderer, is known to the Western Metal Products company of Chicago only by name. The company name had been taken by Fred Bauer, manufacturers' agent, who had rented a small downtown office. Frequently mail addressed to the Metal Products company was found to be meant for Rottweiler, who also acted as agent for metal manufacturers, and Bauer surmised, had stumbled onto the same trade name.

The Auburn Ignition company of Auburn, N. Y., recently made efforts to locate Rottweiler, according to Bauer and a few months ago wrote they had heard Rottweiler was detained in London. They asked whether he was held as a prisoner of war or for some criminal offense.

The first of November, several letters addressed to Rottweiler in Berlin were delivered to Bauer's office, with a stamp showing they had been forwarded by the United States consul at Berlin.

Rottweiler for a time occupied desk room in an office building here, it was said. His name does not appear in the city or telephone directories.

Blame Black Cat for Mishap.

San Diego, Cal., Dec. 21.—The black cat, blamed by the crew of the big freighter Isthmian for the mishap which nearly sent the big boat to the bottom of the sea, has been summarily executed and the body thrown overboard.

New Sultan of Egypt.

London, Dec. 21.—A British protectorate over Egypt has been proclaimed. Prince Hussein Kemal has been appointed sultan and has accepted that position. He is an uncle of Hilma, until now khedive. The French government has recognized the British protectorate over the country in which France formerly had such important interests and in return the British government has given notice that it adheres to the Franco-Moorish treaty of 1912, which gave France a protectorate over Morocco.

JAMES MARK SULLIVAN

C HARRIS & EWING

James M. Sullivan, the Brooklyn lawyer who is now American minister to the Dominican Republic, has asked for an investigation of the numerous charges that have been filed against him, and President Wilson has directed Secretary Bryan to conduct an inquiry into Mr. Sullivan's official conduct.

RULERS REACH AGREEMENT

SCANDINAVIAN MONARCHS TO PRESERVE NEUTRALITY.

Express Their Hopes That Conference Would Have Good and Happy Results for Three Peoples.

Stockholm, via London, Dec. 22.—King Christian of Denmark, King Gustave of Sweden and King Haakon of Norway, who, with their foreign ministers, met in conference at Malmo to formulate a plan designed to combine their respective interests during the war, reached an agreement on the special questions raised.

The statement is made in an official communication issued here. The communication in substance follows:

"The meeting of the three monarchs was inaugurated with a speech by King Gustave, who alluded to the unanimous desire of the kingdoms of the north to preserve their neutrality and pointed to the desirability of limited co-operation between the kingdoms as a safeguard to their common interests. He said that when he invited the monarchs of Norway and Denmark to meet him he was impressed with a deep sense of the responsibility which would be incurred in relation to the present and the future if any measure which would contribute to the welfare of the three pepoles were neglected."

Kings Haakon and Christian replied, testifying their sincere joy at the initiative of King Gustav and expressing their hopes that the conference would have good and happy results for the three peoples.

The deliberations of the monarchs and ministers consolidated the good relations among the three kingdoms and also enabled an agreement to be reached on the special questions raised. It finally was agreed to pursue the co-operation so happily begun and to arrange, when circumstances should occur, for fresh meetings between representatives of the three governments.

COUNTRIES READY TO CLASH

Greece and Turkey Are at Swords' Points—Germany Tries to Prevent War.

Athens, Dec. 21.—Germany is making every effort to prevent a rupture between Greece and Turkey. Relations between the two countries are now strained to the utmost as a result of the arrest of the naval attache of the Greek embassy at Constantinople by the Turks. The naval officer was sentenced to death as an alleged spy. The German ambassador at Constantinople has been ordered to prevent the proposed execution.

Casualties of British Officers.

London, Dec. 21.—During the week ended Dec. 7, 92 British officers were killed in France, 153 were wounded and 20 were reported missing. The Indian contingent evidently has been active, for 29 British officers attached to the Indian forces were killed and 49 wounded. The total casualties of officers since the war began follows: Killed, 1,058; wounded, 2,071, missing, 602.

Kaiser to Return to Front.

Berlin, Dec 18.—The kaiser's health is improving and he will be able to return to the front in a day or two, at most, says an official announcement.

Business Boom Predicted.

Chicago, Dec. 21.—A business boom of wide proportions and far-reaching effect, with steel mills and factories running full blast and thousands of men now idle back to work, is the prospects of a result in the increase of rates granted eastern roads. Bankers, railroad men, car builders and representatives of railroad labor unions united in predicting that railways will at once restore their normal working forces and place orders for millions of dollars' worth of supplies.

NEW FIGHT FOR POSSESSION OF POLISH CAPITAL

ANOTHER BIG BATTLE IS IN PROGRESS ALONG THE BZURA RIVER, SOUTH OF RAWA.

RUSSIANS RETIRE AND DESTROY ALL BRIDGES

Field Marshal Von Hindenburg Expects Stern Resistance, Which the Strongly Reinforced Russian Army Is Certain to Offer—Allies' Operations Resisted.

London, Dec. 22. — Field Marshal von Hindenburg's army, which is advancing on Warsaw over a wide front, between the Vistula and the Pilica rivers, and which occupied Lowicz a few days ago, has reached the new Russian positions along the Bzura river and southward to Rawa, with the result that another big battle is in progress.

The Russians retired across the Bzura river, destroying the bridges behind them and two German detachments which followed over a partly burned bridge were attacked and are said to have been annihilated, 50 survivors being taken prisoners.

Battle for Warsaw Begins.

This is only the beginning of the great battle for Warsaw, from which the Germans are now only thirty miles or less. Field Marshal von Hindenburg, however, expects stern resistance, which the strongly re-enforced Russian army is certain to offer his further advance, protected as it is by the Vistula river, which the Germans have been unable to cross.

The Russians are continuing their operations against East Prussia, as though the capital of Poland were not threatened, and by counter-attacks are attempting to throw off the Austro-German attacks in Galicia. An Austrian sortie in force from Przemysl, according to the Russian official statement, has entirely failed, and there, as well as at other points, prisoners and guns were taken.

Germans Resist Allies' Advance.

The offensive operations of the allies in the west are being carried out under conditions of siege warfare and are being stubbornly opposed by the Germans who, in their intrenchments, and surrounded by wire entaglements, make an advance of even a few yards a costly matter for the attacking forces.

In Flanders a little ground has been gained at considerable cost, despite the fact that along the coast the allies have the assistance of warships which continually bombard the German positions. The advance has been more marked from the Belgian border south of the River Oise, where the ground is not as wet as in the flooded regions of Flanders.

Along the Aisne and in the Champagne district, the French artillery, which is now probably stronger than the German, has been busy keeping the Germans on the move, but in the Argonne region it is the Germans who are on the offensive, and they claim to have made a slight advance.

Germans Have More Guns.

The general opinion of military men here is that some time must elapse before the allies can expect to make any very marked progress. Besides being in fortified positions, which could only be taken after being thoroughly searched out by the artillery, the Germans still have more machine guns than the allies, and, as has been proved in previous battles, these, so long as they can be successfully operated, make infantry attacks too costly to be attempted.

The Servian and Montenegrin armies have again joined hands after the defeat of the Austrians who invaded Servia, and are now making their second advance toward Sarajevo, capital of Bosnia. The two armies, the supplies of which have been replenished by captures from the Austrians, have formed a junction near Vishegard, which the Montenegrins have occupied. They expect to be before Sarajevo before three or four days.

Polish Legion to Join Russians.

Warsaw, Russian Poland, Dec. 21, via Petrograd and London.—By authority of Grand Duke Nicholas, a Polish legion has been organized. The Russian army contains2 many Polish volunteers, but the legion will be the first Polish contingent flying a distinctive flag, to be accepted. Four thousand Poles are enrolled in the legion and will be ready to go to the front in six weeks.

Belgium One Long Breadline.

New York, Dec. 18.—"Tragic misery, the like of which the world has never seen," was the term applied to conditions in Belgium by Theodore Waters, secretary of the Christian Herald, who went to Belgium last month to supervise the distribution of the food cargo of the Dutch steamer Jan Block among the starving noncombatants, and who returned on the Transylvania. Belgium, he said, is one long breadline of starving men, women and children.

LATE WAR DEVELOPMENTS

The German forces moving against Warsaw have come in contact with the new Russian positions along the Bzura River, precipitating still another battle of enormous proportions for the possession of the Polish capital. Petrograd claims to have gained a preliminary success over the Teutons when the latter attempted to cross the river, and Berlin says officially that the Slavs are offering fierce resistance and cannot yet be considered as demoralized.

* * *

In the west the allies continue their offensive and claim to be gaining ground, but slowly and at considerable cost. The guns of the British fleet are assisting in the advance in Belgium, yet the biggest gains are reported to have been achieved south of the Belgian frontier.

* * *

In the south where a short time ago the Austrians drove their enemies before them, but were suddenly turned upon and themselves forced to retreat, the Servians and Montenegrins have now reformed a junction and are re-entering Bosnia expecting to be before Sarajevo, the capital, again inside of three or four days.

* * *

Rulers of three Scandinavian nations resolve to combine their respective interests to safeguard their neutrality.

ROADS GET RATE INCREASE

ADVANCES OF 5 PER CENT ON FREIGHT TARIFFS GRANTED.

Interstate Commerce Commission Gives Opinion—Means $30,000,000 Increase Annually to Railways.

Washington, Dec. 19.—Increases in freight rates, approximately 5 per cent, on all the railroads between the Atlantic seaboard and the Mississippi, north of the Potomac and Ohio rivers, were granted by the Interstate Commerce Commission in a divided opinion, excepting upon certain heavy commodities, which comprise a large bulk of the traffic.

The increases will further apply to those railroads west of Buffalo and Pittsburgh, that were granted partial advances in the decision of last August, which denied them altogether to the roads east of those points. It is estimated the advanced rates will increase the annual income of the roads about $30,000,000.

Confronted With Emergency.

The commission made its decision upon the showing of the railroads that in addition to conditions from which they previously asked relief, they now are confronted with an emergency because of the war in Europe.

With Commissioners James S. Harlan and Judson C. Clements dissenting, the majority of the commission declared:

"Whatever the consequences of the war may prove to be, we must recognize the fact that it exists; the fact that it is a calamity without precedent, and the fact that by it, the commerce of the world has been disarranged and thrown into confusion. The means of transportation are fundamental and indispensable agencies in our industrial life, and for the common weal should be kept abreast of public requirements."

Report Gives Three Causes.

Summarizing the basis of its decision, the majority report of the commission said:

"The facts disclosed, and occurrences originating subsequent to May 29, 1914, as presented at the further hearing, may be summarized under three heads—first, completed returns for the fiscal year ending June 30, 1914, and returns for succeeding months; second, the war in Europe and, third, results of the original order.

"When these cases were originally submitted, as also when the original report was prepared, the revenue and expenditure account for June, 1914, and the property investment account for that fiscal year were not available, the war was unforseen and the results of our order were, of course, yet to come. Collectively, they present a new situation."

To Give Ten Days' Notice

The commission issued this order:

"It is ordered that respondents herein be, and they are hereby authorized to publish and file, by not less than 10 days' notice to the Interstate Commerce Commission and to the general public, in the manner prescribed in section 6 of the act to regulate commerce, schedules of rates which do not exceed the limits or transgress the limitations stated and prescribed in said report.

"It is further ordered that the permission hereby granted does not waive any of the requirements of the commission's published rules relative to the construction and filing of tariff publications, nor any of the provisions of the act to regulate commerce, as amended, except as to the notice to be given."

Consider U. S. Coast Defense.

Washington, Dec. 21.—Headed by Assistant Secretary Breckenridge, a special board of army officers of high rank has been in session at the war department for several days considering the state of the coast defenses of the country, and particularly the military situationi n the Canal Zone. Proceedings of the board are secret, but the fact that it was sitting has become known. It is expected evidences of its work will soon be visible through recommendations to Congress for funds.

STATE INCREASE OF RATE IS WAY TO PROSPERITY

BUSINESS MEN DECLARE RULING BY COMMISSION WILL TEND TO RESTORE PUBLIC CONFIDENCE.

MEANS REEMPLOYMENT TO THOUSANDS OF MEN

Belief Is General That It Will Stave Off Feared Avalanche of American Securities From the Warring Countries—Railroad Credit Strengthened.

Washington, Dec. 21.—The results of the granting of a 5 per cent freight rate increase to Eastern railroads by the Interstate Commerce commission are estimated, in official quarters, as follows:

Increases the gross revenues of 37 railway systems according to estimates to $30,000,000 annually.

The total mileage affected in the eastern classification is 64,690 miles, or approximately 24 per cent of the country's total.

Of the increase 1.6 per cent will go into wages, which item at present represents 44.5 per cent of the "railroad dollar;" 4.62 per cent into dividends and surplus; .06 per cent into capital and the remainder toward operating expenses, maintenance, etc.

The elimination of an increase in coal, coke and ore rates cuts the increase which had been asked by $6,400,000.

Coal and Iron Excepted.

Increases approximating 5 per cent must be paid on all products and goods, excepting bituminous coal and coke, anthracite coal and iron ore and on articles the rates of which are held by unexpired orders of the commission on all lines in the territory between the Atlantic seaboard and the Mississippi north of the Potomac and Ohio rivers.

No increases are granted on rail-lake-and-rail, lake-and-rail and rail-and-lake traffic.

The increase in rates on cement, starch, brick, tile, clay and plaster, not allowed in the decision of Aug 1, are allowed.

Will Restore Public Confidence.

Heralded by bankers, railroad men and business men as tending to restore public confidence.

Millions of dollars worth of steel and equipment "resting orders" contingent upon such a decision, now expected to come into the market, meaning re-employment to thousands.

Predictions that every line of business will be sentimentally affected.

Credit of railroads strengthened, which means that the $537,000,000 of refinancing necessary to be done in the next two years will be easier, this in addition to other financing in that period.

A return of confidence on the part of investors, not only in the future of railroad securities but of the other industries of the nation.

The belief that it will stave off the feared avalanche of American securities from the warring countries.

BULLETS FALL ON U. S. SOIL

Five Pass Close to Army Bombproofs—Troops Establish Two Flank Camps.

Naco, Ariz., Dec. 21.—Many bullets from the Mexican side are falling on United States territory in the siege of Naco, Sonora, by Villa troops.

Five passed close to the army bombproofs. The United States army forces now have established two flank camps, one on the east and the other on the west side of Naco, to further assure border neutrality.

George C. Carothers, special agent of the American state department, visited Governor Jose Maytorena, commanding the Villa forces, and broached the subject of the coming visit of Brigadier General Hugh L. Scott. It is understood Maytorena favored meeting General Scott at the international boundary, opposite the Maytorena headquarters, east of here.

Entertain U. S. Belgian Society.

London, Dec. 21.—The members of the American commission for relief in Belgium were entertained by American business men at the Luncheon club. In introducing Herbert C. Hoover, the chairman, Ambassador Page gave high praise to the work of the commission. He said it was the only existing link between the great belligerent nations and the farmer of the Mississippi valley.

Recognizes French Protectorate.

London, Dec. 21.—Great Britain has recognized the French protectorate over Morocco and declared her adhesion to the Franco-Moroccan treaty of March, 1912. The Franco-Moroccan treaty of 1912 instituted a French protectorate over Morocco, with a French resident general who exercises civil and military powers under the sovereignty of the sultan. The treaty proclaimed religious freedom of the people and gave France the right to enter into military occupation of any points for the maintenance of order.

MOSES ALEXANDER

Moses Alexander, elected governor of Idaho in November, is the first Jew to be chosen chief executive of any state. He was born in Germany but came to America in his boyhood, living first in Missouri and then moving to Idaho. Ten years ago he was elected mayor of Boise City, serving two terms.

THAW TO RETURN TO NEW YORK

WILL BE EXTRADITED FROM NEW HAMPSHIRE.

Must Answer Indictment Charging Conspiracy to Escape from Matteawan Insane Asylum.

Washington, Dec. 22.—Harry K. Thaw has lost his fight in the Supreme Court of the United States against being extradited from the state of New Hampshire to the state of New York.

In a brief decision by Justice Holmes, which was the unanimous decision of the Court, it was held that Thaw should be turned over at once to the New York authorities to answer an indictment charging conspiracy to escape from Matteawan Asylum for the Insane.

Whether his escape from the asylum while, as his counsel contended he was insane constituted a crime and other questions the Court dismissed with the comment that they could not enter into a habeas corpus proceeding and that they were proper questions for the State of New York to decide.

Actually the celebrated Thaw case—the killing of Stanford White — was not before the Supreme Court. Merely the question of returning Thaw on the conspiracy indictment was up for decision.

What other moves, if any, were open to Thaw's counsel to prevent his return to the state where he was twice tried and had made many futile efforts to be released, those familiar with the legal procedure were at a loss to forecast. As to those who have followed the case it seemed that the fight against returning to New York was lost and that nothing remained but for the sheriff of Cook County, New Hampshire, to turn Thaw over to New York officers upon the extradition granted by the Governor of New Hampshire, but stayed by the decision of Justice Aldrich, which has just been reversed.

ZIMMERMAN DIES SUDDENLY

ZIMMERMAN DIES SUDDENLY.

Former President of C. H. & D. R. R. and Wealthy Financier Passes Away at Cincinnati.

Cincinnati, Ohio, Dec. 22.—Eugene Zimmerman, former president of the Cincinnati, Hamilton and Dayton Railroad and wealthy financier of this city, died suddenly at a club here from hemorrhage of the lungs.

Mr. Zimmerman was the father of the Duchess of Manchester.

The death of Mr. Zimmerman was unexpected, although his health has not been of the best for the past few weeks. When he was seized by the fatal attack he was engaged in studying records of the Cincinnati, Hamilton and Dayton Railroad, preparatory, it is believed, to testifying before Commissioner Hall, of the Interstate Commerce Commission, who is conducting an investigation of the sale of that road and the Pere Marquette to J. P. Morgan and Company.

Germany to Intern French.

Berlin, via London, Dec. 22.—Following the enforcement of a similar measure against Britishers, the German government will intern all French males between the ages of 16 and 60 who are residing in Germany. They will be taken to a camp near Holseminden.

Detroit Editor Dies.

Detroit, Dec. 22.—John M. Hall, founder and president of the Bay View Reading circle, a national literary organization, and for many years editor of the Bay View Magazine, died at his home in Detroit yesterday. He was 60 years old.

Allies Bombard Forts.

London, Dec 22. — An Athens dispatch to the Exchange Telegraph company reports that the allied fleet bombarded the interior forts of the Dardanelles.

State News

Important Doings of Past Few Days Throughout Minnesota. Edited & Arranged for Our Readers.

WORK FOR 1,000 UNEMPLOYED

Taking of Census of Minnesota at This Time Would Relieve Many Skilled Workingmen.

Minneapolis, Dec. 17.—It is provided by the Constitution of the State of Minnesota that during the year about to be born—1915—the state shall take a census.

It is estimated that such a census would cost anywhere from $100,000 to $200,000, and would require the work of some 1,000 men. This offers so magnificent an opportunity to land political jobs and construct a political machine that already there are many candidates and many plans.

But now there steps to the front J. G. Callahan, young Minneapolis attorney, who last month was chosen by the people of the Twenty-eighth legislative district to represent them in the next state senate. And Senator Callahan proposes that if the state is to take a census at the cost of $100,000 or $200,000, the state, through its labor department, should employ the idle workingmen on this job and not allow the expenditure to be made the vehicle for distribution of patronage and the upbuilding of a political machine.

As it is in the power of the legislature to designate whom it desires to have charge of the census taking and as the powers of the legislature are so broad in this respect that it even can name all the census enumerators, the idea of Senator Callahan is declared to be entirely feasible legally.

Senator Callahan says that he would be the author of a bill providing for the work to be done in the manner outlined by him and that he felt sure all organized labor would back him in asking both houses of the legislature to pass it immediately, so that the census work might begin at once, thereby relieving in many instances skilled working men and their families who are in distress. He would not wait until summer.

CROOKSTON FARM CROP SHOW

Development Association Officers Make Plan for Annual Exhibit to Be Held February 16-19.

Minneapolis.—C. G. Selvig and N. S. Davies of Crookston, officers of the Minnesota Red River Valley Development association, conferred here with officers of the West Central Development association and members of the agricultural committee of the Minneapolis Civic & Commerce association regarding plans for the annual Farm Crops Show to be given by the Valley organization in Crookston Feb. 16 to 19.

F. W. Murphy of Wheaton and M. H. Harrison of Morris, president and secretary, respectively, of the West Central body, attended the conference.

Secretary Davies of the up-state association lined up about one thousand dollars worth of prizes for the coming show through interviews with Minneapolis business firms.

The Minnesota Red River Valley Development association comprises ten counties from Kittson to Becker. Three counties, Beltrami, Clearwater and Hubbard, outside the area, have been taken in, on request, as participants in the Farm Crops Show.

FARIBAULT PLANS CORN SHOW

Annual Poultry Exhibit to Be Held at Same Time in the Armory Building.

Faribault.—Arrangements are being made to hold a three days' corn show in Faribault under the direction of Ben Cole, instructor of the agricultural department of the high school. The annual poultry show of the Cannon Valley Poultry association will also be held at the same time. The armory has been secured for the double bill.

Hurt by Salmon Explosion.

St. Paul.—Mrs. Eugene Peterson received injuries last night which may result in blindness. The explosion of a can of salmon which Mrs. Peterson was heating caused her injury. She was preparing supper and had placed the can of salmon in a pan of boiling water. She left the kitchen and the water evaporated. When the can was taken off the stove the contact with the cooler air caused the explosion. Mrs. Peterson was burned severely on the face and hands.

Find Profit in Flax Straw.

Crookston.—Work in the plant of the Crookston Cordage company is progressing rapidly and 1,000 tons of flax straw have already been purchased of farmers. This is clear profit, the straw having formerly been burned. Farmers have netted from $4 to $6 an acre from their flax land in addition to the profits from seed. The new plant at present will manufacture only tow and okum, but will later add a flax straw twine plant. The concern is financed by home capital.

ACCUSED OF CLAUSON MURDER

GENTRY SMITH AND WIFE HELD FOR INVESTIGATION.

Ben Curtis, Alias L. Blackey, Whom Police Suspect of Firing Fatal Shots, Is Missing.

Minneapolis, Dec. 16.—Gentry Smith was charged with the murder of Claus Clausen after being a prisoner at police headquarters for more than 24 hours without being "booked" or formally accused. Later Frances Smith, his wife, was "held for investigation." An order to appear before Judge Hale in habeas corpus proceedings, to show cause why Mrs. Smith should not be released, was served upon Captain Galvan, acting chief of police.

Meanwhile Ben Curtis, alias L. Blackey, whom the police suspect of firing the fatal shots, is missing, and the police admit they don't know where he is. The entire police force is searching for Curtis.

Stories circulated by the police that Smith had confessed to complicity in the crime were denied by Smith through his attorney, A. W. Cary, although the accused man admits he was at Clausen's residence at 1912 Tenth avenue south the night of the murder.

Smith declared he was "double-crossed" by Curtis and that he thought their visit to Clausen's home was to complete a deal for a restaurant. Mr. Cary says Curtis told Smith that Clausen was to have advanced the money for this deal to Curtis.

Smith's version of the affair was that Curtis intended to rob Clausen, knowing the former candidate for alderman of the Fifth ward carried large sums of money at times. Mr. Cary declares Smith was an innocent party to the plan and that when Curtis and Clausen started the struggle that ended in Clausen's death, Smith became frightened and ran. He went direct to his home at 1125 First avenue north and remained there.

When detectives failed to find Smith on Saturday night it was because they did not know where he lived. They were within a block of the place twice, but did not know it. Smith was at home when Detectives Brunskill and Crummy arrived and he accompanied them to police headquarters without protest.

Police records show that Smith and his wife were thrown into jail cells without being told what were the charges against them, and even without the formality of a police booking. They were arrested at 4 p. m. Sunday afternoon and it was 5:30 p. m. yesterday before their names appeared on the jail records.

Enthusiastic Dairy Meeting.

One of the most enthusiastic dairy meetings held in this city for years opened here. Over 150 dairymen from Freeborn and adjoining counties were present to hear addresses by W. F. Schilling of Northfield, breeder of Holstein cattle, and Superintendent A. D. Wilson of the state agricultural extension department. At noon the Business Men's league gave a lunch to all present. Miss Blegen, teacher of the domestic science department of the high school, had charge of the cooking and was assisted by Miss Fiegel, one of the short course teachers and several school girls. The lunch was served buffet style in the courtroom.

Heads Albert Lea Nine.

Albert Lea.—The officers and directors of the Albert Lea Baseball association held a meeting in President Charles E. Paulson's office and appointed Tony Nystuen of Macon City manager of the team for the 1915 season, succeeding Joe Lynch, who has held that position for three seasons. He has been Albert Lea's star first baseman for two seasons. Nystuen is already deluged with letters and applications from ball players who would like to join the aggregation. He has several good men on his list but says it is too early to decide on his team.

Schools Close for Holiday.

Minneapolis.—The public schools closed for the holidays and will not reopen until Monday, Jan. 4. In several districts toy collections for poor children was the event of chief interest. Children in the Douglas District brought a huge assortment of playthings to school and after certain poor children in that school had selected toys to their liking, the remainder was sent to other schools. One lot went to a Syrian kindergarten and others were sent to a teacher in another public school who distributed them.

Two Minneapolis Houses Burn.

Minneapolis, Dec. 17.—Two houses burned to the ground. One belonged to E. C. Bacon, at 623 Sixteenth avenue south. The loss was $1,200. The farmhouse of August Engel, on the France avenue road, three miles from the city limits, burned with a loss of $1,500. A Minneapolis fire engine company saved other buildings on the farm.

Bankers of State Meet.

Minneapolis.—Consideration of burglary and fidelity insurance problems and of convention dates for associations next year will engage representatives of state bankers associations of Minnesota and all neighboring states at a meeting in the offices of the Minnesota Bankers' association, 611 Northwestern Bank building. An attempt will be made to agree on a scheme for convention dates that will preclude conflicts and enable bankers in each state to attend conventions in any of the other states.

The OLD YEAR and the NEW by Harry Irving Greene

To all—good-by. My task is done.
I've swung the circle of the sun.
I've given all that Life bestows,
I've dealt Fate's cards to friends, to foes.
I've touched you each with joy and care,
Drawn wrinkles here, smoothed wrinkles there.
And if I've frosted temples gray,
I've made warm lips to kiss away
The chill. Tho' Death, tho' strife
I've visited—I've granted *Life.*

I'm Time. I've robbed your cradle dear,
Yet I ask you—your dying Year,
Have I not filled it? Answer free,
If I've robbed you have not you cheated me?
Have not you sought to kill *me—Time?*
Have not you wasted me—God's gift sublime?
Misspent me, mocked me, wished me on my way,
Loathed and reviled me—prayed another day,
And when I granted it, mocked that one, too,
Are we not quit at evens—I and you?

'Tis Kismet—Fate. Old World, good-by,
My cycle's done—I faint—I die.

Oh, World! dear World—at last my dream is true,
Through all eternity I've longed for you,
Impatient of the years I had to wait,
Each nerve aquiver, lest I be too late.
And now I'm here—and all of you are mine
For my brief reign. Yet, also, I am thine
For use—abuse—but treat me as you may
Remember this—I'll give and take away.
And but this moment born—but half awake,
I'll tell you now what I'll both give and take.

I'll take a life from out you here and there.
I'll give—a lover true—a sweetheart fair.
Half of your fondest hopes I'll steal away,
I'll grant a grain of wisdom day by day.
And tho', perchance, I should take Peter's all,
With lavish hands I'll shower it on Paul,
I'll smite some of you with an iron glove,
I'll nurse some others with my tenderest love,
I'm both your queen and slave. I now make way.
This night is yours. Tomorrow you'll repay.

Bring forth the jesters. Fill the cup of cheer.
You've waited me forever. World, I'm here.

The 1915 Boy.

"I will not put pins in my dear teacher's chair." (Tacks will hurt just as much, anyway.)

"I will not quarrel and fight with my big brothers in 1915." (What have I got a little brother for?)

"I will not play hookey from school to go fishing or swimming." (That is, in the winter time.)

"I will be a regular attendant at Sunday school." (At Christmas time and just before the summer excursion, of course.)

"I will not take mother's currant jelly from the pantry without permission." (Her raspberry jam is good enough for me.)

"I will be kind to dumb animals, such as tigers, lions and elephants." (Stray cats and dogs, however, had better keep out of this neighborhood.)

"I will not (Oh, gee, that's enough. They say the good die young, and I want to live until I catch that red-headed boy on the next block who stuck his tongue out at me yesterday!)

MAN IS BURIED ALIVE IN WELL

Pennsylvania Farmer Imprisoned Under Arch of Tons of Earth and Stone.

DIRECTS OWN RESCUE

Strain of Spending 18 Hours Under 35 Feet of Fallen Wall Prove Too Great for Chapman and His Heart Fails.

Wheatsheaf, Pa.—Imprisonment for 18 hours under tons of earth in an old 32-foot well so seriously affected William Chapman of Wheatsheaf that he died a few minutes before he was dug out, after directing the efforts of rescuers for several hours. Physicians worked for an hour with a pulmotor and oxygen, but failed to revive Mr. Chapman. It is believed his heart failed when he felt the hand of the first rescuer to reach him and that death followed instantly.

Mr. Chapman was a farmer and was also employed as engineer in the workings of the Penn Sand & Gravel company of Tullytown. He was a sturdy man of middle age, in excellent health.

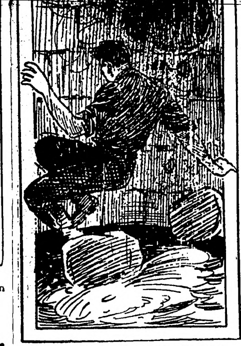
Well Caves In.

Because of recent rains, Mr. Chapman was unable to work in the Penn quarries and determined to make some repairs in the well on the farm he had rented. He was descending the slippery wall when two large stones slipped from their places in the wall of the well and precipitated him to the bottom, following which the sides caved in on him. Mrs. Chapman, who was in the house, heard the crash and rushed to the well.

It is believed that when the wall of the well collapsed the stones formed an arch, thus saving Mr. Chapman from instant death. In his narrow prison he obtained air through crevices in the rocks and was able to make such sounds that his relatives and friends knew he was alive.

Men Worked Frantically for Hours.

For 18 hours men worked in relays of four hours each removing earth and stones from the well. Several times they were driven from their task by cave-ins caused by heavy rains. Finally they were within a few feet of Mr. Chapman. He directed their efforts, took nourishment through a tube, spoke words of comfort to his wife and appeared to be both rational and sound.



Precipitated Him to the Bottom.

Soon the workmen reached the last layer of stone. Some worked at the stone while others slipped their hands through crevices and supported Chapman. Even then he appeared to be able to help himself, but when the last rocks were removed and Chapman was taken from the well he was dead, having succumbed just as assurances of safety reached him.

HAIR CUT OFF AS SHE SLEPT

Girl Awakes to Find Her Tresses, the Family's Pride, Gone—Act of Revenge.

Orange, N. J.—When Mary Carnova, the thirteen-year-old daughter of Antonio Carnova of 12 Forest street, Orange, awoke one morning recently she found that her long black hair, which was of exceptional beauty and the pride of the family, had been cut off. She did not know how or when she had been despoiled.

The police arrested Polo Cripsy, aged fifty-one, a boarder at the Carnova home, but Carnova would not believe Cripsy was guilty, and the charge against him was dismissed. Chief of Police Drabell believes that the hair was cut off for revenge by some enemy of the girl's father

Wife Killed Babies and Herself.

Thayer, Kan.—Mrs. Lee Moore, who had been deserted by her husband, killed her two small children and then committed suicide. The bodies of all three were found in a well.

160 ACRE FARMS IN WESTERN CANADA FREE
WAITING FOR YOU

Yes, waiting for every farmer or farmer's son — any industrious American who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is higher but her farm land just as cheap and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads are Actually Free to Settlers and Other Land at From $15 to $20 per Acre

The people of European countries as well as the American continent must be fed—thus an even greater demand for Canadian Wheat will keep up the price. Any farmer who can buy land at $15.00 to $30.00 per acre—get a dollar for wheat and raise 20 to 45 bushels to the acre **is bound to make money**—that's what you can expect in Western Canada. Wonderful yields also of **Oats, Barley and Flax. Mixed Farming** is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada but there is an unusual demand for farm labor to replace the many young men who have volunteered for service in the war. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada; or to

ALL THEY COULD HOPE FOR

Under the Circumstances Almost Endless Entertainments Should Have Been in Order.

There is a certain Chicago man of a remarkably cheerful and optimistic turn of mind. His wife, on the other hand, takes things very seriously, and has no small difficulty in accommodating herself to the peculiarities of his friends when, as not infrequently happens, they differ from her own.

"Henry," said she to her husband one evening, when she had returned home more or less agitated by something. "What do you think they say about Mrs. Eaton, the baker's wife?"

"I'm sure I don't know," said the husband. "Nothing serious, I hope."

"They say they can tell when she's going to have callers by her washing the children's faces! Now, you're a pretty sanguine man, Henry, but what on earth can you hope for a woman like that?"

"Well," said Henry, "I suppose all we can hope for is that she entertains a good deal."

At the First Signs

Of falling hair get Cuticura. It works wonders. Touch spots of dandruff and itching with Cuticura Ointment, and follow next morning with a hot shampoo of Cuticura Soap. This at once arrests falling hair and promotes hair growth. For free sample each with 32-p. Skin Book, address post card: Cuticura, Dept. X, Boston. Sold everywhere.—Adv.

Overheard by Mr. Mills.

At lunch, a Western Union office girl was reading a letter from a chum to the other girls. Describing a new dress the letter said: "It is certainly fin de siecle."

"Fin de sickle," repeated one of the girls, "what does that mean?"

"I don't know. Fin sounds like a fish. Maybe it means it was trimmed with fish net."—New York Sun.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher.
In Use For Over 30 Years.
Children Cry for Fletcher's Castoria

A Slow Learner.

"I fear that Jobson was not intended to have a cooking school wife."

"And why not?"

"He's been married two years and hasn't yet learned how to use a can opener with neatness and dispatch."

50-dose pkge. Blackleg Pills 4.00
Use any injector, but Cutter's best.
The superiority of Cutter products is due to over 15 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct.
The Cutter Laboratory, Berkeley, Cal., or Chicago, Ill.

Wives Have Money Now.

Soldiers' wives find themselves in many cases in receipt of much more money than they were when their husbands were at home.

"Is a' this money for me?" asked the wife of a Glasgow soldier when she received her first week's allowance.

"Aye, a' for you," responded the genial pay sergeant.

"Will I hae a' this money every week?"

"Weel, then," said she, "ye can tak' my guid man an' keep him as long as ye like. I never had sae muckle money before."—London Chronicle.

NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at Crookston, Minnesota, Nov. 25, 1914.

Notice is hereby given that Thomas Anderson of Holt, Minn., who on Sept. 26, 1911 made Homestead Application serial No. 06597, for N1-2SE1-4 SE1-4SE1-4 Sec. 30, Twp. 156 N. Range 41 W, 5th P. M. has filed notice of intention to make Final Three Year Proof, to establish claim to the land above described, before Knute Nelson, U. S. Commissioner for the Dist. of Minnesota, at Middle River, Minnesota, on the 5th day of Jan. 1915.

Claimant names as witnesses:

C. F. Birkeland, Martin Nelson, Oscar Anderson and Engebrith Moe all of Holt, Minn.

Proof made under act of June, 6, 1912.

Peter M. Ringdal, Register

HEN'S WORK ALL LAID OUT

Average Biddy Should Lay Six Hundred Eggs Before She Retires Honorably or Otherwise.

"There is water a-plenty in a fresh laid egg, but no more air than there is in a hammer," said a dealer in eggs. "So long as you can keep air out of the egg it will remain sweet and fresh, but no one has ever succeeded in keeping it out by fair means more than six days. The oxygen is bound to find its way through an eggshell's pores, and the only way to save that egg then is to eat it. It sounds funny, but the moment you give an egg fresh air that moment you ruin its health.

"A good, healthy hen—not speaking of any particular star breed, but just hen—does not fulfil her destiny until she has accomplished 600 eggs—50 dozen. That's what nature has fitted up the hen to do in the way of just uncoached and unstimulated egg production, and she gives the hen eight years to do it in.

"The hen divides the 50 dozen stunt up among those eight years. Some years she may not turn out more than a couple of dozen, but when the eight years are up she will have managed her annual output so that the total has come out all right. Then the hen has ended her career as an egg producer, and too often, if she is in the hands of a thrifty owner, begins another career, short and delusive—this time as the summer boarder spring chicken."

VOYAGER NATIVE OF CORSICA?

Paris Newspaper Claims to Have Proof That Columbus Was Born in That Island.

The Eclair of Paris states that it has received a number of documents tending to prove the Corsican origin of Columbus.

In the first place, it was only in 1844 that the well-known statue of the discoverer of America was erected in Genoa, whereas since 1530 there has been abundant evidence relating to the Colombo family at Calvi, including numerous notarial acts and deeds.

A street there, called Colombo, formerly was named Del Filo, and it is a historical fact that Columbus' father was a weaver.

To explain his detestation of the population of Calvi the celebrated Corsican leader Paoli always used to say that it was because he had abandoned his respect for Columbus, and the Abbe Casanova declares that he fears no contradiction when he says that Napoleon, like Paoli, knew perfectly well the origin of Columbus.

The emperor, when talking to other Corsicans, habitually used the expression "the illustrious son of our island" when speaking, as he was fond of doing, of Columbus.

Butter by the Yard.

In Cambridge, England, butter is sold by the yard, not by the pound. The dairymen of that town have for many years rolled their butter into lengths, a length being a yard and weighing one pound. Neatly wrapped in strips of clean white cloth, the cylindrical rolls of butter are packed in long, narrow baskets made for the purpose and so taken to market. The Cambridge butter dealers have, therefore, no need of weights or scales for determining the quantity of their wares. Constant practice and an experienced eye enable them with a stroke of the knife to divide the butter into halves or quarters with almost mathematical precision.

This yard-long butter finds its chief purchasers among the people of the university. It appears that this butter is peculiarly adapted to the special needs of the students in the daily commons. Cut into conveniently sized pieces and accompanied by a loaf of wheaten bread, a stated portion is sent every morning to the rooms of the undergraduates for use at breakfast and tea.

Biffing the Bathtub.

It comes as a shock to the innumerable hosts who believe that "cleanliness is akin to godliness" when, as is now the case, a health reformer declares that the bathtub is insanitary. It was bad enough when the public drinking cup, the public towel, and other things of common usage were put under a ban, but the attack on that sacred institution, the bathtub, is the most outrageous of all the outrages that have been perpetrated by the health faddists. If it had happened in England, where the lord and master of the household would sooner do without his breakfast than his every morning "tub," there would be an outbreak as desperate as those in which the militant suffragettes figure, but as it is an American who makes the attack, his countrymen vent their fury in hurling epithets and jeers at him.

Cats.

Wild cats, such as have been caught in Argyllshire, Scotland, are now rarities in Europe, though formerly they were comparatively common in most parts of the continent. The few survivors occur mostly in Hungary and occasionally in Spain and Greece. In Spain, by the way, the animals build nests in trees or among tall bamboos for the rearing of their young, though generally they prefer a crevice in rocky country in which to make a lair. Our domesticated cat is not derived from the untamable European animal, but was introduced ready tamed from Egypt.

Rev. F. A. Gustofson, for twenty years a Missionary in China, will preach at 7:30, Wednesday evening, Jan. 13th.

Mr. Backe Interviewed

As 1914 will stand conspicuous in the annals of history as the year of the great European conflict, said Mr. Backe of the Farmers' State Bank of Holt, the fervent wish of the world is that 1915 will mark its end and the beginning of a lasting peace.

The most important fact to be considered now that the destructive crisis of last August has been passed is that we are nearer the time when the period of constructive labor can be anticipated. In this country we are slowly adjusting things to the normal and each month measures progress.

The countrys foreign trade is expanding steadily. The November excess of exports over imports was $22,000,000 greater than in October and $62,000,000 larger than in September; in August there was an excess of imports over exports. The December figures promise to show a still greater increase.

While Europe continues to take large quantities of our foodstuffs at high prices, the important feature of the December foreign trade report promises to be the increase in cotton exports; the one article of commerce that has suffered most by the war. The declaration of the belligerants that cotton will be considered a noncontraband of war is permitting a broader market and ships have already left this side bound for German ports with their cargoes guaranteed free from seizure.

The December crop report of fall sown wheat showed the greatest area ever sown by 11.1 per cent. While the condition was 2 per cent below the ten year average, condition means as little in December as it means everything in July. Beneficial snows have fallen in the South west providing moisture and protection to the plants. The feature of the government report was the notable increase of the wheat acreage in the Southern States which have put considerable cotton land into the cereal. The South is to learn the value of diversified crops.

Seasonable weather and the holiday demand have benefited trade. The surplus agricultural states which have had a big demand at high prices for their products are experiencing a great measure of prosperity under existing conditions.

The South with its record cotton crop and its limited market is slowly working toward the normal but a developement which indicates improvement in the cotton belt is the falling off in what is called "distressed" selling of holdings implying that the corner has been turned in the depression.

The opening of the New York stock exchange, the increase in freight rates, the feeling that business baiting is to cease have contributed to the growing confidence and optimism in the future.

If your shoes need mending take them to Carl Christoferson. He has started a shop in S. S. Kolden's store.

Mrs. T. O. Dovre received the sad news of the death of her brother in N. D. Thrsday, on Friday she departed for Dak. to attend the funeral.

Mesdames T. and Adolph Sollom and P. O. Rierson attended the missionary auction sale at the school house north west of town Saturday.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

NOT THE TIME FOR A SMOKE

Old Lady, Filled Up With "Cartridges," Was in Natural Fear of an Explosion.

A robust old woman in the mountains of north Georgia was ill for the first time in her life and a doctor was sent for. Partly by persuasion and partly by force, the physician induced his patient to swallow some big quinine capsules—a simple enough operation, which, however, scared the old woman almost to death. She was soon able to sit up and her daughter thought she would give the convalescent a treat. She took her mother's corncob pipe from the "shelf" or mantel, filled it with tobacco, and picking up a live coal between two sticks, started with it toward the bed.

"Ma," she said brightly, "jes' look what I got fer ye."

"Git away from me, Sary," she screamed in terror. "Take away dat fire! Take hit away! Don't yer know I's done plum filled up wi' cartridges?"—Chicago Ledger.

OVERWORK and KIDNEY TROUBLE

Mr. James McDaniel, Oakley, Ky., writes: "I overworked and strained myself, which brought on Kidney and Bladder Disease. My symptoms were Backache and burning in the stem of the Bladder, which was sore and had a constant hurting all the time—broken sleep, tired feeling, nervousness, puffed and swollen eyes, shortness of breath and Rheumatic pains. I suffered ten months. I was treated by a physician, but found no relief until I started to use Dodd's Kidney Pills. I now feel that I am permanently cured by the use of Dodd's Kidney Pills."

J. McDaniel.

Dodd's Kidney Pills, 50c. per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free.—Adv.

No Room for a Third.

Ex-President Taft was on one occasion in consultation with Senator Penrose of Pennsylvania. Now, as everybody knows, Mr. Taft is gigantic and the senator is taller and weighs more than any other member of the senate.

While the two were in earnest conversation an aggressive politician endeavored to enter the room, but an alert secretary politely interfered.

"What are they doing in there?" asked the politician, inquisitively.

This pertinent question nettled the secretary and he answered tersely:

"Holding a mass meeting, I presume."

CARE FOR YOUR HAIR

By Frequent Shampoos With Cuticura Soap. Trial Free.

Precede shampoos by touches of Cuticura Ointment if needed to spots of dandruff, itching and irritation of the scalp. Nothing better for the complexion, hair, hands or skin than these fragrant supercreamy emollients. Also as preparations for the toilet.

Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Inside Criticism.

"So you're going to be married, Mary?"

"Yes, ma'am, and I'll be leaving you next Tuesday."

"Well, I hope you are getting a good husband."

"If he ain't any better than the one you've got I won't keep him long."

DR. STEN HANSON, OSTEOPATH
The pioneer practitioner at Fargo. Graduate under the founder of Osteopathy. Acute and Chronic Diseases successfully treated without drugs. Pioneer Life Building, Fargo, North Dakota. Adv.

It is hard for a woman to hold her husband's love when she can't even hold her tongue.

"Peace at any price" is a man's motto. A woman wants it at bargain rates.

EUROPE'S WORST WINTER IN YEARS HALTS STRUGGLES

FLOODS PREVENT ANY OPERATIONS ON LARGE SCALE ON WESTERN AND EASTERN BATTLE FRONTS.

RUSSIANS CAPTURE AUSTRIAN POSITIONS

Seizure Near Nzook Pass Should Open Another Entrance for Czar's Troops Through Carpathians Into Hungary—Turks Cross Border in Caucasus.

London, Jan. 5.—The extremely rainy winter, the worst Europe has experienced in years, causing floods in the river valleys of the continent as well as those of England, has prevented any operations on a large scale on the western battle front and has interfered seriously with those in the east.

There have been heavy artillery engagements from the sea to the Swiss border and occasional attacks by the infantry of the opposing armies, which when not repulsed have added a few yards to the territory in the possession of the attacking force, but always have proved costly ventures.

French Gain Near Albert.

The French have gained a little ground between Albert and Roye, just north of the point where the line turns eastward and to the east of Rheims and southwest of Verdun, where the attempts to make the German positions at St. Mihiel on the Meuse untenable, are proceeding slowly. They have also made some advances in Alsace, but have suffered a repulse to the northwest of St. Menehould.

In the east the Germans have captured the important Russian position at Borjimow, but elsewhere they have been unable to make any headway against the Russians, who, as defenders of well fortified positions, are aided by the wet weather and muddy roads, which hinder the German movements.

The Austrians claim to have checked the Russian advance near Gorlice, on the South Galician railway, west of Jaslo, but apparently the battle here has not yet been concluded.

Russians Take Austrian Position.

The Russians, on the other hand, have taken the Austrian positions near Nzook Pass, which should open another entrance for them through the Carpathians into Hungary, while the Austrian retreat in Bukowina is described by the Russians as a rout.

The Turks have crossed the Russian border in the Caucasus, and according to their own account have defeated the Russian garrison at Ardahan. They are, however, displaying anxiety for their remaining possessions in Europe by feverishly fortifying the whole coast line. What they fear is not disclosed, for it is considered hardly possible for the allies to land a sufficient force to prove a menace to them. It is possible that they expect an invasion from another source.

Balkan States May Fight.

Indications point to the possibility of the Balkan States, which are now neutral, taking a hand in the war.

The Greek Minister of Finance has declared that Greece is making preparations to maintain the new territories which she gained in the Balkan wars from Turkey and Bulgaria, but that she has more to fear from Bulgaria than Turkey.

It is not thought that Roumania can look on calmly while the Russians are advancing toward Transylvania, and it is expected that she will join with Russia and try to get the much-coveted Eastern Province of Austria-Hungary.

Throughout the British Empire and in the British churches in foreign countries intercession services were held for the success of the allies' arms. Many of the sermons embodied exhortations to the young men to join the army. King George attended services in the village church at Sandringham.

British Statesman Dies.

London, Jan. 4.—Percy Holden Illingworth, chief Liberal whip in the House of Commons, and parliamentary secretary to the Treasury, died of typhoid fever. He was born at Bradford in 1869. Mr. Illingworth served in the South African war with the Yorkshire yeomanry. In August, 1912, he was appointed chief Liberal whip, succeeding Lord Murray of Elibank.

U. S. Minister to Argentina Arrives.

Buenos Aires, Jan. 4.—American Ambassador to Argentina, Frederic J. Stimson, arrived here and was welcomed by representatives of the republic, the ministers of foreign affairs, and others.

New York Welcomes New Year.

New York, Jan. 2.—New York City welcomed the New Year in traditional manner, the celebration proving one of the most demonstrative on record here.

The uptown streets where the celebrators usually gather were jammed with laughing, singing crowds, unusually large, even for this event of events in the city's calendar. The tens of thousands were so orderly in their merry-making, however, that the police reserves found little to do except to keep the throngs moving.

KAISER ENCOURAGES ARMY

URGES SOLDIERS AND SAILORS TO KEEP UP FIGHT.

Asks Them to Face New Year Unflinchingly and Look Forward to New Victories.

Berlin, via London, Jan. 4.—Emperor William, in a New Year's message to the army and navy, asks them to face the new year unflinchingly and look forward to new deeds and new victories for the beloved fatherland. The message, which was made public at main headquarters here, follows:

"After five long months of heavy and hot fighting we enter the new year.

"Brilliant victories have been gained and great successes achieved by the German army almost everywhere on the territory of the enemy. While repeated attempts of our opponents to swarm on German territory have failed.

"My ships have covered themselves with glory on sea and the crews have proved not only that they know how to fight victoriously, but to die like heroes when overwhelmed by superior forces.

"Behind the army and the fleet the entire nation stands in unexampled harmony, prepared to sacrifice its heart's blood for the sacred domestic hearth which we are defending against outrageous invasion. Although the times may be serious and the task before us a heavy one we look forward into the future with the firmest confidence.

"Next to God's wise guidance, I trust to the matchless bravery of the army and navy and know myself to be as one with the entire German nation. Therefore let us face the new year unflinchingly, looking forward to new deeds and new victories for our beloved fatherland.

(Signed) "Wilhelm."

CALLS ENGLAND FRIENDLY

Page Says Reply to American Note is Promised Within a Few Days.

Washington, Jan. 4.—Ambassador Walter Hines Page, in a long report from London, following his conference with high officials there, described the general attitude of the British government and the people toward the American note of protest concerning shipping as entirely friendly. He said a reply had been promised within a few days.

The ambassador detailed the British press criticism, whose tone he regarded as on the whole reasonable and amicable. In some quarters, not among officials, he found a disposition to search for a motive behind the American note, some Englishmen suggesting that the Washington administration had been compelled to yield to pressure from members of congress representing constituencies vitally affected by the interruption of trade. This portion of English public opinon seemed to think the American note was intended to some extent for home consumption.

M'ADOO OPENS EXPOSITION

Secretary of Treasury Formally Dedicates Panama-California Show at San Diego.

San Diego, Cal., Jan. 4.—The Panama-California exposition opened to the world by the touching of an electric button by President Wilson in Washington, was formally dedicated by the president's personal representative, Secretary of the Treasury William McAdoo.

Lyman J. Gage, former secretary of the treasury, presided at the ceremonies, and the list of speakers included Mr. McAdoo, President Davidson of the exposition, Count Del Valle de Salazar, representing the king of Spain; John Barrett, of the Pan-American Union, and Charles C. Moore, president of the Panama-Pacific exposition of San Francisco. The governors of nine states were present.

Foreigners Quit Constantinople.

Athens, via London, Jan. 4.—According to Constantinople advices which have reached here the Austrian and German embassies in the Turkish capital are transferring their archives to Asia Minor, fearing that action is imminent by the British and French fleets against the Dardanelles and the capital. Foreigners, it is stated, also are preparing to quit the capital for the interior.

To Employ More Men.

Reno, Nev., Jan. 4.—The Southern Pacific shops at Sparks, Nev., will resume operations with a full force. For six weeks the shops have been operated by a force of 125 men, and with the increased operations the men employed will total over 600. This announcement was made by John P. Jones, master mechanic of the Sparks plant.

Zionists Start Meetings.

St. Louis, Mo., Jan. 4.—With delegates from almost every state in the Union in attendance, the eighteenth annual convention of the Knights of Zion was opened here. Nathan D. Kaplan of Chicago presided. The business included the president's report, the appointment of committees and the reports of standing committees. Louis D. Brandeis of Boston, will address the convention on Sunday. The aim of the Zionist movement is to re-establish Palestine as the home of the Jewish race.

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

AND WHAT WAS HE TO DO?

Almost Any Married Man Will Appreciate the Situation Poor Hubby Got Himself Into.

"What a beautiful new hat and coat!" she cried, as soon as he came home that afternoon.

"Isn't it? I mean, aren't they?" he said proudly. "Bargains too. The overcoat was $16, reduced from something, and the hat was $4, but they're going to raise the price next week."

His young wife crowed with delight. "Herman, you look stunning!" she exclaimed. "Let me put them on, to give you some slight idea of the general effect. You can never tell on yourself, you know."

And she put them on. The coat was a nobby plaid Balmacaan and the hat was a Nile green felt, very swagger.

"By Jove, Cecile," he cried, "if I look half as good in 'em I'm satisfied!"

She walked to the pier glass.

"You look very fine in them, dear," she said hesitatingly, but—truth compels me to say they're more than twice as becoming on me. You know the women are wearing men's hats and coats this winter. Don't you think you could get yourself another outfit tomorrow—something in colors a little more becoming to you, perhaps? We have fried chicken and waffles for dinner, just the way you like them."

And—but what's the use?

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Adv.

Density of Population.

By density of population is meant the number of persons to each square mile of land area. Excluding the District of Columbia, Rhode Island, with 508.5 persons per square mile, is the most densely populated state in the Union, closely followed by Massachusetts, New Jersey and Connecticut, in the order named, the only states which have more than two hundred persons per square mile.

RESINOL WILL SURELY STOP THAT ITCHING

What blessed relief! The moment resinol ointment touches itching skin, the itching stops and healing begins. That is why doctors have prescribed it successfully for nineteen years in even the severest, stubbornest cases of eczema, ringworm, rashes and many other tormenting, unsightly skin diseases. With the help of warm baths with resinol soap, resinol ointment restores the skin or scalp to perfect health and comfort, quickly, easily and at little cost. At all druggists.—Adv.

The Prospect.

"You don't seem anxious to get home to your dinner."

"I don't care for the menu I'll get."

"What is it?"

"When my wife finds out I forgot to mail her letter the first course will be tongue served up with hard sauce."

FRENCH CAPTURE STEINBACH AFTER HEAVY FIGHTING

BERLIN ADMITS TAKING OF TOWN IN ALSACE, BUT SAYS DESPERATE CONFLICT CONTINUES IN THE STREETS.

WOUNDED ARE SUFFERING BUT CANNOT BE AIDED

Soldiers of Republic Destroy Line of German Trenches by Literally Demolishing Them With High Explosives—Germans Withdraw But Retake Positions.

London, Jan. 5.—Both the German and French headquarters agree that the one feature standing out in the western theater of war is the fiercely contested fighting in the Alsace region with Steinbach as the chief prize.

For nearly a week the results on this point have been of a seesaw nature. First one side, then the other would hold it. Berlin admits the capture of the village but says resperate fighting in the town still continues.

Both sides are bringing up new forces while those on the ground continue their fighting which at times is of the hand-to-hand variety.

The village has been wellnigh wiped off the face of the earth. The country surrounding it is a shambles, covered with dead and wounded.

No Aid for Wounded.

The latter are suffering horribly. Nothing can be done to aid them and they are forced to lie on the cold ground facing death. If it were possible for the doctors to attend them, many would be saved.

The French are bombarding the German positions in the vicinity of Thann and fighting of a bittery contested nature has taken pace aong the heights of the Meuse, to the west of Senneheim village.

The French destroyed a line of German trenches in this vicinity by literally demolishing them with high explosives. The Germans withdrew but returned to the assault under cover of darkness and retook the positions.

The losses in the fighting in upper Alsace have been very large, but the French, being on the offensive, have naturally lost far more heavily than the Germans, who for the most part have had the protection of their trenches.

DROPS GREETINGS FROM SKY

German Aviator Pays Visit to Dunkirk During Christmas Week, Hurling Cards Only.

Dunkirk, France, Jan. 5.—A German airman paid a visit to Dunkirk during Christmas week, but he dropped no bombs, only peaceful Christmas greetings. His somewhat hazardous trip from the German lines was undertaken at the request of a Prussian colonel, who wanted to know where his son, killed at Soissons, was buried, and the parcel of letters and cards which the aviator dropped into the principal square of the city contained a letter asking for this information, together with letters from several French airmen, prisoners in the hands of the Germans.

The cards were signed by the aviator himself and bore the conventional greetings of the season, together with a message that he had been led to undertake the mission by his admiration for the gallantry of the captured French airmen.

ARMY NOW NUMBERS MILLION

Britain's Home Defense Corps Grow to Immense Proportions in Less Than Three Months.

London, Jan. 5.—Almost unobserved Britain's home defense army—whether it be called "the volunteer training corps" or the "national guard" or the "special constabulary"—has grown to a membership of more than a million men in less than three months.

Occurrences like the German naval raid on Hartlepool and Scarborough in mid-December sent hundreds of the male population hurrying to take their places in this civil guard.

Two Drown When Ice Breaks.

Chicago, Jan. 5.—Two boys were drowned and a third may die as a result of their sled breaking through the ice in a lagoon in Washington park. William Jacques, 6, and Joseph Du Pres, 8, were being pushed toward the center of the pond by William Russell, 10, when the ice gave way. The Russell boy was resuscitated an hour later, but his recovery is doubtful.

New York Healthy City.

New York, Jan. 5.—New York's death rate for the year just closed was 13.40 per 1,000 of population, according to the figures just made public by the city's department of health. This, the department's report states, marks the lowest death rate ever attained in this city and has "definitely placed this city among the most healthful of the largest cities of the world." The number of deaths during 1914 was 74,803. The year witnessed the greatest number of births in the history of the municipality.

I Took Cold It Settled In My Kidneys.

I Used Peruna. Am all Right Now. I owe my Health to Peruna.

Mrs. Anna Linder, R. F. D. 3, Dassel, Meeker Co., Minn., writes: "For two years I suffered with that terrible disease, chronic catarrh.

"Fortunately, I saw your advertisement in my paper. I got your advice, and I took Peruna. Now I am well and the mother of two children. I owe it all to Peruna.

"I would not be without that great tonic for twice its cost, for I am well and strong now. I cannot speak in too high terms of its value as a medicine."

Willie Knew.

Some time ago the teacher of a public school was instructing a class in geography, and when it came time to hand out a few questions she turned to Willie Smith.

"Willie," she said, "can you tell me what is one of the principal products of the West Indies?"

"No, ma'am," frankly answered Willie, after a moment's hesitation.

"Just think a bit," encouragingly returned the teacher; "where does the sugar come from that you use at your house?"

"Sometimes from the store," answered Willie, "and sometimes we borrow it from the next-door neighbor."

The Real Thing.

Little Lemuel—Say, paw, what is persistency?

Paw—Persistency, my son, is the trait a woman develops when she attempts to remove a wrinkle.

Hojax—Not that I know of. I never met any one who could outspeak her.

Backache Warns You

Backache is one of Nature's warnings of kidney weakness. Kidney disease kills thousands every year.

Don't neglect a bad back. If your back is lame—if it hurts to stoop or lift—if there is irregularity of the secretions—suspect your kidneys. If you suffer headaches, dizziness and are tired, nervous and worn-out, you have further proof.

Use Doan's Kidney Pills, a fine medicine for bad backs and weak kidneys.

A North Dakota Case

Mrs. J. Peregrin, Bottineau, N. D., says: "I suffered intensely from pains in the small of my back and they always got worse when I exerted myself. My head ached and I had bad dizzy spells. My kidneys were weak, too, and my health was all run down. Two boxes of Doan's Kidney Pills cured me and, best of all, the cure has lasted. I am now in good health."

TURKISH TROOPS WIN BIG VICTORY OVER RUSSIANS

TAKE FORTIFIED TOWN IN BATTLE WHICH RESULTS IN FLIGHT OF RUSSIANS WITH HEAVY LOSS.

TURKS AND PERSIANS WIN IN BATTLE WITH RUSSIANS

Conscription May Be Resorted to for Recruiting of English Army and Navy—Allies Claim Gains on Western Battle Front.

Constantinople, Jan. 4.—The Turkish war office says: "Our troops took Ardahan, a Russian fortified town in Trans-Caucasia 45 miles northwest of Kars, Jan. 1. Ardahan was defended by General Zachen with 8,000 infantry, 1,000 Cossacks, six field guns and two machine guns. The battle for the town which began Dec. 29 ended in the flight of the Russians who lost heavily.

Our troops, in conjunction with the Persian tribesmen, completely defeated 4,000 Russians who had over 10 cannon, ten miles northwest of Saonjbulak. Four hundred Russians were killed. They lost six cannon. According to reports from Ezerum, Turkish Armenia, great transports of Russian prisoners from the latest battles are on the way there.

Capture Many Prisoners.

Petrograd, Jan. 3.—The following statement has been issued by Russian army headquarters:

On the Bzura and Rawka rivers we are continuing our successful repulse of the German attacks in spite of the enemy's heavy artillery fire and bomb throwing. On the road to Wloszozowa in the Kielos region, at the village of Lopuszno on Dec. 31, the German troops after a stubborn battle took possession of a portion of our trenches but later a counter attack forced the enemy to abandon all trenches previously occupied. During this affair we captured several hundred prisoners and nine machine guns.

In western Galicia fighting continues in the region of Gorlice. In the region of Colujok we have occupied the Austrian positions where we took 1,000 prisoners. The Austrian retreat in Bukowina before the drive of our troops has taken the character of a great rout.

May Draft Men.

London, Jan. 4.—The hint that the British government contemplated the introduction of conscription for increasing the army and navy was dropped by Thomas J. MacNamara, Parliamentary secretary to the admiralty, while speaking at Browning settlement this afternoon. Referring to the fact that there are many thousands of young men in the United Kingdom without dependents, who had not answered the call to colors, MacNamara said: "If they think they are going to enjoy a life of freedom at the other fellow's expense they won't enjoy it much longer." The recruiting boom which commenced after the holidays continues.

Statement From Berlin.

Berlin, Jan. 3.—An official statement by the German army headquarters says:

"In the western theatre, some of the enemy's ships accompanied by torpedo boats appeared of Westende (Belgium) yesterday afternoon without firing.

On the whole of the western front artillery fights took place. From Oise to Meuse, on the plateau of Louvant, our heavy artillery demolished several fortifications from which the enemy was harassing our sappers. Spirited artillery duels have taken place to the west and east of Craonne, near Perthesle Hurlus we progressed about 800 meters.

Near Boausejour there has been infantry fighting in which we inflicted serious losses on the enemy. The Germans launched two attacks without success in the forest of La Grurie. On all this portion of the front the artillery fire has shown great activity. In the region of Verdun, on the heights of Meuse, there has been an artillery duel. We again gained a little ground in the forest of Bouchon, northeast of Troyon and in the forests of Lepretre (northwest of Pont-a-Kousson). In the Vosges we occupied one of the enemy's trenches. Artillery engagements have taken place in Ban de Sapt and in the valley of Fave. In upper Alsace our former gains in the region of Thann have been maintained. We have bombarded a German train in the railway station of Altkirch and caused some damage on the railway between Carspach and Bierspach to the southwest of Altkirch.

Amsterdam, Jan. 3.—At a meeting of Belgium burgomasters to provide for raising the German levy an extraordinary outburst of enthusiasm for Belgium was witnessed.

No Change in Situation.

Paris, Jan. 3.—"The following was officially issued tonight:

According to latest advices received here there has been no alteration in the situation. The weather continues to be very bad on almost the whole front.

To Release American Ship.

Washington, Jan. 3.—The State department learned today that the American tank steamship Brindilla, after its seizure off the coast of Scotland, was taken to Brest and made protest to the British government. Unofficial advices say that it will be released promptly.

STOP EATING MEAT IF KIDNEYS OR BACK HURT

Take a Glass of Salts to Clean Kidneys if Bladder Bothers You—Meat Forms Uric Acid.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

ARMORED CAR IN WARFARE

European Armies Have Found It of the Greatest Value in Their Operations.

Although an engine new to warfare, the armored motor car has proved extremely useful, especially for outpost and scouting duty. Fast, silent, and mobile, it covers a vast amount of ground on the splendid roads that crisscross the field of war in western Europe. Most of the cars are incased in a light frame of tough steel plate that ranges in thickness from three-sixteenths of an inch to a quarter of an inch, and that is impervious to rifle and machine-gun fire. All the vulnerable parts of the motor, such as the radiator and steering gear, and in some of the newest cars the wheels, are protected by the steel covering. The wheels, both wood and wire, are said to withstand the roughest sort of usage. Accidents to the tires are much less common than anyone would expect. The cars carry a light armament—one or two machine guns so mounted that they can be swung through a complete circle—and a large supply of ammunition. The crew, which may number from four to eight or more men, are armed with rifles and revolvers. Some of the cars have a steel superstructure that rises from the chassis frame high enough to enable the crew to stand upright, and that is capped with a domed roof, from which bullets and shrapnel usually fly off at a sharp angle without even denting the steel.—Youth's Companion.

All There Was for Him.

A poor shoemaker's apprentice was sent to his master's home with some work. It was early in December, and when the lad arrived at the house he found the good wife engaged baking the special bread ready for Christmas.

The smell was delicious, and, sniffing strongly, the apprentice exclaimed heartily:

"Eh, missus, but your spice loaf smells grand."

"Ah, well, lad, thee mun tak some good smells, for it will be all thou will get."—Tit-Bits.

Transients All.

Mrs. Exe—How many servants do you keep?

Mrs. Wye—None. My record for the year, so far, is twenty-two I didn't keep.

STICK TO IT

Until Coffee Hits You Hard.

It is about as well to advise people to stick to coffee until they get hit hard enough so that they will never forget their experience.

A woman writes and her letter is condensed to give the facts in a short space:

"I was a coffee slave and stuck to it like a toper to his 'cups,' notwithstanding I frequently had severe attacks of sick headache; then I used more coffee to relieve the headache, and this was well enough until the coffee effect wore off.

"Finally attacks of rheumatism began to appear, and ultimately the whole nervous system began to break down and I was fast becoming a wreck.

"After a time I was induced to quit coffee and take up Postum. This was half a year ago. The result has been most satisfactory.

"The rheumatism is gone entirely, nerves practically well and steady, digestion almost perfect, never have any more sick headaches and am gaining steadily in weight and strength."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum — must be well boiled. 15c and 25c packages.

Instant Postum — is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

PROSPERITY NOW WITHIN GRASP OF U. S. MERCHANTS

BUSINESS OUTLOOK FOR NEW YEAR IS ROSEATE ACCORDING TO SECRETARY REDFIELD.

COUNTRY SLOWS DOWN BUT IT NEVER STOPS

Federal Official Declares Nothing Is the Matter With a Grouch Except An Absentee Heart and Missing Nerve—War's Over Yonder.

Washington, Jan. 2.—Heartened by months of close study of the business outlook of the nation Secretary Redfield of the Commerce Department wrote a New Year's greeting to the merchants and manufacturers of the country, bidding them in characteristic language to reach out for the prosperity he sees within their grasp.

There is no warrant, Mr. Redfield declares, for gloom or despair. The ill effects of the European warfare on American enterprise are passing and new vistas ofr commercial ventures are opening with each new day. His message follows:

To Bring Prosperity Now.

"If you want prosperity do your own share to bring it and do it now. Get that addition to your shop going; it will cost you less today than six months hence. Is trade a bit dull in the works? Get those improvements begun. Prices are low and likely to rise. You've been thinking of that contract work, better start it yourself before things get the start of you.

"This country slows down a bit now and then, but it never stops growing and it always moves up and not down. We don't know what it means in most of the United States to have real general distress. Think of Belgium and Poland, O, man with a grouch, and slink into your hole and pull it in after you. There think of your sins and your blessings and come out with your courage in working order.

"There are lots of good American examples of pluck. Do you remember San Francisco and Galveston and Chicago—Boston, Charleston, Baltimore and Dayton and many others like them? Remember Thomas A. Edison and lots of others of your fellow citizens who showed pluck when things went hard?

Quit Talking Misery.

"Nothing is the matter with the man with a grouch except an absentee heart and missing nerve. Cheer up, go to work, do your level best, quit talking misery. The war's over yonder, not here—men are slaughtered yonder, they are living here. All clouds there, all clear day here. Get out and sell some goods. Plant some more acres, do more work than you planned. Talk cheerful talk and you'll find this country of ours a pretty good place after all."

To support the secretary's hopeful views are the figures gathered by his department as to American foreign commerce since the outbreak of the great war. Since August, when the monthly trade balance of the nation showed a deficit of imports over exports, the situation has been completely changed. For December alone it is estimated the export excess will reach $100,000,000 or more, with one exception the highest mark of the last two years.

CUTS JOHN DIETZ' LIFE TERM

Governor McGovern Commutes Sentence to Twenty Years—Release in Four Years.

Madison, Wis., Jan. 1.—The life term of John F. Dietz, the outlaw of Cameron Dam, convicted in 1911 of murdering Oscar Harp, a deputy sheriff of Sawyer county, has been commuted to 20 years by Governor McGovern. Under the parole law, Dietz may now be released in four years. Petitions have been coming from every state asking for his pardon.

Dietz shot Harp when defending himself against arrest by a posse of deputies sent to his cabin on the Thornapple river to arrest him. The dam, he alleged, was the property of Mrs. Dietz, by virtue of a deed to the land surrounding it. The courts did not uphold this contention.

Seizes American Copper.

Copenhagen, Denmark, via London, Jan. 2.—A large cargo of copper, which is said to have been shipped to Denmark by a German-American, in an attempt to smuggle it through this country to Germany, by means of a false bill of lading, was seized by Danish authorities.

Kentucky Counties Go Dry.

Lexington, Ky., Jan. 4.—Nine counties in Kentucky have become "dry," liquor having been voted out last September with licenses expiring now. Only fifteen counties out of 120 in Kentucky are now in the so-called "wet" column.

Chancellor's Son Slain.

Berlin, Jan. 4.—The Lokal Anzeiger says it has learned that the eldest son of Dr. von Bethmann-Hollweg, the imperial chancellor, was killed in action in Poland on Dec. 9.

SPOHN'S DISTEMPER CURE

The Size.

Mother asked Davie one morning to fetch a small cabbage from the grocer.

"What would you call a small cabbage?" Davie asked.

"Oh, about the size of Jackie's head," answered the mother, referring to the younger brother. A few seconds later a voice came from the doorway:

"Mamma, I'm taking Jackie with me to measure by."

You seldom hear of a man marrying a woman to reform her.

Should Tarry.

"The Climblys tell me they are going to move into a better neighborhood."

"That's queer."

"Why so?"

"They haven't made good yet in the neighborhood they're leaving."

Effeminate.

Gabe—Why do you say he is effeminate? He doesn't act that way.

Steve—He always wants the last word.

Rheumatism Sprains Lumbago Sciatica

Why grin and bear all these ills when Sloan's Liniment kills pain?

"I have used your Liniment and can say it is fine. I have used it for sore throat, strained shoulder, and it acted like a charm."—*Allen Dunn, Route 1, Box 88, Pine Valley, Miss.*

"I am a painter and paperhanger by trade, consequently up and down ladders. About two years ago my left knee became lame and sore. It pained me at nights at times till I could not rest, and I was contemplating giving up my trade on account of it when I chanced to think of Sloan's Liniment. I had never tried it before, and I am glad to state that less than one 25c. bottle fixed me up apparently as good as ever."—*Charles C. Campbell, Florence, Texas.*

Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around $1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or to

The Holt Weekly News
Successor to and Continuation of
The Northern Light
By The
Holt Publishing Company

Published every Friday at Holt, Marshall County, Minnesota.

Subscription Price: $1.00 per year, strictly in advance.

Entered as second-class matter Sept. 22, 1911, at the post office at Holt, Minnesota, under the act of March 3, 1879.

Carl Christoferson visited friends in the country a few days last week.

Guy Anderson had the good fortune to kill a wolf one day last week.

Hans Monson and Johnson Bras of McIntosh passed through here Sunday for Roseau Co. where they will build shacks on their homesteads.

Misses Celia Olson and Inga Roseland visited in T. R. Falls Monday and Tuesday.

Several new patrons were received at the creamery Monday and their output is slowing increasing each week.

E. A. Wright returned to Middle River Tuesday, after spending a few days on his farm near here.

Miss Clara Tvede and Anna Erickson returned Tuesday from T. R. Falls.

Ed. M. Silbaugh has closed his barber shop and will devote his time to the real estate business.

Thomas Anderson, accompanied by his father, Ole Anderson of St. Hilaire, C. F. Birkeland and Martin Nelson went to Middle River Tuesday to make final proof on his claim.

Eight men and woman came in on the train Saturday to attend the religious meetings at the Fred Johnson and Herman Heinze homes. Meetings were held several evenings and were quite well attended by the young people from here.

Dr. Charest was called Saturday to see the infant child of Mr. and Mrs. Ole Rierson, who has been sick but is considerably better now.

Miss Mabel Fosen went to Litchfield Friday for an over Sunday visit with her sisters there before returning to school duties in Cambridge.

The bridge men have moved their camping out fit out east to the ditches, but a few of the crew remain here doing some construction work.

The Sunday School will meet at 2 o'clock next Sunday afternoon.

Clarence Docken returned to his work in the Holt State Bank, Wednesday after enjoying a couple of weeks vacation

Miss Ella Olberg went to T. R. Falls Friday for a weeks visit.

Miss Mary Dovre returned to Strandquist Saturday where she is teaching.

Peter Kolden returned to Ada Minn. Monday to resume school work.

It snows just a trifle every few days, just to remind us that it is winter.

Miss Amanda Mickelson returned to her school duties in Crookston Monday.

Our merchants are busily engaged invoicing and have'nt time to write ads.

B. L. Backe accompanied by Mr. and Mrs. T. O. Dovre autoed to T. R. Falls Thursday.

Dr. Turley, the Dentist will be at the hotel, in Holt, Monday Jan. 11.

Southeast of Holt.

Martin and Ida Anderson of Union, North Dakota are visiting with their aunt Mrs. Albert Klungress,

Agnes, Annie, Ralph, and Joseph Hanson and Alma, Clara and Walter Soiney spent Sunday afternoon a the home of S. G. Moe.

A party was given at the home of Mrs. Gutterud on Sunday evening a good time was reported by all present.

Mr. Iven Ose visited at the home of S. G. Moe on Thursday afternoon.

Olaf Dahle of Bemidji, came up last week to visit with friends and relatives in this locality.

The Ladies Aid of the Free church will meet with Mrs. Thom Olson on Gjermond Johnsons place on Thursday Jan. 14th Everybody is welcome to attend.

The Sunnyside.

The Jolly bunch were entertained at J. A. Sorum's Saturday evening. A very good time was had by all.

Mr. and Mrs. A. Bjerk spent Sunday at Gust Peterson's.

Mr. and Mrs. A. Sollum spent Sunday afternoon at Nels Lysne's.

Miss Clara Tvede returned from Donal[illegible] Tuesday.

Mrs. R. Kantz spent a few days with her parents Mr. and Mrs. A. Bjerk.

Miss Christine Saastad was a guest at the Peterson home for a few days.

Wonder why Jesse is taking trips up to Peterson's so often? Whats going to happen next Jesse?

School opened in District No. 59 on Wednesday Jan. 6.

Mr. and Mrs. Louis Wegge and two sons Edgar and Raymond spent Sunday at Nels Lysnes.

The Misses Wegge entertained a number of their friends New Years day. The following were present: Misses Lydia Bjerk, Lillie Peterson Burnedette Horien, Messrs. Ed. Bjerk, P. L. Anderson, Charles Horien, Jesse Sorum, Fred and Hjalmar Peterson.

Cheer up Oscar, the worst is yet to come.

Stina Breta wishes everybody a happy and prosperous New Year.

Oscar Knutson was out wolf hunting, but we think he must have run across a dear track as he did not return until after dark.

"Who Is She?"

Miss Marie Erickson returned on Tuesday from T. R. Falls.

Bill Anderson from Minneapolis is spending the winter with his brother George Anderson.

Wonder what was the matter with Albin Monday evening.

H. Peterson made a business trip to T. R. F. on Saturday.

EUROPEAN WAR SHATTERS KING COTTON'S THRONE

FLEECY STAPLE MUST PAY RANSOM INTO THE COFFERS OF WAR.

Nation Rings With Cries of Stricken Industry.

By Peter Radford
Lecturer National Farmers' Union.

King Cotton has suffered more from the European war than any other agricultural product on the American continent. The shells of the belligerents have bursted over his throne, frightening his subjects and shattering his markets, and, panic-stricken, the nation cries out "God save the king!"

People from every walk of life have contributed their mite toward rescue work. Society has danced before the king; milady has decreed that the family wardrobe shall contain only cotton goods; the press has plead with the public to "buy a bale"; bankers have been formulating holding plans; congress and legislative bodies have deliberated over relief measures; statesmen and writers have grown eloquent expounding the inalienable rights of "His Majesty" and presenting schemes for preserving the financial integrity of the stricken staple, but the sword of Europe has proved mightier than the pen of America in fixing value upon this product of the sunny south. Prices have been bayoneted, values riddled and markets decimated by the battling hosts of the eastern hemisphere until the American farmer has suffered a war loss of $400,000,000, and a bale of cotton brave enough to enter a European port must pay a ransom of half its value or go to prison until the war is over.

Hope of the Future Lies in Co-operation.

The Farmers' Union, through the columns of the press, wants to thank the American people for the friendship, sympathy and assistance given the cotton farmers in the hour of distress and to direct attention to cooperative methods necessary to permanently assist the marketing of all farm products.

The present emergency presents as grave a situation as ever confronted the American farmer and from the viewpoint of the producer, would seem to justify extraordinary relief measures, even to the point of bending the constitution and straining business rules in order to lift a portion of the burden off the backs of the farmer, for unless something is done to check the invasion of the war forces upon the cotton fields, the pathway of the European pestilence on this continent will be strewn with mortgaged homes and famine and poverty will stalk over the southland, filling the highways of industry with refugees and the bankruptcy court with prisoners.

All calamities teach us lessons and the present crisis serves to illuminate the frailties of our marketing methods and the weakness of our credit system, and out of the financial anguish and travail of the cotton farmer will come a volume of discussion and a mass of suggestions and finally a solution of this, the biggest problem in the economic life of America, if, indeed, we have not already laid the foundation for at least temporary relief.

More Pharaohs Needed in Agriculture.

Farm products have no credit and perhaps can never have on a permanent and satisfactory basis unless we build warehouses, cold storage plants, elevators, etc., for without storage and credit facilities, the south is compelled to dump its crop on the market at harvest time. The Farmers' Unions in the cotton producing states have for the past ten years persistently advocated the construction of storage facilities. We have built during this period 2,000 warehouses with a capacity of approximately 4,000,000 bales and looking backward the results would seem encouraging, but looking forward, we are able to house less than one-third of the crop and warehouses without a credit system lose 90 per cent of their usefulness. The problem is a gigantic one—too great for the farmer to solve unaided. He must have the assistance of the banker, the merchant and the government.

In production we have reached the high water mark of perfection in the world's history, but our marketing methods are most primitive. In the dawn of history we find agriculture plowing with a forked stick but with a system of warehouses under governmental supervision that made the Egyptians the marvel of civilization, for who has not admired the vision of Joseph and applauded the wisdom of Pharaoh for storing the surplus until demanded by the consumer, but in this age we have too many Josephs who dream and not enough Pharaohs who build.

A HOME BANK UNDER STATE SUPERVISION

Runaway Expenses

At one time or another, all of us have had the unpleasant experience of having expences exceed the speed limit, -- run away.

And when expenses run away, you've probably noticed that they always run UP-never down.

A Checking Account at this bank and a Check-book in your pocket is a sure curb on expense. The stubs in your Check-book flash a warning when over-spending starts. Begin your Account today and keep expenses normal.

Farmers State Bank
"HOME of CHECKING ACCOUNTS"
Holt - - - Minn.

At the commercial club meeting Tuesday evening arrangements were made to try to have the town incorporated. This is a move in the right direction and we trust every one will work for it, as a town can be kept up much better and improved faster if it is incorporated.

A party was given by Mr. and Mrs. Charlie Heinze last Sunday evening at which the following were present: Mr. and Mrs. Backe, Edna, Lydia, and Fridjof Risberg, Dagney Bakke, Cora Hanson, P. L. Anderson, L. Jensen, Clarence Docken, Ole Johnson, and Clarence Kolden. The evening was spent in playing games and singing. A dainty lunch was served later, all departing for their homes at midnight wishing a party like that could be had real often.

Notice of Annual Meeting

The Annual Meeting of the Farmers Co-Operative Creamery Company of Holt, Minn. will be held at the Creamery on Saturday the 23rd day of Jan. 1915, at 1 o'clock P. M., for the purpose of electing Officers and to transact any other business that may be brought before said meeting.

T. B. Folden, Sec'y

We have made arrangements with our Dairy and Food Inspector to be here for our Annual Meeting and he will give us a talk on "Quality" and this is a very important subject and I wish you would all turn out and hear him.

Your Buttermaker.

We learn from the Roosevelt Reporter that a fire there New Years eve burned five buildings, the loss being about $6000.00.

Farmers State Bank Elects Officers

At a meeting of stockholders held Jan. 12th, the following were elected Directors: Lars Backe, S. S Kolden, B. L. Backe, Fred Ewald, and A. R. Jones. Officers: Lars Backe, Pres., S. S. Kolden Vice Pres., B. L. Backe, Cashier, Bertil Sollom, Ass't Cashier.

During the past eventful season of Nineteen Fourteen, business was transacted for over one hundred thousand dollars by the bank. The Earnings and steady progress made was very pleasing and beyond expectations of stockholders present.

The fact that a second Bank at Holt, within its first year's business career, contracted sufficient business to produce earnings in excess of twelve percent, against countless obstacles and opposition, was a feat considered impossible by those who had grave doubts as to the desirableness of having bank competition at Holt. The bank's steady growth and future success is now assured.

Local Items

Photographer Strandberg of Alexandria, will be at the hotel in Holt, Saturday Jan. 23rd, prepared to take Photos.

The Free Mission Ladies' Aid re-elected all of the old officers at the annual meeting last week Thursday.

Allie Werner was on the sick list a couple of days last week.

Don't forget that good coffee you used to drink at Huseth's. We are serving the same kind now. Try a cup. A. H. Huseth.

Mr. and Mrs. C. Swartz visited friends in Grygla several days the past week.

If your shoes need mending take them to Carl Christoferson. He has started a shop in S. S. Kolden's store.

Elmer Ode of Mud Lake has been visiting at R. Rierson's this week.

C. L. Heinze and son Harry were in T. R. Falls last Friday.

John A. Sorum was in Warren, on business for several days last week.

D. B. Bakke, the popular president of the Holt State Bank, gave a "smoker" to the men of Holt Wednesday evening at the Star Hall. There were about fifty gentleman present and the first part of the evening was spent in playing progressive Whist at the same time each enjoying the fragrant Havana. Several cash prizes were to be given to the winners which not only promoted an intense interest in the game, but stimulated in each a determined effort to be the champion. The following persons received prizes: 1st prize D. Payne. 2nd. P. L. Anderson, 3rd C. H. Gunheim, 4th. Jacob Nelson, 5th, A. H. Huseth, 6th D. B. Bakke, 7th. O. J Backland, 8th Axel Nelson. The ladies who had received an invitation at the eleventh hour, came in a body to the hall and surprised the gentleman. The well prepared floor was cleared for action and old and young tripped the fantastic toe to the strains of the piano and violin. After a half hour of this fasinating recreation, the company headed by the host proceeded to the Hotel where a dainty lunch was served. The gentlemen of Holt will long remember with pleasure their first introduction to a "smoker" in Holt.

Mr. Business Man: If you want to be healthy, wealthy and wise, Buy some new goods and advertise. This paper will bring good results.

Bank Meeting

The annual meeting of the stockholders of the Holt State Bank was held on last Wednesday, Jan. 13th at their banking room in Holt. Stockholders present were D. B. Bakke, C. H. Gunheim, R. Reierson, John A. Sorum, G. P. Sorter, John Engstrom, P. A. Risberg H. Loken and B. Docken. The statement of the condition of the bank rendered by Cashier B. Docken proved the bank to be in a prosperous condition. The bank's total resourses are now over $80000.00, showing a gain of about $14000.00 over last year's statement.

A dividend of twenty per cent was declared, and $500.00 was put to Surplus. Undivided Profits $1060.00

The new board of directors elected for the ensuing year are, D. B. Bakke, R. Rierson, C. H. Gunheim, A. D. Stephens and T. L. Melgaard.

The officers elected for the ensuing year are, D. B. Bakke, President, A. D. Stephens, Vice President, B. Docken, Cashier, Clarence Docken Asst. Cashier.

The stockholders and directors present expressed themselves as well pleased with the showing of last year's business and progress of the bank.

GERMANS MAKE FURIOUS NIGHT ATTACK ON FOE

ENDEAVOR TO BREAK THE FRONT OF ADVANCING FRENCH LEGIONS ALONG THE AISNE RIVER.

TEUTONS LOSE 2,000 IN BATTLE IN SINGLE DAY

Battles of Greatest Savagery Are Now Raging for Possession of Two Towns of Highly Strategic Value — Steinbach and Burnhaupt in Alsace.

London, Jan. 12.—A dispatch to the Daily Express from Boulogne asserts that confirmation has been obtained of the rumors that the Germans have evacuated Lille and that the city is now virtually in the possession of the British.

Paris, Jan. 12.—Spirited night attacks by the Germans, interspersed with terrific cannonades, in an effort to break the front of the advancing French legions in the most furious fighting of the entire line, along the Aisne, in Champagne and in the Argonnes were recorded in the official statement just issued by the French war office.

Surrender by the Germans of a field fort to the north of La Ferte de Beausejour, in Champagne, with the capture by the French of a line of trenches from which the Germans were routed in a violent engagement to the west of the fort, was the most important success reported in the statement.

Germans Lose 2,000.

The Echo de Paris states that General von Heeringen, commanding the German center, lost 2,000 in killed, wounded and prisoners in the battle of Perthes les Hurlus in one day. Since then the German counter attacks have been equally furious and it is believed their losses by this time may have reached double that number.

The Germans continue their efforts to regain their lost ground on the Plateau of Vregny, to the north of Soissons, along the Aisne, but their counter attacks were futile. They repeated their bombardment of the town of Soissons when driven back from the entrenched positions.

Attempts during the night to drive the French back from their advanced positions in front of Perthes and to the north of Le Ferte Beausejour were repulsed, while in the Argonne region the kaiser's troops made a drive at Fontaine Madame and at St. Hubert, but both efforts were repulsed. In this same region the German gunboats bombarded Le Four de Paris, but the reply of the French was doubly effective. Not only were the German guns silenced but a blockhouse occupied by their sharp shooters was demolished.

Stop Counter Attacks.

Counter attacks delivered by the Germans against Hill Number 263 to the west of Boureuilles have ceased so far as active operations of their infantry is concerned, but a lively cannonade was maintained throughout the night, not only against the height but also against the canal of Meurissons upon the banks of which the French maintain strong defensive works.

Artillery activity is still pronounced in Belgium and the northeastern corner of France, but the rains and the floods due to the breaking of the Lys from its banks have made impossible any extensive operations of foot troops. Near Rheims in the Argonne, on the heights of the Meuse and in the forests of Apremont artillery duels continue with the advantage generally on the side of the French Creusot guns.

Savage Battle in Alsace.

Alsace still holds attention as the source of greatest interest in the operations on this front. Any gains here arouse the greatest enthusiasm among the population of Paris which is watching with keen anxiety the progress of General Pau in reclaiming the "Lost Province."

Battles of the greatest savagery are now raging for the possession of two towns of highly strategic value—Steinbach and Burnhaupt. Both towns have been won and lost several times and reinforcements have now been brought up by both commanders for the supreme effort which shall determine the mastery of this difficult situation.

Former Steel Magnate Dies.

Johnstown, Pa., Jan. 11.—Charles S. Price, 62, former president of the Cambria Steel company, died at his home here.

Celebrate Peace Centenary.

New Orleans, Jan. 11.—The unveiling on Chalmette battlefield, the scene of the last encounter between the United States and Great Britain, of a monument to General Andrew Jackson, was the climax of the first day's celebration here of the centenary of peace between English speaking nations. Andrew J. Peters, assistant secretary of the treasury and personal representative of President Wilson, and H. T. Hunt-Carew, British consul here, representing King George, participated in the ceremonies.

BELGIANS BEG U. S. FOR FOOD

DECLARE AMERICA SAVED THEM FROM STARVING.

Inhabitants Will Pay Back in Industry After the War, Asserts Louvain Burgomaster.

Brussels, via London, Jan. 9.—"If the United States had not come to our aid it would have meant starvation for most of us," said Alfred Nerinex, provisional burgomaster of Louvain.

"We are willing to work, but we cannot when the doors are closed to exports. We cannot buy food, even if we have the money, when the doors are closed to imports. It is no fault of ours if we starve. Feed us now and we will pay you back in industry when the war is over.

Bread Americanizes Belgians.

"We are paying back now in gratitude for the lives America has saved—gratitude which will endure as proof that human affection is stronger than any treaty alliance.

"Here in the midst of the ruins of my town I do not lose heart. I know we shall rebuild all, if only we can have food to keep us alive. The most powerful army in the world cannot Teutonize Belgium; but America, armed with bread, is Americanizing Belgium. My worst fear is that there will be bread riots if the relief stops."

M. Nerinex said the population of Louvain was only 3,000 less than before the German occupation. The people whose homes had been burned are living with their neighbors. The burgomaster said he was giving work to the idle by having them clean the streets and repair houses which can be made habitable.

MEETS MEXICAN OFFICIALS

General Hugh L. Scott Confers With Villa and Maytorena on Border Situation.

El Paso, Texas, Jan. 11.—General Hugh L. Scott, General Francisco Villa and Governor Maytorena of Sonora met in a conference preliminary to a series of conferences, planned in an effort to reach a solution of the problem of protecting residents of American border towns from the bullets of belligerents on the Mexican side.

The United States army chief of staff and the Mexican leaders met in the United States immigration station at the American end of one of the international bridges spanning the Rio Grande between El Paso and Juarez. No official statement was given out except that the first meeting was "cordial," and that it would be continued soon.

Villa was accompanied to El Paso by his entire staff and Scott by his chief of staff, Lieutenant Colonel R. E. L. Michie; George C. Carothers, representing the state department, acting as interpreter.

General Villa and Scott chatted for less than an hour. The meeting was accomplished as secretly as possible.

ROADS PLAN IMPROVEMENTS

Railways to Spend $10,000,000 for Locomotives and Cars, as Result of Rate Increase.

Chicago, Jan. 9.—Equipment plans embracing orders placed or pending for seventy-two locomotives, 195,000 tons of steel, and 8,500 cars of various types have been announced by three railroads. The estimated expenditure is approximately $10,000,000.

It is said that the proposed improvements are the direct result of the recent freight rate increase allowed by the Interstate Commerce Commission and that other orders for new equipment will follow shortly.

The Baltimore & Ohio the Pennsylvania, and the Chicago, St. Louis & New Orleans, are the roads now placing orders or receiving bids.

The Baltimore & Ohio has placed contracts for 2,000 freight cars, involving an expenditure of between $1,500,000 and $2,000,000. Options have been taken on an additional 2,000 freight cars and the road is said to be in the market for 25,000 tons of steel.

Forts Face Italian Frontier.

Geneva, Switzerland, via Paris, Jan. 11.—A dispatch from Innsbruck says a German army corps has arrived at Salzburg and that Austria had begun to fortify the line of Brixon-Meran-Bozen-Trente, facing the Italian frontier. A number of batteries have been brought from Innsbruck and cement platforms are being laid down and roads re-made under the supervision of German and Austrian army officers.

Sends Protest to Italy.

Milan, via London, Jan. 11.—The Secolo asserts that Count Leopold von Berchtold, Austrian minister of foreign affairs, has sent a note to Italy protesting against the Italian occupation of Avlona, Albania, and that Baron Sydney Sonnini, Italian minister of foreign affairs, has sent a firm reply.

Women Elect Saloonkeeper.

Chicago, Jan. 11.—Members of the women's Democratic club of the Second ward, who recently advertised in newspapers for an aldermanic candidate of "constructive ability, a clean respectable citizen, a friend of woman suffrage, a leader, not a follower, and a possessor of horse sense," have elected a saloonkeeper as their choice. Albert Russell, the candidate awarded the support of the club, already had received the indorsement of the men's Democratic organization of the ward.

TALK ON WESTERN CANADA.

You Don't Have to Lie About Canada—The Simple Truth Is Enough.

The natural resources of the country are so vast that they cannot be told in mere figures. Man can only tell of what tiny portions have done. He can only say, "I am more prosperous than I ever expected to be." And yet if a farmer expects to succeed on land that he has been forced to pay $50 to $100 an acre for he ought to feel assured of attaining prosperity when he finds the richest prairie soil at his disposal absolutely free. If he has a little capital, let him invest it all in live stock and farm implements—he will find himself ten years ahead of the game. Some day such a chance will not be found anywhere on the face of the globe. But now the same opportunities await you as awaited the pioneer and not one hundredth part of the difficulties he encountered and overcame. Success in Canada is made up of two things, natural resources and human labor. Canada has the one and you the other. A postal card stands between you and the Canadian government agent. If you don't hold these two forces and enjoy the fruits of the result it is your own fault.

Debt and Canada Will Not Stand Hitched.

You want a cozy home, a free life, and sufficient income. You want education for your children, and some pleasure for your wife. You want independence. Your burden has been heavy, and your farm hasn't paid. You work hard and are discouraged.

You require a change. There is a goal within sight, where your children will have advantages. You can get a home in Western Canada, freedom, where your ambitions can be fulfilled. If the Prairie Provinces of Canada are full of Successful Farmers why should you prove the exception? Haven't you got brains, experience, courage? Then prove what these are capable of when put on trial. It is encouraging to know that there is one country in the world where poverty is no barrier to wealth; own your own car; own yourself; be somebody.

For facts write to any Canadian government agent. Advertisement.

Another Luxury.

Payton—We hear a great deal lately about the high cost of living, and loving.

Parker—Yes, and the high cost of loafing ought not to be sneezed at, either.—Life.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative" and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50 cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Paw Knows Everything.

Willie—Paw, what is the difference between a chef and a cook?

Paw—About $75 a month, my son.

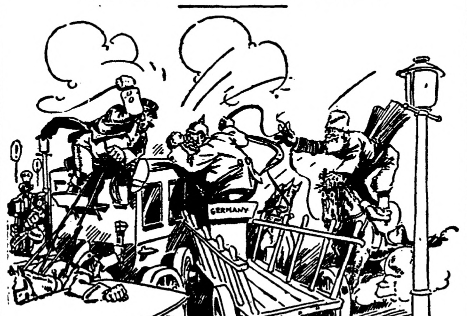
NEEDED—TRAFFIC REGULATION



INDIANAPOLIS NEWS.

GREAT BRITAIN TO INTERFERE ONLY WHEN NECESSARY

FRIENDLY NOTE IS STRUCK IN PRELIMINARY REPLY TO COMMUNICATION FROM UNITED STATES.

DOCUMENT MADE PUBLIC BY MUTUAL AGREEMENT

Officials of Washington Government Construe Statement as Conceding Principles Expressed by American Note Were Upheld by International Law.

Washington, Jan. 12.—Great Britain's reply to the note from the United States government requesting an improvement in the treatment of American commerce by the British fleet, has been made public here and in London by mutual agreement between the State Department and the British Foreign Office. The communication concurs in the view of the United States that commerce between neutral nations should be interfered with only when imperatively necessary.

United States Principles Upheld.

Officials of the Washington government construe this statement as conceding that the principles expressed by the American note were just and upheld by the previously accepted usages of international law. The only formal comment made was contained in a brief statement issued by Secretary Bryan. He said:

"This answer being preliminary and not intended as a complete reply, we will postpone comment until the full answer is received."

England to Make Redress.

Briefly, the British note, while conceding the principles of the American government's contentions, points out difficulties in actual practice, refers to alleged fraudulent practices by shippers, and cites statistics showing an increase rather than a decrease in certain neutral commerce in support of Great Britan's suspicion that Germany and Austria have been indirectly obtaining contraband through neutral countries.

The note promises that Great Britain will make redress whenever the action of the British fleet "may unintentionally exceed the limits" of international law.

HOLDS SOLDIERS FOR MURDER

Canadian Authorities Arrest Militiamen in Connection With Shooting of American Hunters.

Toronto, Ont., Jan. 11.—A provincial constable, a corporal and two privates have been arrested at Fort Erie on warrants issued at the instance of the attorney general of the Province of Ontario, charging them with manslaughter in connection with the death of Walter Smith and the wounding of Charles Dorsch, American citizens at Fort Erie, on Dec. 2 last. The men were held without bail.

Honor Liege Defender.

Paris, Jan. 11.—A bust of General Leman, the defender of Liege, who is now a prisoner of the Germans, was crowned with a wreath of laurel in the presense of representatives of the French and Belgian government and 5,000 spectators in the Trocadero.

Bread Prices May Go Up.

Washington, Jan. 11.—Department of Justice officials have expressed interest in reports that the price of a loaf of bread was about to jump from 5 to 6 cents in New York and other large cities. No complaints had reached the department, however, and no action is in immediate prospect. Attorney General Gregory has kept a close watch upon any efforts to raise the cost of living through combinations in any line, and it is considered certain that a rise in bread would be looked into at once.

U. S. PROSPERITY INCREASES

WAR PROVIDES CASH MARKET AT HIGHEST PRICES.

Hopeful Feature of Situation Is Placing of Heavy Shipment Orders by Railroads.

Chicago, Jan. 12.—The Chicago Herald prints the following:

Signs continue to multiply that business and industrial activity in the United States is steadily mounting on a material basis. The European war, of course, is the principal cause, in that it provides a cash market, at highest prices, for everything, except luxuries, that the United States has to sell.

Aside from this steady and growing demand for foodstuffs, clothing, all forms of leather, steel, copper, horses and mules, the most hopeful feature of the situation is the placing of heavy equipment orders by the railroads. Since the Eastern rate increase was granted, orders for rolling stock, rails and other supplies aggregating $6,670,000 have been placed and bids are in the market for approximately $10,000,000 additional. In connection with this sign of business revival, comes the announcement from various directions of the re-employment of more than 40,000 men in steel mills, railroad shops and kindred industries.

Cotton Exports Increase.

Lumber and cotton, the two industries which suffered severely during the depression, have also shown marked improvement. Sales of the former for export amounting to more than $2,000,000 are reported in Kansas City. Exports of cotton are increasing and the fact that the $100,000,000 loan fund has been called upon to do duty only in the most insignificant proportions would indicate that the South is rapidly solving its own financial problems.

Exportations of grain and other food stuffs keep up to the recent high levels and the call for war supplies continues large, despite the fact that many things have been added to the list of contraband.

The trade balance with Europe is growing rapidly in favor of this country, all pressing foreign indebtedness has been liquidated and gold is at our command for the asking.

All Sections Gain in Confidence.

Letters received from various sections of the country last week tell of gaining confidence and gradual growth of business, although the element of caution predominates in practically all of these communications.

Throughout the great West where farmers have derived huge returns from bountiful crops and high prices, there is unprecedented cheerfulness, and this sentiment is beginning to permeate the spots where less optimism has prevailed.

Money is abundant and growing cheaper all over the country. Credits at the banks are open to the business men and their limitations are wide, while the reserve system allays all fear of monetary stringency in the future.

The Pennsylvania Railroad company has arranged to bring out a $100,000,000 bond issue in March. The St. Paul railroad offering of $29,141,300 bonds reflects a substantial program of new construction.

Pittsburg steel found no difficulty in selling $5,000,000 bonds, which is another indication of easier finances.

Robbers Kill Policeman.

St. Louis, Jan. 11.—Michael Gibbons, a policeman, was shot and killed by two men whom he interrupted robbing the interurban station of the Wabash railroad station. The robbers blew open the safe and escaped with $4.

Rout Villa Forces.

Laredo, Texas, Jan. 9.—In a battle near Victoria, capital of Tamaulipas, Villa forces were put to flight, leaving many dead and wounded on the field, according to Constitutionalist advices from Neuvo Laredo, Mex.

Spain Has Big Deficit.

Madrid, via Paris, Jan. 9.—The financial statement of the government for 1914 shows a deficit of 157,000,000 pesetas ($31,400,000). The deficit is due to the shrinkage of revenue during the five months of the war.

Sheep to Fight Spotted Fever.

Spotted fever is spread by a species of tick, which will attack sheep and other domestic animals as well as men. In order to free the Bitter Root National Forest of Montana of these ticks, which are very numerous there, a flock of 2,500 sheep is to be turned loose on the reservation. It is expected that great numbers of the ticks will attach themselves to the sheep, and these will be destroyed by dipping the sheep from time to time in a solution that is deadly to the insects.

Panhandler Failed.

This is a panhandle story that failed. Douglass Fairbanks, the actor, was "touched" today for 35 cents by a man who said he wanted to get to New Rochelle to see his sick wife. The actor gave up willingly. Shortly after he met the panhandler on Sixth avenue inviting a couple of bums in to have a drink. "I thought you were going to New Rochelle to see your sick wife?" questioned the actor. "I guess I made a mistake," replied the young man. "No you didn't," said Mr. Fairbanks. "You're going to New Rochelle." He took the man in a nearby cafe and spying an athletic young fellow hired him to take the panhandler to the Grand Central depot and put him on a train for New Rochelle, using the 35 cents to buy the ticket. "And knock his block off if he doesn't go," were Mr. Fairbanks' parting instructions to the athletic one.—New York Times.

The Meat of Wheat

The average yearly consumption of wheat in the United States is nearly six bushels for every man, woman and child.

But—

Much of the nutriment of the wheat is lost because the vital mineral salts stored by Nature under the bran-coat are thrown out to make flour white.

In making

Grape-Nuts FOOD

of choice wheat and malted barley, all the nutriment of the grains, including the mineral values necessary for building sturdy brain, nerve and muscle, is retained.

Everywhere Grape-Nuts food has proven a wonderful energizer of brain and brawn, and you may be sure

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

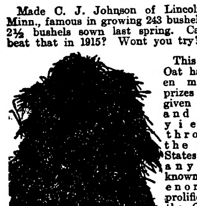
A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

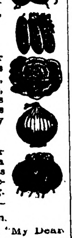
Age of Compactness.

Dealer—A diary for 1915? Perhaps this new style will suit you.

Customer—Rather small, isn't it? Why it stops with January 15.

Dealer—Yes, it is very compact—does away with the unnecessary bulk of paper that you find in the old-fashioned diaries.





Salzer's White Bonanza Oats.

Made C. J. Johnson of Lincoln Co., Minn., famous in growing 243 bushels from 2½ bushels sown last spring. Can you beat that in 1915? Wont you try?

This great Oat has taken more prizes and given bigger and larger yields throughout the United States than any Oat known. It's enormously prolific. Just the Oat for Iowa, Minn., Wis., Ill., Ind., Mich., Ohio, Neb., Pa., N. Y., Kansas and Missouri.

We are America's headquarters for Alfalfa and Potatoes Timothy, Clovers and Farm Seeds.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds, including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion—furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

Little Billy Again.

Mother had been singing "My Dearest Heart," one line of which is, "The grave is cruel, the grave is cold."

"Oh, mother," exclaimed little Billy, as she finished, "why was the gravy cold?"

SALTS IF BACKACHY OR KIDNEYS TROUBLE YOU

Eat Less Meat If Your Kidneys Aren't Acting Right or If Back Hurts or Bladder Bothers You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

You may think you are different from others but you bore a lot of people, just the same.

FOURTEEN BILLS INTRODUCED; ONE ON COUNTY OPTION

SENATE SETTLES DOWN TO ITS WORKADAY STRIDE AND ACCOMPLISHES DAY'S WORK.

NOLAN BILL APPEARS IN DISGUISED FORM

Calls for Regulation of State and Local Public Service Corporations —Census Measure Would Provide Employment for Men Who Are Idle.

IN THE HOUSE.

Met at 11 a. m.

Passed resolution authorizing speaker to appoint committees.

Speaker appointed committees on legislative expense and mileage.

Passed resolutions of sympathy for the death of two former members.

Representative Lewis C. Spooner spoke on resolution proposing joint committee of house and senate to hold hearings on efficiency and economy bill.

First introduction of bills of session.

Adjourned at 11:45 a. m. until 8 p. m. Monday.

IN THE SENATE.

Met 10:30 a. m.

First introduction of bills of session.

Adoption of report of rules committee providing for abolishment or merger of number of standing committees.

Senator F. H. Peterson spoke against adjournment until Monday.

Rules committee leaders held first informal conference.

Adjourned at 12 noon until 8 p. m. Monday.

St. Paul, Jan. 8.—With the introduction of fourteen bills, one of which called for county option, though not recognized as the "official" county option bill, and the presentation of the report of the rules committee, the senate settled down to its workaday stride and accomplished a day's work.

Explaining that his bill was not the "official" bill providing for county option, Senator F. H. Peterson of Moorhead introduced a measure which called for an election on county option on the petition of 25 per cent of the voters of any county. He said he came from a town where the "wets" predominated and the bill was introduced entirely on his own responsibility.

To Vote When Not at Home.

Endorsed in his action by commercial travelers' associations, Senator William A. Campbell of Minneapolis introduced as the first senate bill of the present session a measure which if pased will allow more than 25,000 traveling men in this state the power to vote while away from home. The bill provides for registration and voting at the primaries on the same day and for the issuance of a statewide certificate for voting at the elections. Three other bills were introduced by the Minneapolis senator.

The Nolen bill vetoed by former Governor Eberhart appeared in a new guise, sponsored by Senator Campbell. It calls for the regulation of state and local public service corporations and delegates to local councils of the different cities the power to regulate public service corporations whose franchise has expired.

Senator J. G. Callahan, in introducing a bill for the taking of the sixth decennial census in the state, drew attention to the fact that his measure would provide for the employment of a number of men at present unemployed and would make the labor commissioner superintendent of the census. In the cities, he said, the labor commissioner was closely in touch with the unemployed. Preference would be given to old soldiers and men out of employment.

The bill provides for the taking of the census in February of this year.

Representative Lewis C. Spooner of Morris introduced in the house a resolution proposing that a committee of nine members of the house and five members of the senate be appointed to "Receive, consider and hold public hearings on the efficiency and economy commission bill, which will be introduced in the near future."

After speaking at length regarding the resolution, Representative Spooner made a motion that the resolution be laid on the table until Monday, that members of the house and of the senate might confer on the matter. The motion was passed.

The resolution proposed that the committee have "power to compel the attendance of witnesses and the production of documents."

Both houses adjourned to 8 p. m. Monday.

Charged With Threatening [illegible]

Cleveland, Ohio, Jan. [illegible].—Jesse Spana of Youngstown, Ohio, who, Captain John E. Washer, United States secret service operator, charged wrote a threatening letter to President Wilson demanding money, has been brought to Cleveland and placed in the county jail. Spana denies the charge. He was arrested in Youngstown. Captain Washer said he could not reveal the contents of the letter. Spana will be given a hearing in a few days before a United States commissioner.

UNITE ON REORGANIZATION

Members of House Declare They Will Support Economy and Efficiency Program.

St. Paul, Jan. 9.—Members of the house of representatives say they will unite in supporting the economy and efficiency program which was dwelt upon by retiring Governor Adolph O. Eberhart and incoming Governor Winfield Scott Hammond before the joint session of the legislature.

Although many members of the house are uncertain as to the exact meaning of a number of points incident to the reorganization, it seemed the opinion that there would be no vigorous opposition to the general plan when it is brought forward to be voted upon and after it has been thoroughly thrashed out on the floor.

"I believe I express the opinion of a majority of the house members when I say that the general plan for efficiency and economy has met with almost unanimous favor in the house," said Iver J. Lee of Glenwood. "While there are many details that will require close study before the plan could be approved the program as a whole has been favorably received."

Several other members expressed similar views.

"I am in favor of the economy and efficiency plan as, I believe, is every other member of the house," said P. H. Frye of Willmar. "Of course the details of the plan will have to be gone over very thoroughly. It will require the extended services of an expert accountant to ascertain exactly whether there will be a material saving by reducing the number of officials."

Discussion of the economy and efficiency program was heard on every hand. The possibility of opposition to the plan was said to be so slight that it is being given little consideration at this time. Leaders in the Gordon ranks, as well as those who were active in the speakership campaign in behalf of Mr. Flowers, are strong advocates of the plan.

Views as to harmony were expressed by many members, all of whom declared that the line between the Gordon and Flowers adherents which became so tightened the last few days preceding the election of a speaker, had been almost entirely eliminated and that the house had forgotten politics and settled down to the vast amount of work which it must accomplish in the remaining eighty-odd days of the session.

Rules Committee Slated.

St. Paul, Jan. 8.—Shortly before the gavel fell at 11 o'clock Speaker Flowers announced that the two additional members of the rules committee would not be made known until next week. Those already slated are:

Thomas H. Girling, Robbinsdale.
L. A. Lydiard, Minneapolis.
George C. Sudheimer, St. Paul.
~~H. J. Miner, International Falls.~~
H. W. Haislet, Butterfield.
Levi M. Davis, Long Prairie.
Carl G. Malmberg, Forest Lake.

A resolution authorizing the appointment of a rules committee by the speaker was passed.

Lewis C. Spooner of Morris then introduced his efficiency and economy resolution and requested that it be laid on the table until next week, that members of the senate and of the house might confer on the matter.

Resolutions of condolence for the death of M. J. Sullivan, member of the lower house of the legislature in 1909-11-13, and the death of William H. Thielen, from the Thirty-eighth district in 1913, were adopted.

A motion that all bills be laid on the table until the rules committee has been appointed was passed. Then adjournment until Monday night at 8 o'clock was taken.

Hammond Is Kept Busy.

St. Paul, Jan. 9.—Governor Hammond is not finding the position of chief executive of the state altogether a bed of roses. A stream of office seekers kept vigil in the gold room and were received by the governor in order. Each man or delegation was given a card and they were disposed of in this fashion. "Since coming to St. Paul for my inauguration," said Governor Hammond, "the only time I have been alone is when I retire for the night. They have even invaded my room when I was dressing in the morning." Relative to appointments, Governor Hammond said that what he had to give out in the way of plums would be done after due consideration of the situation.

Plan for Fish Breeding.

Minneapolis, Jan. 8.—The legislature will be asked by a strong representation of Hennepin delegates to appropriate sufficient funds to defray the cost of installation of an aquarium surrounded by fish breeding lagoons, same to be located somewhere in that narrow strip of land which separates Lakes Calhoun and Harriet.

The original idea is that of Eben Cobb, superintendent of state fish hatcheries, who says the location is geographically ideal. The task of obtaining the appropriation necessary is in the hands of Chairman L. A. Lydiard of the Hennepin delegation.

Minneapolis Art Institute Opens.

Minneapolis, Jan. 8.—A dream of years, one that the city has cherished since early days, will be realized in the dedication of the Minneapolis Institute of Arts. From near and far men widely known in the field of fine arts will come to rejoice with Minneapolis. Dedicatory exercises will be held at the Auditorium. In the evening there will be a reception at the museum and an exhibition valued at more than $3,000,000 will be opened to the general public.

ZEPPELIN RAIDS ARE ANTICIPATED IN TWO CAPITALS

LIGHTS TO BE DIMMED IN PARIS—UNWONTED VIGLIANCE IS BEING MAINTAINED IN LONDON.

RUMANIA IS EXPECTED TO JOIN ALLIES SOON

Obstacles, Which Hitherto Blocked Full Mobilization, Have Been Removed With Arrival of Supplies for Equipment and Provisioning of 600,000 Men.

BATTER DARDANELLES FORTS.

Athens, Jan. 12.—The fort at Chanak Kalessi, guarding the south side of the entrance to the Dardanelles, has been demolished by the continued bombardment of the allies' warships, and has been evacuated by the Turkish garrison, according to a dispatch received from Salonika. Forts Elles and Seddil have been badly damaged, but were still holding out. Techanak Kalessi is known as "Castle of Asia."

Paris, Jan. 12.—That a German raid of Zeppelins on Paris is planned has just been learned. Minister Millerand held a conference with President Poincare, at which preliminary plans were considered. It was agreed that lights should be further dimmed in the city and an address to the people, reciting steps to be taken in the event of an aerial bombardment, was prepared. It will be issued later.

Hostile aeroplanes have again bombarded Dunkirk. Several buildings were badly damaged and five civilians were killed and several wounded.

A German aeroplane flying over Amiens has been brought to the ground by a French machine. The French airman went aloft the moment the German was seen approaching. He opened fire on his antagonist with the result that the German machine fell within the French lines. One of the German pilots was killed.

Dunkirk and its environs were also bombarded by a dozen aeroplanes Sunday. Thirty bombs were thrown by the airmen, but owing to the precautions that have been taken there were few victims. The material damage was unimportant.

England Anticipates Raid.

The Times asserts that 16 German aeroplanes were seen over the English channel on Sunday morning.

Evidently they contemplated a raid on England, according to the Times, but apparently the pilots found the conditions too bad to continue the journey, for they turned their machines and steered in the direction of Dunkirk.

A vigilant aeroplace patrol is being maintained along the English coast.

London is maintaining unwonted vigilance and the authorities are preparing to meet any emergency that might arise in case of an attack by German dirgibles.

Roumania Expected to Fight Soon.

London, Jan. 12.—There are increasing indications of the early participation of Roumania in the war, thus bringing into play another party of the combination against the Teutonic powers contemplated by Great Britain, France and Russia.

Difficulties confronted the allies in the earlier stages of the war in furnishing munitions, equipment and other necessities of war beyond those required for their own immediate needs.

These difficulties now have been surmounted, and the obstacle which hitherto has blocked full Roumanian mobilization has been removed with the arrival in that country of the requisite supplies for the equipment and provisioning of the 600,000 men which it is able to put into the field. Arrangements have been completed also, for the financing of these operations.

Admitting for the first time that the allies have gained a foothold in their trenches north of Soissons, the German war office declared the battle at this point continues with the allies unable to make any further gains. To offset these admitted reverses, the German troops are declared to have made gains in the Argonne region and also to have recaptured the trenches recently lost to the east of Perthes.

Murderer Is Sentenced.

Champaign, Ill., Jan. 12.—[illegible] Stone, who killed his wife and four children last fall, entered a plea of guilty in Champaign County Circuit Court and was sentenced to imprisonment for life.

Betrayed by Sweetheart.

St. Louis, Mo., Jan. 12.—Jesse [illegible], the 16 year old boy under arrest, charged with the murder of his step mother, Mrs. Ollie Coggins, was betrayed to the police by his 1[illegible] year old sweetheart, according to a report circulated here. Coggins has confessed the crime and a warrant for murder probably will be issued at once. Coggins' sweetheart is said to have told the police that Jesse hated her just prior to the murder and that she was betraying him from motives of revenge.

Women as Inventors.

It is probably not generally known that a woman invented the paper bag. Away back in 1870 a patent was granted Miss Margaret Knight, who died only a short time ago at the age of seventy-five. There are said to be 310 woman owners of incorporated establishments in St. Louis, who, besides managing the business, can do the actual manual labor required.

SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Adv.

Let's Hope So.

Bill—This paper says the invention of an Englishman is a machine to permit a singer to hear his own voice just as an audience hears it.

Jill—Do you suppose that will make certain people who sing more merciful?

A TREATMENT THAT HEALS MOST SKIN-DISEASES

Don't stand that itching skin humor one day longer. Go to the nearest druggist and, for about 75c, get a jar of resinol ointment and a cake of resinol soap. Bathe the eczema patches with resinol soap and hot water, dry and apply a little resinol ointment.

It's almost too good to be true. The torturing, itching and burning stop instantly, you no longer have to dig and scratch, sleep becomes possible, and healing begins. Soon the ugly, torturing eruptions disappear completely and for good.—Adv.

The Wise Fool.

"There is a time to work and a time to play, but you can't combine them," remarked the Sage.

"But suppose you are a musician?" asked the Fool.

DR. J. H. RINDLAUB (Specialist), Eye, Ear, Nose and Throat
Fargo, N. D.

An ideal may be all right; but a square deal is usually better.

Good Cause for Alarm

Deaths from kidney diseases have increased 72% in twenty years. People overdo nowadays in so many ways that the constant filtering of poisoned blood weakens the kidneys.

Beware of fatal Bright's disease. When backache or urinary ills suggest weak kidneys, use a tested kidney medicine.

Doan's Kidney Pills command confidence, for no other remedy is so widely used or so generally successful.

A North Dakota Case

John Myers, 302 S. Ninth St., Bismarck, N. D., says: "I had attacks of backache and was so weak that I couldn't stoop or lift. A dull, throbbing ache settled in the small of my back and the kidney secretions passed irregularly. I doctored, but didn't get relief until I took Doan's Kidney Pills. They strengthened my back and made me feel better in every way. I don't have much need of a kidney medicine now."

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Crusen, of Bushnell, Ill.

Bushnell, Ill.—"I think all the trouble I have had [illegible] marriage was caused by exposure when a young girl. My work has been housework of all kinds, and I have done milking in the cold and snow when I was too young to realize that it would hurt me. I have suffered very much with bearing down pains in my back and such miserable pains across me, and was very nervous and generally run down in health, but since I have taken Lydia E. Pinkham's Vegetable Compound my back never hurts me, my nerves are stronger, and I am gaining in health every day. I thank you for the great help I have received from your medicine, and if my letter will benefit suffering women I will be glad for you to print it."—Mrs. James Crusen, Bushnell, Illinois.

A Grateful Atlantic Coast Woman

Hodgdon, Me.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. Hayward Sowers, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Commercial Club Meeting.

A well attended and enthusiastic meeting of the club was held Tuesday evening at the Star Hall, and various matters of importance were discussed. New officers for the ensuing year were elected as follows: President, P. A. Riesberg; Vice-President, Ed. M. Silbaugh; Sec'y, B. Docken; Treas. P. L. Anderson; Board of Directors, P. A. Riesberg, Ed. M. Silbaugh, D. Payne, C. W. Latta, B. Docken; Membership Com. A. H. Huseth, Tony Carlson, B. L. Backe.

The matter of incorporating the village was thoroughly discussed and the sentiment seemed to be greatly in favor of incorporating and P. A. Riesberg was appointed to take a census. A committee of three members, P. A. Riesberg, D. Payne and Ed. M. Silbaugh were elected to take preliminary steps and to take charge of the incorporation.

Mr. and Mrs. Allie Warner and son Bartley visited at E. J. Warner's last Monday.

C. Martell has been on the sick list for a few days past.

We have a good letter this week for our readers, from East Valley.

Mrs. Richard Ruphreckt and children of Thief River Falls, arrived Monday for a few days visit with her parents Mr. and Mrs. E. J. Werner.

Mrs. Matt Larson went to Fargo N. D. Monday to visit relatives.

Mr. and Mrs. Poppenhagen and little child of Thief River Falls came Saturday to visit, her parents Mr Mrs. P. O. Rierson and other relatives.

Mrs. Martin Benson came from T. R. Falls Saturday for an over Sunday visit with relatives.

P. P. Rierson and Mr. and Mrs. Poppenhagen visited relatives in Newfolden Monday.

Christ Von Wold returned to Golden Valley Tuesday after an extended visit with his son and family in T. R. Falls.

Mr. and Mrs. Ed. M. Silbaugh were visitors at the J. B. Alkenbrack home Sunday evening.

Theodore Sollom returned to his claim near Goodridge Monday.

P. A. Von Wold came from Golden Valley Saturday where he had been moving some buildings for his his sister and visited over Sunday at the Alkenbrack home.

Miss Olava Sollom returned Tuesday from visiting her sister at Goodridge.

Miss Ella Olberg returned Tuesday from visiting friends in T. R. Falls.

Mrs. Gust Peterson left Tuesday to visit her daughter Mrs. Bill Warner in T. R. Falls.

Mrs. Clarence Knutson returned to Grand Forks Tuesday with her father Mr. Haugen.

We were misinformed about a dance being held at the E. J. Warner home, for Mr. Warner tells us he has never had a dance at his place in the twenty-eight years he has lived here. We are very sorry that the item was published and wish to apoligize, to Mr. Warner and family, for the mistake we made in doing so.

The Sunnyside.

A number of young people enjoyed a pleasant evening at H' Furr's Friday.

Lily and Hjalmer Peterson spent Sunday evening at A. Bjerk's.

The Jolly Bunch gathered to surprise Mr. G. Peterson Saturday night in honor of his fifty-eighth birthday. Everybody reported a good time.

Mr. and Mrs. G. Peterson spent Sunday afternoon at Nels Lysne's.

Oscar Knutson made a business trip to Middle River Monday.

Ida and Julia Lunke visited at H. Knutson's Sunday afternoon.

Mrs. C. Anderson called at F. Carlson's Monday.

Hjalmer Dovre and C. W. Christianson speat a social evensig at Ed. Horien's Sunday.

If the driver had not been otherwise occupied than in watching the road, this tale would not be told: the horses being left to follow their own inclinations, they might not have chosen to go so near the ditch and a certain sleighload of young people would not have found themselves suddenly wrong side up last Saturday night. If you would like to know where it happened, look for a spot where the grass won't be growing next summer. If you want to know what the driver was doing ask Ed.

"Lou, Lou, I still love you,
For the sake of 'Auld Lang Syne,
And I call you when I fall asleep to
dreaming, That old girl of mine.'

Southeast of Holt.

Mr. and Mrs. Ed. Hanson and children Floyd, Victoria, and Henry spent Sunday afternoon at the home of Mr. and Mrs. Willie Rude.

Thoro, Oscar, and Manvel Moe spent Sunday afternoon at the home of E. Hanson.

Mr. and Mrs. Albert Klungress and daughters Jennie, Clara, Ida and Martin Anderson spent Sunday visiting at the home of Ole Johnson.

Mrs. and Pete Michaelson and children Oliver, Esther, Norman, and Mrs. J. Michaelson spent Sunday afternoon visiting at the home of Christ Berkland.

Messrs. Alfred Klungness, Olaf Dahle, Targie Sordahl and Martin Anderson spent Sunday evening at the home of C. A. Soiney.

Gunda and Harry Moe returned home from Fosston on Wednesday arter a two weeks visit with relatives at that place. They report having had an enjoyable time.

The Synod Ladies' Aid held their annual meeting with Mrs. A. Bjerk, Wednesday Jan. 7th, and elected the following officers: President, Mrs. Adolph Sollom; Vice President, Mrs. C. H. Gunheim; Treas. Mrs. B. L. Backe; Sec'y, Mrs. Ben Docken.

Send The News to your friends and a dollar for your own at the same time.

The Sande Bros. who have been holding revival meetings at different places, returned to Thief River Falls Monday.

Frank Stanley of Whitefish Mont. came Saturday and visited at the home of his sister Mrs. J. B. Alkenbrack until Tuesday when he left for T. R. Falls to visit at the P. A. Von Wold home.

The following were invited to the home of Mr. and Mrs. John Engstrom last Sunday. Mr. and Mrs. P. A. Risberg and son Walmer, Mr. Tony Carlson and Clara, Mr. Arvid Carlson and Bella. Mr. and Mrs. and Miss Rodman. A very enjoyable time was had by all returning home in the wee hours of the morning. —C.

MARKETING WORLD'S GREATEST PROBLEM

WE ARE LONG ON PRODUCTION, SHORT ON DISTRIBUTION.

By Peter Radford

Lecturer National Farmers' Union.

The economic distribution of farm products is today the world's greatest problem and the war, while it has brought its hardships, has clearly emphasized the importance of distribution as a factor in American agriculture and promises to give the farmers the co-operation of the government and the business men the solution of their marketing problem.

This result will, in a measure, compensate us for our war losses, for the business interests and government have been in the main assisting almost exclusively on the production side of agriculture. While the department of agriculture has been dumping tons of literature on the farmer telling him how to produce, the farmer has been dumping tons of products in the nation's garbage can for want of a market.

The World Will Never Starve.

At no time since Adam and Eve were driven from the Garden of Eden have the inhabitants of this world suffered from lack of production, but some people have gone hungry from the day of creation to this good hour for the lack of proper distribution. Slight variations in production have forced a change in diet and one locality has felt the pinch of want, while another surfeited, but the world as a whole has ever been a land of plenty.

We now have less than one-tenth of the tillable land of the earth's surface under cultivation, and we not only have this surplus area to draw on but it is safe to estimate that in case of dire necessity one-half the earth's population could at the present time knock their living out of the trees of the forest, gather it from wild vines and draw it from streams. No one should become alarmed; the world will never starve.

The consumer has always feared that the producer would not supply him and his fright has found expression on the statute books of our states and nations and the farmer has been urged to produce recklessly and without reference to a market, and regardless of the demands of the consumer.

Back to the Soil.

The city people have been urging each other to move back to the farm, but very few of them have moved. We welcome our city cousins back to the soil and this earth's surface contains 16,092,160,000 idle acres of tillable land where they can make a living by tickling the earth with a forked stick, but we do not need them so far as increasing production is concerned; we now have all the producers we can use. The city man has very erroneous ideas of agricultural conditions. The commonly accepted theory that we are short on production is all wrong. Our annual increase in production far exceeds that of our increase in population.

The World as a Farm.

Taking the world as one big farm, we find two billion acres of land in cultivation. Of this amount there is approximately 750,000,000 acres on the western and 1,260,000,000 acres on the eastern hemisphere, in cultivation. This estimate, of course, does not include grazing lands, forests, etc., where large quantities of meat are produced.

The world's annual crop approximates fifteen billion bushels of cereals, thirteen billion pounds of fibre and sixty-five million tons of meat.

The average annual world crop for the past five years, compared with the previous five years, is as follows:

Crops—	Past Half Decade.	Previous Half Decade.
Corn (Bu.)	3,934,171,000	3,403,655,000
Wheat (Bu.)	3,522,769,000	3,257,526,000
Oats (Bu.)	4,120,017,000	3,508,315,000
Cotton (Bales)	19,863,800	17,541,200

The world shows an average increase in cereal production of 13 per cent during the past decade, compared with the previous five years, while the world's population shows an increase of only three per cent.

The gain in production far exceeds that of our increase in population, and it is safe to estimate that the farmer can easily increase production 25 per cent if a remunerative market can be found for the products. In textile fibres the world shows an increase during the past half decade in production of 15 per cent against a population increase of three per cent.

The people of this nation should address themselves to the subject of improved facilities for distribution.

Over-production and crop mortgage force the farmers into ruinous competition with each other. The remedy lies in organization and in co-operation in marketing.

BIG EATERS HAVE BAD KIDNEYS AND BACKACHE

Take a Glass of Salts at Once If Your Back Is Hurting or Kidneys and Bladder Trouble You.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

Limited Dissipation.

A small, henpecked little man was about to take an examination for life insurance.

"You don't dissipate, do you?" asked the physician, as he made ready for tests. "Not a fast liver, or anything of that sort?"

The little man hesitated a moment, looked a bit frightened, then replied in a small, piping voice: "I sometimes chew a little gum."—Collier's Weekly.

The Attraction.

Bacon—I understand in many of the Chilean cities women are employed as street car conductors.

Egbert—Now I can understand why men want to crowd the back platforms.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

The Hyphen Explained.

Mrs. Dearborn—You say that is Mrs. Burke-Martin?

Mrs. Wabash—Yes; Burke was her name and Martin was her husband's name.

Mrs. Dearborn—But why does she use the hyphen between the names?

Mrs. Wabash—To show that she is separated from her husband.

Alfalfa PUREST ON EARTH

More than 30 years ago Salzer's Catalog boomed Alfalfa, years before other seedsmen thought of its value. Today Salzer excels! His Alfalfa strains include Grimm, (Montana Liscom, Agr. College inspected). Salzer's Dakota Registered No. 30—all hardy as oak.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds, including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, Alfalfa, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion—furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

The Bore.

"I hate to ask Jinks about his health."

"Why?"

"He promptly tells me all about it."

ITALY ALARMED BY NEW SHOCKS IN QUAKE ZONE

BUILDINGS CRACKED AND TOTTERING FROM EFFECTS OF FIRST DISTURBANCE ARE RAZED.

PEOPLE LEAVE SHELTER; TAKE REFUGE IN OPEN

Rain and Extremely Cold Weather in Some Parts of the District Hamper Badly the Work of Rescue —Many Believed Still Living Beneath Debris.

Still Alive Under Ruins.

Paris, Jan. 18.—The correspondent of the Excelsior in Rome wires that he learns officially that 35,000 persons were killed and 45,000 injured in the earthquake.

Rome, Jan. 19.—A renewal of seismic disturbances has served to add to the terror of the people in parts of the district that was visited by the heavy earthquake of last Wednesday.

Although the shocks were light, buildings which had been cracked and were tottering from the effects of the first disturbance were completely razed.

In Avezzano and Sora, the towns which suffered most from the disaster, the people left the temporary shelter in which they are living and took refuge in the open places.

Cold Hampers Rescue Work.

Rain and extremely cold weather in some parts of the district are hampering badly the work of rescue. This is particularly true of Sora, where a cold rain has been falling.

In many of the towns thrown down by the earthquake, it is feared there are still living persons beneath the debris and that unless they are extricated soon they will perish.

Reports Increase Casualties.

Latest reports received from Rome increase rather than decrease the aggregate of the casualties and the extent of the damage done. In the department of the Abruzzi alone, it is estimated that 30,000 persons met death.

The Italian government has appropriated $1,000,000 for the relief work and King Victor Emmanuel has donated $60,000 for the aid of children abandoned by their parents or made orphans by the disaster. Relief supplies are pouring into the stricken districts, and it is believed that shortly there will be sufficient food supplies everywhere to alleviate temporarily the distress of the people. Trainloads of lumber also are being dispatched to the destroyed towns for the erection of huts.

UNABLE TO REMAIN NEUTRAL

Persia Declares She Should Not Be Held Accountable for Turks' Menacing Russia.

Petrograd, via London, Jan. 18.—That Persia should not be held accountable for her inability to prevent the Turks from menacing Russia through violation of Persian neutrality, was the assertion made by Isaac Khan, Persian minister to Russia and at one time minister to Washington. He declared his country had placed her dependence upon foreign troops for protection. The minister explained th Persian situation as follows:

"We solemnly declared our neutrality and intended to adhere to that declaration. The integrity of our territory was gauaranteed to us by Great Britain and Russia. Last Monday Emperor Nicholas, reiterating this promise, said, 'I wish you to tell your government that we shall not take a single foot of your territory.'"

Germans Take 5,200 Prisoners.

Berlin, by wireless to Sayville, L. I., Jan. 18.—The German main army headquarters announces that as a result of the three days' fighting northeast of Soisoons about 5,200 prisoners, 14 guns, six machine guns and some revolver guns were captured.

"The further announcement is made that the French suffered heavy losses, from 4,000 to 5,000 dead French soldiers being found on the battlefield."

Allies Buy 50,000 Horses.

San Antonio, Texas, Jan. 18.—Fifty thousand horses are to be furnished the British and French governments within six months under a contract just signed by a local firm. The first shipment of not less than 5,000 is to be made by Feb. 1. Of the animals 40,000 are to be saddle horses, while 10,000 are to be for artillery.

Turks to Deliver Persians.

Amsterdam, Holland, via London, Jan. 16.—There has been received here an official communication given out at Constantinople, by the Turkish authorities as follows:

"Assisted by Persian troops our army is steadily advancing in Azerbaijan province, Persia, in order to deliver the country from the Russian yoke.

"We have had further notable success, occupying advanced positions of the Russians in the vicinity of Tabriz.

SOLDIER HAS 50 WOUNDS.

London, Jan. 15.—As many as 1,000 injured soldiers sometimes land in Southampton in one day, declared Dr. Howard N. Beal of Worcester, Mass., chief of the hospital at Paignton, England, established by the American Women's War Relief Fund.

Dr. Beal cited the mortality in the hospitals in the vicinity of Dunkirk, where the worst cases have been taken, as 40 per cent.

Among the injured recently received at the Paignton hospital, he said, was a boy of 19, who had 50 shrapnel wounds in his back and both of whose arms had been cut by fragments of shells.

AVEZZANO LIKE CEMETARY

CITY IS FILLED WITH DEAD AND WOUNDED.

Desperate Appeals for Help Are Heard From Those Under the Wrecked Buildings.

Avezzano, via Rome, Jan. 16.—Avezzano is filled with dead and wounded and wrecked houses. It is like the ruins of a cemetery. Those who escaped the destruction caused by the earthquake went heroically to work to reach those pinned under the fallen walls. They could not seem to understand the delay in dispatching aid to them from Rome and other centers, forgetting that more than 12 hours passed before knowledge of the gravity of the disaster reached the outside authorities.

Nearly all the civic officials of Avezzano perished, including the mayor, the under prefect, the judges, the commander of the caribiniers, parish priests, monks and nuns. The college, with more than a hundred girl students, collapsed. The governor of prisons, jailers and the doctors and patients in the hospitals were carried down in the wreckage. The only notable person who survived was the head of the police, Sig. Ottavi, who, though wounded, has labored since the overthrow to give succor to the injured.

Cry Out for Help.

Desperate appeals for help are heard on all sides from those under wrecked buildings, but the efforts of Ottavi and the few hundred survivors have availed little, for they lacked the implements with which to effect a general rescue. But about fifty persons, all of them wounded, were taken out with great difficulty. They lay without shelter and without their wounds being dressed owing to a lack of medical supplies. Later doctors arrived and operated on some of the injured by the light of blazing torches.

They were taken to the station where they were made as comfortable as possible in trucks.

Assistance came at last from Arsoli and Aquila and large rescuing parties arrived from Rome and Pescara.

Thirty thousand soldiers have been distributed throughout the earthquake district and already large quantities of provisions and clothing together with wood for the construction of huts have arrived.

MILLION ALIENS COME YEARLY

Interesting Figures in the Annual Report of the Commissioner General of Immigration.

Washington, Jan. 16.—"Immigration, judged by the results of the year, has apparently reached the million mark permanently, and unless some affirmative action is taken by the federal government to restrict it, or steps are taken by European and other nations to reduce the steady stream of persons leaving the various countries of the old world, we need hardly expect that the number annually entering the United States will hereafter fall far below 1,000,000."

So says Commissioner General of Immigration Caminetti in his annual report, just made public. Of the number of aliens applying for admission, 33,041, or 2.3 per cent, were excluded, but Mr. Caminetti says many more should be shut out if the laws were reasonably enforced. The funds and men available, he asserts, are wholly insufficient to meet the situation. Arguing for more liberal appropriations, he declares: "Every penny spent for the support of the immigration service comes out of the pockets of the immigrants, and there is now accumulated in the treasury (or ought to be if it has not been used for purposes other than that for which collected) about $10,700,000, some of which should be used to bring about a proper enforcement of the law in the future."

About 48 per cent of all the aliens rejected during the year, or 15,745, were debarred because deemed likely to become public charges. The number excluded because of mental or physical deficiency was 14,582.

British Take African Town.

London, Jan. 18.—The forces of the Union of South Africa have occupied Swakopmund, German Southwest Africa, according to the Pretoria correspondent of Reuters' Telegram company.

England to Hold Up Letters.

London, Jan. 18.—Great Britain has decided to hold up letters destined for countries with which she is at war if they are enclosed in letters being forwarded to neutral countries unless the envelope is unsealed.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels —you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

FARMERS NEED THE BIRDS

For Purely Selfish Reasons the Destruction of Feathered Songsters Should Be Stopped.

Birds are the chief protectors of our trees. Who ever heard of codling moth and San Jose and other scales when the orchards were full of birds? Now that these feathered helpers have been driven out of wood and field, man is compelled to resort to all sorts of vexatious and difficult struggles against the enemy of fruit and tree.

The birds are the very best destroyers of weeds. Native sparrows, finches, grosbeaks, redpolls, longspurs, cowbirds feed hungrily upon the fall weed seeds at a time when the crops have been gathered and they can do no harm to it.

The best helper a farmer can have is a host of birds. But instead of recognizing these efficient helpers, so generously provided by nature, we wantonly slay them by the hundreds for fun.—Kendallville News-Sun.

SAGE TEA AND SULPHUR DARKENS YOUR GRAY HAIR

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Adv.

Magnificent Volume.

The most sumptuous copy of Shakespeare's "Romeo and Juliet" in existence was recently sent from England to a purchaser abroad. The value of the book is between $5,000 and $7,500. It has been reproduced as an illuminated manuscript on vellum, and the volume is notable as being the entire work of one artist, Alberto Sangorski, who was engaged upon it for 18 months. The title is in pearls set in gold, and the cover is embellished with 214 rubies and 36 amethysts.

CARE FOR CHILDREN'S

Hair and Skin With Cuticura. Nothing Easier. Trial Free.

The Soap to cleanse and purify the skin and scalp, the Ointment to soothe and heal rashes, itchings, redness, roughness, dandruff, etc. Nothing better than these fragrant supercreamy emollients for preserving and purifying the skin, scalp and hair.

Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Austria Protects Workers.

In order to prevent the wholesale dismissal of employees of private firms, the Austro-Hungarian ministry of war has directed that army contracts will only be given to those firms who have maintained their staffs at the ordinary full number, and without any reduction in wages. Manufacturers acting in a contrary manner will be rigidly excluded from all further contracts, and they may also expect to have existing contracts canceled.

A gentleman doesn't have to go around assuring people that he is one.

And when the children are at play many are called but few answer.

RUSSIANS TAKE KIRLIBABA PASS IN CARPATHIANS

MUSCOVITES MAKE FURTHER PROGRESS ALONG BANK OF VISTULA TOWARD GERMAN FRONTIER.

BRISK FIGHTING AT POINTS IN THE WEST

French Claim to Have Made Advance Along Coast of Flanders—Attacks and Counter-Attacks Also Prevail in the Region of Arras and Aisne.

London, Jan. 19.—A Petrograd dispatch to the Central News says: An official communication just issued says the Eleventh Turkish army corps has been exterminated near Kara-Urgan.

London, Jan. 19.—While the main Russian army has been busy repelling what Grand Duke Nicholas, in his official report, describes as a series of violent attacks by Field Marshal von Hindenburg to break his way to Warsaw, the other Russian forces have stormed and taken Kirlibaba pass, on the borders of Transylvania, and have made further progress in their advance along the right bank of the Vistula toward the German frontier.

Germans Take Trenches.

The Germans, in force, have delivered seven successive attacks which developed into desperate bayonet fighting on the Russian lines on the left bank of the Vistula and have succeeded in the taking of the Russian advance trenches.

Further south there have been similar attacks, in each case preceded by heavy artillery engagements. The Russians have succeeded in silencing the heavy Austrian guns, which from the banks of the Dunajec have been bombarding the town of Tarnow.

Will Hasten Action.

The capture of Kirlibaba pass, through which roads lead into the heart of Transylvania, is likely to have a political as well as a military effect. It possibly will hasten the action of Roumania and may compel the Germanic allies to send troops for the defense of eastern Hungary.

With the retirement of Count von Berchtold, the former Austro-Hungarian minister of foreign affairs, who is said to have favored another expedition against Servia, and because of the greater influence of the Hungarians in the councils of the empire by reason of the appointment of Baron Stephan Burian as the head of the foreign department, the troops which were destined for the Servian operations are likely to be diverted to meet the new Russian threat against Hungary.

Brisk Fighting in West.

In the west, there has been some brisk fighting at many points. The French claim to have made further progress along the coast of Flanders, but not to the extent which they have been credited with by unofficial reports. Attacks and counter attacks have also prevailed in the region of Aras and in the Aisne valley, south of Laon, but apparently without either side making any advances.

The French progress, however, according to their statement, continues east of Rheims and in the Vosges, despite a heavy snow storm. In the Argonne the Germans claim to have improved their position.

An official German statement estimates the losses of the allies since they commenced their offensive, four weeks abo, at 150,000, including 20,000 killed and more than 17,000 prisoners.

Earl Grey, the former governor general of Canada in reviewing a brigade of the Canadian contingent told them they would soon be sent to the front.

Train Hits Buggy; Two Dead.

Minneapolis, Jan. 19.—Within a half hour after they left morning services in the Presbyterian church at Howard Lake, thirty-five miles west of Minneapolis, a family of five were run down by a Great Northern fast train. One child was killed outright, another died on a special train taking her to St. Paul, and a third is dying at St. Joseph's hospital, St. Paul. Both legs of the father, A. D. McLean, a farmer, were broken, and he probably will not survive.

McLean and his children were in a buggy drawn by one horse.

Marine Law Authority Dies.

London, Jan. 19.—The Right Honorable Lord Justice Sir William R. Kennedy died suddenly. He was an authority on marine law. He was born in 1846.

No Peace Prize for 1914.

London, Jan. 19.—The official announcement has reached here that the Nobel committee has decided not to award the peace prize for 1914 and that no decision has been reached regarding 1915.

Rockefeller's Associate Dies.

Holister, Cal., Jan. 19.—L. V. Harkness, an early associate of John D. Rockefeller in the oil business, is dead. He was 64 years old. Mr. Harkness was said to pay the largest income tax west of Chicago.

WOMAN REFUSES OPERATION

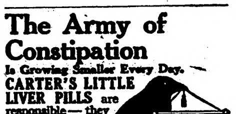
Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Louisville, Ky.—"I think if more suffering women would take Lydia E. Pinkham's Vegetable Compound they would enjoy better health. I suffered from a female trouble, and the doctors decided I had a tumorous growth and would have to be operated upon, but I refused as I do not believe in operations. I had fainting spells, bloated, and could hardly stand the pain in my left side. My husband insisted that I try Lydia E. Pinkham's Vegetable Compound, and I am so thankful I did, for I am now a well woman. I sleep better, do all my housework and take long walks. I never fail to praise Lydia E. Pinkham's Vegetable Compound for my good health."—Mrs. J. M. RESCH, 1900 West Broadway, Louisville, Ky.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.



The Army of Constipation

Is Growing Smaller Every Day.

CARTER'S LITTLE LIVER PILLS are responsible — they not only give relief — they permanently cure Constipation. Millions use them for Biliousness, Indigestion, Sick Headache, Sallow Skin.

SMALL PILL, SMALL DOSE, SMALL PRICE.

"Every Picture Tells a Story"

Stop That Backache

There's nothing more discouraging than a constant backache. You are lame when you awake. Pains pierce you when you bend or lift. It's hard to rest and next day it's the same old story.

Pain in the back is nature's warning of kidney ills. Neglect may pave the way to dropsy, gravel, or other serious kidney sickness.

Don't delay—begin using Doan's Kidney Pills—the medicine that has been curing backache and kidney trouble for over fifty years.

A North Dakota Case

Mrs. H. Steinmetz, 117 Second St., Bismarck, N. D., says: "I suffered severely from pain in the small of my back with lameness and soreness across my kidneys. A tired, languid feeling clung to me and though I tried almost everything I knew of, I didn't get relief. Finally I used Doan's Kidney Pills and they cured me. I have never had a sign of kidney trouble during the years that have since passed."

Get Doan's at Any Store, 50c a Box

DOAN'S KIDNEY PILLS

FOSTER-MILBURN CO., BUFFALO, N. Y.

An Ohio Druggist

Wm. Vogel, 867 May St., Akron, Ohio, writes:

"Through cold and exposure and improper food during the flood, I was taken with appendicitis and acute intestinal catarrh. In June and July my life was despaired of, but recovered sufficiently to be up and around. My bowels seemed paralyzed. Could eat no solid food.

"The first of last December I decided to try Peruna. My appetite improved, and very soon solid foods could be taken. In two months time I gained 18 pounds. Now I am heavier than I ever was before. When I began to use Peruna my bowels commenced to move at once."

Those who object to liquid medicines can now procure Peruna in Tablet form.

CANCER

Tumors, Lupus, successfully treated without knife or pain. All work guaranteed. *Come, or write for Free Book.* Dr. Williams, Specialist on Cancer 2900 University Av. S. E. Minneapolis.

BLACK LEG LOSSES SURELY PREVENTED by Cutter's Blackleg Pills. Low-priced, fresh, reliable; preferred by Western stockmen, because they protect where other vaccines fail. Write for booklet and testimonials. 10-dose pkge. Blackleg Pills $1.00 50-dose pkge. Blackleg Pills 4.00 Use any injector, but Cutter's best. The superiority of Cutter products is due to over 15 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct. The Cutter Laboratory, Berkeley, Cal., or Chicago, Ill.

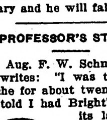
The Better Method.

The deacons of a church were discussing possible ways of ridding themselves of an undesirable pastor who paid no heed to pointed suggestions that his resignation would be acceptable. Finally one of the deacons said:

"If we make a large reduction in his salary it would probably have the effect of making him resign."

"I know a surer way than that," said the other deacon. "Let us double his salary and he will fall dead."

THE PROFESSOR'S STATEMENT.



Prof. Schmitz.

Prof. Aug. F. W. Schmitz, Thomas, Okla., writes: "I was troubled with Backache for about twenty-five years. When told I had Bright's Disease in its last stages, I tried Dodd's Kidney Pills. After using two boxes I was somewhat relieved and I stopped the treatment. In the spring of the next year I had another attack. I went for Dodd's Kidney Pills and they relieved me again. I used three boxes. That is now three years ago and my Backache has not returned in its severity, and by using another two boxes a little later on, the pain left altogether and I have had no trouble since. You may use my statement. I recommend Dodd's Kidney Pills when and wherever I can." Dodd's Kidney Pills, 50c. per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y.—Adv.

Winter Picnics.

"Do you enjoy winter picnics?"

"Oh, yes, indeed, but they hardly seem like picnics without spiders."

Many a great man is never heard of 20 miles from home.

Rheumatism For Young and Old

The acute agonizing pain of rheumatism is soothed at once by Sloan's Liniment. Do not rub—it penetrates to the sore spot, bringing a comfort not dreamed of until tried. Get a bottle today.

RHEUMATISM

Here What Others Say:

"I highly recommend your Liniment as the best remedy for rheumatism I ever used. Before using it I spent large sums of money trying to get relief of the misery and pains in limbs and body, so I tried your Liniment both internal and external and I found quick relief, and now am well and strong again."—*Geo. Curtis, 225 N. 15th St., Springfield, Ill.*

Here's Proof

"I wish to write and tell you about a fall I had down fourteen steps, and bruised my neck and hip very bad. I could not sleep at all. I sent my wife for a 25 cent bottle of your Liniment and in two days' time I was on my feet again."—*Charles Hyde, 1325½ Prairie Ave., St. Louis, Mo.*

SUFFRAGE BILL IS FAVORED; SENATE TO HEAR REPORT

MEASURE PROPOSING AMENDMENT TO CONSTITUTION WINS OUT IN COMMITTEE MEETING.

VOTE IN UPPER HOUSE LIKELY WILL BE CLOSE

Proposition of Senator Peterson of Moorhead for Organic Law Convention Is Defeated—Bjornson Introduces Copy of Peterson Bill in House.

Senate.

Senate met at 10:30 a. m.

Special message from Governor Hammond asking that appointments made by him be confirmed received. Appointments confirmed.

Six bills introduced and referred to committees.

Resolution of Senator John D. Sullivan asking for board of control report on administration of state architect's department, held over from previous day's session, was adopted.

Resolution introduced by Senator R. T. Buckler of Crookston asking that the governor take the leadership in appointing a commission to collect the surplus of the potato crop in several states and forward it to Belgium, held over for debate.

House.

Not in session.

St. Paul, Jan. 18.—The bill proposing an amendment to the constitution giving the elective franchise to women will be reported favorably by the committee on election of the Minnesota senate. A vote has been taken by the committee. Those favoring suffrage were O. A. Lende of Canby, chairman; Frank E. Putnam of Blue Earth; E. P. Peterson of Litchfield; W. A. Campbell of Minneapolis, and Ole O. Sageng of Dalton. Those opposed were A. J. Rockne of Zumbrota and E. B. Collester of Waseca.

Senator Sageng was the author of the bill. It is likely that the committee report will be made to the Senate and that a vote will be taken during the week.

It is difficult now to determine the fate of the measure in the upper house. The vote admittedly will be close. If the bill passes the senate it will encounter serious opposition in the house, but might pass that body with the prestige of senate approval.

Convention Plan Defeated.

At the same meeting the committee voted down the proposition of Senator F. H. Peterson of Moorhead for the enactment of a law submitting to the people the question of calling a constitutional convention to revise the organic act of the state. Those favoring this measure were Lende, Sageng and Campbell. Those opposed were Peterson, Collester, Rockne and Putnam.

Unlike other propositions submitted to the people by the legislature, the measure calling for a vote on the question of holding a constitutional convention requires two-thirds majority in both houses. Constitutional amendments, such as woman's suffrage, can be submitted by a majority vote.

In the house Gunnar B. Bjornson of Minnesota has introduced a copy of the Peterson bill. From sentiment as it exists now the probability of success in that body is very remote.

Auto Bill Out.

The measure introduced by Senator Frank L. Palmer of Minneapolis, Jan. 12, regulating the licensing of automobiles, transfer of licenses, examination of chauffeurs and other measures of interest to automobile owners, was discussed at the meeting of the committee on general legislation. Secretary of State Julius Schmahl furnished additional information regarding the automobile bureau in his office, and several suggestions advanced by him were incorporated in the bill. The bill indorsed by the State Automobile association was reported out of committee favorably and was read a second time.

Two resolutions introduced by Senator John D. Sullivan of St. Cloud at the previous day's session, and held over for debate, were adopted. They called on the board of control to furnish an explanation why, as it was declared, state-produced materials had not been used in the construction of various state buildings. These resolutions are the outcome of considerable agitation on the part of the St. Cloud quarry interests.

Want Road Bill Repealed.

Of the six bills introduced and read for the first time, the most important was that fathered by J. L. Vermilya of Dover, calling for the repeal of the Elwell road bill of 1911.

Following adjournment until 11 a. m. Tuesday, which was taken at 11 a. m., the committee on cities of the first class held their first meeting. It was agreed by members of the committee that when any measure came up for consideration which applied directlb to Minneapolis, St. Paul and Duluth, the matters will be referred to the delegation of members from that particular city, and the committee will accept their decision in reporting on the measure.

SPEAKER NAMES COMMITTEES

St. Paul, Jan. 16.—H. H. Flowers, newly elected house speaker, has announced his committee appointments.

John Larimore, L. A. Lydiard, Thomas Girling, James Dwyer and John M. Harrison were among the Hennepin members who carried away the important committee chairmanships and other assignment.

The Thirtieth is represented by Edward Condon and Frank Nimocks, and both these men received important committee assignments.

Assignments for Gordon.

Sam. Y. Gordon, Mr. Flowers' opponent, received excellent committee assignments and was made chairman of the very committee he is said to have wanted most. This is the census committee, very important this year because the state is to take a census.

Gunnar Bjorason, chairman of the state Republican committee and powerful in the cause of Mr. Gordan, also was honored by some splendid appointments. He was named chairman of the committee on elections, which it is understood was the committee he most wanted.

In fact, many of the men who signed up with Mr. Gordon and held fast to his cause even when they knew that defeat must be theirs, were surprised at the liberality of the speaker. Some had the idea that because their man lost they would be almost entirely ignored. Farley Dare of Walker, who withstood herculean attempts to get him to cancel his pledge to Mr. Gordon, confessed last night that he looked for little in the way of committee assignments from the victor, but he was assigned to every committee he desired.

Flowers Rewards Supporters.

This is not to say that Mr. Flowers did not first reward the men who stood most loyally by him in his long fight, for he did. But he did not give them everything. It is understood that some of the Gordon men who were practically ignored received this treatment because they became bitterly personal during the speakership fight and said harsh personal words about Mr. Flowers or his chief supporters. Others, it is understood, were ignored, not because they voted against Mr. Flowers, but because the new speaker did not look upon them as men of signal abilities.

L. C. Spooner of Morris is one of the country members who received great honors. Not only is he chairman of the efficiency and economy committee, which is to handle the measure of that name, but he was made chairman of the committee on appropriations.

Sixteen of the fifty-six chairmanships were accorded Gordon supporters.

St. Paul, Jan. 15.—A drastic prohibition bill was introduced in the senate by Senator E. E. Lobeck of Douglas county, one of the state Prohibition leaders.

The bill would prohibit the advertising, manufacture, sale, barter, gift or transportation of alcoholic liquors for purposes of beverage. It applies the same principle of abatement to the traffic that the Wallace-Fosseen law does to resorts.

The bill seeks to make it the duty of the sheriff to watch for violations and place his findings before the county attorney, who must then proceed to abate the nuisance. The owner of property is made liable to a fine of from $150 to $1,000.

The wife, parent or child injured in person or property can recover for damage from intoxication from the liquor dealer.

Persons selling or giving away intoxicating liquors are subject to imprisonment for 90 days under provisions of the bill.

Sponsors Nolan Bill.

Senator W. A. Campbell of Minneapolis sponsored the Nolan bill which reappeared in the senate. By the terms of this measure, power to regulate public service corporations whose franchises have expired is delegated to city councils of any city where such public service corporations operate.

To Make Amending Easier.

St. Paul.—With the purpose of making it less difficult to amend the state constitution, Representative Paul W Guilford of Minneapolis, introduced a resolution in the house providing that proposed constitutional amendments shall be adopted if they have two-thirds of the vote cast on the measure.

To Prevent War Exports.

St. Paul, Jan. 13.—A resolution calling upon congress to take more rigid measures to prevent the exportation of arms and ammunition to the warring nations of Europe will be introduced in the house of representatives by Representative J. H. Hynes of St. Paul.

"The resolution will urge congress to use every means to bring about a cessation of hostilities" said Representative Hynes.

Will Study Every Bill.

Minneapolis, Jan 13.—Every bill introduced in the legislature this winter will be carefully studied by members of the legislative committee of the Civic and Commerce association in order that its effect on Minneapolis may be determined. The committee held its first meeting at the Athletic club. Particular attention will be paid to bills which affect Minneapolis directly. There will be bills dealing with changes in building restrictions that the committee will have drafted

TEUTONS CLEAR BANK OF AISNE; TAKE 6 TOWNS

INFLICT HEAVY LOSSES ON THE FRENCH IN REGION OF SOISSONS—PARIS WAR OFFICE IS SILENT.

HUNDREDS ARE KILLED WHILE CROSSING RIVER

As French Troops Retreated Across Swollen Stream They Were Continually Under Fire of German Guns—Both Banks Lined With Bodies.

London, Jan. 18.—The German war office's claim that the kaiser's troops have entirely cleared the north bank of the River Aisne, in the region of Soissons, of French troops, capturing six towns formerly occupied by the French and inflicting heavy losses, has been met by the Paris war office with silence. The French statement simply says there is nothing of importance to report.

That the check suffered by the French troops in the battle of Soissons is important is admitted here by British military critics, though all agree they cannot determine the object of the German drive except as it furnishes a diversion, relieving the pressure in Flanders and in Alsace.

French Lines Imperilled.

The violent German attack, conducted under the direction of the kaiser and the German general staff by General von Kluck, is easily the most striking news from the western theater.

Strong re-enforcements, drawn from the right and left flanks of the German center army, combined with the intervention of the flood stage of the River Aisne, which imperilled the lines of communication of the French, preventing them from bringing up added forces to meet the increased superior strength of the invaders, made possible the German success, say British students of the progress of the revival of the Aisne battle.

Dead Fall Into River.

The German statement asserts that by continuous fighting they were able to take the towns of Cuffies, Crouy, Bucy-le-Long, Missy, Vauxret and Vallerie, all to the north and northeast of Soissons. These captures indicate that the French were driven in order from one after another of all their positions on the three roads leading to the north from Soissons and from the river road which parallels the Aisne.

As the French retreated across the swollen Aisne they were continually under the fire of the German guns and the crossing, perilous at best, owing to the rushing torrent which carried bridges and trees before it, was doubly disastrous. Hundreds of dead fell into the river and were carried down the stream. Both banks were lined with the bodies of French soldiers.

It will take weeks for the French to repair the loss of the bridges, even if they are able to hold the Germans to the north bank of the stream.

Germans Take Trenches.

London, Jan. 19.—While the main Russian army has been busy repelling what Grand Duke Nicholas, in his official report, describes as a series of violent attacks by Field Marshal von Hindenburg to break his way to Warsaw, the other Russian forces have stormed and taken Kirlibaba pass, on the borders of Transylvania, and have made further progress in their advance along the right bank of the Vistula toward the German frontier.

The Germans, in force, have delivered seven successive attacks which developed into desperate bayonet fighting on the Russian lines on the left bank of the Vistula and have succeeded in the taking of the Russian advance trenches.

Further south there have been similar attacks, in each case preceded by heavy artillery engagements. The Russians have succeeded in silencing the heavy Austrian guns, which from the banks of the Dunajec have been bombarding the town of Tarnow.

Will Hasten Action.

The capture of Kirlibaba pass, through which roads lead into the heart of Transylvania, is likely to have a political as well as a military effect. It possibly will hasten the action of Roumania and may compel the Germanic allies to send troops for the defense of eastern Hungary.

Marine-Law Authority Dies.

London, Jan. 18.—The Right Honorable Lord Justice Sir William R. Kennedy died suddenly. He was an authority on marine law. He was born in 1846.

River Seine Overflows.

Paris, Jan. 18.—The River Seine is rising rapidly. At Troyes it already is out of its banks and passenger boat service has temporarily suspended. At various places the tributaries are out of their banks.

English Boats Collide.

Madrid, via Paris, Jan. 18.—A dispatch from Cape Finistere says the Britishsteamers Massilia and Funoeh collided in a fog. The Funoeh sank, but the Massilia rescued all her crew and continued on to Gibraltar.

Canadian Wheat to Feed the World

160 ACRE FARMS IN WESTERN CANADA FREE

The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand for Canadian wheat. Canada's invitation to every industrious American is therefore especially attractive. She wants farmers to make money and happy, prosperous homes for themselves while helping her to raise immense wheat crops.

You can get a Homestead of 160 acres FREE and other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.

Mixed farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government this year is urging farmers to put extra acreage into grain.

Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or

NO CUSTARD FOR REGINALD

Young Wife Had Done Her Best, But Probably the Cook Book Was at Fault.

Reginald loved his wife tenderly and devotedly, but he had to acknowledge in the inmost recesses of his heart that the hand that wielded the powder puff lost its art in the pudding basin.

"What pudding would you like tonight, love?" she cooed at breakfast time.

"Oh, anything!" he whispered desperately.

"Anything?" she reiterated in a pained tone.

"Well, you know, old girl; anything light—only don't tire yourself out."

"You shall have your favorite—custard, dear," she promised.

Toward seven o'clock Reginald returned, but the sound of weeping and gnashing of teeth greeted his trained ear.

"Whatever is it, my dear girl?" he implored, as he rushed into the kitchen.

"O-o-o-oh!" she sniveled on his waistcoat, "I've been making you custards all the afternoon and—"

"And what, pet?"

"They all t-t-turned out sponge cakes!"

Parson Knew Better.

Uncle Jim Sugarfoot killed a fine rabbit for the entertainment of Parson Heavegrace, who was expected to dinner, but as rabbits were out of season he thought to avoid what might prove an embarrassing situation by making the parson think it was chicken he was eating.

"Brother Heavegrace," said Uncle Jim, when it came time for a second helping, "what part of de bird would you like now?"

With a merry twinkle in his half-closed eyes, Parson Heavegrace replied:

"If you all don' mind, Ah think Ah'll take de gizzard."—Pittsburgh Chronicle-Telegraph.

The wideawake man doesn't wait for opportunity to knock at his door; he meets her at the gate.

Being sorry for yourself doesn't enlist the sympathy of your neighbors.

BAD DREAMS

Caused by Coffee

"I have been a coffee drinker, more or less, ever since I can remember, until a few months ago I became more and more nervous and irritable, and finally I could not sleep at night for I was horribly disturbed by dreams of all sorts and a species of distressing nightmare.

"Finally, after hearing the experience of numbers of friends who had quit coffee and were drinking Postum, and learning of the great benefits they had derived, I concluded coffee must be the cause of my trouble, so I got some Postum and had it made strictly according to directions.

"I was astonished at the flavor and taste. It entirely took the place of coffee, and to my very great satisfaction, I began to sleep peacefully and sweetly. My nerves improved, and I wish I could wean every man, woman and child from the unwholesome drug-drink—coffee.

"People do not really appreciate or realize what a powerful drug it is and what terrible effect it has on the human system. If they did, hardly a pound of coffee would be sold. I would never think of going back to coffee again. I would almost as soon think of putting my hand in a fire after I had once been burned. Yours for health."

Postum comes in two forms.

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

—sold by Grocers.

Woman Royalties Made Army Officers.

For the first time in English history four royal women have been gazetted as colonels in chief of English regiments.

Heretofore several of them, including Queen Mary herself, have held German army titles, and Queen Victoria naturally was the head of the British army, but now Queen Mary has been appointed colonel in chief of the Eighteenth Hussars of historic fame, while the Queen Mother Alexandra is associated with the Nineteenth Hussars.

If One's Sufficient, Why Proceed?

"A word to the wise is sufficient, and—" began the village bore.

"Then let it go at that," snarled J. Fuller Gloom, who is blessed with a mean disposition.

The Chances.

"Do you think the chances of the hobble skirt are promising?"

"I think they are very slim."

The Holt Weekly News
Successor to and Continuation of
The Northern Light
By The
Holt Publishing Company

Published every Friday at Holt, Marshall County, Minnesota.

Subscription Price: $1.00 per year, strictly in advance.

Entered as second-class matter Sept. 22, 1911, at the post office at Holt, Minnesota, under the act of March 3, 1879.

Iver Engerbretsen went to Middle River Wednesday on business.

There will be a dance in the Star hall Jan. 30, so we understand.

Guy Anderson, the faithful mail carrier has a dandy sleigh to convey him over his route this winter. It is enclosed and affords a fine protection from the wind and storms.

Svenke Svenkeson went to T. R. Falls on business, Tuesday.

The restaurant has blossomed out with a new sign and it is a dandy. Mr. Nelson has an eye for business and will undoubtedly succeed.

Send The News to your friends and a dollar for your own at the same time.

Little Lola Huseth accidentally fell head long down an open cellar-way one day last week, striking her head severely and nearly breaking her leg. We are glad to report no bones were broken, and that she has fully recovered from the shock. We advise Lola not to repeat the stunt as it may prove disasterous next time.

Master Kenneth Latta is suffering from a severe burn on the face. The News hopes he will soon recover and that his face may be free from any scars.

Mr. and Mrs. A. Huseth and family Mrs. Bray and son Mr. and Mrs. H. B. Young were entertain at the B. Docken home Sunday evening. Aftea enjoying a most delicious ssread, the evening was pleasantly spent in music and conversation.

Caal Christoferson was in T. R. Falls and Warren a couple of days this week on business.

A new game law that should be passed by all states would contain the following: "Book agents may be shot between October 1 and September 1; spring poets from March 1 to June 1. automobile speed demons from January 1 to January 1 road hogs from April 15 to April 15; amatuer hunters from September 1 to February 1 war talkers—no closed season: Any man who accepts a paper for two years and then, when the bill is prisented, says, 'I never ordered it'' may be killed on sight be buried face downward in quick lime so as to destroy the germs and prevent the spread of the infection. —Ex.

A new whist club has been organized, which meets Wednesday evenings in the Star hall.

Jno. Stanley came from T. R. Falls Saturday to visit at the J. B. Alkenbrack home.

The committee having in charge the taking of the census, found that Holt had 205 inhabitants, so a petition asking that the town be incorporated was circulated and will be presented to the county board to act upon at an early date.

Fridjof Risberg went to T. R Falls for medical advice Tuesday.

Mr. Business Man: If you want to be healthy, wealthy and wise. Buy some new goods and advertise. This paper will bring good results.

THE RURAL CHURCH

THE FARMERS THE CUSTODIANS OF THE NATION'S MORALITY

Co-operation of Church, School and Press Essential to Community Building.

By Peter Radford
Lecturer National Farmers' Union.

The church, the press and the school form a triple alliance of progress that guides the destiny of every community, state and nation. Without them civilization would wither and die and through them life may attain its greatest blessing, power and knowledge. The farmers of this nation are greatly indebted to this social triumvirate for their uplifting influence, and on behalf of the American plowmen I want to thank those engaged in these high callings for their able and efficient service, and I shall offer to the press a series of articles on co-operation between these important influences and the farmers in the hope of increasing the efficiency of all by mutual understanding and organized effort. We will take up, first, the rural church.

The Farmers Are Great Church Builders.

The American farmer is the greatest church builder the world has ever known. He is the custodian of the nation's morality; upon his shoulders rests the "ark of the covenant" and he is more responsive to religious influences than any other class of citizenship.

The farmers of this nation have built 120,000 churches at a cost of $750,000,000, and the annual contribution of the nation toward all church institutions approximates $200,000,000 per annum. The farmers of the United States build 22 churches per day. There are 20,000,000 rural church communicants on the farm, and [illegible] per cent of the total membership of all churches reside in the country.

The farm is the power-house of all progress and the birthplace of all that is noble. The Garden of Eden was in the country and the man who would get close to God must first get close to nature.

The Function of a Rural Church.

If the rural churches today are going to render a service which this age demands, there must be co-operation between the religious, social and economic life of the community.

The church to attain its fullest measure of success must enrich the lives of the people in the community it serves; it must build character; develop thought and increase the efficiency of human life. It must serve the social, business and intellectual, as well as the spiritual and moral side of life. If religion does not make a man more capable, more useful and more just, what good is it? We want a practical religion, one we can live by and farm by, as well as die by.

Fewer and Better Churches.

Blessed is that rural community which has but one place of worship. While competition is the life of trade, it is death to the rural church and moral starvation to the community. Petty sectarianism is a scourge that blights the life, and the church prejudice saps the vitality, of many communities. An over-churched community is a crime against religion, a serious handicap to society and a useless tax upon agriculture.

While denominations are essential and church pride commendable, the high teaching of universal Christianity must prevail if the rural church is to fulfill its mission to agriculture.

We frequently have three or four churches in a community which is not able to adequately support one. Small congregations attend services once a month and all fail to perform the religious functions of the community. The division of religious forces and the breaking into fragments of moral efforts is ofttimes little less than a calamity and defeats the very purpose they seek to promote.

The evils of too many churches can be minimized by co-operation. The social and economic life of a rural community are respective units and cannot be successfully divided by denominational lines, and the churches can only occupy this important field by co-operation and co-ordination.

The efficient country church will definitely serve its community by leading in all worthy efforts at community building, in uniting the people in all co-operative endeavors for the general welfare of the community and in arousing a real love for country life and loyalty to the country home and these results can only be successfully accomplished by the united effort of the press, the school, the church and organized farmers

A HOME BANK UNDER STATE SUPERVISION MINNESOTA

Where Did Money Go A Month Ago?

You people without Checking Account,- can you tell from memory where last month's money went?

Your neighbor with a Checking Account can look at his Check-book stubs and tell accurately his every expenditure of importance.

If it is a perplexing thing to remember where you paid out money in the past, try a Farmers State Bank Checking Account. This will give you a record of to-days payments a month from now,- a year from now,- or as much longer as you care to keep the check-stubs for reference.

STATE NEWS

Resume of Important Happenings of Past Few Days.

INDEPENDENTS GAIN POINT

Sixty-three State Companies Gain Admission to Association Over Old Members' Protest.

Minneapolis. — Independent telephone companies of Minnesota favoring conciliation and co-operation with the American Telephone & Telegraph company, led by J. H. Shoemaker of Cedar Falls, Iowa, "public relations engineer" for the Northwestern Telephone Exchange company, have gained their point after a stormy session of the Minnesota Independent Telephone association at the Dyckman Hotel.

The state association is a branch of the Independent Telephone Association of America. Sixty-three state companies desirous of harmonious physical connections with the Bell system and who had formed a new organization called the Minnesota Telephone association last September, secured admission to the Minnesota Independent Telephone association at the end of sharp and prolonged discussion.

A distinct split between the applying companies and members of the old association was visible and the new concerns were admitted only after bitter argument. Action on each application was begun, but later the rules were waived as midnight approached and the entire group was allowed entrance. On the voting in of eighteen other companies of the state the number of members reached 153.

"This association has been the football of the Northwestern and the Tri-State companies," Dr. A. R. Gates, phone company proprietor of Kenyon, charged. "The Bell has been in control in the past and the Tri-State people are 'in' now. The Tri-State officers are here engineering every move of the convention now."

Tri-State officials present declared that the Bell people were working under cover to crush competition and had induced the sixty-three new applications to create dissension in the Independent association to their own advantage.

In an address before the Independent Telephone Association of America C. B. Randall of St. Paul, secretary of the Tri-State Telephone & Telegraph company, denounced the Bell system for the alleged violation of their pledge to the United States department of justice in December, 1913.

That the Bell system endeavors only to promote peaceful and fair relations between themselves, the public and the independent companies, was the statement of Mr. Shoemaker. He announced himself in favor of state regulation.

R. R. COLLISION IS DUE TO FOG

Engineer Hurt When Minneapolis and St. Louis Train Hits Caboose Near Hartland, Minn.

Albert Lea.—Owing to a dense fog northbound passenger No. 7 on the Minneapolis & St. Louis road leaving Albert Lea at 5 a. m. overtook a freight train one mile south of Hartland, crashing into a caboose.

A telephone message to this city reported that Fred Hefter of Minneapolis, engineer on No. 7, was slightly injured by jumping.

The caboose was thrown from the track and it was necessary to pull it over the embankment to open traffic. Trains were delayed three hours. Other than a shaking up, no passengers were injured.

New Bishop of St. Cloud.

St. Cloud.—Rt. Rev. Joseph F. Busch of Lead, S. D., has been appointed bishop of the St. Cloud diocese of the Catholic church to succeed Bishop Trobec. who has resigned and will retire from active church work. The new bishop is 50 years old and was born in Red Wing where his mother still lives. He has been bishop of Lead since 1910 and is a noted pulpit orator.

Belle Plaine's First Resident Dies.

Belle Plaine.—Mrs. R. A. Irwin, Belle Plaine's earliest resident, died here at the age of 77. She was a daughter of the late Judge Chatfield, and came with her parents, from New York to Belle Plaine in the winter of 1853, and resided here continuously since. Her marriage to R. A. Irwin in 1856 was the first marriage celebrated in Belle Plaine. Her husband died in 1891.

Granted Divorce at Train.

St. Cloud.—Court work en route is a new system that has been successfully attempted by Judge John A. Roeser. While returning from Long Prairie the judge was met at Sauk Center by the plaintiff in the case of Parker vs. Parker, a divorce case. Evidence was taken showing that Mrs. Parker had eloped with another man some time ago and evidently had no intentions of returning to live with her husband. The divorce was granted as the conductor called "all aboard."

NEW POSTOFFICE IS OPENED

Minneapolis Building, Begun Three Years Ago, Is Now Ready for Business.

Minneapolis.—Thousands of Minneapolitans have begun using their new $1,250,000 postoffice. Although a few treaded their way through the 22 Corinthian columns that ornament the main entrance on Third avenue south, the vast majority of those who visited the structure passed through the doors on the Washington avenue south side. This arrangement made the utilitarian design of the building seem somewhat askew. In spite of the wide publicity given the opening of the new building, patrons flocked to the old building at an average of 50 every ten minutes.

When the last employe left the old postoffice at Third street and Marquette avenue, boards were nailed across windows and letter chutes bearing this scribbled message:

"Do your mailing in the street letter boxes; this office is closed."

Such was the obituary of the old postoffice after a quarter century of service.

The final detail of moving was completed when seven vanloads of supplies valued at $800,000, were transferred to the steel room of the new building under armed escort. Ballasted with firearms that they had taken from under their pillows or borrowed from neighbors, six officials guarded the treasure on its trip. The gun toters were Charles W. Kerr, assistant postmaster; W. S. Marles, inspector; John Wesley, cashier, and Edward Murnane, Joseph Carter and C. J. Hammer, assistant to the cashier. The hour of departure had been kept secret so that only the half dozen knew of the plans.

The first load consisted of stamps in denominations of 1 cent to $1 and the cargo was appraised at $500,000. Six loads after that were valued at $300,000. The transfer was made and the supplies placed under bolt and lock without mishap.

READS NEWS OF OWN DEATH

Railroad Engineer Upsets Arrangements for Funeral for Second Time —Listed Among Killed.

Minneapolis, Jan. 22.—For the second time in his life Sidney J. Benjamin, a Minneapolis railroad engineer, who lives at 730 East Franklin avenue, has read the story of his own death in a daily newspaper. And for the second time he upset the arrangements made for his funeral.

The first time was on Jan. 5, 1904, when he was in a railroad wreck near Kansas City. He was listed among the killed in the early editions of the Kansas City papers. He arrived there on the relief train to find that he was supposed to be dead. He was living in Kansas City at the time.

Later a letter, written at Wichita Falls, was received saying that the doctors there had ordered Mr. Benjamin to be brought back North at once, as he could not stand the southern climate. Neuritis was the ailment. The family here was then undecided as to whether he was dead or whether they were bringing him back according to the orders of the physicians.

STARTING IN AGRICULTURE

United States Is Only a Beginner in Farm Education, Says Federal Department Secretary.

Minneapolis, Jan. 20.—"The United States is just getting started in agriculture and in agricultural education and if every farmer worked his land as well on the average as the best of them do now, it would work an industrial revolution." This was the message of the United States secretary of Agriculture to members of the Civic and Commerce association at a dinner given for him at Donaldson's tea rooms.

David Franklin Houston, Mr. Wilson's cabinet member who saw and was seen by Minneapolis, learned to believe what added confidence some of the things which were said about the city a year ago when its citizens were pleading before him for a federal reserve bank. He left convinced that this city really is "the center of the surrounding country."

State Dairymen Elect Officers.

Owatonna.—The State Dairymen's association has elected Chris Heen, Osakis, president; F. D. Currier, Nicollet, secretary, and J. M. Jack, Northfield, treasurer.

Resolutions pledging the support of the association to the National Dairy union were adopted.

"The corn show was one of the best for quality of corn ever held in the state," said C. P. Bull of St. Paul, who judged the show.

Sweepstakes prizes for the ten ear corn samples went to C. L. Blanchard of Sherburne. Sweepstakes for a single ear went to H. P. Hanson, Albert Lea.

Steele county corn won about one-third of the prize money.

The thoroughbred Holstein bull calf given by Representative George M. Flynn was awarded to Malcolm Lonergan of Berlin.

High School Students to Compete.

Red Wing.—On Feb. 26, three students of the Red Wing high school will compete with the same number of students from each of the schools of Rochester and Hastings for honors in presenting declamations, orations and humorous readings. The event will be held at the gymnasium of the Industrial building. Three expert out-of-town judges will preside No prizes will be awarded. It is not known just how the three participants will be chosen to represent the local schools.

U. S. DEFENDS ITS ATTITUDE AS TO NEUTRALITY ACTS

DOCUMENT PREPARED BY WILSON, SECRETARY BRYAN AND COUNSELLOR LANSING MADE PUBLIC.

DENIES UNFAIRNESS TO TEUTON ALLIES

Declares It Is the Business of a Belligerent Operating on the High Seas, Not Duty of a Neutral, to Prevent Contraband Reaching Foe.

Washington, Jan. 26.—The United States government has issued a lengthy defense of its interpretation of the rights and duties of a neutral in the European war.

A document 5,000 words long prepared by President Wilson, Secretary Bryan and Counsellor Robert Lansing, of the State Department, after several days of consultation was made public in the form of a letter from the Secretary of State to Senator Stone of Missouri, chairman of the senate committee on foreign relations.

Not Unfair to Teutons.

While the letter is a reply to an inquiry from Senator Stone for information as a result of a complaint made in the press and in letters from various parts of the country charging the Washington government with unfairness to Germany and Austria, it also is intended as a pronouncement of policy of some questions of neutrality previously unexplained.

After answering 19 separate and and specific charges and calling attention to the fact that the United States has promptly taken to task Great Britain as well as Germany, and every government which in any way infringed on the rights of this country, the letter concludes with the following declaration of the much discussed question of the exportation of war munitions:

Naval Power Inferior.

"If any American citizens, partisans of Germany and Austria-Hungary, feel that this administration is acting in a way injurious to the cause of those countries, this feeling results from the fact that on the high seas the German and Austro-Hungarian naval power is thus far inferior to the British. It is the business of a belligerent operating on the high seas, not the duty of a neutral, to prevent contraband from reaching an enemy. Those in this country who sympathize with Germany and Austria-Hungary appear to assume that some obligation rests on this government, in the performance of its neutral duties, to prevent all trade in contraband, and thus to equalize the difference due to the naval strength of the belligerent. No such obligation exists; it would be an unneutral act, an act of partiality on the part of this government, to adopt such a policy, if the executive had the power to do so.

Markets Open to All.

"If Germany and Austria-Hungary cannot import contraband from this country, it is not, because of this fact, the duty of the United States to close its markets to the allies. The markets of this country are open on equal terms to all the world, to every nation, belligerent or neutral."

$1,000,000 MART IN NEW YORK

Great Terminal to Be Erected by New York Central Railroad for Distributing Foodstuffs.

New York, Jan. 26.—A great market terminal costing $1,000,000, the first of a dozen or more planned for receiving and distributing foodstuffs in New York City with a view to reducing the high cost of living, will be erected here by the New York Central Railroad company. The project was announced by John J. Dillon, commissioner of the new state department of foods and markets.

Under Commissioner Dillon's plan this and other similar market terminals will be leased by the co-operative companies organized and conducted under rules laid down by his department. The profits of these companies will be limited to 6 per cent a year.

whole city block. t

This first terminal will cover a whole city block. Train loads of perishable farm products will enter there and discharge their loads directly into distributing wagons.

Country's Oldest Sculptor Dies.

Boston, Jan. 26.—Anne Whitney, said to have been the oldest sculptor in this country, died at the age of 93 years.

Five Killed by Blast.

Vancouver, B. C., Jan. 26.—Three engineers were killed and five others injured at the British Columbia Transport company's quarry, Pitt River, 20 miles from here. A blast so shook the four acres of ground on which the company's wharf and machinery stood, that they slid off the banks into the river. More than a score of men were caught. Three still are missing. Where the company's office formerly stood is now more than 30 feet of water.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on — castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Claim Prophecy Fulfilled.

A conference of Bible students held recently at Keswick, N. J., revived an ancient prophecy concerning Egypt, the literal fulfillment of which, they asserted, has been borne out in history. The prophecy is found in Ezekiel 29:13-15 and 30:13. Part of it reads as follows: "It shall be the basest of kingdoms, neither shall it exalt itself any more above the nations, for I shall diminish them that they shall no more rule over the nations . . . and there shall be no more a prince of the land of Egypt; and I will put a fear in the land of Egypt." Since this prophecy was written, said one of the speakers, Egypt has been ruled by the Babylonians, the Romans and the Turks, and now it has passed under the absolute sway of England. Yet Egypt once was the greatest and richest of the world's nations.

A GLASS OF SALTS WILL END KIDNEY-BACKACHE

Says Drugs Excite Kidneys and Recommends Only Salts, Particularly If Bladder Bothers You.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

It's an Ill Wind, Etc.

"Poor Mr. Hennypeck!" exclaimed Brownson, sympathetically. "It wasn't enough that his wife should own and operate him, body and soul, Mrs. Hennypeck has now joined the suffragettes."

"Don't breathe a word," replied Smithson, "but Hennypeck is tickled to death. His wife speaks at all the outdoor meetings and is so hoarse when she gets home that she can't raise her voice above a whisper."—Puck.

HOW TO HEAL THAT RAW, ITCHING, SCALY SKIN

If you are suffering with eczema, ringworm, rash or similar tormenting skin disease, try resinol ointment and resinol soap. You will be surprised how quickly the itching stops and the skin becomes clear and healthy again. Prescribed by doctors for 20 years. All druggists sell resinol oinment (50c and $1.00), and resinol soap (25c).—Adv.

American Indians.

There are about 125,000 Indians in the Dominion of Canada. In the United States the Indians number 305,000, more than a third of them being in the state of Oklahoma.

TEUTON AIRMEN DROP BOMBS ON DUNKIRK, FRANCE

KILL SIX AND INJURE FOURTEEN OTHERS—FRENCH AND BRITISH CHASE GERMAN AEROPLANES.

ZEPPELIN REPORTED LOST IN NORTH SEA

Dutch Fishermen Assert They Saw Large Airship Founder, but Were Unable to Assist the Aircraft—British Airman Hurls Explosives on Bruges.

Paris, Jan. 25.—A semi-official note just issued says that a number of German aviators attacked Dunkirk, throwing eighty bombs. The victims numbered twenty, six ofw hom are dead. A large warehouse was set afire by one of the bombs.

French and English aviators, who chased the German aeroplanes, brought down one at Bray-Dunes, on the Belgian frontier. Its two occupants were made prisoners.

Kill Two German Aviators.

London, Jan. 25.—The correspondent of the Daily Mail at Havre, in his report on the aeroplane attack on Dunkirk, says:

"Several German aeroplanes dropped bombs on Dunkirk. One of them was brought down at Great Dunes, between Dunkirk and Furnes, and the two German airmen this machine contained were killed. Then unexploded bombs still were attached to the aeroplane."

Drops Bombs on Bruges.

Amsterdam, via London, Jan. 25.—A British airman dropped bombs on the important Bruges, Belgium, docks, according to news which has reached here. The result of the attack is not yet known. The aviator escaped unhurt, although he was attacked by the Germans.

Zeppelin Flies Over Ostend.

Dover, via London, Jan. 25.—It is reported here that a Zeppelin was seen over Ostend.

Zeppelin Lost in North Sea.

London, Jan. 25.—Dutch fishermen arriving at Noordwijk, Holland, asserted that they saw a large airship men, dispatches add, were unable to assist the aircraft. The description of the vessels given by the men indicates that it was a Zeppelin. Noordwijk is a watering place of The Netherlands, seven miles northwest of Leyden.

London, Jan. 25.—Although the reports of another Zeppelin raid on England seem to have been false there has been a striking renewal of aerial activity on the continent. The Germans have raided Dunkirk in force and British airmen launched an attack upon Bruges.

The German raid on Dunkirk resulted in considerable loss of life and damage to property. One account says ten aeroplanes took part in it. British aeroplanes assumed the defensive and succeeded in bringing down one of the visitors.

Other Raids Expected.

This method of defense is regarded by English experts as more likely to prove effective than the anti-air craft guns with which the defenses of Dunkirk bristle. It is believed here that the British raid on Bruges will be followed up by other attacks, as the Bruges docks are the head of the Zeebrugge ship canal system, which the Germans are using for transportation of the men, munitions and even heavy artillery.

Germans Mass Troops.

Air raids are not the only indication of renewed activity in the western arena of the war. The Germans are massing troops in the neighborhood of LaBassee evidently in preparation for a new struggle between Ypres and Courtrai, and the allies are further strengthening their forces all along the lines in northern France and in Flanders.

For the past twenty-four hours it has been give and take, each side admitting minor reverses offset by minor successes.

Super-Submarine a Success.

London, Jan. 25.—The Daily Mail's Copenhagen correspondent says he learns from Hamburg that one of the new German super-submarines has just finished trial runs in the Bay of Helgoland and that she proved well suited for the purpose for which she was constructed. This giant submarine, the correspondent adds, is of the type that carries supplies for three months, and is not under the necessity of putting into a port or having recourse to the parent ship.

Anarchy in Mexico City.

Washington, Jan. 25.—Anarchy, panic and disorder are said to reign in Mexico City by dispatches from Vera Cruz to the Carranza agency here. Rafael Zubaren, Carranza's minister of interior, charges many women in the capital are near death from their treatment at the hands of Villa troops. Eulalio Figuerra, one of the brothers of that name, is reported to have abandoned Villa and applied for admission to the Carranza ranks. General Obregon denies Puebla has been attacked.

For Five Years

I was Troubled with a Chronic Disease. Peruna Cured me Sound and Well.

Mrs. Maggie Durbin, 209 Victory St., Little Rock, Ark., writes: "I was troubled for five years with a chronic disease. I tried everything I heard of, but nothing did me any good. Some doctors said my trouble was catarrh of the bowels, and some said consumption of the bowels. One doctor said he could cure me; I took his medicine two months, but it did me no good. A friend of mine advised me to try Peruna and I did so. After I had taken two bottles I found it was helping me, so I continued its use, and it has cured me sound and well. I can recommend Peruna to any one, and if any one wants to know what Peruna did for me if they will write to me I will answer promptly."

LOGIC AS HE UNDERSTOOD IT

Arthur Could Marshal Many Good Reasons Why He Should Not Attend School.

As young Arthur was now six, his parents decided that it was time he went to school. Arthur had other views on the subject, and these views were in direct opposition to those held by the older people.

In short, Arthur refused pointblank to go within a mile and a half of any school.

Father threatened dire punishment; mother held out a dreary prospect of jamless meals, even grandmother—the most kindly of mortals and a great friend of Arthur's—even she deserted him and talked about discontinuing the weekly bag of sweets. This was a great blow to the young rebel, but he stuck to his guns.

At last grandmother decided to make one last effort to soften his heart.

"Now, Arthur dear, why can't you be a nice, sensible boy and go to school like the other children?" she asked.

"I'll tell you why, grandma," he retorted, indignantly. "I can't read an' I can't write; I can't draw an' I can't sing! So what's the good of me going to school, I should like to know."

Latter-Day Romance.

Miss Up to Date (breathlessly)—Have I arrived in time?

Mr. Adorer (suitor)—Eh? In time for what?

Miss Up to Date—I hear that you and Mr. Lovem are going to fight a duel.

Mr. Adorer—We are.

Miss Up to Date—And it's about me?

Mr. Adorer—It is.

Miss Up to Date—It must not be.

Mr. Adorer—One or the other must die. We can't both marry you.

Miss Up to Date—No, but you can compromise.

Mr. Adorer—How?

Miss Up to Date—Play poker till one or the other gets all the money, and then I will marry the winner.—New York Weekly.

Why They Were Attentive.

A clergyman preaching in a country church for the first time was delighted to find the congregation very attentive and told the verger so after the service. The verger replied:

"Lor' bless you, sir, we was all looking for you to disappear."

"Why, what do you mean?" said the clergyman.

"Well, sir, you see, the pulpit is rotten, and hasn't been preached in this ten year or more."

THREE REASONS

Each With Two Legs and Ten Fingers.

A Boston woman who is a fond mother writes an amusing article about her experience feeding her boys.

Among other things she says: "Three chubby, rosy-cheeked boys, Bob, Jack, and Dick, respectively, are three of our reasons for using and recommending the food, Grape-Nuts, for these youngsters have been fed on Grape-Nuts since infancy, and often between meals when other children would have been given candy.

"I gave a package of Grape-Nuts to a neighbor whose 3-year-old child was a weazened little thing, ill half the time. The little tot ate the Grape-Nuts and cream greedily and the mother continued the good work, and it was not long before a truly wonderful change manifested itself in the child's face and body. The results were remarkable, even for Grape-Nuts.

"Both husband and I use Grape Nuts every day and keep strong and well and have three of the finest, healthiest boys you can find in a day's march."

Many mothers instead of destroying the children's stomachs with candy and cake give the youngsters a handful of Grape-Nuts when they are begging for something in the way of sweets. The result is soon shown in greatly increased health, strength and mental activity.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would bloat. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Thoughts and Words.

"I always think twice before I speak," said the loquacious person.

"I should think," replied Miss Cayenne, "that you would have to think oftener than that in order to think of so many different ways to say the same thing."

TENDER SENSITIVE SKINS

Especially when preceded by a hot bath with Cuticura Soap. Many comforting things these fragrant supercreamy emollients may do for the skin, scalp, hair and hands and do it quickly, effectively and economically. Also for the toilet, bath and nursery. Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Old-Fashioned.

"You said she is old-fashioned?"

"Oh, hopelessly so. She is still making a collection of picture postcards!"

A Stitch in Time

Colds, fevers and germ diseases are pretty sure to overwork the kidneys and leave them weak. In convalescence, in fact, at any time when suspicion is aroused by a lame, aching back, rheumatic pains, headaches, dizziness or disordered urine, the use of Doan's Kidney Pills is a stitch in time that may avoid serious kidney disease.

No other medicine is so widely used, so freely recommended or so generally successful.

A Minnesota Case

"Every Picture Tells a Story"

J. Factor, Montgomery, Minn., says: "For several years I had kidney complaint. Nights my back was so painful, I had to lie on my side and I had terrible pains through my loins. The kidney secretions were highly colored and passed too often. Three physicians treated me, but to no avail. When a friend told me about Doan's Kidney Pills, I used them and they fixed me up all right. I have never suffered since."

CENSUS MEASURE CAUSES HEATED DEBATE IN HOUSE

BILL INTRODUCED BY SAMUEL Y. GORDON IS AN ECHO OF THE SPEAKERSHIP FIGHT.

OPPOSE RESOLUTION ON APPROPRIATIONS

Many Members Are Opposed to Holding Expenditures to the 1911 Figures on Ground That It Would Tie the Hands of the Appropriations Committee.

St. Paul, Jan. 26.—As an echo of the speakership fight Samuel Y. Gordon introduced in the House a bill directing the secretary of state to take the sixth decennial census. The bill carries an appropriation of $100,000.

It is understood that during the speakership fight Mr. Gordon had an understanding with Secretary of State Schmahl regarding the census. Mr. Schmahl was reported at that time to have interested himself in behalf of the candidacy of Mr. Gordon. It was denied at that time that there was any understanding.

The bill introduced by Mr. Gordon sets a flat rate of $2 per 100 persons in cities of 5,000 or more inhabitants, and $2.25 per 100 in districts of 500 to 5,000. In all other districts enumerators will be paid at the rate of 2½ cents for each person included in the census. It provides for chief enumerators at no stated compensation and would give the secretary of state an additional $500 for his trouble.

Kills Callahan Measure.

If this measure is passed it will kill the bill introduced by Senator J. G. Callahan of Minneapolis. When the speakership fight was on Senator Callahan heard that Mr. Gordon intended to put through a census bill which would place the census taking under the direction of the secretary of state. He was advised that the secretary by its terms could name the chief of the census takers, the various assistants and the enumerators, and that the census taking would be made the vehicle for the building up of a strong political patronage machine.

Legislature to Determine.

The state constitution provides that the state shall take the census every ten years, but leaves it for the legislaure to determine who shall be in charge and who shall be employed. When word of the Gordon plan for taking the census first was announced the names of Henry Rines, W. O. Clure and James Arneson were mentioned as prominent candidates for the post of chief director. The Gordon bill does not set any stipend for the chief director, who is to be named by the secretary of state.

The Gordon bill was referred to the census committee, of which Mr. Gordon is chairman.

Heated Debate in House.

St. Paul, Jan. 26.—By a vote of 64 to 51, with many failing to respond to their names on roll call, the House returned to its author for correction and amplification the resolution asking the Legislature to hold appropriations to the 1911 figures. The resolution was fathered in the House by Representative P. W. Guilford of Minneapolis and was suggested by Gov. Hammond.

The debate on the resolution became acrimonious at times and some criticism was made of Governor Hammond for suggesting the matter to the Legislature. The matter came up when Mr. Guilford introduced an amendment to his resolution which he offered last week.

The amendment would charge the instructions to the Appropriations Committee from a direct demand to a request to "make every effort to remain within the 1911 figures."

Several members were drawn slowly into the debate, many of them opposing the resolution on the ground that it would tie the hands of the Apprpriations Committee, while still others declared it was an insult for the Governor to make such suggestions, in view of the rapid growth of the state.

Debate became most heated when Representative Devold, Socialist, took the floor and said that "we should spend all the money necessary in making this an ideal state in every sense of the word."

"God save the Queen," chanted Representative H. H. Harrison sarcastically. He had just spoken in favor of rigid economy.

"If the gentleman will repeat his remark I will make reply," roared Mr. Devold, amid confusion.

Leaping to his feet, Mr. Harrison pointed toward the Socialist member and stormed:

"I said, "God save the Queen and the country

"I'm not interested in the Queen," retorted Devold.

"Nor in the country," continued Harison. "Well, you should be."

Must Provide For Institutions.

"State institutions have to be provided for, and regardless of 1911 expenditures there must be no tieing of the hands of the appropriations committee," asserted Representative C. L. Sawyer of Minneapolis.

TELEPHONE TRIUMPH

COMPLETE CIRCUIT FROM NEW YORK TO SAN FRANCISCO.

FIRST MESSAGE BY INVENTOR

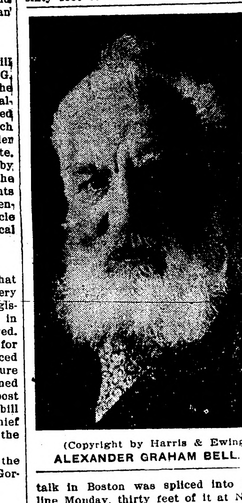
Line Officially Opened Jan. 25, 1915, 3,400 Miles in Length. Transmission Clear and Distinct.

New York.—From the fifteenth floor of a New York skyscraper, in the office of Theodore N. Vail, president of the American Telephone and Telegraph company, Alexander Graham Bell Monday afternoon telephoned to Thomas A. Watson in San Francisco, sending the first message ever telephoned across the continent.

Although engineers and scientists have worked for nearly forty years perfecting transmitters, receivers, lines, cables, switchboards and various telephone apparatus that all combined made transcontinental telephoning possible, John J. Carty, chief engineer of the Bell Telephone System, insisted that the inventor of the telephone should have the honor of sending the first ocean to ocean message, and thus it was that Dr. Bell and Mr. Watson were at either end of the line Monday afternoon.

In a little workshop in Boston, June 2, 1875, it was Alexander Graham Bell who spoke and Thomas A. Watson who heard the first message ever sent by telephone. "Come here Watson, I want you," were the first words ever conveyed over a wire. That wire was only sixty feet in length. The line used Monday is 3,400 miles long.

A bit of sentiment that entered into the celebration of the opening of the transcontinental line was that the sixty feet of wire used in the first talk in Boston was spliced into the line Monday, thirty feet of it at New York and thirty feet at San Francisco.



(Copyright by Harris & Ewing)

ALEXANDER GRAHAM BELL.

Ever since the telephone was discovered, America, the land of its birth, has kept the lead, using more telephones than all the rest of the world. More than twenty-one million miles of wire in this country now unite nine million telephones in 70,000 cities, towns and villages. All the rest of the world has less than five million telephones.

In 1876 the longest telephone line in the world was from Boston to Cambridge, two miles; in 1884 it was extended to New York, 235 miles. Chicago and New York were connected in 1895, and in 1911 New York could say "Hello" to Denver.

In the forty years since the telephone was invented nearly a hundred types of transmitters, and numerous repeating instruments and other devices have been used and discarded for something better, but it is asserted that no single new discovery has been responsible for this latest and greatest achievement in the telephone art.

In the two circuits of the transcontinental line there are approximately six million pounds of copper wire, or about two hundred carloads. This wire is stretched on 130,000 poles, which if they were loaded on railroad cars would make twenty trains of thirty cars each.

The route of the transcontinental telephone line is from New York to Pittsburgh, thence to Chicago, Davenport, Des Moines, Omaha, Lincoln, Denver, Salt Lake City and to San Francisco.

It is understood that the rate will be about $21.00 for a three-minute talk from New York to San Francisco.

Stationed along this great stretch of telephone line the day it was opened were repairmen every few miles, in the big centers, in the little towns, on the prairies, in the mountains, and out on the desert, ready to splice the wires in case they were torn down by sleet or wind, to solder a break or replace an insulator broken by a storm or a mischievous boy. Like soldiers on picket duty, these repairmen will be kept on constant vigil, night and day, in good weather and in bad for it is advertised that this line is soon to be opened to the public for constant use.

TALK ON WESTERN CANADA

Facts Don't Lie—Western Canada Is Full of Facts—Here Are Three of Them.

1. C. T. Moore, Underhill, Man. Came from Bruce County, Ontario, 1882, with a capital of $2.00. Homesteaded quarter section. Now owns 2,800 acres for which he paid average of $20.00—worth today $40.00 per acre.
2. James Steel, Battleford, Saskatchewan. Came from Perthshire, Scotland, 1904. His fare advanced to bring himself and family to Canada. Took up homestead, which he sold later $25.00 per acre, buying 1,000 acres at $15.00 per acre. Has been very successful in mixed farming. Values land now at $40.00 per acre, and is worth $60.00. "If I had remained in the Old Country my gray hairs would have been a passport to the poor house," he says.
3. H. J. Smith, Clover Bar, Alberta. Came from North Michigan, 1893, without capital. Now farming 800 acres, valued at $200 per acre. Purchased originally at $15.00 per acre. Engaged in mixed farming. Cows average him $150.00 a year.

All this talk about the exploitation of labor by capital, class distinction, living wage, high cost of living, and so forth, doesn't hold the slightest interest for the Canadian farmer. Why? Because he has proved that you can't begin too poor to become rich in Canada; that free homesteads preclude the possibility of being robbed of freedom and independence; that the high cost of living can't hurt the man who grows most of his own necessities; that his labor brings reward in exact and just proportion to time and intelligence invested.

If those who whine at urban conditions would give a little time to investigating those suburban, they would likely spy a clear way out of their difficulties. For the first step, drop a card to any Canadian Government Agent.—Advertisement.

Heroic Savers of Life.

If one could behold the scope of the work of the life-savers in a single glance he could see that these 2,000 men meet at a thousand stations on dark and lonely shores and exchange brass checks and bring these brass checks with them on their return to their life stations as evidence that they had patrolled the coast. Never has one of these faithful servants failed to come back promptly with the check of the patrol, unless he was halted by a case of distress, and even then his fellow patrol comes on to meet him. Scores of men give their lives to the devouring sea to save life and millions of property. There are now 290 stations on the sea and lake coasts of the United States. There are men in the service that have saved as many as 300 lives and literally every man in the service has been an actor in one or more of its 10,000 hero stories. In 1912 rescue service was rendered to 1,671 vessels, carrying 6,800 passengers, the total value of these vessels and their cargoes being $11,000,000,000.

BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

Mixed.

"How long did your wife stay away?"

"Ten dresses."

"Eh?"

"I mean ten days. She carried only ten dresses."

Men laugh at trouble and women cry over it—at least, that's the way they usually act at a wedding.

Iron in India in Epic Age.

That iron was found in large quantities in the epic age in India is evidenced by the fact that it was then employed in making massive statues. In the third or fourth century before Christ, the Hindus were apparently adepts in preparing steel. In the literature of the times, one comes across elaborate descriptions of various surgical instruments for most delicate surgical operations.

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of the famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Adv.

Its Unpleasant Suggestion.

"My friend, the real estate agent, thought he had landed a big political agent as a tenant for a desirable property, but, unfortunately, he scared him off."

"How?"

"By inadvertently mentioning it had exposures all around."

Anyway, it's none of a man's business how old a woman is.

His Fatal Mistake.

"My poor brother," said the retired bank burglar, "made a mistake in the selection of a vocation and finally starved to death."

"That was tough," rejoined the ex porch climber. "By the way, what was his line?"

"He made a specialty of snatching purses from lady shoppers," answered the other with a deep, broad sigh.

Holt Creamery Meeting Creates Trouble and Confusion

At a meeting of the stockholders of the Farmer's Co-Operative Creamery of Holt, officers were elected amid much confusion and bitterness. While two members will be called upon to account for certain charges made against B. L. Backe, the meeting itself was held with utter disregard for proper procedure and fairness. A motion was made and seconded that the stockholders vote on bank as depository for the creamery funds for the ensuing year, which motion Mr. Wegge refused to submit to a vote, although asked repeatedly to do so. This attitude on the part of Mr. Wegge is not only unfair but makes the meeting actionable. When asked why he would not take this motion to a vote, he replied "that he did not have to." Among other irregularities of the meeting were the disorderly conduct of certain members present, noise and confusion. Speeches made were false and misleading facts, with intent to hurt the standing of the Farmer's State Bank. Finally, with no exception, the officers and directors who served in 1914 were reelected, not so much as that they were really the choice of the members present, but to maintain harmony. The choice as to Bank depository is still undecided. In this matter I am sure that this bank will not receive fair treatment, and unless asked to do so, will not submit any bid for depository of creamery funds. I want to make a brief public explanation as to remarks made by Chas. Schwartz that "If you put your money in the Farmers State Bank they will charge you three dollars for cashing your check."

While I was connected with the Holt State Bank, Mr. Schwartz brought in a certain check, which I did not cash, stating that the party failed to deposit funds to cover. Mr. Schwartz thereupon left the check for collection and I notified the party to make a deposit to cover. He stated that he could not make any deposit and wanted to give a note temporary until he could get the money. I offered this note to Mr. Schwartz which was refused, stating that he would make it warm for this check writer. I had the party come into the bank a second time, but he still had nothing with which to pay. I thereupon decided, to avoid any trouble, to take the note myself, and as I fully realized that its value was only problematical and that I stood fully as good a show on losing it as to make collection thereof, I felt that I had done Mr. Schwartz a genuine favor and made the nominal charge mentioned. Mr. Schwartz came in the following day, said I was crooked, swore and cursed and was kind enough to invite me to come on his side of the counter. To show Mr. Schwartz that I was a better man than he was, I returned this charge. I see now that the only mistake I made was in not having him arrested as my attorney advised. I was also informed that to my back, certain parties freely stated that I had raised a check on the State Bank of Middle River from 75 cents to 75 dollars. At the time this check was deposited by Mr. Kolden, I happened to be at the window, and in checking over the various items as they appeared on his deposit slip, I mentioned to Mr. Kolden that he had made a mistake on his slip. He laughed and replied that the check was written incorrectly. Later in the day, our bookkeeper in making up his remittance letter for the day, listed this check as it was written. The error was discovered some time later and corrected. It is considered by a certain few that these dirty methods are warranted and satisfactory in order to obtain certain results, but I am pleased to observe that the followers and stockholders of this bank are men of better judgement and broader views. I want to take this opportunity of thanking my friends, who have so loyally stood by this bank, The Farmers State Bank of Holt.

B. L. Backe

Dated at Holt, Jan 23rd, 1915. (adv)

Middle River is to have a new school house next spring.

The M. W. A. met Saturday evening and installed all the officers present.

Ole Moen held meetings in the Free Mission church last week Wednesday, also Sunday evening. The meeting was well attended Sunday evening and he promised to return here for Sunday Feb 7th and hold meetings both afternoon and evening. We understand arrangements will be made to try to have both services in the English language.

Miss Carrie Nordgaard of S. D. assisted by her singer Miss Clara Tarsta held meetings the fiast three evenings of the week in the Free Mission church. Miss Nordgaard is a fine speaker in either the English or Norwegian language, and she easily held the attention of her audiance. Considerable interest was manifested and we are in hopes she may return soon and continue the good work.

The Sunnyside.

Miss Selma Wegge went to Thief River Falls Thursday, returning Monday.

Miss Alma Dovre returned to Oslo last Thursday.

The Jolly Bunch enjoyed a very pleasant evening at John Sorum's Saturday.

Mr. and Mrs. L. Wegge spent Sunday afternoon at E. Horien's.

Miss Clara Furr went to Thief River Falls Thursday.

Stina Brita wants to learn the "grapevine."

Dehard, Tina and Engval Johnson visited at E. Horien's Sunday afternoon.

Anton Peterson spent Saturday and Sunday at F. Carlson's.

Ask Hjalmer if he got cold feet last Monday.

Hjalmer Dovre's entertained a number of friends Sunday evening.

Jesse Sorum returned from T. R. Falls Thursday.

"When the whole world goes back
on you,
Come to me, come to me."

(Written for last week)

Miss Emma Kuehn called at Dovre's Sunday.

Mrs. N. Lysne and son Standly called at F. Carlson Sunday afternoon.

Msss Lillie Peterson left Monday for St Hilaire where she will work.

Charley and Burndette Horien visited at E. Johnson Sunday.

Mr. Jesse Sorum went to Thief River Falls Monday.

Mrs. L. Wegge called at C. Anderson's Monday afternoon.

Miss Minnie Johnson from St. Hilaire, came up to visit with her uncle A. Bjerk.

North and East of Holt.

Olaf and Carl Johnson ran a race to the granary a week ago and weighed themselves. Both are fast on the gain.

Mr. and Mrs. Lewis Wegge and boys, Dehard and Stena Johnson, Walter Wegge and Rudolph Anderson visited at the Ed. Horien home Sunday.

Mr. and Mrs. Hjalmar Dovre entertained C. Christianson and family, Mrs. C. Anderson and family, Ed. Horien and family, Dehard and Stena Johnson and Walter Wegge, Sunday evening. All kinds of games were played until 12 o'clock, then a splendid lunch was served, after which both old and young danced until 3 A. M.

THE CHURCH AS A SOCIAL CENTER

A Broader Sphere for Religion—New Field for the Rural Church.

By Peter Radford
Lecturer National Farmers' Union

The social duty of the rural church is as much a part of its obligations as its spiritual side. In expressing its social interest, the modern rural church does not hesitate to claim that it is expressing a true religious instinct and the old-time idea that the social instincts should be starved, while the spiritual nature was overfed with solid theological food, is fast giving way to a broader interpretation of the functions of true religion. We take our place in the succession of those who have sought to make the world a fit habitation for the children of man when we seek to study and understand the social duty of the rural church. The true christian religion is essentially social—its tenets of faith being love and brotherhood and fellowship. While following after righteousness, the church must challenge and seek to reform that social order in which moral life is expressed. While cherishing ideals of service, the rural church which attains the fullest measure of success is that which enriches as many lives as it can touch, and in no way can the church come in as close contact with its members as through the avenue of social functions.

The country town and the rural community need a social center. The church need offer no apology for its ambition to fill this need in the community, if an understanding of its mission brings this purpose into clear consciousness. The structure of a rural community is exceedingly complex; it contains many social groups, each of which has its own center, but there are many localities which have but one church and, although such a church cannot command the interest of all the people, it is relieved from the embarrassment of religiously divided communities.

Social Needs Imperative.

The average country boy and girl have very little opportunity for real enjoyment, and have, as a rule, a vague conception of the meaning of pleasure and recreation. It is to fill this void in the lives of country youth that the rural church has risen to the necessity of providing entertainment, as well as instruction, to its membership among the young. The children and young people of the church should meet when religion is not even mentioned. It has been found safest for them to meet frequently under the direction and care of the church. To send them into the world with no social training exposes them to grave perils and to try to keep them out of the world with no social privileges is sheer folly. There is a social nature to both old and young, but the social requirements of the young are imperative. The church must provide directly or indirectly some modern equivalent for the husking bee, the quilting bee and the singing schools of the old days. In one way or another, the social instincts of our young people must have opportunity for expression, which may take the form of clubs, parties, picnics or other forms of amusement. One thing is certain, and that is that the church cannot take away the dance, the card party and the theatre unless it can offer in its place a satisfying substitute in the form of more pleasing recreation.

Universal Instinct for Play.

In providing for enjoyment the church uses one of the greatest methods by which human society has developed. Association is never secure until it is pleasurable; in play the instinctive aversion of one person for another is overcome and the social mood is fostered. Play is the chief educational agency in rural communities and in the play-day of human childhood social sympathy and social habits are evolved. As individuals come together in social gatherings, their viewpoint is broadened, their ideals are lifted and finally they constitute a cultured and refined society.

It is plain, therefore, that the church which aims at a perfected society must use in a refined and exalted way the essential factors in social evolution and must avail itself of the universal instinct for play. If the church surrounds itself with social functions which appeal to the young among its membership, it will fill a large part of the lamentable gap in rural pleasures and will reap the richest reward by promoting a higher and better type of manhood and womanhood.

The Holt Mercantile Co. are having their front rooms up stairs remodeled preparatory for occupancy in the near future.

To the batchelor friends of Holt take the hint, and do thou likewise.

Southeast of Holt.

Charley Steenerson visited at the Greibrok home Sunday.

A large crowd was in attendance at the spelling contest given in the Skomedahl school house last Friday [illegible]

H. S. Moe made a trip to Thief River Falls Monday.

Harry and Gunda Moe spent Sunday afternoon visiting at the home of Mr. and Mrs. Ole T. Ose.

Olav Dale spent a few days visiting at the home of the Ose brothers last week.

Tarkel T. Ose called at the N. Sordahl home on Monday forenoon.

Peter Flo of Montana who has been visiting with friends in this locality, leaves for home Wednesday.

Mr. and Mrs. Albert Klungness entertained a large number of their friends on Sunday.

T. J. Wold called at the Klungness home last Saturday.

Tina Haugen spent Sunday afternoon visiting with her sister Gunda who is staying at the Hammond home.

A. R. Jones went to Crookston Tuesday P. M.

For Sale! Horse, harness, buggy and cutter. Sam Mickelson.

Mrs. R. L. Olson went to T. R. Falls Friday to have dental work done.

Miss Cora Hanson visited her parents in T. R. Falls Friday and Saturday.

Messrs. Larson and Simonson came Tuesday and went out to Alfred Sollom's where they held services that evening.

Mr. and Mrs. E. M. Silbaugh entertained B. Docken, G. H. Gunheim, and D. Payne and families Sunday afternoon and evening.

Ole Christenson of East Valley loaded a traction engine Saturday and shipped it to Bandette where he will use it for sawing lumber.

Thirty-eight county poor houses in Kansas are empty. Sixty-five counties have no prisoners in the state penitentiary and there are only 600 paupers in the state and two hundred million dollars in the banks, yet their soil is no more fertile than ours.

Married.

A quiet wedding took place Wednesday afternoon of last week, at the home of Otto Johnson near Mud Lake, when their daughter Clara was united in the holy bonds of matrimony to Gilbert O. Johnson of Holt, in the presence of relatives and a few friends. Rev. Ordahl of the Synod church performed the ceremony.

The groom is a prosperous young man, living 2 miles north of Holt.

The best wishes of their many friends both here and at Mud Lake, go with them for a long and happy married life.—C.

Local Items

There is no excuse for not attending church next Sunday.

Dr. R. L. Olson went to T. R. Falls Monday on business.

Try the Coffee at the new Lunch room in Holt. You'll come again.
Chas. W. Latta, Prop.

This office has turned out bills announcing a dance in the Star hall Feb. 6th.

Mrs. Carl Newton is able to be around the house and do the most of her work.

The Alkenbrack families were entertained at the Huseth home Sunday afternoon and evening.

Miss Clara Sollom went to Goodridge Monday for several days visit with her brother and sister there.

If you want to sell your land this year, now is the proper time to list it with Chas. W. Latta, Holt, Minn.

Work on the new school house has been delayed on account of disagreements between workmen and contractor.

Don't forget that good coffee you used to drink at Huseth's. We are serving the same kind now. Try a cup. A. H. Huseth.

Svenke Svenkeson accompanied Ole Christenson to Baudette Wednesday where he will assist the latter in sawing lumber.

M. T. Strom left Tusday for Alvarado, Adams, Grand Forks, Thompson and Reynolds, N. D., where he will hold meetings for a couple of weeks.

A. H. Huseth and Chris Yttri left Monday for Wisconsin to visit relatives. Mr. Huseth expects to visit his people at Mt. Horeb, Evansville and Madison and Rev. Roseland at Eau Claire, and Mr. Yttri will visit at La Crosse.

The school board had an architect here from Crookston Friday and upon his recommendation the foundation of the school house was condemned and a brick wall was advised. It is hard to tell what the outcome will be.

Who sells land? Why thats easy BILL the Holt Realty Co. does, so if you want to sell your land list it with them. We are well prepared to do some extensive advertising and can no doubt bring you a buyer. Office in Holt State Bank.

Fire! Fire! Extinguishers!

We have taken the agency for the eastern half of Marshall Co., for

Richmond Chemical Fire Extinguishers!

We can sell you cheap, any size Fire Extinguisher, and as many as you wish. They never fail and are always ready. Cheaper than a fire insurance policy

Jacob Nelson, Holt, Minn.

Synod Church.

The Dorcas Sewing Society for the little girls will meet at the restaurant at two o'clock Saturday Feb. 13th, 1915.

There will be services held in Holt the first Sunday in every month at 10-45 A. M., commencing Feb. 7th. Other services per announcement. Ringo will be included in the first Sunday in every month at 3-30 P. M.

Free Mission Church.

Sunday School at 1 o'clock in the afternoon.

The annual meeting of the church will be held Thursday Feb. 25.

Miss Carrie Nordgaard will preach in English and Ole Moen in Norwegian at two o'clock Sunday afternoon and at eight in the evening. Miss Clara Tarsta will have charge of the singing which will be in both languages.

The Sunnyside.

Mrs. F. Larson and children spent Sunday at F. Carlson's.

Ask Ed. if Selma knows how to tease.

Mrs. C. Anderson called at T. O. Dovre's Monday afternoon.

The Misses Wegge, Klara Tvede, Hjalmer and Fred Peterson, Ole Backland and Albert Bjerk spent a very pleasant afternoon and evening at A. Bjerk's Sunday.

We regret to state that Stina Brita lost her heel Sunday so she has given up the idea of learning the "grapevine."

Mr. and Mrs. Carl Surmo visited at F. Carlson's Sunday.

We would like to know where Fred Peterson was Saturday night so we could put it in the "news."

Mrs. A. Bjerk returned from St. Hilaire last Thursday.

Mrs. Hans Knutson, Oscar and Alma spent Sunday at Geo. Anderson's.

Vernon Grover went to Middle River Friday.

Northeast of Holt.

Miss Tina Johnson called on Lizzie Hanson Thursday afternoon.

Mrs. C. W. Christianson called on Mrs. E. Johnson Friday afternoon.

The Misses Selma, Lucy, Irene and Evelyn Wegge, Miss Clara Tvede and Ed. Bjerk spent Friday evening at the Ed. Horian home.

Miss Betty Johnson arrived Saturday from Thief River to spend Sunday at her home.

The Merry Makers spent Saturday evening at C. W. Christianson's. All who were present report a good time.

Miss Burndette and Charles Horian, Miss Tina and Dehard Johnson spent Sunday afternoon at the Nyberg home.

Mr. and Mrs. Hjalmer Dovre spent Sunday at the home of Mr. Dovre's parents.

Creamery Notice

Notice is hereby given that the Board of Directors of The Holt Farmers Co-Operative Creamery Assn will receive sealed bids up to 2 o-clock P. M. of Monday Feb. 15th for filling their ice house from the car, also for furnishing thirty cords of tamarack or thirty-five cords of poplar wood.

T. B. Folden, Sec'y.

The Dorcas Sewing Society met with Mrs. A. Sollom Jan. 29th, and elected officers as follows: Mabel Hagglund, President; Stella Mickelson, Treasurer; Ingeborg Nelson, Secretary.

Don't Put All Your Eggs Into One Basket

In other words, farmers of Holt and vicinity, diversify your crops! Experience proves the wisdom of not depending entirely upon wheat or any other one crop. We urge our customers and others to get into stock raising and to plant corn and potatoes. Give up some of your land to grass and pasturage. You will be better off in the end just as you will be if you cultivate your balance and acquaintance at this strong bank.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

An Ominous Selection.

A Baltimore man tells a story of a minister who, rising to address his congregation, announced that the subject of his discourse would be "A Man's Wife."

"And now," he added, "we will first sing the hymn, beginning:

"'From every stormy wind that blows,
From every swelling tide of woes,
There is a calm, a sure retreat—
'Tis found beneath the mercy seat.'"

And he couldn't imagine why the wives of the congregation present all looked daggers at him.—Baltimore American.

RUSSIANS DEFEAT TURKS IN PERSIA; CAPTURE TABRIZ

ENTER CAPITAL OF PROVINCE OF AZERBAUM—TAKE MANY FIELD GUNS AND MILITARY SUPPLIES.

MUSCOVITES MENACED IN THE CARPATHIANS

Austro-German Concentration in Mountains Threatens Czar's Armies in Bukowina—Russian Front in East Prussia Only Fifty Miles From Konigsberg.

London, Feb. 1.—The Paris correspondent of Reuter's Telegram Company telegraphs that he learns that the Russians have routed the Turkish troops in Persia and have entered Tabriz, capital of the Province of Azerbaum, which the Turks occupied early in January.

Russians Capture Army Supplies.

Petrograd, Feb. 1.—Success by the Russians in the vicinity of Tabriz, Persia, is indicated in the official communication issued by the general staff of the army in the Caucasus. The statement says:

"In the valley of Alashkert we came in contact with the enemy and after a stubborn battle captured their colors, guns and military supplies. The enemy himself retired toward Tabriz, abandoning on the battlefield many hundreds of killed."

Speaking of other fighting in the Caucasus the statement says:

"In the region around Tchorokh, south of Batum, a column of troops of the enemy were repulsed in the village of Baschkiol. They retreated precipitately.

"On the front near Sari Kamvsh there has been no important changes. On January 28 the Turkish artillery cannonaded energentically a part of our front, but with no success."

Teutons Menace in Carpathians.

London, Feb. 1.—Two conditions call particularly for comment by British observers of the war: The Austro-German concentration in the Carpathians, which is regarded as a menace to the Russian armies in Bukowina; and the Russian activities in East Prussia, which have been characterized as a threat to the German forces in this territory. Thus at the extreme end of the immense eastern front military operations of the greatest importance are now devoloping.

As to the western battle front, another big battle in the vicinity of Soissons is confidently expected, as is a bitter conflict near LaBassee, where for some time the Germans have been piling up reinforcements.

Russians Threaten Konigsberg.

Russia's new invasion of East Prussia is becoming well defined in British eyes as an outflanking movement. For some time past this frontier district has been in Russian hands without attracting much attention, but now the invaders have begun a series of slight western advances along the 50-mile front from Tilsit southward almost as far as Angerburg. This front is only about 50 miles to the east of the Prussian fortress of Konigsberg.

Fight in Snow.

Many miles to the south the combined Austro German armies and the forces of Russia are battling in the snow in the Carpathian mountain passes, but as is usual with mountain fighting the situation is confused, each side maintaining that the tide of battle is running in its favor. It will be hard to form a clear picture of the situation until either the Russians emerge in force on the Tungarian plains or the Austro-Germans hammer them back to the mountain passes, perhaps causing at the same time a Russian retreat in Bukowina. One effect of this struggle has been to bring the Austro-German troops so near the Russian frontier as to fan the war flame in that country, a fact which may have an important bearing on deciding when Rumania will enter the conflict.

C. O. Jenks Succeeds W. D. Scott.

Superior, Wis., Feb. 1.—C. O. Jenks of this city, general superintendent of the lake district of the Great Northern railroad, has been appointed to succeed W. D. Scott, general manager of the Spokane, Portland & Seattle railroad, who died several days ago.

Mr. Jenks received a wire to this effect from L. C. Gilman, president of the S. P. & S.

Considers Naval Appropriation Bill.

Washington, Feb. 1.—The house met to begin consideration of the naval appropriation bill carrying about $148,000,000. Indications were that the measure would provoke lively debate.

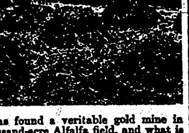
Miners Agree to Arbitrate.

Cleveland, O., Feb. 1.—Agreement to arbitrate the wage controversy which has kept 15,000 coal miners in the Ohio field out of work since April was practically arrived at at the session of the joint conference attended by United States conciliators, mine operators and mining organization officers. It became known that the mine officials have changed their attitude since arriving here two days ago. At first they declined to listen to any compromise, but were gradually brought around.

THE COLONEL'S GOLD MINE

Out in Gregory County, South Dakota, lives Colonel Johnson, the famed Alfalfa King of that great section.

About thirty years ago he left Wisconsin for that domain. All he had was willing hands, a clear brain and a bright vision. Today he is the owner of thousands of acres, president of several banks.



He has found a veritable gold mine in his thousand-acre Alfalfa field, and what is of particular interest to you and me is that his first Alfalfa Seed, twenty-five years ago or more, was purchased from the John A. Salzer Seed Co., La Crosse, Wis.

The Colonel says: "The best paying crop in hay, or grass, or pasture food is Alfalfa. It outranks everything in money value."

Salzer's Alfalfa is good on your own farm, for three to five tons of rich hay per acre, and with the aid of "Nitragen" (see my catalog) its growth is absolutely certain.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds, including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, Alfalfa, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion—furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

Byplay Minstrels.

"Mister Interlocutor, can you tell me the difference between an Irish soldier and a Scotch soldier when fighting in the trenches with the allies?"

"No, Mr. Bones, I cannot. Will you elucidate the difference?"

"One says he is kilt with the cold and the other says he is cold with the kilt."

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Adv.

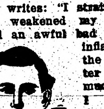
Quite Obvious.

Tramp—It is needless to ask the question, madam. You know what I want.

Lady—Yes, I know what you want badly, but I've only one bar of soap in the house, and the servant is using it. Come again some other time.—London Tit-Bits.

SUFFERED FOR FOUR YEARS.

Mr. J. M. Sinclair of Olivehill, Tenn., writes: "I strained my back, which weakened my kidneys and caused an awful bad backache and inflammation of the bladder. Later I became so much worse that I consulted a doctor, who said that I had Diabetes and that my heart was affected. I suffered for four years and was in a nervous state and very much depressed. The doctor's medicine didn't help me, so I decided to try Dodds Kidney Pills, and I cannot say enough to express my relief and thankfulness, as they cured me. Diamond Dinner Pills cured me of Constipation."



Mr. J. M. Sinclair.

Dodds Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

Passed Up.

"How did the poker scene in the play go?"

"Never got a hand."

Bad If He Couldn't Kick.

Church—How is your gout?

Mrs. Havelock Ellis, a distinguished English authoress, is lecturing in the United States on eugenics and other subjects.

AUSTRIA MAY SUE FOR PEACE

DUAL MONARCHY REPORTED TO BE IN PLIGHT.

Urges German Emperor to Consider Seriously Possibility for Tolerable Terms at Once.

London, Feb. 2.—The Copenhagen correspondent of the Daily Mail, asserts that Baron Burian, the Austro-Hungarian foreign minister, at his recent meeting with the German emperor, drew a doleful picture of the plight of the dual monarchy and urged that the time had arrived for the Germanic powers to consider most seriously the possibilities for a tolerable peace.

The Daily Mail attaches great importance to the dispatch, which is dated Thursday, and was delayed in transmission. The dispatch says:

"From a most trustworthy and well-informed source in Berlin I received the following statement regarding the nogotiations between the German statesmen and Baron Burian, who recently visited the German chancellor in Berlin and Emperor William at the army headquarters in France.

Situation Is Precarious.

"Baron Burian represented to the Germans that the situation in Austria was precarious and that if the Russian advance toward Budapest is not stopped the effect may very probably be the downfall of Austria and the complete collapse of Hungary, which must later entail, as a logical sequence, also the downfall of Germany.

"Therefore, Baron Burian urged that the Russians must, at all costs, be repulsed and that Germany must send large re-enforcements to Hungary to prevent a catastrophe. In any case, he said, it was doubtful if it would be possible for them to resist the Russians and Serbians, and perhaps also the Roumanians. Therefore it was necessary seriously to examine into the question of peace.

Would Cede Territory.

"A definite defeat would mean a debacle for Austria-Hungary and the partition of the empire. His advice to Germany was to consider most seriously the possibilities of a tolerable peace. He advised Germany not to reject fundamentally the thought of peace on the grounds of a probable disarmament of Europe. If Germany were disposed to treat on such terms, he believed the other conditions would be tolerable. Perhaps it would be necesary to leave the French part of Alsace to France and to give up some Polish provinces to the new Poland, but if Russia would reliquish a province and Austria a part of Galicia to Poland, no real sacrifice for Germany would be entailed.

"Austria would then leave the rest of Galicia to Russia and Bukowina to Roumania, and, if necessary, a part of Bosnia and Herzegovina to Serbia and Montenegro."

British Admiral Dies.

London, Feb. 2.—Rear Admiral The Honorable Victor A. Montagu died here. Rear Admiral Montagu was 73 years old. He served with the fleet in the war with Russia in 1855; in the China war of 1857 and with the naval brigade in the Indian mutiny of 1858. He was retired in 1886.

Congressman Elect Dies.

New York, Feb. 2.—William M. Brown, representative elect in congress from the Twenty-fourth district of Pennsylvania and former lieutenant governor of that state, died here of pneumonia. Mr. Brown's home was in New Castle, Pa.

U. S. Awaits Shipping Decision.

Washington, Feb. 2.—The United States government does not intend to to be drawn into any negotiations with foreign governments as to whether it has the right to buy belligerent ships, until the bill pending in the senate is enacted into law and there is a decision as to where the purchases are to be made. Believing that no foreign power has any ground for supposing that in purchasing ships any unneutral act would be committed, no protests are expected in advance of action by the American government.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

GOD ALWAYS IN HUMANITY

Impossible to Imagine the Time When He Will Withdraw His Presence From Us.

So long as there be in the human heart one fiber to vibrate at the sound of that which is true and just and honorable, so long as the instinctively pure soul prefers purity to life, so long as there be found friends of truth ready to sacrifice their peace in the cause of science, friends of righteousness to devote themselves to holy and useful works of mercy, womanly hearts to love whatever is good, beautiful and pure, artists to render it by sound and color and words of inspiration—so long God will dwell within us.

It could only be when egoism, meanness of soul, narrowness of mind, indifference to knowledge, contempt for human rights, forgetfulness of that which is great and noble, invaded the world—it could only be then that God would be in humanity no more. But far from us be thoughts like these! Our aspirations, our sufferings, our very faults and temerities, are the proof that the ideal lives in us. Yes, human life is still something divine! Our apparent negations are often nothing more than the scruples of timid minds that fear to pass beyond the limits of their knowledge. They are a worthier homage to the Divinity than the hypocritical adoration of a spirit given over to routine. God is still within us, est Deus in nobis.—Renan.

She Concentrated in General.

An editor of the Ohio State Journal went to see a vaudeville performer who does a dozen or more interesting stunts in an almost perfect way. Then he returned, the editor returned, to his sanctum and wrote an excellent little sermon for the young on the beauties of concentration.

This recalls the story of the Chicago woman who told Author Arnold Bennett that his famous chapter on "Concentration" had greatly aided her.

"Why," she said, "I never knew what it was to concentrate before."

The author was interested.

"And on what have you concentrated, madam?" he asked.

"Oh, on lots and lots of things," she replied.

OUR NATIONAL DISEASE. Caused by Coffee.

Physicians know that drugs will not correct the evils caused by coffee and that the only remedy is to stop drinking it.

An Arkansas doctor says:

"I was a coffee drinker for many years and often thought that I could not do without it, but after years of suffering with our national malady, dyspepsia, I attributed it to the drinking of coffee, and after some thought, determined to use Postum for my morning drink.

"I had the Postum made carefully according to directions on the pkg. and found it just suited my taste.

"At first I used it only for breakfast, but I found myself getting so much better, that I had it at all meals, and I am pleased to say that I have been relieved of indigestion. I gained 19 pounds in 4 months and my general health is greatly improved.

"I must tell you of a young lady in Illinois. She had been in ill health for many years, the vital forces low, with but little pain. I wrote her of the good that Postum did me and advised her to try it.

"At the end of the year, she wrote me that she had gained 40 pounds in weight and felt like herself again."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Quick Work.

"Rome wasn't built in a day."

"That just goes to show how much more powerful than human agencies the forces of nature are."

"Explain."

"What it took man centuries to build, a little old earthquake can destroy in about forty seconds."

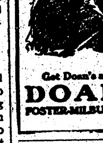
Don't Give Up!

Nowadays deaths due to weak kidneys are 72% more common than 20 years ago, according to the census. Overwork and worry are the causes. The kidneys can't keep up, and a slight kidney weakness is usually neglected.

If you have backache or urinary disorders, don't mistake the cause. Fight the danger. More care as to diet, habits, etc., and the use of Doan's Kidney Pills ought to bring quick relief.

A North Dakota Case



Mrs. C. J. Tyler, Cando, N. D., says: "My feet and limbs were swollen and I couldn't sleep well. Mornings I was tired and weak and my back was awfully lame. If I moved suddenly, needle-like pains darted through me. Doan's Kidney Pills rid me of all these ailments and made my health much better in every way."

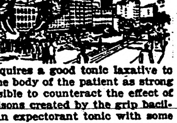
BLACK LEG

LOSSES SURELY PREVENTED by Cutter's Blackleg Pills. Low-priced, fresh, reliable; preferred by Western stockmen, because they protect where other vaccines fail. Write for booklet and testimonials. 10-dose pkge. Blackleg Pills $1.00; 50-dose pkge. Blackleg Pills 4.00. Use any injector, but Cutter's best. The superiority of Cutter products is due to over 15 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct. The Cutter Laboratory, Berkeley, Cal., or Chicago, Ill.

WHY GRIP IS DANGEROUS.



It requires a good tonic laxative to keep the body of the patient as strong as possible to counteract the effect of the poisons created by the grip bacillus. An expectorant tonic with some laxative qualities is the safest remedy. Such is Peruna.

Mrs. Gentry Gates, 8219 First Ave., East Lake, Ala., writes: "I had a bad case of grip. I tried Peruna and it cured me. I can safely say it is a fine medicine."

Mr. George E. Law, 13½ N. Franklin St., Brazil, Ind., writes: "I am satisfied that Peruna is a wonderful remedy for grip, and I do most heartily endorse and recommend it."

Conservative Estimate.

Jem Snedeker, an East Tennessee farmer, would only admit that the sun had a bright side by speculating that the other side was probably dark. The preacher, looking over Jem's farm, said that the wheat crop looked fine and plentiful. But Jem put it this way:

"It's a pretty good crop, what there is of it—an' there's right smart of it, sech as it is!"

FORMS COCAINE HABIT IN STORE

Sixteen-Year-Old Boy Is Wreck as Result of Use of Drugs.

TOTTERS INTO COURT

Judge Comments on His Pitiable Condition and Sends Him to an Institution Where He Will Be Cured.

New York.—Magistrate Appleton, in Yorkville court, saved from prison Joseph Ryan, sixteen years old, a cocaine victim, who lives with his parents at 1414 Second avenue. The boy was sent to the Central Islip hospital, to be cured of the drug habit.

"This is most pitiable," said Magistrate Appleton, as the boy, thin and tottering, was led before him. "What on earth are you trying to do, young fellow? Are you trying to commit suicide?"

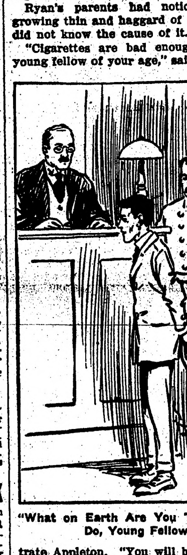
The boy did not answer. He had been employed in a drug store in Broadway, and there, he confessed to the police, had fallen into the habit of pilfering cocaine and using it. He told also of going to the East Seventy-fourth street dock, which is a rendezvous, he said, of boys with whom he shared his drugs.

Detective John J. Kilroy of the Second branch detective bureau said he had been watching the boy's odd actions for three weeks and suspected he was using a girl of his own age as a go-between in the drug trafficking.

Ryan's parents had noticed him growing thin and haggard of late, but did not know the cause of it.

"Cigarettes are bad enough for a young fellow of your age," said Magistrate Appleton. "You will be able to overcome this awful habit just as you can give up cigarettes. Instead of sending you to prison, I will send you to the hospital at Central Islip, L. I., where you will be cured and helped along."

The boy thanked the magistrate before he was led out of court.



"What on Earth Are You Trying to Do, Young Fellow?"

LOST BOY IS WITH INDIANS

"Jo-Jo," Aged Seventeen, Thinks He Is John Jones, Stolen When Young.

Los Angeles, Cal.—"Jo-Jo" once was a white boy. Then he became an Indian, and now Probate Officer Sigler of Los Angeles is trying to make him a white boy again.

The boy is seventeen and has the most peculiar history of any youth ever taken before the juvenile court.

"Jo-Jo's" true name is John Jones—he thinks. The Indians who took him when he was a small boy couldn't pronounce the name, so they did the next best thing. They made an attempt, and "Jo-Jo" was the result.

The difficulty encountered by the boy in recovering his status as a full-blooded white boy is a malformation of the mouth, due to lack of attention to his teeth while he was with the Indians. This the probation officer believes has made him backward mentally. It is believed, however, this can be corrected.

Washes to Help Church.

Junction City, Kan.—Mrs. Annie Petty decided that her church should have its own building, and not a rented room. She therefore took in washing, earned enough money to buy a lot, and then donated largely to the erection of the recently completed building.

Jokes as He Dies.

New York.—Samuel Boyle, fifty years old, weighing 350 pounds, fell from the fifth story of the Victoria hotel to the roof of a one-story extension. "Get a derrick," said he very calmly, when efforts were made to lift him. He died in half an hour.

QUIT MEAT IF KIDNEYS BOTHER AND USE SALTS

Take a Glass of Salts Before Breakfast if Your Back Is Hurting or Bladder Is Irritated.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acids of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.

The Asylum's Advantage.

At the orphan asylum the childless Mrs. Hathaway, who had selected an infant for adoption, suddenly showed trepidation.

"Will I have to keep the baby if it doesn't suit my husband?" she asked, hesitatingly.

"Of course you won't have to keep it," responded the accommodating matron. "You can bring the kid back and exchange it any time. We're not arbitrary, like the stork."

NO BAKING POWDER MORE WHOLESOME THAN ALUM POWDERS.

Washington, D. C.—Alum baking powders are no more harmful to a person than any other baking powders.

Such is the conclusion of the referee board of consulting scientific experts of the department of agriculture as the result of experiments to determine the influence of aluminum compounds on the nutrition and health of man. The report gives the results of three sets of extensive experiments on human subjects conducted independently by members of the board and was in response to questions put to it by the department of agriculture. The board's report was unanimous and was signed by Ira Remsen, president of Johns Hopkins university, Chairman; Russell H. Crittendon, professor of physiological chemistry in Yale university and director of the Sheffield Scientific school; John H. Long, professor of chemistry in Northwestern university; Alonzo E. Taylor, professor of physiological chemistry in the University of Pennsylvania, and Theobald Smith, professor of comparative pathology in Harvard.

Requisite for Optimism.

"What are the qualifications for membership in your international optimist club?" asked the philanthropist's friend.

"Well, in the first place, you've got to speak English with an American accent."

RESINOL STOPS DANDRUFF AND LOSS OF HAIR

If you are troubled with dandruff, eczema or other scaly, itching scalp affection, try shampoos with resinol soap and an occasional treatment with resinol ointment. You will be surprised how quickly the trouble disappears and the health and beauty of the hair improves.

Resinol soap and ointment also heal skin-eruptions, clear away pimples and blackheads, and form a most valuable household treatment for sunburn, heat-rash, etc. Sold by all druggists. Prescribed by doctors for 20 years.—Adv.

His Idea.

Bill—This paper says that the first electric locomotive ever used on an English railroad will be imported from Germany.

Jill—Perhaps they're going to carry it over in a Zeppelin and drop it.

PROPERLY BAKED HAM

SOMEWHAT LENGTHY PROCESS, BUT WORTH WHILE.

Expert Gives Explicit Directions for Preparation of Dainty—May Be Soaked in Claret or Cider, as Is Preferred.

An old ham is best, but any thoroughly smoked, sound ham will do, writes Martha McCulloch Williams. Scrape it all over with a blunt-edged knife, then sprinkle well with a good washing powder and scrub in tepid water with a coarse cloth. Wring the cloth dry and wipe the ham, then rinse it in clear cold water and put it to soak over night. The next morning scrape it afresh if any superfluous matter has been loosened, rinse, and put it, skin side down, to cook in cold water, having a rack or plate in the bottom of the boiler to prevent scorching. Bring the ham to a brisk boil, then throw in a pint of cold water and let it stand two or three minutes; skim off the scum, then throw into the pot a dozen whole cloves, as many allspice and black peppercorns, a small pod of red pepper, slit lengthwise, and a blade of mace. Watch closely, and when boiling begins lessen the heat so that there will be bare simmering. The water must stand two inches above the meat—fill the boiler up as it wastes away. Keep on the lid, but loosely, and let the ham simmer until it is very tender—the time depends upon the age, weight and hardness of the ham. When the haunch bone shows a little through the meat the ham is likely to be done. Let it cool in the water in which it was boiled, take it out, drain well and trim off the rusty fat from the edges, and a little of the smoke darkened flesh underneath. (The hock had better be sawed off before boiling, but if that has not been done, loose the projecting bones and cut to a neat end.) Skin carefully. Then stick all over the fat portion whole cloves in a lozenge pattern, after which dust thickly with black pepper and paprika, sprinkle lightly with soft sugar, and fit the ham into a deep agate or earthenware vessel. Pour in sound claret or sweet cider and let it soak six hours. Then put on a low rack in an agate pan, pour the soaking liquor around and bake very slowly from one to two hours, according to size. Baste with the liquor in the pan two or three times each half hour; as the liquor evaporates add either cold water or more wine or cider. If the ham is very fat cool the pan after taking it up, and remove most of the grease on top; then add a dash of boiling water, a light seasoning of herbs and ten drops of onion juice; cook for three minutes, stirring constantly, and then pour into your gravy boat. Pass with the ham; else use the savor stews and minces.

It is, perhaps, worth while to add that in judging a ham, dry, black-green mold upon the flesh side is ranked by epicures the hallmark of excellence, highly desirable.

To approximate fairly the famous French concoction, jambon au madere, you should pour the boiling water off the ham while it is still hot; after the ham is done, then let it simmer for an hour in enough of either claret or cider to float it, turning the ham from time to time and letting it cool in the liquor.

Some Oyster Hints.

All styles of panned, creamed or stewed oysters should be cooked over an open fire or live steam, because they should start to cook the moment the heat strikes the pan or chafing dish and continue at a forced rate until finished.

The cooking of oysters can be greatly improved by the use of the chafing dish instead of the saucepan in connection with the recipes where the latter is mentioned.

Oysters most easily secured and mostly desired are Saddle Rocks, Rocks, Rockaways, Lynn Haven Bays, Shrewsburys, Blue Points, Cotuits, Lynnhavens, Cape Cods, Buzzards Bay, Norfolk, Cape May Salts, Cherry Stones, Chincoteagues and Oak Creeks.

Chocolate Pancakes.

This makes a delicious dessert for luncheon and one that is quickly prepared: Mix together two eggs, yolks and whites, with two heaping tablespoonfuls of sweetened chocolate that has been grated (if unsweetened brand is used, then the mixture must be sweetened to taste), half cupful of milk, half cupful of flour. Beat all together well. Fry like ordinary pancakes, brown on both sides and roll them, lay on a hot platter, sprinkle with powdered sugar and serve immediately.

Tagging the Piece Bag.

Here is a sensible way of tagging the contents of a piece bag: On the outside of the bag fasten the largest procurable safety pin. When dressmaking is over attach samples to this pin of every remnant that goes into the bag. A great amount of time and patience is saved by this simple device, for one can see at a glance just what the bag contains.—Racine Journal.

Cream Cheese Tarts.

Make tart shells of pastry, and fill them with a cream cheese, half a cupful of cream, a cupful of currants, three eggs beaten well and two tablespoonfuls of sugar. Bake for about half an hour.

Sick Women Made Well

Reliable evidence is abundant that women are constantly being restored to health by Lydia E. Pinkham's Vegetable Compound

The many testimonial letters that we are continually publishing in the newspapers—hundreds of them—are all genuine, true and unsolicited expressions of heartfelt gratitude for the freedom from suffering that has come to these women solely through the use of **Lydia E. Pinkham's Vegetable Compound.**

Money could not buy nor any kind of influence obtain such recommendations; you may depend upon it that any testimonial we publish is honest and true—if you have any doubt of this write to the women whose true names and addresses are always given, and learn for yourself.

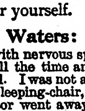
Read this one from Mrs. Waters:

CAMDEN, N.J.—"I was sick for two years with nervous spells, and my kidneys were affected. I had a doctor all the time and used a galvanic battery, but nothing did me any good. I was not able to go to bed, but spent my time on a couch or in a sleeping-chair, and soon became almost a skeleton. Finally my doctor went away for his health, and my husband heard of Lydia E. Pinkham's Vegetable Compound and got me some. In two months I got relief and now I am like a new woman and am at my usual weight. I recommend your medicine to every one and so does my husband."—Mrs. TILLIE WATERS, 530 Mechanic Street, Camden, N.J.

From Hanover, Penn.

HANOVER, PA.—"I was a very weak woman and suffered from bearing down pains and backache. I had been married over four years and had no children. Lydia E. Pinkham's Vegetable Compound proved an excellent remedy for it made me a well woman. After taking a few bottles my pains disappeared, and we now have one of the finest boy babies you ever saw."—Mrs. C. A. RICKRODE, R.F.D., No. 5, Hanover, Pa.

Now answer this question if you can. Why should a woman continue to suffer without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?



LYDIA E. PINKHAM

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

HORSES FOR EUROPE

SPOHN'S DISTEMPER CURE

Europe is buying thousands of horses from the United States for the war. The army agents refuse all horses that are not in good condition and free from contagious and infectious diseases. When the buyers come you must be ready to sell. Keep YOUR horses in salable condition, prevent and cure Distemper, Pink Eye, Epizootic, Catarrhal and Shipping Fever by using the largest selling veterinary remedy SPOHN'S DISTEMPER COMPOUND.

Absolutely safe for all ages. One bottle cures a case. 50 cents and $1 the bottle, $5 and $10 the dozen. Write for free booklet, "Distemper, Causes and Cure." SPOHN MEDICAL COMPANY, Chemists and Bacteriologists, GOSHEN, INDIANA

Proverb Didn't Apply.

Mrs. Brown was in the kitchen helping Nora, the cook, prepare supper.

"It's an old saying," she remarked to Nora, "that 'too many cooks spoil the broth.' What do you think?"

"Sure, mum," she replied, "there's nothing to worry about. There's only one cook here."—National Monthly.

HAIR OR NO HAIR?

It Is Certainly Up to You and Cuticura. Trial Free.

Hot shampoos with Cuticura Soap, followed by light dressings of Cuticura Ointment rubbed into the scalp skin tend to clear the scalp of dandruff, soothe itching and irritation and promote healthy hair-growing conditions. WAITING FOR YOU
160 ACRE FARMS IN WESTERN CANADA FREE

Yes, waiting for every farmer or farmer's son—any industrious American who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is higher but her farm land just as cheap and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads are Actually Free to Settlers and Other Land at From $15 to $20 per Acre

The people of European countries as well as the American continent must be fed—thus an even greater demand for Canadian Wheat will keep up the price. Any farmer who can buy land at $15.00 to $30.00 per acre—get a dollar for wheat and raise 20 to 45 bushels to the acre is bound to make money—that's what you can expect in Western Canada. Wonderful yields also of Oats, Barley and Flax. Mixed Farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada but there is an unusual demand for farm labor to replace the many young men who have volunteered for service in the war. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada; or to

Who Raised The Check

In an article in the last week's issue of this paper signed by B. L. Backe, of the Farmers State Bank of Holt, he states that someone, on his back, is circulating stories to the effect that he raised a check from75c to $75.00 As I am the party who made out this check in the first place and am partly responsible for making some of the statements that it had been raised by someone, I wish to say a few words in explanation and will leave to you readers to judge if I have not some cause for complaint. On Dec. 7th, 1914, I gave a check for 75c to S. S. Kolden, of Holt, for 5 stovepipes purchased for the school district of which I am treasurer, drawn on the State Bank of Middle River. A short time afterwards I received a letter from the bank stating that I was overdrawn some over twenty dollars. This was very much of a surprise to me as according to my books I should have about a $50.00 balance. However, in this letter they stated that a check had just come that seemed to them had been changed or altered in some way from 75c to $75.00 I found upon investigation that this was the check that I had issued to S. S. Kolden for 75c, which had been raised by someone to $75.00. I had written the check thus, "Seventy Five Cents." In the space where the amount on a check is written in figures I had it written thus, $75--100 This can be corrobrated by two witnesses. I did not take special precaution to have these parties as witnesses when I wrote this check, but, as I my good luck would have it, they happened to observe me when I made it out. I now have the check in my possession and upon receiving it from the bank I opened the letter in presence of several witnesses. I found that the words "cents" had been erased making it read "Seventy-five Dollars. Where I had written 75--100 I found that the figures 100 was erased leaving the figures 75.

The question now arises, who raised the check flom 75c to $75.00? I have Mr. S. S. Kolden's own statement that he brought it to the Farmers State Bank of Holt reading "Seventy five Cents" and received credit for only 75c. That this check was raised after leaving Mr. S. S. Kolden's hands and before it left the Farmers State Bank of Holt is beyond a doubt. B. L. Backe seem to be making a special effort to make me a liar in this matter but I wish to call the readers attention to the fact that I have resided in this vicinity for the past twelve years. I have always tried to be fair and square in all my dealings and I think the other banks and merchants of this vicinity will bear me out in this statement. The party who raised this check, whoever he is, is in my opinion, not a man of very good character and is certainly not fit to hold a position in any bank or office of public trust.

Christ Norbeck.

On Sunday last Burndette and Charles Horian, Lizzie Hanson, Hilmea Davidson, Walter Wegge, Rudolph Anderson spent the afternoon at E. Johnson home.

Erick Johnson has been on the sick list for a few days but is better at this writing.

Another Version Of Holt Creamery Meeting

An article appeared in the last week's issue of this paper signed by B. L. Backe, of the Farmers State Bank of Holt, with reference to the annual meeting of the Farmers Co-op. Creamery Company of Holt, in which he make, in our opinion, some rather untrue and misleading statements.

His version of the proceedings of the meeting must indeed seem very laughable and ridiculous to the stockholders who were present, and, why he takes upon himself to publish such a report is beyond our comprehension. With reference to the statement he makes, "that the officers and directors were elected amid much confusion and bitterness" we wish to say that we were present at the meeting and as far as we could see everything went along nicely and smoothly until it came to the election of treaurer. Now, we all know that B. L. Backe was particularly anxious to land this office and practically tried to "bull" his way to get it. The "confusion and bitterness" started when he was nominated for candidate as treasurer against Nils Engebretesen, when a loud and prolonged chorus of "Nos" rang out through the creamery room objecting to his nomination. What confusion and bitterness occurred at the meeting was caused altogether by his own tactics. To prove this, the counting of the election ballots showed, with one or two exceptions, that the stockholders present voted unanimously in favor of Nils Engebretsen as treasurer. He makes the statement that 'Finally', with no exceptions, the officers and directors who served in 1914 were reelected, not so much as they were the choice of the members present, but to maintain harmony." To the stockholders who were present and voted at the meeting it certainly must occur to them that this is another absurd and very foolish statement, and, we believe that no person, who was present and took in the proceedings of the meeting, and who has one ounce of gray matter in his head, would make public such a statement. That the members present were in harmony was proven very conclusively by their almost unanimous vote for Nils Engebretsen as treasurer against B. L. Backe. They were in harmony allright, but not in such a way as to quite suit B. L. Backe. We will leave it to the readers to judge if this is much of a credit to Mr. B. L. Backe or not. His contention that the meeting was held with utter disregard for proper proceedure and fairness, is in our opinion, another misleading statement. As to designating a depository for the company's money it was decided by the members present that this matter should be left to the board of directors. As it was the contest was between the farmers on one side and B. L. Backe with about 15 "Proxies" on the other side. In summing up the whole situation we can come to the only conclusion that the confusion was caused entirely by B. L. Backe, himself, in trying to force his way into the management of the Farmers Creamery company, an institution that should really be managed by the farmers only. (Adv)

There will be preaching services in both churches next Sunday.

Dance postponed until Feb. 6th, account conflicting dates. Star hall, everybody invited.

When you get mad at the other fellow, read the 13th. chapter of 2nd. Corinthians.

NATION'S LABOR PROBLEM

OVER A MILLION AND A HALF WOMEN WORK AS FARM HANDS IN THE UNITED STATES.

By Peter Radford
Lecturer National Farmers' Union.

Our government never faced so tremendous a problem as that now lying dormant at the doors of congress and the legislatures, and which, when aroused, will shake this nation from center to circumference, and make civilization hide its face in shame. That problem is—women in the field.

The last federal census reports show we now have 1,514,000 women working in the field, most of them south of the Mason and Dixon line. There were approximately a million negro slaves working in the fields when liberated by the emancipation proclamation. We have freed our slaves and our women have taken their places in bondage. We have broken the shackles off the negroes and welded them upon our daughters.

The Chain-Gang of Civilization.

A million women in bondage in the southern fields form the chain-gang of civilization—the industrial tragedy of the age. There is no overseer quite so cruel as that of unrestrained greed, no whip that stings like the lash of suborned destiny, and no auctioneer's block quite so revolting as that of organized avarice.

The president of the United States was recently lauded by the press, and very properly so, for suggesting mediation between the engineers and railroad managers in adjusting their schedule of time and pay. The engineers threatened to strike if their wages were not increased from approximately ten to eleven dollars per day and service reduced from ten to eight hours and a similar readjustment of the overtime schedule. Our women are working in the field, many of them barefooted, for less than 50 cents per day, and their schedule is the rising sun and the evening star, and after the day's work is over they milk the cows, slop the hogs and rock the baby to sleep. Is anyone mediating over their problems, and to whom shall they threaten a strike?

Congress has listened approvingly to those who toil at the forge and behind the counter, and many of our statesmen have smiled at the threats and have fanned the flame of unrest among industrial laborers. But women are as surely the final victims of industrial warfare as they are the burden-bearers in the war between nations, and those who arbitrate and mediate the differences between capital and labor should not forget that when the expenses of any industry are unnecessarily increased, society foots the bill by drafting a new consignment of women from the home to the field.

Pinch no Crumb From Women's Crust of Bread.

No financial award can be made without someone footing the bill, and we commend to those who accept the responsibility of the distribution of industrial justice, the still small voice of the woman in the field as she pleads for mercy, and we beg that they pinch no crumb from her crust of bread or put another patch upon her ragged garments.

We beg that they listen to the scream of horror from the eagle on every American dollar that is wrung from the brow of toiling women and hear the Goddess of Justice hiss at a verdict that increases the want of woman to satisfy the greed of man.

The women behind the counter and in the factory cry aloud for sympathy and the press thunders out in their defense and the pulpit pleads for mercy, but how about the woman in the field? Will not these powerful exponents of human rights turn their talent, energies and influence to her relief? Will the Goddess of Liberty enthroned at Washington hold the calloused hand and soothe the feverish brow of her sex who sows and reaps the nation's harvest or will she permit the male of the species to shove women—weak and weary—from the bread-line of industry to the back alleys of poverty?

Women and Children First.

The census enumerators tell us that of the 1,514,000 women who work in the fields as farm hands 409,000 are sixteen years of age and under. What is the final destiny of a nation whose future mothers spend their girlhood days behind the plow, pitching hay and hauling manure, and what is to become of womanly culture and refinement that grace the home, charm society and enthuse man to leap to glory in noble achievements if our daughters are raised in the society of the ox and the companionship of the plow?

In that strata between the ages of sixteen and forty-five are 950,000 women working as farm hands and many of them with suckling babes tugging at their breasts, as drenched in perspiration, they wield the scythe and guide the plow. What is to become of that nation where poverty breaks the crowns of the queens of the home; despair hurls a mother's love from its throne and hunger drives innocent children from the schoolroom to the hoe?

The census bureau shows that 155,000 of these women are forty-five years of age and over. There is no more pitiful sight in civilization than these saintly mothers of Israel stooped with age, drudging in the field from sun until sun and at night drenching their dingy pillows with the tears of despair as their aching hearts take it all to God in prayer. Civilization strikes them a blow when it should give them a crown, and their only friend is he who broke bread with beggars and said: "Come unto me all ye that are weary and heavy laden and I will give you rest."

Oh, America! The land of the free and the home of the brave, the world's custodian of chivalry, the champion of human rights and the defender of the oppressed—shall we permit our maidens fair to be torn from the hearthstone by the ruthless hand of destiny and chained to the plow? Shall we permit our faithful wives, whom we covenanted with God to cherish and protect, to be hurled from the home to the harvest field, and our mothers dear to be driven from the old arm chair to the cotton patch?

In rescuing our citizens from the forces of civilization, can we not apply to our fair Dixieland the rule of the sea—"women and children first?"

There must be a readjustment of the wage scale of industry so that the women can be taken from the field or given a reasonable wage for her services. Perhaps the issue has never been fairly raised, but the Farmers' Union, with a membership of ten million, puts its organized forces squarely behind the issue and we now enter upon the docket of civilization the case of "The Woman in the Field" and demand an immediate trial.

RAILROADS APPEAL TO PRESIDENT

The Common Carriers Ask for Relief—President Wilson Directs Attention of Public to Their Needs.

The committee of railroad executives, headed by Mr. Frank Trumbull, representing thirty-five of the leading railroad systems of the nation, recently presented to President Wilson a memorandum briefly reviewing the difficulties now confronting the railroads of the country and asking for the cooperation of the governmental authorities and the public in supporting railroad credits and recognizing an emergency which requires that the railroads be given additional revenues.

The memorandum recites that the European war has resulted in general depression of business on the American continent and in the dislocation of credits at home and abroad. With revenues decreasing and interest rates increasing the transportation systems of the country face a most serious crisis and the memorandum is a strong presentation of the candle burning at both ends and the perils that must ultimately attend such a conflagration when the flames meet is apparent to all. In their general discussion the railroad representatives say in part: "By reason of legislation and regulation by the federal government and the forty-eight states acting independently of each other, as well as through the action of a strong public opinion, railroad expenses in recent years have vastly increased. No criticism is here made of the general theory of governmental regulation, but on the other hand, no ingenuity can relieve the carriers of expenses created thereby."

President Wilson, in transmitting the memorandum of the railroad presidents to the public, characterizes it as "a lucid statement of plain truth." The president recognizing the emergency as extraordinary, continuing, said in part:

"You ask me to call the attention of the country to the imperative need that railway credits be sustained and the railroads helped in every possible way, whether by private co-operative effort or by the action, wherever feasible of governmental agencies, and I am glad to do so because I think the need very real."

The conference was certainly a fortunate one for the nation and the president is to be congratulated for opening the gate to a new world of effort in which everyone may co-operate.

There are many important problems in our complex civilization that will yield to co-operation which will not lend themselves to arbitrary rulings of commissions and financing railroads is one of them. The man with the money is a factor that cannot be eliminated from any business transaction and the public is an interested party that should always be consulted and happily the president has invited all to participate in the solution of our railroad problems.

For Trade: Five passenger auto, will trade for good horses. Enquire at this office.

Elmer Brink of St. Hilaire has been running the barber shop during A. H. Huseth's absence.

R. Rierson has greatly improved the interior of his store by putting on steel ceiling, painting etc.

If you want to sell your land this year, now is the proper time to list it with Chas. W. Latta, Holt, Minn.

Arvid and Tony Carlson attended the Elks lodge in T. R. Falls Friday evening.

John L. Hagberg of Dugdale has been visiting the Jacob Nelson family at the restaurant the past week.

Guy Anderson is enjoying his annual vacation and his brother Alfred is running the mail route for fifteen days.

We received a good school report of Dist. 112, too late for this week, so it will be published in the next issue of this paper.

Miss Carrie Nordgaad and Clara Tasta have been holding meetings this week in the Free Mission church and the services have been very helpful. There will be a service to night (Friday) at eight o'clock to which all are invited.

Don't forget that good coffee you used to drink at Huseth's. We are serving the same kind now. Try a cup. A. H. Huseth.

P. A. Riesberg and D. Payne went to Warren Monday on business relating to the new school house. We understand they were advised to await the action of the bond company as they had done all that could be done so far. It is expected that work will soon be resumed and the building completed without further delays.

E. W. Smith of Parkers Prairie, Minn., a farm institute lecturer, addressed a goodly number of our people in the Star hall Wednesday afternoon, on potato raising. Considerable interest was manifested and several are contemplating planting a few acres of potatoes this spring, as it is considered that much of the soil here is particularly adapted for growing a fine grade of potatoes.

Fire! Fire! Extinguishers!

We have taken the agency for the eastern half of Marshall Co., for

Richmond Chemical Fire Extinguishers!

We can sell you cheap, any size Fire Extinguisher, and as many as you wish. They never fail and are always ready. Cheaper than a fire insurance policy.

Jacob Nelson, Holt, Minn.

Synod Church.

The Dorcas Sewing Society for the little girls will meet at the restaurant at two o'clock Saturday Feb. 13th, 1915.

Free Mission Church.

Sunday School at 2 o'clock in the afternoon.

Carl Olson will preach at 10:30 A. M. and 3:00 P. M. next Sunday.

Mrs. T. T. Sollom will entertain the Free Mission Ladies' Aid, at the hotel, Thursday Feb. 25.

The Young People's Society will meet at eight o'clock Sunday evening Feb. 14th, at the home of Mr. and Mrs. E. A. Johnson. A program will be given. Everybody welcome.

For Rent

The S1-2 W1-2 SE1-4 Sec. 25 156 44 and Lot 1 Sec. 30-156-43, 1-2 mile north and about 2 miles west of Holt. Will rent for one year. Good buildings. Holt State Bank.

Creamery Notice

Notice is hereby given that the Board of Directors of The Holt Farmers Co-Operative Creamery Assn will receive sealed bids up to 2 o'clock P. M. of Monday Feb. 15th for filling their ice house from the car, also for furnishing thirty cords of tamarack or thirty-five cords of poplar wood.

T. B. Folden, Sec'y.

The Sunnyside.

Mr. and Mrs. J. A. Sorum and children spent Sunday afternoon at Nels Lysnes.

Oscar Carlson visited with his sister Mrs. Carl Surmo, Sunday.

The Misses Burndette and Blanche Horien, Tena, Mabel and Alida Johnson, Messrs. Dehard Johnson, Leo and Frank Horian spent Sunday at M. Udstrands.

Misses Irene and Lucy Wegge and Marie Erickson spent Sunday at Lysnes.

Remember St. Valentines' Day, Sunday, and don't forget to send Stina Breta a valentine.

Mr. and Mrs. Geo. Anderson and Bill Anderson spent Sunday at A. Bjerk's.

A number of young folks were pleasantly entertained at C. Anderson's. Everybody went home with a smile. "Ask Mabel."

Walter Johnson came up from Minneapolis to visit with his parents Mr. and Mrs. E. A. Johnson.

Messrs. Hardy Bjerk, Walter Wegge and Joseph Johnson spent Sunday at C. Anderson's.

A certain young lady is wondering if Ed. met the ghost Sunday evening.

Mrs. N. Lysne called at L. Wegge's Monday.

Miss Selma Wegge left for Strathcona Thursday where she will visit Miss Christine Spjut and Mrs. A. Spjut. The latter formerly Miss Ellen Johnson who taught in Dist. No. 59.

Miss Clara Tvede spent Saturday afternoon at F. Larson's.

School House Notice!

Notice is hereby given that the school board of District No. 152 of Marshall Co., Minn., will receive sealed bids, up to 2 o'clock P. M. of Saturday, Feb. 27th 1915, for building a one room school house.

Plans and specifications on file with the district clerk, sec. 8, Town of Mud Lake.

Board reserves the right to reject any or all bids.

[illegible], Clerk.
[illegible], Minn.

Don't Put All Your Eggs Into One Basket

In other words, farmers of Holt and vicinity, diversify your crops!

Experience proves the wisdom of not depending entirely upon wheat or any other one crop. We urge our customers and others to get into stock raising and to plant corn and potatoes. Give up some of your land to grass and pasturage. You will be better off in the end just as you will be if you cultivale your balance and acquaintance at this strong bank.

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

ETIQUETTE OF THE DROSHKY

Being Allowed Selection of Companion One Can Imagine Mode of Travel Enjoyable.

The Siberian method of riding in a droshky requires an etiquette all its own, which, although sometimes surprising to the English traveler who encounters it for the first time, is based upon practical considerations. The danger of being thrown out has determined the prevailing usage, says Mrs. John Clarence Lee in "Across Siberia Alone."

If a gentleman escorts a lady, it is his task to hold her in the carriage—not an easy occupation. He accomplishes it by putting his arm around her waist. A man who fails to do so is considered as lacking in courtesy. When you have become acquainted with the custom, it seems entirely sensible and comfortable, but it seems strange at first to find yourself settling back into a stranger's arms.

An American, who had lived in Russia and whom we met in China, told us that he was driving with a woman physician, a Russian, middle-aged, and of the rotund Russian type. He knew nothing about his duty toward her, and they thrashed round that three-by-five droshky until the woman turned angrily toward him.

"Have you been brought up in the back woods that you don't know enough to hold me in this droshky?" she said.

He immediately put his arm round her waist as far as it would go, and held on hard.—Youth's Companion.

Not a Real Article.

The last minstrel stopped at a back door and said to the housewife who greeted him:

"Give me something to eat, fair dame, and I will tickle your ears with a merry tale of romance."

"But why not tell me the tale first?" the dame suggested.

"No, I must have the food and drink before I talk."

Thereupon the dame slammed the door with the tart reply:

"You're not a merry minstrel; you're an after-dinner speaker."

Natural history neglects to inform us that the female elephant requires a larger trunk than the male.

The meek may inherit the earth some day, but the other fellow has a mortgage on it right now.

"I Eat Grape-Nuts the Year Round

and it agrees with me," writes a doctor, "better than any breakfast food on the market—unless there is one I have not tried."

Grape-Nuts is scientifically prepared to agree with both strong and weak digestions. Long baking—about 20 hours—partially pre-digests the starch cells for quick, easy assimilation.

Besides, Grape-Nuts supplies, in concentrated form, all of the nutriment of wheat and barley, including the invaluable mineral elements often lacking in ordinary food.

Wax-sealed—crisp—ready to eat—and economical.

"There's a Reason" for Grape-Nuts

—sold by Grocers.

ENGLAND AROUSED BY TEUTON THREAT TO BLOCKADS SEAS

GERMAN ADMIRAL CAUTIONS NEUTRAL SHIPPING AGAINST APPROACHING WESTERN COAST OF FRANCE.

U. S. REGARDS GERMAN THREAT AS SERIOUS

British Foreign Office Statement Indicates Government Authorities Take Threat as One Requiring Prompt Counterstroke—Plan to Sweep Seas Free of Submarines.

Berlin (by wireless to Sayville), Feb. 6.—The chief admiral of the staff of the German navy has issued the following official communication:

"England in on the eve of shipping numerous troops and large quantities of war material to France. Against these English transports we will proceed with all the means of warfare at our disposal.

"Neutral shipping is earnestly cautioned against approaching the northern or the western coast of France, as in these waters such vesels would run the serious danger of being confounded with ships whose purposes are warlike.

"The best route for the North sea is around Scotland."

A Most Serious Development.

Washington, Feb. 6.—Germany's declaration of a naval war zone around Great Britain and Ireland, including the English Channel and the northern passage of the Shetland islands, is regarded here as one of the most serious developments of the war.

It was regarded as highly possible, for one thing, that it would hasten the movement begun by the Latin-American countries for a speedy conference of neutral states to devise means to reduce losses to neutral commerce to a minimum. This movement, it is expected, will have the support of the European neutrals.

At first there were some intimations in administration circles that the declaration might be the subject of a protest by the United States, but the officials view developd that there was little or no ground for that.

England Is Stirred.

London, Feb. 6.—Although referring sarcastically to Germany's threat to bottle up the British Isles by means of submarines as a "paper blockade," England is stirred by this latest development as it seldom has been since the outbreak of hostilities.

The press unanimously subordinates all other war news, not excepting the Turkish attempt to cross the Suez canal, to give prominence to the dispatches from Berlin, while the foreign office statement, following quickly the publication of the German decree, indicates that the government authorities take the German threat as one requiring a prompt counterstroke.

The German press hails this newly announced policy of the navy with great satisfaction.

Some English newspapers declare that the German announcement should, in the end, benefit England, in that it rightfully entitles the British government to declare contraband all foodstuffs destined for Germany.

To Order Destroyers Home.

The British statement says the authorities are considering "more stringent measures against German trade."

It is reported on good authority that orders for part of a British flotilla of destroyers to detach itself from the North sea fleet and report for duty in waters nearer home will be issued.

Call German Threat a Bluff.

Part of this destroyer fleet, it is expected, will be assigned the task of sweeping the seas free of German submarines. Others will be detailed to convoy merchantmen after Feb. 18, when the German admiralty decree becomes effective, until such time as the admiralty is positive that the German undersea terrors no longer menaca shipping. It is possible that a few British cruisers of the Royal type will be assigned to convoy duty to allay the fears of timid shipowners.

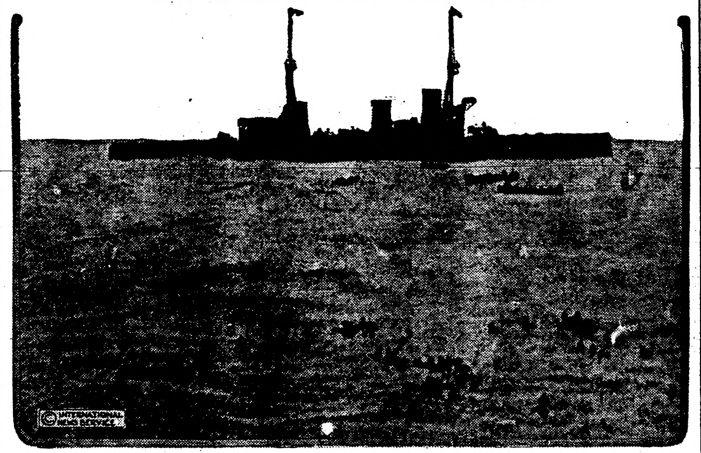
Admiralty shipowners frankly declare the latest German threat a bluff. Neither admiralty officials nor representatives of the big shipping interests would concede for the moment that Germany could carry out its threat to shut off England's food supplies.

Britain turned its eyes toward America. What the United States will say to the German admiralty's announcement that neutral ships may be endangered by German submarines was considered only second in importance to the German proclamation itself.

German Dynamiter in Jail.

Vanceboro, Me., Feb. 6.—Werner Horn, who says he is a German officer, and in that capacity tried to blow up the international railway bridge here, has been removed from here to serve a sentence of thirty days at Machias for the damage the explosion caused on this side of the Canadian border. The case is now ended so far as the state is concerned. The next move, it is expected, will be by the federal authorities, who are concerned with the application of the extradition of the dynamiter to Canada.

FINAL SCENE IN GREAT NAVAL BATTLE



This remarkable photograph, taken from the crow's nest of the British warship Invincible, shows the final scene in the battle between the English and German fleets off the Falkland islands. In the foreground are the survivors of the German flagship, and boats from a British dreadnaught are seen starting out to pick them up.

ATTITUDE OF U. S. AS TO WAR ZONE TEXT UNCERTAIN

PRESIDENT WILSON AND CABINET COME TO NO DECISION AS TO WHETHER THERE WILL BE A PROTEST.

HOISTING OF U. S. FLAG BY BRITISH DISCUSSED

Raising of Stars and Stripes on British Steamer Lusitania, After Charge by Germany That Neutral Flags Had Been Used, May Cause Inquiry.

Washington, Feb. 9.—Although the text of Germany's official memorandum explaining the admiralty's proclamation of a submarine campaign against enemy merchant ships has been delayed in transmission and did not reach the State Department from Ambassador Gerard, publication in the press of the text of the document produced a profound impression on officials and diplomats in the national capital.

As the memorandum revealed that German naval commanders had been given orders "to avoid violence" to neutral ships, it was regarded as much more reassuring than the brief proclamation, though there was some uneasiness over the suggestion in the memorandum that efforts to torpedo enemy merchant ships might unintentionally strike neutral vessels.

Comes to No Decision.

President Wilson and his cabinet have come to no decision as to whether there will be any protest from the United States government, but it is believed that some inquiry might be made to determine what steps are planned to take off passengers and crew from enemy merchant ships as well as neutral vessels, the former because of the great number of American citizens accustomed to travel to Europe on passenger steamers belonging to belligerent powers. The declaration of London provides that all persons aboard an enemy merchant ship must be saved before the vessel is destroyed.

Officials generally were non-committal as to what the position of the United States government might be, but if assurances are given that merchant ships will not be summarily destroyed without giving an opportunity for persons aboard to be saved, it was regarded as certain that the American government, observing strict neutrality, would not protest against the proclamation of the sea zones.

Hoists American Flag.

It was apparent among high officials that the hoisting of the American flag on the British steamer Lusitania immediately after the charge had been made in the German admiralty's proclamation that neutral flags had been ordered used by Great Britain, introduced a phase of the situation which is more likely to call forth diplomatic discussion than the proclamation itself.

Begins Fiftieth Year in Bed.

New York, Feb. 5.—Miss Mollie Fancher, 67 years old, Brooklyn's famous invalid, has begun her fiftieth year in bed and received and answered messages from friends all over the country. In June, 1865, Miss Fanches sustained the injuries that have made her an invalid and an object of interest to physicians. On Feb. 3, 1866, she became helpless and resigned herself to a life in bed. Despite her affliction Miss Fancher has been happy and contented during all these years.

RULERS ARE EYE-WITNESSES

RUSSIAN EMPEROR WATCHES STRUGGLE FOR WARSAW.

Kaiser Joins German Generals in Poland and Visits Trenches—Furious Battle Rages.

London, Feb. 9.—With the German and Russian emperors as eye-witnesses, the armies of Russia and Germany still are contending for the positions which protect the Polish capital of Warsaw from the invaders. The Russian emperor has been at Russian headquarters for several days, and the German report announces that the German emperor has joined his generals and has actually visited some of the troops in their trenches.

Nothing has been disclosed as to the progress of the battle which, when the last reports were received, was raging with unabated fury.

The Russians, according to the official statement, had strengthened their positions on the western bank of the Bzura river, which they had crossed near its mouth, and captured another German vantage point.

They also captured a long line of German trenches near Borjimow, which has been the center of most desperate fighting.

New Battle in East Prussia.

In East Prussia another big battle is developing.

With regard to all this fighting the German official report simply says:

"No essential events have taken place."

The fighting in the west is merely a retpetition of that of the preceding days.

There have been lively artillery duels and a few infantry attacks, in which both sides claim to have gained some ground.

The Italian report of the return of Baron Burian, the Austro-Hungarian foreign minister, from his visit to the German emperor, says that the Austrian cabinet found the results satisfactory, but were not inclined to give Trentino to Italy and part of Transylvania to Roumania as the price of continued neutrality on the part of those countries.

Turkey has at last given Italy satisfaction for the Hodaida incident. The British consul has been released and the Italian flag saluted.

BODY IS FOUND IN THICKET

Death of Alonzo G. Gardner of Baltimore Caused by Shot in Back—Brother Is Missing.

Welaka, Fla., Feb. 8.—The body of Alonzo G. Gardner of Baltimore was found in a dense palmetto thicket along the banks of Raft creek, near Georgetown, Fla. Death had been caused by a shot in the back of the head. Gardner and his brother, Horace, of Springfield, Mass., have been missing for three weeks.

No trace of Horace Gardner has been found, but the authorities believe he, too, is dead. It is thought both men were killed for the purpose of robbery. The pockets of the brother just found had been turned wrong side out. Both are said to have carried considerable money.

Search for the men was begun immediately after a negro pilot returned here alone Jan. 22 with a yacht the brothers had engaged for use on a hunting trip up the Ocklawaha river. The negro soon afterward disappeared and efforts to find him have failed.

To Hear Case of Dynamiter.

Washington, Feb. 6.—State Department officials say that the next step in the case of Werner Horn, who attempted to destroy a railroad bridge at Vanceboro, Me., would have to be taken by Canadian authorities before a United States commissioner in Maine. Until the hearing is completed and all the evidence gathered there no action will be taken on the formal application for extradition made by Sir Cecil Spring-Rice, the British ambassador, on behalf of the Canadian government.

AMERICAN FOOD SAVES BELGIUM FROM STARVING

IF SUPPLY IS DIMINISHED, INHABITANTS WILL DIE, CABLES CONGRESSMAN SCOTT FROM LONDON.

CARDINAL DELIGHTS IN DILEMMA OF GERMANS

Mercier's Eyes Twinkle as He Tells of Communication Asking Him to Deny Statements That He Had Been Deprived of Personal Liberty.

London, Feb. 9.—"The situation remains acute. If the supply of food is diminished Belgium will starve."

This message was cabled by former Congressman Charles F. Scott of Kansas, who is returning from an inspection of relief work in Belgium and France, to former Governor Walter R. Stubbs of Kansas.

While at Malines, Mr. Scott called upon Cardinal Mercier. He was accompanied by Pessain, the printer, who was fined for printing the now famous pastoral letter of the archbishop. Describing his interview with the prelate, Mr. Scott said:

Cardinal's Palace Shelled.

"Cardinal Mercier lives in a fine old palace. The throne room has a big hole in the roof and this, with other holes in the walls, to say nothing of broken windows, tells the story of stray shells which fell around the palace. No German soldiers were seen on guard.

"The Cardinal obviously enjoys the dilemma in which he has placed the Germans. His eyes twinkled as he told the story of his latest adventure. At 6 o'clock one morning, said the archbishop, a German officer and two soldiers brought a communication from the commander asking him to deny statements that he had been deprived of his personal liberty. The denial which had been prepared consisted of four or five typewritten sheets.

"Cardinal Mercier said he requested his callers to return in the evening for an answer, but the officer declared they must await a reply in the cardinal's room. At the archbishop's request, telephonic confirmation of this order was received. Describing his subsequent experience the cardinal said:

Grateful to Americans.

"'It is true no manacles were used to restrain me, but I was to have performed a service in Antwerp and was not permitted to go there. For three days I was restrained in my palace. Two days later I was asked to modify my letters nad wrote another. If the Germans are clever they will publish my first pastoral.'

"The archbishop smiled as he made the final statement. Asked if he had any message for Americans, he said:

"'Nothing except to give the people of your great country assurances of our gratitude. We would have starved had it not been for you. The work of your relief commission has been very efficient.'

Will Not Blockade German Ports.

London, Feb. 6.—Although the Morning Post and other London daily newspapers frequently have urged a blockade of German ports, thus cutting off all cotton and foodstuffs, the British foreign office repeatedly has declared that such a step is not contemplated and announces that its policy is the same as in the past. It is added that the British government has no thought of antagonizing neutral countries whose shipping would be stopped by the closing of the Baltic Sea.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

No Criterion.

James Larkin, the Dublin syndicalist, says in his picturesque and figurative way to a New York reporter:

"Never judge a newspaper by its ads, my boy. Never judge a girl by her looks. Above all, never judge a man by his clothes, for the handsomest uniform will invariably be found farthest from the firing line."

Salzer's White Bonanza Oats.

Made C. J. Johnson of Lincoln Co., Minn., famous in growing 243 bushels from 2½ bushels sown last spring. Can you beat that in 1915? Wont you try?

This great Oat has taken more prizes and given bigger and larger yields throughout the United States than any Oat known. It's enormously prolific. Just the Oat for Iowa, Minn., Wis., Ill., Ind., Mich., Ohio, Neb., Pa., N. Y., Kansas and Missouri.

We are America's headquarters for Alfalfa and Potatoes Timothy, Clovers and Farm Seeds.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds, including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion—furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

Not Agile.

"Why don't you do the modern dances?"

"Oh, I know all the holds, but I can't slip into them quick enough.—Yale Record.

WHEN KIDNEYS ACT BAD TAKE GLASS OF SALTS

Eat Less Meat If Kidneys Hurt or You Have Backache or Bladder Misery—Meat Forms Uric Acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

When a man feels like kicking himself he doesn't want anybody else to help.

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I want to thank you a thousand times for the wonderful good Lydia E. Pinkham's Vegetable Compound has done for me. I suffered very much from a female trouble. I had bearing down pains, was irregular and at times could hardly walk across the room. I was unable to do my housework or attend to my baby I was so weak. Lydia E. Pinkham's Vegetable Compound did me a world of good, and now I am strong and healthy, can do my work and tend my baby. I advise all suffering women to take it and get well as I did."—Mrs. FANNIE COOPER, R.F.D., Bridgeton, N.J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

THOUSANDS FALL; LITTLE PROGRESS MADE IN POLAND

GERMANS FAIL TO MAKE GAP IN RUSSIAN LINES WHICH WOULD OPEN THE WAY TO WARSAW.

RUMANIAN NEUTRALITY VIOLATED, SAYS REPORT

Austrian Invasion in Direction of Important Strategic Position Is Met by Strong Rumanian Force—Austrians Defeated and Driven Back, Says Report.

London, Feb. 9.—Premier Asquith, speaking in the House of Commons, said that British casualties in all ranks in the western arena of the war, from the beginning of hostilities to Feb. 4, amounted to approximately 104,000 men. This includes killed, wounded and missing.

London, Feb. 9.—The German attack in Central Poland thus far has failed to make a gap in the Russian lines, which would open the way to Warsaw and apparently the only result of the battle has been heavy losses on both sides. Petrograd has announced the capture of several German positions, but the general alignment of the opposing armies has not been changed materially. Minor victories there and in northern Poland are reported by the Russian war office.

There is no slacking of activity in the Carpathians, where the Austrians, assisted by German reinforcements, are struggling with the Rusians for mastery of the mountain passes which gave access to northern Hungary. Important successes for the Russians in several engagements are announced officially at Petrograd. It is said that Austrian attacks broke down and that, in addition to inflicting heavy losses on their opponents, the Russians captured 2,500 prisoners.

Rumanians and Austrians Clash.

A private dispatch from Nish, Serbia, describes a battle between Rumanian and Austrian troops which is said to have resulted from an Austrian invasion of Rumanian soil, in the direction of an important strategic position which controls the only Serbian position on the Danube permitting communication with Rumania. According to this dispatch the Austrians were defeated and driven back. There is no confirmation, however, of the Nish report.

The news of the arrival at Liverpool under the American flag of the Cunard line steamer Lusitania is given much space in the English papers. The information was received too late to permit of much editorial comment as yet, but enough has been printed to show that the incident is regarded as one of great importance. It is not generally expected, however, that the British government will take further action unless Washington requests an explanation.

REPORTS ON LUSITANIA CASE

Ambassador Page Reviews Alleged Use of American Flag by British—Developments Awaited.

London, Feb. 9.—Walter Hines Page, the American ambassador in London, has forwarded to the state department at Washington a report on the Lusitania flag incident. The ambassador in his report informally reviews the alleged use of the American flag by the Cunard liner on entering Liverpool harbor Saturday morning, as was related to the members of the embassy staff by Americans who had crossed the Atlantic on the vessel.

It was also expected in official quarters that the British admiralty statement on the incident might come to the state department later in the form of an official communication. While the incident was discussed with interest in official and diplomatic quarters there was no indication of what development it might take.

MEN TO WEAR GAYEST COLORS THIS SPRING.

Chicago, Feb. 9.—Suitings of the gayest colors are to be worn by the American man of fashion for spring and summer, according to styles to be displayed at the annual convention of the National Merchants Tailors Association. Not a garment to be shown at the convention will have any suggestion of the war. Suits made of Japanese silk in natural tans, white and other light and bright colors will be worn much during the summer, it was predicted.

Paris Honors Italian Patriot.

Paris, Feb. 9.—General Rioclotti Garibaldi, son of the Italian patriot, arrived in Paris, accompanied by his wife. They were greeted at the station by their four sons. General Garibaldi, who walked with crutches, was deeply touched by the enthusiastic demonstration by the large crowd that gathered. He thanked them for their sympathy. It is understood that General Garibaldi is to consult with the French authorities regarding the standing of Italian volunteers.

ROCKEFELLER AND CARNEGIE DEFEND THEIR FOUNDATION

TESTIFY BEFORE COMMISSION ON INDUSTRIAL RELATIONS—NEITHER BELIEVES INSTITUTIONS A MENACE.

DESIRE TO PROMOTE THE WELFARE OF MANKIND

Steel Magnate Reveals That Donations Total $324,657,599—and Declares His Business Is to Do All the Good He Can in This World.

New York, Feb. 8.—John D. Rockefeller, Sr., and Andrew Carnegie have testified before the Federal commission on industrial relations. They defended the foundations which they have endowed with their wealth and neither would say he believed the institutions constituted a menace to the religious, political or educational liberty of the people of the United States. A desire to promote the welfare of mankind and that alone, they said, prompted them to establish the foundations which bear their names.

Widely different was the manner in which these two men faced the commission and the audience, composed largely of representatives of labor, Socialists, individualists and members of the Industrial Workers of the World. Mr. Carnegie went to the witness stand from a seat in the audience.

Mr. Carnegie enjoyed that. When he left the stand he said he had not spent such a pleasant afternoon in many years.

Gifts Total $324,657,599.

In his testimony Mr. Carnegie revealed that up to the close of last year his donations totalled $324,657,599. His present business, he said, was to do all the good he could in this world. He sketched the growth of his steel business and said "he never had such a good time in his life" as when he was talking to his employes. The men liked him too. "When they call you 'Andy' instead of Andrew or Mr. Carnegie, you know the boys are your friends," said he.

Mr. Carnegie referred to an article which he published in 1888, in which he expressed the opinion that "the man who dies thus rich, dies disgraced." In this article Mr. Carnegie wrote that the day was not far distant when the man who died leaving behind him millions of available wealth, which were free for him to administer during life, would pass away "unwept, unhonored and unsung," no matter to what use he might leave his fortune.

True Gospel of Wealth.

"Such, in my opinion," Mr. Carnegie said, "is the true gospel concerning wealth, obedience to which is destined some day to solve the problem of the rich and the poor and to bring 'peace on earth, among men good will.'"

Since the Carnegie pension fund was founded by himself and the United States Steel corporation, retired employes of the corporation have received in pensions $1,575,021, Mr. Carnegie testified. Last year the total disbursements from the fund amounted to $511,967. There were 2,521 beneficiaries.

"The hero fund, which I was privileged to found," Mr. Carnegie continued, "has always interested me most deeply, perhaps because the idea came to me through personal experience. I could not rest until I had founded hero funds with a capital of $11,790,000.

Rockefeller Testifies.

Mr. Rockefeller was assisted to the witness stand by members of his personal staff.

Seating himself with much difficulty he started to read his answers but his voice was scarcely audible.

Mr. Rockefeller appeared to have aged considerably since he last gave testimony in public. He spoke very slowly and calmly. He declared that his sole motive was to devote a portion of his fortune to the services of his fellow men. He said he regarded the right to rescind the charters of the foundations as sufficient guarantee against abuse of the funds. He told about his meeting with J. F. Welborn, president of the Colorado Fuel and Iron company, and W. L. Mackenzie King at a time when there was labor trouble in Colorado.

He told how he directed his business enterprises and the part he played in the administration of the foundations. He said he would accord all men the right to organize, workingmen and business men as well, providing they kept within the proper limitations with respect to the law and the safeguarding the general interests of the public.

Mr. Rockefeller said he would be happy to surrender his holdings either in whole or in part and let the workers have a voice in the board of directors just as well as all other stockholders do, thus giving them of the profits of their labor. He would be very happy, he said, to see the workers be his partners in business.

As for the $100,000,000 he had given to the Rockefeller Foundation reverting to himself or his heirs in the event of the legislature rescinding the charter of the foundation, Mr. Rockefeller said he "Had never allowed himself to worry about that."

$13,000,000 FOR STATE EXPENSES ASKED IN HOUSE

BILL CARRYING APPROPRIATIONS OF $6,284,648 FOR INSTTUTIONS INTRODUCED BY L. C. SPOONER.

SPEEDWAY FIGHT IS CARRIED TO SENATE

Lease of State Fair Grounds for This Purpose Is Urged in Bill Introduced—House Is Asked to Investigate Fire Marshal's Office.

St. Paul, Feb. 9.—A number of bills carrying appropriations amounting to more than $13,000,000 to cover fiscal expenses of various state departments were introduced in the house by Representative L. C. Spooner, chairman of the appropriations committee. For the state auditor and state land department $187,260 is provided. Maintenance of the National guard and naval militia and the adjutant general's office calls for an appropriation of $248,580. For improvement of state institutions and new buildings $6,284,648.36 is provided, and $142,200 is stipulated for the attorney general's department. The state historical society asks $46,000 for biennial expenses.

Public schools, libraries and the department of education will need $2,400,900 to cover the fiscal expenses, according to one bill. The executive department of the state government asks $25,400.

For promotion of uniformity of legislation in the United States $1,000 per annum would be set aside to be used under the direction of the state board of commissioners.

Salaries for members of the supreme court and the court attaches and other expenses will be $123,360.

To care for civil war veterans, wives and widows of the Anoka cottages $3,500 yearly would be set aside.

Asks Fire Marshal Probe.

St. Paul, Feb. 9.—Investigation of the affairs and management of the state fire marshal's office by the committee on public accounts and expenditures is asked in a resolution introduced in the house by Representative Rodenberg of St. Paul. Notice of debate was given and the resolution went over. After an investigation the committee, in complianc with the resolution, would submit a report on the advisability of placing the office under the direction of the commissioner of insurance. Charges of extravagance in the office resulted in the proposal for an investigation.

Appoints School Investigators.

St. Paul, Feb. 9.—The committee to investigate the affairs of the State School for the Deaf at Faribault, in compliance with the resolution introduced by Representative L. C. Spooner, was announced by Speaker H. H. Flowers.

The members are Representatives P. H. Konzen, Hallock; W. J. North, Duluth, and A. F. Teigen, Montevideo. It is probable that the services of an interpreter not connected in any way with the school will be obtained that the testimony of inmates will not be colored in any manner.

Approves Rate Increase Probe.

St. Paul, Feb. 9.—The resolution recently introducel by Representative J. G. Gerlich of Mankato authorizing the railroad and warehouse commission to join with the railroad boards of other states in conducting an investigation of the proposed increase in freight and passenger rates in western classification territory, was adopted by the house after considerable debate.

Committee Has Option Bill.

St. Paul, Feb. 9.—The F. H. Peterson county option bill, which passed the senate Thursday and came to the house Saturday, was referred to the house temperance committee, of which Representative James Dwyer of Minneapolis is chairman. It was the general opinion that the bill would not be voted on in the house until the middle of next week.

Hearing on Labor Bills.

St. Paul, Feb. 9.—The labor committee of the house will hold a public hearing on the compulsory arbitration bill, the bill regulating hours of labor of women, and the measure compelling employers to pay the wages of a discharged employe at the time of dismissal.

Speedway Fight Reaches Senate.

St. Paul, Feb. 9.—The fight which has been waged for months between different groups of promoters for the advantage in the financing and construction of a proposed motor speedway between St. Paul and Minneapolis was carried into the State Senate when Senator Frank L. Glotzbach of Faribault introduced a bill authorizing a twenty-year lease of the Minnesota State Fair Grounds for this purpose. Introduction of this measure promises to crystalize and bring into the open the struggle for supremacy.

CANADA ONE OF THE WORLD PROVIDERS

Although Canada's real start in national development as pointed out by the Buffalo Commercial, came slowly and late, as compared with that of the United States, it is now well under way, and very soon there will be a marvelous expansion in agriculture, mining and manufacturing.

The paper above mentioned says that "heretofore the development of Canada, like that of the United States, has been Westward, but unlike this country, the Dominion has a great territory to the North, which has been regarded as all but uninhabitable, but in which recent research has proven there are possibilities of development almost inconceivable." After making complimentary reference to the resources of the country tributary to the Hudson Bay, which will be opened up when the railroad now under construction is completed, the Commercial further says "there are those living today who will see our neighbor on the north a great and powerful nation, and a not insignificant industrial and commercial rival of the United States. The war may retard, but it cannot destroy, Canada's future. And in this expansion no one will more heartily rejoice than the people of the United States, because the prosperity of the Dominion is bound to increase our own."

Herein is the spirit that dominates the Dominion Government when it extends an invitation to Americans to assist in developing the resources that Canada possesses, whether they be mineral, forest, industrial, commercial or agriculture. Both countries will benefit and the United States will be a gainer by having as a neighbor a country whose resources are as great and varied as are those of Canada.

In comparing the United States along with other nations of the world in producing and importing foodstuffs, the Agricultural Outlook published by the United States department of agriculture says:

The United States in recent years has been as large an imperter of foodstuffs as exporter; therefore she cannot be classed as a surplus producer of foodstuffs. This is contrary to popular impression. It is true that she is an exporter of certain articles, but she is an equally large importer of other articles. In this classification tea and coffee are included with foodstuffs. In edible grains the production is 23 per cent more than the amount retained; the production of meats is six per cent more—that is, exports of meat equal six per cent of that retained in the United States for consumption; the production of dairy products is 20 per cent more than consumed; the production of poultry is just about equal to consumption; of vegetables, one per cent less.

An investigation into the production, imports and exports of food products of various countries indicates that England produces about 53 per cent of her food requirements, and imports (net) about 47 per cent; Belgium produces 57 per cent, and imports 43 per cent; Germany produces 88 per cent, and imports 12 per cent; France produces 92 per cent, and imports eight per cent; Austria-Hungary produces 98 per cent, and imports two per cent; Russia produces 110 per cent of her requirements, and exports an equivalent of about 10 per cent; Canada produces 23 per cent more than she consumes; Argentina produces 48 per cent more than she consumes; the United States produces practically no more than she consumes (i. e., exports and imports of foodstuffs almost balance).

With this information before the reader, it is not a difficult matter to direct attention to the fact that Canada stands in a pre-eminent position in the matter of grain and cattle production, and with a large territory yet unoccupied she will always maintain it.—Advertisement.

From the Battlefield

During the recent fighting along the banks of the Aisne a man was badly wounded. The ambulance corps tenderly placed him on a stretcher.

"Take him to the hospital," said the man in charge.

"Slowly the wounded man opened his eyes and whispered faintly.

SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Adv.

THE RURAL PRESS

The Local Paper a Most Useful Agency on the Farm—The Press, Pulpit and School a Trinity of Influence That Must Be Utilized in Building Agriculture.

By Peter Radford
Lecturer National Farmers' Union

A broad campaign of publicity on the subject of rural life is needed in this state today to bring the problems of the farmers to the forefront. The city problems are blazoned upon the front pages of the metropolitan dailies and echoed in the country press, but the troubles of the farmers are seldom told, except by those who seek to profit by the story, and the glitter of the package oftentimes obscures the substance. A searching investigation into the needs of the farmers will reveal many inherent defects in our economic system that can be easily remedied when properly understood and illuminated by the power of the press.

The rural press, the pulpit and the school are a trinity of powerful influences that the farmer must utilize to their fullest capacity before he can occupy a commanding position in public affairs. These gigantic agencies are organized in every rural community and only await the patronage and cooperation of the farmers to fully develop their energy and usefulness. They are local forces working for the best interests of their respective communities. Their work is to build communities. Their work is to build and their object is to serve. They prosper only through the development and prosperity of the community.

Every farmer in this state should subscribe for the local paper, as well as farm periodicals and such other publications as he may find profitable, but he should by all means subscribe for his local paper, and no home should be without it. The local paper is part of the community life and the editor understands the farmer's problems. It is the local press that will study the local problems and through its columns deal with subjects of most vital importance to local life of the community.

A Noble Task.

In too many instances the country papers mimic the city press by giving prominence to scandals, accidents and political agitation. The new rural civilization has placed upon the rural press renewed responsibilities, and enlarged possibilities for usefulness. It cannot perform its mission to agriculture by recording the frailties, the mishaps and inordinate ambitions of humanity, or by filling its columns with the echoes of the struggles of busy streets, or by enchanting stories of city life which lure our children from the farm.

It has a higher and nobler task. Too often the pages of the city dailies bristle with the struggle of ambitious men in their wild lust for power, and many times the flames of personal conflict sear the tender buds of new civilization and illuminate the pathway to destruction. The rural press is the governing power of public sentiment and must hold steadfast to principle and keep the ship of state in the roadstead of progress. The rural press can best serve the interests of the farmers by applying its energies to the solution of problems affecting the local community. It must stem the mighty life current that is moving from the farm to the cities, sweeping before it a thousand boys and girls per day. It has to deal with the fundamental problems of civilization at their fountain head. Its mission is to direct growth, teach efficiency and mold the intellectual life of the country, placing before the public the daily problems of the farmers and giving first attention to the legislative, co-operative, educational and social needs of the agricultural classes within its respective community.

The Power of Advertising.

The influence of advertising is clearly visible in the homes and habits of the farmers, and the advertising columns of the press are making their imprint upon the lives of our people. The farmer possesses the things that are best advertised.

The farmer is entitled to all the advantages and deserves all the luxuries of life. We need more art, science and useful facilities on the farms, and many homes and farms are well balanced in this respect, but the advertiser can render a service by teaching the advantages of modern equipment throughout the columns of the rural press.

The farmers are in need of personal leadership. They have political leaders, but they need local industrial community and educational leaders.

THE COUNTY FAIR

By Peter Radford
Lecturer National Farmers' Union

The farmer gets more out of the fair than anyone else. The fair to a city man is an entertainment; to a farmer it is education. Let us take a stroll through the fair grounds and linger a moment at a few of the points of greatest interest. We will first visit the mechanical department and hold communion with the world's greatest thinkers.

You are now attending a congress of the mental giants in mechanical science of all ages. They are addressing you in tongues of iron and steel and in language mute and powerful tell an eloquent story of the world's progress. The inventive geniuses are the most valuable farm hands we have and they perform an enduring service to mankind. We can all help others for a brief period while we live, but it takes a master mind to tower into the realm of science and light a torch of progress that will illuminate the pathway of civilization for future generations. The men who gave us the sickle, the binder, the cotton gin and hundreds of other valuable inventions work in every field on earth and will continue their labors as long as time. Their bright intellects have conquered death and they will live and serve mankind on and on forever, without money and without price. They have shown us how grand and noble it is to work for others; they have also taught us lessons in economy and efficiency, how to make one hour do the work of two or more; have lengthened our lives, multiplied our opportunities and taken toil off the back of humanity.

They are the most practical men the world ever produced. Their inventions have stood the acid test of utility and efficiency. Like all useful men, they do not seek publicity, yet millions of machines sing their praises from every harvest field on earth and as many plows turn the soil in mute applause of their marvelous achievements.

FARMER RADFORD ON WOMAN SUFFRAGE

The home is the greatest contribution of women to the world, and the hearthstone is her throne. Our social structure is built around her, and social righteousness is in her charge. Her beautiful life lights the skies of hope and her refinement is the charm of twentieth century civilization. Her graces and her power are the cumulative products of generations of queenly conquest, and her crown of exalted womanhood is jeweled with the wisdom of saintly mothers. She has been a great factor in the glory of our country, and her noble achievements should not be marred or her hallowed influence blighted by the coarser duties of citizenship. American chivalry should never permit her to bear the burdens of defending and maintaining government, but should preserve her unsullied from the allied influences of politics, and protect her from the weighty responsibilities of the sordid affairs of life that will crush her ideals and lower her standards. The motherhood of the farm is our inspiration; she is the guardian of our domestic welfare and a guide to a higher life, but directing the affairs of government is not within woman's sphere, and political gossip would cause her to neglect the home, forget to mend our clothes and burn the biscuits.

RURAL SOCIAL CENTERS

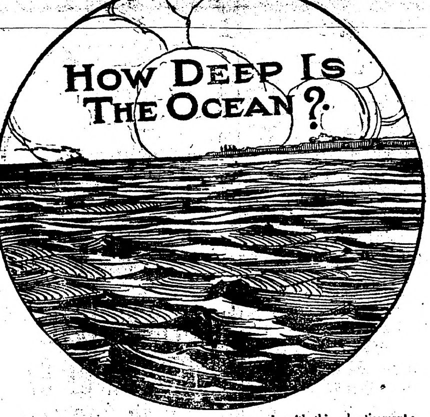
We need social centers where our young people can be entertained, amused and instructed under the direction of cultured, clean and competent leadership, where aesthetic surroundings stir the love for the beautiful, where art charges the atmosphere with inspiration and power, and innocent amusements instruct and brighten their lives.

To hold our young people on the farm we must make farm life more attractive as well as the business of farming more remunerative. The school house should be the social unit, properly equipped for nourishing and building character, so that the lives of our people can properly function around it and become supplied with the necessary elements of human thought and activity.

Education is a developing of the mind, not a stuffing of the memory. Digest what you read.

Old men have visions, young men have dreams. Successful farmers plow deep while sluggards sleep.

The growing of legumes will retard soil depletion and greatly add to its power to produce.



HOW DEEP IS THE OCEAN?

You wonder what the above question has to do with this advertisement:

JUST THIS—Thousands of simple but very interesting questions like this arise continually, to say nothing of the more serious kind as, for instance, questions about crop productions, national reform legislation, athletic records, the year's important news events and many other vital subjects; and—perhaps not one in every hundred persons you know can answer a single question accurately.

St. Paul Dispatch and Pioneer Press

YEAR-BOOK and ALMANAC

Is a 608-page book, beautifully bound in purple cloth, and contains information on thousands of subjects of present-day interest. It is almost impossible to conceive of a reasonable question which cannot be found answered in the Dispatch and Pioneer Press Year-Book. Special attention is given to facts relating to the European war and the causes leading up to it. Ninety-six pages are devoted exclusively to the Northwest. It is a volume that every man and woman, and all school children old enough to comprehend matters of common interest, will find wonderfully convenient throughout the year.

Chris Yttri returned home from Wis. last week Friday.

Found: A bracelet. Prove property and pay for this notice.

Mr. and Mrs. Kelgren returned home Monday from Canada.

Mrs. Anna Larson went to Elm Lake Monday to visit relatives.

For Trade: Five passenger auto, will trade for good horses. Enquire at this office.

A. H. Huseth returned Monday from a couple of weeks visit with relatives in Wisconsin.

Don't forget that good coffee you used to drink at Huseth's. We are serving the same kind now. Try a cup. A. H. Huseth.

Miss Mabel Knutson returned Wednesday from Crookston where in company with one of her pupils, she attended the spelling contest.

The Misses Cora Hanson and Dagny Bakke visited at the A. C. Kvennes home in Middle River Saturday and Sunday and attended the dance Saturday evening.

The Holt Telephone Co. met on Monday and elected Lewis Wegge, President; A. L. Carlson, Sec'y; and B. Docken, Treas. They voted to charge 10c for each call for a month instead of making an assessment.

J. B. Alkenbrack has sold an acre of land, between his residence and John Johnson's to Mrs. Harriet E. Thornton of Marietta, Ohio, and she will build a residence thereon early in the spring. Consideration $50.00.

The school board served three days notice on C. M. Wilson Monday to quit the school house job on account of his failure to put in a new foundation, as party agreed on sometime previously. They also notified the bond company by registered mail Tuesday of their action. It is possible, the bond company may complete the school house in order to protect themselves.

The Sunnyside.

The Sunnyside was snow ed in so deeply last week that it has scarcely emerged to the surface yet.

Miss Lydia Bjerk went to St. Hilaire Friday to visit her cousin Miss Minnie Johnson.

Herman Ohm of T. R. Falls visited over Sunday at L. Wegge's.

Yes "Merrymakers" the "Jolly Bunch" are still teasing each other and according to present indications will continue to do so for some time.

Miss Selma Wegge returned from Strathcona Thursday.

Frank Horn of T. R. Falls spent the week end at Ed. Horien's.

The Sunnyside earnestly hopes that the Ringbo correspondent will not fail to sign his name next time.

Miss Marie Erickson went to T. R. Falls Thurday returning Saturday.

An issue of greatest importance to Sunnyside and Ringbo than the war: Who is Stina Brita?

A horse, several calves, and lot of farm machinery and a couple of cook stoves will be sold at public auction by T. A. Tobiason March 1st

Mr. and Mrs. Docken and the two teachers attended the play in T. R. Falls Friday evening by the Antlers club entitled the Court of King Cole, a musical comedy.

Ed. Bjerk visited relatives in St. Hilaire Friday.

The ladies club were entertained Monday evening by Mesdames J. B. John Alkenbrack.

Miss Amanda Mickelson came home from Crookston Friday and visited until Tuesday.

Come to the prayer meeting at 3 o'clock next Sunday afternoon. Speaking and singing in both languages.

Last Friday was the birthday of the savior of our nation and Monday is the birthday of the father of our country. These men were true patriots such as we need in this day and age.

Notice To Dragging Contractors.

Bids will be received by the Co. Board of Marshall County, at 2 P. M., March 16, 1915 for dragging State Road No. 7 during 1915, from the Pennington Co. line to the SW corner of section 9, Holt Twp, a distance of 11 1-2 miles.

Specifications for above work on file in the County Auditor's office.

By order of the Board.
A. G. Lundgren
(Seal) County Auditor.
3-5

Fire! Fire! Extinguishers!

We have taken the agency for the eastern half of Marshall Co., for

Richmond Chemical Fire Extinguishers!

We can sell you cheap, any size Fire Extinguisher, and as many as you wish. They never fail and are always ready. Cheaper than a fire insurance policy.

Jacob Nelson, Holt, Minn.

Free Mission Church.

Sunday School at 1 o'clock in the afternoon.

Mrs. T. T. Sollom will entertain the Free Mission Ladies' Aid, at the hotel, Thursday Feb. 25.

Prayer meeting at 3 o' clock in the afternoon. Speaking and singing in both languages. Everybody invited.

For Rent

The S1-2 W1-2 SE1-4 Sec. 25 156 44 and Lot 1 Sec. 30-156-43, 1-2 mile north and about 2 miles west of Holt. Will rent for one year. Good buildings. Holt State Bank.

East Valley News

Miss Inga Johnson returned to her home last Saturday after several months spent in Holt.

Nels Larson and sisters Anna and Mabel visited at A. C. Jarh's Sunday.

Rev. M. B. Ordahl will preach at the Rosand school house next Sunday at 11 A. M. and at the East Valley school house 3 P. M.

A valentine box was had at the school house Monday and was very much enjoyed by all the pupils. Norman Rodahl presided as Post Master.

The storm last Sunday left the roads in a bad condition.

There was no school on Wednesday so as to let the teacher and pupils attend the Ladies Aid annual sale at Rodahl's.

Mrs. Reisberg and Mrs. Adolph Sollom gave a miscellaneous shower Tuesday evening Feb. 16 —15 at the home of Mrs. P. A. Reisberg, in honor of Miss Bella Sollom who is to become a bride in the near future. The color scheme was carried out in red and white and the pretty red hearts which was in evidence, indicated that Cupid had conspired and won out. The evening was pleasantly spent in various games and contests which all enjoyed. Mrs. Huseth and Miss Edna Reisberg favored the ladies with music which was beautifully rendered and appreciated by all. Several poems of well known authors were read by different ones, and Miss Lyda Reisberge also read the singer's climax which every one enjoyed. A delicious luncheon was served, the guests departing to their homes at a late hour, after spending a most delightful evening.

A Simple Test

James J. Hill has said— If you want to know whether you are destined to be a success or a failure in life, you can easily find out. The test is simple and it is infallible:

Are You able to Save Money?

If not, drop out. You will lose. You may think not but you will lose as sure as sure as you live. The seed of success is not in you.

HUNDREDS OF PERSONS are on the road to success through the aid of a savings account with this bank.

Alfalfa PUREST ON EARTH

More than 30 years ago Salzer's Catalog boomed Alfalfa, years before other seedsmen thought of its value. Today Salzer excels! His Alfalfa strains include Grimm, (Montana Liscom, Agr. College inspected). Salzer's Dakota Registered No. 30—all hardy as oak.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds, including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, Alfalfa, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion—furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

Limits in Literature.

"You've read 'The Heavenly Twins?'" asked an Englishman of an Irishman.

"Yes, I have."

"And the 'Sorrows of Satan?'"

"Yes."

"And you have read 'Looking Backward?'"

"How the divil could I do that?" asked Pat.

SAGE TEA AND SULPHUR DARKENS YOUR GRAY HAIR

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Adv.

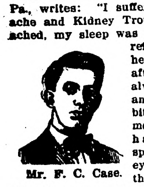
An Old Contention.

"How did she happen to decide that he was her soul mate?"

"He was demonstrating a new dance at her house and broke a costly vase."

"I don't see how she figured that out."

"Neither do I, but there is a great deal in the philosophy of women that can't be figured out."



A GRATEFUL ACKNOWLEDGMENT.

Mr. F. C. Case of Welcome Lake, Pa., writes: "I suffered with Backache and Kidney Trouble. My head ached, my sleep was broken and unrefreshing. I felt heavy and sleepy after meals, was always nervous and tired, had a bitter taste in my mouth, was dizzy, had floating specks before my eyes, was always thirsty, had a dragging sensation across my loins, difficulty in collecting my thoughts and was troubled with shortness of breath. Dodds Kidney Pills have cured me of these complaints. Dodds Kidney Pills have done their work and done it well. You are at liberty to publish this letter for the benefit of any sufferer who doubts the merit of Dodds Kidney Pills."

Mr. F. C. Case.

Dodds Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Write for Household Hints, Dainty Recipes; also music of National Anthem. All 3 sent free. Adv.

No Doubt About It

"Does Wombat own or rent his house?"

"Rents it."

"How do you know?"

"I know all right. He scratches the matches on the paint."

IS EPILEPSY CONQUERED?

New Jersey Physician Said to Have Many Cures to His Credit.

Red Bank, N. J. (Special).—Advices from every direction fully confirm previous reports that the remarkable treatment for epilepsy being administered by the consulting physician of the Kline Laboratories, of this city, is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

Persons suffering from epilepsy should write at once to Kline Laboratories, Branch 48, Red Bank, N. J., for a supply of the remedy, which is being distributed gratuitously.—Adv.

TWO BIG BATTLES RAGE AT EXTREMES OF RUSSIAN LINE

CZAR'S FORCES WITHDRAW BOTH IN EAST PRUSSIA AND IN BUKOWINA BEFORE THE AUSTRO-GERMANS.

RHEIMS AGAIN SUFFERS FROM HEAVY BOMBARDMENT

St. Mihiel on the Meuse, Which Germans Have Held Many Weeks, Comes Under Fire of French Guns—No Fighting Reported in Egypt.

London, Feb. 16.—Two big battles it is believed already have begun or soon will begin on the Russian side of the East Prussian frontier and on the River Sereth in Bukowina. The Russian forces have withdrawn both in East Prussia and in Bukowina in the face of superior German and Austrian armies, so that they might concentrate and come into closer touch with their lines of communication.

The official reports make only the briefest references to the operations at these two extremes of the eastern front, but what they do say indicates that the Russians already have reached the lines on which Grand Duke Nicholas has decided to give battle.

Germans Claim Victory.

The rest of the campaign in the east, even the fighting in the Carpathians, which is proceeding under the worst weather conditions, is overshadowed by these greater events, on the result of which both sides are staking so much.

The Germans claim to have won a big victory over the Russians in East Prussia, and the Austrians announce the Russian retirement in Bukowina with elation, but apparently Petrograd views these incidents without misgiving.

In the west there has been a continuation of heavy artillery bombardments in which Rheims has again suffered, and several infantry attacks on different parts of the line, in which both sides claim to have been successful.

From unofficial sources comes the news that St. Mihiel on the Meuse, which the Germans have held so long, has come under fire of French guns, which shows that the French either have made an advance in this region or have brought up heavier guns in an effort to dislodge the Germans.

In Egypt, the Caucasus and in Mesopotamia, there has been no fighting or only engagements which the belligerents do not consider worthy of mention in the official dispatches.

AIR RAID FEARED IN OTTAWA

Three Aeroplanes Reported Flying Toward City—Lights Turned Out —Excitement Prevails.

Ottawa, Ont., Feb. 16.—Premier Sir Robert Borden received a telegram from Brockville stating that three aeroplanes were seen flying over that place, headed in the direction of Ottawa.

Brockville is about sixty miles due south of Ottawa. The message caused considerable excitement here.

The Brockville message came from the chief of police of that town and stated that three or four aeroplanes had been observed to cross the St. Lawrence river from a point in New York state near Morristown.

The authorities had the street lights of Ottawa turned out and at the same time the lights on the parliament buildings were obscured by the drawing of window blinds.

Lights at Rideau hall, the residence of the governor general, were also turned out. The Duke of Connaught, the governor general of Canada, is on an official trip to Winnipeg to inspect the garrison troops, but the Duchess and the Princess Patricia are at home.

For the first night in its history the royal mint was also in darkness.

FIRST BAYONET CHARGE ON SKIS.

Geneva, via Paris, Feb. 16.—What is said to be the first bayonet charge on skis during the present war was made in the Vosges mountains near Col du Bonhomme. Forty Alpine chasseurs with two officers were cut off by the Germans and were ordered to surrender. They refused and charged down the snow covered slope on their skis into the German trenches where a terrible struggle took place before the French soldiers were overcome.

Snow Storm Grips North Dakota.

Grand Forks, N. D., Feb. 16.—North Dakota is in the grasp of the most severe snow storm of the winter, snow having fallen for the last 12 hours steadily, driven by a fierce northwest wind, has almost completely blockaded country roads, delayed trains for hours and in many localities completely isolated towns from the outside world by damage to telephone and telegraph wires. The storm caught many unprepared and in some localities there is a great shortage of fuel.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

When the Laws Met.

The Laws sat about the long green table. All the fundamentals were there save one. Even the decrepit Salic Law was present, dozing between the Mosaic Laws and the Law of Primogeniture.

The chairman, the Law of the Land, called the meeting to order.

"Are we all present?" he asked.

It was the Blue Laws who responded.

"I don't see nothin' of the Law of Nations," he squeaked.

"The Law of Nations has been abolished," the chairman sharply replied. "The business of the convention will now proceed."

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

The Only One.

"There goes Rev. Dr. Fourthly, one of our most prominent ministers. He stands on a pinnacle alone."

"Because of his great sanctity?"

"No. He's the only minister in town who hasn't preached an antitango sermon."

TONE OF U. S. NOTE IS UNWARRANTED DECLARES BERLIN

PROTEST AGAINST SUBMARINE BLOCKADE OF BRITISH ISLES GREATLY COMPLICATES INTERNATIONAL SITUATION.

TEUTONS CANNOT CHANGE POSITIONS, SAYS OFFICIALS

Kaiser Wilhelm and Advisors Agree That It Is Vital That England's Commerce Must Be Checked—Scandinavian Nations Also Object to Proclamation.

PLAN NEW DASH FOR WARSAW

London, Feb. 15.—Emperor William received Field Marshal von Hindenburg on the Eastern battle front and it was decided to make a renewed dash for Warsaw this week, according to a dispatch from Amsterdam to the Exchange Telegraph company.

Washington, Feb. 15.—Following America's lead, it has been learned that Norway, Sweden and Denmark have protested to Germany against its war zone decree. Though less vigorous than the Washington note, the Scandinavian communications were said to stand firmly behind the principle enunciated by the former. It was understood Holland and, perhaps, Italy would protest also.

Berlin, Feb. 15.—(Via wireless.)—It is acknowledged that the German foreign office considers the American note protesting against the proposed submarine blockade has greatly complicated the international situation. The imperial chancellor has gone over the outlines of the note with the foreign secretary. The position already assumed is that the American demand has greatly embarrassed the imperial government and that it will have to be made the subject of a cabinet council.

No reply will be made at present. It is understood that the text of the message has been communicated to the kaiser, who is at the eastern front, and that the chancellor will leave at once to confer with him.

Germany Cannot Change.

Although recognizing the possibilities presented by this latest message sent by the United States, it is insisted in the highest official circles that Germany cannot change her position. It is vital, the emperor and his advisers have agreed, that Great Britain's commerce must be checked and the blockade will be enforced commencing Thursday.

Berlin newspapers, acting, it is believed, under direct orders from the foreign office, have begun a campaign against the "superpatriots" who have been responsible for several demonstrations recently against foreigners, especially Americans. The Lokal Anzeiger prints an editorial which it says is semi-official, severely criticizing all responsibility for the recent demonstration at a theater while the American ambassador, James W. Gerard, was present.

It declares that the "insult was unwarranted," calls attention to the fact that Americans are protecting Germans and German interests in all of the hostile countries and declares that Americans must be given "the utmost courtesy and hospitality."

The newspapers all declare that the acts complained of have been the work of a "few misguided individuals" and are not in any way typical of Germany.

The few officials who have knowledge of the text of the note frankly declare that they believe its tone is not warranted by the circumstances. Officials generally insist that inasmuch as England is "plainly trying its best to starve out Germany, including its civilian and non-combatant population," an act of retaliation will be justified. It is declared that recent assurances given to all neutrals that Germany will "protect all neutral shipping to the utmost of her power" is, in itself, an answer to the demands of the United States.

Fund for Jewish War Sufferers.

New York, Feb. 15.—An appropriation of $200,000 for the relief of Jewish war sufferers has been made by the American Jewish relief committee for sufferers from the war, according to an announcement just made public. The amount will be divided equally between Russian and German Poland.

Wheat Drops Ten Cents.

Minneapolis, Feb. 15.—Wheat made a precipitate drop of nearly 10 cents on the local market. When it reached the low point, $1.41½, which was 9⅝ cents below the close of the previous day's market, it rallied to $1.45⅝ at the close.

Claim Shells Made in U. S.

Berlin, Feb. 15.—For the first time the claim that American manufactured ammunition is being used by the allies, is made in an official statement. The report declares: "On our west front artillery shells were found which doubtless were manufactured in the United States. All the attacks of the enemy on our front have been repelled, and in the fighting east of Souan our prisoners were increased by 44 officers and 468 men. In addition 200 dead were found."

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Very Much So.

"Didn't you think the operatic prima donna had an unusually high voice?"

"I should say she had! My seat cost me five dollars."

SKIN DISEASES QUICKLY YIELD TO THIS TREATMENT

If you have eczema, ringworm or other itching, burning, unsightly skin-eruption, try resinol ointment and resinol soap and see how quickly the itching stops and the trouble disappears, even in a severe, stubborn case. Resinol ointment is also an excellent household remedy for pimples, dandruff, sores, burns, wounds, chafings, and for a score of other uses where a soothing, healing application is needed. Every druggist sells resinol ointment and resinol soap. Adv.

A "Flying" Malady.

The doctors are puzzled concerning a strange malady that has broken out at more than one aeroplane works, and has in one case ended fatally. The malady in some respects resembles yellow jaundice, and it is, rightly or wrongly, attributed to contact with an aeroplane "dope," or to inhaling its odor.

Further particulars need not at the moment be indicated, but it has been suggested that the source of the trouble may be amyl acetate, which is used as a "dope" solvent. Some mystery attaches to the affair, the precise nature of the malady not having yet been determined, in spite of close examination and analysis; and, of course, until success is attained in this direction no satisfactory precautions or remedy can be devised.

At Last It's Reached.

Father Vaughan tells a good story of a certain minister who was preaching on "Perfection." "Did you ever know anyone to be perfect?" he asked. "Did you ever read of any man or woman who was quite perfect?"

As he paused and looked around among his audience, a pale-faced woman rose up and said: "Yes, from all accounts, my husband's first wife was perfect."

Sure Enough.

Bacon—It is stated that it takes an average of 5,867 bullets to kill a single man in the present war.

Egbert—Why, where in the world are the innocent bystanders?

KNOW NOW

And Will Never Forget the Experience

The coffee drinker who has suffered and then been completely relieved by changing from coffee to Postum knows something valuable. There's no doubt about it.

"I learned the truth about coffee in a peculiar way," says a California woman. "My husband who has, for years, been of a bilious temperament decided to leave off coffee and give Postum a trial, and as I did not want the trouble of making two beverages for meals I concluded to try Postum, too. The results have been that while my husband has been greatly benefited, I have myself received even greater benefit.

"When I began to drink Postum I was thin in flesh and very nervous. Now I actually weigh 16 pounds more than I did at that time and I am stronger physically and in my nerves, while husband is free from all his ails.

"We have learned our little lesson about coffee and we know something about Postum, too, for we have used Postum now steadily for the last three years and we shall continue to do so.

"We have no more use for coffee—the drug drink. We prefer Postum and health."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms.

Regular Postum—must be well boiled 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.

—sold by Grocers

WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women

for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

CARTER'S LITTLE LIVER PILLS.

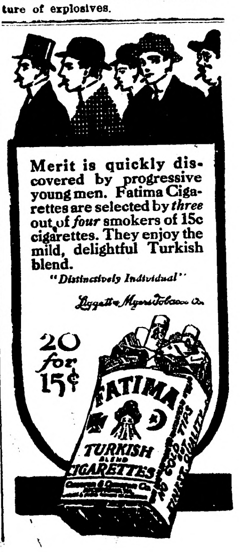
Find Live Duck in Fish.

A strange specimen of the angel fish was caught by Captain Palmer at Sound Beach, who removed from it two ducks. The wicked fish had stolen the ducks from J. Kennedy Tod's Innis Arden estate. One was alive.

The fish was struggling in the water when seen by Captain Palmer, and was landed with a pair of ice tongs.

The fish is a yard long, and its mouth is 6 by 8 inches. It was frozen in a cake of ice at the Maher ice plant and is exhibited in the window of a market here.—Greenwich (Conn.) Dispatch to New York World.

Last year in the United States 133 men lost their lives in the manufacture of explosives.



Merit is quickly discovered by progressive young men. Fatima Cigarettes are selected by *three* out of *four* smokers of 15c cigarettes. They enjoy the mild, delightful Turkish blend.

Head Catarrh Cured by Peruna. Tried Other Remedies Which Failed.

Having for years been afflicted with Catarrh of the Head I was finally induced to try Peruna. It effected a cure. I think Peruna the best tonic ever put on sale.

ONE ON SECRETARY DANIELS

Head of the Navy Evidently Not an Expert as to the Odor of Alcoholic Liquors.

A story is going the rounds in Washington about Secretary of the Navy Daniels which may or may not reflect credit on that official, according to the point of view. According to this story the secretary was one morning conferring with an officer and in the middle of his conference interrupted the proceedings to say: "This is the second morning that I have smelled whisky on your breath, sir!"

To which the officer is said to have replied: "I beg your pardon, Mr. Secretary, it was whisky yesterday, but it is gin this morning."

No name has been allowed to leak out in connection with this story, and it may be that there is more fiction than fact in it.—Boston Transcript.

Doesn't Go Very Far.

Redd—What do you think of his new car?

Greene—Oh, it's all right as far as it goes.

A Draft—You Catch Cold—Then Follows

Coughs, Cold Stiff Neck Neuralgia

Especially in the piercing pain of neuralgia or the dull throb of headache is Sloan's Liniment wonderfully relieving. Laid lightly on the part where the pain is felt, it gives at once a feeling of comfort and ease that is most welcome to the overwrought sufferer.

Hear What Others Say:

"There are no Liniments that equal Sloan's. My husband has [illegible] on his face and that is the last of it."—*Mrs. V. J. B[illegible], Route 1, Box 121, Halls, Tenn.*

"I have used Sloan's Liniment for family use for years and would not be without it. We have raised a family of ten children and have used it for croup and all lung trouble; also, as an antiseptic for wounds, of which children have a great many, it can't be beat. My wife sprained her ankle last summer and it was in bad shape. Sloan's Liniment applied enabled her to be as good as ever in a week. I have used it several times for sprains and rheumatism."—*John Newcomb, R. R. No. 2, Keokuk, Iowa.*

SLOAN'S LINIMENT

... works like magic, relieving Lumbago, Rheumatism, Sprains and Bruises. No rubbing—just lay it on. Price 25c. All dealers. Send four cents in stamps for TRIAL BOTTLE. Sent to any address in the U. S.

$13,000,000 FOR STATE EXPENSES ASKED IN HOUSE

BILL CARRYING APPROPRIATIONS OF $6,284,648 FOR INSTITUTIONS INTRODUCED BY L. C. SPOONER.

SPEEDWAY FIGHT IS CARRIED TO SENATE

Lease of State Fair Grounds for This Purpose Is Urged in Bill Introduced—House Is Asked to Investigate Fire Marshal's Office.

St. Paul, Feb. 10.—A number of bills carrying appropriations amounting to more than $13,000,000 to cover fiscal expenses of various state departments were introduced in the house by Representative L. C. Spooner, chairman of the appropriations committee. For the state auditor and state land department $187,260 is provided. Maintenance of the National guard and naval militia and the adjutant general's office calls for an appropriation of $243,580. For improvement of state institutions and new buildings $6,284,648.36 is provided, and $142,200 is stipulated for the attorney general's department. The state historical society asks $46,000 for biennial expenses.

Public schools, libraries and the department of education will need $2,400,900 to cover the fiscal expenses, according to one bill. The executive department of the state government asks $25,400.

For promotion of uniformity of legislation in the United States $1,000 per annum would be set aside to be used under the direction of the state board of commissioners.

Salaries for members of the supreme court and the court attaches and other expenses will be $123,360.

To care for civil war veterans, wives and widows of the Anoka cottages $3,500 yearly would be set aside.

Asks Fire Marshal Probe.

St. Paul, Feb. 10.—Investigation of the affairs and management of the state fire marshal's office by the committee on public accounts and expenditures is asked in a resolution introduced in the house by Representative Rodenberg of St. Paul. Notice of debate was given and the resolution went over. After an investigation the committee, in compliance with the resolution, would submit a report on the advisability of placing the office under the direction of the commissioner of insurance. Charges of extravagance in the office resulted in the proposal for an investigation.

Appoints School Investigators.

St. Paul, Feb. 10.—The committee to investigate the affairs of the State School for the Deaf at Faribault, in compliance with the resolution introduced by Representative L. C. Spooner, was announced by Speaker H. H. Flowers.

The members are Representatives P. H. Konzen, Hallock; W. J. North, Duluth, and A. F. Teigen, Montevideo. It is probable that the services of an interpreter not connected in any way with the school will be obtained that the testimony of inmates will not be colored in any manner.

Approves Rate Increase Probe.

St. Paul, Feb. 10.—The resolution recently introduced by Representative J. G. Gerlich of Mankato authorizing the railroad and warehouse commission to join with the railroad boards of other states in conducting an investigation of the proposed increase in freight and passenger rates in western classification territory was adopted by the house after considerable debate.

Committee Has Option Bill.

St. Paul, Feb. 10.—The F. H. [illegible] county option bill, which passed the senate Thursday and came to the house Saturday, was referred to the house temperance committee, of which Representative James Dwyer of Minneapolis is chairman. It was the general opinion that the bill would not be voted on in the house until the middle of next week.

Hearing on Labor Bills.

St. Paul, Feb. 10.—The labor committee of the house will hold a public hearing on the compulsory arbitration bill, the bill regulating hours of labor of women, and the measure compelling employers to pay the wages of a discharged employe at the time of dismissal.

Speedway Fight [illegible]

St. Paul, Feb. 10.—The fight which has been waged for months between different groups of promoters for the advantage in the financing and construction of a proposed motor speedway between St. Paul and Minneapolis was carried into the State Senate when Senator Frank E. Glotzbach of Faribault introduced a bill authorizing a twenty year lease of the Minnesota State Fair Grounds for this purpose. Introduction of this measure promises to crystallize and bring into the open the struggle for supremacy.

COUNTY OPTION BILL PASSED

Is Carried in Senate by Vote of 36 to 31—Consequences of Passage Declared to Be Far Reaching.

St. Paul, Feb. 6.—For the first time in history county option has passed one house of the Minnesota legislature. After an afternoon of oratory, mutually conceded to be wasted, the vote was 36 to 31. The house has not acted on the bill yet.

The consequences of the passage of the measure by the senate were declared to be far-reaching. Extraordinary as it may seem the passage of the county option bill likely will result in dividing St. Louis county into two counties, and, equally as extraordinary, is also likely to result in passage of a tonnage tax bill.

St. Louis Senators Decide Issue.

Two St. Louis county senators, Adams of Duluth and Griggs of Virginia, put the result of the vote on county option beyond doubt before the senate went into session at 2:30 p. m. These two senators whispered the word to friends that they had made up their minds to vote for the bill.

To understand how the vote on county option might reach out to tonnage tax and division of St. Louis county, it must be recalled that in the many years in which tonnage tax has been fought by the St. Louis county delegations they have always been aided by the anti-county option faction. It is this faction which time and again defeated tonnage tax.

Tonnage Tax May Suffer.

St. Paul, Feb. 6.—Following the passage of a county option bill by the Minnesota senate, Governor W. S. Hammond has issued a statement asking the house to dispose of the question at once. In his statement the governor says that his attitude on the bill was made clear in his Red Wing campaign speech, where he said he would sign any measure concerning public policy passed by the legislature. His statement is taken by members of the legislature to mean that he will sign the bill if it is passed by the house.

Interest in the legislature centered in the rumor that in retaliation for the passing of the bill, which was supported by two St. Louis county senators whose votes were considered doubtful, brewery interests will throw their active support to the passage of a tonnage tax bill.

Many of the senators who voted against the bill declared they would resent any attempt on the part of the brewery interests to take a hand in the ore tonnage tax.

EFFICIENCY REPORT MARCH 2

Introduction of Resolution on Time Limit Causes Bitter Debate in the House.

St. Paul, Feb. 8.—The special committee of the house which has been holding public meetings on the efficiency and economy bill must submit its report not later than March 2, in compliance with resolutions adopted after a protracted and at times bitter debate.

When the resolution introduced by Representative E. E. Adams of Fergus Falls instructing the committee to report not later than Feb. 15 came up, Representative Charles Warner of Aitkin offered an amendment changing the date to March 2.

The resolution of Sam Y. Gordon to appoint a separate committee to investigate the "so called needless departments" of the state was drawn into the debate.

SPECIAL FISH AND GAME FUND PROPOSED IN SENATE

St. Paul, Feb. 9.—Through the haze of discriminate and indiscriminate efficiency and economy talk in the legislature there stands revealed one state department scheduled for an appropriation increase commensurate with its requirements. It is the game and fish department.

Throughout all Minnesota there is an awakened public sentiment in favor of game and fish protection which not only promises an adequate legislative appropriation but a more effective enforcement of the game laws.

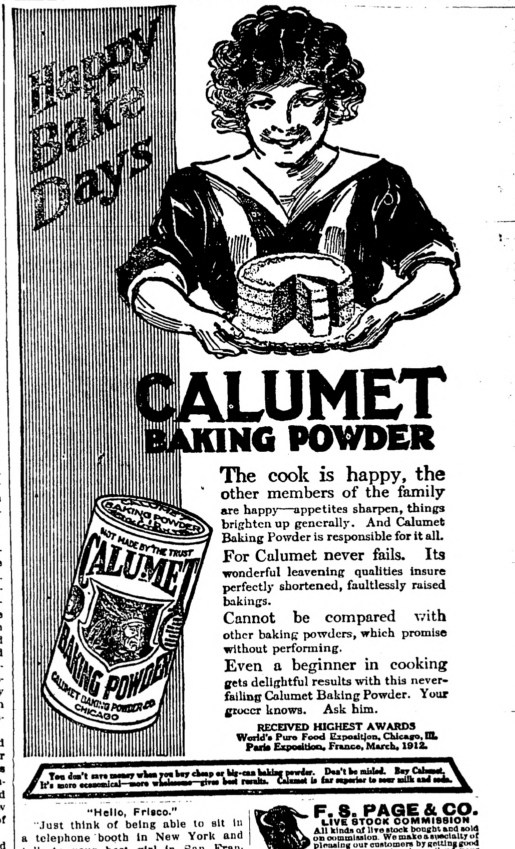
Senator John H. Baldwin of Frazee arose in the senate chamber and asked that his bill providing that all moneys received from game and fish licenses, approximately $65,000 a year, be turned into a special fund to be known as the game and fish fund and that this fund be devoted to the protection of game and fish.

On motion of Senator Rockne chairman of the finance committee, the bill went temporarily to the finance committee for consideration but Senator Rockne and senators from many portions of Minnesota expressed themselves as favorable to an entirely adequate appropriation for this state department.

Senator Baldwin explained that this bill expresses the desires of the sportsmen's organizations of the state, that it is but devoting to proper game and fish protection the moneys which hunters and fishermen turn into the state treasury for the privilege of these sports at proper seasons.

Debate [illegible]

St. Paul, Feb. 6.—A [illegible] session of the Minnesota house of representatives was suddenly [illegible] when the joint resolution memorializing congress to grant greater political freedom to civil service employes came up for debate. After long debate, during which personalities were hurled across the chamber by Representative H. H. Harrison of Stillwater and Representative A. O. Devold of Minneapolis, author of the proposal, the resolution was indefinitely postponed.



CALUMET BAKING POWDER

The cook is happy, the other members of the family are happy—appetites sharpen, things brighten up generally. And Calumet Baking Powder is responsible for it all.

For Calumet never fails. Its wonderful leavening qualities insure perfectly shortened, faultlessly raised bakings.

Cannot be compared with other baking powders, which promise without performing.

Even a beginner in cooking gets delightful results with this never-failing Calumet Baking Powder. Your grocer knows. Ask him.

RECEIVED HIGHEST AWARDS World's Pure Food Exposition, Chicago, Ill. Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

"Hello, Frisco."

Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around $1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or to

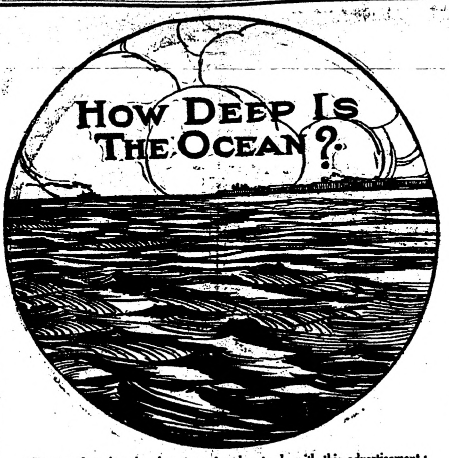
What has become of "The Merry makers?"



HOW DEEP IS THE OCEAN?

You wonder what the above question has to do with this advertisement:

JUST THIS—Thousands of simple but very interesting questions like this arise continually, to say nothing of the more serious kind as, for instance, questions about crop productions, national reform legislation, athletic records, the year's important news events and many other vital subjects; and—perhaps not one in every hundred persons you know can answer a single question accurately.

St. Paul Dispatch and Pioneer Press

YEAR-BOOK and ALMANAC

Is a 608-page book, beautifully bound in purple cloth, and contains information on thousands of subjects of present-day interest. It is almost impossible to conceive of a reasonable question which cannot be found answered in the Dispatch and Pioneer Press Year Book. Special attention is given to facts relating to the European war and the causes leading up to it. Ninety-six pages are devoted exclusively to the Northwest. It is a volume that every man and woman, and all school children old enough to comprehend matters of common interest, will find wonderfully convenient throughout the year.

This coupon is taken from The Holt Weekly News

To the Hon. Co. Board of Marshall Co.

To the Honorable County Board of Marshall County, Minnesota;

We, the undersigned, legal voters residing within the territory hereinafter described, do respectfully petition your Honorable body to call an election for the purpose of incorporating the said territory as a Village, according to the Laws of the State of Minnesota, said Village to be known and designated as the Village of Holt. The territory prosed to be incorporated is as follows:

The Townsite of Holt;

The East Half of Section thirty-two (E1-2 sec. 32) and the West Half (W1-2) of section thirty-three (33), All in Township one hundred fifty-six North (156 N.) Range forty-three West (43 W.), in said County of Marshall and State of Minnesota,

And in support of this petition we respectfully submit the following facts;

(1) The said Townsite of Holt is included in the territory proposed to be incorporated and has been duly platted into lots and blocks and the plat thereof has been duly and legally certified according to the laws of the State of Minnesota and filed in the office of the Register of Deeds in and for the said County of Marshall.

(2) The said East Half of Section thirty-two, township 156 N., Range 43 W., adjoins the said Townsite of Holt on the west and is so conditioned as to be properly subjected to village government.

(3) The said West Half of section thirty-three, township 156 N., Range 43 W., adjoins the said townsite of Holt on the south, the east and the north, and is so conditioned as to properly be subjected to village goverment.

(4) The boundries of the said territory so proposed to be incorporated are as follows;

On the south, the south line of said sections thirty-two and thirty-three, begining at the quarter stake on the south line of said section thirty-two and thence east to the quarter stake on the south line of said section thirty-three; on the east by a line beginning at the quarter stake on the south line of said section thirty-three thence north through the center of said section and ending at the quarter stake on the north line of said section thirty-three; on the north by the north line of said sections thirty-three and thirty-two, beginning at the quarter stake on the north of said section thirty-three and thence west terminating at the quarter stake on the north line of said section thirty-two; on the west by a straight line running through the center of said section thirty-two, beginning at the quarter stake on the north line of said section and thence south terminating at the quarter stake on the south line of said section thirty-two.

(5) That on the 16th day of January we caused to be taken an accurate census of the above described territory proposed to be incorporated as a village, and found the total number of persons then resident therein to be two hundred five (205).

(6) The quantity of land embraced within the above described territory proposed to be incorporated is six hundred forty acres, more or less according to the survey thereof on file and of record in the office of the Register of Deeds in and for said County of Marshall, State of Minnesota.

(7) No portion of the above described territory is now, nor ever has been, incorporated as a village.

Dated at Holt, in the County of Marshall and State of Minnesota, this 30th day of January 1915.

The Ringbo Owls took in the dance 5 miles northeast of Middle River Saturday night. Everybody had a good time.

Julius Erickson left for Alvarado last Monday.

We are sorry to note that the Sunnyside was snowed in last week, but the Ringbo Owls managed to keep on top as they took in the raffle at Middle River last Saturday night.

Mrs. Ed. Erickson and children visited at Matt Larson Sunday.

A bunch of young folks attended the pray meeting at T. O. Saastad Sunday evening.

I wonder if the Owls won't carry away John Gustrands wood-pile this spring for nesting.

Say Henry who did you take out for a slay ride Sat. night.

Cheer up Pete, Sofie will be coming home pretty soon.

Eddie Davidson was seen going out east Monday. We all wonder where you went.

Oliver Grondoll and Hilmer Davidson called at C. W. Cristenson Wed. evening.

Mr. and Mrs. O. Oslund from Wanaska have been visiting at R. G. Sorter for some time.

Coupon books are more popular now adays then the hobble skirts have ever been. We wonder what the next fashion craze will be, maybe, "Send to Savage."

Plans and specifications on file with the district clerk, sec. 8, Town of Mud Lake.

Board reserves the right to reject any or all bids.

Julia Flakne, Clerk.
Flakne, Minn.

Middle River Has Some Whist Players

The famous whist players of Holt were again for the second time selected for a defeat when the Middle River delegation of 22 strong invaded our town Tuesday evening for a series of whist games. Although Holt lost by only a score of 17 in the last setting, the defeat of last week gives our worthy Middle River players a lead of 70 points.

Our boys, however, take consolation in the fact that they are losing to a very gentlemanly and sociable lot of fellows and the general good feeling and sociability manifest throughout the series more than made up for the defeat our boys suffered.

After the series a sumptous and elegant lunch was served by mine host Silbaugh. Speeches were delivered by Messrs. Carr and Risberg. A very enjoyable time was had by all present and after the lunch the crowd went home rejoicing and no doubt with the impression that it was an evening well spent.

U. S. VESSEL LADEN WITH COTTON SUNK IN THE NORTH SEA

STEAMER EVELYN BOUND FOR BREMEN IS BLOWN UP OFF COAST OF GERMANY—CREW SAVED.

SUBMARINE OR MINE IS BELIEVED CAUSE

Secretary Bryan Instructs Ambassador Page at London and Ambassador Gerard at Berlin to Make Exhaustive Inquiry As to the Facts.

Washington, Feb. 23.—The United States government has been officially advised of the destruction of the first American vessel on the high seas since the outbreak of the European war. American Consul Fee at Bremen cabled that the steamer Evelyn and her cargo of cotton bound for Bremen had been "blown up at Borkum" just off the coast of Germany, but that the crew had been saved. The cause—submarine or mine—was not given in the dispatch.

After a conference with President Wilson, Secretary Bryan cabled Ambassador Page at London, and Ambassador Gerard at Berlin to make an exhaustive inquiry as to the facts, and if the crew was landed at either of their respective jurisdictions to furnish every care and convenience to Captain Smith and the men, so that they might return home safely.

Zones Not Exactly Defined.

Although the extent of the sea zones of war proclaimed by Germany was never defined exactly, the Borkum islands are considered far distant from the danger areas of submarines, although the waters of that vicinity are filled with mines for defensive purposes, through which Germany always has piloted incoming ships. At the German embassy it was pointed out that the accident must have been caused by a mine, as Germany, sorely in need of cotton, would have no object in topedoing a vessel laden with such a cargo for German consumption.

Early press dispatches from Berlin, announcing the loss of the vessel by a mine, caused somewhat of a sensation in this capital, where the tension has been more or less pronounced over the situation in the war zones since the dispatch of warning notes by the United States to both Great Britain and Germany. It was practically conceded that if the cause of the accident was proved to be a mine, there probably would be no ground for diplomatic action by the United States, as the laying of mines is not prohibited by any international convention now in force.

American Consul Cables.

American Consul Fee's cablegram, forwarded from Bremen through the American consul general at Rotterdam, Holland, gave the State department meager information. It said:

"Steamer Evelyn, Captain Smith, agents Bull & Company, New York, blown up at Borkum. Crew saved. Ship and cargo lost."

Secretary Bryan repeated the American consul's telegram immediately to Ambassador Page at London and Ambassador Gerard at Berlin, with instructions to learn all possible facts concerning the occurrence and give every care to the crew if landed in their respective jurisdictions.

It was generally taken for granted that the vessel was blown up by a mine, but the omission of any mention of cause introduced an element of speculation.

It practically had been decided by the Washington government to make no reply either to the British or German notes concerning the use of neutral ensigns, or possible attacks by submarines on neutral vessels in the new sea zone of war.

Added significance was attached generally to this policy because of the implication that the strong warning sent to both Great Britain and Germany might now be followed by a crisis in the relations of this government with the belligerent if, through their practices, American vessels or lives were lost.

Newspaper Plant Destroyed.

Des Moines, Iowa, Feb. 22.—The building and entire plant of the Register and Leader, morning, and Des Moines Tribune, afternoon newspapers here, were destroyed by fire. The loss exceeds $200,000, about three-fourths of which was covered by insurance.

Gardner Cowles, publisher and principal owner of the two papers, said the plant would be rebuilt immediately. The cause of the fire is unknown

No U. S. Mail Lost.

Washington, Feb. 22.—Although United States mail is constantly going directly or indirectly to every country in the world, so far not one bag has been lost through the activities of the war fleets of the European belligerents. Postmaster General Burleson said he expected no interference with the mail service to result from Germany's sea war zone proclamation. It was pointed out that the mail steamers are fast vessels, carrying passengers and little cargo of the kind belligerents would seek to destroy.

ONE DAY'S TOLL IN THE GREAT NAVAL WARFARE

VESSELS SUNK.

Evelyn, American steamer; sunk by mine off Borkum island in North Sea; captain and twenty-seven of crew saved.

Downshire, Irish coasting steamer; sunk by submarine off Calf of Man in Irish Sea; crew saved.

British transport (?), with troops; reported in Berlin as sunk.

British steamer (?), accompanying transport; reported in Berlin as sunk.

Minesearcher of allies reported by Berlin as sunk by mine near Nieuport.

VESSELS DAMAGED

Saturno, Italian fishing boat, damaged by Austrian torpedo boats in Adriatic Sea near Antivari; none of crew injured.

Gesu, Italian fishing boat; fired on by Austrian torpedo boats in Adriatic Sea near Antivari; none of crew injured.

LONDON AGAIN THREATENED

AEROPLANE DROPS MISSILES 50 MILES FROM CITY.

Hostile Aviator Causes Damage to Houses at Colchester—Machine Makes Off to Sea.

London, Feb. 23.—A Braintree dispatch says that at about 8:30 o'clock at night a hostile aeroplane dropped missiles supposed to be incendiary bombs on the fields close to Braintree, but they did no damage. At 8:40 o'clock an aeroplane passed over Colchester, which lies about fifty miles northeast of London.

It dropped a bomb which buried itself in a garden, where it exploded, doing damage to the rear of a house and smashing the windows of other houses. No one was hurt.

The aeroplane, said to be a German, which dropped bombs at Marks Bay, six and one-half miles west of Colchester, and near Coggeshall, but no serious damage resulted. The machine was last reported as making off to sea.

* * * * * * * * *

TWO BRITISH SHIPS ARE REPORTED SUNK

Berlin, by wireless to Sayville, L. I., Feb. 22.—The report of the sinking of a British transport with troops and the accompanying steamer reached Berlin too late for comment by the morning papers. All of the papers, however, feature the report in the first page headlines, together with reports of the sinking of other vessels by submarines or mines.

LAST OF JAMES GANG IS DEAD

Unparalleled Career of Crime During Civil War Kept Dozen States in Terror.

Excelsior Springs, Mo., Feb. 20.—Frank James, one of the last surviving members of the notorious James gang, died on his farm near here. James, who was 74 years old, had been in ill health several months and was stricken with apoplexy early yesterday.

One of the last members of a notorious robber band, whose unparalleled career of crime during the Civil War and the unsettled period that followed, kept the people of a dozen states in terror, Frank James had been living the life of a quiet farmer for more than thirty years.

GERMAN SUBMARINE SINKS IRISH STEAMER

London, Feb. 22.—The small Irish coasting steamer Downshire was sunk by a German submarine off Calf of Man, an island in the Irish sea. The Germans gave the crew five minutes in which to leave their ship. The crew landed at Dundrum, County Down, Ireland.

The submarine which sank the Downshire was the U-12. The Germans fired three shots at the steamer before her captain hove to. After the crew of the Downshire had taken to the boats, the Germans placed a bomb amidships of the steamer and exploded it, and the Downshire sank in a few minutes.

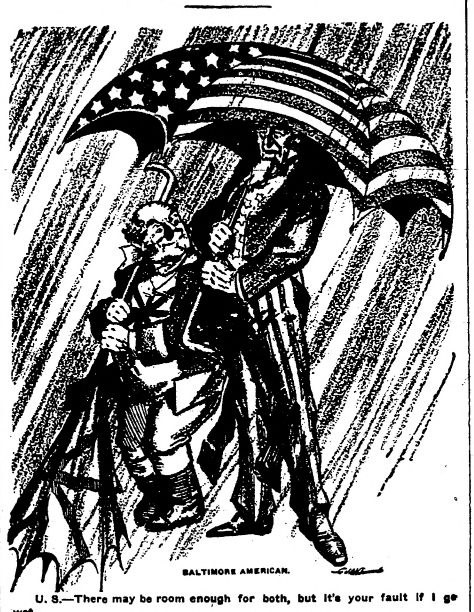
KAISER WILL DIRECT SUBMARINE BLOCKADE

London, Feb. 19.—The Daily Mail correspondent says he learned from Hamburg that the belief prevails there that Emperor William is going to Helgoland personally to direct Germany's submarine blockade. The wheat shortage in Germany, the correspondent adds, was concealed until the last moment for fear of discouraging the people. It is much greater than has hitherto been believed. Germany will only escape famine by a narrow margin.

Turkey Yields to Greece

London, Feb. 20.—Turkey has acceded to the demand for satisfaction made by Greece because of the insult offered an attache of the Greek legation at Constantinople. The director general of police of Constantinople has visited the Greek legation in that city and in the presence of all the members of the staff he formally expressed his regret at the insult offered the Greek naval attache. He promised further that an official communication to this effect would be published in the press

GET UNDER YOUR OWN UMBRELLA



BALTIMORE AMERICAN.

U. S.—There may be room enough for both, but it's your fault if I get wet.

ALLIED WARSHIPS BOMBARD FORT OF THE DARDANELLES

FRENCH AND BRITISH BEGIN SERIOUS ATTEMPT TO FORCE WAY FOR CAPTURE OF CONSTANTINOPLE.

DREADNAUGHTS ASSISTED BY AIRCRAFT MAKE ATTACK

Big Guns Silence Two Forts, According to British Admiralty Report—English Steamer Cambank Is Sunk Off Holyhead by German Submarine.

London, Feb. 22.—The British steamer Cambank was torpedoed and sunk off Holyhead by a German submarine.

London, Feb. 22.—Late Athens dispatches declare that in the bombardment by the allied fleet of the forts at the entrance to the Dardanelles the fire of the Asiatic forts was finally silenced and that most of them have been practically destroyed. There is great activity about the admiralty, and it is stated that the present bombardment marks the beginning of a serious attempt to force the Dardanelles and prepare the way for the capture of Constantinople.

London, Feb. 22. The combined British and French fleet, composed of dreadnought battleships, battle cruisers and smaller vessels, assisted by aeroplanes and seaplanes, has begun its grand assault to force the passage of the Dardanelles. The entire British Mediterranean squadron is engaged.

The fleet, it was officially announced, bombarded the forts of the Dardanelles with noticeable effect, two forts being silenced. The bombardment was renewed with seaplanes and aeroplanes co-operating.

The text of the official announcement just issued by the British admiralty says:

At 8 a. m. a British fleet of battleships and battle cruisers, accompanied by flotillas and aided by a strong French squadron, the whole under the command of Vice Admiral Sackville H. Carden began an attack upon the forts at the entrance to the Dardanelles.

Forts Are Outranged.

"The forts at Cape Helles and Kum Kale were bombarded with a deliberate long-range fire. Noticeable effects were produced on two of the forts. Two others were frequently hit, but, being open earthworks, it was difficult to estimate the damage. The forts, being out-ranged, were unable to reply to our fire.

"At 2:45 p. m. a portion of the battleship force was ordered to close in and engage the forts at closer range with their secondary armament

PLAN TO ACCUSE RUTH SOPER OF CONSPIRACY

Milwaukee, Wis., Feb. 22. Ruth Soper of Owatonna, Minn. may accompany the Rev. James Morrison Darnell in the list of indicted by the coming federal grand jury if United States District Attorney Goff has his way, for he is now said to be planning to accuse her of conspiracy under a recent United States supreme court decision in accompanying Darnell in the preacher's alleged violation of the Mann white slave act.

BIG EXPOSITION IS OPENED

PRESIDENT FLASHES SIGNAL TO SAN FRANCISCO.

Elaborate Ceremonies Mark the Inauguration of the Magnificent Panama-Pacific World's Fair.

Washington, Feb. 22. — Standing amid a group of California's "native sons," President Wilson pressed an electric button placed exactly in the center of the capitol rotunda and thus sent a telegraphic flash to the Golden Gate which formally opened the Panama-Pacific International exposition.

Besides the president many diplomatists, legislators and other prominent men were guests of the Californians. By an ingenious plan the flash which the president sent to the exposition at the same time lighted up in electric flame the message, "The exposition is now open," in many cities throughout the country, and this mesage was also sent to all the territories and possessions of the United States, including Alaska, the Philippines, Porto Rico, Hawaii, Guam and the Panama Canal zone.

Franklin K. Lane, secretary of the interior, is in San Francisco at the opening ceremonies as the personal representative of the president.

Gala Day in San Francisco.

San Francisco, Feb. 22.—A flash from President Wilson in Washington formally opened the Panama-Pacific exposition.

Not only the magnificent two and a half mile stretch of the exposition grounds along the bay, but the whole of San Francisco is gay with flags and other elaborate decorations, while the crowds in the streets are unprecedented.

Exposition Has Cost $50,000,000

The exposition consists of 250 buildings in three main groups lying in garden plots and sunken pools. It stretches in a glittering band half a mile wide along the southern shore of San Francisco bay

It has cost $50,000,000. Of this $12,500,000 was raised by this city, $5,000,000 by the state of California, and $2,500,000 by the 58 California counties. The foreign and state participation represents $10,000,000, the amusement zone $10,000,000, and the outlay by individual exhibitors another $10,000,000.

There are 80,000 individual exhibitors represented, with displays ranged along 47 miles of exhibit aisles in eleven of the main exhibit palaces.

U. S. DECLARES BLOCKADE VIOLATION OF TREATIES

Washington, Feb. 22.—In a note drafted by the cabinet at a momentous meeting at the White House, President Wilson has prepared to tell Germany that her "war zone" decree is in violation of solemn treaty stipulations entered into with the United States.

Norwegian Steamer Sunk.

Nakskov, Denmark, Feb. 22. (via London),—The Norwegian steamer Bjarka struck a mine and sank. Its crew was saved.

ACCUSE CALIFORNIAN OF PLOT AGAINST MEXICANS

Los Angeles, Cal., Feb 22 Harry Chandler, millionaire land owner and son-in-law of General Harrison Gray Otis, owner of the Times, was indicted by the federal grand jury on a charge of having conspired to violate the neutrality of the United States. He and six other men indicted are accused of having recruited soldiers in the United States to serve in an invasion of the Mexican territory of Lower California.

DECLARES TRIPLE ENTENTE FORCED TURKEY TO FIGHT

GRAND VIZIER ASSERTS ALLIANCE WITH ENGLAND, RUSSIA AND FRANCE WOULD HURT COUNTRY.

TIRED OF HYPOCRISY ACTUATING THE POWERS

Claims Ottoman Government Was Made the Object of Many Falsehoods by the Entente—Turkish People Want Chance To Work Out Destiny.

Constantinople, via London, Feb. 23.—Prince Said Halim, the grand vizier of Turkey, in the first interview he has ever given, has outlined Turkey's reasons for entering the war. He explained the abolition of the capitulations and pointed out the advances made during the past six years.

"We have rejected the triple entente's offer to guarantee Turkey's integrity for thirty years," said the grand vizier, "because acceptance would have been detrimental to Turkey's sovereignty. Turkey's experience with the promises make by the powers forming the triple entente (Great Britain, France and Russia), has not been favorable to the promotion of confidence.

Russia Is Old Enemy.

"Turkey knew that to enter into relations with Great Britain, France and Russia would have been a harmful factor in respect to the country's interest. Russia, moreover, is our hereditary enemy, from whom we could not expect lasting effects of a change of heart. Had the past actions of these powers been definite, the page of history which is now being written might have read differently.

"We were tired of the hypocrisy actuating the powers of the triple entente when dealing with Turkey, so we did what provocation forced us to do—went to war.

"Turkey was made the object of many falsehoods by the entente. Now, the allies assert that the government lacks the support of the people. Could we make such a good military showing after the recent wars and other troubles if the government had not obtained the hearty co-operation of all Ottomans?

"We are not a barbaric people, not savage, not black, but brown, not yellow, but white with every right of the other white races, a people willing to invest its wealth and blood in the opportunity to 'make good,' as Americans say.

TWO NATIONS TO PROSECUTE

Canadian and American Governments Announce Moves in Case of Alleged Dynamiter.

Boston, Feb. 23.—Two official moves apparently entirely distinct, have been announced in the case of Werner Horn, who attempted to blow up the International bridge over the St. Croix river near Vanceboro, Maine, Feb. 2.

The federal district court will begin an investigation here this week to determine, it is understood, whether the law against transportation of dynamite was violated by Horn in his preparations for blowing up the bridge.

Fourten witnesses have been summoned to testify. The announcement was made in Portland, Maine, that action had been begun by a representative of the Canadian government for Horn's extradition. An application was filed in the federal court here, asking that a warrant be issued to bring Horn before the court at the expiration of the sentence of thirty days he is serving in jail at Machias, after pleading guilty to the technical charge of injuring property at Vanceboro.

The destruction of railroad property by setting off an explosive is the basis of the extradition proceeding.

Horn has announced that he will fight extradition on the ground that his act was one of military expediency.

To Visit Austrians.

Berlin, via London, Feb. 23. Chancellor von Bethmann-Hollweg's forthcoming visit to the Austrian headquarters will be for the purpose of discussing personally with high officials of the dual monarchy the most important questions pending between the triple alliance powers, according to a Berlin dispatch to the Frankfurter Zeitung.

Zeppelin Kills Four

Paris, Feb. 23. A Zeppelin airship crossed the allied lines near Nieuport and dropped bombs upon Calais, killing four persons.

Allege Butte Miners Paid Million

Butte, Mont., Feb. 23.—An answer filed in the district court to the suit of President Charles H. Moyer and other officers of the Western Federation of Miners against officers of the Butte local, to regain control of the local, alleged that Moyer hired gunmen when he came to Butte last June and that the local organization was forced to pay them It was also alleged that the miners in Butte had paid more than $1,000,000 to the Western Federation since May, 1893, without receiving benefit.

MEAT CLOGS KIDNEYS THEN YOUR BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You—Drink Lots of Water.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

Time Wasted.

"Dinah, did you wash the fish before you baked it?"

"Law, ma'am, what's de use ob washin' er fish what's lived all his life in de water?"

RESINOL A HEALING HOUSEHOLD OINTMENT

The same soothing, healing, antiseptic properties that make resinol ointment a standard prescription for skin-eruptions, also make it the ideal household remedy for burns, scalds, cuts, wounds, sores, chafings, pimples, blackheads, irritations, and a score of other troubles which constantly arise in every home, especially where there are children. That is why resinol ointment should be on your medicine shelf, ready for instant use. Sold by all druggists. Adv.

Can't Teach an Old Dog New Tricks.

"Funny things happen, even on street cars," stated old Dad Bing. "Tuther day I got on one that was entirely empty, and at the next corner it stopped and let another gent on. He was a middle-aged person with a far-away look in his eye, and instead of taking his choice of seats he grabbed a strap and hung there, swaying and flopping like a fresh-caught fish.

"'I don't aim to be inquisitive, podner,' says I, 'but if it's a fair question, why don't you set down?'

"'Why—why—' says he, 'I could do that, couldn't I? But no—alas! it is too late to change the habits of a lifetime. I never saw an empty seat before!'

"So saying, he clung and swayed clear downtown, and I went along, just to look at him."—Kansas City Star.

Important Discoveries Near.

Sir William Crookes announces at the recent anniversary meeting of the Royal society, of which he is president, that "we are on the brink of striking developments in our knowledge of the structure of the elusive atom." Provisionally this has been its definition: A nuclear positive charge of electricity—exceedingly small compared with the sphere of action of the atom, and consisting of a number of unit charges—surrounded by an external shell in which a number of separate negative electrons are distributed.

THE DOCTOR'S WIFE
Agrees With Him About Food.

A trained nurse says. "In the practice of my profession I have found so many points in favor of Grape-Nuts food that I unhesitatingly recommend it to all my patients.

"It is delicate and pleasing to the palate (an essential in food for the sick) and can be adapted to all ages, being softened with milk or cream for babies or the aged when deficiency of teeth renders mastication impossible. For fever patients or those on liquid diet I find Grape-Nuts and albumen water very nourishing and refreshing.

"This recipe is my own idea and is made as follows: Soak a teaspoonful of Grape-Nuts in a glass of water for an hour, strain and serve with the beaten white of an egg and a spoonful of fruit juice for flavouring. This affords a great deal of nourishment that even the weakest stomach can assimilate without any distress.

"My husband is a physician and he uses Grape-Nuts himself and orders it many times for his patients.

"Personally I regard a dish of Grape-Nuts with fresh or stewed fruit as the ideal breakfast for anyone—well or sick."

In stomach trouble nervous prostration, etc. a 10-day trial of Grape-Nuts will usually work wonders toward nourishing and rebuilding and in this way end the trouble. Name given by Postum Co., Battle Creek, Mich.

Look in pkgs. for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on — castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

The Queer Sex.

Mary—Do you and Marguerite still decline to speak as you pass by?

Hazel — Oh, no; we are friends again.

Mary—Kissed and made up, did you?

Hazel—Yes—that is, we kissed—she was already made up.

SUFFRAGE FIGHT TO COME BEFORE SENATE FEB. 25

VOTE ON MEASURE PROBABLY WILL BE TAKEN NEXT THURSDAY—SENATOR SAGENG RETURNS TO DESK.

COUNTY OPTION BILL IS MADE A SPECIAL ORDER

Prospect Is for Full Attendance in the House for the Vote Next Wednesday—Flurry Prevails When It Is Learned That Spooner May Be Absent.

St. Paul, Minn.—A vote on the woman's suffrage bill in the senate will probably be taken Thursday, Feb. 25. Senator O. O. Sageng, absent because of illness for a week, has returned to his desk and announced that he would probably call the bill up for debate that day at 2 p. m.

"I want to talk to some of the suffrage leaders before I ask for a special order for the bill," he said, "but I shall probably ask for the order Tuesday."

Suffrage leaders and anti-suffragists have been hard at work for the last week and a lively fight is expected.

The F. H. Peterson county option bill was made a special order in the house for Wednesday, Feb. 24, at 11 a. m., on recommendation of the temperance committee.

A flurry prevailed for a while among the county optionists on the discovery that L. C. Spooner, who had been counted for the bill, had an engagement to speak in Granite Falls Wednesday night, making it necessary for him to leave early Wednesday. After the supporters of the bill had tried in vain to get a postponement of the special order to Feb. 25, Gunnar B. Bjornson called up Granite Falls by long distance and obtained a postponement of Mr. Spooner's speech.

The prospect is for a full attendance in the house for the county option vote.

FIGHT TO KEEP BILL FROM BEING RECALLED

An effort of Senator Lende to recall from the house Senator G. H. Sullivan's butterfat bill, passed by the senate Wednesday failed in the senate. When Senator Lende made the motion to recall S. F. 216, Senator Sullivan seconded it.

"What is the bill?" Senator Sullivan asked.

"The bill reducing the percentage of butterfat from three and one-fourth per cent to three per cent," replied Senator Lende.

The senate went into uproarious laughter and Senator Sullivan started the fight to keep the bill from being recalled.

The resolution was debated for half an hour.

On the roll call eight senators voted to recall it and 49 voted against it.

REPEAL OF CIVIL SERVICE LAW INDICATED IN HOUSE

The house has indicated its ability to pass the Dwyer bill repealing the Minneapolis Civil Service law, and its intention so to do. After a spirited two hours of debate the House adopted a motion to recommend the Dwyer bill for passage. The vote was 55 to 48.

While it requires 66 votes to pass a bill, those determined to repeal the Civil Service Law say that among the absentees there were fully a score who are opposed to civil service as it exists in Minneapolis. They predict they will have no trouble in obtaining the additional 11 votes when the bill comes up for final passage. This is conceded by those who oppose the repeal bill, but they say this bill will be killed in the Senate

Agitate for County Division.

Residents around Perham in Otter Tail county are agitating for county division again. They want to set off 18 townships in the northeastern part of the big county, with Perham as the county seat. This is the "wet" section of Otter Tail county and under county option the new county might vote "wet," but it is likely to be dried up soon by the Indian bureau. Alex Nelson of Perham, former house member, was down this week working to have the St. Louis county division bill amended so Otter Tail can take advantage of it. This bill allows a division by petition, without holding any election.

Solons Visit Girls' School.

A party of legislators went to Sauk Center to visit the state school for girls. From Sauk Center the party will leave for Morris, the home of Representative Lewis C. Spooner of Stevens county, where a banquet will be tendered Speaker H. H. Flowers by the citizens of Morris. Those comprising the party include Representatives Gunnar B. Bjornson, George W. Burrows, Knud Wefald, Carl A. Wold, J. H. Boyd, Frank E. Minnette and A. R. Hinds and Senator Pierce A. Hilbert.

SAYS BILL IS MERELY A PROTECTIVE MEASURE

St. Paul, Minn.—Efficiency and economy was the subject of protracted debate in the house of representatives when Sam Y. Gordon succeeded in securing adoption of his resolution for the appointment of a committee to investigate and report to the house on the so-called needless state departments and employes.

As the resolution originally stood, Mr. Gordon had appointed his own committee. When the matter came up again he offered an amendment providing for the appointment by the speaker of two members from each congressional district.

The amendment was quickly adopted.

Spooner Against Resolution.

An "S. O. S." call was sent out for Representative L. C. Spooner, chairman of the house efficiency and economy committee, who was absent from his seat. He hurried into the chamber and took a strong stand against the adoption of the resolution.

Mr. Gordon during the debate said that it was very apparent that the efficiency and economy bill would not be adopted at the present session, and that his resolution merely was a protective measure.

BILL WOULD ABOLISH HIGHWAY COMMISSION

The state highway commission will be abolished and road building will be placed in the hands of county boards if a bill introduced in the house by Representative John H. Boyd of Crookston becomes a law. Supervision of the distribution of funds would be in the hands of a commission composed of the secretary of state, the state auditor and the state treasurer, who would serve without additional compensation.

A similar bill was introduced in the senate by Senators J. H. Baldwin, C. L. Swenson, F. A. Duxbury, S. B. Nelson and J. A. Gandrud.

With several minor amendments attached to it, the bill recently introduced by Sam Y. Gordon authorizing political party conventions, reappeared in the house.

An eight-hour working day bill was introduced by Representative A. O. Devold, J. W. Woodfill and A. L. Lennon.

MINNETTE BILL LACKS CONTROL OF STOCK SALE

The Minnette state control telephone bill, recommended for passage by the House telephone and telegraph committee, again is lacking a section regulating issuance of stocks and bonds.

The present Minnette bill places the regulation of telephone companies under the state board of railroad and warehouse commission. In broad terms, it gives the railroad and warehouse commission the same powers over telephone companies operating in Minnesota as it has over the railroad and express companies.

Seek Relief From Cashman Act.

Workings of the Cashman distance tariff law have imposed a serious handicap on many villages in the state, according to Representative Ivor J. Lee of Glenwood, who has introduced a bill to amend the act and permit "long line" roads to meet competition of the "short line" roads at local points. Introduction of the Lee bill presages a struggle for relaxing some of the iron-clad conditions of the Cashman act which are being complained of in communities that are fairly fighting for their lives under conditions that now obtain.

Bill Provides For Party Conventions

A bill that its authors will ask to have substituted for a former one, providing for party political conventions, was introduced in the Senate by Senators Edward Rustad and A. J. Rockne. The bill allows members of the State Committees to determine the number of delegates from each precinct in the various Congressional and County Conventions. The bill introduced into the House by Representative S. Y. Gordon placed the number of delegates at five

Tax on Fire Premiums

Asserting that the state fire marshal's office reports have not shown how the money it has received during the last year had been spent Senator A. J. Rockne put an amendment on the bill requiring the tax on fire insurance premiums to be paid into the state treasurer's office. The bill was passed as amended by the senate. It had formerly provided that the money would be paid direct to the state fire marshal's office.

Bill Seeks Fees From Wards.

Senator H. M. Benson's bill requiring a fee of $10 a month to be paid from the estates of persons committed to the public institutions of the state whenever those estates can afford to make such payments or from their relatives, if able to pay, was recommended for passage by the Senate Committee on Public Buildings.

Favor Appropriation for Prison.

The bill authorizing the state board of control to set aside $57,000 out of the Stillwater prison fund for the construction of a woman's prison building, two barns and the purchase of a dairy herd, was recommended to pass by the house appropriations committee.

The committee also recommended the bill appropriating $5,000 to complete the Mustinka state ditch.

An appropriation of $1,000 for a commission to suggest uniform legislation met with disfavor and was killed.

Winter Chills Bring Kidney Ills

A spell of cold, damp weather is always followed by a fine crop of kidney troubles and backache.

Colds and chills damage the kidneys. Other troubles common to winter weather are just as bad. Grip, tonsilitis, quinsy, pneumonia or any other infectious disease hurts the kidneys by overloading the blood with poisons. The kidneys get worn, weak and inflamed trying to work it off.

It isn't hard to strengthen weak kidneys though, if you act quickly. At the first sign of backache, dizzy spells, headaches, loss of weight, nervousness, depression and painful, irregular kidney action, start using Doan's Kidney Pills. Rest the kidneys by simple eating, avoidance of overwork and worry, and getting more rest and sleep. A milk diet is fine.

This sensible treatment should bring quick benefit and prevent serious kidney diseases like dropsy, gravel and Bright's disease.

Clip this advertisement and mail it to the address below for a free trial of Doan's Kidney Pills, the best recommended kidney remedy in the world. You'll decide it worth a trial, when you read this enthusiastic testimony.

"Every Picture Tells a Story"

"I'd be all right only for my back."

Miserable and Discouraged

Health All Run Down—Doctor's Medicine Failed

T. A. Matchke, Hillsboro, N. D., says: "About ten years ago I began to suffer from kidney complaint. It bothered me in many ways at first. Later on, my back got very lame so that I had to be helped out of bed. I got so bad I couldn't do anything. I had headaches and dizzy spells and was nervous. I was all run down, weighed only one hundred and forty pounds and was discouraged. I tried plasters, but they relieved me only temporarily and then the trouble returned worse than ever. I went to the doctor and he told me I had kidney trouble, and gave me some medicine. I used it all as he directed, but still I got no better. One day a friend asked me what was the trouble and I told him. He insisted on my getting Doan's Kidney Pills and I did. I used five boxes and by that time, my kidneys were as strong as ever. The headaches left, my back was cured and I felt better than ever. I now have no sign of kidney trouble."

THE EMBARGO ON WHEAT

The United States Wheat Production Admits of 100 Million Bushels for Export.

The talk in the press some little time back of placing an embargo on wheat, brought forcibly to the minds of the people of the United States a condition that may at some time in the near future face them. 100 million bushels of an export of wheat means a splendid revenue to the country as well as to the farmer, and if this were assured year after year, there would be reason for considerable congratulation. But last year's magnificent and abundant crop, which was estimated at 891 million bushels, cannot be expected every year. With a home consumption of 775 million bushels, and a production in many years of little more than this, the fact is apparent that at an early date the United States will have to import wheat. It will be then that the people of the United States will be looking to other markets for a supply. And it is then that the value of Western Canada lands will be viewed with considerable favor. The great area of wheat lands in Canada will then be called upon to provide the greatest portion of the old world's supply, and also, in the opinion of the writer, that of the United States as well. At present there are only about 12 million acres of these lands producing wheat. There are five times that many acres that can be brought under successful cultivation. Apart altogether from the value of these lands as wheat producers there is an increased value to them from the fact that the soil is especially adapted to the growing of many other kinds of grain as well as all manner of cultivated grasses while the native grasses are a wonderful asset in themselves. The climate is especially favorable to the raising of live stock such as horses, cattle, sheep and hogs. All these bring into the limelight the adaptability of the soil, the climate and all other necessary conditions to the carrying on of dairy farming in a most profitable way.

There is no question that high prices for all that the farmer can grow or raise will continue for some years and this is the great opportunity time to take advantage of what Western Canada offers. Lands may be had as a free grant. These are mostly located some little distance from railways at the present time but sooner or later will be well served by railways that are projected into these districts. Land may also be secured by purchase at reasonable price and on easy terms from holders of same. In many cases farms partly improved may be rented. A Winnipeg paper said recently: "Canada wants American immigrants. They make good Canadian citizens. And then speaking of the erroneous impression that has gained some publicity in a portion of the United States press, says "It cannot be too forcibly impressed upon the American mind that in coming to Canada they place themselves under the freest democracy the world knows. No citizen of this country, whether native or naturalized, can be compelled to military service. The only compulsion is the compulsion of conscience and patriotic duty. That is the motive that has prompted thousands of Canadians to offer their lives. They are fighting as free men. Advertisement

Diamonds in Arkansas.

During the year 1913 in Arkansas one diamond washing plant was operated about three months, and recovered several hundred diamonds, and the construction of another plant was practically completed.

BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

Self-Protection.

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of the famous old recipe for about 50 cents

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.—Adv.

One Definition.

Willie—[illegible] What's a [illegible]

Papa—Willie, it's the fellow who borrows money of you and then kids you about it whenever you meet.—Puck.

They [illegible] Dean's Mentholated Cough Drops stop coughs quickly. A pleasant remedy—5c at all good Druggists

And [illegible] little taste of success makes him long for all he can swallow.

Never Had.

A saloon keeper who has a reputation for being a "tight-wad" was recently tried for selling liquor illegally. Among the witnesses was a former patrolman of that particular district, who would know if similar charges had ever been preferred against the prisoner.

"When you were on the force," asked the lawyer, "did you ever have anything on Mr. Schmidt?"

"Never," answered the witness earnestly, "not even a beer."

The Holt Weekly News
Successor to and Continuation of
The Northern Light
By The
Holt Publishing Company

Published every Friday at Holt, Marshall County, Minnesota.

Subscription Price: $1.00 per year, strictly in advance.

Entered as second-class matter Sept. 22, 1911, at the post office at Holt, Minnesota, under the act of March 3, 1879.

Editor Carr of The Middle River Pioneer, made this office a pleasant call Tuesday P. M.

Mrs. Alex Strom and children of T. R. Falls have been visiting at the Riesberg home the past week.

The County Option bill passed the lower house of the Minnesota legislature, Wednesday P. M., by a vote of 66 to 62.

For years the great nations of Europe allowed Turkey to massacre the Armenians, and now they are butchering each other. Where is their much boasted of civilization?

Southeast of Holt.

Mrs. Clarence Larson and son Chester left for their home at Golden Valley on Monday after a weeks visit at the Larson and Moe homes. Mrs. Larson was accompanied home by her brother Harry Moe.

The Misses Alma and Ida Guttrud and Christine Saastad, the Messrs Carl and Oscar Guttrud called at the Moe home on Wed. evening of last week.

Clara and Ragna Larson, Alma and Martha Soiney visited at the S. Moe home on Sunday.

Mrs. C. Larson visited with Mrs. Thom Olson on Friday afternoon.

Thora Skondahl made an over Sunday stay with her folks.

Miss Ida Guttrud returned to her home on Wed. last after working at the hotel in Holt for some time.

Mr. Halvor Tistoe has sold his old farm to John Klungness of South Dakota.

Christine Saastad visited at the Guttrud home on Sunday.

Arne Sordahl called on Albert Klungness Sunday evening.

Mud Lake Ripples

We will now try and send in some news from Mud Lake.

We have been having nice weather now for a week, the snow has been melting so fast that if it keeps on much longer, it will all be gone.

Clarence Larson went to Holt last Friday.

Frank Brown and Axel Benson called on Ole Magstad one evening last week.

The wood hauling from the "Tamarac" has come to a quick stop on account of the snow going off. Of course those that don't have very far to drive are keeping on.

Benson & Brown have been busy digging a well.

The bridge between Secs. 21 and 20 is now being built.

Some of the shoppers at the Golden Valley store last Saturday were: S. Wick, F. Brown, C. Holmgren, O. Maakstad, J. Tapper, A. Benson, B. Larson and O. Odie.

Last Sunday Pastor Ordahl preached in the Amory school house in the forenoon and at Green Stump Lake in the afternoon.

Some of those who attended the meeting in the Amory school house last Sunday were: Mrs. Dahl and son Rudolph, Mrs. Odie and son Oscar, Mr. and Mrs. Larson, Mr. and Mrs. Rosand and family, Mr. and Mrs. Olson and family, E. C. Johnson and children.

Elmer Odie made a trip to Holt last Saturday.

Pastor Ordahl will hold services in the school house, east of Olof Dahl's, Palm Sunday (March 28th).

Notice For Publication.

Department of the Interior, U. S. Land Office at Crookston, Minnesota Feb. 23, 1915

Notice is hereby given that John M. Jahr of Holt, Minn. who on Dec. 19th 1911 made Homestead Entry No. 07071 for S 1-2 S E 1-4 Sec. 35, Twp. 156, N, R. 42 W and Lot 4 Sec. 1 and Lots 1 and 2 Section 2 Township 155 N, Range 42 W, 5th Principal Meridian, has filed notice of intention to make Final Three Year proof to establish claim to the land above described, before Knute Nelson, U. S. Commissioner for the District of Minnesota at Middle River, Minn. on the 29th day of March 1915.

Claimant names as witnesses:

Nels Gudvangen, Geo. C. Anderson, Olaus Rodahl and Ole Garthus all of Holt, Minnesota.

Proof made under act of June, 6, 1912.

Peter M. Ringdal, Register

Northeast of Holt.

Miss Lydia Bjerk returned home Tuesday from a few days visit at St. Hiliare.

Ed. Bjerk is busy hauling wood from the tamarack these days.

Mrs. Erick Johnson and daughter Tina and Miss Hilma Nyberg called at Henry Erickson Tuesday.

Mrs. C. Gromold called at H. Erickson Tuesday afternoon.

Misses Tina Johnson and Hilma Nyberg called at John Engstrom Tuesday evening and on the way home they heard the howling of the wolves which was something fierce.

Wanted: Information, who's Mabel?

Mrs. Erick Johnson and daughter Tina and Miss Hilma Nyberg called at C. W. Christianson Wednesday evening.

A crowd of young folks went to the Nyberg home Saturday evening returning home Sunday forenoon. All present reported a good time.

Miss Hilma Nyberg returned home Thursday, after spending a few days with hea cousin Tina Johnson.

Hjalmer Dovre and Charles Horian returned home Wednesday.

Messrs Wegge, Christianson, Dehard, Johnson and C. Horian called at Hjalmer Dovre's Friday evening.

The merry Makers spent Saturday evening at C. W. Christianson.

Mrs. C. W. Christianson and family, Mrs. Olo Davidson and daughter Hazel, Burndette, Leo, and Charles Horien, Rudolph Anderson, and Walter Wegge spent Sunday afternoon at E. Johnson's.

Take The News, $1.00 per year.

School Notes District 112

A large number of Valentines were distributed among the pupils and Miss Saastad on Monday afternoon.

The fourth grade completed their Balwin and Bender reader on Friday, they have now started "Aunt Martha's Corner Cupboard."

The seventh grades are beginning to enjoy analyzing of sentences. We were all glad to hear it.

The children from the youngest to tne very oldest are dodging snowballs and even teacher is too now a- days, and we all enjoy it very much.

The first, second and third grades are learning the poem "Winter Time" but would rather not recite it while we have spring weather.

Alfred and Ida Klungness, Effie and Alma Soiney have been absent for a number of days on account of work.

Part of the first recess on Monday was sdent in cleaning away a snow drift near the middle south window in order to let the light and sunshine in.

The editors are so very busy that it is hard to get the notes on time but we will do our best this time.

To the Hon. Co. Board of Marshall Co.

To the Honorable County Board of Marshall County, Minnesota:

We, the undersigned, legal voters residing within the territory hereinafter described, do respectfully petition your Honorable body to call an election for the purpose of incorporating the said territory as a Village, according to the Laws of the State of Minnesota, said Village to be known and designated as the Village of Holt. The territory proposed to be incorporated is as follows:

The Townsite of Holt:

The East Half of Section thirty-two (E1-2 sec. 32) and the West Half (W1-2) of section thirty-three (33), All in Township one hundred fifty-six North (156 N.) Range forty-three West (43 W.), in said County of Marshall and State of Minnesota,

And in support of this petition we respectfully submit the following facts:

(1) The said Townsite of Holt is included in the territory proposed to be incorporated and has been duly platted into lots and blocks and the plat thereof has been duly and legally certified according to the laws of the State of Minnesota and filed in the office of the Register of Deeds in and for the said County of Marshall.

(2) The said East Half of Section thirty-two, township 156 N., Range 43 W., adjoins the said Townsite of Holt on the west and is so conditioned as to be properly subjected to village government.

(3) The said West Half of section thirty-three, township 156 N., Range 43 W., adjoins the said townsite of Holt on the south, the east and the north, and is so conditioned, as to properly be subjected to village goverment.

(4) The boundries of the said territory so proposed to be incorporated are as follows:

On the south, the south line of said sections thirty-two and thirty-three, begining at the quarter stake on the south line of said section thirty-two and thence east to the quarter stake on the south line of said section thirty-three; on the east by a line beginning at the quarter stake on the south line of said section thirty-three thence north through the center of said section and ending at the quarter stake on the north line of said section thirty-three; on the north by the north line of said sections thirty-three and thirty-two, beginning at the quarter stake on the north of said section thirty-three and thence west terminating at the quarter stake on the north line of said section thirty-two; on the west by a straight line running through the center of said section thirty-two, beginning at the quarter stake on the north line of said section and thence south terminating at the quarter stake on the south line of said section thirty-two.

(5) That on the 16th day of January we caused to be taken an accurate census of the above described territory proposed to be incorporated as a village, and found the total number of persons then resident therein to be two hundred five (205).

(6) The quantity of land embraced within the above described territory proposed to be incorporated is six hundred forty acres, more or less according to the survey thereof on file and of record in the office of the Register of Deeds in and for said County of Marshall, State of Minnesota.

(7) No portion of the above described territory is now, nor ever has been, incorporated as a village.

Dated at Holt, in the County of Marshall and State of Minnesota, this 30th day of January 1915.

Notary Public, Marshall Co., Minn.
(Notarial Seal) My commission expires Nov 15, 1920.

NOTICE IS HEREBY GIVEN, That at the front room on the ground floor of the building known as Star Hall on lot twenty-one (21) in block eight (8) in the townsite of Holt, in Marshall County, Minnesota, on the 9th day of March 1915, an election will be held at which the electors resident in the territory described in the foregoing and attached petition may vote for or against the incorporation of Holt as a village as therein prayed for. The polls will remain open from the hour of nine o'clock in the forenoon to the hour of five o'clock in the afternoon of said day.

BY ORDER OF THE COUNTY BOARD OF MARSHALL COUNTY MINNESOTA.

O. Enge, Chairman.

ATTEST:

A. G. Lundgren
County Auditor.

(SEAL)

Miss Edna Riesberg went to T. R. Falls Monday.

John Stanley returned here from T. R. Falls Saturday.

Prayer meeting at 3 o'clock in the afternoon. Speaking and singing in both languages. Everybody invited.

A bunch came down from Middle River Tuesday evening to play cards. A supper was served in the Star hall after the games.

A representative of the bond company was here Friday and Saturday trying to make a settlement with the school board but no agreement could be made between them. Upon the advice of the county attorney, a little later, the school house was left to the bond company to complete.

The Sunnyside.

Anton Peterson spent Sunday afternoon at Wegges's.

Walter Wegge went to T. R. Falls Monday.

Selma Dovre came up from T. R. Falls Saturday for a short visit with her parents.

Mrs. F. Larson called at G. Peterson Sunday.

The Jolly Bunch were entertained at John Sorum's Saturday.

Ola and Stina Brita went to church Sunday.

Miss Marie Erickson went to T. R. Falls Saturday, returning Monday.

O you Ed! What next?

Burndette and Charlie Horien spent Sunday afternoon at Erick Johnson's.

Wonder what Hjalmar was thinking about when he kissed the lamp chimney.

Mrs. C. Anderson visitor at Carl Larson Sunday.

Miss Clara Furr returned from Fargo Monday.

Mrs. L. Wegge called on Mrs. E M. Silbaugh Monday afternoon.

VOL. IV. HOLT, MARSHALL COUNTY, MINNESOTA, FRIDAY, MARCH, 5, 1915 NO. 36

Local Items

Fred Johnson is shipping hay to T. R. Falls.

Theodore Sollom came up from Goodridge Saturday.

T. B. Folden was a passenger for T. R. Falls Wednesday.

There is no better flour than the Gold Medal which is sold cheap by R. Rierson.

Soda Water and Ice Cream now running in good shape. Come in. Have one.

A. H. Huseth.

Miss Bertha Nelson returned home Monday from Honeyford N. Dak. where she has been visiting with her sister Mrs. Lloyd Adams.

The Huseth and Bray families and Mr. and Mrs. John Alkenbrack, were entertained at the J. B. Alkenbrack home, Sunday afternoon and evening.

As Fred Johnson has sold his farm, he will move to T. R. Falls in the near future, so he will dispose of his personal property at public auction March 10th.

Walter Johnson, who has been visiting his parents Mr. and Mrs. E. A. Johnson, for two or three weeks, returned to his home in Minneapolis last week Friday.

A jolly party of Holt young people went to Middle River Saturday evening to take in the Yeoman Ball. Those in attendance were: Misses Riesberg, Bakke, Hansen, Mr. and Mrs. John Alkenbrack and Messrs Anderson, Docken, [illegible]

P. A. Riesberg drove to Rosewood Monday morning with his uncle and cousin, C. G. Turnland and son Peter, of Radium. The latter named gentlemen had been in attendance at the funeral of Hans Hanson Holm, the aged father of Judge Holm, at Roseau, and stopped off here for a [illegible] Sunday visit with the Riesberg family.

Miss Gunhild Sollom spent Sunday with her parents.

Found: A bracelet. Prove property and pay for this notice.

Elmer Brent of St. Hilaire visited friends the fore part of the week.

Mrs. Osval Hoel was an over Sunday guest of relatives in T. R. Falls.

The best flour made is sold at reasonable prices at R. Rierson's store.

H. A. Fosholm, A. L. Sagstuen H. O. Ekerdalen left Wednesday for Goodridge.

Clarence Kolden took in the auto show at Grand Folks last Friday and Saturday.

Rev. Larson will preach in English at 8 o'clock next Sunday evening, in the Free Mission church.

Mrs. John Kollarang from Decorah Iowa visited her aunt Mrs. Jacob Nelson Monday and Tuesday.

All of the old officers were elected at the annual meeting of the Free Mission church last week Thursday.

A son was born to Mr. and Mrs. S. S. Kolden last week Friday morning. Congratulations are extended to the happy parents.

Several friends met at the John Alkenbrack's home Tuesday evening and gave Mrs. Alkenbrack a birthday surprise party.

Mr. and Mrs. Sam Mickelson and Mrs. Andrew Bjerk went to Goodridge Tuesday as delegates from the Holt Synod church to a convention held there.

Mrs. B. Docken and little son went to T. R. Falls Saturday to visit [illegible] returning home Monday accompanied by her little niece Eleanor Huglin.

The last game in the whist contest between the married and single men, was played Monday evening. The benedicts won by a score of 180 points and now it is up to the single men to entertain them with a big supper.

Take The News, $1.00 per year.

The Sunnyside.

Miss Emma Kuehne went to Steiner Saturday, returning Monday.

Mrs. Carlson, Oscar and Selma spent Sunday afternoon at G. Peterson's.

The temperance lecture at the school house Sunday night was well attended.

Miss Lucy Wegge called on Mrs. Lysne Thursday afternoon.

This bright sunshiny weather must be hard on the eyes of the Ringho owls or they would have seen that the Sunnyside has long since emerged from the snow.

Miss Marie Erickson spent Sunday evening at Ed Horien's.

Mrs. H. Swenson an old resident of this section died in T. R. Falls Sunday, after suffering over a year from cancer.

Charlie Horien and Walter Wegge called at L. Wegge's Thursday evening.

Mrs. Carl Surmo went to T. R. Falls Monday.

Mrs. Lysne spent Tuesday afternoon at F. Larson's.

Last Saturday night the Jolly Bunch gathered at F. Larson's. A very good time was reported by all present.

Oh, Ed, what I know about you
Something that I wouldn't do!
Now don't you deny it, 'cause I overheard,
But, honest to goodness, I won't say a word.

Walter Johnson spent Wednesday evening at L. Wegge's.

Bernhard Ohm and Vernon Grover visited at the latter's home Sunday.

Albert Bjerk spent Sunday at home.

The year book, which is given away with either the St. Paul Pioneer Press, or Dispatch, contains a whole gold mine of facts, brot right up to the close of 1914, and is something that every man and woman should have. We can tell you how to get it free.

Free Mission Church.

Sunday Services
1:00 P. M. Children meet to practice
2 o'clock Sunday School
3 o'clock Prayer Meeting
8 P. M. Rev. A. L. Larson will preach an English sermon, to which all are invited.

The parents and families of the Sunday School pupils are invited to meet at the church at 8 o'clock Tuesday evening March 9th. A sacred program will be given, also a picnic luncheon including hot coffee, sandwichs, cake and pickles will be served and all are requested to bring a generous lunch basket.

Neck and Nut.

Mrs. Youngbride—I want to get a hat for my husband. It's to be a surprise for him.

Clerk—What size, madam?

Mrs. Y.—Really, I forgot to find out. But he wears a 15 collar, so I suppose he'd want 20 or 22 in a hat, wouldn't he?

IF HAIR IS TURNING GRAY, USE SAGE TEA

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Adv.

What Interested Him.

Sir Arthur Pinero, the dramatist, tells an amusing story of a conversation he once heard while watching one of his own plays in the stalls of a West end theater.

A lady and her little boy were sitting near him, and as the curtain went down on the second act the fond mother turned to her son and said: "Well, dear, are you enjoying it?"

"Oh, yes, mamma," replied the youngster, gleefully; "do you know, there are sixty-nine men in this theater who have bald spots on the tops of their heads! I counted them five times!"

After that the lady enjoyed the rest of the play without asking her young hopeful any more questions.—Pearson's Weekly.

The Doctor's Prescription.

Physician—What your husband needs is absolute rest. He must give up all physical and mental labor for a time.

Wife—But I'm sure he will never consent to remain idle.

Physician—Oh, I'll fix that all right. I'll get him a political job at the city hall and he can draw a salary under the impression that he is actually working.

Bridget's Axiom.

"Why, it is only one o'clock. I thought it was two," said Mrs. Bronson as the clock struck one.

"Naw, mum," said Bridget "It's niver lather than wan at this toime uv day."—Harper's Bazaar.

Appropriate Place.

"I hear an aviator's society is having a meeting in this hotel."

"Yes, sir; in the sky parlor, sir."

MAY BE COFFEE

That Causes all the Trouble

When the house is afire, it's about the same as when disease begins to show, it's no time to talk but time to act—delay is dangerous—remove the cause of the trouble at once.

"For a number of years," wrote a Kansas lady, "I felt sure that coffee was hurting me, and yet I was so fond of it, I could not give it up. At last I got so bad that I made up my mind I must either quit the use of coffee or die.

"Everything I ate distressed me, and I suffered severely most of the time with palpitation of the heart. I frequently woke up in the night with the feeling that I was almost gone—my heart seemed so smothered and weak in its action. My breath grew short and the least exertion set me panting. I slept but little and suffered from rheumatism.

"Two years ago I stopped using the coffee and began to use Postum and from the very first I began to improve. It worked a miracle! Now I can eat anything and digest it without trouble. I sleep like a baby, and my heart beats strong and regularly. My breathing has become steady and normal, and my rheumatism has left me.

"I feel like another person, and it is all due to quitting coffee and using Postum, for I haven't used any medicine and none would have done any good as long as I kept drugging with coffee." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms.

Regular Postum—must be well boiled. 15c and 25 packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost per cup about the same.

"There's a Reason" for Postum —sold by Grocers.

FLAGS OF FRENCH AND BRITISH FLY OVER TURK FORTS

FLEET OF 40 VESSELS PENETRATE DARDANELLES STRAITS AS FAR AS HORTARI—DESTROYS FORT INTEPE.

PRESENT ATTACK IS VERY SERIOUS UNDERTAKING

Real Necessity of Releasing Huge Supply of Wheat on Shores of Black Sea Realized—Mine Sweepers Go to Work Within Straits.

London, March 2.—According to diplomatic information received in Rome," says the Daily News' correspondent in the Italian capital, "the decision of the Turks to transfer their capital to Broussa, Asia Minor, was in direct opposition to Germany, which wished the transfer made to Adrianople.

"The prophet's mantle, together with all the important relics and treasures, already have been removed to Broussa, where the Sultan's harem also has been sent.

"The allies have disembarked detachments of artillery near the destroyed Dardanelles forts and British and French flags are now flying over them."

Athens, March 1.—An allied fleet aggregating 40 warships has penetrated the Dardanelles straits as far as Hortari and destroyed Fort Intepe, on the Asiatic side, according to reliable information reaching here. Various Turkish encampments also were bombarded. A French squadron is cruising under the forts at the entrance to the straits, which are now entirely dismantled.

London, March 1.—A fleet of British and French warships continues to hammer away at the doors of the Dardanelles, the straits which close Russia's rich grainery, and the very real necessity of releasing the huge supply of wheat on the shores of the Black sea, causes the general belief that the present attack on the Dardanelles forts is a serious undertaking, and not merely a demonstration.

Official announcements declare that after the reduction of the four outer Dardanelles forts mine sweepers went to work within the straits under the protection of the guns of the fleet, while press dispatches from Athens and Rome assert that at least one French warship has penetrated the passage 14 miles.

Russ Resume Offensive.

Germany announces a renewed Russian offensive in the east, while Austria-Hungary declares that Austrian and German forces are holding their own in the Carpathians and in eastern Gallicia.

Petrograd reports a repulse of German attacks in north Poland, with heavy losses. As a result of the desperate fighting of the past few days the Russian general staff claims to have forced back the Germans along a front of 25 miles in the Przasnysz region.

HELD AS BLACKMAIL SCHEME

Stegler Passport Case Is Taken Up by German Embassy—Statement Issued by Ambassador.

Washington, March 1.—A statement issued by the German embassy, in the name of Count von Bernstorff, the ambassador, announced that the main facts in the Stegler passport case, with which the name of Captain Boy-Ed, naval attache of the embassy, had been attached, had been communicated to the state department.

It added that "the whole matter looks very much like an attempt at blackmail, which failed."

The ambassador, who is in New York, telegraphed instructions for the issuance of the statement.

So far, the passport investigation in New York had been before the state department only in an informal way, through unofficial conferences between representatives of that department and of the department of justice, and, according to a high official of the government, nothing has developed requiring action.

Correspondents at Front.

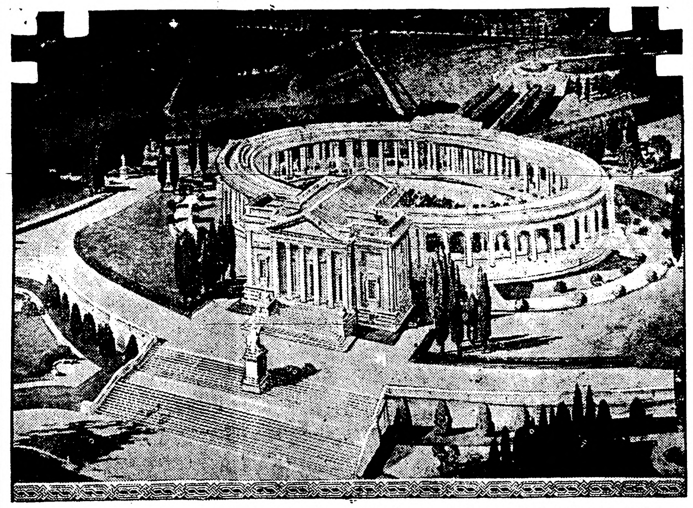
Ottawa, March 1.—A message from the British war office to the Canadian government indicates that the war correspondent is soon to have a limited opportunity of seeing fighting. The cablegram just received reads:

"It has been decided to permit small batches of war correspondents to proceed to the front in a series of tours of about six days each, beginning March 1."

Socialists Protest Food Cost

London, March 1.—A big Socialist-labor demonstration was held in Trafalgar square to protest against the prevailing prices of food and coal. A resolution was adopted expressing indignation and disappointment at the government's refusal to take "effective measures to deal with the alarming increase in the cost of food and fuel." The resolution demands government control of carrying ships and the fixing of maximum prices for the necessities of life.

NATIONAL MEMORIAL AT ARLINGTON



This is a perspective view of the design for a national memorial that will be built soon in the national cemetery at Arlington.

AMERICAN LEGION FORMED TO INSURE U.S. PREPAREDNESS

FORMER MEMBERS OF ARMY, NAVY AND MILITIA FORM ORGANIZATION READY FOR INSTANT SERVICE.

NEUTRALITY TREATIES TO BE BACKED BY FORCE

Plan Is Indorsed by Major General Wood and Former President Roosevelt—First Reserve of Between 250,000 and 300,000 Ready for Emergency.

New York, March 2.—Formal announcement has been made here of the formation of an organization of first reserves to be known as the American Legion, to be composed of former members of the army, navy and militia, which will better insure the nation's preparedness in case of war.

Captain Gordon Johnston, aide de camp to Major General Leonard Wood, commanding the department of the east, made the announcement on behalf of a group of army and navy men who, in an unofficial capacity, are acting with civilians in promoting the movement. Captain Johnston said it is planned to establish within a short time a first reserve of between 250,000 and 300,000 former army and navy militiamen for instant call in case of emergency

General Wood Indorses Plan

Major General Wood already has given the plan his unofficial indorsement and former President Roosevelt has written a letter approving the proposal. Other public men have indorsed the project and a statement by the promoters says that former secretaries of war and of the navy have indicated their willingness to act in an advisory capacity.

Asserting that he and his four sons will become members of the legion, Colonel Roosevelt in a letter to the organizers says that in the event of war he intends to ask Congress for permission to raise a division of cavalry. Mr. Roosevelt's letter in part follows:

"I and my four sons gladly will become members. I very earnestly hope and pray that there will be no war; but the surest way to avert war is to be prepared for it, and the only way to avert disaster and disgrace in war is by preparation, both military and naval, in advance."

Ready for Instant Service

Colonel Roosevelt says he will gladly serve as chairman of the legion's board of honorary advisers. He says "it is idle for us to trust to arbitration and neutrality treaties until backed by force. Let us act justly toward others and let us also be prepared with stout heart and strong hand to defend our rights against injustice from others."

THREE ALLIED WARSHIPS ARE REPORTED DAMAGED

London, Feb 27.—Three warships of the Anglo French fleet which bombarded the Dardanelles are said by the Turkish authorities, in a statement issued at Constantinople, to have been damaged. The statement does not refute specifically the British claim that all of the outer forts of the Dardanelles were reduced, but conveys a contrary idea, asserting that the fleet withdrew after a bombardment of 7½ hours.

RURAL CREDITS BILL PASSED

AMENDMENT TO AGRICULTURAL BILL SECURED BY COUP.

North Dakota Senator Turns Democratic Administration Wrong Side Out by Alertness.

Washington, March 1.—Senator Porter J. McCumber of North Dakota has submarined the Democratic administration forces in senate and house.

By securing the passage of an amendment to the agricultural appropriation bill, providing for rural credits, the North Dakota senator turned the Democratic administration program wrong side out.

There were angry mutterings in the house and senate, threats of an extra session, of a presidential veto of the entire agricultural bill, and other measures of a retaliatory character.

The situation is complicated by the apparent inconsistency of Democratic record and Democratic protestations on the subject.

To add to the embarrassment of the administration, Representative Buckley of Ohio, Democrat, proposed to amend the senate rider by attaching to it the provisions of the Bulkley-Hollis bill, a measure which embodies the principle of government aid, a principal that is disapproved by Mr. Wilson.

All of this was brought about by the alert action of the North Dakota senator, who has apparently been watching his chance. Most of the Democratic senators accepted dinner invitations and those that remained during the consideration of the agricultural appropriation bill were apparently asleep. For when Senator McCumber offered his amendment to the agricultural bill for the establishment of a farm credit bureau in the department of agriculture to grant loans on land mortgages and providing a fund of $10,000,000 for the purpose, no one objected and there was not even a record vote.

TO MAKE ALL FOOD FOR GERMANY CONTRABAND

London, March 1.—There is every reason to believe that Great Britain fully intends to make all foodstuffs for Germany absolute contraband, thus cutting off the movement of ships to German ports.

Washington, March 1.—An indication of the British government's attitude towards the American government's informal proposals to Great Britain and Germany for the removal of dangers to neutral shipping, officials here thought, would be forthcoming shortly. At any rate, an answer is expected in a few days. The German government's attitude on the issue is already known to be favorable to making concessions and as supplying the basis for negotiations between the nations involved.

Ministers Not to Discuss War

New York, March 1.—The Church Peace Union, founded a year ago by Andrew Carnegie, has made public here a message which the union has addressed to "the churches and clergy of America," cautioning ministers and church people against partisanship in discussing the European war and protesting against the present agitation for increased armaments. Twenty-nine prominent clergymen and church men, representing all denominations, have signed the message.

U S. Collier Jason Returns

Avonmouth England, via London, March 1.—The United States naval collier Jason, which brought Christmas presents from American children to the children in countries suffering from the war, sailed with exhibits from England and other European countries for the Panama-Pacific exposition at San Francisco. Some of the exhibits were left on the dock, as the captain of the Jason had received orders from the navy department at Washington to expedite his departure.

BLOCKADE LIKELY TO INVOLVE MANY QUESTIONS OF LAW

PROPOSED DECLARATION BY ALLIES CREATES WIDESPREAD INTEREST AMONG DIPLOMATS AT CAPITAL.

BRITAIN MAY STOP SHIPS BOUND FOR GERMAN PORTS

Foreign Envoys at Washington Particularly Interested in Intimation England Does Not Intend to Blockade the German Coast But to Halt All Vessels.

Washington, March 2.—Inasmuch as the United States government has not been advised either through Ambassador Page or the British embassy here of the reported notification to neutrals of Great Britain's intention to hold up all shipping to and from Germany and Austria, officials are unable to express any opinion upon this latest development.

From the brief press reports of Great Britain's plans it was thought in official quarters that a blockade of an unprecedented character was in prospect, likely to involve many complicated questions of law.

International Law Involved

It was pointed out that no question has been the subject of more controversy in international law than that of blockade, and officials said until the text of Britain's declaration was received and carefully examined, it would not be possible to say whether the United States would recognize it as binding with regard to American vessels.

The proposed declaration by the allies created widespread interest among diplomats. Some of the foreign envoys from neutral countries were particularly interested in the intimation that Great Britain did not intend to maintain a blockade of the German coast, but would hold herself at liberty to stop all shipping, no matter where encountered on the high seas, it bound to or from Germany.

Blockade by England

There is no exact precedent for such a policy, but it was considered likely in diplomatic circles that discussion as to its validity would be based on the theory that a "blockade" was being attempted. International law has several rules as to the maintenance of a naval and commercial blockade, many of which have been incorporated in convention ratified by the present belligerents as well as treaties between the United States and some of the European powers.

DARNELL INDICTED FOR VIOLATING MANN ACT

Milwaukee, March 1.—Rev. James Morrison Darnell, charged with violating the Mann act, has been indicted by the Federal grand jury, according to announcement from the United States district attorney's office

Amended Ship Bill in Congress

Washington, March 1.—The commerce committee has reported the ship purchase bill to both house and senate. Administration leaders have decided to delay final action on it until next week. It will come up in the house, which probably will adopt the conference report under a special order limiting debate to one hour. Then its suporters will make a last desperate attempt to get it through the senate before March 4. As amended it was believed the bill would suit the Progressive Republicans.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Was a Surprise.

Officer (instructing recruit in signaling)—Didn't you get that message?

Recruit—Yes, sir: "Three taubs and a Zeplin comin' hover the 'ill."

Officer—Then why the deuce didn't you send it on?

Recruit—Well, sir, Hi couldn't 'ardly believe it.—London Punch.

IF BACK HURTS CLEAN KIDNEYS WITH SALTS

Drink Lots of Water and Stop Eating Meat for a While if the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

Making It Plain.

"You are putting the cart before the horse."

"I don't understand what you mean by this figure of speech."

"Well, I'll frame it differently. You are putting the tonneau before the wind shield."

TRY THIS EASY WAY TO HEAL YOUR SKIN

If you are suffering from eczema, ringworm or similar itching, red, unsightly skin affection, bathe the sore places with resinol soap and hot water, then gently apply a little resinol ointment. You will be astonished how instantly the itching stops and healing begins. In most cases the sick skin quickly becomes clear and healthy again, at very little cost. Resinol ointment and resinol soap also clear away pimples, blackheads, and dandruff. Sold by all druggists. Adv

TURKS LOSE 5,000 IN BOMBARDMENT BY ALLIED FLEET

WESTERN DEFENSES OF CONSTANTINOPLE ARE SMASHED BY POWERFUL PROJECTILES OF DREADNAUGHTS.

MONOPLANES FLY OVER PLAIN OF ANCIENT TROY

Ottoman Capital Is in Terror According to Dispatches from Cairo—Campaigns in Caucasus and Along Suez Canal Abandoned—Allies to Sieze Isthmus.

London, March 2.—Fifteen miles inside the Dardanelles, the greatest fleet ever assembled for a bombardment is smashing the western defenses of Constantinople into ruins. A lighthouse south of Fort Killa Bahr, on the European side, has been demolished. Hurling 1,950-pound projectiles, the mammoth dreadnaught Queen Elizabeath already has inflicted severe damage on the fort itself, one of the strongest in eastern Europe.

Turkish losses in the bombardment thus far total 5,000 dead and wounded, according to a cablegram from Saloniki. Troop trains from Constantinople are clogging the railways on the European side, and the Turkish wounded lie behind the forts without medical attention. A powder magazine of one of the inner forts was blown up.

Fly Over Plains of Troy.

Mahomet's centuries-long hold on the Dardanelles is being slowly loosened. French monoplanes are darting over the plains of ancient Troy on reconnoitering expeditions. Fighting between landing parties and Turkish infantry is occurring within a mile of Achilles' tomb.

Unconfirmed reports published here assert the allies will seize the isthmus at its narrowest part, near Bulair, and cut the European forts off from communication with Constantinople. One report had it that this feat actually has been accomplished by landing parties in the Gulf of Seros. Military experts, however, did not credit it. They pointed out that large bodies of Turks on the European side of the strait could cut their way through the isthmus by weight of numbers.

Newest Dreadnaughts in Fleet.

Other reports received here said not only the Queen Elizabeth, but at least one of its sister fighting monsters is training 15-inch guns upon the sultan's fortifications. The admiralty refused to confirm this. For many weeks nothing has been known of the whereabouts of the newest dreadnoughts.

The Turks are reported to be sinking merchant ships in an attempt to block the straits.

From Athens and Cairo came dispatches indicating that the Ottoman capital is in terror. The Turkish general staff has summarily halted the Turkish campaigns in the Caucasus and along the Suez canal. A dispatch to a London newspaper from Cairo said that the Turks are evacuating Sinai peninsula, abandoning some of the guns they dragged across the desert for an assault upon the canal

WIDOW OF HUTCHINSON FOUNDER PASSES AWAY

Hutchinson, Minn., March 2.—Mrs. Ellen M. Harrington, one of the last of the pioneer settlers, died in her home here. Mrs. Harrington was the widow of Lewis Harrington, who was one of the founders of Hutchinson, with the famous family of singers. She was a member of the Territorial Pioneers of Minnesota, as she came to Hutchinson from New Hampshire in 1857, and thereafter figured prominently in the affairs of this community.

In 1862, when many of the men had proposed fleeing to Minneapolis from the perils of attack in the Indian massacre, Mrs. Harrington and two other women rallied the settlers to remain and defend the town in a stockade fort. Ever since then her leadership had been no less vigorous, and the fact that she was known to all here as "Aunt Ellen Harrington" is taken as a token of the affection in which she was held by all.

Her daughter, Mrs. H. I. Merrill, wife of the president of the Minnesota Educational association, and her son, W. E. Hutchinson, president of the Citizens bank of Hutchinson, survive her.

Wilson May Intervene

Washington, March 2.—President Wilson may be asked to intervene directly in the eastern Ohio coal strike. Representative Francis told the President he might later ask him to take steps to restore industrial peace in that region.

Schaller on Supreme Bench

St. Paul, March 2.—Albert Schaller, former state senator, named by Governor Hammond to succeed the late P. E. Brown of the supreme court, has been formally inducted into office. The ceremonies attending the swearing in of Justice Schaller were simple. The other judges and the two court commissioners gathered around him in the consultation room and Chief Justice Brown administered the oath prescribed by the constitution. At noon Justice Schaller visited Governor Hammond and paid his respects

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10 cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Vanity makes a cheap chromo feel like an oil painting.

His Own Medicine.

A medical practitioner on board an ocean liner administered, rathed freely, sea-water among the patients who were ill. No matter what their ailments were, a dose of the briny fluid was quickly handed to them, and they were told to drink it up.

One morning the physician fell overboard, which caused quite a consternation among the passengers. The captain came to the scene and inquired the cause.

"Oh, it's nothing, sir," answered one of the sailors, "only the doctor has fallen into his own medicine chest."

A RICH MAN'S ROMANCE.

Would you believe it, the ordinary Potato has made Henry Schroeder, a poor emigrant boy, the Rich Potato King of the Red River Valley and wound around him a romance which every ambitious farmer boy will want to read in Salzer's Seed Catalog.

Among Mr. Schroeder's strong statements are: "In years of Potato plenty, plant plenty Potatoes!" Or, in other words, when Potatoes are plenty and cheap in Fall and Winter, plant plenty Potatoes the following Spring, and look for 70, 80, 90c Potatoes in Summer and Fall. Good common sense advises that. Worth following every time!

Ten bushels enough seed to plant an acre of Schroeder's Famous Ohio—that great Potato—good in early Summer, good in Winter, good in Fall, good all the year around—the 10 bushels blood blue seed stock cost but $15.00. Order now of us. Headquarters for Alfalfa.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

Canadian Wheat to Feed the World
160 ACRE FARMS IN WESTERN CANADA FREE
The war's fearful devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and there is an unusual demand for Canadian wheat. Canada's invitation to every industrious American is therefore especially attractive. She wants farmers to make money and happy, prosperous homes for themselves while helping her to raise immense wheat crops.
You can get a Homestead of 160 acres FREE and other lands can be bought at remarkably low prices. Think of the money you can make with wheat at its present high prices, where for some time it is liable to continue. During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax.
Mixed farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.
Military service is not compulsory in Canada, but there is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government this year is urging farmers to put extra acreage into grain.
Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or

SNAPS FOES' TRENCH

French Officer With Kodak Is Welcomed.

Tells Remarkable Story of His Experience in Getting Picture of the Germans—Men Seemed Quite Happy.

Paris.—L'Illustration, France's leading pictorial weekly, recently contained a remarkable story and a remarkable photograph of an incident which occurred in the famous forest of the Argonne. Both picture and narrative are the work of a French junior officer, who writes:

The general one morning said to me: "I want you to make your way to our first line, and if possible photograph the German trenches 20 yards away. Mind you, keep your wits about you, for the enemy shoots the first kepi he sees and the moment he hears a sound!"

Amid a mass of branches I perceived our lads. A lieutenant, warned by telephone, was expecting me. In a penetrating whisper he said: "Hist! they're only fifteen meters off." I soon reached a faggot hedge, and peeping through, with the aid of a field-glass, I could distinguish a heap of fresh soil ahead. It was the German trenches.

"Don't look too long," said the lieutenant, "or a bullet will whip that periscope from your hand. What we'd like to know is whether they're 'bad boys' or 'good boys.'"

By "bad boys" he meant the Prussians, who fling grenades, bombs, or minenwerfer shells morning, noon, and night; and by "good boys," the Saxons, who are lazier, and leave us in peace for hours at a stretch.

We kept as still as mice all the while, watching intently. Suddenly the lieutenant began to whistle a popular German song:

Drunten im Unterland,
Ei! da ist's so wunderschoen,
In the valley below
How glorious the life!

He stopped. We never moved a muscle. Then from the trench opposite came the concluding couplet, whistled in the same key:

Ei da ist's so wunderschoen,
Da moecht' ich Jaeger sein!
How glorious the life
With the huntsmen you know!

I could hardly believe my ears. At my side a soldier exclaimed: "Look, there's a German. That's the first we've seen alive since the war began."

"Hold your tongue! Do you want to be bombarded?" This from the lieutenant.

"Heavens!" pursued the soldier, whom artillery had made deaf, "there's a couple, one with a green cap and something shining on it."

With my glass I could easily see two German heads just appearing above their parapet of earth—a sharpshooter and a Bavarian infantryman.

They saw the blue kepi of our impudent "piou-piou." In genial tones they called out, "'n Morgen Kamarade." (Good morning, comrade.) Then other heads appeared. I counted five; one belonged to an officer. This seemed to be the psychological moment to get a useful and curious record. So I handed the lieutenant the camera and he held it above the trench and cried out "Photographiren?"

"Ja, Ja," called back the Germans, whose round faces broke into a broad smile.

I quickly scaled our trench, and getting possession of the kodak I stretched myself flat on the loose soil and focussed the German trench. "Click," and with a salute to the enemy I dropped back into the trench, just as a cheery "Dank" came across the intervening space.

They seemed quite happy. One of them went so far as to throw us a packet of cigarettes. A bough stopped it, and instantly a German came out of his trench, apparently with the object of picking it up and handing it to us. But the lieutenant, with a grim smile, pointed a revolver at him; the Teuton returned, and the cigarettes stayed where they were.

PEN PICTURE OF EMPEROR

Glimpse of William II as He Appeared Recently at Eastern Battle Front.

Amsterdam.—An interesting pen picture of Emperor William appeared in the Kreuz Zeitung, an army organ published in Berlin, from its correspondent on the eastern front. It says:

"The emperor appeared with General von Mackensen, passing along a line of troops. For the moment I had an impression that he had grown terribly gray, but that was an error arising from the fact that the head protector he was wearing to keep off the terrible cold was gray.

"As a matter of fact the emperor appeared extraordinarily fresh and elastic, though there was an added seriousness noted in his features and a certain bitterness in his voice which formerly was not there."

FIRST GIRL IN 120 YEARS

Heirs of Cunningham Family Have All Been Boys Until This Baby Arrived.

San Antonio, Tex.—The first girl to be born in a family for about four generations, or about one hundred and twenty years, was born to Mr. and Mrs. W. A. Cunningham, 627 West Russell place, recently. They have christened the baby Mary Elizabeth.

Mr. Cunningham and his brother, John H. Cunningham, belong to an old Tennessee family and have made their home in San Antonio for about nine years. In each generation for the last century and more sons have been born into the family, and have carried the name of Cunningham into many states. The birth of the first daughter was an event of no little importance in the family of Cunningham.

MAN, 75, TO HUNT LOST MINE

Plans to Lead an Expedition Into Far North In Search of Old Claim.

Princeton, B. C.—Col. Robert Stevenson, veteran mining man and explorer, is at work on the Gladstone mine, near Allison, and has some fine ore. Although seventy-five years old, he is planning to lead an expedition to the far North in search of a lost mine, which was worked in the Cariboo placer days by two men, Rose and Johnson, both of whom were killed in a quarrel about their discovery.

Colonel Stevenson was acquainted with the men and has information which leads him to believe he can recover the ground, which is on a tributary of Antler creek.

TOWN ENTIRELY TOO GOOD

Hoosier Marshal Quits In Disgust When Only One Arrest Is Made In Two Years.

Hammond, Ind.—Two years ago Oddy Crouch was inducted into the office of town marshal of Nashville with great acclaim. His salary was to be $1 a week and $5 for every arrest he made. Oddy thought he was going to make a fortune. Recently he resigned in disgust. In the two years he had been marshal of Nashville he had made one arrest, netting him $5.

"They are too danged good in Nashville," said Oddy. "I'm going to Chicago to be a detective. Them's the boys that get the money."

HAS HIS OWN WAR

Gunner With Traction Engine Plays Lone Hand.

British Officer Tells of "Funny Old Cove" Who Travels About With Field Piece and Fires When He Is Ready.

London.—While it is said that modern warfare does not give to the individual many chances to distinguish himself, a British cavalry officer in a letter to the London Times tells of a gunner who carries on a little war of his own. Going about on a traction engine, towing his gun behind him, he unlimbers, fires a few shots and goes on his own way. That his work, no matter how amusing, is effective is told by the officer, who says:

"There is one incident I must cite; it amuses us mightily. Some time ago, when closer to the lines, we were out exercising one fine morning when the funniest old outfit came along—some old guy gunner with a big gun towed by a sort of traction engine. He was a funny looking old chap. He stopped his caravan, consulted some notes, and swung around into position and let off a couple of shots. The first one over, second short, and it appears he was quite satisfied with the next four, for he started packing up again.

"He had a kind of aeroplane with him, too, on a lorry, also in tow. He was the funniest looking old cove you ever saw; seemed to be running a little show of his own. Last we saw of him was around the corner with his traction engine half mired in the ditch. But it appears he knew what he was about, for he put one of the enemy's guns out of action with the four shots.

"Those little motorcycles—we call them wasps, for they it is that sting us into action. You're snugly between blankets and you hear the snorting and buzzing of one coming up the road. You hope he goes on—but no, he stops outside headquarters. You hold your breath. If he proceeds at once it's an ill omen, as he wants no reply but his receipted envelope, and it's 'turn out,' full parade marching order, first line transports and all.

"He waits, and after five minutes wriggles on his road, coughing and snorting and sparking, and it's all right and you can go to sleep again. The wasps—the beggars always get you on the hop—those are the dispatch riders, through which all our orders come.

"There was a park of flying men near our last billet. They brought down a taube with rifle fire from two of our planes that went up after him. They have one very fast biplane there. I heard one very great yarn of a big observer. While he was flying over the German lines and returning against a strong head wind the machine gave a heavy jerk and dip and sent his gun, map case, etc., overboard. Some seconds after the pilot felt a great bump. It was his pal coming back into his seat, from which he had been absent much too long for his own comfort.

"The wings of the machine were riddled with shrapnel and the pilot and observer had to sit tight over their sheets of armor plate. I think they are worthy of the greatest praise. The only thing we envy them is the impossibility of their being turned out at night. They can work only by day."

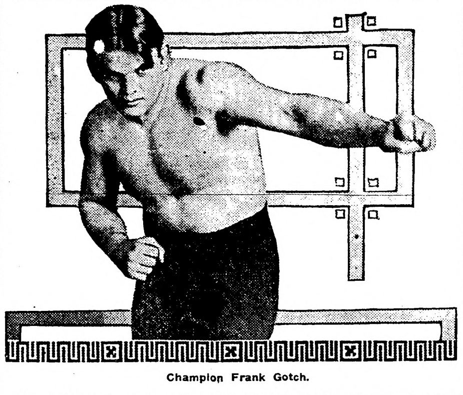
COLONIALS IN EGYPT

The men of the Colonial division which is encamped near the pyramids in readiness to defend the country against threatened Turkish invasion have quickly settled down to make the most of life in the desert. The picture shows an officer of the Colonial troops riding an unaccustomed steed.

Small Girl Fast Typesetter.

Nashville, Ind.—Margaret Allison, aged eight, is one of the youngest printers in the state. Each evening, on her way home from school, she stops at the Democrat office, where she makes from fifty to seventy-five cents setting type at 20 cents a thousand. One galley of the type she set by hand in three hours. Mr. Allison, father of Margaret, is one of the fastest compositors in this part of the state.

WRESTLING GAME IN COMATOSE CONDITION



Champion Frank Gotch.

The once-popular but sadly mistreated sport of wrestling was in a comatose condition during 1914.

While the faking management of the game was largely responsible for its recent downfall, after a strong revival, the European wars, both Balkan and all-Europe, had a lot to do with its demise.

Of recent years, nearly all the excitement that could be scared up was created through the importation of terrible Turks, horrible Greeks and pests of various other nations.

These large, uncouth apparitions were taken round the country, on carefully arranged tours, "meeting" and "defeating" a flock of home-grown wrestlers, who were sent a jump ahead of the European "champions," and who met them again and again—always the same inner circle, of course, with no rash outsiders or really ambitious youngsters permitted to cut in.

Frank Gotch, who used to come out of his cage and leisurely flop the horrible Bulturkians, after they had been sufficiently advertised, grew tired of it, and hasn't emerged for quite a while. And then—the war finished up.

The terrible matmen of Europe, of course, are large, husky—far bigger and stronger than the average. They had no chance to escape the eagle eye of the recruiting officers.

Give them credit for a match that wasn't "framed"—those who had to return to the colors, as a rule went back gallantly, and tackled an opponent who wouldn't "lay," wouldn't stall, and wouldn't even stand for a draw.

Those who didn't feel like returning to the flag were mostly induced to do so, anyhow, and right now there are very few European wrestlers at liberty to wrestle anybody but the gents in the other uniforms. Many of them have fallen in battle, and by the time they can cross over here again the survivors will probably find that the whole wrestling game has been forgotten.

COSTLY MISTAKE IN NAMES

Waivers Are Asked on Grover Cleveland Alexander When His Brother Was Player Intended.

Waiver on Grover Cleveland Alexander! This caused more excitement recently than the time when Larry McLean stole second. Clubs looked at the waiver notice in amazement and then demanded to know whether President William F. Baker had suddenly gone locoed.

Grover Cleveland Alexander.

Here's the story: The Phils decided to waive on R. S. Alexander, a brother of the famous Grover, who was permitted to drill with the other tossers in the morning last summer. When the notice reached National league headquarters they changed the name to Grover C. Alexander, because they never had heard of his brother.

A rain of wires reached the Phils' office and President Baker had to answer every one of them and explain the mistake.

No Echoes for Heinie.

Christy Mathewson declares that Heinie Zimmerman is a mighty hard man to beat on a golf course.

"I was playing with Heinie one day," said the pitcher of the Giants, "when he sliced his ball into an abandoned quarry. He went down into the pit and was gone for some time. After he came up I asked, 'How many did you play, Heinie?'

"'Three,' he answered.

"'Hold on there,' I interrupted. 'I distinctly heard six strokes.'

"'Oh,' Heinie answered, 'the other three were echoes.'"

Moakley Used to Championships.

Coach Jack Moakley of the Cornell university has developed winning squads in eastern intercollegiate races 19 times, having won the cross-country title 14 times and the track and field championships five times, including last year, which gave them possession of the valuable silver cup.

WHY NOT THIS?

Trotters and pacers always have their marks after their names; so why not transmit the idea to baseball? Thus:

Ty Cobb, .368, may omit the Southern training trip.

Hans Lobert, .275, is spending the winter in Cuba.

Connie Mack has sold Eddie Collins, .344, to Chicago.

Boston parts with a bundle and gets Sherwood Magee, .314.

Heine Zimmerman, .296, declares that he will get Johnny Evers, .279, the first chance that offers.

Charles Deal, .210, wanted more coin and got 23.

The Phils failed to swap Milton Stock, .263, for Heine Groh, .288.

SPORTING WORLD

Charlie Swain, who with Seattle last year set a new world's record for home runs by making 34, surpassing Ping Bodie's old coast mark, has recently had his right leg amputated after an accident.

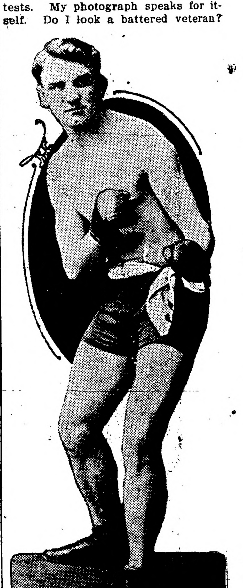
Wall street is determined to conceal the real business crisis of the country. They do not even mention Tom Sharkey leaving New York.

CHAMPION PUGILISTS TODAY

Boxer Is Somewhat Different From His Beetle-Browed Predecessor—Must Possess Brains.

"The boxer of today," writes Freddie Welsh in Strand, "is not the beetle-browed and scarred veteran of the past. He must, if he hopes to approach championship class, be a man possessed of brains, a man with a capacity for thinking all the while a contest is in progress. He must be cool and level headed. Once he loses the command of his temper all is lost. He becomes wild and erratic, he loses touch with the finer points of the sport altogether, he becomes just a target for the gloves of his opponent. They tap him from all quarters with irritating frequency, the points are scored up against him at a lightning rate, and, although he may be strong and well at the end of the final round, he is the loser.

"Take any of the modern champions, and what do we find? Just that they have come out of their contests practically unmarked. Speaking for myself, during my career in the ring I have taken part in 113 contests. My photograph speaks for itself. Do I look a battered veteran?



Freddie Welsh, Champion Lightweight.

I know I would not win any prize beauty championship, but I am just driving home a point that a man need not carry the marks of the fray about with him. In nearly ten years of boxing with 113 opponents and 1,000 sparring partners, I have never yet had a black eye."

PRIZES TEMPT THE AMATEUR

Valuable, Yet Useless Trophies, Lead Winners to Realize In Cash—Bronze Is Suggested.

The recent agitation concerning the amateur standing of a champion athlete makes sport followers wonder if the clubs are not largely responsible for the class of semipros which undoubtedly is growing larger all the time. An amateur is a man who competes solely for glory, without thought of financial gain. If an amateur refuses to enter a meet unless the prizes have a considerable cash value, what do the men in charge of that meet suppose he is going to do with any prize he may win? They must at least suspect, and they must close their eyes on suspicion.

Under the present rules a man is forbidden to sell his prizes. Such as he wins he must keep, but, to quote Goldberg, after he's got 'em, what is he going to do with 'em? The best he can do is to say to someone, "Come on up and look at my medals." He can't wear them without being taken for the president of a South American republic.

The majority of real amateur athletes are persons of limited means. Is it fair for the clubs to deliberately put temptation in their way? A man with one suit of clothes and seven gold watches has a natural inclination to pass the time. Suppose, instead of watches, diamond rings and solid gold and silver trophies, only bronze medals were offered as prizes. A bronze medal could be so handsomely worked out that it might cost a good deal of money, and yet it would have very little real cash value. Then the men who depend upon the money they can make out of their skill on field and track would be forced into the open and the temptation to secretly transgress amateur rules would be largely removed.

Keep Four-Mile Crew Race.

Definite decision that the varsity event in the intercollegiate regatta on the Hudson should remain at four miles was reached by the board of stewards of the Intercollegiate Rowing association at the annual meeting. The date for this year's regatta was fixed as Monday, June 28.

At South-End-on-the-Sea, at the mouth of the Thames, large numbers of captured Germans are kept on liners. The photograph shows the funeral of one of these prisoners. He was buried with full military honors and the other prisoners were allowed to act as pallbearers and join in the cortege.

HOW AMBITION LED YOUNG GIRL

Miss Fannie Hurst's Long and Hard Apprenticeship in Story-Writing.

PERSISTENCY WON AT LAST

Interesting But Not Always Pleasant Experiences Working in Stores, Restaurants and Sweatshops to Gather Material for Yarns.

By RICHARD SPILLANE.

(Copyright, McClure Newspaper Syndicate.)

Usually it is poverty that gives spur to ambition and plenty that dulls it. Money, ease and recognition are the beacons that crown the heights of success. The more distant they may be, the more brilliant they seem.

There was no spur of poverty in the case of Fannie Hurst. She had money and she had ease. Her father was wealthy. Her home was charming. Tens of thousands of young girls would have thought themselves blest if they were in her place. She probably would have been perfectly happy and never been heard of had not ambition somehow taken root in her brain and started her to do things wealthy girls rarely attempt.

Fannie Hurst's home is St. Louis. Her parents gave her every educational advantage. After her regular schooling she went to Washington university, and then in 1909 she went to New York to take a postgraduate course at Columbia.

While she was in Washington university she had two desires that are not unusual with girls. She wanted to be an actress and she wanted to be a great writer. Her parents smiled at her talk of the stage and smiled when she talked of writing. She dreamed of the day when she would be an actress, but contented herself for the time being with writing things which she thought would set the world afire.

She had lots of ideas. She had a keen and observant eye. There is a publication in St. Louis to which she sent some of her productions. She sent others to the newspapers. At first most of them came back. A few were printed. She never has known greater joy than she felt the first time she saw in print something she had written. There was an added joy when she got money, real money, in payment for it. She went and saw the editor. He was more than kind to her. He made suggestions that were of great value. He explained wherein some of her work was crude, pointed the way to good writing, and cheered her with the statement that she had promise. Then he gave $10 to her for one of her yarns.

She wrote and she wrote and she wrote. The editor printed some of these stories, and when the spirit moved him he put some bills in an envelope and sent the money to her through the mail. Even the newspapers paid her for what they accepted. She made enough out of her writings in six months to almost pay her candy bill.

New York Editors Were Chilly.

In New York she found the editors colder than in St. Louis. She was to put in two years in Columbia. She was to attend three lectures a week. She had to devote a good many hours to study but she had some spare time. She improved the opportunity by doing a little writing. Most of the stuff she wrote was short, the sort of matter that is called fillers. She sent this stuff to the Sunday newspapers. Most of it came back. A little of it was printed. She thought if she could see one of the editors and talk with him she could make him understand the value of what she was writing, and possibly open the columns to her. She went to the office nine times and sat in an anteroom until even the office boy felt sorry for her. It is hard for a newcomer to get audience. It is not the editors' fault. Most of the editors are overrun with visitors. If they saw all the people who go to newspaper offices they would have no time for their work.

She lost hope about this time of ever making an impression as a writer and her thoughts were turned toward the stage. As a matter of fact, the stage always had been uppermost in her mind. Writing was only a secondary consideration. She determined on a theatrical career. After a lot of trouble, she got an engagement. It was a small part in "The Concert," which play was put on by David Belasco. She was to get $15 a week. She appeared in two consecutive performances. The second night after the show was over and she was leaving the theater, a gentleman met her at the stage door. He was her father. He had come to New York on business and had gone to see the play. When his daughter appeared in the cast he was astounded. He hurried out of the house, and when the show was over he talked to her as only a father can. Then he took her to St. Louis. She remained there for two months, and was permitted to return to New York only on her promise that she would give up all thoughts of the stage.

She resumed her studies at Columbia, and again took up writing. Most of the stories she turned out were fiction. Nearly all of her productions came back. Every time the postman rang her bell her heart sank. The maid would come in with a bulky envelope in her hand and with the announcement: "Here's another one come back, Miss Fannie," would hand it to her.

But one day the postman brought, not a rejected manuscript, but a check for $30. A second or third-class magazine had accepted one of her stories, entitled "The Seventh Day." She was so joyous that she kissed the check, figuratively hugged herself, danced about the room and acted as only a girl can act when greatly excited.

That one acceptance revived all her hopes. One of her friends who knew the editor of a magazine took her down to that gentleman's office and introduced her. He was very kind, but didn't waste words.

"What have you to submit?" he asked. She had gone to him empty-handed.

"Go home and write something and bring it in," he told her.

She did. He read the manuscript. Then he gave it back to her.

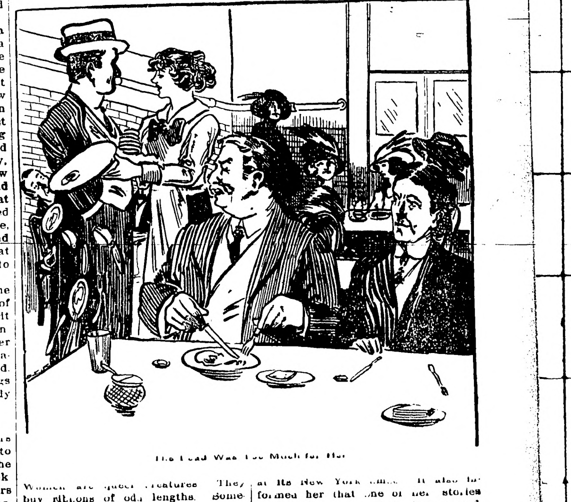
"Young lady," he said, "you can write, but you do not know how to handle a story yet."

Then he made a lot of rapid-fire suggestions. She rewrote that story three times. The third time the editor accepted it. He accepted two other stories, but he made her rewrite them, and rewrite them and rewrite them.

Going After Material.

To get material for stories she did some astonishing things. She wanted to develop a field of her own. She did. She wanted to know at first hand about the shop girls. She applied for a job in a big department store. It took her six weeks to get an engagement. She had her heart set on being assigned to the ribbon counter. As luck would have it, that is the work to which she was assigned. She was to get $6.50 a week.

If anyone thinks the girl at the ribbon counter has an easy thing of it, he will be disillusionized by Miss Hurst. With all her education she never has mastered mathematics. The first day at the ribbon counter was one of terror to her. Some of the stores sell their ribbons at all sorts of odd prices. Some of it is ten cents a yard, some 17½, some 22½, and so on.



The Load Was Too Much for Her

Women are queer creatures. They buy ribbons of odd lengths. Sometimes they want 7½ yards, sometimes 12½ yards. When a lady would order 7½ yards of 17½-cent ribbon, Miss Hurst would have a terrible time. She couldn't figure out 7½ times 17½ in less than half an hour, and then nine chances out of ten the result would be wrong. All the salesgirls keep a book of their sales. Miss Hurst was short in her accounts that first day. She was short in her accounts the second day, and the third day, and the fourth day, and the fifth day. At the end of the fifth day the floor manager called her aside and informed her that she was discharged.

When she got home she didn't know whether to laugh or to cry. She believes she never would have been discharged if it were not for the abominable custom of selling things on the fractional plan. She made a lot of acquaintances in the store. None of the girls had an idea of what she was there for. Some of them are her friends today. They do not know she is a writer.

After her ignominious dismissal she sought some more experience. She got a job in a popular cheap restaurant. She was to get seven dollars and a half a week. Incidentally, there was a chance for tips. She wasn't a success as a waitress. She tried to do as the other girls did but she didn't have the ability. She never could master the art of racking up plates, saucers, cups, knives, forks and spoons in great pyramids on her left arm and marching serenely down the aisle. She did the best she could, but her best was very poor. Several times the load was too much for her, for she had not been skillful in stacking the stuff up, and she let the pile fall.

She served men and she served women. She never got a tip from a woman. Maybe it was because she was such a bad waitress. She got tips from the men, however. Maybe they sympathized with her. In that restaurant she met a man whom she considers the kindest, politest and most generous human being she has ever met. His clothes were shabby and his linen was frayed. It was worse when he departed than when he came in, for she spilled coffee down his left arm, onto his collar and onto his neck. The poor man didn't scold her, or didn't even frown. He mopped the coffee off his coat sleeve and off his collar, and he wiped his neck. And after that he gave her a five-cent tip.

She didn't remain in that restaurant long. It was not her fault. She was fired. She went out then and looked for another job. So far as she knows, no one had recognized her, but in the department store two or three persons from St. Louis looked at her sharply, and she believes they recognized her, or thought they did.

In a Sweat Shop.

Her third job came through an advertisement. The ad called for rippers. That is a trade term in the tailoring business. She got an engagement in a sweat shop in Allen street. Of all the congested sections of New York there is none that is worse than Allen street. The shop in which she got employment was a wretched one. Most of the employees knew no English. Nearly all spoke Yiddish or a Polish dialect. She went to work by the piece. A good ripper could earn 50 cents a day. Miss Hurst was no better as a ripper than she was as a ribbon girl or waitress. She earned her car fare and a little over. She probably was considered as a hopeless subject. The boss discharged her.

After leaving the sweat shop she plunged into writing. She had gathered a lot of material. She had kept her eyes and her ears open, not only in the department store, the restaurant and the sweat shop, but on the streets, in the subway, in the "L" trains, everywhere. She was gathering impressions, studying life, thinking of people, creating situations. She wrote story after story, and sent the articles out. She sent various manuscripts to a publication that has the largest circulation of any in America. They came back regularly. She sent them elsewhere. Occasionally she sold one. She was sure that she was going to succeed sooner or later. One day she got a letter from this publication of great circulation. It asked her to call at its New York office. It also informed her that one of her stories which she had called "Power and Horse Power" had been accepted. She went to the office considerably exercised. She had made up her mind that she would ask a big price for that story. She would insist on getting a hundred dollars. The gentleman was very polite. He told her the editor was very much impressed with her work, that he had been watching her for a long time and that she had been showing steady improvement. The publication wanted her to submit all her stories from that time forward, he said.

"Now what do you think your work is worth?" the gentleman inquired.

She tried to say one hundred dollars, but the words would not come. She hesitated and hesitated, and finally said:

"I'll leave it to you."

"Well," he said, "suppose we start at three hundred dollars an article."

She nearly fainted.

That was two years ago. She has been writing, writing, writing ever since. She gets far more than three hundred dollars a story now. She is one of the highest priced story writers in America. If she keeps on as she is doing at present, she is in danger of becoming disgracefully rich on her own account. Half a dozen magazines have offered more money to her than she is getting from the one to which she contributes regularly. Play producers have been after her to dramatize various of her stories. Book publishers have wanted to put her stories in book form. She has turned a deaf ear to all of them. She works harder now than she did at the beginning. Writing to her is not easy. Some days she works five or six or eight hours over a paragraph. She has written and rewritten a story twice or three times; has put it in an envelope ready for mailing, and then has torn it up and rewritten it again.

She is not altogether convinced that she would not have been a success as an actress. But she is pretty well satisfied with her success as a writer.

Uric Acid in Your Food

Even dogs can eat too much meat. Certainly, many people "dig their graves with their teeth." Few get enough exercise to justify a meat diet, for meat brings uric acid. The kidneys try hard to get rid of that poison, but often a backache, or some other slight symptom will show that the kidneys need help. The time-tried remedy, then, is Doan's Kidney Pills.

A Montana Case

Olof Erickson, 518 E. Sixth St., Anaconda, Mont., says: "My kidneys were badly disordered and my back ached intensely for weeks. Sharp catches seized me and I couldn't move; I was just like a paralyzed man. Doan's Kidney Pills brought me quick relief and since using two boxes I have had no further trouble."

MINNETTE'S BILL PASSES HOUSE BY UNANIMOUS VOTE

TELEPHONE MEASURE WHICH WAS VETOED BY EBERHART IS ADOPTED—SEVEN ARE ABSENT.

ANTI-TIPPING BILL FACES LEGISLATURE

Would Make It a Misdemeanor, Punishable by Fine of From $10 to $25, or Imprisonment Not to Exceed Thirty Days, to Accept or Offer Money.

St. Paul, Minn.—The unprecedented vote of 123 to 0 passed Frank E. Minnette's telephone bill in the house. Only seven members were absent or not voting.

The measure is the same which former Governor A. O. Eberhart vetoed two years ago.

The bill was taken up as a special order, and much time was spent in discussing details of its operation, under which the state railroad and warehouse commission would regulate telephone charges and compel physical connection between different systems.

One amendment was adopted regarding the admission of a competing telephone company to do business in a town where another is established. This may be done if 65 per cent of the people of the town so vote at a special election. The bill was amended to provide that if 25 per cent of the voters petition the railway commission that body may investigate the feasibility of admitting the competing company and offer its advice to the voters.

ANTI-TIPPING BILL BEFORE LEGISLATURE

The legislature has before it an anti-tipping bill. It was introduced and inspired, it is related, by the precarious existence country members have led in avoiding the ever out-stretched palm of the bell hop, the waiter, the lavatory crew, the porter, the barber, the check room boy, the check room girl, and the balance of the "tip" brigade.

The bill would make it a misdemeanor, punishable by a fine of from $10 to $25, or by imprisonment not to exceed thirty days, for any person to accept or offer a tip.

The bill is made to apply to those who offer the tips on a thrice-fortified theory, first, that he who tips is unfair to him who can not afford a tip, second, that so long as tips are offered so long will they be accepted, and third, that when persons cease to offer tips proprietors of places where the expectant tip taker has his hunting ground will begin to pay living wages to those now dependent upon tips.

For Distributing Hog Serum.

Without a dissenting vote the Minnesota house passed the bill carrying an appropriation of $30,000 for the extension of the hog cholera serum plant at the state agricultural school and for the establishment of a working fund for manufacturing and distributing the serum to the farmers at cost.

The bill appropriating $250,000 from the school and swamp lands funds as a revolving fund to be used in the construction of roads, bridges and firebrakes in and about unsold school lands and for clearing the lands, was passed by a vote of 71 to 36.

Date of Elections Not Changed.

The bill passed by the house changing the date of the state-wide primary elections from June to September was killed in the senate committee on elections when action on it was indefinitely postponed. Representative Anton Borgen was the author of the bill. Senator W. A. Campbell's bill to changed the two house legislative system to a one body was also killed by its being postponed indefinitely.

Oppose Elwell Law Repeal.

That the Civic & Commerce Association has been working to prevent the repeal of the Elwell road law by the present state legislature is made one of the features of the February Bulletin of the association, which has just been issued.

President Decker of the association wrote to 600 editors of the state calling attention to the importance of the matter and emphasizing, among other things, the part good roads will play in attracting summer automobile tourists to the state.

"Healers" Bill Is Dropped.

Because of the sentiment aroused, Representative C. L. Sawyer's so called "healers" bill, which would compel all persons acting as professional healers to obtain licenses, the bill has been withdrawn.

Works Prepares Bill.

Commissioner of Insurance [illegible] Works has prepared a bill for introduction in the legislature providing that all promissory notes given in payment for insurance premiums shall be non-negotiable, and that the same shall have printed or written across the face thereof the words: "Not negotiable." The purpose of this bill is to prevent unscrupulous insurance agents taking promissory notes for insurance premiums and disposing of the same free from the defenses of fraud or misrepresentation.

AMENDMENT WILL GIVE SALOONISTS MORE TIME

St. Paul, Feb. 26.—County option has been passed by the Minnesota House. The optionists did not have so much as a vote to spare. The bill passed is the same as that passed two weeks ago by the Senate, with the exception of two amendments adopted unanimously by the House.

One of these amendments makes a slight technical correction and the other is comparatively trivial in character. It gives the saloon men, when a county has voted dry, six months instead of 60 days to get out of business.

Two Amendments.

These two amendments make it necessary to send the bill back to the Senate for repassage, but there is no question but that the Senate will concur in these two minor amendments and pass the measure along to the governor who, it is generally understood, will sign it.

The final vote on option was 66 to 62. Two members did not vote. John H. Boyd of Crookston is ill in the hospital. He is an anti-optionist. A. O. Devold, Minneapolis Socialist, spoke against the bill, but did not vote on final roll call.

Both these votes cast against the bill would not have saved it for the optionists had managed to muster 66, which is the majority of all house members required by law, and the 66 stood pat on the final roll call.

For the most part the debate was rather friendly, although Leavitt Corning of St. Paul introduced some remarks about the anti-option members and about Governor Hammond that later on were keenly resented on the floor of the house.

How Members Voted.

The vote on county option was as follows:

For: Adams, Anderson, Bendixen, Bernard, Bjorge, Bjorklund, Bjornson, Boehmke, Christianson, Corning, Dare, Dealand, Erickson, Flinn, Frye, Gill, Gordon, Grant, Guilford, Harrison, J. M., Hauser, Hogenson, Holmes, Hompe, Hulbert, Johnson, T. J., Johnson, M., Kneeland, Knutson, Konzen, Larson, Lattin, Lee, Madigan, Marschalk, Marwin, Morken, Nordgren, Norton, Ollen, Parker, Peterson, A., Peterson, A. M., Pikop, Pratt, Putnam, Sanborn, Searls, Sorflaten, Southwick, Spooner, Stenvick, Stevens, Swanson, Teigen, A. F., Teigen, L. O., Thompson, A. L., Thompson, H. O., Tollefson, Vasaly, Warner, Wefald, Weld, Wilson, Wold, Woodfill. Total, 66.

Against: Baker, Baldwin, Barten, Bessette, Borgen, Bouck, Brown, Burrows, Carmichael, Condon, Davis, Dunleavy, Dwyer, Ferrier, Gerlich, Gilman, Girling, Greene, Hafften, Haislet, H. H. Harrison, E. R. Hinds, J. H. Hynes, Indrehus, Kuntz, Larimore, Lennon, Leonard, Lydiard, McGrath, McLaughlin, Malmberg, Miner, Minnette, Moeller, Mueller, Murphy, Nelson, Nietzel, Nimocks, North, Novak, Papke, Pendergast, Pless, Ribenack, Rodenberg, Sawyer, Seebach, Schrooten, Scott, Sliter, Smith, Steen, Stoetzel, Sudheimer, Swenson, Syverson, Thornton, Welch, Wilkins, Speaker Flowers. Total, 62.

FAILURE TO VOTE MAY BE MADE MISDEMEANOR.

The Minnesota legislature may make it a gross misdemeanor for the qualified voter to fail to cast his ballot unless he has some very good excuse. A bill to provide a penalty for failure to exercise the right of franchise was introduced in the house by L. A. Lydiard of Minneapolis.

If such a law went on the statute books and Minneapolis citizens were as careless of their power of franchise as in elections past, better than half the qualified voters of the city would be subject to arrest and punishment.

The last federal census shows better than 100,000 voters in Hennepin county, but politicians call it a good vote when 50,000 register their preference at the pools on a general election day.

It is said that in the smaller cities a higher percentage of the total possible vote is polled, but in Minneapolis, and the same probably is true of St. Paul and Duluth, less than half those who have the legal right to cast a ballot do so.

SEMI-MONTHLY PAY BILL AGAIN BEFORE SENATE.

The senate has recommended for passage the railroad employes' semi-monthly pay measure, which already has passed the house.

This long-fought law, passed in the house at three different sessions and defeated in the senate, was the subject of a somewhat heated debate, when the measure came up in general orders.

Senator George A. Gardner of Brainerd was the first member to take up an emphatic argument for the semi-monthly law. He declared that many railroad employes constantly are in debt because of the present system of wage payment.

Senator John W. Andrews of Mankato, who spoke against the bill presented petitions from shop workers and others employed in the railroad shops in his district purporting to show satisfaction with the present wage payment system.

Grain Dealers Oppose Teigen Bill.

Announcement by the resolutions committee that a resolution would be offered opposing the enactment of Representative Teigen's bill prohibiting dealing in options by grain dealers, and Representative Mangus Johnson's demand, made on the floor, that he be allowed to address the convention on the resolution, was the first indication that last year's great fight might be renewed at this session of the Minnesota Farmers and Grain Dealers' association, now in session at the West hotel.

STATE NEWS

Resume of Important Happenings of Past Few Days.

TRAINS COLLIDE; 7 INJURED

Engineer May Die as Result of Accident on Milwaukee Road—Snow Storm Is Cause.

Albert Lea.—David Jones of Austin, engineer, was probably fatally crushed and seven persons were more or less injured when a double-header passenger train on the Milwaukee road crashed into a freight train three miles west of here during a snow storm.

The injured are: David Jones, Austin, chest crushed, will die; Hiram Wells, Austin, brakeman, rib fractured, chest bruised; Lawrence Lascovitch, section hand, Armstrong, Minn., three fractured ribs; S. M. Swenson, Austin, left shoulder bruised; William Wallace, salesman, Albert Lea, ribs fractured, bruised about head; Charles Mataju, right ankle sprained; A. J. Hanton, Austin, leg and shoulder injured; Mrs. H. A. Wik, Stettler, Canada, head injured, arm hurt.

The approach of the trains was concealed by the drifting snow. All firemen and trainmen jumped except Jones, who was running the second locomotive of the passenger. When the trains struck the two engines of the passenger train were telescoped.

The passenger train was running about 25 miles an hour. Physicians were called from here by a passenger who walked to a farmhouse telephone. The injured were brought to a hospital here.

'DRYS' CLAIMING MORE TOWNS

Say Spring Elections Will Place Additional Villages in Prohibition Column—Petitions Circulated.

Owatonna.—Residents of Claremont, just east of this city in Dodge county, have obtained the necessary number of signers to a petition to submit the license question at the coming election. Last year the village went "wet" by only one vote and since that time has commanded a liberal patronage from Owatonna, this city being arid. This has caused much criticism and the "drys" are confident.

Blooming Prairie, a village of 1,000 inhabitants, also appears likely to go "dry," according to reports. The Faribault ministerial association is preparing for a hard fight to make that city a part of the dry desert together with Owatonna.

With Claremont, Blooming Prairie and Faribault all oases for Owatonna thirsty ones, in the "dry" column, heavy passenger traffic from this city west to Waseca, the only town where the "wets" seem sure of holding their trenches, will result.

FOUR HELD AS WHITE SLAVERS.

Two Men and Two Women Arrested for Alleged Violation of Mann Act.

Minneapolis, Feb. 26.—Three men and six women were arrested by the Minneapolis police on the request of federal officials for the alleged violation of the Mann white slave act. They were arrested at 307½ Washington avenue south.

Anna Moline, it is charged, brought four girls to Minneapolis from outside the state. She and a man named Harry Allen, who is said to have been posing as her husband, will be charged with transporting women from one state to another for immoral purposes.

Lee Allen, a brother of Harry and his wife, Frankie Allen, may be charged with the same offense. The four girls under arrest will be held as witnesses, together with Peter Silverblade, who was found in the place and employed as a servant. The arraignment will be before United States Commissioner Howard Abbott.

To Discuss Union Station Bill.

Minneapolis, Feb. 26.—A mass meeting of the full membership of the Civic & Commerce association to be held early next week is the principal development following the discussion of the union station bill which arose between J. E. Myers, Douglas A. Fiske and others at the noonday luncheon meeting of that organization.

Veteran Dies at Sauk Rapids.

St. Cloud.—Edward Clifton, 80 years old, a veteran of the Civil War, is dead at his home in Sauk Rapids. Thomas Clifton and Mrs. Mary Parker of St. Paul are surviving children.

"Drys" Wait for County Option.

Caledonia.—Caledonia will not vote on the license issue at the annual election on March 9. The surprise will come in 1916. Working quietly but efficiently the anti-saloon organization is making a canvass and the sentiment shows a majority in this county against saloons. Caledonia and Brownsville are the only towns in the county that are "wet." The village of Spring Grove has never had a saloon, while the village of Houston has been "dry" two years. The opinion is the county will be voted "dry."

PUZZLES TAX COLLECTORS

Million Dollar Ante-Mortem Gift of Securities May Come Under Inheritance Tax Law.

Duluth.—A "Million Dollar Mystery" has been put up to Attorney General Lyndon A. Smith to solve.

The mystery originated in Duluth on the death of Joseph Sellwood, banker and mining magnate. He died February 25, 1914. The case involves the taxability of $1,000,000 in securities left as an ante-mortem gift to his son, Richard M. Sellwood, and daughter, Mrs. La Rue S. Mershon, under the inheritance tax law.

Here is the mystery:

Why did Mr. Sellwood hide from the world the $1,000,000 securities in a safety deposit vault? Did he intend to defeat the inheritance tax law?

Attorney General Must Decide.

W. J. Stevenson, attorney general in charge of inheritance tax matters, is working on a solution of the matter. He must decide whether the securities were made gifts to the children in anticipation of death and therefore are subject to the same tax as inheritance, or that the property only was set aside for his children and that the ownership did not pass to them until death.

PREDICT RISE IN GEM PRICE

Minnesota Jewelers, in Convention, Declare Diamonds Will Feel Effect of European War.

Minneapolis, Feb. 25.—Marked increase in the price of all jewelry within sixty days will follow a 30 per cent increase in the cost of doing business, according to visiting delegates at the opening session of the Minnesota Retail Jewelers' association convention at the West hotel. Diamonds, especially, will feel the effect of the European war and the destruction of the diamond industry in Belgium, the delegates say.

"Jewelers haven't the nerve to charge what their goods are now worth," said John L. Shepherd of New York. "To the cost of the goods we should add the cost of doing business and then another 10 per cent for ourselves," said J. H. Lepper, president of the Iowa Retail Jewelers' association. Other speakers said the cost of labor was up 60 per cent over the figures of ten years ago and other costs of doing business have increased.

WINONA IS OPPOSED TO LAW

Manufacturers and Jobbers May Start Campaign for Repeal of the Cashman Act.

Winona.—The question of the advisability of starting a campaign for the repeal of the Cashman distance tariff law, enacted two years ago, is being considered by the manufacturers' and jobbers' committee of the Winona Association of Commerce.

Winona commercial and manufacturing interests opposed the law from the start on the ground that it would be detrimental to this city and would injuriously affect other communities in the state.

It is said even friends of the measure are ready to admit it might be amended to advantage. A subcommittee has been appointed to report recommendation to the general committee at an early date.

Farmers' Club Has 250 Members.

Owatonna.—Nearly 250 farmers are members of the Steele County Farmers' club, recently organized by W. V. Gousseff, Owatonna high school agricultural director. Meetings are held weekly and an average attendance of 100 listens to agricultural experts. Owatonna will be the mobilization point for the Second regiment when it leaves on June 24 for its annual encampment at Lakeview. All but three of the 13 companies, as well as the field and staff officers, will gather here. The Minneapolis Symphony orchestra will make its fifth annual appearance in this city on the evening of April 15 at the new Company G armory. Students of the high school will present an operetta next month. Miss Johnson, vocal instructor, and the Misses Vale and Howard, English teachers, will direct.

RATHS TO BE APPOINTED POSTMASTER AT ST. PAUL

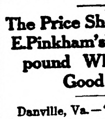
Washington, Feb. 27.—Postmaster General A. S. Burleson said after the cabinet meeting that he would appoint Otto N. Raths postmaster at St. Paul, following the recommendation of Congressman-elect Carl C. Van Dyke. It is expected that the nomination will go to the senate early next week.

Pioneer Grain Elevator Man Dies.

St. Paul, Feb. 26.—George W. Van Dusen, pioneer grain merchant and one of the men who first conceived the idea of line elevators, died after a long illness at his residence, 1900 Vine place. Mr. Van Dusen was 89 years old. He had been in the grain business from 1852 until he retired in 1900.

Club Holds Annual Banquet.

Sleepy Eye.—The second annual banquet of the Sleepy Eye Commercial club was attended by about 150 citizens. W. R. Hodges was toastmaster and the principal address was made by Joseph Reynolds of Mankato. Other speeches were made by Judge Olson of New Ulm, Professor Sprenger of Zumbro Falls and Ernest Lundeen of St. Paul. The commercial club has a membership of 140, having grown from 75 in a year. The club has been instrumental in bringing about many improvements for the town.



WHAT $10 DID FOR THIS WOMAN

The Price She Paid for Lydia E. Pinkham's Vegetable Compound Which Brought Good Health.

Danville, Va.—"I have only spent ten dollars on your medicine and I feel so much better than I did when the doctor was treating me. I don't suffer any bearing down pains at all now and I sleep well. I cannot say enough for Lydia E. Pinkham's Vegetable Compound and Liver Pills as they have done so much for me. I am enjoying good health now and owe it all to your remedies. I take pleasure in telling my friends and neighbors about them."—Mrs. MATTIE HALEY, 501 Colquhone Street, Danville, Va.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

And One of the Saddest.

"What is the shortest word in the English language?"

"Broke."—Boston Evening Transcript.

Sprains, Bruises Stiff Muscles

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof

Charles Johnson, P. O. Box 105, Lewton's Station, N. Y., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your Liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your Liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

All Dealers, 25c.

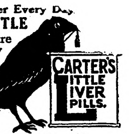
SLOAN'S LINIMENT Kills Pain



The Army of Constipation

Is Growing Smaller Every Day.

CARTER'S LITTLE LIVER PILLS are responsible—they not only give relief—they permanently cure Constipation. Millions use them for Biliousness, Indigestion, Sick Headache, Sallow Skin.

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

Brent Good

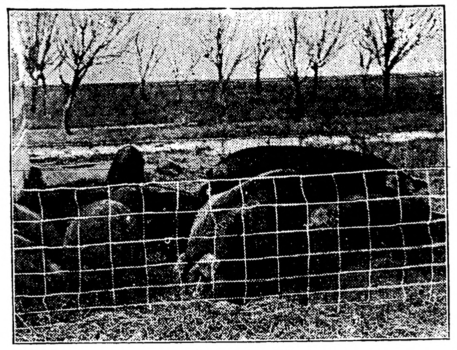
BLACK LEG LOSSES SURELY PREVENTED by Cutter's Blackleg Pills. Low-priced, fresh, reliable; preferred by Western stockmen, because they protect where other vaccines fail. Write for booklet and testimonials. 10-dose pkge. Blackleg Pills $1.00. 50-dose pkge. Blackleg Pills 4.00. Use any injector, but Cutter's best. The superiority of Cutter products is due to over 15 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct. The Cutter Laboratory, Berkeley, Cal., or Chicago, Ill.

CARTER'S ITTLE IVER PILLS

DR. WARDE'S ELECTRO-MEDICATED PAD

An absolute cure for rheumatism, destroys uric acid in the system. Cures dyspepsia, and catarrhal conditions of stomach, tones the blood and nervous system. A general health builder. Hundreds of testimonials from physicians and patients. State age and weight and leading trouble. Remit $5 to cover cost and a pad to fit your case will be sent prepaid. Dr. A. G. Warde, 2066 Russell Avenue, So., Minneapolis, Minn.

MOST NATURAL FOOD FOR BROOD SOW



Pure-Bred Poland China Hogs.

Grass and vegetable matter are the most natural food for pigs, although they will eat, and can digest, a great variety of things. The nearer a sow can be kept to grass or vegetable diet, the healthier she will be; and this system is preferable to dry, rich foods, consisting mainly of grain, pulse or meals.

Bran is most useful when grass is not available, but where it is not possible to give cows a grass run, lucerne, tares and other green forage crops can sometimes be substituted.

Roots (except that mangels must not be given at all freely as farrowing approaches, or the pigs are almost certain to be born dead) are useful, and where there is a large garden, it will provide a great deal of vegetable stuff that can be advantageously employed for in-pig sows, stuff, too, that would otherwise be wasted.

Large quantities of dry grain, and especially corn and barley, must be avoided as too heating; and hotel waste, butcher's offal, slaughter-house refuse—indeed animal matter in any form—are also bad, and may, it is said, be an exciting cause of cannibalism.

When at grass, or getting green-forage or garden stuff, a few old beans, or some dry corn, may be given once or twice a week.

The food for the in-pig sow for the last week or so of her time should be as nearly as possible that on which she will be fed for three or four weeks after she has farrowed. A well-known breeder says:

"We have ceased to give barley or other meal to our suckling sows until the pigs are at least a month old. Our newly farrowed sows are fed sharps, or what is locally termed thirds, middlings, etc., and a varying amount of bran, determined by the richness of the sharps, the number of the litter, and the age of the sow, also condition."

His recommendation for feeding the in-pig sow is: Vegetable food, with a little dry grain, beans, peas or corn until within a week of farrowing.

DAMPNESS IS THE CAUSE OF DISEASE

Good Dry, Warm Hog House Promotes General Health and Development of Herd.

(By M. A. COVERDELL.)

How many of us give our hogs a little bedding now and then during the winter months, rarely ever changing it for clean, dry nesting?

Some of us think that dampness is an unknown quantity at this season, but moisture is sure to collect in the hog house as the animals sleep in it, and dampness is the root of rheumatism.

Where the hog house is snug and warm it will, of course, admit no dampness from the outside, but with the hogs confined in it through the long winter nights, the alternate heating and cooling of the bed will cause the formation of dampness.

Proper ventilation will reduce the amount thus collected, but the bedding should be changed often to insure no damaging results.

On the other hand, if the hog house is open enough, even for the snow and sleet to sift in through cracks, the amount thus admitted, while not noticeable to the eye, will form dampness by becoming melted and settling in the bed.

Hogs also carry considerable dampness to their bedding on their feet, especially during the snowy weather, so that the farmer has ample need of ventilating the snug, warm hog house, getting busy with some strips on the one that has cracks in it, and frequently changing the bedding in both.

It will add materially in promoting general health, comfort and rapid development of the herd, at the same time adding to the profits derived from them.

OAT STRAW HELPS PIECE OUT RATION

Farmer Should Have Supply for Carrying Sheep Through the Winter Months.

It is an excellent plan for every sheep farmer to put up every fall a quantity of oat straw, to help out in carrying the sheep through the winter. Wheat straw will answer the purpose, but it is not as good as oat straw.

Of course straw is not an ideal feed for sheep. It contains a little nutriment, but not much, and a great deal of wood fiber, but clean oat straw fed sparingly, in connection with roots or other succulent feed, helps out wonderfully.

Placed in the rack with clover hay it will be pretty well eaten up every day, and it undoubtedly saves some grain.

Where a farmer has plenty of grain and little roughage, oat straw will help to piece out the ration admirably.

If fed in large quantities, and alone, it will almost certainly produce stomach trouble, and this should always be avoided.

GOOD DOG IS BIG HELP TO A FARMER

Worthless Curs That Roam at Night, Doing Much Damage, Should Be Shot.

(By HOWARD HACKEDORN, Missouri Experiment Station.)

There have been many discussions in the agricultural press in regard to the relation of dogs and the live stock. Many of the articles take an extreme stand, either for or against the dogs.

Many of us can remember with pleasure the first dog our father brought home to us. It was our faithful childhood friend. When we were in a bad humor we took our spite out on Rover or if we wished to play, Rover was always a willing playmate. The family dog keeps the children amused and gives the much-worked mothers time to rest a bit or catch up the odds and ends. It is no wonder the dogs have many friends. And they rightfully should have. No one loves a dog better than myself.

None of us would like to feel that we were the direct cause of injury to our neighbor. Yet unconsciously we allow such to go on. Is your dog chained at night? Does he run your neighbor's stock and your own stock? Surely not, you think. He is here at night when we retire and is always waiting for us at daylight. Did you ever get into an argument with your friend and didn't you answer, "My dog is a good watch dog. He always stays at home?" There is only one sure way to keep him home and that is to tie him at night, and give your neighbor privilege to shoot all dogs unaccompanied by their masters.

A lot of dogs are no one's friend, have no homes and could be soon disposed of. A few bad good-for-nothing dogs, like bad boys, give their associates a bad reputation. Are you willing to give your neighbor a square deal? Will he give you as much? The sheep breeders and the feeders do not pose as an enemy to the dog. It is the worthless "curs" that roam at night and do the damage. Kill off the "curs," but let all who wish, keep a good dog, they are a great help to the stock farmer and the hunter, and we wish them no harm as long as they keep their place.

Exercise the Jack.

A jack is harder to exercise than a stallion, but if you will give him a paddock about the eighth of an acre that he can be turned into (by himself of course) he will keep in good health. Watch his feet, they are inclined to grow fast and the hind feet may get badly out of shape, if not looked after. Get a good blacksmith to trim them down—both front and hind feet—if they get too long and let the jack go barefoot.

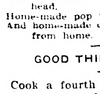
Applying Manure.

The increase in yield of crops from light applications of manure, say six to eight tons per acre, is much greater per ton of manure applied than where large quantities are used at a single application, and the farmers who apply lighter applications at shorter intervals receive better results from a given amount of manure than those who make heavier applications at long intervals.

The KITCHEN CABINET

Who hath not met with home-made bread,
A heavy compound of putty and lead—
And home-made wines that rack the head,
Home-made pop that will not foam
And home-made dishes that drive one from home. —Hood.

GOOD THINGS TO EAT.



Cook a fourth of a cupful of soft crumbs with a fourth of a cupful of cream until smooth and thick; cool and add an egg yolk and a third of a cupful of pecans cut in pieces. To two cupfuls of hot riced potatoes add three tablespoonfuls of cream, one-half teaspoonful of salt, one-eighth teaspoonful of pepper, a few drops of onion juice and a beaten egg yolk, shape in nests, fill with the nut mixture and cover with potato, dip in crumbs, egg and crumbs and fry in deep fat. Arrange on a hot plate with parsley for a garnish.

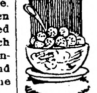
Celery, Cheese and Red Pepper Salad.—Cut celery in two-inch pieces and put into ice water to curl. Dry thoroughly and mix with a tablespoonful of chopped red pepper, and sprinkle with a grating of cheese, put mayonnaise on top and serve.

Chicken With Corn.—A most appetizing dish which may be prepared any time of the year, but is better with fresh corn from the cob, is the following: Scrub and clean a fowl in water in which a tablespoonful of soda has been dissolved. This removes any soil that is on the skin. Cut the chicken in pieces as for frying, roll in flour, brown in a little hot fat in a frying pan, then add enough milk to cook the chicken well, simmering or cooking slowly in a moderate oven for two hours or longer, depending upon the age of the fowl. Season when about half cooked and add a cup or two of corn. Serve the chicken with the gravy and corn poured around it.

Chantilly Potatoes.—Mound well-seasoned, light, mashed potatoes on a platter. Have beaten stiff one cupful of thick cream, add a half-cupful of soft cheese, and season with salt and paprika. Spread this over the top and set on the top grate of the oven to brown.

Apple Balls.—Cut balls with a vegetable cutter from firm, nice apples, drop them in water and vinegar to keep from discoloring and mix with pineapple and other fruit. Put in cups and pour over it rich lemonade or lemon sirup. Serve as a cocktail.

MORE GOOD THINGS.



Pies are the universal American dessert, and they are less objectionable to the digestive tract when properly made.

Prune Pie.—Line a pie tin with good, rich pastry and fill with stewed prunes, cut in bits. Sprinkle with one-half cupful of powdered sugar and enough cinnamon to flavor or a grating of lemon rind. Bake and just before it is well done cover with a meringue made from two beaten whites of eggs and three tablespoonfuls of sugar, a tablespoonful of lemon juice. Return the pie to the oven and finish baking until the meringue is brown.

Celery and Pineapple Salad.—Shred pineapple with a fork and add chopped celery in equal quantities, mix with mayonnaise dressing and serve on lettuce leaves.

Broiled Halibut.—Slice the fish, season with salt and pepper and brush with melted butter and let stand for an hour. Roll in flour and broil over a clear fire for twelve or fifteen minutes. Place on a dish with a garnish of parsley.

Tomato and Peanut Salad.—Peel the tomatoes carefully and remove the centers so as to form a cup. Fill with chopped cabbage and chopped peanuts, well mixed. Add French dressing. When serving, top with a spoonful of mayonnaise.

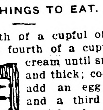
Fricasseed Potatoes.—Slice a small onion, fry brown in a saucepan with butter, paprika, salt and pepper. Cut the potatoes into half-inch squares and place on top of the onion and pour boiling water over to cover. Cook until all the water is boiled away and the potatoes mealy and tinted from paprika and butter.

Fruit Bread Sponge.—Pour over two cupfuls of small cubes of bread hot fruit juice until it is all absorbed. Let stand in a cool place several hours and when ready to serve turn from the mold and pour whipped and sweetened cream over.

Then Time to Stir.

Thomas Edison once set [illegible] invent a perfect coffee machine. It [illegible] able to use in camps or on hunting trips. Asking the advice of a former guide as to the requirements of such a thing, the man, who was a Swede, gave him this recipe: 'Der ban only von vay to cook coffee. Tak von trip into voods up on Flambeau river; build fire vid pitchpine knots, put von quart water and two handful coffee in coffee pot and sit on cover so she can't boil over. Ven cover get too hot for pants coffee she done.'

SWEETS AND SALADS.



A simple and most tasty dessert may be made by scooping the center from a deep sponge cake, filling with jam, put on the lid and serve sliced with whipped cream and sugar. Filled with whipped cream and a few tablespoonfuls of jam mixed with the cream is a most delicious combination also.

German Salad.—Cook salt herring in boiling water 15 minutes; drain and cool and separate into flakes. Add an equal quantity of cold boiled potato cut in cubes and one-fourth the quantity of hard-cooked eggs chopped. Marinate with French dressing and serve with a dressing made as follows: Beat a fourth of a cupful of cream until stiff, add two tablespoonfuls of canned red pepper, put through a sieve; then add an equal quantity of good boiled dressing. Serve the salad on lettuce with the dressing.

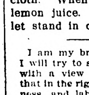
Corn and Rice Salad.—Take equal quantities of cooked corn, well drained, and rice cooked until soft; mix and season with salt, pepper, and add stiff mayonnaise dressing. Serve on lettuce leaves.

Mexican Tomato Salad.—Rub a salad bowl with a cut clove of garlic. Line the bowl with lettuce and lay in a few slices of tomato, cover with chopped green pepper, a teaspoonful of onion and a dozen chopped olives. Pour over a French dressing of a tablespoonful of vinegar to three of oil, season with salt, pepper and a dash of celery salt. Serve well chilled. Cucumbers may be added in place of the olives if so desired.

Spanish Cream.—Take a quart of milk and soak half a box of gelatin in it. Beat the yolks of three eggs light, add a cupful of sugar, stir in the scalding milk and cook until the egg is thick. Strain through a cheesecloth. When nearly cold flavor with lemon juice. Pour into a mold and let stand in cold water to stiffen.

I am my brother's keeper; therefore I will try to solve the problems of life with a view to his welfare, knowing that in the rightful adjustment of business, and labor, and society, and life in its truest expression, my brother's welfare is my own, and mine is his.

GOOD DESSERTS WITH EGGS.



During the months when eggs are high we are glad to hunt up some foods which will be palatable without them.

Bird's Nest Pudding.—Peel and slice enough apples to fill a deep pie plate. Make a rich biscuit and mixture, rather soft and pour over the apples. Bake until the crust is brown and the apples tender. Turn upside down on a plate, spread generously with butter, sprinkle with sugar and grated nutmeg and serve as one does pie.

Apple Pone.—Pare and chop fine one pint of sweet apples. Pour a cupful of boiling water into a pint of white corn meal, beating hard to make light. When cool add one cupful of sweet milk, and a half teaspoonful or more of salt. Stir in the apples, a grating of nutmeg and bake in a covered dish. Serve with hard sauce or cream and sugar.

Grape Sago.—Wash a cupful of sago, cover with cold water and let soak over night. Next morning cook until transparent. Add a cupful of grape juice. When cool turn into a glass dish and put aside to get cold. Serve with cream and sugar.

Chocolate Blanc Mange.—Put two ounces of broken bits of chocolate into a double boiler and when melted add a pint of warm milk. Stir well and add four tablespoonfuls of sugar. Moisten three tablespoonfuls of cornstarch with a little cold milk, add it to the hot milk and cook until thick and smooth. Remove from the heat, add a teaspoonful of vanilla, beat well and pour into a glass dish to serve when cold. Serve with sweetened cream.

Chocolate Tapioca.—Wash a cupful of tapioca, cover with a pint and a half of water and soak for two hours. Put four ounces of chocolate in a double boiler and when melted add a half cupful of sugar. Cook until the tapioca is transparent, stirring often when done, remove and flavor with vanilla. Serve with sugar and cream. A sprinkling of nuts or bits of jelly over the top for a garnish adds to the appearance of either, a tapioca or sago pudding.

Nellie Maxwell

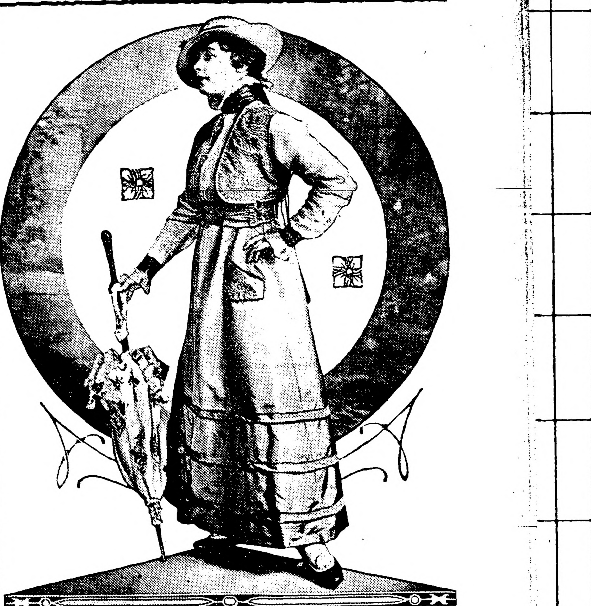
Daily Thought.

Nine-tenths of the good that is done in the world is the result not of laws, however wise, or of resolutions however strong, but of the personal influence of individual men and women.—Sir Samuel Chisholm.

Wanted a Diagram.

"That young wife was [illegible] buying her first turkey." "She was," said the dealer, "and she was greatly surprised that no book of instructions went with it."—Louisville Courier-Journal.

Among the New Spring Gowns



BECOMING lines are exemplified in this new spring gown of taffeta, which is simple enough for the home dressmaker to undertake and pretty enough for the most fastidious of women to enjoy. Taffeta lends itself to the new, wide skirts, the horizontal tucks and other quaint features in the new gowns, borrowed from a period more than a half century behind us. The days of the crinoline are recalled by the utterly feminine and fascinating demureness of this modest gown.

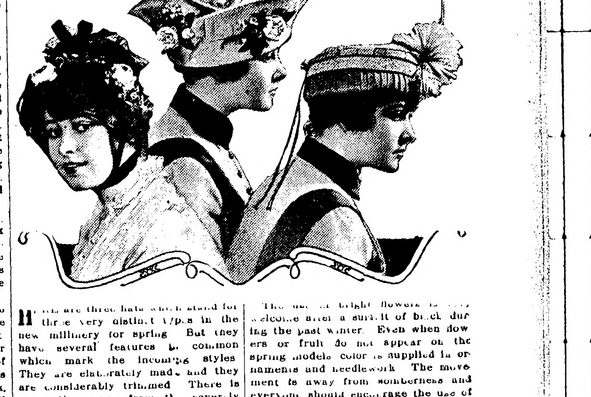
The wide tucks running around the skirt with a fullness of three to four yards in the width, combine to make the flare that is to be achieved in this particular style. The fullness is disposed of at the top partly by cutting and partly by shirring or plaits into which the material is laid. Many of the new spring skirts, cut with the requirements of the plump figure in mind, fit smoothly about the hips and are widened gradually toward the bottom, where they ripple at the hem.

Another feature of spring styles is the revival of the suspender dress. And very appropriately accompanying this comes the prominence given to pockets on skirts for street wear. In these fine tailoring plays a most important part. They are all cut ankle length, and the attention given to snappy footwear is not less than that bestowed upon the skirt. Separate skirts are worn with tailored waists of crepe-de-chine.

In either tailored or afternoon gowns there are short jackets and long coats to choose from. The short waist line hardly admits a rival in popularity, and perhaps this accounts for the lack in number of designs which were expected to feature military ideas.

The short jacket that completes the pretty gown pictured here is covered with braiding in self-color. It is just the touch required to enrich the design. Worn over a lacy bodice and with a flower-trimmed hat the toilette leaves nothing to be desired. It is developed in a medium shade of blue with a grayish cast and the hat and parasol correspond.

Millinery in Diverse Styles



Here are three hats which stand for three very distinct types in the new millinery for spring. But they have several features in common which mark the incoming styles. They are elaborately made and they are considerably trimmed. There is a reaction away from the severely plain hats with a single and sometimes minute decoration such as grew tiresome during the past winter.

At the left of the group is a quaint and picturesque bonnet made of black horsehair braid. Narrow black velvet ribbon and clusters of garden roses and forget-me-nots are used for the trimming. You cannot imagine anything which completes the costume more harmoniously, when it is one of those wide-skirted, colonial looking affairs that are so prettily developed in taffeta.

At the right is a pretty street turban made of braid in satin straw, and having a soft silk crown. An embroidered band about the coronet is bordered with very narrow velvet ribbon and short streamers fall from a diminutive flat bow at the back. At the front a big silk pompon supports a long slender feather which fronts the weather with amazing audacity.

One of those models which is expected to do duty both for street and other wear is shown at the center of the group. It is made of crepe draped over a light frame. The brim is cleverly managed so that an outline of four points results. Midway between these a little bouquet of roses and small flowers is set in a cluster of leaves. This is one of those rare hats that are suited to older as well as younger matrons.

The use of bright flowers is very welcome after a surfeit of black during the past winter. Even when flowers or fruit do not appear on the spring models color is supplied in ornaments and needlework. The movement is away from somberness and everyone should encourage the use of lovely color.

JULIA BOTTOMLEY.

Materials for Coats.

The heavy coatings that bid fair to hold a prominent place this spring are, of course, higher in price, but then they are not so expensive after all, for they are very wide, and only a small number of yards is necessary to complete a garment. The rich oriental colors still hold their own in these materials, and for outing wear they are lovely. Even the conservative dresser does not hesitate to don one of these lovely colorful top coats when spending a time at a southern resort or in the country. Dress stuffs are only a trifle less colorful, and at first one might get the impression that white had been excluded in the dress goods plan. This is by no means so, and almost any weave that is found in color is also to be had in plain white. There is this to be said, however, that almost every white gown, unless one is in mourning, has a liberal touch of color introduced in the way of trimming.

With Quaintness of Bygone Days.

A harbinger of the mode is this frock of rose taffeta, which exemplifies the double skirt or the appearance of it, the peplum bodice and the popular absence of trimming.—Vogue.

Dr. J. T. TURLEY, the Dentist

Will be at the Hotel in Holt, on Monday

March 15, 1915

I will visit Holt about every month and this will give you an opportunity to get your dental work done at a saving of time and expense. My prices are as follows:-

Alloy Fillings $1.00 Treatments $1.50

Mr. and Mrs. Hjalmer Dovre spent Sunday afternoon at the former's parental home.

MONEY TO LOAN ON FARM LAND

MACKEY J. THOMPSON
FARM MORTGAGES
ST. PAUL, MINNESOTA

CONTRACTS, FIRST AND SECOND MORTGAGES BOUGHT

We understand a car of seed potatoes will soon be shipped in here.

Ole Johnson has resigned his position in Gunheim's store.

Now is a good time to plan that corn field and look up your seed. Don't forget the potato field either.

The Early Ohio is the potato for this northern country. If all farmers would plant pure Early Ohio seed and acreage enough so that the potatoes could be shipped in car lots, a ready market can be found for them.

'Tis a wise man that knows just when to keep still.

Do you make the world any better by your life on earth?

Land can be bought as cheaply in the state of New York and the New England states as in Northern Minnesota. Many of them have good improvements too but the farmers failed to practice rotation.

Come to the prayer meeting at 3 o'clock next Sunday afternoon. Speaking and singing in both languages.

We understand the play "Back to the Farm" will be given in the Star hall Saturday evening March 13th.

T. Reep of T. R. Falls was in town Monday on business and pleasure.

August, the 6 year old son of Mr. and Mrs. T. A. Tobiason, died last night after only a few days illness. A few days ago the little fellow seemed to be injured while wrestling with brother and since then he with others of the family had been ill with lagrippe. His death was quite unexpected and a terrible shock to the family. The funeral will be held at the house at 2 o'clock Monday afternoon and the interment will be made in the village cemetery.

Mr. and Mrs. Tobiason and family have the heartfelt sympathy of the whole community in their bereavement.

WHITE PINE "& plenty of it."

RIGHT HERE IN OUR YARDS

Ready To Put On Your Job Quick!

NORWAY PINE "& plenty of it."

WHITE PINE—"THE WOOD AMERICA IS MOSTLY BUILT OF" and "THE LEADER IN THE MARKETS FOR 250 YEARS." (U. S. GOVT. REPT.)—is still the most potent factor in the building world and will be for generations to come.

We sell WHITE PINE—for all uses—also that good old "Norway"—(equal to White Pine for most purposes) and are prepared to take care of your orders *promptly*—for a carload or a scantling. It's nice, clean, well-seasoned lumber — straight from Minnesota and Wisconsin where the best comes from—and will be welcomed by those who thought WHITE PINE was "so hard to get."

SEND IN YOUR ORDERS— and we'll "show" you action in a hurry.

We carry a full and complete line of Reliable Building Materials of all kinds—and want to figure on your job, *EVERY TIME.*

Even if we don't land the order *every time*, we are anxious to have a try for it. We're determined to *deserve* your business anyhow.

You'll find us prompt, and you'll like the way we fill orders that come over the wire.

G. P. Sorter called at P. G. Sorter Sunday.

Some of the young folks spent Sunday evening at E. R. Rudman.

John Hanson is busy hauling grain to town now days.

Mrs. G. P. Sorter called at Louis Johnson Monday.

C. Martell and Geo. Gusa are busy sawing lumber.

Ole Hegelund and family called at Ole Davidson Sunday.

Mr. and Mrs. M. Lerson called at I. O. Saastad Sunday.

Louis Johnson and Joe Jarlson were over at Tom Siverson grinding feed Monday.

Tom Johnson left for [illegible] Friday. Suppose you are lonesome now Walter.

Some of the Owls took in the dance at Holt Saturday night. A good time is reported.

M. Udstrand called at John [illegible] strand Sunday.

Some certain young man was heard running around Sunday eve crying like a "chick" hen looking for her little "chick".

[illegible] Grondahl was out hunting wolves Sunday. We wonder why it is that you always go out east along the swamp Henry.

[illegible] incorporation [illegible] against the proposition.

Knute M[illegible] family of southern Minnesota are the new occupants of [illegible] Peterson's farm.

Mud Lake Ripples

Hello, here we are again.

We are having a little colder weather these first days of March.

Ole Maakstad made a trip to Holt last week.

Ludwig [illegible] and B. Ranum hauled [illegible] at the former's place.

[illegible] Olson made a trip to his [illegible] near Middle River last week.

[illegible] made a visit to Holt the [illegible] last week.

[illegible] made a trip to Golden Valley Friday last week, he also was over to Ostlund to get some feed ground.

Mrs. [illegible] returned last week from an extended visit to Crookston and [illegible].

Ole [illegible] was hauling hay Monday.

Ole Maakstad made a trip to Holt Monday. He also took in the auction sale at Tobiason.

P. C. Rosland hauled a load of wood for Pastor Ordahl last week.

"Back to the Farm" Mar. 13th.

Dr. Turley, the dentist, will be at the hotel in Holt Mar. 15th.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Literally Lived on the Fat.

The conversation had turned to the many men who had met success.

"There, for instance," said one man, pointing down the street, "goes a man who began life in poverty, and now lives on the fat of the land."

McFee looked.

"Yes, I know him," he replied. "He's an agent for the antifat concern."

RESINOL BEGINS TO HEAL SICK SKINS AT ONCE

You don't have to WONDER if Resinol Ointment is doing you good. You KNOW it is, because the first application stops the itching and your tortured skin feels cool and comfortable at last. Why don't YOU try this easy Resinol way to heal eczema or similar skin eruption? Resinol clears away pimples, too, and is a valuable household remedy for cuts, sores, burns, chafings, etc. It has been prescribed by doctors for 20 years and contains nothing that could irritate or injure the tenderest skin. Sold by all druggists. Adv.

Went in That Direction.

Ryan used to be assistant blaster at the quarries. On the day he disappeared he must have been standing on top of an exploding charge. We never recovered enough of him for a funeral. Subsequently a mate, who had not heard of the accident, was inquiring after Ryan. Murphy was the informant.

"Where's Bill Ryan?" queried the friend.

"Gone!" volunteered Murphy.

"Has he left for good?" asked the stranger.

Murphy embraced his facial herbage, gazed skyward, and said:

"Well, he wint that way, anyhow."

The Test Supreme.

"You say that women haven't the endurance of men?"

"They haven't."

"That they cannot successfully resist unusual mental strain or physical fatigue—that they lack nerve and patience and endurance?"

"Yes."

"Do you see that little woman over there?"

"Yes."

"You have never known a man who could endure what she has endured."

"Eh! Why, what is she?"

"She's the reader of the love stories submitted to a popular magazine."—Cleveland Plain Dealer.

Their Name Is Legion.

"I usually take the late train home."

"I know; but which one?"—Philadelphia Public Ledger.

STRENGTH.

Without Overloading The Stomach.

The business man, especially needs food in the morning that will not overload the stomach, but give mental vigor for the day.

Much depends on the start a man gets each day as to how he may expect to accomplish the work on hand.

He can't be alert with a heavy fried-meat-and-potatoes breakfast, requiring a lot of vital energy in digesting it.

A Calif. business man found a food combination for producing energy. He writes:

"For years I was unable to find a breakfast food that had nutrition enough to sustain a business man without overloading his stomach, causing indigestion and kindred ailments.

"Being a very busy and also a very nervous man, I had about decided to give up breakfast altogether. But luckily I was induced to try Grape-Nuts.

"Since that morning I have been a new man; can work without tiring, my head is clear and my nerves strong and quiet.

"I find that Grape-Nuts with a little sugar and a small quantity of cold milk, makes a delicious morning meal, which invigorates me for the day's business."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MULTIPLICITY OF LIQUOR BILLS IS BEFORE SOLONS

PASSAGE OF COUNTY OPTION MEASURE FAILS TO BRING EXPECTED RELIEF — SITUATION IS CONFUSING.

TO SUBMIT PROHIBITION QUESTION TO PEOPLE

John Larimore Proposes Constitutional Amendment—Westlake Bill Exempts Cities from Provisions of County Option Act—Excepts Beer.

St. Paul, Minn.

County option is out of the way of the legislature, but instead of bringing the expected relief from the liquor problem the legislature will go back into session with a muliplicity of liquor bills to confront it.

Some of these were introduced before option was adopted by the two houses, duly signed by the governor, and sent on its way to take its place in the pages of "The Laws of 1915." Others have been prompted by the passage of option. Others are only now in course of construction.

Amazing Number of Bills.

But there are so many of them and they have followed so fast on the heels of each other that only those in close touch with the situation at the capitol pretend to have a definite idea of the existing situation. Here is a list of the amazing number of liquor bills, most of which made their appearance just as the legislature was in the midst of a sigh of relief at getting option out of the way:

The Senator E. E. Loebeck bill, providing for statutory prohibition, which means enactment of a law making the state absolutely dry, without referring the question to the people.

For State-Wide Prohibition.

The John Larimore proposed constitutional amendment. This would submit the question of state-wide prohibition to the people to be voted on at the general election in November, 1916.

The Senator E. J. Westlake bill, which would exempt Minneapolis, St. Paul and Duluth from the provisions of the option bill. Should Hennepin vote dry Mimneapolis would not go dry under the terms of this bill, which is aimed to modify the option bill.

Would Except Beer.

The Senator George Gardner bill, which would preclude from sale, manufacture or gift all liquors but beer.

The Representative Syverson bill, introduced Saturday, prohibiting the retail sale of liquor by any but licensed retail liquor dealers. This was recommended by William E. Lee.

In addition to this lineup there is on foot a proposal to amend the Larimore constitutional amendment bill to exempt beer and light wines from its provisions.

HOUSE PAYS TRIBUTE TO MEMORY OF MRS. HIGBEE

As a tribute to the memory of Mrs. C. G. Higbee, who died in the house retiring room after making a strong appeal for a state reformatory for women, the Minnesota house of representatives attempted to pass under suspension of the rules the bill authorizing the state board of control to dispose of the old state prison at Stillwater and use the money in the construction of a women's reformatory.

Opposition developed, and statements were made that if Mrs. Higbee were on the floor of the house she would be reluctant to have the body hasten through a bill of such great importance, and a lively debate finally terminated in an agreement to make the bill, together with the bill by Representative J. A. Larimore, special orders for next Wednesday morning.

Bridge Probers Appointed

Speaker H. H. Flowers has announced the committee which has been authorized to make a complete investigation of an alleged combination of public bridge contractors.

The committee will hold hearings, summon witnesses and take testimony. The committee will be composed of Representatives Charles Warner of Aitkin, author of the joint resolution; Representatives J. E. Madigan of Maple Lake and L. A. Lydiard of Minneapolis.

SEMI-MONTHLY PAY BILL PASSES IN STATE SENATE

The semi-monthly pay bill requiring all public service corporations to pay their employes twice a month was passed in the Minnesota senate by a vote of 34 to 30. Debate on the bill had lasted for two hours. A motion to reconsider was lost.

Hearing on Forestry [illegible]

A public hearing on the bills before the house appropriations committee reducing the annual appropriation for the Minnesota state forestry department, will be held next Tuesday evening, Representative L. C. Spooner chairman of the committee, announced. Persons interested in the department will be given an opportunity to explain why the appropriation should not be decreased. The appropriations committee also will hold a meeting Tuesday afternoon at which several bills probably will be acted upon.

WOMAN SUFFRAGE LOST IN SENATE BY ONE VOTE

St. Paul, March 6—The main door of of the Minneapolis senate chamber was pushed open shortly before 3 p. m. A man stepped inside and proceeded unconcernedly down the center aisle.

Some thousand of pairs of eyes were focused on the newscomer. Not a breath was stirring. He seemed unconscious of it. The clerk of the senate looked up, recognized the newcomer and called:

"Campbell, A. S."

"No," responded the man advancing down the aisle. And then—pandemonium.

That single word that passed the lips of the newcomer denied woman suffragists the right to submit the question of suffrage to the voters of Minnesota.

Vote Was Tie.

The clerk had called the roll on the suffrage bill. Of the 67 senators who constitute the upper house 66 had answered "yes" or "no."

The clerk had cast up the total "yeas" and "nays." The result had been found a standoff, 33 to 33. If the suffrage amendment to the constitution was to pass it needed the vote of the single absentee.

That absent one was Senator Alex S. Campbell of Austin, Mower county. The sergeant-at-arms was sent to find him. And, in the meanwhile, suspense in the senate chamber, packed to the last niche with be-flowered suffragists and anti-suffragists, threatened to break into hysterics.

Hunt Missing Senator.

The missing senator was in a telephone booth. Senate officers dashed back and forth through the corridors in quest of him, but none looked in the booth.

When the senator from Mower had completed his telephone conversation he strayed back to the senate chamber. He did not know that upon his word rested all. Nor did he meet en route any of the messengers who had been sent to find him.

All unaware of the tense atmosphere within he pushed open the big doors and entered. A dramatic fraction of a moment, and the clerk had called the name and Senator Campbell had answered "No."

Had he answered in the affirmative the suffrage bill would have carried in the senate and the suffragists say the house would have been easy sailing. Suffrage would have been submitted to the voters.

TURMOIL STARTS OVER THE GRAIN SCALES BILL

A lively session of the house grain and warehouse committee suddenly was terminated after George Loftus, manager of the Equity Exchange, vigorously resented statements by J. H. McHugh, secretary of the Minneapolis Chamber of Commerce, to the effect that the committee was being used as a "catspaw" in an advertising scheme superintended by the Equity Exchange.

A four-hour discussion of the bill by Representative Magnus Johnson, compelling the installation of track scales at terminal points and abandonment of hopper scales, came to a climax after Mr. McHugh had spoken but a moment.

"Through the medium of this committee Loftus is attempting to strike a knife into the Chamber of Commerce," McHugh said.

Loftus leaped to his feet.

"Mr. Chairman," he exclaimed, "I insist that the gentleman discontinue his statements reflecting upon me. And if he does not abide by my wishes I shall take care of him after this meeting."

Amid an avalanche of motions, one to adjourn, another to go into executive session and still another to take immediate action on the bill, Representative J. M. Harrison of Minneapolis moved that the bill be laid over until the next meeting. After several roll calls on other motions, this suggestion prevailed.

The meeting, for the most part was devoted to charges and counter charges of unfairness.

Advocates of the measure insisted that farmers of the Northwest are losing thousands of dollars yearly because of inaccurate weighing on the hopper scales.

"Fifty-seven elevators and mills in Minneapolis today are weighing grain in hopper scales to the disadvantage of the farmer," Mr. Loftus declared.

Sharp division among the committee members was apparent, but those in favor of the bill are believed to be in a majority.

RED ROSES AND YELLOW JONQUILS

St. Paul, March 6.—Red roses and yellow jonquils bloomed in the lapel of almost every senator's coat when the suffrage bill came up in the legislature. Miss Rita Kelly, a prominent anti-suffragist, stood at the door of the senate chamber and pinned a rose on every senator who would commit himself on that side, as he entered.

Would Require Labels [illegible]

[illegible] Senator Henry M. [illegible] introduced into the senate, [illegible] law, all jams, jellies and marmalades manufactured or sold in the state will bear labels that will let the buyer know what are the percentages of each kind of fruit used. The bill provides that the labels shall be printed in type not smaller than eight point gothic. No preservatives of any kind, coloring matter or injurious drugs may be used. A similar bill was offered by Representative I. J. Lee in the house.

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Right Kind of Pride.

An honest pride will be our defense for many a danger. You are too proud to be seen in questionable company. You remember your place in the world and would as soon think of drowning yourself as you would of allowing yourself to become part of anything questionable. It is not the really vicious that causes the trouble. That we are wise enough to shun. But it takes pride to resist what many allow. When pride becomes a monitor to your conscience you are on safe ground. Be sure you do not sidestep your advantage.

The man with the right kind of pride never fishes for sympathy. He may tell you of his struggles but never in a tone of complaint. Though the last crumb were on the table you would never know it from his face. He can keep a smile in spite of the pinch of need. But as a rule he is the last man to need sympathy. Unless fortune is very fickle he is the man that forges to the front. His very nature makes way for him. It is the kind of pride that spells success. It's pride worth having.—Pennsylvania Grit.

SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Adv.

Sylvia and Sylvia.

How beautiful Sylvia looked that morning! The clear Virginia sunlight played upon her, and her brown hair seemed almost golden. Her great gray eyes, twin stars, looked straight into mine, and I wondered what thoughts they hid. Nearer and nearer I drew to Sylvia, and I could feel her breath, sweet as a clover field in June on my warm brow. We were alone.

A harsh voice rang out:

"You want to be keerful o' that there Sylvia," it said, "'cause she kicks wus than any cow I ever milked."—Harvard Lampoon.

Beautiful Recipe Book for Every Woman.

We have been asked by the Calumet Baking Powder Company of Chicago to announce through the columns of this publication that they have just gotten up one of the best Recipe Books ever published, 16 pages of which are beautifully illustrated, showing in the colors a lot of dainty dishes and good things to eat that can be prepared with Calumet Baking Powder.

In addition to this there are 65 valuable recipes and numerous household hints prepared by the most noted Domestic Science teachers and Cooking Experts.

We know you will find this a very valuable book, as you will have use for it almost every day.

All you have to do to get one is to take the slip that you find in a pound can of Calumet Baking Powder, fill in your name and address according to the instructions on the slip and mail it to the Calumet Baking Powder Company, Chicago, Ill.

If you are not already using Calumet Baking Powder, we would suggest that you try it today. You will find it wholesome and economical to use.

You will find it a Baking Powder of unusual merit and the recipe book one of the most beautiful and useful books of this kind that you have ever possessed.—Adv.

The man who is carried away by his own enthusiasm sometimes expects somebody else to carry him back.

U. S. INTERVENTION IN MEXICO AGAIN BEING DISCUSSED

ONLY THE POSSIBLE SUCCESS OF FACTION LED BY VILLA, IT IS THOUGHT, CAN AVERT IT.

GRAVITY OF PROBLEM GENERALLY CONCEDED

Growing Public Sentiment to the Effect That the Outrageous Conditions in Mexico Cannot Always Be Endured—Government May Be Forced to Act.

UNITED STATES WARNS MEXICO.

Washington, March 9.—New and urgent representations amounting practically to a warning have been sent by the United States to General Carranza, demanding an improvement in conditions in Mexico City.

Diplomatists familiar with the contents of the note which American Consul Silliman has been instructed to present to General Carranza interpret it as an entire change of policy on the part of the Washington government toward the Mexican situation.

The communication to Carranza which was drafted after conferences between President Wilson, Secretary Bryan and Consular Lansing was guarded with secrecy, pending some word from Carranza as to his attitude.

It was said by some officials that the note contained the strongest representations that ever have been made to Carranza and indicates that the American government is rapidly losing patience with his indifference to the objectionable acts of General Obregon at Mexico City.

Washington, March 9.—The American government is again approaching a grave crisis in the Mexican situation. Only the possible success of the Mexican faction led by General Villa, it is thought, can avert it and this success is likely to be a prelude only of further anarchy, murder and destruction. While administration circles, struggling with the European situation, are minimizing the gravity of the Mexican problem, this much is generally conceded.

Favor Intervention.

While the sympathetic approval of the country goes out to the president in his effort to steer clear of any foreign entanglements at this dangerous time, there is gradually growing a sentiment in favor of eventual intervention in the affairs of Mexico, based on apparent necessity which is plainly evidenced by the statements made by public men here in the Caprivat conversations.

United States May Act.

The attitude of the administration, while difficult to understand at times, is sufficiently clear to indicate that almost any outrage will be endured before intervention is resorted to, yet men in touch with affairs do not hesitate to say that the administration's hand is more than likely to be forced.

A significant feature of the situation is the fact that there is a growing public sentiment to the effect that the outrageous conditions in Mexico cannot always be endured and this realization may result finally in a sentiment which will compel government action and national policy. This is coming about in the face of an almost unanimous desire to keep out of the Mexican trouble if it is possible.

There have been times in the past two years when the government was on the point of action, in fact did act in the occupation of Vera Cruz. It is recognized that if it should again be necessary to sacrifice American lives, as was done in Vera Cruz, American sentiment would never tolerate a second withdrawal with nothing to show for that sacrifice.

Cruiser Dresden Believed Hiding

London, March 9.—A dispatch to the Times from Santiago, Chile, reports the activity of German steamers with coal cargoes in South American waters. The correspondent considers that this activity supports the reports of the proximity of German cruisers in these waters. He says there are persistent rumors that the cruiser Dresden is hiding in one of the inlets in southern Chile.

Two Nations May Fight

Berlin, via London, March 9.—The morning papers here devote much space to the consideration of possible future developments in Greece and Italy, which, the editorials say, are likely to be determined largely by the course of the Dardanelles operations.

Berlin Copies Michigan Plan

[illegible] March 9.—Governor [illegible]'s "potato patch plan" tried by the Michigan governor many years ago is being copied in Berlin. A movement supported by many women of high position to utilize all available garden plots as truck farms for the raising of vegetables, has been set on foot. The present war requires some such step. It is proposed to enlist the aid of all available truck farmers and agricultural experts and to get them to give instruction in vegetable raising.

STOP COUGHING

Mr. Andor Kiss, No. 318 Clinton Place, Kansas City, Mo., writes: "I cannot thank you enough for being cured. For seven long years I doctored steadily for my catarrh and cough, which cost me hundreds of dollars. But my catarrh grew worse all the time. Even though I was under the treatment of some of the most famous doctors, I still had a terrible cough and thought sometimes that I would choke. I could get no air. I then bought a bottle of Peruna, and that evening and all night my wife gave it to me according to the directions, and I felt better the following day already. Three days later I felt much improved, and today, after the use of the fourth bottle, I feel entirely cured. I can conscientiously recommend this grand medicine to every citizen."

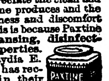
A Good Cough Tablet.

There are people who object to taking fluid medicines. For such people the Peruna Tablets are especially valuable. They are convenient to carry in the pocket.

Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.



For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At druggists. 50c. large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

The Eternal Feminine.

A crowd of negroes, clad in their Sunday best, had gathered at the station in Richmond, Va., to await the arrival of a colored excursion from the neighboring town of Petersburg. One fat, gaudily dressed colored woman caught sight of a friend arrayed to match and called out:

"Howdy, Mandy, what you doin' down hyar all dressed up? Whar you gwine, sister?"

"I ain't a-gwine nowhar fum hyar. I cum to see and be seed uv."

DRINK LOTS OF WATER TO FLUSH THE KIDNEYS

Eat Less Meat and Take Salts for Backache or Bladder Trouble—Neutralize Acids.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Was Pale Looking.

[illegible]—The tea is quite exhausted, ma'am.

Mistress—I noticed that it seemed very weak last time.

LOSING HOPE WOMAN VERY ILL

Finally Restored To Health By Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Woman's Precious Gift.

The one which she should most zealously guard, is her health, but it is the one most often neglected, until some ailment peculiar to her sex has fastened itself upon her. When so affected such women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

So Pleasant.

It was a club dinner, and Mrs. Anderson, a social climber, was seated next to Mrs. Murgridge, a society woman of prominence. Wishing to engage in conversation with the social leader, Mrs. Anderson remarked:

"I understand that you have a son who is studying music, Mrs. Murgridge."

"Yes, my son is a great musician," replied the social leader, rather coldly. "He is now studying in the Paris conservatory."

"Really! How nice!" replied the social aspirant. "It must be so pleasant to be able to sit among flowers all day and not disturb anyone with the practicing."

Among Those Present.

"Did Blinks exhibit at the horse show?"

"Well, he made an ass of himself."—Philadelphia Public Ledger.

Similar Result.

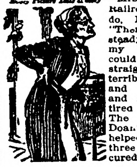
"Did you nail Jims on that story?"

"I did, and found he was on the wrong tack."

Put Off Old Age

Some old folks are bent and shaky. Others are straight and strong. It can't be mere "oldness" that works such havoc. No—it's too often uric acid. Fight off this life-sapping poison. Help the kidneys take it from the blood. To aid them, live carefully and stimulate their action with the old reliable medicine, Doan's Kidney Pills.

A North Dakota Case



"Every Picture Tells a Story"

Mrs. H. Be[illegible], Railroad Ave., Cando, N. D., says: "There was a steady, dull ache in my back and I could hardly straighten. I had terrible headaches and dizzy spells and mornings felt tired and nervous. The first box of Doan's Kidney Pills helped me and three or four boxes cured me."

Resume of Important Happenings of Past Few Days.

FAVOR AMERICAN RESERVES

Minneapolis Veterans to Assist in Formation of Legion of Former Soldiers and Sailors.

Minneapolis. — Many Minneapolis men prominent in military affairs have announced their intention of assisting in every way possible the formation of an American legion or organization of first reserves, to be composed of former members of the army, navy and militia.

A reserve of 300,000 is expected by Captain Gordon Johnston, aide-de-camp to Major General Leonard Wood, commanding the department of the east, who made the announcement in New York. Most of the members of the legion from Minneapolis would be former guardsmen, of which there are about 1,500 in the city.

It is expected that within a week plans will be under way to form a Minneapolis branch of the national legion.

Edward Falk, major and adjutant general of the first brigade, national guards, said that the formation of such an organization would appeal strongly to the large number of former guardsmen in Minneapolis and the Twin Cities.

Colonel Frank Rowley of the first regiment heartily endorsed the plan.

Former Guardsmen Interested.

Former First Sergeant Wiltberger of Company A, said that all former guardsmen would be interested in the scheme. The Company A Veterans' association, composed of former members of the company, will doubtless take some action in the matter, thinks Mr. Wiltberger.

Lieutenant Frank Pettigrew of the Thirteenth Minnesota, battalion quartermaster and commissary, said that the plan would receive the commendation of all Philippine veterans.

Lieutenant Arthur Johnson of the First Regiment, former captain of the Minnesota scouts, praised the idea and said that steps to form a local legion would soon be under way.

Captain C. E. Metz, Major Roy Pearse and Major Don S. Fitzgerald also commended the plan, as did E. W. Sloan of the signal corps.

While none of the Minneapolis guardsmen interview are anxious for a war, they feel that an extra 200,000 well trained men, ready to fight if necessary, will not be a small factor in the defense of the country.

SPRING CRUSADE AGAINST AUTO SPEEDERS PLANNED

Minneapolis.—A systematic spring crusade against offending automobile and motorcycle drivers will be started in earnest March 10, according to orders issued to Oscar Martinson, superintendent of police, by Mayor Nye. After that date a special detail of seven policemen will be assigned to the work of trapping speeders in different sections of the city.

Special attention will be given to the following offenses, under orders from the mayor: Driving in excess of lawful rate; running with muffler open; passing street cars when gates are open; failure to slow down at crossings; failure to carry lights after dark; failure to display 1915 license tag, and driving on wrong side of street or cutting corners. Officers will be held responsible for traffic conditions on their beats and will be asked to explain should complaints be made.

A detail of six men with a sergeant in charge will be assigned to the work of trapping speeders and they will be so stationed as to obtain the necessary evidence to insure prompt arrests and convictions.

UNION STATION BILL IS HEARTILY ENDORSED

Minneapolis, March 8.—If the fate of the proposed new union station bill, now before the legislature, were to be decided by the enthusiasm in its favor shown by most of the 600 men who attended the Civic & Commerce association dinner at the West hotel it would pass both bodies under suspension of the rules and would receive the gubernatorial approval in the shortest possible time.

That an overwhelming majority of the men present both approved a new union station and the particular bill under discussion was abundantly proved. Standing votes taken both on the general station proposition and on the bill as presented, or as it may be amended by the representatives of the association, carried unanimously.

First Arrest Under New Game Law

Fergus Falls.—D. A. [illegible], deputy game inspector swore out a warrant charging J. Stuart of East Little Lake with having violated the new national game law which forbids the shooting of game birds before sunrise. The offense is alleged to have been committed during the hunting season recently. He was bound over to the coming term of United States court here, bail being fixed at $250. This is the first prosecution in western Minnesota under the federal migratory bird law.

FAILS TO PAY $4 ALIMONY; INVENTOR GOES TO JAIL

Minneapolis.—Continued failure to pay $4 a week sent an inventor to the alimony prisoner's cell in the county jail.

The inventor was John A. Morrison, formerly an employe of the Heywood Box Manufacturing company. A little more than a year ago he was granted a divorce from his wife, Mrs. Inez Morrison, the husband agreeing to pay $4 a week for the support of their child.

Two weeks ago William Donahue, attorney for Mrs. Morrison, obtained a bench warrant from Judge Leary summoning Morrison to court to show why he should not be punished for failure to pay the alimony. Donahue was summoned by telephone.

Instead of appearing in court he took the next train for Milwaukee. He admitted that he disposed of royalties coming to him from a patent box-making machine.

Stricken with apparent remorse, he came back from Milwaukee and, weeping copiously, asked Deputy Sheriff Joseph Schutta to lock him up.

When Morrison appeared in court his period of repentance was over. He refused to pay alimony, insisting that he had no money. When he admitted that he had transferred the royalties on his invention after being summoned to court Judge Leary ordered him to the county jail.

WESTERN COUNTIES GET READY FOR OPTION FIGHT

Minneapolis.—Already six counties, Mower, Carver, Wilkin, Clay Koochiching and Kanabec, have begun preliminary work for holding local option elections early this spring, according to Dr. George B. Safford, superintendent of the Minnesota Anti-Saloon league. Temperance workers in these counties have written the league for petition blanks and other material necessary to begin their campaign. At least 10 other counties in the western part of the state will begin within a few days, according to Dr. Stafford, and it is probable that elections may be called in more than 20 counties by June 1.

"In my opinion the whole of the western part of the state, from Koochiching county on the north to Martin county on the south, and the double tier of counties clear across the southern part of the state should be in the 'dry' column this year," Dr. Safford declared. "The great trouble is curbing the desire of many of our friends to start in the fight before they have time to organize. I am advising them to 'make haste slowly' and not to get into the actual fight until they have perfected their county organizations."

SHERIFF TO BRING BACK PRISONER FROM AFRICA

St. Paul, Minn.—Sheriff John Wagener of St. Paul has been notified that Peter J. Le Reoux, driver for the Adams Express company of St. Paul, who disappeared Oct. 20, 1914, with $5,000 which he was supposed to deliver at the St. Paul union station, had been run down by the agents of the bonding company, as sureties for the express company, in Johannesburg, South Africa.

Le Reoux's case will be brought before the Ramsey county grand jury March 10, and after his indictment a warrant for his return to Ramsey county will be issued by Governor Hammond.

Sheriff Wagener says he probably will make the trip to South Africa himself, and there is much rivalry among the deputies over the privilege of accompanying the sheriff on the journey.

Clay Organizes No License League

Moorhead.—A No-license Law and Order league has been organized and the following officers elected: President, Rev. D. F. Mowrey; vice president, A. H. Wije; secretary, O. J. Mortenson; treasurer, Elof Fridlund; trustees, George E. Perley and Dr. D. C. Darrow. As soon as the officers of the league are certain of the methods to be pursued, a petition for submitting the county option question to a vote will be circulated. It is the plan to secure the necessary 840 signatures and file the petition in the next 10 days in order to have the election held in April.

Hastings Short Course Opens

Hastings.—The farmers' short course has opened with a large attendance. The speakers were Professor A. J. McGuire and Professor E. C. Davis from the state university agricultural extension division, Mrs. Hazel C. Cavanor of Minneapolis and Miss Juanita Sheppard of St. Paul. Live stock was sent from the state university farm for demonstration purposes. Professor P. S. Jordon, agriculturist of the Hastings high school, and Professor R. C. Pollock, county agent were in charge of the short course.

Churches Conduct Union Meeting

Osakis.—The churches here have united for evangelistic meetings for three weeks. Rev. G. I. Barker is in charge.

[illegible]

[illegible] in recognition of faithful service, Frank J. and George F. [illegible] have announced the entrance of two of their clerks into the business. Adam Pren[illegible], for 1[illegible] years connected with the firm, and Harry G. Ziebo[illegible], employed in the store for 10 years, were presented with a block of stock each when the company incorporated. Each has been promised an opportunity to buy further holdings of stock.

FARMERS WHO SUCCEED IN WESTERN CANADA

Those Who Exercise Thrift, Practice Due Economy, and Adopt Reasonable Methods Are Sure to Prosper.

Those who are interested in developing the agricultural resources of Western Canada in bringing to the notice of those whom they desire to take part in this development present only the facts. There has never been given the impression that farming in Western Canada could be carried on without effort or labor, but it has been successfully stated that better results can be secured with less outlay of capital, either in money or labor, than anywhere else on the continent. This has been proven time and time again. Hundreds of cases could be cited where men have taken up farms, either a homestead, or purchased from railways or land companies, and with little capital at the start have acquired a competence, have established good homes for themselves, and provided a sure future. They have comfortable homes and all their surroundings are comfortable, speak of the reward that their thrift has accomplished.

Carl Dickan, of Russian Poland lived in Pittsburgh, Pa., for fourteen years, and saved up $900. In 1903 he took the $900 with him to Alberta. His own story is that he bought a quarter section, for which he agreed to pay $1,200. "In 1904 I had thirty acres of crop, threshed 900 bushels. In 1909 I bought another quarter. I now have one hundred acres under cultivation, and have never had a crop failure. Have threshed forty-seven bushels of wheat per acre, but the average has been about forty. My oats for the eleven years that I have been here averaged forty-seven bushels to the acre. I now have 9 horses, 47 head of cattle, 33 hogs, which I consider worth $3,600. I have a thousand dollars worth of farm implements and my land is worth $8,000. This is all clear of debt. I have every reason to consider this a first-class mixed farming, dairying and poultry raising country, as I think that it is apparent that I have had some success. The only help that I had was my oldest boy, who was 8 years old when I arrived in Alberta."

About fifty miles west of Wetaskiwin there is a partially timbered district lying between Buck Lake and Pigeon Lake. All this land is ready for homesteading, and judging from a letter received by a resident there, this would seem to be an ideal place for a farmer who desired such surroundings. This settler lives on the shore of Buck Lake, his land is willow brush, which is easy to clear. Some of the lumber is good saw timber, and lots of good logs for buildings can be had, as well as rails for fencing. For wheat growing the soil is excellent. Water is easily secured, fishing is good and plentiful and game is anything but scarce. The settlers are mostly from the United States and Canada.—Advertisement.

Where Man Wins.

An ant can carry a grain of corn ten times the weight of its own body, while a horse and a man can carry a burden only about equal to their own weight.—Indianapolis News.

But we defy any ant to sit perfectly motionless in a dimly lit parlor for four hours with a female of the species twice its own weight on its lap, all the time wearing a grin of ecstatic happiness.

One More.

The valiant Sir Knight had been boasting of his victorious deeds before the fair company.

"I heard of one engagement which you have failed to mention, forsooth," remarked Sir Gregory.

"When I killed the eighty knights with—?" inquired the valiant.

"No; this was a certain charge in which you were the leader," replied Sir Gregory.

"But I have led so many, I cannot remember," said the valiant.

"But," returned Sir Gregory, "this is still remembered. It was for a suit of clothes you had from Snip, the tailor, some two years since, and the charge still appeareth on the book."

And then they scrapped right merrily.

Alfalfa PUREST ON EARTH

More than 30 years ago Salzer's Catalog boomed Alfalfa, years before other seedsmen thought of its value. Today Salzer excels! His Alfalfa strains include Grimm, (Montana Liscom, Agr. College inspected). Salzer's Dakota Registered No. 30—all hardy as oak.

For 10c in Postage

We gladly mail our Catalog and sample package of Ten Famous Farm Seeds, including Speltz, "The Cereal Wonder;" Rejuvenated White Bonanza Oats, "The Prize Winner;" Billion Dollar Grass; Teosinte, the Silo Filler, Alfalfa, etc., etc.

Or Send 12c

And we will mail you our big Catalog and six generous packages of Early Cabbage, Carrot, Cucumber, Lettuce, Radish, Onion furnishing lots and lots of juicy delicious Vegetables during the early Spring and Summer.

Or send to John A. Salzer Seed Co., Box 715, La Crosse, Wis., twenty cents and receive both above collections and their big catalog.

Dangerous Insect.

Knicker—This paper says Villa has the presidential bee.

Phyle—He is welcome to it. I'd rather take my chance with a nest of hornets in Mexico.—Youngstown Telegram.

Heard on the Train.

"Do you catch cold easily?"

"Easily? Why I catch cold [illegible] finger nails too close."

[illegible] Throat troubles are [illegible] relieved by Dean's Mentholated Cough Drops. They act like magic. 5c at all Druggists.

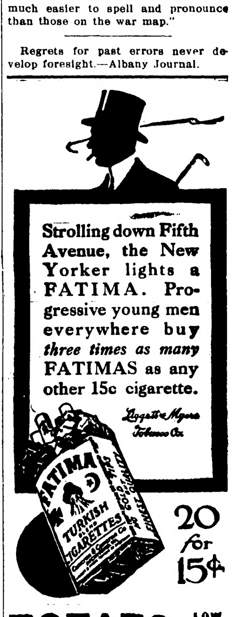
Indigestion never plays fair. It always hits below the belt.—Memphis Commercial Appeal.

Easing the Stress.

"Why do you keep looking over the weather map?"

"For relaxation. The names are so much easier to spell and pronounce than those on the war map."

Regrets for past errors never develop foresight.—Albany Journal.



Strolling down Fifth Avenue, the New Yorker lights a FATIMA. Progressive young men everywhere buy *three times as many* FATIMAS as any other 15c cigarette.

W. L. DOUGLAS

MEN'S $2.50 $3 $3.50 $4.00 $4.50 $5 $5.50 SHOES
WOMEN'S $2.00 $2.50 $3.00 $3.50 & $4.00 SHOES
BOYS' $1.75 $2 $2.50 $3.00 MISSES' $2.00 & $2.50

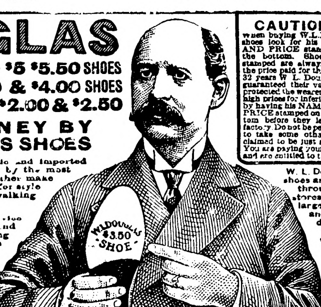
YOU CAN SAVE MONEY BY WEARING W. L. DOUGLAS SHOES

W. L. Douglas shoes are made of the best domestic and imported leathers, on the latest models, carefully constructed by the most expert last and pattern makers in this country. No other make of equal prices, can compete with W. L. Douglas shoes for style workmanship and quality. As comfortable, easy walking shoes they are unsurpassed.

The $3.00, $3.50 and $4.00 shoes will give as good service as other makes costing $4.00 to $5.00. The $4.50, $5.00 and $5.50 shoes compare favorably with other makes costing $6.00 to $8.00. Wherever you live there are many men and women wearing W. L. Douglas shoes. Consult them and they will tell you that W. L. Douglas shoes cannot be excelled for the price.

If you could visit the W. L. Douglas factory at Brockton, Mass., and see how carefully the shoes are made, and the high grade leathers used, you would then understand why they look and fit better, hold their shape and wear longer than other makes for the price.

If your dealer cannot supply you, write for Illustrated Catalog showing how to order by mail. W. L. Douglas, 210 Spark St., Brockton, Mass.



CAUTION!

When buying W. L. Douglas shoes look for his NAME AND PRICE stamped on the bottom. Shoes thus stamped are always worth the price paid for them. For 32 years W. L. Douglas has guaranteed their value and protected the wearer against high prices for inferior shoes by having his NAME AND PRICE stamped on the bottom before they leave the factory. Do not be persuaded to take some other make claimed to be just as good. You are paying your money and are entitled to the best.

W. L. Douglas shoes are sold through 80 stores in the large cities and shoe dealers everywhere.

RIGHT HERE IN OUR YARDS

WHITE PINE "& plenty of it."

NORWAY PINE "& plenty of it."

Ready To Put On Your Job Quick!

WHITE PINE—"THE WOOD AMERICA IS MOSTLY BUILT OF" and "THE LEADER IN THE MARKETS FOR 250 YEARS." (U. S. GOVT. REPT.)—is still the most potent factor in the building world and will be for generations to come.

We sell WHITE PINE—for all uses—also that good old "Norway"—(equal to White Pine for most purposes) and are prepared to take care of your orders *promptly*—for a carload or a scantling.

It's nice, clean, well-seasoned lumber — straight from Minnesota and Wisconsin where the best comes from—and will be welcomed by those who thought WHITE PINE was "so hard to get."

SEND IN YOUR ORDERS—and we'll "show" you action in a hurry.

We carry a full and complete line of Reliable Building Materials of all kinds—and want to figure on your job, *EVERY TIME.*

Even if we don't land the order *every time*, we are anxious to have a try for it. We're determined to *deserve* your business anyhow.

You'll find us prompt, and you'll like the way we fill orders that come [illegible]

Defective Page

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

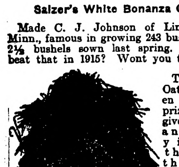
Shifting Places.

"Scientists now state that there is no anatomical reason why a girl should not throw a baseball as well as a boy."

"And I suppose, as a correlative theory, that there is no anatomical reason why a boy should not wash dishes as well as a girl."—Louisville Courier-Journal.

Salzer's White Bonanza Oats.

Made C. J. Johnson of Lincoln Co., Minn., famous in growing 243 bushels from 2⅓ bushels sown last spring. Can you beat that in 1915? Wont you try?



This great Oat has taken more prizes and given bigger and larger yields throughout the United States than any Oat known. It's enormously prolific. Just the Oat for Iowa, Minn., Wis., Ill., Ind., Mich., Ohio, Neb., Pa., N. Y., Kansas and Missouri.

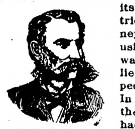
THE PROFESSOR'S STATEMENT

Prof. Aug. F. W. Schmitz, Thomas, Okla., writes: "I was troubled with Backache for about twenty-five years. When told I had Bright's Disease in its last stages, I tried Dodd's Kidney Pills. After using two boxes I was somewhat relieved and I stopped the treatment. In the spring of the next year I had another attack. I went for Dodd's Kidney Pills and they relieved me again. I used three boxes. That is now three years ago and my Backache has not returned in its severity, and by using another two boxes a little later on, the pain left altogether and I have had no trouble since. You may use my statement. I recommend Dodd's Kidney Pills when and wherever I can." Dodd's Kidney Pills, 50c. per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y. Adv.



Prof. Schmitz.

Useful, Indeed.

In the bright lexicon of the [illegible] the word "enough" doesn't show up.

SENATE VOTES TO AMEND MINNETTE TELEPHONE BILL

COMMITTEE MAKES CHANGES IN TWO IMPORTANT FEATURES—HOUSE PASSED BILL BY UNANIMOUS VOTE.

REFERENDUM PROVISION STRUCK OUT OF MEASURE

Act Provides for Granting of Franchise to Competing Company Only by State Railroad Commission—Applicant Must Show "Public Necessity" at Hearing.

St. Paul, Minn.—In a session from which reporters were at first barred, but later admitted, the senate committee on public service corporations amended the Minette telephone bill passed unanimously by the house a few days ago, in two important features. Senator George H. Sullivan, who is leading the opposition to the bill in the upper huse, moved the "executive session" and newspaper men were excluded from the room during the first part of the committee's discussion of the measure. They were later admitted and it was explained their dismissal was a "mistake." The bill is to be a special order in the senate next Wednesday.

One of the amendments adopted strikes out the referendum features of the bill, under which a competing telephone system may be given a permit in a municipality on a 65 per cent vote of the people. This was done by a vote of 5 to 2, Senators C. N. Orr and Edward Rustad voting to retain the referendum feature, and Senator Jas. A. Carley, Geo. H. Sullivan, W. S. Dwinnell, F. D. Vibert and J. A. Rystrom voting to cut it out.

Must Show Necessity.

As amended, the bill provides that a competing company cannot be granted a franchise in a community except by the state railroad commission after a public hearing, at which a "public necessity" must be shown. Those favoring the referendum say that if it is left to the state commission, judging by the experience of other states, competing companies never will be allowed to get in.

The other amendment changes the section under which applications are made for physical condition of toll lines. The bill provided that when such application was made, it should be presumed that a public necessity existed. This put the burden of proof on the company resisting the application. The amendment provides that the railroad commission shall first determine whether a public necessity exists. If the commission so decides, the company objecting must show in court that the order is unfair. The amendment shifting the burden of proof to the applicant was carried four to three, Orr, Rustad and Dwinnell voting no.

Senator Carley fought for another amendment, requiring the consent of the railroad commision before any extensions of toll lines shall be built. This was defeated, however, Senators Orr, Rustad, Dwinnell and Rystrom voting no.

LEGISLATORS CRITICISE "U" FARM EXTENSION WORK

Attacks on the county agent system and on the agricultural extension work of the University of Minnesota were made at a public hearing on university matters before the house committee on public accounts and expenditures. County agents, who are assisted by the state to the extent of $1,000 each, were branded as "nuisances" by C. A. Wold, Magnus Johnson and other members. President George E. Vincent and Dean A. F. Woods defended the system, saying it is the university's idea to go to the people. John Lind, former president of the board of regents, urged the legislature not to go to extremes.

Condemn "Blue Milk" [illegible]

Condemnation of the proposed "blue milk" law which would reduce the minimum butterfat content of milk from 3¼ to 3 per cent was voiced by speakers before the Civic Improvement league at a meeting in the West hotel. Resolutions demanding that the "blue milk" measure and another permitting cities to demand labeling of milk be killed were unanimously adopted.

Appoints Reformatory Committee.

Speaker H. H. Flowers appointed Representatives J. A. Larimore, L. C. Spooner and J. R. Sanborn a committee to draft a bill for the construction of a state reformatory for women. This was in line with action taken when the reformatory bills came before the house as a special order.

Divided on Election Date [illegible]

Two reports from the senate elections committee on the house bill changing the primary election date from June to September threatened a clash in the senate, which was postponed by laying both bills on the table to be taken up later. The majority of the committee, including Senators O. A. Lende, A. J. Rockne, O. O. Sageng and F. E. Putnam, recommended indefinite postponement of the bill, while Senators E. B. Collister, E. P. Peterson and W. A. Campbell asked that it be passed.

PROHIBITION BILL IS DEFEATED IN SENATE

Statutory prohibition was engulfed in the wake of triumphant county option. The senate killed the E. E. Lobeck statewide "all dry" bill by a vote of 50 to 17. It was not even close. Many of the senators who voted for option balked on casting a vote for statutory prohibition.

When the vote was announced Senator Lobeck, the lone Prohibitionist in the senate, arose smilingly:

"I was told," he said, "that if I voted for county option I would be aiding in the defeat of my own bill. But I voted for option and I guess I did vote against my own bill when I cast that option ballot."

Approves Civil Service Provisions.

St. Paul, Minn.—Enactment into law of the efficiency and economy bill drawn by the efficiency and economy commission is urged in the first special message of Governor W. S. Hammond, sent to the Minnesota legislature. The message says that some amendments to the bill are necessary and to that extent recedes from the unequivocal indorsement of the commission's draft which the governor gave in his inaugural address.

Appended to the message were four letters to the governor from state officials, approving of the efficiency and economy bill in a general way, but with important amendments recommended by Attorney General L. A. Smith.

Mr. Smith wrote that the proposed recombination of different departments in the majority of cases will procure a better co-ordination of work. He approves the civil service provisions and declares some amendments will be necessary to make the proposed law constitutional. He hints at the possible creation of a political machine unless certain safeguards are adopted.

A letter from State Auditor J. A. O. Preus approves the main provisions of the bill and particularly the proposed consolidation of leading state departments. One from C. G. Schulz, state superintendent of education, indorses the chapter on education. Carlos Avery, executive agent of the state game and fish commission, approves the merit system as applied to that department and adds that it undoubtedly would result in greater efficiency, though he cannot say that it would produce economy.

Governor Hammond says in his message that the proposed new system would "substitute business efficiency and system for unbusinesslike practices."

Forestry Problem Up to House.

After strong arguments had been made before the house appropriations committee in favor of a liberal appropriation for the forestry service, the committee voted to send the bills out for action by the house, merely recommending that they be made a special order. The forest service asks for $150,000 a year. It now gets $75,000 a year, and the senate finance commitee has cut the allowance to $40,000.

There are areas in northern Minnesota where the fire hazard is greater than it was at the time of the disastrous Hinckley and Baudette forest fires, State Forester W. T. Cox told the committee. There are more settlers and greater property values to be protected in the cut-over region than ever before, he said, and while the fire hazard has been reduced 40 per cent by the operations of the forest service, great danger still exists.

COMMITTEE TO SUBMIT REPORT ON DEAF SCHOOL

Members of the state board of control were questioned by the house committee investigating the affairs of the State School for the Deaf at Faribault regarding the amount of money appropriated for the upkeep of the institution. In order to obtain a fair idea of the sum appropriated the committee planned to go over the books of the department.

Supt. J. N. Tate and other officials of the school contend that the institution has been operated as efficiently as is consistent with the money provided.

PROPOSED INCREASE IN RAILROAD FARES

Railroad passenger fares of [illegible] cents a mile are proposed in a bill introduced by Senator E. J. [illegible] of Minneapolis, accompanied with a statement by the author, showing that operative expenses of roads have increased approximately 50 per cent and cost of equipment nearly 100 per cent since the 2-cent fare law was passed in 1907.

Substitute Measure Passed.

A substitute resolution calling on the speaker of the house to appoint a committee of seven members to investigate the affairs of the state university and report to the house, was presented in the house by Representatives Malmberg, Lydiar and Greene. The resolution carried none of the drastic charges embodied in the original resolution.

Revolving Drainage Fund.

[illegible] house committee [illegible] recommended to pass the bill [illegible] a revolving drainage fund.

The insurance committee indefinitely postponed the bill establishing a state bonding department in the office of the commissioner of insurance.

Representative G. B. Bjornson introduced a resolution in the house for the appointment of a committee of 11, one member from each congressional district and one at large, to select bills to be made special orders on March 31 and April 2.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

He'd Change His Wooing.

"If you had it to do over again, would you marry?"

"Yes, I think I would."

"The same girl?"

"Yes, the same girl."

"Then you have no regrets whatever?"

"I wouldn't say that exactly. If I had it to do over again, I shouldn't be so reckless during my courtship days with promises of the things I would buy for her after marriage. I'd have more common sense and fewer electric motor cars and fur coats and servants and unlimited charge accounts in my wooing."

KIDNEYS CLOG UP FROM EATING TOO MUCH MEAT

Take Tablespoonful of Salts if Back Hurts or Bladder Bothers—Meat Forms Uric Acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

Actors Fight Well.

The large number of actors [illegible] the field for Germany is indicated by a recent remark of the emperor while on one of his flying trips to Berlin. Bent on a visit to Staff Physician Dr. von Ilberg, his majesty encountered a well-known playwright and Gustav Kadenburg, the actor. Summoning them to him he announced that many others of their profession were at the front, including two famous actors who have received the Iron Cross. "I am very well satisfied with them," the kaiser declared. "They fight very well, indeed."

NO DOUBT THAT RESINOL DOES HEAL SICK SKIN

When you know physicians have prescribed resinol for 20 years in the treatment of eczema and other itching, burning, unsightly skin eruptions, and have written thousands of reports saying: "It is my regular prescription for itching," "Resinol has produced brilliant results," "The result it gave was marvelous in one of the worst cases of eczema," etc., etc. doesn't it make you feel that "this is the treatment I can rely on for MY skin trouble?"

The moment resinol ointment touches itching skin, the itching stops and healing begins. With the aid of resinol soap it almost always clears away every trace of eczema, ringworm, pimples, or other tormenting eruptions quickly, leaving the skin clear and healthy. Sold by all druggists.—Adv.

ANARCHY REIGNS IN COAST TOWN; U. S. SHIPS NEAR

CONSTITUTIONALIST TROOPS UNABLE TO MAINTAIN ORDER AT MANZANILLO—FOREIGNERS APPREHENSIVE.

CARRANZA ORDERS PROGRESO CLOSED

Carranza Dispatches Gunboat Zaragoza to Enforce Blockade Orders—Mexico City Situation Said to Be Improving—Food Supply Is Replenished.

* * * * * * * * * * * * * *

MEXICANS FIRE ON U. S. CRUISER, SAYS REPORT.

Washington, March 16.—A rumor which could be traced to no definite source is current here that a Mexican gunboat fired on the United States cruiser Des Moines off Progreso. At the navy department no such report had been received.

* * * * * * * * * * * * * *

Washington, March 16.—Demand by the United States government that Gen. Carranza abandon his blockade of Port Progreso, Mexico, backed up by the presence of the cruiser Des Moines, which had orders to enforce the opening of the port, brought a message to the state department from Rear Admiral Caperton that the blockade has been raised.

Carranza's gunboat, the Zaragosa, which was preventing ships from leaving or entering Progreso, has left for Vera Cruz. The Zaragosa had stopped one American ship with a shot across its bows, had held up another and interferred with British shipping.

Washington, March 16.—Situations fraught with difficulty have arisen at Progreso, on the Atlantic coast of Mexico, and at Manzanillo, on the Pacific coast, according to word reaching the State Department. The Mexico City situation it was said, has improved, and the water and food supply of the capital is being replenished by the Zapata forces there.

Wireless reports from the American Consul at Manzanillo state that a condition of anarchy prevails there. Carranza troops in possession of the city are unable to maintain order, it was said, and foreigners are apprehensive. The food supply is decreasing, while the Villa-Zapata troops are investing the approaches to the town.

To Take Foreigners Away.

Admiral Howard, commanding the Pacific fleet, is understood to be preparing to take foreigners away from Manzanillo if conditions do not improve. Several American ships are in the vicinity.

Progreso, the port from which is shipped 90 per cent of the sisal hemp required for binding the wheat crop of the United States, has been ordered closed to foreign commerce by General Carranza. He has dispatched the gunboat Zaragoza and is preparing to send the armored tug Ocampo to enforce the blockade orders.

The cruiser Des Moines is at Progreso under orders from the Navy Department to see to it that there is no interference with American commerce, as, in accordance with international precedent, the right of a de facto government to close a port not in its possession is not recognized.

MINNEAPOLIS HAS FIRE CAUSING $50,000 DAMAGE

Minneapolis, March 16.—Fire in the Old Colony building, Fourth street and Fourth avenue south, caused an estimated loss of $50,000.

Miss Hazel Nell, a chemist, was carried from a second floor window just before an explosion tumbled firemen from ladders and shattered windows on the Fourth street side. Miss Nell was trapped in the Howard Wheat & Flour testing laboratory on the second floor. Flames swept the one stair way. She was calling for help when firemen arrived. Captain Charles Loss of Truck No. 1 rescued her. She lives at the Leamington hotel and is chief chemist for the Howard company.

The explosion, which was heard for several blocks, was followed by a dense cloud of smoke that poured from the second floor. Several short explosions followed.

German Headquarters Moved.

London, March 16.—"It is reported that the German general headquarters moved from Lille across the Belgian border to Tournai," says a dispatch to the Daily Express from a correspondent in Northern France.

Chinese Order German's Arrest.

Pekin, March 16.—The Chinese government has lodged a protest with the German legation concerning the activities of Captain Rabe Von Pappenheim, German military attache at Pekin, and has ordered his arrest.

At the Russian legation it was said that Captain von Pappenheim, who went to Manchuria some time ago ostensibly on a hunting expedition, in reality was endeavoring to incite the natives to cut the Trans Siberian railway.

The Baking Powder Question Solved

—solved once for all by Calumet. For daily use in millions of kitchens has proved that Calumet is highest not only in *quality* but in *leavening power* as well—unfailing in results—pure to the extreme—and wonderfully economical in use. Ask your grocer. And try Calumet next bake day.

SAGE TEA AND SULPHUR DARKENS YOUR GRAY HAIR

Look Years Younger! Try Grandma's Recipe of Sage and Sulphur and Nobody Will Know.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Adv.

No Hay.

As is usual on Monday mornings, a stream of offenders against the lesser laws passes in and out of the police court dock. Nothing happened to lighten the gloom of the proceedings until a rather battered woman took her place behind the rail.

"Name?" queried an official.

"Meddow, sir."

"How do you spell it?" said the magistrate.

"Hem-He-D-D-Ho-W, sir!"

"Ah, I see! There is no 'hay' in your meadow!"—Answers (London).

Soldier Poet Wins Dainties.

Sergt. Max Schwertfeger, attached to one of the regiments in Flanders, says the Frankfort correspondence of the Associated Press, offers remarkable evidence of the fact that the power of poetry is not on the wane. When, recently, he broke into verse in an appeal for dainties to vary the monotony of military fare, the poem, which was published in a local paper, prompted such a number of contributions of packages and boxes of delicatessen that Sergeant Schwertfeger was fairly swamped with them. By the time of the kaiser's birthday, January 26, he had received 1,027 bundles, containing so many varied eatables that he was able to share them with about a thousand members of his battalion.

When, however, the stream showed no signs of stopping, he was obliged to appeal once again, this time asking that the dainties be sent to other soldiers on other battle fronts.

CHILDREN SHOWED IT
Effect of Their Warm Drink in the Morning.

A year ago I was a wreck from coffee drinking and was on the point of giving up my position in the school room because of nervousness.

"I was telling a friend about it and she said 'We drink nothing at meal time but Postum, and it is such a comfort to have something we can enjoy drinking with the children.'

"I was astonished that she would allow the children to drink any kind of coffee, but she said Postum was not coffee but a most healthful drink for children as well as for older ones, and that the condition of both the children and adults showed that to be a fact.

"I was in despair and determined to give Postum a trial, following the directions carefully. It was a decided success and I was completely won by its rich delicious flavor.

"In a short time I noticed a decided improvement in my condition and kept growing better month after month, until now I am healthy, and do my work in the school room with ease and pleasure. I would not return to nerve-destroying coffee for any money."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost per cup about the same.

"There's a Reason" for Postum.

Resume of Important Happenings of Past Few Days.

MINNESOTANS ABOARD FRYE

Three Natives of North Star State Tell of Capture by German Cruiser.

Washington, March 15.—Three Minnesotans participated in the thrilling adventures of the Prinz Eitel Friedrich, the German commerce destroyer now at Newport News, Va., and have exciting stories to tell of their adventures on the sea. They are Adolph Miller, formerly of Duluth; E. P. Matson, an Elmore boy, who were members of the crew of the ill-fated American grain boat William P. Frye, and O. S. Sorenson, who hails from Luverne and who was one of the crew of the Ivercoe, a British bark.

Adolph Miller, who obtained his first experience in navigation on the Great Lakes and later drifted to salt water, is 24 years of age and looks upon his adventure as a matter of course. His story shows the imminent danger in which Americans were placed by being compelled to take passage on a boat whose safety rested upon the fact that she was not sighted by the warships of the other belligerent nations.

Miller says:

"On the whole, the Americans were treated remarkably well by the Germans. Three consecutive times the danger to the Americans was extremely great. British warships were in the vicinity and the decks of the cruiser were cleared for action. The Americans, like all the other refugees, were compelled to go below. We could look from the portholes."

$600,000 IS INVOLVED IN ST. PAUL TRANSACTION

St. Paul.—A Robert street deal involving a land purchase and new buildings aggregating $600,000 was announced by J. F. Sperry of the Sperry Realty company.

The new building, according to the announcement, includes a seven-story hotel to cost $250,000, a three-story produce building, $125,000; an automobile salesroom and garage, $50,000, and a three-story commercial building, $30,000.

The property for the new buildings embraces the entire frontage on the east side of Robert street from Ninth to Tenth street. It faces 300 feet on Robert street and runs back 160 feet to a dead line. It was purchased by Sperry, Henry E. L. Habighorst and Charles W. Van Orsdol from Joseph Elsinger of the Golden Rule for $150,000.

Mr. Sperry said that the new hotel would be seven stories and would be built at Ninth and Robert streets. It will contain 150 rooms with a private bath connected with every room. The hotel will be 80x80 feet. Plans for the hotel have been prepared.

LAWYER IN HUNTER CASE IS ACCUSED BY WITNESS

Minneapolis, March 13.—Pointblank charges made in open court that Frank D. Larrabee, attorney for Dr. Charles Hunter, on trial in district court before Judge Jelley, had attempted to induce Arthur Liesch, principal witness for the state, to testify falsely in the case, and Mr. Larrabee's vehement denial of the accusations, furnished a sensation in the Hunter trial here.

Throughout most of the morning session Mr. Larrabee objected to Liesch's testimony regarding conversations with Lena Kummers on the occasions when, he said, he accompanied her to Doctor Hunter's office. In the afternoon Judge Jelley overruled Mr. Larrabee's objection and Liesch told of his talks with the girl.

To Extend Mining Bureau.

Hibbing.—Appropriations for [illegible] for the state mining bureau will include one of from $22,000 to $40,000 for a new building at Hibbing, according to advices here. F. A. Wildes, state mine inspector, recently reported to legislators the need of more money and better facilities to increase the efficiency of his department. They promised to do everything they could to help him. At present the department is dependent upon mining companies for blue prints and plans.

Juror Arrested for Forgetting.

Minneapolis, March 12.—Isaac [illegible], 2930 Cedar avenue, is a prisoner in the county jail because he forgot. He was to be a juror in Judge Molyneaux' court. When he failed to appear a bench warrant was issued. He was arrested. "I forgot," was [illegible] explanation.

Raths Bears No Ill Will.

St. Paul, March 13.—Otto M. [illegible], a moving picture theater proprietor, appointed postmaster of St. Paul, gave out a statement that he bears no ill will against those Democrats who protested his selection. Mr. Raths was the choice of Congressman Van Dyke.

Mr. Raths said that he has had no opportunity to formulate a policy. He does not know of any changes that will be made. In speaking of the fight to block his nomination he said he believed the opposition had decided to forgive and forget.

BIG MINES PREPARE TO OPEN

Range Companies and Railroads Anticipate Heavy Shipments—Employment for Hundreds.

Hibbing.—If the ore is available, the Great Northern railroad will ship 6,000,000 tons from its properties on the range this season, according to its officials. Last year, when the properties were leased to the Oliver Mining company, nearly 6,500,000 tons were removed from its mines. Nearly twice this amount was handled by the railroad for independent shippers.

With the opening of the Grace and Laura mines here, activities have increased and indications are that before the first part of April or maybe not later than the last week in March, Hibbing ore shipments will begin. Until the price is fixed, however, ore dispatchers declare, the relative amount to be shipped from the range this season will be indefinite. The price, it is expected, will not be announced until the early part of next month. All the railroads are looking forward to a big year. Stripping companies have repaired their machinery and have purchased new shovels in prospect of a heavy season.

Will Strip Big Mine.

The Scranton mine, one of the state's largest properties, located within the village limits here, will be stripped this season. Although mine officials refused to give out any information as to what time this work will begin, they informed village officials not to construct an electric high tension line on the west side of the Alice road, on which side the mine is, as the removal of the surface of the property would make the line unsafe.

Steel plants at Pittsburgh and other eastern cities are crowded with export orders, it is said, so that ore will be in great demand in the east.

Operations preparatory to shipping ore have been started by mining companies in other parts of the range, too. At Buhl the machinery of several of the mines has been remodeled, while it is possible that several mines may be stripped. Stripping usually requires the employment of hundreds of men and takes from one to five years, depending upon the size of the job. It is said that the proposed work at the Scranton mine will take nearly six years.

SAY APARTMENT HOUSES CAUSE OF RACE SUICIDE

Minneapolis.—Large apartment houses without sufficient ground space for the tenants encourage race suicide in the opinion of F. G. Smith, member of the real estate board, who spoke before a special council committee in favor of a housing bill now pending in the legislature. The council has been asked to endorse the bill.

"I know of one flat building which houses 42 families," Mr. Smith said, "and there are only two children in that whole apartment house. There is no place for them to play, no ground at the side or the rear of the building for the little ones to get out and enjoy themselves.

"Such conditions, which it will be possible to remedy if the proposed bill passes, encourage race suicide for the people living in such places, many of them, know they will live in flats all their lives and that such buildings are not proper for the bringing up of children."

W. A. Eggleston of the Civic & Commerce association also spoke for the bill, declaring Minneapolis in 25 years would have 1,000,000 residents and that some provisions to avoid the creation of slum districts should be taken at this time. Others who asked the committee to indorse the bill were Otto W. Davis and David P. Jones of the Civic & Commerce association, Fred Mann of the Architects' board, Lynn Thompson, of the Trades and Labor Assembly and the Socialist party, Dr. C. E. Dutton, health commissioner and J. G. Houghton, building inspector.

Practically every organization familiar with present housing conditions in the city has gone on record as favoring the passage of this bill, which is designed to insure sanitary and healthful housing conditions in Minneapolis. The committee voted to indorse the bill after asking the city attorney to report to the council on the legality of certain provisions. Another meeting will be held to go over new building ordinances prepared by Mr. Houghton and to revise the present city building code.

Amateurs to Stage Comedy.

Owatonna.—"Fi Fi of the Toy Shop," a three-act farce comedy, will be presented at the Metropolitan opera house here by local talent. The training of the actors is under the direction of H. H. Keven of Chicago and the play will be given under the auspices of the women of the local Presbyterian church.

J. Adams Puffer, head of the bureau of vocational guidance of Boston, Mass., has promised to deliver the principal address at the thirty-ninth annual commencement of the Owatonna high school before the class of 1915. The school board has re-elected every member of the teaching staff of the local public schools.

Car Street Car [illegible]

Minneapolis.—St. [illegible] wondering if a street car [illegible] loop-the-loop just before one of the St. Paul-Minneapolis street cars crossed a railroad viaduct [illegible] car under the street car bridge [illegible] and smashed into the timbers of the viaduct support [illegible]. The street car track formed a letter "U." The car was unable to stop and went down into the bowl of the "U." The trolley stayed on the wire and the car by its own power ascended the other side. None were injured.

Ever Notice It?

"Eternal vigilance," quoted the moralizer, "is the price of liberty."

"Yes," rejoined the demoralizer, "and it is also the price of retaining a good umbrella."

It's a strong friendship that can stand a loan.

A Message To Women

Those of Middle Age Especially.

When you have found no remedy for the horrors that oppress you during change of life, when through the long hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period.

Read what these three women say:

From Mrs. Hornung, Buffalo, N. Y.

Buffalo, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak.

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. Hornung, 91 Stanton St., Buffalo, N. Y.

Made Me Well and Strong.

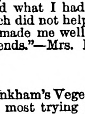
Macedon, N.Y.—"I was all run down and very thin in flesh, nervous, no appetite, could not sleep and was weak, and felt badly all the time. The doctors said I had poor blood and what I had was turning to water. I took different medicines which did not help me, but Lydia E. Pinkham's Vegetable Compound made me well and strong, and I am recommending it to my friends."—Mrs. Fred Chace, R. No. 2, Macedon, N.Y.

The Change of Life.

Beltsville, Md.—"By the use of Lydia E. Pinkham's Vegetable Compound I have successfully passed through a most trying time, the Change of Life. I suffered with a weakness, and had to stay in bed three days at a time. Lydia E. Pinkham's Vegetable Compound restored me to perfect health, and I am praising it for the benefit of other women who suffer as I did."—Mrs. W. S. Duvall, Route No. 1, Beltsville, Md.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.



LYDIA E. PINKHAM

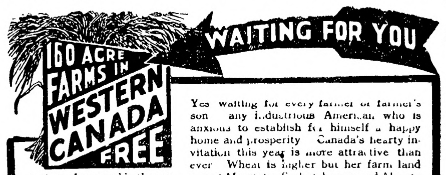
W. N. U. FARGO, NO. 12 1915.



WAITING FOR YOU
160 ACRE FARMS IN WESTERN CANADA FREE

Yes waiting for every farmer or farmer's son—any industrious American who is anxious to establish for himself a happy home and prosperity. Canada's hearty invitation this year is more attractive than ever. Wheat is higher but her farm land just as cheap and in the provinces of Manitoba, Saskatchewan and Alberta

160 Acre Homesteads are Actually Free to Settlers and Other Land at From $15 to $20 per Acre

The people of European countries as well as the American continent must be fed—thus an even greater demand for Canadian Wheat will keep up the price. Any farmer who can buy land at $15.00 to $30.00 per acre—get a dollar for wheat and raise 20 to 45 bushels to the acre is bound to make money—that's what you can expect in Western Canada. Wonderful yields also of **Oats, Barley and Flax. Mixed Farming** is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools, markets convenient, climate excellent.

Military service is not compulsory in Canada but there is an unusual demand for farm labor to replace the many young men who have volunteered for service in the war. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada; or to

Great Reduction Sale

Beginning Thursday March 18

Continuing For One Week

We will sell at greatly reduced prices, all items in our Hardware, Furniture and Harness lines. If you are in need of any goods in these lines, do not fail to come in and see the many "Snaps" we have to offer.

Harness! Harness! Harness!

As we placed our order for harness several months ago, and prior to the enormous advance in prices, which have taken place the last few weeks, we are now in position to offer our customers, while our supply lasts, harness at less than the present wholesale price. All indications point to another advance, in a very short time, and we would advise, if in need of harness, to purchase at once. When in town, come in and see our special prices on same.

Intentional Duplicate Exposure

Supplement Holt Weekly News March 19, 1915

Southeast of Holt

Gjirmund Johnson returned home on Tuesday after a plesant visit at Smiley. He was accompanied home by his brother who will visit with him for some time.

Hans Peterson is reported as being seriously sick.

The Misses Josephine Marty, Gunda Moe and Anna Hoffman and the Messrs Henry Wendt, Harry Moe and Nels Hoode enjoyed a very pleasant Sunday afternoon at the Carl Larson home.

Mr. and Mrs. L. Larson and daughter Clara called at the home of Mr. and Mrs. John Simonson Sunday.

Several people from this locality took in the play at Holt Saturday evening.

Verna Trockman is on the sick list.

The election held in Agdar Twsp. was well attended and the following officers elected; Clerk, Tarald Tharaldsen, supervisor, Albert Klungness, Treasurer, Nels Ganderson, Assessor Lars Torrison, Justice of the Peace Albert Westphal.

Henry Wendt has assisted Willard Silbaugh putting up buildings on his farm in Mud Lake for a few days. Mr. and Mrs. Silbaugh intend to make their home there in the near future.

There are some Genuine Bargains on the other side of this supplement.

For Sale; Team, wagon, harness and buggy. Will sell seperately.

VOL. IV. HOLT, MARSHALL COUNTY, MINNESOTA, FRIDAY, MARCH, 26, 1915 NO.

For Sale.

New two storyhouse, 16x24.
Chris Yttre, Holt, Minn.

German Lutheran Church

There will be services in the German language, at Holt, next Sunday morning at 10:30. All are welcome.

Rev. F. J. Seltz.

Work on School House Resumed.

After many weeks delay, work has been resumed on the new school house. Much of the work is to be done over again, including the rebuilding of the chimney, tearing off and replacing part of the steel walls and replacing the cement foundation with brick, etc.

The board has let the contract for this work to the Northern Construction Co., of T. R. Falls, for $2500, the work to be completed by April 25th. School may be held yet, this spring, in the new building, if there are no more delays.

As the building is a few inches short, each way, of the size called for in the contract, the bond company settled the matter with the board by paying $400.00.

The delay being no fault of the board, the district will get the regular state aid, which was feared would be lost.

M. T. Strom returned home Wednesday.

Myrtle Sollom has been on the sick list for the last few days.

Don't buy any Hats, Shoes, Dry goods, Clothing or Hardware before looking at the Holt Mercantile Co.'s Bargain Basement.

At the telephone meeting last Thursday, Jno. Sorum was appointed to confer with the Tri-State Co. and see if arrangements could be made with them to take care of the business of the local company. P. A. Riesberg, August Nass and Martin Kish were appointed a building committee, to act if necessary to build

Village Caucus.

A caucus, to nominate a full set of village officers, will be held next Monday evening at 8 o'clock in the Star hall. All legal voters of the village are requested to attend.

Church Buys Lots

Rev. Ordahl delivered an excellent English sermon Sunday evening, there being a large number in attendance. After the church services were over the Young People Society held a business session and voted to buy the two lots just east of the church. We understand they have quite a sum of money on hand now and a vigorous campaign will be made to raise the balance right away as the lots were specially priced to the church. The News is pleased to note this evidence of growth on the part of the Holt Synod church.

B. L. Backe and Adolph Sollom were business visitors in Warren Monday.

Spring is here-the boys are playing ball and the autos have been running for the past week.

Northwestern Dent, planted early and properly cultivated, is almost sure to yield a good crop of corn.

Matt Hanson brought in his traction engine and breaker, Monday, and shipped them to his sons in Montana

Ernest and Otto Kuehne, Daniel Nelson and Miss Suensrud called at the T. A. Tobiason home Saturday. All report a pleasant time.

Don't buy any Hats, Shoes, Dry Goods, Clothing, and Hardware before you look at the Holt Mercantile Company's Bargain Basement.

The Town Board of Holt met at Ole Davidson's place March 20th to organize. O. H. Nohre was appointed chairman for the ensuing year. Elvin Erickson was appointed Assessor and Erick Johnson was appointed Overseer of Roads and Dr. O. F. Mellby Health Officer.

Synod Church.

Rev. M. B. Ordahl will hold Easter services in the Holt church at 10:45 A. M. and at Ringbo in the afternoon of April 4th. All invited.

We had our first rain Tuesday, but it dident amount to much.

Mrs. B. Docken entertained the ladies' club, Wednesday evening.

The best flour made is sold at reasonable prices at R. Rierson's store.

A. H. Huseth was numbered with the sick for a couple of days but is better now.

P. A. Von Wold of T. R. Falls visited the Alkenbrack families between trains Saturday.

For the newest styles in Easter Hats, for Ladies and Gents, go to the Holt Mercantile Co.

P. A. Riesberg unloaded a car of brick, the first of the week, for the foundation of the school house.

Good team for sale, weight 3000. Price right. Enquire of Geo. Tunheim, R. 1, Newfolden, Minn.

This section of country offers big opportunities to investors in real estate, that is going to increase in value every year.

Don't buy any Hats, Shoes, Dry Goods, Clothing and Hardware before you look at Holt Mercantile Co's Bargain Basement.

Too much care cannot be taken in the selection of village officers. Be careful who is nominated so that there may be no regrets afterwards.

It seems that instead of keeping their promise to build the bridge on the state road east of town, this spring, that the county board have recommended to the State Highway Commission that the road be vacated. We understand a protest will be made against this and everyone interested in the welfare of Holt and the country round about should put their shoulder to the wheel and push for that bridge.

For Sale

House, barn and 3 lots, cheap.

ZEPPELINS DROP BOMBS ON PARIS; RESIDENTS CALM

SEVEN OR EIGHT INJURED BUT ONLY ONE SERIOUSLY—DAMAGE DECLARED TO BE UNIMPORTANT.

AIRSHIPS ALSO RAID OTHER FRENCH TOWNS

Let Missiles Fall on Compiegne, Ribecourt and Dreslincourt, but Without Serious Result—French Aeroplanes Rise to Attack Germans.

Paris, March 23.—Zeppelin airships raided Paris at daybreak and dropped a dozen bombs. Seven or eight persons were injured, but only one seriously. Four of the aircraft started for the capital, following the valley of the Oise, but only two reached their goal.

Missiles also were dropped at Compeigne, Ribecourt and Dreslincourt, but without serious result. Paris remained calm while the aerial invasion was in progress and residents of the city exhibited more curiosity than fear as to the results. Trumpets gave the signal that all lights must be extinguished as soon as warning was received of the Zeppelins' approach.

Aeroplanes Make Attack.

Searchlights were turned upon the clouds, anti-aircraft guns opened fire, and aeroplanes rose to attack the Germans, but their operations were hampered by a heavy mist.

An official communication regarding the raid declares it served only to show how well the defensive arrangements would work out when put to the test. The statement was as follows:

"Between 1:15 and 3 o'clock in the morning four Zeppelins started toward Paris from the direction of Compiegne, following the valley of the Oise. Two were compelled to return before reaching Paris, one at Ecoven (10 miles north of Paris), the other at Mantes (on the Seine, 36 miles from Paris). The other two were attacked by anti-aircraft guns and only passed over outlying districts of the northwestern part of Paris and neighboring suburbs. They withdrew after having dropped a dozen bombs, some of which did not explode. The damage done was unimportant. Seven or eight persons were injured, but only one seriously.

Guns Open Fire.

"The different stations for anti-aircraft defense opened fire upon the Zeppelins, which were constantly kept illuminated by searchlights. One appeared to have been hit. The aeroplane squadron took part in the action, but mist hampered pursuit.

"Summing up, the Zeppelin raid on Paris was a complete failure. It only served to demonstrate how well the defensive arrangements work. The population was calm. On their way back the Zeppelins dropped a dozen incendiary or explosive bombs on Compiegne, doing only unimportant damage. Three bombs were dropped on Ribecourt and Dreslincourt, to the north of Compiegne, without result."

YACHT WITH MILLIONAIRE OWNER ABOARD AFIRE

Los Angeles, Cal., March 23.—The gasoline yacht La Sota, with her millionaire owner, Morgan Adams, his bride of a month, and ten friends aboard, all of this city, burned six miles off San Pedro. The party took to the lifeboats and were picked up within an hour by the motorboat Sally S., from Catalina.

Back-firing of the engine caused the blaze. When it was seen that there was no chance to check the flames the women aboard were put over the side into two tenders. The men in the party and the crew followed them into the boats with as much luggage as they could rescue from the cabins.

Adams and his bride were on their honeymoon.

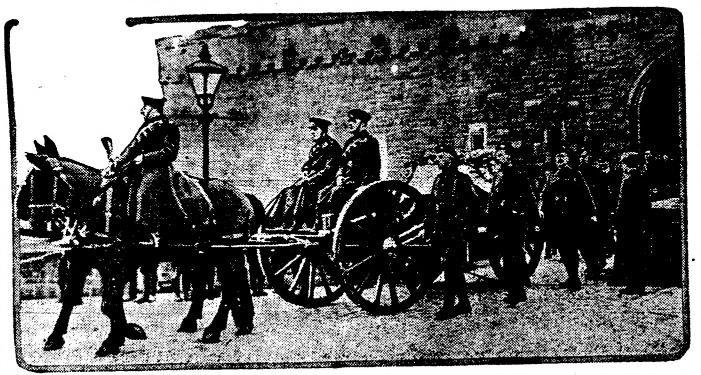
THUMB TIED IN BANDAGE ARRESTED AS A BURGLAR

Winona, March 22.—When the police were called to the Milanowski billiard hall, following a burglary there, they found the print of a right thumb in blood stains in many places. A window had been broken out in gaining entrance. The theory was that the intruder had cut his thumb in forcing his way into the place. Accordingly, a quiet hunt was instituted for a person with an injured thumb. Emil Rozek appeared at the rooms with his thumb bound in a bandage The police arrested him. He denies his guilt.

Mueller Case May Be Dropped

Seattle, March 22.—Arraignment of Wilhelm Mueller, German consul at this post, and his secretary, on charges of violating a state conspiracy law, was continued until Tuesday in the supreme court at the request of Mueller's counsel. Prosecuting Attorney Lundin announced that he had arranged to confer with Doctor Mueller next Tuesday, and if the German consul could convince him the charges on which he was technically arrested were groundless he would dismiss the case.

BLUCHER'S CAPTAIN HONORED IN BRITAIN



Captain Carl Erdman of the German battleship Blucher, which was sunk in the North sea battle, was buried with full military honors.

FRENCH WARSHIP SUNK BY TURKISH FORTS IN STRAITS

DREADNAUGHT BOUVET IS SENT TO THE BOTTOM WHILE BOMBARDING POSITION IN THE DARDANELLES.

BRITISH BATTLESHIP IRRESISTIBLE BLOWN UP

Ottoman Warships Shell Russian Torpedo Boat Base West of Theodosia in Crimea, Setting Fire to Many Buildings and Damaging Russian War Craft.

London, March 22.—The British battleships Irresistible and Ocean, and the French battleship Bouvet, were blown up by floating mines while engaged with the remainder of the allied fleet in attacking the forts in the narrows of the Dardanelles.

Bouvet's Crew Lost.

The crews of the British ships were virtually all saved, having been transferred to other ships under a hot fire, but an internal explosion took place on board the Bouvet after she had fouled the mine and most of her crew were lost. The Bouvet sank within three minutes of the time she hit the mine.

Explosives Set Adrift.

The waters in which the ships were lost had been swept of mines, but the British admiralty asserts that the Turks and the Germans set floating containers of explosives adrift and these were carried down by the current to the allied ships gathered inside the entrance of the straits.

Constantinople, via Berlin and Marconi wireless to London, March 20.—The French battleship Bouvet, bombarding the Dardanelles forts, has been sunk by the guns of the Turkish forts, the war office announced in an official statement.

The official statement declares that the Bouvet was sunk inside the strait. The allied fleet, the war office stated, opened a heavy fire upon the Dardanelles forts, swinging in at close range and hurling shells at intervals of less than a minute.

The forts returned the fire and shelled the Anglo-French warships with great effectiveness. Official reports said that several of the enemy's warships withdrew from the battleline, badly crippled, before the Bouvet suddenly tilted over and began to go down.

May Abandon Attempt.

Following the disaster to the Bouvet, the allied fleet, steaming out of sight off Tenedos island. Rumors were circulated here that the attempt to force the Dardanelles may be abandoned.

Turkish warships, the war office also announced, have bombarded the Russian torpedo boat base west of Theodosia in Crimea, setting fire to many buildings and damaging Russian warcraft. This was the first official confirmation of reports circulated two weeks ago that the Turkish fleet has withdrawn from the Dardanelles strait and is operating in the Black Sea

Only part of the Turkish fleet participated in the bombardment of the Russian torpedo boat base, according to the official announcement The bombardment lasted but a few minutes, but the Turkish fire was unusually well directed

AMERICAN IS BELIEVED TO BE WORKING FOR PEACE

Berlin, March 22, via London Col. E. M. House of New York and Texas reached Berlin from London Friday morning and at once went into a long conference with James W. Gerard, the American ambassador. Colonel House will be the ambassador's guest while in Berlin. It is generally believed that Colonel House is working in the interest of possible peace. F. G. Lawry, attached to the American embassy in London, is in Berlin.

U. S. GUNS STOP GERMAN SHIP

FIRE SHOTS AS STEAMER LEAVES SAN JUAN.

Halts Steamer Odenwald as She Attempts to Pass Out Without Clearance Papers.

San Juan, Porto Rico, March 23.—The German merchant steamer Odenwald, which attempted to leave port without obtaining clearance papers, was stopped as she was passing out of the entrance to the harbor by two shots across her bow from a 5-inch gun and a dozen shots from a Maxim. She then returned and was taken in charge by the collector of customs.

Permission to sail was refused the Odenwald by the collector, pending instructions from Washington. The Odenwald has been at San Juan since Aug. 6. She was bound for European ports from the West Indies with freight and passengers and sought refuge here. Three days ago she began coaling and taking on provisions.

Failing to obtain the necessary clearance papers, her commander apparently decided to risk the attempt to put to sea. A heavy gun on Morro castle sent two shots across her bows by way of warning, but it was not until the machine gun opened a direct fire that the steamer stopped and headed back to port.

JAPAN AND U. S. FRIENDLY

Admiral Dewa and Secretary Bryan Exchange Expressions of Sincere Good Wishes.

Washington, March 22.—Secretary Bryan has given out the messages exchanged between him and Admiral Dewa, official representative of Japan at the Panama-Pacific exposition, who is preparing to return home.

The message from Admiral Dewa, who is at San Francisco, said:

"I am about to depart from your country. However, before I do so, permit me to express my deep gratitude to you and through you to the president and other officials and the people of America for the kindness and cordiality shown to me. I will return with the message of your good will toward Japan with a full assurance that it will cement the friendly relations between your and my countries."

To this Secretary Bryan replied:

"Your kind telegram just received. Your visit to the United States gave renewed assurance of the cordial friendship existing between our two countries and we are gratified to learn from you that your stay among us has given you pleasure. Allow me to say in return that our people have been favorably impressed by your personality and by the speeches you have made. Your coming has given additional proof of the advantage to be derived from an exchange of visits.

"May you have a safe and prosperous voyage home. Accept my sincere good wishes for yourself and countrymen."

Nevada Makes Gambling a Felony.

Carson City, Nev., March 22.—After rushing through a gambling law the legislature adjourned. The law makes all gambling a felony except poker, whist, solo and five hundred, when no percentage is taken. When a percentage is taken they are felonies. Pari-mutuel betting on race tracks of licensed associations is permitted.

Mrs. Angle Found Not Guilty.

Bridgeport, Conn., March 22.—Mrs. Helen M. Angle was found not guilty of manslaughter by a jury in the criminal superior court here. She was accused of having caused the death of Waldo R Baldou at Stamford on the night of June 23 last.

BRITISH STEAMER SUNK BY GERMAN SUBMARINE

London, March 20.—The British steamer Glenartney of Glasgow was torpedoed off Beachy Head by a German submarine, which gave no notice of her intention. In the scramble for boats one of the crew was drowned, the others, numbering 4, several of whom were injured, were picked up by a steamer and landed at New Haven. The Glenartney, which was of 3,305 tons register, was bound from Bangkok, Siam, for London, loaded with 8,000 tons of rice.

ITALY SAID TO BE READY TO FIGHT AGAINST AUSTRIA

TEUTON SUBJECTS ADVISED BY THEIR CONSULS TO LEAVE ITALY AT ONCE SAYS ROME DISPATCH.

GERMANY'S EFFORTS ARE SAID TO HAVE FAILED

Endeavor to Secure Continued Neutrality of Italy by Inducing Austria to Cede Trent Does Not Meet With Success—First Line Italians Called.

London, March 23.—The relations between Italy and Austria are believed to have reached an acute stage. A dispatch from Rome says Austrian and German subjects have been advised by their consuls to leave Italy in the shortest possible time and that a number of Germans who recently arrived in Italy are being watched because of the suspicion that they are military spies.

There have been reports for some days that Germany's efforts to secure the continued neutrality of Italy by inducing Austria to cede Trent and other territory to her were not meeting with success. Italy, it was said, was demanding that the territory be handed over to her at once but that the Teutonic allies desire to make the transfer after the war.

Italians Called to Colors.

Following this came reports that Austria had commenced strengthening her southern frontier, and, according to a dispatch received at Paris from Rome, Italian officers of all arms belonging to the first line, who have been on half pay, have been called to the colors.

In military circles here this order is considered significant, it being contended that these officers belong to the public administration, from which they would not be called until the situation was serious. No Austrian news on the subject is available in London, the censor in that country having, it is said, prohibited any comments.

Greece Makes Ready.

There also are reports that Greece is preparing to adopt a more active attitude. Following a series of prolonged cabinet meetings at Athens, the Greek minister of marine is quoted as having said that the Greek government had received all guarantees and to have indicated that the country was about to engage in some enterprise.

As the chief objection to former Premier Venizelos' policy for helping the allies against Turkey was declared to have been that Greece had no guarantees that she would receive adequate compensation this statement of the minister of marine is considered in high circles in London as an intimation that the new Greek government is now satisfied with the allies' guarantees.

Arrested as German Spies.

Port Arthur, Ont., March 22. Carl Schmidt and Gustoff Stephens were placed under arrest on their arrival here, on suspicion of being German spies. In their possession when arrested were loaded revolvers, fuses and typewritten time tables regarding train movement. It is said they crossed into Canada at Detroit, Mich

Pastor Charged With Arson.

Newark, N. J., March 20.—Rev. Louis H. Patmont, under indictment for arson in this county, has been arrested here and is being held in bonds of $1,500 for his appearance.

Under the indictment, Patmont is charged with having set fire to the Polish Christian Baptist church, this city, five years ago, when he was pastor of the church.

Patmont denies his guilt and states that all his troubles are due to those who are wilfully trying to wrong him

PRZEMYSL FALLS; 50,000 SURRENDER TO RUSSIAN HOST

CAPTURE OF AUSTRIAN FORTRESS COMES AT THE END OF A SIEGE OF SEVERAL MONTHS.

RELEASES RUSSIAN ARMY FOR CAMPAIGN IN POLAND

Only Important Fortified Town in Galicia Which Is Still in the Hands of the Austrians Is Cracow, Close to German Border—Petrograd Celebrates.

Petrograd, via London, March 23.—It is announced officially that the Galician fortress of Przemysl has surrendered to the Russians. The garrison has laid down its arms to the forces under Gen. Radko Dimitrieff.

Capture of the Austrian fortress came at the end of a several months' siege.

It automatically releases a Russian army of nearly 160,000 for action in Poland and along the Carpathian front and constitutes perhaps the greatest victory for Russian arms since the beginning of the war. The Austrian garrison that surrendered to General Dimitrieff is reported to number 50,000.

Under Continuous Siege.

Przemysl has been under almost continuous siege since Sept. 20, 1914, when the Russians first began shelling the Galician outer forts. A month later a German-Austro force advanced northward through the Carpathians, relieved the besieged city and drove the Russians back to the north.

Within a fortnight a new Russian force appeared before Przemysl and resumed the siege. Since that time four Russian army corps, the Seventh, the Ninth, Tenth and Eleventh, under Gen. Radko Dimitrieff, a former Bulgarian army officer, have been battering in at the defenses to the fortress itself.

Austrians Hold Only Cracow.

With the fall of Przemysl the only important fortified town in Galicia which is still in the hands of the Austrians is Cracow, in northwestern Galicia, close to the German border.

In the early days of the war, the Russian offensive campaign, as outlined unofficially, contemplated the invasion of Germany through East Prussia on the north, and simultaneously into Silesia from Galicia. The Russians succeeded in penetrating Galicia, but the success of the Austrians in holding Przemysl and Cracow blocked attempt to invade Germany across the Silesian border.

Petrograd Is Enthusiastic.

The news of the fall of the fortress evoked the wildest scenes in Petrograd since the beginning of the war. Crowds massed in the street and before the government building, cheering wildly.

A Te Deum of thanksgiving was celebrated at the Russian army headquarters when the fall of Przemysl was announced, the ceremony being participated in by Emperor Nicholas, Grand Duke Nicholas and the members of the general staff.

FIRE ON DARDANELLES HALTS

Unfavorable Weather Conditions Interrupt Operations—Many Dangers Encountered by Fleet.

London, March 23.—The admiralty has made the following announcement:

"Unfavorable weather has interrupted the operations in the Dardanelles and as seaplane reconnaissance has been impossible the amount of damage done to the fortifications by the bombardment on the 18th cannot be ascertained.

"No great expectations should, however, be based on this, as owing to the losses caused by drifting mines, the attack was not pressed to its conclusion on that date.

"The power of the fleet to dominate the fortresses by superiority of fire seems to be established. Various other dangers and difficulties will have to be encountered, but nothing has happened which justifies the belief that the cost of the undertaking will exceed what has always been expected and provided for.

"The British casualties in the personnel are 61 men killed, wounded and missing.

"Admiral De Robeck has telegraphed to the admiralty as follows: 'I desire to bring to the notice of your lordships the splendid behavior of the French squadron. Their heavy loss leaves them quite undaunted. They were led into close action by Rear Admiral Guepratte with the greatest gallantry.'"

Election Fraud Case Continues.

Indianapolis, Ind., March 23.—The government is barely half through with its side in the Terre Haute election fraud case, being heard in the United States district court here, it was said.

It is believed the government will require about two more weeks to complete its case

No intimation has been given as to the number of witnesses that will be used by the defense or how long the defendants will be in presenting their side.

ALL RIGHT IN THE FUTURE

Proof That Little Dorothy Had Imbibed the Policies Advocated by Her Mother.

Dorothy's mother is a suffragette of advanced type. Dorothy is a dear little girl in a primary grade, but somewhat inclined to copy her elders. One day her teacher received a note from the secretary of the school board, but waited until after class to read it. Dorothy returned for some books and caught tears in the teacher's eyes (the latter had been denied an increase in salary upon which she had based large hopes), and said:

"Why are you crying?"

The teacher laughed and said, "The naughty old school board isn't nice to me!"

Dorothy took hold of the teachers hand with both hers and said very seriously, "Don't you cry any more. When we get the vote we women will correct such things!"—The Sunday Magazine.

Was a Bit Skeptical.

Uncle Rastus was sitting in his home reading a newspaper when he suddenly glanced up and addressed Aunt Dinah.

"I hab jes read in dis yeah papah, Dinah," he remarked, "dat dem people what fly in dem flyin' machines kin do anything what a bird kin."

"Yes, sah," was the prompt rejoinder of Aunt Dinah, "dey hab jes got dat t'ing down so fine dat dere hain't no bird what has got anything on 'em."

"Am dat so?" reflectively returned Uncle Rastus. "Well, whenevah yo' see one of dem flyin' machine men setting fast asleep holdin' on to de limb ob a tree wid his feet jes yo' call me ter come an' take a look."

Necessarily Slow.

A California youngster had been permitted to visit a boy friend on the strict condition that he was to leave there at five o'clock and his mother was very angry. The youngster insisted, however, that he had obeyed his orders and had not lingered unnecessarily on the way.

"Do you expect me to believe," said his mother, "that it took you two hours to walk a quarter of a mile?" She reached for the whip. "Now, sir, will you tell me the truth?"

"Ye-es, mamma," sobbed the boy. "Charlie Wilson gave me a mud turtle and I was afraid—to carry it—so I led it home."

A "neutrality meeting" is a dangerous place for any man on the other side.—Philadelphia Inquirer.

AUDITOR'S REPORT ITEMIZES SAVINGS BY ECONOMY BILL

ESTIMATES SAVING OF $80,000 A YEAR IN STATE ADMINISTRATION IF MEASURE BECOMES A LAW.

NEW LEAGUE OPPOSED TO CHARTER RENEWAL

Minneapolis Body Organizes to Fight Proposed Street Railway Legislation—Statement Says It Is Too Soon to Begin Negotiations With Traction Company.

Three of the big railroad men of the Northwest, with James J. Hill in the stellar role, have laid bare to a legislative committee some intimate information regarding railroad affairs in support of the bill which would raise passenger rates from 2 to 2½ cents a mile.

No effort was made to show that the railroads are pauperized by present passenger and freight rates, but it was strongly emphasized that the present rates afford so meager a return on the investment that only a belief in the future of this state warrants the railroads in so much as entertaining for a moment the thought of future extensions.

St. Paul, Minn.—A resolution has been prepared and may be introduced in the house Monday to create a legislative commission of five senators and seven representatives to investigate anew the subject of efficiency and economy in the state government, after the present legislature adjourns, and report to the 1917 legislature. Friends of the economy bill, which will be a special order in the house Monday at 2 p. m., privately admitted there is little chance of its passage.

State Auditor J. A. O. Preus sent in his report to the state senate responding to the G. H. Sullivan resolution asking what saving in state expenditures would result from passing the efficiency and economy commission bill. As stated previously, Mr. Preus estimates a saving of about $80,000 a year in state administration if the bill passes. His reasons for this estimate are:

Consolidations of commissions, bureaus and departments in six departments should lessen the number of state employees, reduce clerical labor, enable the directors to standardize expenses of the state in printing reports, salaries and reduce the cost of examination of 47 boards, he says, would reduce the expenses of the state for travelling and otherwise.

Abolishment of 47 boards, he says, would reduce the expenses of the state for traveling and otherwise.

Abolition of the boiler inspection department and the continued collection of fees by the labor department for such inspection would bring revenue into the state.

The Preus report figures that under the present law the administrative departments would cost $4,120,890 for the coming two years. He estimates that under the reorganization plan they could be run for $3,959,770.

Minneapolis Citizens Organize.

Twenty Minneapolis citizens, styled the executive committee of "The Public Franchise League of Minneapolis," have issued a statement "to the Citizens of Minneapolis," in which they oppose any negotiations at this time looking toward a new franchise for the street railway company. The statement declares the time inopportune for negotiations and asserts that the question should be discussed in a municipal campaign before being considered by the council.

WOULD THRUST STATION PROBLEM ON VILLAGES

While Minneapolis and St Paul have been having their Union Station difficulties, Dr J. W. Andrews of Mankato has introduced a bill in the senate that would give every village and city in the state the same Union Station problem.

Senator Andrews's bill provides that whenever two or more railroads enter a city, village or town, the Railroads and Warehouse Commission may order the construction of a Union station.

"Whenever public convenience demands and it is practicable, the railroads shall build Union Stations," the bill reads.

Costs $5,000 to Pass Each Bill.

Appraising the legislature's work up to date by the bills that have reached final passage, it has cost the state about $5,000 for each measure placed on the statute books. The session has cost $162,267 so far, and 32 bills have been deposited with the secretary of state. Aside from the county option act, the new laws are of little importance.

Roads Could Charge 3 Cents.

Representative C. M. Bendixen's bill amending the 2-cent passenger rate law was advanced from general orders to the calendar, after an attempt by the author to obtain final action.

The supreme court interpreted the present Bendixen law to mean that a railroad could charge 3 cents a mile for the first five miles of any trip instead of 3 cents a mile for trips not exceeding five miles, as was intended by the bill.

The amended bill would correct this feature.

APRIL 22 LAST DAY OF PRESENT LEGISLATURE.

Attorney General Lyndon A. Smith ruled that April 22 is the last day on which the present legislature can convene and transact business. In his letter to the house and senate he also held that no bills can be introduced after March 29 without a special request signed by the governor.

RAILWAY FRANCHISE MEASURE INTRODUCED

St. Paul, March 17.—By a vote of 68 to 57 the house of representatives adopted an amendment to the University investigation resolution eliminating the section calling for a special committee, and instructing the public accounts and expenditures committee to continue its inquiry. The vote came after the most stormy session since the opening of the present legislature, during which personalities were hurled across the chamber and it was suggested that two members retire to a committee room and decide their personal questions by physical combat.

The result of the vote was considered a victory by friends of the University, who put forth a most vigorous fight against the Malmberg-Greene-Lydiard resolution.

Six Hennepin county senators offered in the senate a street railway franchise bill applicable to Minneapolis, St. Paul and Duluth, designed to take the place of the Dengre-Orr bill, of which much criticism has been made in Minneapolis. The measure gives the city council of any of the cities mentioned the power to grant a 30-year franchise subject to approval on a referendum to the voters and with provisions for an option to purchase by the city at 10-year periods.

FRIENDS OF NOLAN BILL WIN PRELIMINARY FIGHT

Friends of the so-called "Nolan bill," introduced by Senator W. A. Campbell and identical with the bill vetoed by Governor A. O. Eberhart two years ago, which would give municipalities the right to regulate electric lighting companies, won a preliminary victory in the senate.

The bill had been amended in the committee on public service corporations so as to apply only to Minneapolis and reported without recommendation. The understanding was that Senator W. A. Campbell would move to refer it to the Hennepin delegation, it still to retain its place on general orders.

Senator E. J. Westlake spoke in favor of Senator Sullivan's motion.

FROG PROTECTION BILL IS POSTPONED IN SENATE.

The lowly frog has no friends on the senate committee on general legislation. That committee voted to indefinitely postpone the bill Representative P. H. Frye introduced in the house and had passed protecting that amphibious animal from extinction, as the Representative told the committee. The bill provided that frogs might be killed or caught and offered for sale only for the purpose of bait.

The same committee also killed Representative Steven's bill passed by the house, providing for a constitutional amendment abolishing the taking of the state census. Representative Leavitt Corning's bill providing that newspapers should be required to allow candidates, attacked in their columns, the right to answer through their columns within forty-eight hours after the attack had been printed was also indefinitely postponed The bill passed the house and was the subject of long debates there arising out of the representative's campaign fight in St Paul

Elwell Road Law Upheld

One day after the Elwell road law was repealed in the house the supreme court declared the law constitutional.

St Paul, Minn. The Elwell road law enacted by the Minnesota legislature of four years ago was repealed when the house by a vote of 79 to 42 passed Senator Vermilya's bill, which passed the senate two weeks ago.

Debate continued for more than two hours. Northern Minnesota it was pointed out, is in favor of the law, while southern sections of the state are vigorously opposed to it.

The bill will be returned to the senate for concurrence in Representative Wardner's amendment which stipulates that petitions already granted shall not be affected and also that contracts pending shall not be affected

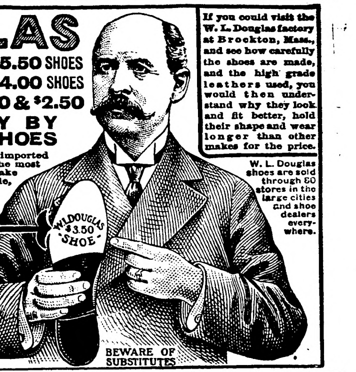
House Far Behind in Work.

The lower house of the Minnesota legislature is so far behind in its work that there is every indication that only half as many laws will be passed this session as were put on the books by the legislature of 1913.

In 1913 there were adopted 461 laws. With two-thirds of the session of 1915 gone, less than 50 bills have weathered the various legislative hazards and reached the statute books.

Would Require Bond of Contestants.

An election contestant would be compelled to file a bond of $500 with the clerk of the district court to be used in paying the expenses of his victorious opponent if a bill introduced by Representative Frank E. Nimocks of Minneapolis becomes a law. It is claimed by the author that the state would save $5,000 annually, as the contestant hereafter would pay the expenses instead of the state. The house passed bills reimbursing to the amount of $2,600 members of the house whose seats had been contested.



W. L. DOUGLAS

MEN'S $2.50 $3 $3.50 $4.00 $4.50 $5 $5.50 SHOES
WOMEN'S $2.00 $2.50 $3.00 $3.50 & $4.00 SHOES

Couples, Victims of Curate's Mistake, Decided That They Would Let the Thing Go.

A vicar of a certain English parish was sitting in his study one morning when in burst the verger in a great state of excitement.

"Mr. ——," mentioning the curate's name, "wants you at once, sir," he exclaimed. "He has married two couples and married the two men to the wrong women, and he does not know what to do."

"Have they signed the register?" inquired the clergyman.

"No," was the verger's response.

"Then they can be married again," said the vicar. "Tell Mr. —— I will be at the church in a minute or two to perform the ceremony."

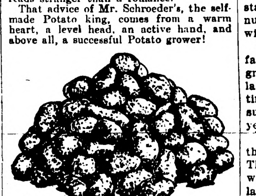
In due course the incumbent made his way to the church and found the parties gathered at the entrance. Before he could say anything one of the bridegrooms approached and said:

"We have been talking it over, sir, and we have made up our minds to remain as we are." And they did so.

A POTATO ROMANCE

"If I were a farmer boy, or a boy without capital, and wanted an early competency, I'd start right out growing Potatoes," said Henry Schroeder, the Potato king of the Red River Valley, whose story in the John A. Salzer Seed Co.'s Catalogue reads stranger than a romance.

That advice of Mr. Schroeder's, the self-made Potato king, comes from a warm heart, a level head, an active hand, and above all, a successful Potato grower!



Do You Know, Mr. Farmer,

there is more money in five acres of Potatoes year in and year out than in anything you can grow on your farm, and the growing of Potatoes now, with present machinery, etc., is easy. It's regular Fourth of July fun!

Salzer's Creations in Seed Corn put Wisconsin on the Corn Map with its astonishing yields!

Another Echo of That Song.

An old negro who had his savings in a Birmingham bank that recently suspended was telling his troubles to a business man.

"Don't worry," said the business man. "I understand the suspension is only temporary."

"But, Boss," said the old negro, still perturbed, "de white folks say it's er long, long way ter temporary."—Birmingham Age-Herald.

INDICATIONS OF AN EARLY SPRING

Great Prosperity Ahead for Western Canada.

The most recent advices from all points in Western Canada report that conditions are apparent for an early spring. Farmers are going over the implements, getting their seeders ready for operation, the plows in shape for extended breaking, and there is a general optimism. A great many new settlers have already arrived, and the reports from Canadian Government agents in the United States point to the fact that in a few days there will begin the usual emigration from various of the Central and Western states. From the Eastern states the number of farmers going to Canada will be greater than in any past year.

There has been a fairly large snowfall during the winter, which will greatly add to the precipitation of last fall, which in the opinion of old-timers was in itself sufficient to insure a good crop during the present year.

There will be very little tilled land that will be without a crop this year. The authorities, though, are pleading with the farmers to seed only such land as has had careful preparation, for rich as is the soil of Western Canada, it is no more fitted to produce good crops uncultivated than is that of any other land anywhere else. There have been accounts of failures in some portions of the agricultural districts of Western Canada, and also reports of small yields in some districts. A good deal of this is accounted for from the fact that notwithstanding the advice of men of experience, there are farmers who will persist in seeding land not properly prepared. This may be done this year, but those who cultivate on reasonable and logical methods will be certain of a paying crop. There is every reason to believe that the high prices of all kinds of grain will continue.

With thousands and thousands of acres of land waiting for the husbandman to bring it forth with a crop, it is no wonder that Western Canada is continuing to prove such an inviting field for the agriculturist

Seventy million dollars is a conservative estimate of orders which came to Canada as the direct result of the war Governments of the allies have been placing large orders in Canada and buying huge quantities of supplies for cash

The total value of exports to Europe from Canada has jumped about 15 per cent since the war started, while in certain lines the increases have been enormous

Therefore the results of the demand of the allies for war and other material is beginning to be felt in the financial life of the Dominion There is a marked activity in many commercial lines, and conditions are fast becoming normal.

Western Canada is receiving a relative benefit to the East Advertisement

When Like Meets Like.

The caller at the teller's window was very bald, but the teller inside had him beaten by a hair's breadth. There was still a straggling fringe around the outer border of the caller's head, while the teller's had long reached the stage where he brushed his head with a towel.

The caller had evidently imbibed rather freely that day.

He took a long look at the teller, smiled a smirking, quizzical smile, then reached into his vest pocket and extracted a fat cigar.

"Shay, old feller," he mumbled, thrusting the cigar between the window bars, "have one on me. Anybody that's as baldheaded as you deserves a treat!"

DR. J. H. RINDLAUB (Specialist), Eye, Ear, Nose and Throat Fargo, N. D.

Why Living Is High.

"Farm products cost more than they used to."

"Yes," replied the farmer. "When a farmer is supposed to know the botanical name of what he's raisin' an' the entomological name of the insect that eats it, an' the pharmaceutical name of the chemical that will kill it, somebody's got to pay."—Anderson (N. C.) Intelligencer.

The Cough is what hurts, but the tickle is to blame. Dean's Mentholated Cough Drops stop the tickle—5c at good Druggists.

There is no rainbow that looks as beautiful as the gold mine stock certificate just purchased.

Housework Is a Burden

It's hard enough to keep house if in perfect health, but a woman who is weak, tired and suffering from an aching back has a heavy burden.

Any woman in this condition has good cause to suspect kidney trouble, especially if the kidney action seems disordered.

Doan's Kidney Pills have cured thousands of suffering women. It's the best recommended special kidney remedy.

A North Dakota Case

"Every Picture Tells a Story."

Mrs. W. E. Crawford, 123 W. Sixth St., Devil's Lake, N. D., says: "I was in misery from a bearing-down pain in the small of my back and felt tired and worn out. When suffering intensely I used Doan's Kidney Pills and they acted as a tonic to my whole system, making me feel one hundred per cent better For quite awhile now I have been entirely free from kidney ailments."

THE HOLT WEEKLY NEWS

Successor to "The Northern Light"

VOL. IV. HOLT, MARSHALL COUNTY, MINNESOTA, FRIDAY, APRIL, 2, 1915 NO. 38

Northeast of Holt.

Mrs. E. Johnson and Mrs. C. Anderson called at Ed Erickson Saturday last.

Mrs. Tom Severson called at Mrs C. Anderson Sunday afternoon.

Hardy Bjerk, Joseph Johnson, Arthur and Oscar Anderson, Louis Knutson, Leo Horien, Emanuel Larson, and Oliver Davidson called at M. Udstrand Sunday afternoon. All report a good time.

Mrs. C. Grondold called at E. Johnson Sunday evening.

Emanuel Larson and Hilmer Udstrand left for Alvarado Monday.

Ask Oliver if he had a hard time getting his rubbers on Sunday.

Joseph Johnson called at C. W. Christianson Monday evening.

Ask Arthur and Walter if they had a good time in Holt Saturday night.

Pete and Elef Sorter are busy drilling wells.

Joseph Johnson and Oscar Anderson are taking a rest from school duties.

Wonder what the attraction is in Thief River? Maybe W. W. knows.

Eddie and Oliver Davidson intend to leave Tuesday for Alvarado, better wear your high top boots boys.

What's the matter with Germany? Nothing at all, they can show you a good time.

Ask Arthur Anderson how he likes his hair cut.

The boys all seem to hit the trail,
And most all of them ride or sail
For Alvarado.

There surley must a reason be
Whate'er it is, I can not see,
A great attraction it must be,
In Alvarado

Holt is good enough for me
Why they leave I can not see,
But some attraction there must be
In Alvarado.

For Sale!

New two storyhouse, 16x24.
Chris Yttre, Holt, Minn.

Newfolden Garage

Overhauling and car rebuilding a specialty. No matter what shape your car is in, I make it right if you have the pieces.

Call and see me for a friendly chat and find out that we can always agree.

Mutually Yours,
Wm. S. Dufke.

For Sale

Eight ton of good fair wild hay, and pigs of all sizes.

R. E. Grover.

Kettle Sollom went out to Mud Lake Tuesday to do some work on his claim.

Before buying Nails, Fence Wire and Hog Wire be sure to get Holt Mercantile Co's prices as they have just received a carload.

The fake land buyer, who had worked the farmers near Middle River, was in the vicinity of Holt last week and bought a couple of farms, but as usual he failed to close the deals. He claimed to have deposits in banks at Middle River and Warroad but he is a fake and is working the farmers for all the dinners possible.

The Cooperative Creameries that paid the highest prices for 1914 are the ones that had a business of over fifty thousand dollars. Are you helping to increase the business of your home Creamery, or are you helping to decrease it? Remember that the good Book says "He who is not with me is against me." If you are not helping the Creamery you are hurting it. The Creamery can pay higher prices when you patronize it.

Synod Church.

Rev. M. B. Ordahl will hold Easter services in the Holt church at 10:45 A. M. and at Ringbo in the afternoon of April 4th. All invited.

Easter Services Golden Valley congregation April 7th at 11 o'clock at John Anderson and East Valley schoolhouse April 8 at 2 o'clock.

Rev. M. B. Ordahl.

For Sale

House, barn and 3 lots, cheap.
Chris Yttre, Holt Minn.

Racine Olson drove to Gatzke Saturday.

Julius Olson has returned from a stay of several weeks at Strathcona.

The ladies' club meet with Mrs. Arvid Carlson Wednesday evening.

Soda Water and Ice Cream now running in good shape. Come in. Have one.

A. H. Huseth.

The R. F. D. schedule was changed April 1st carrier Guy Anderson now leaves the postoffice at 12.30 P. M.

Born to Mr. and Mrs. T. B. Folden March 24th, a son. Congratulations are extended to the fond parents.

Miss Esther Mickelson closed a very successful term of school at Gatzke Friday and returned home Saturday.

Fred Dragni returned to his home in Viroqua, Wis., Monday, after a few days pleasant visit at the Chris Yttre home.

Before buying Nails, Fence Wire and Hog Wire be sure to get Holt Mercantile Co's prices as they have just received a carload.

A. R. Jones and C. W. Latta accompanied D. Payne and A. L. Carlson to T. R. Falls Monday and saw them take in some of the mistries of the A. F. and A M.

Work on the new school house is pushed. Some painting is being done, the foundation is about finished and it is expected the work will be completed this month.

Mr. and Mrs. T. T. Sollom gave a wedding reception at the hotel Saturday evening in honor of Mr. Mrs. Arvid Carlson. The dinning room was very prettily decorated for the occasion and after the guests were seated at the tables and before partaking of the bounteous feast of good things, Mrs. A. H. Huseth rendered a beautiful piano solo which was enjoyed by all, as was also the supper by the large crowd in attendance. The groom gave a dance in the hall which was attended by a large number of young people. The bride and groom were the recipients of many beautiful presents from numerous friends.

East Valley News

Mrs. E. Carlson visited her daughter, Mrs. Carl Surmo Sunday.

Mrs. Laren Knutson is staying with Mrs. H. Anderson near Holt, who is very ill.

Martin Olson left Monday for Hannaford N. D. where he expects to spend the summer.

Mr. Huseby has been spending the past week at Rev. Ordahl's

Lars Ring spent a few days at Holt last week.

Hazel Knutson was absent from school all last week.

Rev Ordahl will conduct Easter services at the East Valley school house Thursday April 8th. at 2 P. M.

Ole and Hjalmar Garfor of Newfolden visited with Nels Fosen from Tuesday until Thursday of last week.

George Johnson returned from Crookston one day last week. while there he had an operation perfomed on his head. We all hope he will soon recover perfect health.

A large crowd of people attended the services at Carl Sarmo's Sunday. After the services, Mr. and Mrs. Surmo served coffee sandwiches and cake to all present.

Mr J M Jahr went to Middle River Monday to make final proof on his homestead. He was accompanied by O Garthus and N. Gudvangen.

The following from here were at Holt Monday. O. B. Johnson, O. Garthus, A. C. Jahr, O. Rodahl, Geo. Anderson, E. Moe, S. Carlson, J. M Jahr and N. Gudvangen.

Plant the pure Early Ohio potatoes and ship with your neighbors.

Alfalfa is steadily growing in favor, but the price of the seed is not.

Mr. Flakne tells us that their new school house is shingled and rapidly nearing completion.

Mrs. Bray who has been visiting relatives at Fertile for the last two weeks, returned to Holt Tuesday.

Miss Esther Mickelson went to Crookston Tuesday to visit her sister Amanda who is attending school there.

Hugort Johnson left last week Thursday for Minot N. D. where he expects to have employment this season.

Good cows are the best insurance against hard times. A hundred hens will be found to be a big help, also.

Clover, corn and cows are raised by the most successful farmers, and right here is the best country in the world for clover.

The Early Ohio is the potato for this northern country. If all farmers would plant pure Early Ohio seed and acreage enough so that the potatoes could be shipped in car lots, a ready market can be found for them.

The Year book, which is given away with either the St. Paul Pioneer Press, or Dispatch, contains a whole gold mine of facts, brot right up to the close of 1914, and is something that every man and woman should have. We can tell you how to get it free.

WHITE PINE "& plenty of it."

RIGHT HERE IN OUR YARDS
Ready To Put On Your Job Quick!

NORWAY PINE "& plenty of it."

WHITE PINE—"THE WOOD AMERICA IS MOSTLY BUILT OF" and "THE LEADER IN THE MARKETS FOR 250 YEARS." (U. S. GOVT. REPT.)— is still the most potent factor in the building world and will be for generations to come.

We sell WHITE PINE—for all uses—also that good old "Norway"—(equal to White Pine for most purposes) and are prepared to take care of your orders *promptly*—for a carload or a scantling.

It's nice, clean, well-seasoned lumber — straight from Minnesota and Wisconsin where the best comes from—and will be welcomed by those who thought WHITE PINE was "so hard to get."

SEND IN YOUR ORDERS—
and we'll "show" you action in a hurry.

We carry a full and complete line of Reliable Building Materials of all kinds—and want to figure on your job, *EVERY TIME.*

Even if we don't land the order *every time*, we are anxious to have a try for it. We're determined to *deserve* your business anyhow.

You'll find us prompt, and you'll like the way we fill orders that come over the wire.

* * *

Cold, barefooted children of southern Colorado miners are crying for bread as the result of their fathers' protest against conditions under which they formerly worked, said President McLennan of the Denver mine workers' union.

* * *

Dynamite bombs, placed by Carranza agents, were exploded under a train load of Villa's advance guard, near Forlon, on the road between Monterey and Tampico, and forty men were killed, according to a message received at Los Angeles. The injured numbered several hundred.

* * *

Verne Alphonze Lewis murdered Mrs. Mary Balding and three of her children and attempted to kill the other two children on the night of March 14, at Terre Haute, Ind., because he "loved them so" and did not wish to see them "go away," according to a confession that police say Lewis made.

* * *

Superior Judge L. R. Works upheld the contention of the city of Los Angeles that its $25,000,000 Owens river aqueduct system furnishes pure water, excellent for human consumption, and denied injunctions to two plaintiffs who sought to prevent distribution of the aqueduct water on the ground that it was polluted.

* * *

A good illustration of the prosperity being enjoyed in the middle west is shown in the list of new buildings assured for Omaha this year. Nine new buildings are to be erected at a cost of over three million dollars. The First National bank building, a twelve story structure, to cost $500,000 is one of the largest.

WASHINGTON.

Premiums have been paid to the government war risk insurance bureau to date amounting to $750,000, and the losses aggregated only $670,663, according to an announcement.

* * *

Chairman Simmons of the senate finance committee took issue with prospects of a large treasury deficit in a statement saying his investigations at the treasury have convinced him the deficit will not exceed $26,000,000.

* * *

Attorney General Gregory has instructed the United States district attorney of Porto Rico to institute libel proceedings against the German steamship Odenwald, which attempted to leave San Juan harbor without clearance papers.

* * *

President Wilson declared recently that the only definite thing that could be said at this time on the Japanese-Chinese negotiations was that the United States had addressed an inquiry to Japan concerning her demands on China.

* * *

American breadstuffs worth $337,091,823 were shipped abroad during the eight months ending Feb. 28 last, as compared with $115,215,881 for the same period of the preceding year. Figures given out by the Department of Commerce showed the greatest increase was in wheat exports.

TO PROBE CHARGE OF EXTRAVAGANCE IN RANGE TOWNS

LEGISLATURE WILL MAKE ITS OWN INVESTIGATION IN DISTRICT IF SCOTT RESOLUTION IS PASSED.

HOUSE REJECTS TEIGEN ANTI-FUTURES MEASURE

Votes 68 to 52 Against Bill on Final Reading—Rural Members Oppose on Ground That Hedging Would Be Prohibited—Was Taken Up as Special Order.

St. Paul, Minnesota.—It is possible that the legislature will make its own investigation of the many charges of gross extravagance in the government or iron range mining towns. In an effort to prevent action by the house on Representative J. M. Harrison's bill, which would curb expenditures in these towns, Samuel Scott of Hibbing, introduced a resolution calling for an investigation of these expenditures and appropriating $2,500 to cover the cost. He withdrew it a few moments later, but promised that he would ask the attorney general to assist him in drawing another for presentation at once.

The Harrison bill fixes a maximum cost per capita of $25, exclusive of school expenses. This is approximately five times the average cost per capita prevailing in cities, towns and villages in Minnesota. Mr. Harrison moved that his bill be made a special order for March 30.

It requires a two-thirds vote of all members of the house to set a special order, and a minority of thirty is sufficient to defeat the motion, which polled eight affirmative votes. There were twenty members absent and it would have required eighty-seven votes to carry the motion.

Representatives and senators from the range country indicated that they would not oppose the bill, as they considered $25 per capita as a limitation which they could well live within.

Kills Anti-Futures Bill.

Decisive defeat was meted out by the house to A. F. Teigen's bill to prohibit trading in grain futures. It was taken up as a special order on motion of its author, put on its final reading and lost, yeas 52, nays 68.

The argument that the bill would prohibit hedging was used effectively against the measure by farmer members.

It was Mr. Teigen's third attempt to get action on his bill, the house having twice defeated similar motions. Oscar Swenson urged that the bill be taken up, declaring that if it were not the author would renew his motion every day till the end of the session.

"Bankers have assumed the role of lobbyists for the grain brokers," said Mr. Teigen in defense of his bill

Extra Session Likely.

More rumors of an extra session of the legislature crystallized when Fred Bessette of Gheen, house member, announced that he intended introducing at once a bill which would provide financial compensation and additional railroad transportation to reimburse members for time and expense of an extra session.

Many members believe that an extra session of the legislature will be found necessary. It is the opinion of those who hold this view that such a session would come immediately upon the expiration of the legal time limit of the life of the present session which is due to pass into history on April 22.

Sullivan Fears Flood of Talk

A resolution to allow state department heads the privilege of seats and debate in the senate when it is acting as a committee of the whole, was referred to the senate committee on drainage. Senator E. J. Westlake introduced the resolution and asked that it be referred to the committee on rules. Senator G. H. Sullivan moved that it be referred to the drainage committee.

Compensation Law Amended

For two whole hours Senator Richard Jones, Socialist member from St. Louis county, held up the passage of the bill amending the employees' compensation law while he presented amendment after amendment to the bill. He presented eight amendments and each was voted down.

Remove Land Buying Limit

Senator I. H. Nord's bill throwing open northern Minnesota lands to extensive development, by taking off the present 320-acre restriction, passed the senate by a vote of 36 to 20, after a debate of two hours.

APPROPRIATION FOR "U" IS URGED BY OFFICIALS

Dr. George E. Vincent and department heads of the University of Minnesota appeared before the senate finance committee to urge the passage of the bills appropriating $3,887,450 for the use of the university for the next two years. They told the committee the appropriation was a decrease of nearly $100,000 over what was appropriated two years ago and a decrease of more than $410,000 from what was appropriated in 1911

"BLUE MILK" BILL MEETS DEATH IN LOWER HOUSE

The so-called Sullivan "blue milk" bill, which passed the senate by a large vote sometime ago, met with an overwhelming death when the house in committee of the whole voted to indefinitely postpone the measure. It would reduce the percentage of butterfat in milk from 3½ to 3 per cent.

Senator Sullivan advanced his milk label bill in the senate. The bill was introduced after women's organizations and civic bodies had attacked his "blue milk" bill.

When Senator Sullivan heard that his "blue milk" bill had been defeated in the house, he moved that the label bill be indefinitely postponed. It was done.

To Carry on Work.

St. Paul, March 26.—A vicious blow was dealt the efficiency and economy bill for the reorganization of the civil administration of the state government when the house passed six of Representative Sam Y. Gordon's special committee bills.

Then the original bill died a quiet death so far as the present session of the legislature is concerned when a resolution was introduced authorizing the appointment by the speaker of a committee of seven members to carry on further investigation of one year and submit its recommendations to the next legislature. A resolution which bore the names of Representatives Thomas H. Girling, Theodore Christianson and W. I. Norton was laid over for two days.

An appropriation of $15,000 to carry on the work is included in the resolution.

Governor May Veto Gordon Bills.

Passage of six of the Gordon committee bills by the house clinched the fate of the efficiency and economy commission's bill at this session, and also created a chilly atmosphere between the lower house of the legislature and the office of Gov. W. S. Hammond. It is known that Governor Hammond intends making the commission's bill a political issue next year, and on good authority it was reported that he will veto the Gordon committee bills if they reach him, with the possible exception of the budget measure.

HOUSE RECOMMENDS LARSON SUFFRAGE BILL

Woman suffrage scored a victory in the house when the majority report of the elections committee, recommending for indefinite postponement A. S. Larson's bill which would extend the franchise to women in presidential elections, was overridden and the minority report, recommending the bill for passage and placing it on general orders, was adopted by a vote of 65 to 44 after more than an hour of debate.

Proponents of woman's suffrage were elated and declared that they now see a possibility of forcing the bill through the house and to the senate. It is probable that an effort will be made early next week to have the measure made a special order in the house.

ST. LOUIS COUNTY DIVISION MEASURE KILLED IN HOUSE

St. Paul, March 25.—The charges of gross extravagances made against the range mining towns are credited with causing the defeat of the St. Louis county division bill, which was killed in the house by a vote of 84 to 32.

The opponents of the division bill recited that the range towns are controlled by officials who exact great sums of money in the form of taxes from the mining companies and spend this money in the most riotous manner.

The proponents of division answered that Duluth wished to continue in control of St. Louis county government to use a majority of the county funds for roads and other improvements in the Duluth end of the county. Also it was charged that the steel company now has control of the county government and resists every effort made to wrest it away.

BILL AIMED AT ELOPERS IS RECOMMENDED TO PASS

Favorable recommendation was given the bill prohibiting common law marriages by the house judiciary committee.

The measure, fathered by C. F. Southwick of Wells, would compel a lapse of five days between the time of marriage and the issuance of a license. This feature is directed at elopers.

A sworn statement as to physical condition of applicants for licenses also would be necessary

Provides for New Judge

A bill to give Minneapolis a new district judge was introduced in the senate by Senator James Callahan. A companion bill has been introduced in the house.

Liquor Bill Is Postponed

Senator P. A. Ganrud's bill providing for a constitutional amendment prohibiting the sale of liquor was shelved by the senate committee on temperance

Small Sum for State Institutions

The senate finance committee conceded the small amount of $12,000 additional for maintenance of state institutions, after hearing a plea from Chairman C. E. Vasaly of the board of control. This increase is to cover expenses of two years The total allowed the board is still $160,000 less than was appropriated two years ago.

"The board of control will refuse to assume responsibility for decreased efficiency in state institutions because of the cut in the appropriation," said Chairman Vasaly.

MINNESOTA VICTIMS FIND QUICK RELIEF

Wonderful Remedy Saves Many From Desperate Illnesses and Dangerous Operations.

End stomach troubles quickly with Mayr's Wonderful Remedy. The first dose proves what it will do. Hundreds of people in Minnesota have used it with unusual benefit.

Here are the words of a few of the many in this state who have taken it:

JOHN TOWEY, 2030 Dayton avenue, St. Paul, Minn., ordering a second treatment, wrote: "I have been feeling fine since I took your medicine. It certainly cleared my skin. I have recommended your medicine to a number of stomach sufferers."

MRS. PETER WILLIAMS, 2749 Eighteenth st., S., Minneapolis, wrote: "I have taken Mayr's Wonderful Remedy and feel like a new woman. I am entirely out of pain. Four of our best doctors could do nothing for me and agreed I must have an operation."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.—Adv.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

The mantle of charity covers a lot of amateur theatrical performances.

HOW TO STOP DANDRUFF AND LOSS OF HAIR

Here is a simple, inexpensive treatment that will almost always stop dandruff and scalp itching, and keep the hair thick, live and lustrous: At night, spread the hair apart and rub a little resinol ointment into the scalp gently, with the tip of the finger. Repeat this until the whole scalp has been treated. Next morning, shampoo thoroughly with resinol soap and hot water. Work the creamy-resinol lather well into the scalp. Rinse with gradually cooler water, the last water being cold. Resinol ointment and resinol soap are sold by all druggists.—Adv.

Put a man under the X-ray machine if you would find out what is in him.

CRUISER EITEL MAY LEAVE

SMOKE ISSUES FROM BOTH HER STACKS.

Time Allowed Commander to Make Repairs Before Putting to Sea Is Nearly Expired.

Washington, March 30.—Although officials both here and at Newport News refused to discuss the situation, an atmosphere of tense expectancy surrounds the German auxiliary cruiser Prinz Eitel Friedrich, which took refuge in Newport News after her unprecedented privateering cruise through the Pacific and Atlantic oceans. The Eitel lays at anchor with smoke issuing from both her stacks. Until the last few days there has been smoke from only one stack.

Throughout the stay of the Eitel here officials have kept secret the time allowed her commander to make repairs on his ship before putting to sea again. Internment for the period of the war is the penalty for over-staying this period and it is known that the time is nearly expired.

In view of the fact that British and French warships now are believed to be waiting outside the three-mile limit off the Virginia capes, it is declared, the Washington authorities deem it essential to prepare for strict enforcement of neutrality within the waters of American jurisdiction.

ITALY CALLS ALPINE TROOPS

Forces Are Organized Especially to Defend Mountain Passes Leading Into Country.

Rome, March 30.—All the Alpine troops of the first category born in 1883, have been called to the colors by the Italian war department for forty-five days. The official military journal also calls to the colors all artillery and engineer reserve officers for sixty days from April 1.

The Alpine troops are frontier forces organized especially to defend the mountain passes leading into Italy. This force consists of eight regiments (28 battalions) of Alpine infantry, and two regiments of 36 mountain artillery batteries. In addition to these, there are two regiments of heavy artillery of 10 batteries each, one regiment of horse artillery of eight batteries and 10 regiments of fortress artillery.

The artillery arm of Italy's land forces consists of 265 batteries, 110 companies and 51 depots.

PRESIDENT'S DAUGHTER SINGS TO AID SUFFERERS IN EUROPE.

Washington, March 30.—Miss Margaret Wilson, daughter of the president, just has concluded recording "The Star Spangled Banner" on a phonograph record. She will turn over her royalties to the international board of relief, an organization working in the war stricken cities of Europe. Miss Wilson's income from her voice on this one record will help relieve several hundred families.

PRESIDENT WILSON WRITES LETTER TO CENTENARIAN

Masses Attended by 16,000

St. Paul, March 30.—Crowds estimated at more than 16,000 persons attended the five masses at the informal opening of the Catholic cathedral of St. Paul. The church seats 2,700 worshipers and the aisles were thronged at each of the services. Archbishop John Ireland, who has pushed the cathedral building project for ten years, celebrated the first mass at 6 a. m. A crowded church greeted the celebrant at the beginning of the services. The archbishop congratulated the early comers.

Don't Forget!
An eminent physician lays down these simple rules for better health:
1.—Drink lots of water. 2.—Eat slowly. 3.—Chew your food well. 4.—Have plenty of chewing gum on hand. Use it shortly after meals and chew until the "full" feeling disappears.
Be sure of the Perfect Gum in the Perfect Package—made clean, kept clean, sealed against all impurities:

Not Telling.

"There are rumors in the air."

"Not here, surely. The atmosphere is too close."

IMMENSE QUANTITY OF WHEAT TIED UP

There Will Still, However, Be a Heavy Deficit of the World's Normal Crop.

A grain expert who has been watching the grain markets and the world's grain fields for a number of years, says:

"There is at the present time about two billion bushels of wheat, the production of the countries at war, tied up. This is about one half the world's total production of wheat, which is four billion bushels One writer argues that, granting that the warring nations produce a one half crop in the coming year a deficit of one billion bushels will still be shown The three countries upon which the filling of this deficit of one billion bushels will rest are the United States, Canada, and Argentina The combined output of these three countries is only 1,249,000,000, their exportable surplus would of course be much less so it can easily be seen that the question is not one to be easily solved and it behooves all the above countries to increase their respective productions as much as they possibly can, for when the war is over and trade begins to re-establish itself and the nations undergo a process of rehabilitation, the demand for all breadstuffs will be enormous

"During the three years following the declaration of peace the farmers of all neutral wheat producing countries will have ample opportunity to market their wheat at good prices, and it may safely be assumed that the demand will be heavy Canada has an unusual opportunity in that she has the natural environment for wheat production, she is under the protection of the British flag and she will not be molested upon the water to any great extent she can increase her acreage and greatly enhance her production In other words she can become a far greater wheat producing country than she is at the present time"

If the ... of this expert be correct is there not the very best reason for the continued effort that is being made by the Government of the Dominion of Canada to secure settlers on the ... productive vacant lands of the country? Not only are these lands capable of producing high class wheat in large quantities but cattle, pigs, sheep and horses also do well The climate is admirably suited Advertisement

When a fellow ... the world has played a ... down ... on him

Official Denial

No War Tax on Homestead Land in Canada

The report that a war tax is to be placed on Homestead lands in Western Canada having been given considerable circulation in the United States, this is to advise all enquirers that no such tax has been placed, nor is there any intention to place a war tax of any nature on such lands. (Signed) W. D. Scott, Supt. of Immigration, Ottawa, Canada, March 15th, 1915.

Let It Stand Between Your Motor and Deterioration
Hundreds of thousands of motorists in the Middle West alone all turn to POLARINE in the last seven years—know the protection, the efficiency and the pleasure resulting from this scientifically perfect lubricating oil.
Do YOU know this oil?
—an oil sufficiently fluid to lubricate and completely cover the remotest friction surface
—an oil of maximum durability and correct lubricating body at any motor speed or temperature.
—an oil that pays back its cost, not only by saving repairs but by maintaining a high resale value for your car
Why experiment? when the greatest of all specialists in matters of lubrication have experimented for you Use Polarine
STANDARD OIL COMPANY (AN INDIANA CORPORATION) Chicago Ill
Use RED CROWN Gasoline It means More Power, More Speed, More Miles per Gallon

Canada is Calling You to her Rich Wheat Lands
—She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.
This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre Think what you can make with wheat around $1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable an industry as grain growing.
The Government this year is asking farmers to put increased acreage into grain. Military service is not compulsory in Canada but there is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature and particulars as to reduced railway rates to Superintendent Immigration, Ottawa, Canada, or to

The Holt Weekly News

Successor to and Continuation of

The Northern Light

By The

Holt Publishing Company

Published every Friday at Holt, Marshall County, Minnesota.

Subscription Price: $1.00 per year, strictly in advance.

Entered as second-class matter Sept-22, 1911, at the post office at Holt, Minnesota, under the act of March 3, 1879.

Hardware Store Sold

A deal was closed Wednesday evening which transfers the hardware, furniture, harness stocks and good will of S. S. Kolden & Co. to T. T. Sollom and Sollom Bros. The new firm will remain in the same building for the present and will be glad to meet all the customers of the old firm and many new ones. They expect to soon build an addittion to Sollom Bros. store and move the stock there and add to it and it will then be known as The People's Cash Department Store. We wish them success.

S. S. Kolden & Co. retain the implement business and will close it out as fast as possible.

R. Reierson was in T. R. Falls on business, Tuesday.

P. A. Riesberg is building an 8 foot basement under his house.

Mrs. Kuehne and her daughter, Mrs. Albin Knauf were over Sunday visitors in T. R. Falls.

Miss Edith Udstrand who has been employed at the restaurant for some time left for Argyle Monday.

Mrs. Huseth went to T. R. Falls Wednesday to visit her sister who has been quite sick, but is some better at present.

Miss Gunhild Sollom who has finished a successful term of school at Goodridge, is now teaching this week for her sister Olava who is on the sick list.

For Rent!

House and barn, possession given April 15th. Chris Yttre, Holt.

Free Mission Church.

2 o'clock Sunday School

8 o'clock Prayer Meeting to which all are invited.

BASEBALL?

Why couldn't Holt have a baseball team this season and play the neighboring towns, who already have teams in the field? It is three years since Holt had a team and if the people show the spirit now, which they showed then, they will be able to support a winning team. All persons interested in a baseball team and the future welfare of Holt will please meet next Monday evening in Holt.

One good thing follows another, new school house, incorporation, and lastly a BASEBALL TEAM.

WHITE PINE
"& plenty of it."

YES, WE HAVE IT! "& PLENTY OF IT"

White Pine is one of the *"White Hopes"* that never had to *"Come back!"* (It's an *"always was"* and an *"is yet!"*) Been all sorts of 'Bear' stories about this original [illegible] ("The Wood of the Forefathers") having been all used up. *Not so.* You will need some—and the best of it is that YOU CAN GET IT—ALL YOU WANT OF IT—AND OF AS FINE A quality AS YOUR ANCESTORS BOASTED OF. So *this* time—for new work or old, just remember

WE'RE "IT" for WHITE PINE, and "that good old Norway," too.

We carry a general line of building materials—lumber, lath, shingles, roofing materials, etc., lime and cement—and make a specialty of giving

Prompt Attention to ORDERS — whether in person, by mail or telephone

"You tell us. We do the rest."

Gunheim 33, Arvid Carlson 17, S. S. Kolden 34, H. J. Oien 16, R. L. Olson 5, R. Reierson 16; Justices, C. W. Latta 36, B. L. Backe 22, J. B. Alkenbrack 10, P. L. Anderson 12; Constables, O. J. Backlund 32, John Alkenbrack 14, R. L. Olson 23, E. M. Silbaugh 12,

The council met Tuesday evening and appointed a committee to draft a village ordinance.

Free For The Farmer

The time has come when the farmer must manage his farm as systematically as does the manufacturer or retailer in his business. Growing competition and progressivness demands that the farmer shall know just where his money is going to and what returns it brings him. If by keeping a single record, he can see just what crop yields the biggest comparative profit he can devote his time to that particular crop, and thus increase the earning capacity of his farm. If, at any time, he can compute his finincial status he will be safely guided as to any investment which he is contemplating. For this purpose we have a Book arranged and the system which it requires is at once effective and simple. By making a few entries each day the farmer can determine his exact finiancial standing, not only at the end of the year, but on each day. The task of making these entries is extremely simple and requires only a few minutes daily. We have one of these books for every farmer tributary to Holt, and they are yours absolutely free. Next time you are in town call in and get one.

D. Payne Lumber Company

Mrs N. N. Landa who is now in Thief River Falls was taken sick with typhoid fever when her twin babies were only 3 or 4 weeks old, but is gaining slowly now tho' quite weak yet

The [illegible] and his good wife are the proud parents of an eight pound girl, born Tuesday evening April 6th. Congratulations.

The above is the first birth reported to the village clerk

Miss Etta Christenson [illegible] Falls visited her sisters Mesdames Huseth and Bray between trains Monday. Her little niece Lucile Russell, who had been here a few days, returned home with her

Mrs Martin Kulseth, nee Miss Louise Rux, came from Warren Saturday to visit her mother and family. A wedding reception for Mr. and Mrs Kulseth was held at the Rux home Wednesday evening which was attended by a large circle of friends of the bride

On Wednesday [illegible] of last week Stella [illegible] was pleasantly surprised by a number of her schoolmates [illegible] her fifteenth birthday [illegible] spent [illegible] games. At 10 o'clock a delicious luncheon was served and at midnight the young people departed wishing Stella many more birthdays.

Albert Knutson commenced work for Ole Backlund on the dray line April first.

Before buying Nails, Fence Wire and Hog Wire be sure to get Holt Mercantile Co's prices as they have just received a carload.

The Cooperative Creameries that paid the highest prices for 1914 are the ones that had a business of over fifty thousand dollars. Are you helping to increase the business of your home Creamery, or are you helping to decrease it? Remember that the good Book says "He who is not with me is against me." If you are not helping the Creamery you are hurting it. The Creamery can pay higher prices when you patronize it.

EVENTS OF THE DAY HELD TO A FEW LINES.

LATE EVENTS BOILED DOWN

Personal, Political Foreign and Other Intelligence Interesting to the General Readers.

WAR NEWS.

The German bombardment of the Russian positions at Ossowetz, in Russian Poland, has been definitely abandoned.

* * *

A concentration of Turkish troops at Adrianople, the nearest important Turkish town to the Bulgarian frontier, is interpreted in Sofia as a Turkish precautionary measure in the event of war with Burgaria.

* * *

Twenty great battle ships, eight powerful cruisers and a land force, estimated at from 40,000 to 50,000 are concentrating at the entrance of the Dardanelles for a grand assault upon the Ottoman defenses, according to Athens dispatches.

* * *

All the Alpine troops of the first category, born in 1883, have been called to the colors by the Italian War department for forty-five days. The official military journal also calls to the colors all artillery and engineer reserve officers for sixty days from April 16.

* * *

Germany has agreed to throw open her military prison camps for an inspection by an American commission. United States Ambassador Gerard announced. England is understood to have accepted the same offer, and the trips of inspection are to begin immediately upon the arrival of the commission in Europe.

* * *

So seriously has the liquor traffic interfered with the successful prosecution of the war that King George of England has offered to cease the use of any alcoholic liquors and to forbid drinking in the royal household, if the government considers that his example would have any effect upon British workmen.

* * *

Fast and powerful submarines of the German navy have torpedoed two more British steamers in the waters adjacent to the British coast. Both steamers, the Falaba and Aguilla, took to flight at the sight of the submarines, but were speedily overhauled, with the result that both vessels were sent to the bottom, with a loss of life estimated at between 140 and 150.

GENERAL.

Chile and Urugay have signed a peace treaty.

* * *

Three thousand union painters and decorators of Chicago are on strike.

* * *

Former Governor Hodges of Kansas will lecture on prohibition in Australia in 1916.

* * *

An uprising in Nicaragua fomented by Gen. Julian Irias, minister of war under the Zelya regime, has been put down by the government.

* * *

More than 6,000 Polish relief badges were sold on the streets of Omaha by fifty-two young women. The "tag day" netted $770 for the relief of the war sufferers in Poland.

* * *

Officials of the New York Central railroad announced that the Chicago-Gary clearing yards, described as "the largest railroad yards in the world," and designed to handle 35,000 cars, will be built at Miller, Ind., just east of Gary.

* * *

The nomination of Colonel William Hayward of New York, formerly of Nebraska, as a member of the Down-State Public Service commission, was sent to the New York senate at Albany by Governor Whitman and referred to the finance committee.

* * *

When Cornelius Valkhoff went out to his rabbit hutch in Los Angeles, to procure a hare for a birthday dinner he stepped into a water puddle as he touched the latch of the hutch gate and fell dead. An electric cable leading to a nearby crematory had broken during the night and turned its 2,200-volt current into the wire fence surrounding the hutch. Later two others were killed and three injured.

* * *

The Young nonpartisan bill which would eliminate party lines in state elections, was passed by the California assembly at Sacramento. The measure is urged by Governor Johnson. It now goes to the senate.

* * *

Nearly 10,000 men are now working in the steel mills of Chicago Heights for the first time this year. Several hundred more were put to work at Gary and South Chicago. Eighty factories and locomotive works have resumed work on a normal scale.

* * *

United States troop reinforcements at Brownville, Tex., will be necessary because the Villistas and Carranzistas fighting at Matamoras plan to use artillery, which will endanger American property and lives.

The state of Texas is suing Chicago packing houses, charging violation of anti-trust laws.

* * *

Chile has accepted the invitation to take part in the pan-American financial conference in Washington.

* * *

The Standard Oil company of New York announced a further reduction of 10 points in refined petrolium.

* * *

The centennary of the birth of Prince von Bismarck, Prussia's famous statesman, was celebrated with the utmost enthusiasm in the German capital.

* * *

General Victoriano Huerta, former provisional president of Mexico, and his family have sailed from Cadiz, Spain, for Buenos Ayres, Argentina, according to a dispath from the Fabra agency at Madrid.

* * *

Thomas H. Matters, found guilty on nineteen counts in connection with the wrecking of a national bank at Sutton, Neb., was sentenced to six years in the Leavenworth, Kas., federal prison by Judge Frank A. Youmans at Omaha.

* * *

Two robbers entered the manufacturing jewelry establishment of W. Bershtein in the center of Philadelphia, covered the proprietor and his brother with revolvers and took more than $3,000 worth of jewelry. They escaped in an automobile.

* * *

A plan to raise a $1,000,000 fund in 1917 in celebration of the four hundreth anniversary of the beginning of the reformation by Martin Luther was formulated at York, Pa., at a conference of clergymen and laymen of the Lutheran church.

* * *

Three Chicago girls, Ruth Harsley, Maude Brideson and Ethel Rockwell, who left Chicago on March 19 to walk to the San Francisco exposition, left Cedar Rapids, Ia., for Belle Plain after spending the night with the police matron at Cedar Rapids.

* * *

"Freshmen and sophomore years in college should be given to the high schools, thus cutting the college courses to two years," Prof. Charles H. Judd of the University of Chicago told 200 Kansas high school teachers at their annual meeting at the University of Kansas.

* * *

Alexander Robertson was appointed vice president of the Missouri Pacific Iron Mountain system, in charge of operations. He succeeds E. J. Pearson, who has resigned to accept a similar position with the Texas & Pacific. He started his railway career as a brakeman in 1885.

* * *

A telegram was received by Governor Johnson of California from Secretary of State Bryan containing representations from the British ambassador concerning claims that British subjects, school teachers in California, had been denied their salaries because of non-citizenship.

* * *

In accordance with a letter from Governor Willis, the Ohio State Tax commission at Columbus removed all officials in charge of the taxation machinery in the eighty-eight counties of the state. Those removed are all democrats who were appointed under the administration of Governor Cox.

* * *

By a vote of 92 to 32 the lower house of the legislature at Springfield, Ill., defeated the Kurtis joint resolution which provided for submission to the electors of a proposition for the holding of a constitutional convention. The defeat means the postponement of the question for at least two years.

WASHINGTON

Tariff rates on most articles imported into Russia have been raised 10 per cent, while rates on certain cotton fabrics and cotton yarns have been increased from 30 to 50 per cent.

* * *

Attorney General Gregory has decided that the new seamen's law affecting lifesaving apparatus and other equipment on ships, will become effective for American ships on November 4, 1915, and for foreign ships on March 4, 1916.

* * *

Express rates on strawberries and cherries in carload, from points in Washington and Oregon to Helena, Butte, Great Falls and Billings, Mont., were found unreasonable and discriminatory by the interstate commerce commission.

* * *

Two cents instead of 5 cents will be the posting rates on letters, beginning April 1, between the United States and the British colonies of Barbadoes and the Leeward islands in the British West Indies, the postoffice department announced.

* * *

With the hope of securing permanent protection for the 25,000 foreigners in Mexico City, the United States government has proposed to both factions that the Mexican capital be declared neutral and outside the field of operations hereafter in Mexico's civil war.

* * *

Continued large increases in exports to France and Great Britain and the principal European neutrals, were shown in an analysis of foreign trade for February, issued by the Department of Commerce.

NEGRO LAUGHS AT OPPONENT

Smiles as Willard Misses Blows in Early Rounds—Crowd Late in Arriving, is Angered at Delay of Fight.

Ringside, Miramar Race Track, Havana, April 6.—Youth met experience for the heavyweight championship of the world beneath skies momentarily threatening rain. More than 10,000 assembled to watch the battle of the mastodons—Jess Willard, Kansas cowboy and white hope, 247 pounds of Caucasion brawn, against John Arthur Johnson, title holder with 225 pounds of ebonied muscle.

Willard knocked out Johnson in the twenty-sixth round.

THE FIGHT BY ROUNDS

Round 1.—Johnson came out confidentially. The white man wore a serious look. Johnson rushed Willard at the start, forcing the white man back into his corner. They clinched and in the breakaway Johnson tapped lightly to Willard's kidneys. Johnson was smiling. Willard made Johnson lead, fighting viciously. Willard landed a left to the negro's jaw, swinging the champion's head slightly. Johnson countered with a right to Willard's jaw. They exchanged lefts to the body. Round even.

Round 2. Johnson laughed as Willard missed a left to the head. A second later Willard repeated the same drive and landed a hard left. Willard feinted with his left and shot a hard right to the body. Johnson lost his golden smile momentarily and began rushing the white man. Willard stood his ground and fought the negro off. There was a spirited exchanbe of blows in the center of the ring. Johnson landed a right and Willard countered with a left to the negro's jaw. Willard's round.

Round 3. The negro again tried to rush Willard at the start of the third round. The Kansan blocked him with surprising cleverness, sending a stiff left to the body. Johnson grew cautious but did not drop his smile. He worked into a clinch. In the breakaway the fighters exchanged light taps. Willard blocked another attempted rush but the champion had the best of the exchanges. Willard kept working his left at the negro's head, landing several times. None of the blows, however, was a stiff one. They mixed it in a real set-to in the center of the ring and Johnson landed a left jab to the body. He went at Willard like a whirlwind and drove him to the ropes. Willard blocked a left to the body and right to the jaw. Round even.

Round 4. Johnson came out laughing, holding out his stomach. Willard failed to fall for the trick that helped send Jim Jeffries out. He sent back a laugh. They went into a clinch. There was a sharp exchange in the breakaway with no damage. Both blocked lefts. Willard become more confident. He laughed as he blocked another of Johnson's attempted rushes. Johnson rushed Willard into the ropes, landing two hard punches. Willard bled slightly around the lops. Johnson's round.

Round 7. Johnson was fighting hard and with grim determination on his face. Apparently he was trying his hardest to win. Willard blocked all rushes nicely. Johnson missed a vicious right to the body and then landed a left jab that was only a tap. Johnson evidently was playing for the white man's stomach. Willard covered his abdomen. The negro landed a left to the face and followed this up with a hard right swing to the body. The negro ran into a clinch. There was another vicious exchange as they broke away. Willard's round.

Round 8. The fighting in this round was fierce. Willard was on the aggressive from the bell and landed a right to the head that rocked the negro. Johnson clinched and held on. Following the breakaway Johnson tried rushing tactics again. He tried to rush the Kansan to the ropes but Jess stood his ground and blocked cleverly. There was another fierce exchange, Willard having all the best of it, raining blows to the negro's head and body. Johnson was looking weary during the fast and furious milling and was puffing badly. Just before the bell he again tried to rush Willard, but was again blocked. Willard's round.

Round 9. Willard assumed the aggressive. Johnson started one of the cowboy's ears bleeding. The champion landed frequently, but his blows appeared to lack their old-time power.

Amidst feinting the crowd shouted, "Kill the black bear." Johnson immediately started a rally by driving three hard hooks to Willard's stomach. A left by Willard started the negro's mouth bleeding. The latter slugged the white man to the ropes.

The twelfth and thirteenth round went to Johnson and the next five rounds were even.

Willard got the best of the mix up from the nineteenth to the twenty-second round.

Willard knocked out Johnson in the twenty-sixth round.

RESINOL CERTAINLY DOES HEAL ECZEMA!

In the past twenty years, literally thousands of *physicians* have written to tell us how successful the resinol treatment is for eczema and similar skin troubles. The first use of resinol ointment and resinol soap usually stops the itching and burning, and they soon clear away all trace of the eruption. No other treatment for the skin now before the public can show such a record of professional approval. Sold by all druggists.—Adv.

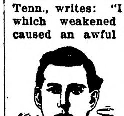
Gruesome Glee.

"Did you see where a train somewhere has a trunk on it filled with gun cotton?"

"Sure, I did. Ain't that going to be a good joke on some baggage smasher?"

SUFFERED FOR FOUR YEARS.

Mr. J. M. Sinclair of Olivehill, Tenn., writes: "I strained my back, which weakened my kidneys and caused an awful bad backache and inflammation of the bladder. Later I became so much worse that I consulted a doctor, who said that I had Diabetes and that my heart was affected. I suffered for four years and was in a nervous state and very much depressed. The doctor's medicine didn't help me, so I decided to try Dodds Kidney Pills, and I cannot say enough to express my relief and thankfulness, as they cured me. Diamond Dinner Pills cured me of Constipation."



Mr. J. M. Sinclair.

Our Girls.

To bring up a girl in absolute dependence, goor-for-nothing, selfish in her aims and exacting in her demands, is a sin against her and against society. To begin at her birth and economize and retrench in every department for the accumulation of money in order that this monstrous perversion of her life may be accomplished and maintained is grotesque and heathenish. Girls thus trained will fail to attain a high order of womanhood. Their aims will be petty, their ideals low, and nothing satisfactory can be expected of them in wifehood or motherhood. While we carefully guard whatever is womanly in our daughters, let them be trained to more fiber and firmness. Educate them to self-denial, if pecuniary circumstances demand it, and not to self-indulgence. Accustom them to be of service in the household, to regard economy as praiseworthy and even heroic, and to add to their accomplishments a practical knowledge of work, and the possession of some lucrative vocation or industry by which they can support themselves. Such girls, when portionless, will carry to their husbands dowries in themselves. —Exchange.

Perfect Candor.

"Whenever I make a speech to my home folks," said Senator Sorghum, "I feel as if they were laughing in their sleeves."

"Pshaw!" exclaimed the hearty citizen; "we wouldn't laugh in our sleeves at you, senator. We'd jes' go ahead an' laugh out loud."

THE WAY OUT

Change of Food Brought Success and Happiness.

An ambitious but delicate girl after failing to go through school on account of nervousness and hysteria, found in Grape-Nuts the only thing that seemed to build her up and furnish her the peace of health.

"From infancy," she says, "I have not been strong. Being ambitious to learn at any cost I finally got to the High School but soon had to abandon my studies on account of nervous prostration and hysteria.

"My food did not agree with me, and I grew thin and despondent. I could not enjoy the simplest social affair for I suffered constantly from nervousness in spite of all sorts of medicines.

"This wretched condition continued until I became interested in the letters of those who had cases like mine and who were being helped by eating Grape-Nuts.

"I had little faith, but procured a pkg and after the first dish I experienced a peculiar satisfied feeling that I had never gained from any ordinary food. I slept and rested better that night and in a few days began to grow stronger.

"I had a new feeling of peace and restfulness. In a few weeks, to my great joy, the headaches and nervousness left me and life became bright and hopeful. I resumed my studies, and later taught ten months with ease—using Grape-Nuts every day. I am now the mistress of a happy home, and the old weakness has never returned."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

MAY BRING EARLY END TO STRUGGLE

BATTLE FOR POSSESSION OF CARPATHIAN PASSES APPROACHING DECISIVE STAGES.

PREPARING FOR LONG SIEGE

Nearly Half Million Austro-Germans Encamped Along Battle Front—Russian Left Wing Making Advances Under Difficulties.

Petrograd, April 5.—The great battle for the possession of the Carpathian passes is approaching the decisive stages. Along a 20-mile line reaching from Vola Michova eastward to the River Sen great armies are locked in death struggles on the icy hills. The invasion of Hungary with a possible early ending of the European war may hinge on the result.

Enthusiastic reports of Russian successes have reached here from correspondents at the front. The war office, while optimistic, does not share the belief that the battle has been won. Important victories have been scored by the Slavs, but the gigantic clash from the Uzsok Pass is yet to begin.

500,000 Teutons Encamped.

Nearly half a million Austro-Germans, it is now estimated, are encamped along the Carpathian battle front, either north of the mountains at the passes themselves, or are defending the railway at Mezo Laborc, south of the Lupkow Gap. Behind them are endless chains of trenches and fortified positions that must be forced before the great body of Russian troops pass down the heights and into Hungary.

From Vola Michlova to Smolnik, the Russian left wing is making slow but steady progress. Perhaps no army in the history of the world advanced under more tremendous difficulties. A recent thaw melted the snow and covered the mountains with tiny rivulets. Then a sudden dash of zero weather converted the paths and sides into glaring sheets of ice. To these natural obstacles, the Austrians, under German direction, built almost impregnable defenses high in ridges.

WOULD HANG RESPONSIBLE GERMANS AT END OF WAR.

London, April 5.—"Hang von Tirpitz, and other responsible German officers at the close of the war," was the suggestion of the London Daily Chronicle, in a fresh outburst of indignation at the torpedoing of three English fishing vessels, expressly exempted from attack by The Hague convention of 1907. The other London newspapers, though more conservative in their denunciations, were equally bitter in charging Germany to reverting to barbarous warfare.

"We cannot at present prevent the Germans from committing any atrocity that seems good to them," said the Chronicle, "but we must insist upon a day of reckoning. The German government says the submarine crews now in our hands acted upon orders. It will be interesting to know what was responsible for those orders."

Curfew to Ring in Philadelphia.

Philadelphia, April 5.—A curfew will be established in this city early this week for children under 15 years of age, according to an announcement made by George D. Porter, director of public safety. Such children found on the streets after 11 o'clock will be taken into custody by the police and kept at the House of Detention over night. Their parents will then be called upon to explain the reason for the children being out so late at night the announcement stated.

Sham Detectives Steal $1,000.

Chicago, April 5.—Under pretense that they were detectives searching for a missing person four robbers entered the home of George Brooks and stole $1,000 and valuable jewelry. The victims did not realize that they had been imposed on until the loss of the money was discovered half an hour after the men had left.

Kaiser Directs Army in West.

London, April 5.—From new headquarters, established near the Belgian city of Dinant, the kaiser is now directing a German army of nearly 1,500,00 men in the operations preliminary to the opening of the spring campaign, according to a Copenhagen dispatch.

Sarah Bernhardt Coming to U. S.

Paris, April 5.—Mme. Sarah Bernhardt confirms the report that she will assist Pierri Loti at a forthcoming charity performance. She will go to the United States in September, "where," the interviewer remarked, "you will receive a triumphant welcome."

To Oust Panama Teachers.

Panama, April 5.—President Porras has signed a decree that will force practically all of the foreign teachers in the schools here out of the service, including the American teachers and the director of the National Institute. The decree conforms with a law passed by the national assembly which requires the minister of public instruction to employ only Panama teachers except under prescribed conditions. The decree excepts the foreign teachers who can show a diploma from recognized foreign universities.

NO WAR TAX ON CANADIAN LANDS

Untruthful Reports Circulated by Interested Parties.

Defaming a neighbor at the expense of the truth does not help those who are guilty of the practice, and it may be said that those spreading false reports about Canadian lands, in the hope that they may secure customers for their own, will certainly fail of their purpose. False statements so maliciously circulated will sooner or later be disproved. And, as in the case of the lands of Western Canada, the fertility of which is now so well known to people of every state in the United States, the folly of this work shows an exceeding short sightedness on the part of those guilty of the practice.

The present war has given some of these people the opportunity to exercise their art, but in doing it they are only arousing the curiosity of those who read the statements and a trifling investigation will only reveal their untruthfulness.

A very foolish statement has recently appeared in a number of papers, reading in part as follows:—

"It is believed that as a result of the war tax on land imposed by the Canadian Government a number of former Dakota farmers who went to the British Northwest will be compelled to return to the United States. Information has been received that the tax will amount to about $500 for each farm of 160 acres, which in the case of many of the former residents of the two Dakotas would practically amount to confiscation."

To show that the public has doubted, hundreds of inquiries have been made the Government at Ottawa, Canada, only to bring out the most emphatic denial. A full-fledged lie of this kind has, of course, only a short life, and will tell in the end against those who forge it and spread it, but, as a Winnipeg paper points out, it is most complimentary to the agricultural possibilities of Western Canada to find that rival farming propositions need audacious mendacity of this description to help them.

What is the truth? The Saskatchewan Government has authorized a levy of $10 per quarter section on uncultivated lands owned by non-residents. The Alberta Government has imposed a Provincial tax of 10 mills on the assessed value of all uncultivated lands. There are some special applications of these taxes, but the main provisions are as above. Those vacant lands held by non-residents in Western Canada form a grave problem. They are making for poor communities, poor schools and poor social and economic conditions generally. By having them cultivated the owners as well as the districts in which they are located will benefit alike. It is for this reason that the Government has recently asked the co-operation of the non-residents. The high price of grain for some years to come, and the general splendid character of Western Canada land will make the question well worth consideration.—Advertisement.

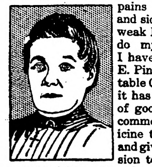
WOMEN FROM 45 to 55 TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.



Westbrook, Me.—"I was passing through the Change of Life and had pains in my back and side and was so weak I could hardly do my housework. I have taken Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. I will recommend your medicine to my friends and give you permission to publish my testimonial."—Mrs. LAWRENCE MARTIN, 12 King St., Westbrook, Maine.

Manston, Wis.—"At the Change of Life I suffered with pains in my back and loins until I could not stand. I also had night-sweats so that the sheets would be wet. I tried other medicine but got no relief. After taking one bottle of Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use for six months. The pains left me, the night-sweats and hot flashes grew less, and in one year I was a different woman. I know I have to thank you for my continued good health ever since."—Mrs. M. J. BROWNELL, Manston, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled in such cases.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

A Wholesome Revision.

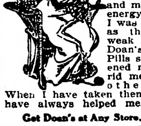
"The profligate son of wealthy parents. What else could you expect of him?"

"Nothing, 'tis true, but I was hoping he might be a throw-back to his hod carrying ancestors."

An Extreme Case.

"A romantic soul, you say?"

"Very. I've known him to quote Keats to a box of talcum powder."



Feel All Used Up?

Does your back ache constantly? Do you have sharp twinges when stooping or lifting? Do you feel all used up—as if you could just go no further?

Kidney weakness brings great discomfort. What with backache, headache, dizziness and urinary disturbances it is no wonder one feels all used up.

Doan's Kidney Pills have cured thousands of just such cases. It's the best recommended special kidney remedy.

A North Dakota Case

"Every Picture Tells a Story"

Mrs. P. J. Ostboe, Park River, N. D., says: "I had an almost constant pain in the small of my back and felt tired and miserable. My energy left me and I was all run down as the result of weak kidneys. Doan's Kidney Pills soon strengthened my back and rid me of all the other ailments. When I have taken them since, they have always helped me."

WOULD ABOLISH ADVISORY BOARD

BILL TO GIVE DUTIES OF TUBERCULOSIS COMMISSION TO HEALTH BOARD PASSED.

OFFICERS SCORED IN DEBATE

President and Secretary of Sanatorium Board Are Bitterly Arraigned by Author of Measure—Claims Annual Saving of $48,000.

St. Paul, March 31.—Opponents of the state tuberculosis advisory commission triumphed in the house, passing, by a vote of 75 to 23, a bill by Representative Theodore Christianson to abolish the commission and give its duties to the state board of health. Dr. H. Longstreet Taylor of St. Paul, chairman of the commission, and Dr. Robinson Bosworth, its secretary, were severely scored by the author of the bill and by Representative L. C. Spooner in the course of the debate.

The bill was passed after suspending the rules, which was done by a vote of 89 to 14.

"As a measure for efficiency and economy, this bill will achieve a saving of $48,000 per annum," said Mr. Christianson. "More important than that, it will end an intolerable condition. One of the members of this advisory commission, Dr. H. L. Taylor of St. Paul, is a stockholder in a private sanatorium for the treatment of tuberculosis and it is charged that he has sent patients to the private institutions when they should have been sent to the state institution at Walker."

Bill Aimed at Physicians.

Should Senate File 866, which was introduced in the senate by Carl Wallace of Minneapolis by request, become a law, Minnesota will be the first state in the Union to compel physicians to write their prescriptions in English. The bill also regulates the use of vaccine in a manner that would make the physicians and veterinarians of the state primarily liable for mistakes of administration or evil after-effects.

The bill has been referred to the committee on public health, of wihch Senator Andrews of Mankato is chairman. This is the committee to which has been referred other bills affecting the manufacture of proprietary medicines.

Vote on Twenty Appropriations.

The house committee on appropriations is charged with distribution of some $20,000,000 of state money. At the conclusion of its meeting members frankly admitted that they knew not where they stood or whither they are drifting.

In a disinterested sort of manner the committee voted for passage of sime 20 miscellaneous appropriation bills, but some of the members, in the same breath, expressed the opinion that the house will only toss these bills back at the committee, thereby adding further to the general confusion.

House Wants Grand Total.

A week ago the house sent back to the committee a long list of miscellaneous appropriation bills, voicing the sentiment that it would not vote for appropriation bills until informed of the grand total of the budget of appropriations. That day a special subcommittee of five was appointed by Lewis C. Spooner, chairman of the appropriations committee, to devote special attention to the great work of making the biennial appropriations.

This subcommittee has been diligently at work ever since and its members were expressing some hope of bringing order out of chaos when John A. Larimore, its chairman, discovered that this subcommittee had been supplanted without notice by another subcommittee, this latter one of seven members.

This knowledge came to Mr. Larimore, he says, when he sought to confer with Senator Rockne, chairman of the senate finance committee.

Would Abolish Highways Commission.

Senator R. T. Buckler of Crookston has re-introduced his bill which would abolish the state highway commission. The Highway Home Rule association backs the senator in this bill. The first bill he introduced to this effect was side tracked by the senate committee on roads and bridges. This second bill went to the same committee and the author assumes that it likely will suffer a like fate.

In many counties the Highway Home Rule association has established county organizations, says Senator Buckler. All are affiliated with the state association.

The members advocate the abolishment of state interference in road and bridge building and hold that the county commissioners are fully capable of expressing the road policies of their respective counties.

Change Game License Law.

Mr. Farmer, if he would a hunting go, must hie himself to the proper official and produce $1 for a license. Leastwise he will have to do so if the senate concurs in a bill passed by the house. The present law requires that a hunting license is necessary only for the person who would hunt beyond the confines of his own county. The amendment adopted requires every hunter more than 21 years of age to obtain a license unless he is hunting on his own lands or the lands of a near relative.

UNIVERSITY APPROPRIATIONS CUT BY SENATE COMMITTEE

Three-quarters of a million dollars in round figures was lopped off the University of Minnesota's request for funds to maintain it for the next two years by the senate finance committee acting with the house committee on appropriations.

Extension courses of the institution were hit the hardest, the agricultural extension course having suffered a cut of $40,000 and the university extension courses having suffered a decrease of $35,000.

The board of regents of the university asked for $3,887,450. The senate and house committees allowed the budget with a decrease of $773,140, making the total amount appropriated for the next two years to improve and maintain the university $3,114,310.

SENATE KILLS BILL TO RAISE RAILROAD RATES.

Railroads of Minnesota will not get their rates raised at the hands of this legislature. The bill giving them an increase in rates was killed in the senate railroad committee. Even the author, when he learned the trend of the committee, voted to postpone the mill indefinitely.

The committee went into the bill thoroughly, having held two public hearings at which James J. Hill, Edmund Pennington, president of the Soo line, and W. A. Gardner, president of the Omaha and Northwestern roads, presented arguments favoring a raise in rates to 2½ cents a mile. Attorneys for the various roads presented their arguments at another hearing.

BILL AIMED AT ELOPERS IS RECOMMENDED TO PASS

Favorable recommendation was given the bill prohibiting common law marriages by the house judiciary committee.

The measure, fathered by C. F. Southwick of Wells, would compel a lapse of five days between the time of marriage and the issuance of a license. This feature is directed at elopers.

A sworn statement as to physical condition of applicants for licenses also would be necessary.

Bill Creates New Office.

St. Paul, Minn.—Many measures were submitted on the last day that bills could be introduced during the remaining 20 legislative days of the present session.

When the house met, a motion prevailed to change the order of business to permit immediate introduction of bills and to permit their introduction throughout the day.

More than a score of measures were submitted and referred to committees.

A total of 1,115 bills were introduced in the house.

The bill creating the office of public defender in Minneapolis was passed without a dissenting vote by the house under suspension of the rules. Representative A. L. Lennon of Minneapolis introduced the bill.

The office of state supervisor of public safety would be created under a bill introduced in the house by Representative George Rorenberg of St. Paul.

Duties of the supervisor would include inspection of all public buildings owned by the state and submission of a report on their condition to the board of control. He also would teach fire prevention to employes of public buildings and would serve at a salary of $1,500 a year.

To Require Bond of Contestants.

Representative Frank E. Nimocks' bill compelling contestants for legislative seats to file a bond to cover expenses of the contest was passed under suspension of the rules. Under its provisions the contestants would pay their own expenses instead of imposing the costs upon the state.

The amendment to the workmen's compensation act, which recently passed the senate, were made a special order for Thursday in the house on motion of Representative John Sanborn of St. Paul, chairman of the house committee which reported out the amendments last week. Two bills touching on the same subject will be taken up at the same time.

Postpone Erection of Reformatory.

A bill that would postpone the building of the women's reformatory, was introduced in the senate by Senator A. J. Rockne and J. D. Sullivan. The bill appropriates $10,000 and directs the state board of control to acquire a site for the proposed reformatory and prepare plans for such an institution to be submitted to the legislature of 1917.

The bill is to be substituted for the bill appropriating $57,000 for the erection of such an institution.

Remove Land Buying Limit.

Senator I. H. Nord's bill that would open northern Minnesota lands to intensive development, by taking off the present 320 acre restriction, passed the senate by a vote of 36 to 20, after a debate of two hours.

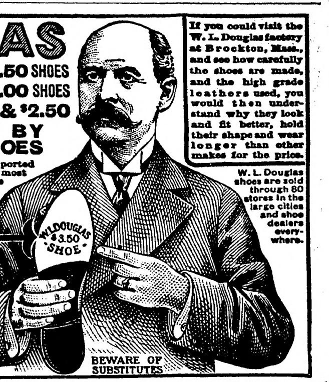
Liquor Bill Is Postponed.

Senator P. A. Gandrud's bill providing for a constitutional amendment prohibiting the sale of liquor was shelved by the senate committee on temperance.

Senate Bill Aimed at Law Students.

Senator James D. Denegre's bill providing that all law school graduates be compelled to take the state bar examination met with a hot fight on the floor of the senate. The present law allows students of the University of Minnesota law school to practice without such examination.

Senator A. J. Rockne moved that the bill be indefinitely postponed, which was lost by a vote of 17 to 31. The bill was then advanced to the calendar with a recommendation for passage.



W. L. DOUGLAS

MEN'S $2.50 $3 $3.50 $4.00 $4.50 $5 $5.50 SHOES
WOMEN'S $2.00 $2.50 $3.00 $3.50 & $4.00 SHOES
BOYS' $1.75 $2 $2.50 $3.00 MISSES' $2.00 & $2.50

YOU CAN SAVE MONEY BY WEARING W. L. DOUGLAS SHOES

W. L. Douglas shoes are made of the best domestic and imported leathers, on the latest models, carefully constructed by the most expert last and pattern makers in this country. No other make of equal prices, can compete with W. L. Douglas shoes for style, workmanship and quality. As comfortable, easy walking shoes they are unsurpassed.

The $3.00, $3.50 and $4.00 shoes will give as good service as other makes costing $4.00 to $5.00. The $4.50, $5.00 and $5.50 shoes compare favorably with other makes costing $6.00 to $8.00. Wherever you live, there are many men and women wearing W.L.Douglas shoes. Consult them and they will tell you that W. L. Douglas shoes cannot be excelled for the price.

CAUTION! When buying W.L. Douglas shoes look for his NAME AND PRICE stamped on the bottom. Shoes thus stamped are always worth the price paid for them. For 32 years W. L. Douglas has guaranteed their value and protected the wearer against high prices for inferior shoes by having his NAME AND PRICE stamped on the bottom before they leave the factory. Do not be persuaded to take some other make claimed to be just as good. You are paying your money and are entitled to the best.

If your dealer cannot supply you, write for Illustrated Catalog showing how to order by mail. W. L. Douglas, 210 Spark St., Brockton, Mass.

If you could visit the W. L. Douglas factory at Brockton, Mass., and see how carefully the shoes are made, and the high grade leathers used, you would then understand why they look and fit better, hold their shape and wear longer than other makes for the price.

W. L. Douglas shoes are sold through 80 stores in the large cities and shoe dealers everywhere.

It's a poor rule that won't work both ways, but a poorer one that won't work our way.

To the Point.

An Indianapolis man has a sister in a Canadian town, he had long ago placed in the list of old maids, who, largely if not wholly from filial devotion, are content to remain at home to comfort the parents. She was climbing rapidly to forty. He was dumfounded the other day to get a letter from her announcing that she had consented to tie up for the rest of her days with a man of high repute in her community. He wrote her thus:

Dear Sister:
(1) Well!
(2) He's lucky.

He has her answer:

Dear Brother:
(1) Sure!
(2) So am I.

—Indianapolis News

The Whole Truth.

Magistrate—Why did you beat your wife so unmercifully?

Prisoner—Well, yer honor, she aggravated me by sayin' she'd have me up before that baldheaded old fool, meanin' you, yer honor.

Magistrate—You're discharged.

Tuff Luck.

She—I hope you found all your friends well.

He—Yes; even my rich relations.

One Exception.

"Nearly all country sites are desirable, are they not?"

"No; not the summer parasites."

SOME HARD KNOCKS

Woman Gets Rid of "Coffee Habit"

The injurious action of coffee on the hearts of many persons is well known by physicians to be caused by caffeine. This is the drug found by chemists in coffee and tea.

A woman suffered a long time with severe heart trouble and finally her doctor told her she must give up coffee, as that was the principal cause of the trouble. She writes:

"My heart was so weak it could not do its work properly. My husband would sometimes have to carry me from the table, and it would seem that I would never breathe again.

"The doctor told me that coffee was causing the weakness of my heart. He said I must stop it, but it seemed I could not give it up until I was down in bed with nervous prostration.

"For eleven weeks I lay there and suffered. Finally husband brought home some Postum and I quit coffee and started new and right. Slowly I got well. Now I do not have any headaches, nor those spells with weak heart. We know it is Postum that helped me. The Dr. said the other day: 'I never thought you would be what you are.' I used to weigh 92 pounds and now I weigh 158.

"Postum has done much for me and I would not go back to coffee again, for I believe it would kill me if I kept at it. Postum must be prepared according to directions on pkg., then it has a rich flavor and with cream is fine."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms:

Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and with cream and sugar makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost per cup about the same.

"There's a Reason" for Postum.

Answered.

He doesn't belong to the ranks of the unemployed, and one feels certain that he is not financially embarrassed, but the way he turned down a man who tried to get him for a customer might have indicated that he was in either predicament.

"Wanna buy some horseradish?" asked a peddler who entered his place of business.

"Haven't any meat," he replied.

This statement was too much even for the peddler's gift of salemanship, and he immediately left the store without bandying words.

WHAT IS CHIROPRACTIC?

(Ki-ro-prak-tik)

The science of Chiropractic is based upon a correct knowledge of the brain, spine, spinal cord and nerves emanating therefrom. Pressure on a nerve at the opening where it leaves the spine, will cause disease in that organ or tissue in which the nerve ends. The Chiropractor, after locating the place of the pressure (by vertebral palpation and the tracing of the tender nerves) adjusts, by hand, the subluxated (displaced) vertebrae which removes the pressure and enables "Nature" to restore normal conditions—HEALTH. Geo. A. Newsalt, D. C., Fargo's Pioneer Chiropractor, Fargo, N. D. Adv.

Appearances.

"A great many highly intellectual people smoke cigarettes," said the young man.

"Of course, they do," replied Miss Cayenne. "In fact, I don't believe anybody who isn't well known for intellect is warranted in taking the risk of looking foolish."

The War Tax.

The traveler had just handed a bellhop a 15-cent tip.

"Excuse me," said the hop obsequiously, "but since the war tax went into effect there's one cent added to all tips of fifteen cents or over."

ALLEN'S FOOT-EASE for the TROOPS Over 100,000 packages of Allen's Foot Ease, the antiseptic powder to shake into your shoes, are being used by the German and Allied troops at the Front because it rests the feet, gives instant relief to Corns and Bunions, hot, swollen aching, tender feet, and makes walking easy. Sold everywhere, 25c. Try it TODAY. Don't accept any substitute. Adv.

Its Kind.

They are going to make a list of sending provisions to Germany by the parcels post."

"I see. A case of mailed fist."

Too many men spend their money before getting it.

Poor Henry.

"It is quite clear that Mrs. Peck is the ruling power in that household."

"Yes, indeed. Poor Peck isn't even recognized as a belligerent."

When a man begins to go downhill his neighbors usually get busy and push.

Official Denial

No War Tax on Homestead Land in Canada

The report that a war tax is to be placed on Homestead lands in Western Canada having been given considerable circulation in the United States, this is to advise all enquirers that no such tax has been placed, nor is there any intention to place a war tax of any nature on such lands. (Signed) W. D. Scott, Supt. of Immigration, Ottawa, Canada, March 15th, 1915.

Cooks Fast, Slow or "Fireless"

You can cook *three ways* with this NEW PERFECTION with the insulated oven. By adjusting the flame you get the quickest kind of quick heat for fast baking, or the slow steady kind you need for baking bread and roasting. Seal the oven and turn out the flame and you have a fireless cook stove—the easiest managed, most convenient fireless that was ever invented.

The insulation keeps the heat in the oven and out of the kitchen. This saves fuel all the year 'round and is a blessing in the summer. A spacious cabinet top warms up the dishes, there is ample room behind the burners for keeping food hot.

Burns oil—clean, convenient, economical. Why carry coal and wood *in* and dirty ashes *out* when with a NEW PERFECTION all you need is matches. *Price amazingly low*—this splendid range and fireless cooker combined costs very little more than a good fireless and less than any coal or wood range that would begin to do the same work.

See this *NEW PERFECTION Wick Blue Flame Cook Stove* at your dealer's. He has it in two sizes, as well as a big line of other NEW PERFECTIONS. Look for the triangle trademark.

72-page cook book free for five 2-cent stamps to pay for mailing.
